Project Title: Student Library Resource Requirements in Philadelphia

Date: March , 1969

- 1. Statement of study objectives: The purposes of the project are (1) to determine actual requirements for library and related resources on the part of elementary and secondary students in Philadelphia, and to evaluate existing library resources in terms of needs and standards and, (2) on the basis of these data, to outline the respective roles of the several school systems and the public library system in providing needed resources, including joint planning, facilities and technological innovations. Specifically, the goals of the study are:
  - a. To determine the kinds and extent of library resources required by students in pre-elementary, elementary, and secondary schools in Philadelphia, now and in the future.
  - b. To determine the availability and adequacy of library resources now provided for students in Philadelphia.
  - c. To determine what is required (1) to effect greater use of existing library resources by students and (2) to make those resources more accessible.
  - d. To determine what additional library resources are needed to meet student requirements.
  - e. To define the roles of the school and public libraries in providing resources for students, including joint and centralized services.

#### 2. Title and purposes of data-gathering instruments.

a. Elementary school student questionnaire.

b. Secondary school student questionnaire.

Information obtained through these two questionnaires will be analyzed to determine the extent of student motivation and knowledge in the use of library resources, the nature of student demand for various kinds of library resources, the pattern of student use of resources and the basic reasons therefore, and the major obstacles to more effective utilization of resources by students.

c. School library use checklist.

Information from this checklist will be analyzed to measure actual demand for school library resources during a stated period of time (one or two weeks duration) and to assess the success or failure of students to obtain resources in the school libraries.

d. School library questionnaire.

Information obtained from school library personnel will be analyzed to determine the relevance of school library programs to student educational programs and student needs, and to compare library resources and services with student requirements and library standards. (The latter information will be compiled through other instruments.)

e. Public library questionnaire.

Information will be analyzed to determine the nature and extent of student demand for public library resources the kinds of resources and services provided for student use, the presence or absence of cooperative arrangements by public libraries and school libraries

for meeting student needs, and major problems related to student use of public library resources.

f. Public library patron use checklist.

Information will be analyzed to compare the size and nature of demand for public library resources by student and non-student groups.

#### 3. Respondents (Pretest only)

#### a. Elementary student questionnaire.

- (1) Will be administered to approximately 180 students.
- (2) Grades 4 and 6 in public, Archdiocesan, and independent schools will be covered.
- (3) Classes selected for pre-test will be representative of both average and low-achievement students.
- (4) 30 to 40 minutes will be required to complete questionnaire.

#### b. Secondary student questionnaire.

- (1) Will be administered to approximately 150 students.
- (2) Grades 8, 10, and 12 in public schools, 10 and 12 in Archdiocesan schools, and 10 in independent school will be covered.
- (3) Classes selected for pre-test will be representative of both average and low-achievement students.
- (4) 30 to 40 minutes will be required to complete questionnaire.

#### c. School library questionnaire.

- (1) Will be administered to library personnel in three elementary and three secondary school libraries.
- (2) Approximately 45 minutes will be required to complete the questionnaire.

#### d. Public library questionnaire.

- (1) Will be administered to head librarians in three public libraries.
- (2) Approximately 35 to 45 minutes will be required to complete the questionnaire.

#### e. School library use checklist.

- (1) Will be administered to all students using the libraries in one elementary and two secondary schools for a period of one day (peak-use days will be selected).
- (2) Approximately two to three minutes will be required to complete the checklist-card.

#### f. Public library patron use checklist.

(1) Will be administered in a major public library (either the main library or a large branch library) to all patrons during a busy Saturday.

- (2) Approximately two to three minutes will be required to complete the checklist-card.
- 4. Locale of the study City of Philadelphia
- 5. Statistical analysis of data none. The purpose of the pre-test is to determine how reliable the instruments are from the standpoint of providing the information requested, to check on the efficiency and effectiveness of the procedures involved in administering the instruments, and to correct any deficiencies in either. Data will be tabulated mechanically as a test of tabulation methods.
- 6. Estimated cost of designing data gathering instruments; printing; administration of pre-tests; follow-up and tabulation; and revisions of instruments \$10,000.

7. Confidentiality.

The names of respondents will appear on student and library questionnaires (not on library use checklists.) Names will be used only for the purpose of follow-up to obtain complete information and to select small groups for subsequent interviewing.

All information will be kept confidential during the study and will be available in summary form (without any identification of individual respondents) for reporting to the Study Committee and authorized school and library personnel. Names of respondents will not be preserved for any research or record-keeping activities.

