TITLE Abstracts of Instructional Materials in Vocational and Technical Education (AIM), Fall 1969.

INSTITUTION Ohio State Univ., Columbus. Center for Vocational and Technical Education.

Spons Agency Office of Education (DHEW), Washington, D.C.

Pub Date 69

Note 176p.

Available from ERIC Clearinghouse for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210 (Quarterly - Fall, Winter, Spring, Summer, \$9.00 per year)

EDRS Price MF-\$0.75 HC-\$8.90

Descriptors Agricultural Education, \*Annotated Bibliographies, Business Education, Clearinghouses, Distributive Education, Health Occupations Education, Home Economics Education, Indexes (Locators), Industrial Arts, \*Instructional Materials, \*Technical Education, Trade and Industrial Education, \*Vocational Education

Abstract

This quarterly publication announces the availability of instructional materials acquired and processed by the Educational Resources Information Center (ERIC) Clearinghouse on Vocational and Technical Education. It should be of particular interest to teachers, curriculum specialists, supervisors, and administrators involved in curriculum development or the use of instructional materials in the teaching-learning setting. Each abstract, a condensation of the report in about 200 words, usually includes the means used to develop the material, the setting for use of the material, and source of available copies. Abstracts are included under the following sections: Agricultural, Business and Office, Distributive, Health Occupations, Home Economics, Industrial Arts, Technical, Trade and Industrial, and General Vocational and Technical Education. An author index, document number index, and subject indexes are provided. Most of the documents which have not been announced in "Research in Education," are available as a separate microfiche set from the ERIC Documents Reproduction Service (VT 009 856). Others are available from the source identified in the abstract. (CD)

The Center for Vocational and Technical Education has been established as an independent unit on The Ohio State University campus with a grant from the Division of Comprehensive and Vocational Education Research, U.S. Office of Education. It serves a catalytic role in establishing consortia to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach, and inter-institutional in its program.

The major objectives of The Center follow:

1. To provide continuing reappraisal of the role and function of vocational and technical education in our democratic society;
2. To stimulate and strengthen state, regional, and national programs of applied research and development directed toward the solution of pressing problems in vocational and technical education;
3. To encourage the development of research to improve vocational and technical education in institutions of higher education and other appropriate settings;
4. To conduct research studies directed toward the development of new knowledge and new applications of existing knowledge in vocational and technical education;
5. To upgrade vocational education leadership (state supervisors, teacher educators, research specialists, and others) through an advanced study and inservice education program;
6. TO PROVIDE A NATIONAL INFORMATION RETRIEVAL, STORAGE, AND DISSEMINATION SYSTEM FOR VOCATIONAL AND TECHNICAL EDUCATION LINKED WITH THE EDUCATIONAL RESOURCES INFORMATION CENTER LOCATED IN THE U.S. OFFICE OF EDUCATION.

Abstracts of Instructional Materials in Vocational and Technical Education is a quarterly publication (Fall, Winter, Spring, Summer) published by the ERIC Clearinghouse on Vocational and Technical Education. Subscription is \$9.00 per year. Send order to ERIC Clearinghouse, The Center for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210. Contents of this publication may be reprinted freely without requesting permission, providing appropriate credit is given to the Clearinghouse.

## PREFACE

Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and the companion publication Abstracts of Research and Related Materials in Vocational and Technical Education (ARM) announce the availability of documents acquired and processed by the ERIC Clearinghouse on Vocational and Technical Education. AIM includes abstracts of materials typically designed for teacher use or student use in the classroom, and annotations of bibliographies or lists of instructional materials. It will be of particular interest to teachers, curriculum specialists, supervisors and administrators involved in the use of instructional materials in the teaching-learning setting, or in curriculum development. ARM incorporates abstracts of research and other materials which are useful to a wide audience of users such as researchers, supervisors, teacher educators, education specialists, administrators, teachers and others who have an interest in vocational and technical education. These publications prepared by the ERIC Clearinghouse on Vocational and Technical Education are published quarterly beginning with the Fall 1967 issue.

The ERIC Clearinghouse on Vocational and Technical Education is a division of the Center for Research and Leadership Development in Vocational and Technical Education located at The Ohio State University and is one of the clearinghouses of the Educational Resources Information Center (ERIC-USOE). With the growth of vocational and technical education programs, there is an increasing need for accessible information that can be used in developing logical chains of reasoning for research activities, for improving school practices and for shortening the theory-practice gap. This Clearinghouse is striving to provide a useful and vital function in dissemination of information on vocational and technical education. ARM and AIM give visibility to a document-based information system which constitutes an on-going data bank of research and resource materials in vocational and technical education. Following are some of the benefits derived from this data base:

- \* A central source of information to be reviewed and synthesized into state-of-the-art papers, critical reviews, interpretive papers, etc.
- \* A resource which includes different kinds of materials, e.g., instructional materials, descriptive reports, survey reports, dissertations, conference proceedings, program plans or procedures, research reports.
- \* Provision for availability of primary source materials through the ERIC Document Reproduction Service (EDRS) and/or other distribution agencies.
- \* A source of bibliographies and a resource for development of bibliographies.
- \* A source of materials for different user groups (i.e., administrators, supervisors, teacher educators, teachers, legislative and advisory bodies) with information needs in such diverse areas as teaching and learning, manpower needs and requirements, research design and methodology, evaluation.

Since this Clearinghouse is a component of a larger information system, ERIC, it is logical that certain similarities among publications exist. In this regard the format of ARM and AIM is similar to that of Research in Education (RIE)<sup>1</sup>, the primary publication of the Educational Resources Information Center (ERIC). RIE

---

<sup>1</sup>Research in Education is published 12 times a year. The first issue was no. 1, November 1966. Subscription: Domestic \$21.00 a year; foreign \$5.25 additional. Single copy: Domestic, \$1.75. Send check or money order (no stamps) to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

includes abstracts from all ERIC Clearinghouses. The abstracts of materials reported in AIM relate specifically to the educational field of vocational and technical education and constitute a segment of ERIC, the national information system for American education.

In addition to the two quarterly publications, Abstracts of Research and Related Materials in Vocational and Technical Education (ARM), and Abstracts of Instructional Materials in Vocational and Technical Education (AIM), other publications will be issued from time to time. These will typically concern themselves with reviewing and synthesizing information in specific areas of vocational and technical education, e.g., Review and Synthesis of Research in Technical Education; Agricultural Education; Home Economics, etc., and with reviewing and synthesizing information related to topical areas such as the economics of vocational and technical education.

We are indebted to our colleagues within the profession for their cooperation in forwarding materials to the clearinghouse and for their suggestions and comments which have materially assisted in the development of this program. We anticipate further refinement and improved procedures with the continued assistance of our advisory committee.

Robert E. Taylor  
Director

## INTRODUCTION

### Organization of ABSTRACTS OF INSTRUCTIONAL MATERIALS IN VOCATIONAL AND TECHNICAL EDUCATION

Abstracts of Instructional Materials in Vocational and Technical Education relies upon two basic formats--resumes and indexes--to serve the browser and those seeking specific information. The resumes are organized according to vocational service groupings in the first section of the document. Under each grouping, the resumes are arranged by Vocational Technical (VT) number which is an identification number assigned to reports as they are processed. Resumes contain an abstract which indicates the contents of a document in two hundred words or less. Additional components of a resume are explained in a diagram on page ix immediately preceding the resume section.

Several indexes are located after the resume section to provide specific approaches to documents reported in the resume section. These indexes are:

Personal and Institutional Author Index  
Document Number Index  
Conversion of Document Number (VT to ED or MP, ED or MP to VT)  
Subject and Identifier Index

All of the indexes refer to page numbers in this publication to enable the reader to quickly locate any resume of interest.

### Availability of AIM

AIM is published quarterly (Fall, Winter, Spring, Summer). The first issue began Fall 1967. At this time the four issues for the period Fall 1967 - Summer 1968 and the AIM-ARM Annual Index 1967-68 (ED 022 064) MF - \$.50 or HC - \$6.45 are available only on microfiche or facsimile copy. Annual subscriptions are available beginning with Fall 1968. Microfiche or facsimile copy for all previous issues may be ordered from ERIC Document Reproduction Service, The National Cash Register Company, 4936 Fairmont Avenue, Bethesda, Maryland 20014. Please write to EDRS for order forms.

