DESCRIPTORS- QUESTIONNAIRES, SURVEYS, *VOCATIONAL DIRECTORS, *VOCATIONAL EDUCATION, ADMINISTRATOR ATTITUDES, *ADMINISTRATOR ROLE, SCHOOL DISTRICTS, PROGRAM EVALUATION, LEADERSHIP TRAINING, PROGRAM PLANNING, ADMINISTRATIVE ORGANIZATION,

A QUESTIONNAIRE, DESIGNED TO DISCOVER WAYS IN WHICH THE STATE STAFF COULD PROVIDE MORE EFFECTIVE SUPPORT TO LOCAL VOCATIONAL DIRECTORS AND PREPARED BY THE RESEARCH COORDINATING UNIT AT THE REQUEST OF THE STATE ADMINISTRATOR FOR VOCATIONAL AND TECHNICAL EDUCATION, WAS DISTRIBUTED TO VOCATIONAL DIRECTORS IN A SUMMER WORKSHOP. CONCLUSIONS BASED ON 20 RESPONSES AND DISCUSSIONS WITH INDIVIDUAL DIRECTORS INDICATED THAT ONE OF THE BETTER WAYS TO DEVELOP THE EXPERIENCE OF DIRECTORS IN ALL ASPECTS OF THEIR DUTIES IS FOR THE STATE OFFICE PERSONNEL TO WORK WITH, OR THROUGH, THEM IN ALL MATTERS PERTAINING TO THEIR DISTRICTS. THE DIRECTOR WILL THEN BE ABLE TO FACILITATE PROGRAM EXPANSION AND THE IMPROVEMENT OF QUALITY WHILE RETAINING CONTROL AND DIRECTION. THE ANNUAL SUMMER WORKSHOP IS VERY IMPORTANT TO DIRECTORS FOR UPDATING THEIR KNOWLEDGE IN VOCATIONAL AND TECHNICAL EDUCATION. RECOMMENDATIONS WERE THAT (1) STATE SPECIALISTS DEAL WITH, OR THROUGH, VOCATIONAL DIRECTORS OR DISTRICT SUPERINTENDENTS ON ALL MATTERS PERTAINING TO THE DISTRICTS, (2) THE AGENDA FOR THE SUMMER WORKSHOP FOR THE DIRECTORS BECOME THE RESPONSIBILITY OF THE STATE ADMINISTRATOR FOR VOCATIONAL AND TECHNICAL EDUCATION, AND (3) A FINAL ATTEMPT TO ENCOURAGE THE DISSEMINATION OF THE RESULTS OF THE PEABODY STUDY BE MADE IN WRITING TO DISTRICT SUPERINTENDENTS. Background and Purpose

At the request of the State Administrator for Vocational and Technical Education, the Research Coordinating Unit prepared a questionnaire for use at the summer vocational conference at Utah State University, 5-9 June 1967. The questionnaire was designed to provide information in the areas of training, planning, organization and evaluation as these areas pertain to the Vocational Directors.

Sample

The questionnaire was distributed to the Vocational Directors in a meeting of their section at the summer vocational workshop on 5 June 1967. Twenty of the questionnaires were completed and returned during the week by directors representing both large and small districts throughout Utah.

An opportunity was provided for the directors to ask questions about the questionnaire prior to its completion and submission; none were raised.

Preparation of Questionnaire

The categories of information were compiled after discussion with the Administrator, Mark Nichols, with several of the State Vocational Specialists, and with the RCU Associate Director, Austin Loveless.

The draft questionnaire was briefed to Mark Nichols, his changes were incorporated and the final questionnaire was printed. A copy is attached as enclosure 1.

Results of Questionnaire

The compilation of the answers received is attached as enclosure 2, but in brief, the answers to the questions posed indicate the following:

- a. The Vocational Director's time is primarily concerned with administrative matters, although his responsibility for planning, training and evaluating is recognized.
- b. The majority of Directors favor the continuation of the June vocational conferences and the continuation of the winter UVA workshop for training and orientation purposes.
- c. Few Directors have recent experience in industry, and must rely on summer workshops (particularly the June Vocational Workshop) to update their knowledge. Few subscribe to individual University courses during the school year, or enroll in post-secondary summer school programs.
- d. Vocational advisory committees exist in most districts, and most committees met during the spring.

e. Two-thirds of the respondents hold administrators' certificates and three-fourths belong to the UVA, AVA, UEA, and NEA.

f. The Future Farmers of America is the most effective student club, and the Future Homemakers is second.

g. The Vocational Directors do not want the State Specialists working directly with the individual teachers, but prefer that Specialists work directly with Directors, and only with teachers when requested.

h. The majority of the districts have not conducted "Little Peabody" conferences.

Conclusions

The following conclusions are based on the completed questionnaires, plus discussions with individual directors:

a. As the population in the State grows and vocational education offerings expand, more and more of the success of these vocational programs will depend on the expertise of the Vocational Directors. One of the better ways to develop the experience of the Directors in all aspects of their duties (administration, planning, training, operation and evaluation) is for the State Office Personnel to work with, or through, the Directors in all matters pertaining to the districts. This will tend to cause a Director to become the focal point for all matters pertaining to vocational education for the personnel of his district. Efficient assumption of all responsibilities by Vocational Directors will allow program expansion and quality improvement while retaining control and direction.

b. The annual Summer Vocational Workshop at Utah State University is a major device employed by the Directors to update their knowledge in vocational and technical education. The Winter UVA Workshop is also a valuable training tool.

c. The majority of the Vocational Directors did not attach sufficient importance to the Peabody Study to schedule "Little Peabody" conferences in their districts.

Recommendations

It is recommended that the following actions be initiated immediately:

a. That State Specialists deal with, or through, Vocational Directors or District Superintendents on all matters pertaining to the districts, and that a written notice of this intention be sent to all districts.

b. That the agenda for the summer vocational workshop for the Director's Section become the responsibility of the State Administrator for Vocational and Technical Education rather than remain the responsibility of the President of the Administrators Section of the UVA, since this appears to be the main training session for most of the Directors. The State Administrator could discuss policy and administrative matters with the Directors, each Specialist could be allotted time to explain new programs, trends, etc., to the Directors, the RCU Director could present an overview of the status of vocational research in the state, the Liaison

with Industry Representative could describe the status of coordination among the public schools, labor and industry, and the Fiscal Agent could discuss financial matters.

c. That one final attempt be made in writing to the District Superintendents/Vocational Directors, encouraging the dissemination of the results of the Peabody Study to the vocational education personnel of the districts.

Distribution: Internal, plus one to each Vocational Director

QUESTIONNAIRE FOR VOCATIONAL DIRECTORS

The purposes of this questionnaire are to discover ways in which the State Staff can provide more effective support to the Vocational Directors; and to cause the Vocational Directors to ponder the effectiveness of their endeavors.

Organization