#### Philadelphia Student Library Resource Requirements Project

#### PROJECT INFORMATION

#### 1. What is the "Student Library Project"?

- The project has two purposes: One, to determine actual requirements for library and related resources on the part of elementary and secondary students in Philadelphia; and, two, on the basis of these data, to outline the respective roles of the several school systems and the public library in providing the needed resources, including joint and centralized facilities and new technological systems.
- The first year of the project, now nearing completion, is devoted to project planning, research design, and construction and pre-testing of information instruments (questionnaires, etc.). Pretests of the instruments will be conducted in seven public, four Archdiocesan, and one independent schools and in four Free Library branches during the weeks of May 18th and May 25th.
- The second year of the project, commencing June 15, 1969, will be devoted to compilation and analyses of data to be compiled through extensive field research, using the data instruments tested in May, 1969. The results of the analyses will be presented to the Inter-Agency Committee for consideration of joint planning and other actions for carrying out recommendations resulting from the study.

#### 2. What is the scope of the project?

The study will include pre-elementary, elementary and secondary students in the public, Archdiocesan, independent and private schools in Philadelphia. It will include library resources of all kinds - reading materials, audiovisual materials and equipment, personnel, facilities and services of the school libraries and the Free Library.

#### 3. Who is sponsoring the study?

- The study is a cooperative undertaking by the Philadelphia public, Archdiocesan, private, and independent schools in the city, and by the Free Library. Representatives of the schools and the Free Library are members of the project's Inter-Agency Committee.
- A grant by the U. S. Office of Education to the Philadelphia School District will finance the study for the first and second years.

#### 4. How is the project organized?

A research center for the project has been set up in two offices (S-11 and S-12) of Park Towne Place, 2200 Benjamin Franklin Parkway. The center staff is under the direction of John Q. Benford, Senior Associate, Fels Institute of Local and State Government, University of Pennsylvania. Assisting him are Thomas E. Entenmann, Research Associate, Elizabeth A. Goldsmith, Research Assistant, and Anna Rogers, clerk-typist. The research staff has retained several specialist-consultants, including Dr. Lowell A. Martin, nationally-known authority in library service, and Dr. Martin Rosenzweig, Assistant Professor of Statistics of the Wharton School.

(cont'd)

5. How will the schools and Free Library be involved in the project?

In two ways:

- (1) Information will be obtained from a sample of students, teachers, and librarians. The information will be compiled through the use of written questionnaires, interviews and observations in the classrooms and libraries.
- (2) The Inter-Agency Committee, composed of 29 representatives of public, Archdiocesan, independent and private schools and Free Library, will provide coordination and inter-agency cooperation for the project. Administrators, teachers, librarians, parents, and students are represented on the Committee.
- 6. What potential benefits from the project are there for the schools and the libraries?
  - (1) The total needs of all elementary and secondary school students in Philadelphia for library resources, now and in the future, will be determined on the basis of an intensive inquiry which will consider not only what educational authorities and standards call for, but also what teachers assign and students seek.
  - (2) With reliable information on requirements in hand and with a careful evaluation of existing resources, the provision of additional resources can be undertaken on the basis of rational planning.
  - (3) Methods will be devised for making existing library resources more easily available and more effectively utilized. New technological and scientific approaches to library management will be explored.
  - (4) The project is sponsored jointly by the Philadelphia public, parochial, and private school systems and the Free Library, through the Inter-Agency Committee. This cooperative effort will serve the students of the community more fully and will use the library dollar more effectively. Joint planning of new resources and of methods for making existing resources more easily available to all students will minimize costly duplication and overlapping of facilities, personnel, and services.
  - (5) The information compiled for the project will be helpful to administrators, teachers, librarians, and others in a variety of ways over and beyond the central purposes of the project.
  - (6) The project, by reason of its comprehensiveness, methodology, and joint agency participation, will be a prototype for use by other major school and library systems in the United States.

#### STUDENT LIBRARY PROJECT

# INSTRUCTIONS FOR TEACHERS WHO WILL ADMINISTER STUDENT QUESTIONNAIRES

- 1. Check the materials which have been given to you against the delivery sheet (pink form) to make certain that you have all items listed. If any items are missing, please call the Research Center at LO 3-7223. Extra pencils have been included in case students need them during the period.
- 2. Because the proper coding of the pupil's name, grade, date of birth and sex is most critical for accurate scoring and reporting, arrangements should be made to prepare the answer sheets with the following information before administering the questionnaire.

