BUSINESS TRAINING COURSE

JOB No. 1

Reference: FULL-KEYBOARD ADDING-LISTING MACHINE COURSE, Third Edition, Agnew and Pasewark, South-Western Publishing Company, Cincinnati 27, Ohio.

JOB TITLE: ADDITION Zeros; One- and Two-Digit Numbers

INTRODUCTION:

The student should possess a high degree of ability in operating the full-keyboard adding machine when this course is completed. The operating techniques learned will also be useful in operating the various bookkeeping and posting machines using this type of keyboard.

In the first job, you will learn the various operating parts and keys on your machine, and how to add zeros, one-and two-digit numbers.

PROCEDURES:

1. Find a picture of the machine which you are using on pages v to vii, and identify the various operating keys.
2. Read page viii and note correct position at the machine as shown in the illustration.
3. Read and study text material, pages 1 to 4.
4. Work problems 1 to 20 on pages 3 and 4. Record your answers on the reverse side of this job sheet. DO NOT WRITE IN THE TEXTBOOK OR TEAR OUT PAGES.
5. Re-work the 20 problems checking the answers obtained the first time you worked them. If the second working gives a different answer work the problem a third time and record the answer which proves to be correct.

BUSINESS TRAINING COURSE**JOB No. 2**

Reference: FULL-KEYBOARD ADDING-LISTING MACHINE COURSE, Third Edition, Agnew and Pasewark, South-Western Publishing Company, Cincinnati 27, Ohio.

JOB TITLE: ADDITION - Three-Digit Numbers

INTRODUCTION:

Always remember to depress keys for as many digits as possible simultaneously. This procedure may seem to be more time consuming at first, but after some practice will add greatly to your speed and accuracy.

PROCEDURES:

1. Read textbook material on pages 5 to 7.
2. Work problems 1 to 22 on pages 5 to 7, and record your answers on the reverse side of this job sheet.
3. Complete Timed Drill on page 8, carefully following the instructions on page 8, except that you will write the answers on the reverse side of this job sheet instead of in the book.
4. Repeat timed drill if time permits.
5. Turn in job sheet to your instructor.

BUSINESS TRAINING COURSE

JOB No. 3

Reference: FULL-KEYBOARD ADDING-LISTING MACHINE COURSE, Third Edition, Agnew and Pasewark, South-Western Publishing Company, Cincinnati 27, Ohio.

JOB TITLE: ADDITION Four-, Five-, and Six-Digit Numbers; Non-Add Key

INTRODUCTION:

This job teaches the best methods for indexing four, five, and six-digit numbers. Larger numbers will give no trouble if they are split up into convenient two digit groups for indexing on the machine keyboard.

PROCEDURES:

1. Complete Warm-Up Drill "A" on page 10. Follow the instructions given for the warm-up drill except that you will record your answers and number of digits in the space provided on this job sheet.
2. Read Textbook material on page 9 and complete problems 1 to 15 on pages 9 and 10.
3. Read Textbook material on pages 11 and 12.
4. Complete problems 16 to 27 on pages 11 and 12.
5. Do Timed Drill, problems 1 to 4 in the usual manner following the instructions on page 8.

JOB TITLE: SPEED DRILL-ADDITION

INTRODUCTION:

This job is designed to increase your speed and accuracy in operating the full keyboard adding-listing machine.

PROCEDURES:

1. Complete the 28 problems writing the answers in the blanks provided on the back of this job sheet.
2. Work the problems again, checking the first answers. If the answer does not agree with the first answer, write the second answer in the second blank. Record your time.
3. Repeat the drill a third time if you have sufficient time.
4. Do the Three-Minute Checkup on page 20 and record the results. Follow instructions in textbook on page 20.

JOB TITLE: MULTIPLICATION, Short Cut Method

INTRODUCTION:

Multiplication by the short cut method combines repeated addition and repeated subtraction. It is used to reduce the number of machine operations in completing multiplication problems when digits 6, 7, 8, or 9 appear in the multiplier.

PROCEDURES:

1. Complete Warm-Up Drill "C" on page 46. Record results on this job sheet in the spaces provided.
2. Study textbook material on page 45 and 46 and work problems 1 to 15.
3. Read instructions on page 47 and work problems 16 to 28.
4. Read instructions on page 48 and work problems 29 to 32.
5. Complete Timed Drill, problems 1 to 10 on page 48 and record results in the usual manner.

BUSINESS TRAINING COURSE

JOB No. 14

Reference: FULL-KEYBOARD ADDING-LISTING MACHINE COURSE, Third Edition, Agnew and Pasewark, South-Western Publishing Company, Cincinnati 27, Ohio.

JOB TITLE: DISCOUNT AND NET AMOUNT

INTRODUCTION:

It is important that the student learn, as early as possible in his training, the definitions for the terms on page 49. Once a thorough understanding of the terms is gained, the computation becomes simple.

PROCEDURES:

1. Complete Warm-Up Drill "C" on page 46. Compute digits and record results in the usual manner.
2. Study textbook materials on page 49 and work problems 1 to 10. Ask your instructor about any definition or procedure that you do not understand.
3. Read textbook instructions on page 50 and work problems 11 to 15.
4. Read textbook instructions on page 51 and work problems 16 to 22.
5. Read suggestions on how to improve your work on page 52 and complete Timed Drill in the usual manner.

ANSWERS
WARM-UP DRILL "C", PAGE 46

JOB TITLE: SPEED DRILL - ADDITION

INTRODUCTION:

This job is designed to improve your speed and accuracy in operating the full keyboard adding-listing machine.

PROCEDURES:

1. Complete the 28 problems writing the answers in the blanks provided on the back of this job sheet.
2. Work the problems again, checking the first answers. If the answer does not agree with the first answer, write the second answer in the second blank. Record your time.
3. Repeat the drill a third time if you have sufficient time.
4. Do the Three-Minute Checkup on page 36 and record the results. Follow instructions in textbook on page 53.

JOB TITLE: DIVISION - Decimals in Dividend and Divisor

INTRODUCTION:

The full keyboard adding listing machine is not designed for division, however, division problems can be worked by multiplying the dividend by the reciprocal of the divisor.

PROCEDURES:

1. Complete Warm-Up Drill "C", page 46.
2. Read and study textbook instructions on pages 57 and 58. Discuss with instructor if there is anything you do not thoroughly understand. Work problems 1 to 15.
3. Read textbook instructions on page 59 and work problems 16 to 25.
4. Complete Timed Drill, problems 1 to 15 in usual manner.

JOB TITLE: CREDIT BALANCES

INTRODUCTION:

Credit balance on the adding machine means that the sum of the subtracted items is greater than the sum of the added items. Some machines print a true credit balance; other print the compliment of the answer which can easily be converted as shown on page 61 of your textbook.

PROCEDURES:

1. Complete Warm-Up Drill "C" on page 46. Compute digits and record results in the usual manner.
2. Read textbook, pages 61 and 62 and work problems 1 to 20.
3. Read textbook page 63 and work problems 21 to 26.
4. Complete Timed Drill, problems 1 to 15 on page 64 in the usual manner.
