THIS DOCUMENT HAS BEEN REPRODUCED EXACTLY AS RECEIVED FROM THE PERSON OR ORGANIZATION ORIGINATING IT. POINTS OF VIEW OR OPINIONS STATED DO NOT NECESSARILY REPRESENT OFFICIAL OFFICE OF EDUCATION POSITION OR POLICY.

INSTRUCTIONS FOR ANNUAL EVALUATION REPORT

FOR FISCAL YEAR 1967

SCHOOL YEAR 1966-67

PUBLIC LAW 89-10

ELEMENTARY AND SECONDARY

EDUCATION ACT

of 1965

Dept. of Public Instruction

INSTRUCTIONS FOR COMPLETING TITLE I - PROJECT EVALUATION

This annual evaluation report is to be completed by every local and county educational agency serving as an administrative agency for a Title I project. The information requested on this part of the report is an accounting of information concerning the activities and services provided by this project and a summarization of data collected to measure progress toward the objectives of the project. A copy of this form must be completed for each project administered by a local or county educational agency.

PRELIMINARY INSTRUCTIONS:

Date evaluations due: September 1, 1967

Return to: Title I Evaluation

Box 700

Spearfish, South Dakota 57783

All information must be furnished except where not applicable and if this is the case in some areas, write in "not applicable." Remember, every category must be filled in before the evaluation will be accepted.

NOTE: Evaluations not received by Sept.1, 1967 will be returned to the State Department of Public Instruction with the recommendation that schools not satisfactorily completing the evaluation be denied funding for the year 1967-1968.

- Item 1. Provide a brief descriptive title of the project. This is the title used to identify the project on the fiscal year 1967 application form.
- Item 2. Enter the State and local project number. Thuse are the numbers assigned to the project by the State and local education agency at the time the project was approved.
- Item 3. Check only one answer.
- Item 4. Enter the total amount of funds approved for this project after all amendments. Insert the last number of the total amount in the box at the right. The remaining boxes are then completed and zeros are inserted in any unused boxes to the left of the last number.

Examples:

\$41,234.25 is entered in this manner.

041234.25

\$52,475.00 is entered in this manner.

10|5|2|4|7|5|.00

Item 5. Enter the total amount of funds committed for this project. This includes all expenditures.

NOTE: Expenditures are defined by the U.S. Office of Education as the actual disbursement of cash plus the total of all unliquidated obligations.

Example: A local educational agency has <u>disbursed \$25,175.15</u> during the project. In addition, it has outstanding <u>obligations</u> in the amount of \$1,417.16. Both of these figures are to be included in the total amount of expenditures requested in Items 5, 6 and 10.

- Item 6. Enter the total amount of funds committed for each of the categories requested in this item.
- Item 7. Enter the total number of mobile facilities purchased or rented in the categories requested.
- Item 8. Indicate the coordination achieved between this project and the local community action agency.
- Item 9. This item requests information on cooperative projects.

Item 9A. Indicate if this is a cooperative project by checking yes or no.

ANSWER ITEMS 9B AND 9C ONLY IF THE ANSWER TO ITEM 9A IS YES.

- Item 9B. Enter the total number of local educational agencies that participated in this project.
- Item 9C. Do you intend to continue this project in fiscal year 1968?

 Please check either yes or no.
- Item 10. Indicate if this project provided the staff with in-service training by checking either yes or no.

ANSWER ITEMS 10B, 10C and 10D ONLY IF THE ANSWER TO ITEM 10A IS YES.

Enter in I tems 10B and 10C only the number of individuals who received eight or more clock hours of organized in-service education or training the cost of which was paid from Title I funds. Do not count individuals who received in-service training merely by participating in periodic meetings of the project staff.

Item 10D requests the total amount of funds committed for all in-service training in this project. This may include such expenditures as tuition, fees, book allowances, transportation, per diem and contracted services.

Item 11. This item requests information only on the staff of this project.

Item 11A. Indicate the entire staff of this project by specific assignments.