#### Use a No. 2 pencil which is provided.

- a. Print student's name in boxes provided (disregard middle initial).
- b. Grid name (blacken letter slot below each letter of name).
- c. Blacken Grade slot below number indicating grade.
- d. Blacken Birth Date (month, and the last 2 digits of the year of birth).
- e. Blacken sex B-boy, G-girl.
- f. For high school students please indicate the type of course in which they are enrolled (commercial, vocational, academic, general).

The answer sheets have been given to you in SERIAL ORDER. When registering the above information, be sure to register the students' names so that the SERIAL NUMBERING of the answer sheets follows the alphabetic arrangement of the names of the students in your class. That is to say, the lowest numbered answer sheet should be assigned to the student who is first when the names of the students are arranged alphabetically; the next lowest numbered sheet should be assigned to the student who is listed second in alphabetic order, etc. Prior to testing, the answer sheets may be rearranged in accord with the seating arrangement in your classroom.

- 3. Just prior to the time of administration arrange materials at the front of the room to allow for quick distribution of materials.
- 4. When your students are ready, begin:

Today we are going to take part in a study of student library needs. You will be given a booklet which has questions about your use of libraries. Your answers to these questions may help us to get better library materials. Please answer all the questions. This is not a test. There are no right or wrong answers, and you will not be graded on your answers. Read each question carefully before answering it. When you receive your booklet, do not open it until I tell you to do so. Do not write in the booklet. All of your answers are to be made on the special answer sheet which I will give you.

- 5. Distribute questionnaires, answer sheets, and pencils. Make certain that each student has a questionnaire, an answer sheet and a pencil.
- 6. After the materials have been distributed, instruct the students to open their questionnaires to page 1.

Now open your booklets to page one and together we will read the instructions for using your answer sheet.

Read the instructions on page 1 and page 2 aloud.

7. When you have finished reading the instructions on pages 1 and 2, ask if there are any questions:

Are there any questions about how you are to use your answer sheets?

8. Instruct students to turn to page 3 of the questionnaire:

For grades 4 through 8 read the following instructions:

Now turn to page 3. There are 80 questions in your booklet. They are divided into 4 sections. Do not stop when you reach a new section. Answer each question beginning with question 1, except for questions 51, 52, 53, 54, 55, and 56. These have been crossed out on your answer sheet and on your questionnaire. When you reach these questions just skip over them and continue with the others. Now before we begin, are there any questions?

NOW, BEGIN

For grades 9 through 12 read the following instructions:

Now turn to page 3. There are 80 questions in your booklet. They are divided into 4 sections. Answer each question, beginning with question 1. Do not stop when you come to a new section, but answer each question in order. Do not skip any questions. Now, before we begin, are there any questions?

NOW, BEGIN.

9. Allow 35 minutes for your students to complete their answers. When the time is up, instruct them to stop, even though some may not be finished.

Now close your booklets and pass them to the front of the room.

Now pass your answer sheets to the front of the room.

Now pass your pencils to the front of the room.

- 10. When you have collected all of the questionnaires and answer sheets, please check carefully to make certain that you have an answer sheet from each student.
- 11. Make arrangements to check your materials before packing them to be sent to your school office. Use (pink) check sheet. Check answer sheet for any stray marks which will affect scoring.

Thank you for your help.

#### INSTRUCTIONS FOR RECORDING ACHIEVEMENT TEST SCORES

The individual achievement score for each student participating in the pre-test is to be recorded on the student's <u>answer sheet</u>. In the lower part of the grided area of the sheet are three columns labeled "A.S.". This is the area reserved for the achievement test score of the student whose name appears in the boxes at the top of the grided section. The score to be recorded is the <u>GRADE EQUIVALENT SCORE</u>. For the recording of all scores use a soft lead pencil.

Enter the grade equivalent score in the boxes under "A.S.". A two-digit score should be entered in the 2nd and 3rd boxes. Enter a "0" in the 1st box for this type of score. A three-digit score will, of course, occupy the three boxes. Darken the corresponding numbered slots beneath the numbers you have entered.

# INSTRUCTIONS FOR TSING ANSWER SHEET

All of the answers to the following questions are to be recorded on the separate answer sheet on which your name and other information have already been recorded. In order to answer the following questions you are to:

- 1. Read the question and select the answer you want to give. Remember the <u>letter</u> which is in front of the answer you want.
- 2. Find the row of boxes which is numbered the same as the question which you are answering.
- 3. Fill in with your pencil the box whose letter is the same as the letter in front of your answer.