ED 013 337	Fall 1967 AIM	MF - \$ .75	or	HC - \$ 9.35
ED 015 336	Winter 1967 AIM	MF - \$1.00	or	HC - \$10.50
ED 017 745	Spring 1968 AIM	MF - \$ .75	or	HC - \$ 9.95
ED 020 441	Summer 1968 AIM	MF - \$ .75	or	HC - \$ 8.95
ED 023 936	Fall 1968 AIM	MF - \$ .75	or	HC - \$ 9.30
ED 028 302	Winter 1968 AIM	MF - \$ .75	or	HC - \$ 8.45
ED 030 769	Spring 1969 AIM	MF - \$ .75	or	HC - \$ 8.70
ED (See Jan. '70 RIE)	Summer 1969 AIM	MF - \$ .75	or	HC - \$ 8.30

Subscriptions for hard copy may be initiated with the Fall 1968 issue, or subsequent issues. Send order indicating quarter and year that subscription is to begin to:

ERIC Clearinghouse  
The Center for Vocational and Technical Education  
1900 Kenny Road  
Columbus, Ohio 43210

## Availability of Materials Reported in AIM

A basic concept of the ERIC system is to make known the availability of the full text of materials abstracted. Most of the materials processed into the ERIC system with an ERIC Document (ED) number will be available from the ERIC Document Reproduction Service (EDRS) in the form of microfiche or facsimile copy. There is an EDRS availability line with each abstract which indicates if a document may be obtained from EDRS. If a document is not available from EDRS, the agency and address from which the document may be obtained is in the resume. Microfiche or facsimile copy must be ordered by ED (ERIC Document) number since EDRS is not set up to respond to requests for materials by subject, author, or title. AIM and ARM indexes can be used to determine ED numbers which relate to problem areas. Always check the most current issue of RIE for the latest price schedules and ordering procedure for microfiche (MF) and facsimile copy, called hard copy (HC).

Materials with ED numbers are announced in Research in Education (RIE) as well as AIM or ARM. These are available as individual documents through EDRS or another source. Documents with VT numbers only are not announced in RIE but are included in AIM and ARM. They are not available as individual documents from EDRS but as part of a VT-ERIC set. Microfiche for an individual document in one of these sets is obtainable only through purchase of the set or from agencies that have this set and have the capability of reproducing microfiche. Reports in these sets are identified in the resume by the phrase MF AVAILABLE IN VT-ERIC SET. The documents are grouped in VT number sequence in the microfiche set for each issue of AIM or ARM. Each set is announced in RIE under a single (ED) number. The Fall 1967 - Summer 1968 Microfiche Collections contain documents with VT numbers only and ED documents. Beginning with Fall 1968, the microfiche set contains the documents which have only VT numbers. Thus the microfiche collection for a particular issue of ARM now contains the items in that issue of AIM which have the statement, MF AVAILABLE IN VT-ERIC SET, in the resume. These sets may be ordered from EDRS. Information to be used in ordering the sets for AIM follows:

### AIM Microfiche Collections

<u>AIM</u>	<u>ED Number</u>	<u>Microfiche</u>
Fall 1967	ED 013 339	\$22.25
Winter 1967	ED 015 349	\$40.25
Spring 1968	ED 017 746	\$54.00
Summer 1968	ED 020 442	\$53.00
Fall 1968	ED 022 971	\$38.50
Winter 1968	ED 028 305	\$41.00
Spring 1969	ED 030 770	\$58.00
Summer 1969	ED (See Jan. '70 RIE)	\$86.00

It should be noted that organizations which have standing orders with EDRS for the total microfiche collections in RIE will automatically receive the ARM and AIM microfiche collections. If an organization wishes to order only the materials abstracted by VT-ERIC which are announced in RIE and are on microfiche, a standing order may be initiated with EDRS for a VT-ERIC package. This package will automatically include the ARM and AIM microfiche collections. Contact EDRS for information about cost of current or retrospective VT-ERIC packages.

Availability Key for Materials Reported in AIM

<u>Accession Number</u>	<u>Availability on Microfiche</u>
ED number supplied	ERIC Document Reproduction Service (EDRS) provided that the information is shown on EDRS price line.
ED appears with reference to an RIE issue (e.g., ED (See Aug. '69 RIE)	If a price is given for microfiche, the fiche is unavailable from EDRS (at time of printing) until an ED number is assigned and published in RIE. The issue of RIE in which the abstract is scheduled to appear follows the ED prefix. After assignment of numbers has been made by Central ERIC, the Conversion of Document Number Index in each succeeding issue of AIM will include numbers for documents listed with an ED and RIE date in the previous issue.
VT number only supplied	Available on microfiche in VT-ERIC set from EDRS as indicated.
Items not available through EDRS or in a VT-ERIC set will usually have a source of availability cited on the availability line in the abstract.	

ERIC Document Reproduction Service (EDRS)

The ERIC Document Reproduction Service (EDRS) is operated by The National Cash Register Company. Request order forms from:

EDRS  
The National Cash Register Company  
4936 Fairmont Avenue  
Bethesda, Maryland 20014

Prices for microfiche and/or hard copy undergo occasional changes which become effective when announced in Research in Education. EDRS prices cited in AIM and ARM reflect the prices in effect at the time of publication. Retrospective use of AIM and ARM requires attention to the most recent price schedules and ordering information which is available in a current issue of RIE.

Scope of the Clearinghouse

The Clearinghouse on Vocational and Technical Education is responsible for acquiring, processing, and disseminating research reports, instructional materials, information analysis products and other resource materials related to vocational and technical education. In addition to this general area, coverage includes the specific occupational fields of agricultural education, business and office occupations education, distributive education, health occupations education, home economics education, technical education, trade and industrial education, and new sub-professional fields. The clearinghouse scope also encompasses the related fields of industrial arts education, manpower economics, occupational psychology,

and occupational sociology. The following subject categories when specifically oriented to vocational-technical education and its related fields are included in the scope of the clearinghouse: administration and supervision, curriculum, employment and occupations, evaluation and measurements, facilities and equipment, historical studies, individuals with special needs, instructional materials and devices, philosophy and objectives, research design and development, occupational guidance and other student personnel services, students, teachers, teacher education, teaching and learning.

#### Acquisitions

The adequacy of information in this publication, as well as other services of this clearinghouse, is directly related to the extensiveness of the information acquired and processed into the system. This Clearinghouse has assumed the initiative in obtaining as much of the available information as possible. However, it is impossible for any organization to achieve complete and comprehensive coverage of a field as vast as vocational education without the cooperation and assistance of the profession. The growth and ultimate effectiveness of the system require supplemental efforts of its users. Any person in the vocational or technical field is invited to forward to the Clearinghouse two copies of items relating to vocational-technical education for possible inclusion in the system. Questions relating to this endeavor should be directed to the Acquisitions Specialist at the Center.

SAMPLE RESUME

Accession Number--  
an identification  
number sequentially  
assigned to reports  
as they are processed.

Author(s)--the  
individual(s) who  
prepared the report.

EDRS Price--price of  
the document through  
the ERIC Document  
Reproduction Ser-  
vice. "MF" means  
microfiche; "HC"  
means hardcopy.

Report Number would  
appear here.

If item cited ap-  
peared originally  
in a journal, a  
journal citation  
would appear here.

Publication Date.

Total number of  
printed pages in  
the report, in-  
cluding cover and  
appendices.

Identifiers would  
appear here. These  
are acronyms, geo-  
graphical areas,  
conferences, orga-  
nizations, tests  
(e.g. Binet), etc.  
Only the major  
identifiers preceded  
by an asterisk are  
printed in the index.

Abstract--a con-  
densation of the  
report in about  
200 words. When  
applicable, it in-  
cludes the purpose,  
means of develop-  
ment, subject-matter  
content, teacher  
competency, student  
requirements, and  
description of sup-  
plementary materials  
if available.

Medical Record Technology, A Course of Study Designed for  
Cooperative Part-Time Students Employed in Medical Record Libraries.

Missouri State Dept. of Education, Jefferson City. Industrial  
Education Section  
Missouri Univ., Columbia. Dept. of Industrial Education

EDRS PRICE MF-\$0.75 HC NOT AVAILABLE FROM EDRS.

Industrial Education, 103 Industrial Education Building, University  
of Missouri, Columbia, Missouri 65201 (\$1.50).

Pub Date - Aug64 136p.

\*STUDY GUIDES; \*HEALTH OCCUPATIONS EDUCATION; GRADE 11; POST  
SECONDARY EDUCATION; ASSIGNMENTS; \*COOPERATIVE EDUCATION; STUDENT  
RECORDS; \*MEDICAL RECORD TECHNICIANS

Designed for use by eleventh grade cooperative part-time students  
employed in medical record libraries, this guide may also be used  
in area vocational or post-high school settings. It was developed  
by a consultant committee, teacher educators, and research  
assistants at the state level and revised after use in the field...  
.....An analysis of medical record technology and progress  
records to be completed by the employer, teacher, and student are  
included. The material should be used with related instruction for  
individual students by a qualified coordinator or competent health  
occupations teacher. (JK)

If ED is followed by  
numbers, item has  
been announced in  
Research in Education.  
If ED is not followed  
by numbers, the issue  
of RIE in which the  
abstract is scheduled  
to appear follows the  
ED prefix.

Title of report.

Institutional Source--  
the organization  
responsible for the  
report.

Sponsoring Agency--  
would appear here if  
different than Insti-  
tutional Source.

Grant Number and  
Program Area Number  
would appear on this  
line.

Commercial, insti-  
tutional, and other  
sources of availabil-  
ity if known at time  
of printing. Cost  
is included.

Descriptors--the  
subject terms assigned  
by an indexer to  
characterize the  
contents of a report.  
Only the major terms,  
those preceded by an  
asterisk, are printed  
in the index.