NOTE: Some of the same staff members may be listed more than once. For example, a remedial teacher may be employed during the regular school year and also in the summer school. In this case, the teacher would be listed in either Column 2, 3 or 4 and also in Column 5.

- Columns 2, 3 and 4. Enter in these columns only staff who were employed during the regular school year.
- Columns 2 and 3. Enter in these columns only staff members who were new employees hired as a result of this project.
- Column 2. Enter the number of new employees who were hired full time.
- Column 3. Enter the number of new employees who were hired less than full time.
- Column 4. Enter the number of regular staff who were assigned paid responsibilities in this project (either full time or part time responsibilities).
- Column 5. Enter the number of staff who were employed in summer school. *

 (Summer school staff already listed as regular school year staff will be listed a second time.)
- Column 6. Enter the number of paid staff members indicated in Columns 2, 3, 4 and 5 who received in-service training.

NOTE: See Item 10 for a définition of in-service training.

- Column 7. Enter the number of unpaid volunteers who assisted this project.
- Column 8. Enter by type of assignment the total number of positions approved but not filled.
- Item 11B. Enter the total number of professional staff (paid employees only) who had temporary approval to serve in the positions they held in this project.
- Item 11C. Enter the total number of unpaid volunteers who received in-service training in this project.

NOTE: See Item 10 for a definition of in-service training.

- Item 11D. Enter the total number of cutside consultants or professional specialists employed in this project. This includes only individuals not under contract to the local educational agency and not included in Item 11A. This would include such individuals as a university professor paid to conduct an in-service training program, a clinical psychologist retained on a temporary basis to provide evaluations of a few children, a local physician compensated for physical examinations for project children, etc.
- Item 11E. Indicate Yes or No as indicated.
- Item 11F. Consultants from a private firm would be any consultant not a member of a University of College staff.
- Item 12. This item requests information only on children attending non-public schools

who participated in this project.

- Item 12A. Indicate yes to the item only if children from non-public schools participated in one or more activities and services in this project.
- Item 12B. ANSWER ONLY IF RESPONSE TO ITEM 12A IS YES.

Enter in the appropriate boxes the total number of non-public children who participated by the categories requested. Children may be listed more than once if they participated in more than one of the categories requested.

Item 13. Enter in this item by categories requested the number of children who participated in these categories in this project.

This is to include all children regardless of enrollment, i.e., public school children, non-public school children and children not enrolled in any school at the beginning of the Title I project.

- Enter the total number of children in this project receiving the services listed in Column 1. In cases where a child received these services in both the regular school year and the summer school, count the child twice; once for regular school and again for summer school.
 - Column 2. Enter the total number of children in this project receiving services during the regular school year.
 - Column 3. Enter the total number of children in this project receiving services during the summer school.
- Item 13B. Enter the total number of children participating in this project who may be classified in the five categories in this item.
- Item 13C. Enter the total number of parents of children participating in this project who received the types of benefits indicated in this item.
- Item 14. Enter in this item the information requested which describes the evaluation design used in this project and the information obtained as a result of this evaluation design.
 - Item 14A. Check the <u>one</u> evaluation design which best describes the evaluation design used in this project. If "Other" is checked, please explain briefly the evaluation design used in this project.
 - Item 14B. Check either yes or no.
 - Enter the project activities and services judged most effective in meeting the objectives of the project. Please enter the one most effective activity or service. You may enter as many as

three activities or services. However, do not enter more than one activity or service unless there is good reason to judge these additional activities and services as very effective in meeting the objectives of the project.