#### Example:

- 1 What is Philadelphia?
  - (a) a river
  - (b) a city
  - (c) a famous person

The answer, of course is  $(\underline{b})$  <u>a city</u>. You would put your answer on the answer sheet by finding the row of blocks numbered  $\underline{1}$  and filling in the box under the letter  $\underline{b}$ .

Some of the questions allow you to print your own answer. For these questions do the following:

- 1. Fill in the block on your answer sheet that has the same letter as your answer.
- 2. Turn your answer sheet over and <u>print</u> your answer on the <u>line</u> which is numbered the same as the question you are answering.

# Example:

1

- 1 What is Philadelphia?
  - (a) a river
  - (b) a famous person
  - (c) Other (Print your answer on the back of the answer sheet)

### STUDENT LIBRARY RESOURCE REQUIREMENTS IN PHILADELPHIA

A cooperative project of the Philadelphia public, Archdiocesan, private, and independent schools and the Free Library of Philadelphia to determine the library resource needs of elementary and secondary school students.

# TEACHER QUESTIONNAIRE

Student Library Project Research Center S-12 Park Towne Place 2200 Benjamin Franklin Boulevard Philadelphia, Pa. 19130

May, 1969

Each of the questions is to be answered on the enclosed digitek answer sheet. To record an answer:

- 1. Decide which of the lettered answers on the questionnaire is your choice.
- 2. On the answer sheet find the row numbered the same as the number on your questionnaire.
- 3. On that row fill in the space between the lines whose letter corresponds to the letter of your chosen answer. Use a lead pencil. Be sure to make a dark mark and fill in the space completely.

Do not be concerned if the number of answer choices on the questionnaire does not correspond to the number of answer choices on the digitek answer sheet. Where your answer choice for a question includes the direction "Specify", as in question 47, record your answer on the answer sheet as you would with any other answer choice, but also write your answer in the space provided on the back of the digitek answer sheet.

# INSTRUCTIONS FOR COMPLETION OF QUESTIONNAIRE BY SCHOOL LIBRARY PERSONNEL

- 1. Please complete this questionnaire as soon as possible after you receive it so that it may be returned to the school office before Friday, May 23rd.
- 2. Please enter your name and school on the cover, in the upper right hand corner directly below "Questionnaire No.".
- 3. The questionnaire is divided into two sections. Please enter your answers to the questions in Section 1 directly on the questionnaire. A special answer sheet has been provided for Section 2 which begins on page 6. Use a soft lead pencil and completely fill in the slots on the answer sheet.
- 4. Before answering the questions in Section 2, fill in the following information on the answer sheet:
  - (1) Print your name in the boxes provided in the upper right hand section of the answer sheet.
  - (2) Darken in the letter slots corresponding to the letters in your name.
- 5. You have also been given a Questionnaire Evaluation Form in a separate envelope.

  DO NOT REFER TO THIS FORM until you have completed your questionnaire.

  After completing the questionnaire, please answer the questions on the Evaluation Form.
- 6. Where the Questionnaire Evaluation Form asks you to record a question number, please indicate whether the question is located in Section 1 or Section 2 by placing the number of the section in parentheses to the right of the question number 3 (2).
- 7. When you have completed the evaluation form please place your questionnaire, answer sheet, and evaluation form in the envelope which has been provided, and return it to your school office.
- 8. Thank you for your cooperation.

### Section 2

The following questions are to be answered on the enclosed digitek answer sheet. To record an answer:

- 1. Decide which of the lettered answers on the questionnaire is your choice.
- 2. On the answer sheet find the row numbered the same as the number on your questionnaire.
- On that row fill in the space between the lines whose letter corresponds to the letter of your chosen answer. Use a lead pencil. Be sure to make a dark mark and fill in the space completely.

Questions will be expressed in the following way:

Do not be concerned if the number of answer choices on the questionnaire does not correspond to the number of answer choices on the dig. ek answer sheet. Where your answer choice for a question includes the direction "Specify", as in question 34, record your letter answer on the answer sheet as you would with any other answer choice, but also write your answer in the space provided on the back of the digitek answer sheet.