Abstractor's Initials.

Jacks, L.P.

Basic Principles of Animal Science. A Reference Unit for Teaching Basic Principles of Animal Science in Vocational Agriculture Courses in Mississippi.

Mississippi State Univ., State College, Subject Matter Service  
Mississippi State Board for Vocational Education, Jackson, Vocational Agriculture Div.  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - May65 51p.

\*ANIMAL SCIENCE; \*RESOURCE UNITS; \*VOCATIONAL AGRICULTURE; \*TEACHING GUIDES; \*INSTRUCTIONAL AIDS;  
AGRICULTURE; AGRICULTURAL SKILLS; AGRICULTURAL PRODUCTION

This reference unit, developed by a committee of teachers on the state level, provides references keyed to the outlines contained in the 1963 Mississippi Vocational Agriculture Teacher's Handbook. It is designed for teacher and student use in vocational agriculture classes for high school or adult students to develop or improve knowledge and skills in the area. Organized around a question and answer format, material presented covers the following topics: (1) anatomy and physiology of farm animals, approached as nine functioning systems, (2) nutrition of farm animals, (3) environmental factors that affect physiology, (4) diseases of farm animals, and (5) common parasites of farm animals. Several charts and tables are included. The teacher should be a graduate of teacher education curriculum in agriculture education or have an equivalent preparation. The second and third publications in this series deal with plant science and with soil science and are available as VT 000 056 (AIM Winter 1968) and VT 000 058. (MU)

VT 000 058

Jacks, L.P.; Hamilton, J. Roland

Basic Principles in Soil Sciences. A Reference Unit for Teaching Basic Principles of Soil Science in Vocational Agriculture Courses in Mississippi.

Mississippi State Univ., State College, Subject Matter Service  
Mississippi State Board for Vocational Education, Jackson, Vocational Agriculture Div.  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Apr65 65p.

\*SOIL SCIENCE; \*VOCATIONAL AGRICULTURE; \*INSTRUCTIONAL AIDS; \*TEACHING GUIDES; \*AGRICULTURAL PRODUCTION;  
SOIL CONSERVATION; AGRICULTURAL EDUCATION; RESOURCE UNITS  
MISSISSIPPI

This reference unit, developed by a committee of teachers on the state level, follows the outlines in the 1963 edition of the Mississippi Vocational Agriculture Teacher's Handbook. It is designed for teacher and student use in vocational agriculture classes for high school or adult students who want to develop knowledge and skills in the area. Organized on a question and answer basis, the material presented covers the following topics: (1) the nature and importance of the soil, (2) soil classification and identification, (3) formation and components of the soil, (4) soil productivity, chemistry, and nutrients, (5) commercial fertilizers, and (6) principles of soil erosion and drainage. Illustrations include soil regions and land classifications of Mississippi, soil profile, effects of hardpan, land capability classes, pH scale, pH effects on nutrients, and fertilizer composition. The teacher should be a graduate of teacher education curriculum in agriculture education or have an equivalent preparation. This publication is the third in a series of which the first, available as VT 000 057, and the second, as VT 000 056 (AIM Winter 1968), deal with animal science and plant science respectively. (MU)

VT 000 475

Bristol, Benton K.

Problem and Answer Sheets for Learning Engine Maintenance Principles.

Illinois State Univ., Normal, Dept. of Agriculture  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 67 17p.

\*VOCATIONAL AGRICULTURE; \*AGRICULTURAL ENGINEERING; \*ENGINES; \*STUDENT PROJECTS; AGRICULTURAL MACHINERY;  
SECONDARY GRADES; INSERVICE TEACHER EDUCATION; STUDENT PROBLEMS; ANSWER KEYS

Developed under individual authorship, this student and teacher reference is for use in high school classes of vocational agriculture. The content includes student problems of: (1) Battery Hydrometer Reading, (2) Distributor to Spark Plug Hookup, (3) Spark Plug and Engine Condition, and (4) Compression Test. Answer sheets are provided for each of the six assigned problems. The time allotment varies from 30 minutes per job to more than one hour per job. Additional references which are listed in the document should be utilized in teaching this unit. (DM)

VT 000 575

Johnson, George L.; Harrison, Farres A.

Farm Advertising and Salesmanship. Resource Unit.

Wisconsin Univ., Madison, Dept. of Agricultural and Extension Education  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Nov63 95p.

\*STUDY GUIDES; \*YOUNG FARMERS; ADULT LEVEL; GRADE 12; \*FARM ADVERTISING INSTRUCTION; \*FARM SALESMANSHIP  
INSTRUCTION

Improvement of promotion and sales is the objective of this guide for high school seniors in vocational agriculture and young and adult farmer classes. Subject matter is given for: (1) sales techniques, (2) farm naming, (3) farm letterheads, (4) sales letters, (5) classified ads, (6) displays, (7) exhibits, (8) farm signs, (9) regulations on selling and advertising, and (10) the farm office. The text of each of the 12 units is preceded by a study guide containing objectives, questions, resource material, and supplementary activities. A partial listing of the state's statute chapters and titles and a bibliography of related literature are included. (JM)

VT 000 820

Student Teaching in Agricultural Education; A Guide for Student Teachers.

North Carolina Univ., Raleigh, State Univ. Dept. of Agricultural Education  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - May64 19p.

\*STUDENT TEACHERS; \*STUDENT TEACHING; \*MANUALS; \*VOCATIONAL AGRICULTURE; \*TEACHER EDUCATION; COOPERATING TEACHERS; PRESERVICE EDUCATION; VOCATIONAL AGRICULTURE TEACHERS; PROGRAM DESCRIPTIONS; EVALUATION CRITERIA

This guide provides an overview of the student teaching program and some role expectations for student teachers, supervising teachers, principals, and college staff. The content includes a challenge to student teachers, a general plan of student teaching, evaluation, selection of student teaching centers, and placement in centers. The appendix contains some suggested areas of experiences, guidelines for planning experience programs, and a work sheet for student teaching plans. The document is mimeographed, (DM)

Pub Date - 65 47p.

\*OFF FARM AGRICULTURAL OCCUPATIONS; \*CURRICULUM GUIDES; \*COOPERATIVE EDUCATION; \*EDUCATIONAL PRINCIPLES

This curriculum guide, for use of teachers in vocational and technical courses in the secondary schools, outlines an effective procedure of selecting the agricultural content of most value in nonfarm agricultural occupations. Guiding principles for the programs are identified and include: (1) The objective is to prepare for entry and advancement in an industry, not just in a job, (2) There is a basic core of needed agricultural knowledge, (3) There is a basic core of needed knowledge about business operations, (4) Experience programs may include employment, observations, and supplementary experience, (5) Experience programs should emphasize education, not pay, (6) Experience programs should relate to instruction, (7) Experience programs should be planned by teacher, student, parents, and employer cooperatively, and (8) Experience programs should be supervised by the teacher of agriculture. The steps in developing the program, procedures for enrolling students, basic core of instruction, and basic agricultural experiences are described. Sample teaching plans include: objectives, interest approaches, anticipated decisions and difficulties, class activities, references, and teaching aids. They include the problem areas: (1) understanding experience programs, (2) arranging experience programs, (3) keeping progress records, (4) identifying employment requirements, (5) managing personal income, (6) analyzing business organization, (7) operating a firm, (8) obeying laws, (9) marketing products, (10) advertising and promoting products or services, (11) determining customer credit, and (12) financing a business. \*TEACHING GUIDES; \*VOCATIONAL AGRICULTURE; \*FARM MANAGEMENT; LESSON PLANS; \*AGRICULTURAL PRODUCTION; COURSE ORGANIZATION; SECONDARY GRADES; UNITS OF STUDY (SUBJECT FIELDS); \*ECONOMICS

Developed by a graduate assistant in Agricultural Education and funded by the Vocational Division of the Louisiana State Department of Education, this teaching guide is for use by vocational agriculture teachers with a basic knowledge of agricultural economics in training prospective farmers. Designed for use in high schools and area vocational schools, the content is divided into 3 major subject areas: Becoming Established in Farming, Planning for Maximum Profits, and Special Conditions Affecting Farmers. The first section includes such basic aspects as getting started in farming, securing a farm, establishing goals, volume in the farm business, planning and financing the farm business, and keeping farm records and accounts. Some areas covered in Section II are inventorying, analyzing and improving farm business, planning cropping and livestock systems, planning the physical layout, beneficial utilization of farm machinery and labor, and marketing farm products. The third unit deals with legal problems of farmers, preparation of income tax and social security forms, agricultural organizations, and governmental agricultural agencies. Lesson plans are provided for each area which emphasize student participation and projects. Reference lists, tables, related texts, teaching aids, and lists of visual aids are included. (AW)

Why Not Choose a Career in Ornamental Horticulture?

Texas Agricultural and Mechanical Univ., College Station. Agricultural Experiment Station

Texas Occupational Research Coordinating Unit, Austin

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Jun69 8p.