- Column 1. Enter the name of the effective activity or service.
- Column 2. Enter the numbers of the grades that participated in this activity or service. Abbreviate pre-school (P), kindergarten (K), and ungraded groups (U).
- Column 3. Enter briefly the most important factor or factors contributing to the success of the activities or services entered in Column 1.
- Item 14D. Enter the one project activity or service you judged least effective in meeting the objectives of the project. If you judge all of the project activities and services to be effective, please enter the word 'None'.
 - Column 1. Enter the name of the one activity or service judged least effective.
 - Column 2. Enter the numbers of the grades that participated in this activity or service. Abbreviate pre-school (P), kindergarten (K), and ungraded groups (U).
 - Column 3. Enter briefly the most important factor contributing to the ineffectiveness of the activity or service entered in Column 1.
- Item 14E. Indicate briefly the most important problem you encountered in the evaluation of this project. If no problem was encountered, please enter the word 'None'.
- Item 14F. Indicate 'None' if no problems were encountered.
- Item 15. Indicate in this item the activities and services conducted in this project.

 Be certain to use the appropriate code numbers when completing this item.
 - NOTE: Indicate only the most important activities and services. Do not list every possible activity or service. For example, a remedial reading activity may utilize the services of a teacher associate. If the teacher associate assisted in the remedial reading activity exclusively, it would not be necessary to list this individual as a separate activity. However, if the teacher associate was used to assist regular classroom teachers in one or more rooms, it would be appropriate to list this individual as a separate activity.
 - Column 1. Enter the most appropriate code numbers for the most important activities and services conducted in this project. If necessary, to cover variations in such factors as objectives, length of activity, grades included, etc., it may be necessary to list the same activities or services more than once.

Select the code from the list below.

Column 2. Enter the most appropriate code numbers for the grade level of the children served in this activity or service. It may be necessary to enter more than one code number if more than one of the grade levels listed below was included.

Select the code from the list below.

Code	Grade Level
1	Pre-kindergarten/Kindergarten
2	Grades 1 - 3
3	Grades 4 - 6
4	Grades 7 - 9
5	Grades 10 - 12

- Columns 3, 4, and 3. Enter the total number of children who participated in this activity or service.
- Column 3. Enter the total number of children participating in this activity or service who attended public schools.

- Column 4. Enter the total number of children participating in this activity or service who attended non-public schools.
- Column 5. Enter the total number of children participating in this activity or service who were not enrolled in any school at the beginning of the Title I project.
- Column 6. Enter the most appropriate code numbers for the objectives which this activity or service is designed to meet. It may be necessary to enter more than one code number if this activity or service was designed to meet more than one objective. However, it is important to limit the number of objectives entered to the one or two most important objectives. It is not necessary to enter every possible objective.

Select the code from the list below.

Code	Objective	Code	Objective
	Achievement		Behavior
11	measured by standardized achieve-	41	To improve the childrens' average daily attendance
12		42 43	To decrease the dropout rate To reduce the rate and severity of disciplinary problems
13		44	To improve and increase the childrens' attention span
14		45	To increase participation in organ- ized school activities
15	To improve classroom performance as measured by teachers' grades		
16	To improve study skills		
	Ability		Conditions Related to Learning
21	To improve performancy as measured by standardized tests of intel-	51	To improve the physical health of the children
	lectual ability	52	To improve the nutritional health of
22	To improve childrens' verbal functioning		the children
23	To improve childrens' non-verbal functioning	53	To improve the childrens' emotional and social stability
24	To improve school readiness	54	To provide adequate clothing for child- ren
		55	To provide more appropriate educational materials and equipment for
	Attitudes		the children
31	To improve the childrens' self-		

32

To change attitudes toward school

and education

- 33 To raise occupational and/or educational aspirational levels
- 34 To increase the expectation of success in school
- 35 To develop an appreciation for the arts
 - Column 7. Enter the appropriate code numbers for the evaluation instruments used to measure progress toward the objectives entered in Column 6. It may be necessary to enter more than one code number if more than one evaluation instrument has been used. However, it is important to limit the number of evaluation instruments entered to those that are most significant. Do not attempt to enter every possible evaluation instrument.

Select the code from the list below.