  - (3) West Catholic Girls' High, 45th and Chestnut, District 1
    Librarian Sister Catherine Mary
    Date Friday, May 23rd
    Time 8 A M. 4:30 P. M.
    Number of checklists 400
    Supervisor Mr. Benford
    Research Assistants Mrs. Brunswick
     Mr. Bamford
- 2. Preparation of arrangements (prior to commencement of the library period)
  - (1) Instructions to graduate students Monday, May 19, 1969.
  - (2) Assembly and preparation of materials and equipment.
    - -Assemble and package checklists, pencils, and a retrieval box for collecting completed checklists. Monday, 5/19.
    - -Visit school libraries and check plans and arrangements with head librarian Wednesday, 5/14.
  - (3) Graduate students assemble at Research Center Office one hour prior to arrival time at schools (time to be checked with school librarians on May 14th). Students and the supervisor will drive to the school. Upon arrival at the school, they will proceed to (place to be determined by school librarian on the 14th).
  - (4) Supervisor will instruct graduate students to take their places inside the entrance to the library (or at another place to be determined on the 14th). Checklists should be stacked on a table, with smallest number on top. Pencils should be kept in box alongside the checklists. The retrieval box should be placed on the table or on the floor near the table.
  - (5) One of the graduate students should mark on a group of the checklists under "TIME IN" the letter "A".

## 3. Administration of checklist

(1) One of the graduate students will code the time on a copy of the checklist and hand it, along with a pencil, to the student as he or she enters the library. He should say, as he hands over the checklist:

Please take a few moments to read the instructions and answer the questions on this checklist before you leave the library.

If the student appears to be less than 11 or 12 years of age, ask him or her what grade he is in. If the grade is 1-2-3-or 4, enter that information and the time. Tell the student not to write on the form, but to turn it in when he leaves.

(2) The other graduate student will stop each student as he or she leaves the library. He should say:

May I have your checklist? Please wait a moment until I examine it.

He should then check quickly to make certain that each question has been answered. If one or more questions have not been answered, he should ask the student for the information and enter the answer in the appropriate slot. Then he should say to the student:

Thank you.

If a checklist has not been answered, ask the student to take a few moments to answer the questions. If he refuses, thank him and retrieve the checklist.

Before depositing the checklist in the retrieval box, he should enter the time when the student returned the checklist.

- (3) The graduate students should answer all questions asked by students about the checklist. If they do not know the answer, they should refer the student to the supervisor. They should not engage in conversation with students or teachers or library personnel.
- (4) Arrangements for lunch will be made by the supervisor.
- (5) When all students have left the library and it closes, materials should be assembled and re-packed. The supervisor is responsible for getting the students back to Park Towne Place or some other place mutually satisfactory to them.

## 4. Duties of the supervisor

FRĬC

- (1) Delivery to the school, and return to the office, of graduate students and materials.
- (2) Making arrangements with the school librarian for the pretest.
- (3) Supervision of the students during the pretest.
- (4) Answering questions of teachers, librarians, and other school personnel during the pretest.
- (5) Assisting the students when necessary. This includes replacing a student when he or she uses the rest rooms or lunch facility.

- (4) Mark a group of checklists "A". Set counter to "0". Set up poster.

# 3. Administration of checklists (Individual assignments outlined in Attachment "A")

- (1) Hand a checklist and a pencil to each person entering the library. Say:
  "Please take a few moments before you leave today to read the instructions and answer the questions on this form." If anyone refuses to take a form or appears reluctant, do not press the issue. The counter should record each person entering, whether or not he or she accepts the checklist.
- (2) The time should be entered on the checklist before it is handed to the patron.
- (3) Children under 12, unaccompanied by an adult or older child should be given a checklist, with the admonition: "Do not write on this form, but please hand it in on your way out of the library." If the child is accompanied by an older person, each should be given a checklist, with the comment. "Please fill in the form for yourself and the child and turn in on your way out".

(4) Blind, or otherwise incapacitated persons should not be given a checklist.

(5) Answer all questions of patrons about the survey. Problems should be referred to the supervisor on duty. Do not engage in conversation with patrons.

(6) Retrieve all checklists from patrons leaving the library. If a patron does not have a checklist, say "Would you please take a few moments to answer the questions on this form?" If a patron is reluctant, or refuses to return a checklist, merely say "Thank you."

(7) As each checklist is retrieved, enter the time "out". Place the checklist face down in the retrieval box. As each box is filled, it should be closed and

an empty box should replace it.

(8) Accept any pencil offered, but do not ask for the pencil.

(9) NOTE: Some patrons will not be familiar with the digitek form and may have difficulty using it. Be prepared to assist anyone who requests, or appears to be in need of help. If necessary, read the questions to him and fill in the slots for him.