\*OCCUPATIONAL INFORMATION; \*ORNAMENTAL HORTICULTURE OCCUPATION; \*STUDY GUIDES; \*VOCATIONAL AGRICULTURE. GROUP GUIDANCE; \*OCCUPATIONAL GUIDANCE; CAREER CHOICE; SECONDARY GRADES TEXAS

This publication was developed to provide information for persons considering a career in the ornamental horticulture field. Questions to consider before deciding on a career in the horticultural industry include: (1) Do you like to work with plants, (2) Are you willing and physically able to work hard for long hours, (3) Is the beginning wage more important than achieving a long-range goal, (4) Do you have the proper attitude, and (5) Do you like to work with people. Sections include: (1) Investigate for yourself, (2) Preparing for the Occupation, (3) Wages and Hours, (4) Fringe Benefits, and (5) On-the-Job Training. Vocational agriculture teachers may use this material with high school classes to assist students in making their occupational choice. (DM)

Why Not Be a Farm Tractor and Implement Partsman?

Texas A and M Univ., College Station. Agricultural Experiment Station

Texas Occupational Research Coordinating Unit, Austin

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Jun69 8p.

\*OCCUPATIONAL INFORMATION; \*AGRICULTURAL MACHINERY OCCUPATIONS; \*STUDY GUIDES; SECONDARY GRADES; CAREER CHOICE \*VOCATIONAL AGRICULTURE; GROUP GUIDANCE; \*OCCUPATIONAL GUIDANCE TEXAS

This publication was developed as part of a research project to provide occupational information about the agricultural machinery partsman and to suggest realistic means of gaining exploratory experience in the occupation. The need for well-qualified partsmen was documented in a study by the Texas Education Agency; more than 50 percent of the farm machinery managers interviewed stated that partsmen were in extremely short supply. Some questions to consider before choosing this area as an occupation include: (1) Do you have the interest, aptitude and proper attitude to succeed, (2) Are you willing to obtain experience in parts departments through observation and part-time employment, (3) Do you understand the working conditions of a partsman, (4) What type of training program will best prepare you to be a partsman, (5) What are the wages and hours of people employed as partsmen, (6) What are the advancement opportunities, (7) What are the fringe benefits, and (8) What are the training opportunities. Vocational agriculture teachers may use reference in teaching agricultural occupations to high school students. (DM)

\*BUSINESS EDUCATION; \*OFFICE OCCUPATIONS; \*OFFICE OCCUPATIONS EDUCATION; \*CURRICULUM GUIDES; OFFICE PRACTICE; OFFICE MACHINES; GRADE 11; GRADE 12; ADULT VOCATIONAL EDUCATION

This curriculum guide for vocational business teachers was developed in a summer workshop under the direction of an individual author to provide a general guide for course planning in senior high schools and vocational schools. Units of study described include: (1) Filing, (2) Job Applications, (3) Machines, (4) Data Processing, (5) Duplicating, (6) Payroll, (7) Communications, (8) Receptionist, (9) Personality Development, (10) Handling Mail, and (11) Case Problems. General objectives include: (1) development of skills and knowledge in general courses prerequisite to business education, in specific subject matter, such as mathematics and business English, and in vocational competency, (2) familiarization with office atmosphere, good office layout, and the importance of economy and efficiency in office employment, and (3) development of personality traits that will aid the student in understanding the requirements of employment, stimulate his initiative, and aid him in adapting to a changing world. Minimum equipment and sample rotation plans for teaching the units of study are provided. The teacher using this material needs training in business and business education for teaching high school juniors and seniors and adults. Materials, supplies, and references are suggested with each unit. (MU)

\*USES CLERICAL SKILLS TESTS

This document is a major updating and modernization of the U.S. Employment Service Performance Proficiency Test of skills for clerical occupations resulting from research done by the Cooperative Federal State Test Research Program. The content of the new typing test and dictation test included in this manual is based upon actual samples of current correspondence typical of that prepared by clerical workers in a variety of organizations, including manufacturing, finance, education, trade, professional services, transportation, insurance, public utilities, and government. The dictation tests are in a new, easily scored true-false

format. Revised spelling tests and new medical and legal spelling tests are also included. The norms for each of the tests are based upon representative national samples of workers who are presently employed in the occupations in which the skill being tested is most significant. (MM)

This curriculum guide is for teacher use in planning a course in vocational typing and related occupations for high school students. It was developed at the national level and tested by state supervisors in various states. The content objectives are to train office personnel in needed competencies. Units are: about the Curricula, General Office Education Units, and Specialized Occupations and Units of Instruction. Some of the curriculum outlines included under these units are: (1) Bookkeeping, (2) Business Behavior and Psychology, (3) Business Law, (4) Principles of Data Processing, (5) Record Keeping, (6) Skill Typing, and (7) Spelling and Vocabulary. Eleven specialized occupations are provided with units of instruction, some of which are: (1) Telegraphic-Typewriter Operator, (2) Clerk-Typist, (3) Wires-Transfer Clerk, (4) Supervisor, Clerical, and (5) Managers and Officials. Included in the appendixes are (1) Suggested Standards of Achievement, (2) Sample Suggested Lesson Plan, (3) Typical Instructional Materials, (4) Guidance and Aptitude Tests Available, (5) Sources of Educational Materials, and (6) Typical Facilities Layouts and Suggested Equipment. Teachers should be certified in business education. (MM)

\*TEACHING GUIDES; \*BUSINESS EDUCATION; \*SECRETARIES; \*HUMAN RELATIONS; \*ADULT VOCATIONAL EDUCATION NEW YORK

This course outline is for teacher use in conducting an adult education course in secretarial training for use in adult evening school. It was developed by a committee of field practitioners at the state level. The content objectives are to acquaint the secretary with the fundamental principles of human relations, their importance to the secretary, both personally and professionally, and to make the secretary aware of the increasing need for a knowledge of and an ability to practice good human relations. The sessions consist of: (1) Fundamental Principles of Human Relations, (2) Communication, (3) Supervision, (4) Office Etiquette and Customs, (5) Personal and Community Interests, and (6) Personality Development. Included in the appendixes are: (1) Bibliography, (2) Tips for Instructors, (3) Pointers for Discussion Leaders, (4) Suggested Leaders, and (5) Sample Examination Questions. The course is for a minimum of six two-hour sessions and may be taught by a director of personnel, a certified professional secretary, a business education teacher, an office supervisor, or a professor of business administration. The outline is designed to be conducted with a view to group participation and discussion rather than to lectures. Students should be beginning secretaries with basic skills. (MM)

\*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; \*SUPERVISORY TRAINING; \*JOB ANALYSIS; ADULT VOCATIONAL EDUCATION; INSTRUCTIONAL MATERIALS

This guide is for teacher use in conducting an adult education course on techniques of job analysis for distributive occupations. It was developed and tested by a distributive education teacher trainer. The objectives are to promote consideration of job study in distributive occupations, to promote effective job analysis, and to provide actual experience in job analysis techniques. Units are: (1) Introduction to Job Analysis, (2) Preparation of Job Analysis Forms, (3) Techniques of Collecting Information, (4) Processing Information, and (5) Putting the Job Analysis to Work. Each unit is organized into two main sections; the content section includes a detailed outline and teaching tips for each session and the illustrative material section includes a glossary, cases and samples. The manual follows the general pattern of that used in "Job Instruction Training," published by the U.S. Office of Education. Material is geographically adaptable to all regions. The teacher should be experienced in the field of job analysis. (MM)

One of 10 manuals comprising the 2-year distributive education secondary school curriculum in Texas, this is a first-year teachers' manual in the basic instruction series. It was developed by an individual and field tested in 24 high schools. Topic headings for this 4-week instructional unit are: (1) Origin and History of Distribution, (2) How Our American Business System Operates, (3) Channels of Distribution, (4) Fundamentals of Business Organization, and (5) How a Business Is Organized for Work. Features of particular interest to teachers are charts designed for ease in preparation and understanding, vocabularies of keywords, and a summary of each unit. In addition, each unit contains themes and objectives, teaching outlines and suggestions, a test with answers, and a bibliography. Teachers must have knowledge and experience in some phase of distribution. The nine related documents are VT 000 145, VT 000 157, VT 000 164, and VT 000 168 (all in AIM Fall 1967), and VT 000 155, VT 000 163, VT 000 166, VT 000 167 and VT 000 170. (AW)

\*STATE CURRICULUM GUIDES; \*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; CONSUMER ECONOMICS; \*CONSUMER EDUCATION; GRADE 12; \*CREDIT (FINANCE); RETAILING; UNITS OF STUDY (SUBJECT FIELDS); ACHIEVEMENT TESTS; BIBLIOGRAPHIES

One of 10 manuals comprising the 2-year distributive education secondary school curriculum in Texas, this second-year guide is designed for teacher-coordinator use. The program was developed by a subject matter specialist and field tested in selected high schools prior to publication. The 3-week unit consists of three major topics: (1) The Role of Consumer Credit in the American Economy, (2) Retail Credit Principles and Procedures, and (3) The Individual's Credit Rating. Each topic contains aims and objectives, a teaching outline, suggestions for the teacher, suggested test questions, selected vocabulary, and student-use materials. Sample forms and letters and a bibliography are also included. Related documents are available as VT 000 145, VT 000 157, VT 000 164 and VT 000 168 (all in AIM Fall 1967), and VT 000 155, VT 000 156, VT 000 163, VT 000 167 and VT 000 170. (AW)