Code	Evaluation Instrument
11	Standardized Achievement Test
12	Standardized Intelligence Test
13	Standardized Aptitude Test
14	Standardized Interest Inventory
15	Standardized Attitude Inventory
16	Other Standardized Tests or Inventories
17	Locally Devised Tests
18	Teacher Made Tests
19	Locally Devised Inventories
21	Teacher Rating Scales
22	Anecdotal Records
23	Observer Records
24	Teacher Grades
25	Attendance Records
26	School Health Records
27	Records of Participation in Organized school Activities
28	Reading Records
29	Parent Questionnaires

Column 8. Enter the code number which most appropriately describes the degree of success achieved by the activity or service in meeting the stated objectives.

Select the code from the list below.

Code	Degree of Success
1	Substantial progress achieved
2	Some progress achieved
3	Very little progress achieved
4	No progress achieved

Column 9. Enter the code numbers which most appropriately describe the factors that contributed most to the success of this activity

or service in meeting the stated objectives. Enter the one or two important factors that contributed most to the success of the project. Do not list every possible factor.

Code	Factor Contributing to Success
11	This activity had been under study for some time and we were able to implement it without difficulty when Title I funds became available.
12	Adequate staff was available.
13	New materials and equipment were essentially responsible for the success.
14	Needed physical facilities were easily obtained.
15	In-service training experiences.
16	This was essentially an extension of an already successfully operating activity.
17	No problems encountered scheduling activity as far as time was concerned.
18	The relative simplicity of organizing cols type of activity.
19	Only activity where our evaluation instruments were able to demonstrate measurable progress.

Column 10. Enter the code number which most appropriately describes the one factor that represented the greatest weakness in this activity or service. If no weakness was observed in this activity or service, please enter the word 'None'.

Select the code from the list below.

Code	Greatest Weakness
11	Obtaining adequate professional staff.
12	Obtaining adequate non-professional staff.
13	Equipment and supplies were late in arriving.
14	Inadequate planning time.
15	Inadequate physical space to conduct project activities.
16	Inadequate evaluation design.
17	Scheduling problems during school day.
18	Failed to motivate children sufficiently.
19	Parental opposition.

Column 11. Indicate the length of time this activity or service was operated by entering in this column the actual number of weeks that this activity or service was made available to children. If the entire activity or service was operated during the summer school, please place the letter 'S' before the number which indicates the number of weeks.

Examples: An activity was operated for fourteen weeks during the regular school year.

ENTER 14

An activity was operated for six weeks during the summer school only.

ENTER S6

Column 12. Enter the code numbers which most appropriately describe the special types of children who participated in this activity or service. Enter a code number here only if all or a major portion of the children in the activity may be described by one of the codes listed below. In many cases, these codes will not be appropriate since the majority of the children in the activity or service cannot be characterized by these descriptions. If such is the case, please enter the word 'None'.

Select the code from the list below.

Code	Special Types of Children
11	School dropouts.
12	Delinquent children.
13	Children from migrant families.
14	None-English speaking children.
'15	American Indian children.
16	Crippled children.
17	Hard of hearing or deaf children.
18	Mentally retarded children.
19	Seriously emotionally disturbed children.
21	Speech impaired children.
22	Visually handicapped children.
23	Other health impaired children.

Item 16. Enter in this item the results of standardized tests and other types of data used to evaluate the activities and services described in Item 15.

NOTE: An illustration of a completed Item 16 is presented on page 23.

- Enter in this item the results of standardized tests used to measure progress toward the objectives identified in Item 15. Please observe the following suggestions when completing this item.
 - 1. Enter the results of no more than two different tests for any one grade. The form allows space for recording the pretest and posttest results for two standardized tests for each grade. You may have administered more than two standardized tests for a particular grade in your evaluation design. However, we are requesting that you submit data on no more than two tests.
 - 2. Record test results by grade only on the actual children who participated in the project. You may have administered a test to all twenty-five children in a grade. However, if only ten of these children participated in this project, record the test results for only these ten children.