\*STATE CURRICULUM GUIDES; \*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; \*MERCHANDISING; INSTRUCTIONAL AIDS; BIBLIOGRAPHIES; SALES OCCUPATIONS; \*PUBLIC RELATIONS; SALESMANSHIP; GRADE 12; UNITS OF STUDY (SUBJECT FIELDS)

One of 10 manuals which comprise the 2-year distributive education secondary school curriculum in Texas, this second-year manual is designed for teacher-coordinator use. Developed by an individual, it was field tested in selected high school programs prior to publication. Units covered are: (1) Sales Promotion, (2) Planning Sales Promotion, (3) Advertising, (4) Newspaper Advertising, (5) Display, and (6) Public Relations. The first unit, Sales Promotion, provides an exploratory look into the entire field, and the remaining units constitute a more detailed study of some of the more important facets of sales promotion. Each unit contains a statement of the aims and objectives, teaching outline, suggestions to teachers, vocabulary list, and materials for student use. A bibliography is also included. The suggested time allotment is 4-6 weeks, and the teacher must have knowledge and experience in sales promotion. Related documents are available as VT 000 145, VT 000 157, VT 000 164, VT 000 168, (all found in AIM Fall 1967), and VT 000 155, VT 000 156, VT 000 163, VT 000 166, and VT 000 170. (AW)

Developed by subject matter specialists and tested in cooperation with leading food-service associations, this manual is intended for use by instructors in conducting a course for upgrading adult food-service workers. The content material is organized for five 2-hour sessions, and emphasizes the teaching technique of role-playing. The topics of the five sessions are: (1) Let's Be Ready, (2) Job Knowledge of the Food Service Salesperson, (3) Selling in Food Service, (4) Types of Service - Correct Breakfast Service, and (5) Correct Luncheon and Dinner Service. Each session outline contains: (1) a list of equipment needed, (2) major topics to be covered, (3) blackboard or flannelboard presentations, (4) information sheets to be distributed, and (5) material to be presented verbally by the instructor. Explanatory information and instructions for role-playing are given in sessions requiring use of this technique. The instructor must have knowledge and experience in the food service industry. Suggested visual aids and a bibliography are included. (AW)

Nichols, Daryl E.

Selection, Placement, and Evaluation in Distributive Education. Suggested Forms and Materials for Organization and Administration of a Cooperative Education Program.

MF AVAILABLE IN VT-ERIC SET.

Pub Date - 67 55p.

\*DISTRIBUTIVE EDUCATION; \*PROGRAM IMPROVEMENT; \*COOPERATIVE EDUCATION; \*RECORDS (FORMS); \*PROGRAM ADMINISTRATION

This booklet was developed to help distributive education coordinators organize and conduct a better program. It is not intended that the coordinator adopt these forms and their uses just as illustrated, but that he adapt them to the needs of his program, his school, and his community. Although all forms in this booklet were prepared for the operation of a distributive education program (DE) they should provide aid to coordinators of other types of cooperative training programs. The content of this document has been the basis of a number of sessions which were national in scope. The plan of this booklet is coordinated with the film, "The Distributive Education Story," produced by Sears Foundation in cooperation with the American Vocational Association. Suggested materials and forms are discussed and illustrated in the areas of: (1) Application Blank for DE, (2) Personal Interest Sheet, (3) DE Qualification Form, (4) Personal Interview Form, (5) Job

Interest Selection Sheet, (6) Selection of Training Station, (7) School Record, (8) Interview Rating, (9) DE Training Memorandum, (10) DE Program of Training, (11) DE Rating Sheet, (12) Employer Evaluation, (13) Employment Record, (14) Student Weekly Progress Report, (15) Absence from Work, (16) Permission to Return to Work, and (17) Diary of Student Progress. (MM)

Teletraining for Business Studies. A Teacher's Guide.

American Telephone and Telegraph Co., New York, N.Y.  
MF AVAILABLE IN VT-ERIC SET.  
American Telephone and Telegraph Company, Bell System, 195 Broadway, New York, New York.  
Pub Date - 65 127p.

\*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; \*COMMUNICATION SKILLS; \*FACSIMILE COMMUNICATION SYSTEMS; ADULT VOCATIONAL EDUCATION; SECONDARY GRADES; ROLE PLAYING

Developed by the American Telephone and Telegraph Company's National Teachers' Consultant Organization and classroom tested on a national scope, this teaching guide is designed to aid in lesson planning and conducting a course in business telephoning. The material covered is applicable to any senior high, adult vocational-technical, or retraining program requiring proficiency in telephone techniques. The content is divided into five sections, the first serving generally to introduce the subject and acquaint the student with the use of Teletrainer practice telephones, and the second covering basic telephone information, such as correctly placing and answering business and long distance calls. Section III deals with the role of the telephone in distributive education, emphasizing telephone sales techniques. The fourth section presents information on telephone equipment ranging from systems in common use to such recent developments as "touch-tone service." The last section provides role-playing material to be used in developing and evaluating telephone procedures and techniques. The manual emphasizes student participation. Supplementary materials include sample tests, evaluation forms, diagrams, drawings, and a list of recommended filmstrips. Suggested time allotment for the unit is 5 to 10 hours. (AW)

Pub Date - 66 170p.

\*BUSINESS ENGLISH; \*CORRESPONDENCE COURSES; \*STUDY GUIDES; \*EXTENSION EDUCATION; \*DISTRIBUTIVE EDUCATION

This study guide is for student use in completing a supervised correspondence study course in business English from a university extension division. It was developed by subject matter specialists and specialists in correspondence study course development at the university level. The content objectives are to develop skills and understandings in the student who is preparing for work in the general field of business or the high school graduate who is interested in entering the business world, and to provide an opportunity to become acquainted with preferred procedures in business relations. Units are: (1) Building Skill in Business Communications, (2) Introduction to Letters, (3) Psychology in Letters, (4) Selling by Letter, (5) Ethics in Letters, and (6) Consumer Letters. The material, to be used by the individual student under the supervision of a correspondence teacher, is designed to be completed in 180 hours. Students should be at the secondary level or in adult high school courses. A manual for the supervising teacher (VT 007 519) is also available. Each unit includes: (1) assignments, (2) references, (3) self-check test, and (4) study aids. (MM)

\*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; \*SALESMANSHIP; TRANSPARENCIES; UNITS OF STUDY (SUBJECT FIELDS); SECONDARY GRADES; INSTRUCTIONAL AIDS; STUDENT PROJECTS; \*SALES OCCUPATIONS TEXAS

This guide is for use in teaching basic selling to first-year students in distributive education at the high school level. It is a revision of VT 000 157 (AIM Fall 1967). Alterations and deletions were suggested by teachers throughout Texas after review of the materials. The objective of this guide is to aid the teacher in discovering ways to transmit information to students to modify their attitudes and to develop their skills. Units are: (1) Selling, What's in it for Me?, (2) Prepare Yourself to Sell, (3) Study the Merchandise, (4) Study the Customer, (5) Consider Selling from Both Sides of the Counter, and (6) Sell! Included in each unit are the objectives of the unit, suggestions to the teacher, teaching outline, and transparency masters. The material is adaptable to all geographic regions and requires teacher competency and experience in selling. Students should have an occupational goal in the area of distribution. The material can be covered in 4 to 6 weeks of classroom activity. (MM)

DeBeck, John  
 A Guide for Teaching Merchandising 1-2.

San Diego City Schools, Calif.  
 MF AVAILABLE IN VT-ERIC SET.  
 Pub Date - 68 333p.

\*TEACHING GUIDES; \*DISTRIBUTIVE EDUCATION; SALESMANSHIP; \*MERCHANDISING; RETAILING; SECONDARY GRADES; INSTRUCTIONAL AIDS; ACHIEVEMENT TESTS

This guide is for teacher use in planning and developing a merchandising course to build vocational competence and active interest on the part of students. It was designed at the local level by a teacher educator, used experimentally in one school, tested in 10 schools, and revised at the end of the second year by a teacher group. The first-semester course, which focuses on salesmanship, includes units on the following subjects: (1) developing a sales personality, (2) essential parts of a sale, (3) the customer's wants, needs, and buying motives, (4) product knowledge, (5) a convincing demonstration, (6) closing of the sale, (7) follow-up techniques, and (8) practice selling. The second semester course, concerned with various aspects of store operation, includes units on the following: (1) merchandising principles and retail store operation, (2) selection of merchandise for resale, (3) inventory procedures and handling, (4) sales promotion and advertising, (5) employment opportunities and requirements, (6) advanced training opportunities, and (7) getting a job. Units include suggested activities and appropriate materials, sample worksheets, tests, suggested visual aids, and ideas for the use of speakers. Total time allotment is 175 to 200 hours. Students should be at the 10th grade level or above. (JK)

Handbook for Supervisors of the Disadvantaged. Teacher's Guide.