- 3. An opportunity is offered to record both pretest and posttest results for standardized tests. If you are not able
 to record both a pretest and a posttest, please record the
 results of the single administration of the test in the
 appropriate space; i. e., a test administered price to or
 near the beginning of the project should be recorded on the
 line identified PRE, and a test administered at the conclusion of a project or later should be recorded on the line
 identified POST.
- 4. Record the results only of a single subject area test or test battery subtest that measures the objectives of the project.

 Do not record the composite results of an entire standardized achievement test battery.
- 5. Where decimal numbers are obtained, please round off all decimal numbers to the nearest hundredth.
- Column 1. Enter the number of the grade you are reporting. Abbreviate pre-school (P), kindergarten (K) and ungraded groups (U).
- Column 2. Enter the name of the standardized test you are reporting.

 Please record the exact name of the test.
- Column 3. Enter the name of the exact subject area test that is being recorded.
 - Example: If you are reporting the results of the reading subtest of the Continental Achievement Test Battery, you would simply record the name of the subject area, READING.
- Column 4. Enter the exact form of the standardized test you are reporting.
- Column 5. Enter the date the test you are reporting was administered. Enter only the month and year.
- Column 6. Enter the code number of the objective that was measured by this standardized test.
 - NOTE: Refer to the coded list of Item 15, Column 6, to obtain the correct code number.
- Column 7. Record the number of children participating in this project for whom you are reporting test results on this line.
- Record the mean raw score for the number of children participating in this project for whom you are reporting test results on this line. The mean raw score is simply the arithmetic average; i. e., the total number of correct responses for each child divided by the total number of children.
- Column 9. Record the raw score standard deviation for the number of children participating in this project for whom you are reporting test results on this line. The standard deviation

is a statistic used to express the extent of the deviations from the mean for the distribution. It is obtained by taking the square root of the mean of the squares of the deviations from the mean of a distribution.

The following example illustrates a relatively simple method for obtaining the standard deviation.

METHOD FOR DETERMINING STANDARD DEVIATION (Short Method)

Column 10. Enter the norm group used for comparison purposes when reporting the percentile results of this test administration. This would in most cases be a national, state or local group.

Example: If you are comparing the project participants with a national norm group of fifth grade children, enter 5 NAT.

- Column 11. Enter the number of children participating in this project for whom you are reporting test results on this line who have percentile scores between 0 24.
- Column 12. Enter the number of children participating in this project for whom you are reporting test results on this line who have percentile scores between 25 49.
- Column 13. Enter the number of children participating in this project for whom you are reporting test results on this line who have percentile scores between 75 99.
- Item 16B. Enter in this item the results of evaluation data (other than standardized tests) used to measure progress toward the objectives identified in Item 15. Please observe the following suggestions when completing this item.
 - 1. Enter the results of no more than two different types of evaluation data for any one grade. The form allows space for recording the pretest and posttest results for two different types of evaluation data for each grade. You may have used more than two types of evaluation data for a particular grade in your evaluation design. However, we are requesting that you submit the results of no more than two types of evaluation data.
 - 2. Record evaluation data by grade only on the actual children who participated in the project. You may have collected evaluation data on all twenty-five children in a grade. However, if only ten of these children participated in the project, record the results for only these ten children.
 - 3. An opportunity is presented to record both pretest and posttest results for two types of evaluation data. If you are
 unable to record both a pretest and a posttest, please record
 the results of data collected in the appropriate space; i. e.,
 data collected prior to or near the beginning of the project
 should be recorded on the line identified PRE, and data collected at the conclusion of a project or later should be recorded on the line identified POST.
 - Column 1. Enter the number of the grade you are reporting. Abbreviate pre-school (P), kindergarten (K) and ungraded groups (U).
 - Column 2. Enter the type of evaluation data you are reporting. Please be as specific as possible in ideatifying the type of data.

- Column 3. Enter the date when the data was collected. Enter only the month and year.
- Column 4. Enter the code number of the objective that was measured by this evaluation data.
 - NOTE: Refer to the coded list of Item 15, Column 6, to obtain the correct code number.
- Column 5. Enter the number of children participating in this project for whom you are reporting evaluation data on this line.
- Column 6. Enter a brief summary of the results of the evaluation data collected. Please be as specific as possible.