Washington Research Coordinating Unit for Vocational Education, Olympia  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Apr68 17p.

\*TEACHING GUIDES; \*ADULT VOCATIONAL EDUCATION; \*DISTRIBUTIVE EDUCATION; \*SUPERVISORY TRAINING; DISADVANTAGED GROUPS; SUPERVISORS; SUPPLEMENTARY EDUCATION; SUPERVISORY METHODS; PROBLEM SOLVING; LESSON PLANS  
\*CONFERENCE METHOD

This guide is for teacher use in conducting a course for supervisors in adult distributive education for disadvantaged persons. The guide was developed by a state supervisor for distributive education and utilizes information gained from two-day seminars involving state agency management personnel. The guide is designed for 26 hours of instruction in management and supervisory training and may be conducted in an industrial or a formal school setting. Content objectives are to develop skills and understandings required to develop lesson plans and for use of the conference method. The level of teacher competency specified is an adult education instructor with experience in group dynamics. Student selection criteria limits enrollment to first line supervisors currently employed. A related student handbook is available as VT 008 479. (CH)

\*STUDY GUIDES; \*ADULT VOCATIONAL EDUCATION; \*DISTRIBUTIVE EDUCATION; \*SUPERVISORY TRAINING; \*DISADVANTAGED GROUPS; SUPERVISORS; SUPPLEMENTARY EDUCATION; SUPERVISORY METHODS; PROBLEM SOLVING

This handbook was designed for student use in conducting a course on the responsibilities and techniques performed by supervisors who work with adult employees classified as disadvantaged persons. The handbook was developed by a state supervisor of distributive education and utilized information gained from a series of two-day seminars involving state agency management personnel. The content objectives are to develop skills and understanding: (1) for adult education supervisory responsibilities and techniques, (2) for identified barriers to working with disadvantaged persons, and (3) for suggested methods for reducing the barriers to working with the disadvantaged. The handbook is designed for 26 hours of adult or vocational supplementary education and focuses on management and supervision. The course may be conducted in an industrial or formal school setting. The level of teacher competency specified is an adult education instructor with experience in group dynamics. The student selection criteria limits enrollment to first line supervisors currently employed. A related teachers guide is available as VT 008 478. (CH)

Halles, William D., And Others  
Distributive Education Laboratory Manual.

New York State Education Dept., Albany. Bureau of Business and Distributive Education  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 63 65p.

\*PROGRAM GUIDES; \*DISTRIBUTIVE EDUCATION; PROGRAM EVALUATION; HIGH SCHOOLS; \*TRAINING LABORATORIES; \*PROJECT TRAINING METHODS; EDUCATIONAL EQUIPMENT; RECORDS; \*EQUIPMENT UTILIZATION; SECONDARY GRADES

Developed by a teacher committee at the state level, this guide is designed to assist teacher-coordinators to make the best possible use of the classroom laboratory in developing desired attitudes, knowledges, and practical selling skills. The document is organized into four parts. "The Distributive Education Laboratory" covers definitions, aims and objectives, facilities, equipment, and layout. "Operation of the Laboratory" covers organization for instruction, administration, and control. "Using the Laboratory as a Teaching Aid" covers student activities, integrated instruction, and adult programs. "Evaluation and Analysis" considers the individuals who may assist in the process of evaluation, the elements or activities to be evaluated, and the devices to be used in collecting information. Appendixes include a laboratory inventory check list, descriptions of selected projects, and various forms and other tools used in connection with the laboratory store. (JK)

New York State Education Dept., Albany. Bureau of Secondary Curriculum Development  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 67 103p.

\*DISTRIBUTIVE EDUCATION; \*SERVICE STATION ATTENDANT; \*MERCHANDISING; GRADE 12; SERVICE OCCUPATIONS; TEACHING GUIDES; BIBLIOGRAPHIES; \*CURRICULUM GUIDES

This curriculum guide is for teacher use in conducting a course in service station merchandising and management for high school distributive education enrollees. The content objectives are to provide specialized classroom instruction and on-the-job experience for students who are interested in the service station business and related opportunities with oil companies. Chapters are: (1) The Business of Service Station, (2) Types of

Retail Gasoline Outlets, (3) Fundamentals of Service Station Development, (4) Location, (5) Visibility, (6) Accessibility, (7) Building, (8) Appearance, (9) Product Knowledge, (10) Knowledge of the Automobile, (11) Automotive Service, (12) Service Tools and Equipment, (13) Personnel Selection, (14) Personnel Development Training Program, (15) Sales Techniques, (16) Gasoline Sales, (17) Stock Planning and Control, (18) Money Management--Records and Control, (19) Money Management--Analysis and Planning, (20) New Business Activity, and (21) Planning for a Service Station Career. Each chapter contains a complete teaching outline and suggestions to the teacher. This curriculum was designed to be covered in a 1-year course and is geographically adaptable to all regions. A bibliography of references and instructional aids is appended. (MM)

Verfitt, Addison H.  
Reducing Shoplifting Losses. Small Marketers Aids No. 129.

Small Business Administration, Washington, D.C.  
MF AVAILABLE IN VT-ERIC SET.  
Small Business Administration, 1441 L Street, N.W., Room 100, Washington, D.C. 20416 (no charge).  
Pub Date - Sep67 8p.

\*RESOURCE MATERIALS; \*DISTRIBUTIVE EDUCATION; \*RETAILING; \*STEALING; \*SHOPLIFTING; MANAGEMENT; ADULT VOCATIONAL EDUCATION

Written by a subject matter specialist as part of a series of small marketers aids, this bulletin is designed to guide owners and operators of small retail stores in reducing shoplifting losses. The content deals briefly with such aspects of the problem as types of shoplifters, methods used by shoplifters, and hints for the salesclerk in spotting potential shoplifters. Also included are practical suggestions on the use of protective devices such as closed-circuit television and 2-way mirrors, proper procedures in apprehending shoplifters, and recommendations for the physical layout of the store that will effectively discourage shoplifting. A list of related references is included. (AW)

\*RESOURCE MATERIALS; \*DISTRIBUTIVE EDUCATION; \*RETAILING; \*STEALING; MANAGEMENT; ADULT VOCATIONAL EDUCATION  
\*BURGLARY; ROBBERY

The purpose of this bulletin is to aid owners and operators of small retail businesses in the prevention of robbery and burglary losses. Written by a management consultant, as part of a series of small marketers aids, it was designed to make the small businessman aware of the precautionary measures available to him. The first section, on preventing burglaries, deals with the need for adequate locks, alarm systems, and the use of a secure safe. Also included here are suggestions for burglar-proofing stores in high-risk locations such as employing watchdogs, private police patrols, and installing burglar-resistant glass. A separate section on preventing robbery losses provides suggestions on training employees to react properly during a robbery and recommends safe cashier and banking practices. Other important defensive suggestions given in this section of the document are using care in opening and closing the store, and in answering after-hour calls. A brief list of related references is included. (AW)

Pub Date - 65 8p.

\*PROGRAM GUIDES; \*HEALTH OCCUPATIONS EDUCATION; \*HEALTH PERSONNEL; \*DISASTER; EDUCATIONAL PROGRAMS  
AUSTERE MEDICAL CARE FOR DISASTER; UNITED STATES PUBLIC HEALTH SERVICE

This guide is intended to assist in planning a course for allied health workers, such as dentists, nurses, pharmacists, and veterinarians, in the administration of medical care under the austere conditions associated with major disasters. The course objectives are acquaintance with problems and restrictions related to limited supplies, ability to make appraisals of illnesses and injuries based on signs and symptoms, and use of sound judgment in treating signs and symptoms. Concepts emphasized are principles of austere care and environmental factors. A suggested 10-hour course outline which may be modified for the level and needs of the class includes an introduction to the shelter and its problems, pediatric emergencies and psychological aid, skin disorders, stomach and bowel disorders, childbirth and care of the infant, common ailments, traumatic conditions, surgical problems, and medical problems. The instructor should be a physician or allied health worker in consultation with a physician. The class should not exceed 20 members and they should have the same general background in the health field. The textbook for this course is "Austere Medical Care for Disaster," PHS Publication No. 1071-D-1. A related document is VT 006 120 (AIM Summer 1969). (JK)

Basic information about visual aids including step-by-step instructions for their production is presented. The first chapter lists basic materials, with indications of their costs, and presents instructions for the application of adhesive backed type and for the preparation of flat artwork for posters, slide copy, or other kinds of reproduction. The second chapter deals with preparing slides and copying flat artwork and radiographs for 35 millimeter slides. The third chapter deals with mechanical visual materials including models, flip charts, and silhouettes. The fourth chapter discusses inexpensive technical photography and overhead projection. The final chapter presents guidelines for effective x-ray exhibits. (JK)

\*TEACHING GUIDES; \*HEALTH OCCUPATIONS EDUCATION; \*RADIOLOGIC TECHNOLOGISTS; TECHNICAL EDUCATION; POST SECONDARY EDUCATION; \*CURRICULUM GUIDES; \*COURSE DESCRIPTIONS

As a second edition this guide is for the use of school directors and teachers in connection with 2-year post high school programs. It is estimated that more than 50 educators--technicians and radiologists--collaborated in the guide's development. The undertaking was sponsored jointly by the American Society of X-Ray Technicians and the Commission on Technician Affairs of the American College of Radiology. Much of the spadework was done by the Education Committee of the American Society of X-Ray Technicians with the assistance of the Greater St. Louis Educational Council. The course is designed to be presented in approximately 400 teaching hours, including lectures, demonstrations, discussions, seminars, film critiques, and review. Part I includes outlines of courses believed essential: orientation, elementary radiation protection, professional ethics, office procedures, anatomy and physiology, physics, darkroom chemistry and technique, principles of radiographic exposure, radiographic positioning, medical terminology, radiographic procedures using contrast media, nursing procedures, pediatric radiography, protection, special procedures, topographic anatomy, radiation therapy, intraoral radiography, medical and surgical diseases, administration, and equipment maintenance. Part II presents elective courses. Outlines include objectives, teaching methods, clock hours, placement in the program, instructors, content outline, and related references. (JK)

A Model Program for Dental Assisting Education in California.

California State Dept. of Education, Sacramento. Bureau of Industrial Education  
California Univ., Los Angeles. Div. of Vocational Education  
EDRS PRICE MF-\$0.25 HC-\$1.95  
Pub Date - 68 37p.

\*HEALTH OCCUPATIONS EDUCATION; \*CURRICULUM GUIDES; \*DENTAL ASSISTANTS; PROGRAM CONTENT; POST SECONDARY EDUCATION  
\*CALIFORNIA

Intended to provide assistance for developing new programs and improving existing ones, the guide was constructed by dental assisting instructors and other professional participants in a 1965 workshop conference. Elements of the model program were derived from a statistical analysis of California junior college programs in dental assisting and include courses in the major area of dental assisting, related fields, and general education. Behavioral objectives and content outlines are presented for seven subject matter fields: (1) introduction to dental assisting, (2) bio-dental sciences, (3) dental materials, (4) practice administration, (5) radiography, (6) operatory procedures, and (7) laboratory procedures. Objectives and content outlines are also included for supervised clinical experience. The sequence of instruction is considered an individual school prerogative. Recommendations include: (1) the program setting of a collegiate institution and the conferring of an associate degree, (2) approximately equal amounts of general education related courses and of specialized courses, (3) clinical experience in dental schools, clinics or hospitals, and private offices, and (4) appointment of an advisory committee of dentists and dental assistants. (JK)

The guide was developed on the basis of advice from a widely representative committee appointed by the Colorado State Department of Public Health. The materials were tested in a course in an urban center and a course in a rural center. The initial portion of the manual presents: (1) guidelines for organizing preparatory nurse aide courses, (2) guidelines for orientation and inservice education for aides who have had preparatory courses, and (3) forms for student and employer evaluation of the courses. The remainder and major portion of the guide presents course outlines for the basic course for nurse aides and the supplementary course for those who are to work as home health aides. Course outlines include guidelines for preparation and teaching of the course, a listing of teaching aides, plans for reading assignments, sample schedules, student evaluation, and experience record forms, job descriptions, and lesson plans. The time allotment for the basic course is 180 hours and for the supplementary course 60 hours. (JK)

PUBLIC HEALTH SERVICE INDIAN HOSPITALS; SOUTH DAKOTA

The objectives of the 3-month program which utilizes the Indian hospitals in Rapid City and Pine Ridge, South Dakota include: (1) improvement in quality of nursing care, (2) preparation of Indian licensed practical nurses to function in more advanced and specialized areas of patient care, to meet civil service commission requirements for promotion to the next highest grade level, and (3) development by the practical nurse of understanding nurse and patient attitudes and behavior. The first class was admitted in 1963 and three classes are graduated each year. Enrollment is limited to 10 students per class, and a student must be of one-fourth degree Indian blood, a graduate of one of three Indian practical nursing schools, and an employee of a PHS Indian hospital. Separate courses focus upon the nursing responsibilities related to: (1) long term illness, (2) administration of medications, (3) accidents, (4) long term illness in children, (5) community health, (6) obstetrics, (7) pediatrics, and (8) medical and surgical conditions. Course outlines present objectives, topics outlines, and suggested references, audio-visual aids, and field trips. Sample forms are appended. (JK)

\*ELECTRONIC EQUIPMENT; \*BIOMEDICAL EQUIPMENT; MEDICAL EVALUATION; \*EQUIPMENT UTILIZATION; \*HEALTH OCCUPATIONS EDUCATION; FACILITIES; MEDICAL SERVICES; BIBLIOGRAPHIES; MEDICAL RESEARCH; CLINICAL DIAGNOSIS; EQUIPMENT EVALUATION

A variety of electrical and electronic devices are being used in hospitals, rehabilitation centers, and clinical laboratories to monitor and analyze functions of the human body. Part I of this publication presents brief descriptions of the basic components of electronic and related electric equipment and their applications in hospitals for monitoring of patients and for certain diagnostic procedures. The basic components of medical electronic equipment described are the sensor, electrode, transducer, amplifier, and receiver. Further discussion is provided on the electric power supply, grounding, cardiac catheterization, electronic equipment and radiating sources, and the electromagnetic spectrum. Part II is a report of a study of practices of monitoring patients' physiological conditions made to determine the need for such biomedical monitoring, its practical aspects, the extent to which the need is being met, and to assemble and publish information that may be useful in planning electronic monitoring facilities. Appended materials include: (1) a selected list of medical electronic equipment, (2) information on electromagnetic shielding and the electromagnetic spectrum, (3) photographic illustrations and floor plans for cardiac catheterization and intensive care nursing facilities, (4) equipment lists for crash carts used for cardiac and general emergencies, and (5) a bibliography of references on medical electronic equipment. \*HEALTH OCCUPATIONS EDUCATION; AMERICAN INDIANS; \*TEACHING GUIDES; \*PRACTICAL NURSING; \*COMPANIONS (OCCUPATION); STUDENT PROJECTS; \*JOB SKILLS; ADULT VOCATIONAL EDUCATION  
\*INDIAN HEALTH SERVICE; AMERICAN RED CROSS

This guide is for use in teaching a course in home nursing to Indians and Alaska natives to prepare them to instruct others in the community on nursing techniques. The guide is an adaptation of the "American Red Cross Home Nursing Instructor's Guide" and resulted from a 1964 pilot program developed on the Whiteriver-Fort Apache Indian Reservation in Arizona. Lessons include such subjects as: (1) taking the temperature, pulse, and respiration, (2) keeping records, (3) making an empty bed, (4) bathing the patient, (5) applying principles of good posture for the nurse and patient, (6) following doctor's orders, (7) assisting the patient to sit up and get out of bed, (8) applying principles of nutrition, preparing foods, and feeding the patient, (9) giving medicines, (10) using the bed pan, hot water bag, and ice bag, (11) applying hot-wet packs, (12) giving mouth care, (13) bathing the baby and (14) caring for the baby's bottle. The teacher of the initial training course should be a Red Cross instructor or a public health nurse. Course length is approximately 60 hours and each lesson requires about 3 hours. Considerable flexibility, however, should be assumed in relation to scheduling class hours which should depend upon the needs and other responsibilities of the group. (JK)

VT DDD 404

Clothing Service Training, A Basic Guide.

North Carolina State Dept. of Public Instruction, Raleigh. Home Economics Section  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Aug65 47p.

\*CURRICULUM GUIDES; TEACHING GUIDES; \*OCCUPATIONAL HOME ECONOMICS; \*CLOTHING MAINTENANCE SPECIALISTS;  
\*SEAMSTRESSES; \*CLOTHING INSTRUCTION; OCCUPATIONAL INFORMATION; SECONDARY GRADES; BIBLIOGRAPHIES

Curriculum materials and organizational procedures for teacher use in planning occupational home economics courses to prepare students for clothing services and custom serving occupations were developed by state supervisors of home economics and tested by instructors in workshops. The materials are designed for secondary level students who have had previous experiences with clothing and the prerequisite general course. One hour of class work daily for a school year plus 50 hours of observation is the suggested time allotment. Desirable personal and skill competencies to be developed are listed. Generalizations, content, and learning experiences are included for the following: (1) desirable qualifications for employment in clothing service, (2) grooming and personal appearance, (3) selection, use, and care of sewing equipment, (4) management problems in clothing services, (5) controlled experiences and basic sewing skills, (6) alterations, (7) business relations, and (8) legal aspects of employment. A bibliography is included. (FP)

Knott, Marjorie

Teaching Home Management. DHE Topics No. 19.

National Education Association, Washington, D.C. Dept. of Home Economics  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - May63 16p.