Item 17. Instructions.

Column 1. From the list below enter the characteristics (with corresponding code numbers) which are most common among the educationally deprived children in the eligible attendance areas and are sufficiently severe to indicate a need for the services of a Title I project.

Code	CHARACTERISTICS	Code	CHARACTERISTICS
	Achievement		Behavior
11	Poor performance on standardized tests	41	High absentee rate
12	Classroom performance significantly below grade level in reading	42 43	High dropout rate Disciplinary problems
13	Achievement significantly below grade	44	Short attention span
13	level in other skill areas	45	Other behavior characteristics
14	Other achievement characteristics (specify)	10	(specify)
	(opodziy)		Characteristics Related to Learning
	Ability		Difficulties
21	Poor performance on standardized tests	51	Poor health
	of intellectual ability	52	Malnutrition
22	Low level in verbal functioning	53	Emotional and social instability
23	Low level in non-verbal functioning	54	Lack of clothing
24	Other ability characteristics (specify)	55	Other (specify)
	Attitude		Handicapped
31	Negative self-image	61	Mentally retarded
32	Negative attitude toward school and education	62 63	Hard of hearing Deaf
33	Low occupational and educational	64	Speech impaired
•	aspiration level	65	Visually handicapped
34	Expectations of school failure	66	Seriously emotionally distrubed
35	Other attitude characteristics	67	Crippled
- 3	(specify)	68	Other health impaired

Column 2. Use the following abbreviations to indicate the grade levels of children whose characteristics are listed in column 1:

P-Prekindergarten E-Elementary K-Kindergarten S-Secondary

Column 3. Enter the number of children having the characteristics listed in column 1.

Item 18. Select the code from the list below.

Code	Cultural								
1	Poor home	environment							
2	Indian pop	ulation							
3	Migrant wo								

- 4 Linguistic problem
- 5 Limited cultural opportunity
- 6 Rural area
- Item 19. Information requested relative to ADA and ADM must be furnished for the 1966-1967 school year. If the information is available for the previous two years please include.

DEFINITIONS:

Average Daily Attendance (ADA)- The aggregate days attendance of a given school during a given reporting period divided by the number of days school is in session during this period. Only days on which the pupils are under the guidance and direction of teachers should be considered as days in session. The reporting period is generally a given regular school term. The average daily attendance for groups of schools having varying lengths of terms is the sum of the average daily attendance obtained for the individual schools.

Average Daily Membership (ADM)-The aggregate days membership of a given school during a given reporting period divided by the number of days school is in session during this period. Only days on which the pupils are under the guidance and direction of teachers should be considered as days in session. The reporting period is generally a given regular school term. The average daily membership for groups of schools having varying lengths of terms is the sum of the average daily memberships obtained for the individual schools. For purposes of obtaining statistical comparability only, pupil=staff ratios involving kindergarten and nursery pupils attending a half-day session are computed as though these pupils are in membership for a half day.

Item 20. Dropout study. All information requested must be furnished.

DEFINITION:

Dropout--A pupil who leaves a school, for any reason except death, before graduation or completion of a program of studies and without transferring to another school.

- Item 21. Please include short narrative statement for each Title on the form. Write 'None' if area does not apply.
- Item 22. Check only one of the methods.
- Item 23. Continuing education worksheet. Fill in as requested. Write 'None' if not applicable.

Total School means ADA and ADM for actual students in Title I programs only. Keep the two categories separate.

See instructions for definitions of "Average Daily Attendance" and "Average Daily Membership".

Purpose: To obtain % of attendance.

ADA and ADM should be computed for total school district and Title I participants by grade. Note:

Total Dropouts per Grade Year 1966-1967 Fotal No. in Grade Total Dropouts p⊜r Grade Year 1965-1966 Total No. in Grade Total Dropouts per Grade TotalNo Total Drop in Grade per Grad Grade 10 9 ∞ 9 S 4 m 7