\*HOME ECONOMICS EDUCATION; \*HOME MANAGEMENT; \*CONCEPT TEACHING; \*TEACHING TECHNIQUES

Because teaching home management has been questionable both as to time spent and subject matter presented, home economics specialists are trying to identify basic concepts in the field and show how to teach them. As a basis for selecting material, the questions which might be asked are: (1) What are the fundamental principles, the central concepts and the major ideas associated with the field of study, and (2) Which ideas are essential to a real understanding of that field. A successful method for teaching home management is by the use of case studies, followed by discussion questions and analysis. Suggestions are given for the use of three sample case studies. Home economists are urged to keep abreast of the increased body of research in the field, most of which is found in masters' and doctors' theses. Located by use of journals and abstract publications, these can be utilized in all phases of teaching. Teachers should ask themselves: (1) What are the most important things a student needs to know about management, (2) What are the important concepts and how are they related to each other, (3) How can I teach these things, and (4) Can I use case studies and results of research to help my teaching. A chart showing the conceptual framework for home management is included. (MS)

\*CURRICULUM GUIDES; \*RESOURCE MATERIALS; \*HOMEMAKING EDUCATION; \*HOMEMAKING SKILLS; FOODS INSTRUCTION; HOME MANAGEMENT; CLOTHING INSTRUCTION; SECONDARY GRADES

Guidelines for teacher use in preparing home economics lessons for secondary level students were developed by classroom teachers, tested in the classroom and refined. Broad purposes of the guide are: (1) to provide teachers with lists of reference materials and essential concepts, (2) provide administrators and parents with an informative reference as an aide to interpreting the program, and (3) to serve as a counseling and guidance tool. Subject matter content, organized according to overview, goals, concepts, learning experiences, evaluation and references, are included for course sequences as well as the semester special interest courses. Course titles are: (1) Homemaking 7--Clothing, Foods, (2) Homemaking 8--Clothing, Foods, (3) Homemaking 9--Clothing I, Foods I, Personal Living, (4) Clothing II, (5) Clothing III, (6) Tailoring I and II, (7) Foods II, (8) Foods III, (9) Meal Management I, (10) Clothing IV, (11) Meal Management II (occupational preparation), (12) Home Management A and B, (13) Home Living, (14) Senior Homemaking, and (15) Senior Foods. The document is illustrated with sketches and photographs. (FP)

\*EVALUATION TECHNIQUES; \*STUDENT EVALUATION; \*HOMEMAKING EDUCATION; \*HOMEMAKING SKILLS; CLOTHING INSTRUCTION; COOKING INSTRUCTION; FOODS INSTRUCTION; SEWING INSTRUCTION; TEXTILES INSTRUCTION; \*TESTS

Evaluation devices and answer keys developed by a committee of high school Home Economics teachers and a Home Economics director for teacher use in secondary level homemaking programs were tested and evaluated in six high schools before publication. Forty devices for evaluating foods instruction are classified according to orienting to foods, preparing foods, planning and serving. Topics include equipment, safety, sanitation, measurement, planning and serving, as well as various food products, e.g. cookies, vegetables, and convenience foods. Eleven clothing instruction evaluation instruments are classified according to (1) Using Equipment with Safety and Efficiency, (2) The Wardrobe: Planning-Buying-Care, and (3) Techniques of Construction. They include safety, patterns, fabrics, and sewing supplies, altering, cutting, marking, switching, and finishing garments. (FP)

Tentative Homemaking Guide, Section VIII, Family Foods, Junior and Senior High Schools.

Oakland Public Schools, Calif.  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 6Ju165 118p.

\*HOME ECONOMICS EDUCATION; \*FOODS INSTRUCTION; CONCEPTUAL SCHEMES; SECONDARY GRADES; \*CURRICULUM GUIDES; FAMILY LIVING; \*NUTRITION EDUCATION

Curriculum materials to be used by secondary level homemaking teachers in planning foods and nutrition lessons were developed by a teacher curriculum committee, tested in 22 schools and revised. Major generalizations supporting basic concepts of food are stated for planning, fun, food and behavior, nutrition, acceptability, preparation, protection, variety, selection, storage and handling, and flexible patterns of eating and serving. Objectives are listed for desirable changes in behavior and attitudes. Recommendations for teaching foods note the teacher's obligation to: accept changes, use current methods and materials, use a variety of methods, and help students evaluate present and possible future developments. It is also the teacher's responsibility to plan and provide experiences from which students can develop generalizations that may modify their concepts. The overall sequential development of suggested activities in family foods is presented in chart form. Expansion of suggested ideas, grades 7 to 12, are outlined on individual pages, each page containing the concept, generalization, the type of activity with three progressive levels of difficulty. Suggested food combinations are listed for different skill levels. Documented vignettes of food and nutrition research and a reference list are also included in the document. (FP)

MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 67 56p.

\*TEACHING GUIDES; \*HOME ECONOMICS EDUCATION; \*BUSINESS EDUCATION; CONSUMER ECONOMICS; \*CONSUMER EDUCATION; DISTRIBUTIVE EDUCATION; SECONDARY GRADES; ILLUSTRATIONS; TRANSPARENCIES; \*MONEY MANAGEMENT; FINANCIAL SERVICES

Materials for teacher use in planning and teaching finance to high school students in home economics, business education, distributive education, and social service classes were developed by business education and home economics teachers and tested in several schools. The problem, "Not Enough Money," illustrates the difficulty of finding reliable sources of funds by telling stories of buying a suit for a senior, a car for a working girl, and a house for a young engaged couple. Home mortgage and interest rates are explained. Another problem, "Too Much Money" includes realistic and practical problems of compound interest, liquid and long-term investments, and the importance of character, capital, and capacity in getting and spending money. "Just Enough Money" describes what yearning can do to the budget and to future plans, and suggests that one can control impulsive acts of buying by understanding his financial condition. "Where to go for Answers" discusses the services of commercial banks, savings and loan associations, credit unions, and consumer finance companies. Much of the information is presented in story form. Selected sources of additional instructional aids are listed. Illustrations may be reproduced for use as overhead projection transparencies or other instructional aids. (FP)

\*CURRICULUM GUIDES; \*HOME ECONOMICS EDUCATION; STUDENT CHARACTERISTICS; JUNIOR HIGH SCHOOL STUDENTS; \*SLOW LEARNERS; SECONDARY GRADES; MENTALLY HANDICAPPED

Instructional materials for teacher use when planning home economics classes for junior and senior high school level slow learners and mentally educable students were developed by a committee of local teachers and tested with small groups. The four section document contains home economics resource materials for Occupational Education I, II, and III and information guides for home economics classes of special education pupils. Each section, presented on different colored paper, contains an index and bibliography. Introductory materials include (1) an overview of mental retardation and special education programs, (2) characteristics affecting learning abilities and personality adjustment and comparison with the average student of the same age, (3) a core curriculum, (4) encouraging acceptable behavior, (5) home economics objectives and suggestions for home economics teachers, and (6) scope and sequence for home economics. Other sections contain articulated material to develop concepts of relationships, care of the home, home care of the sick, clothing and grooming, foods and nutrition, and child care. Each page of the curriculum section lists generalizations, content, suggested experiences and activities, and resources in tabular form. (FP)

Suggested Basic Orientation for Homemakers and Home Health Aides. (Guide for Instructors).

Connecticut State Dept. of Health, Hartford

MF AVAILABLE IN VT-ERIC SET.

Pub Date - May66 69p.

\*OCCUPATIONAL HOME ECONOMICS; \*MAIDS; \*COMPANIONS (OCCUPATION); \*HEALTH PERSONNEL; SERVICE OCCUPATIONS; HOME MANAGEMENT; HOMEMAKING SKILLS; SAFETY; NUTRITION INSTRUCTION; FAMILY RELATIONSHIP; CHILD CARE; \*CURRICULUM GUIDES; VISITING HOMEMAKERS; RESOURCE MATERIALS; ADULT VOCATIONAL EDUCATION

Materials to aid instructors, board members, and supervisors planning an orientation course for potential homemaker-health aide occupations are presented. A variety of consultants from many professional fields may be involved in the individual class sessions. This guide sets forth, in outline form, an overview of material which should give the homemaker and home health aide an initial identification with her agency and its responsibility, a review of knowledge and skills basic to home management, some understanding of the emotional and physical needs of people of all ages, a competency in fulfilling responsibilities in the area of personal and restorative care, an understanding of agency policies, and a familiarity with the many kinds of personnel who comprise the home care team. An awareness of legal implications in public health, principles of safety, prevention and control of disease, and promotion of mental and physical health should permeate the entire course. Content in outline form, designed to develop specific unit objectives, and reference sources, are listed. Sample forms are included. (FP)

\*CURRICULUM GUIDES; \*OCCUPATIONAL HOME ECONOMICS; \*SERVICE OCCUPATIONS; \*MAIDS; HOME MANAGEMENT; ADULT VOCATIONAL EDUCATION; \*COMPANIONS (OCCUPATION); PROGRAM GUIDES; INSTRUCTIONAL AIDS

Guidelines for teacher, supervisor, and administrator use in planning, developing, operating, or evaluating pre-service and in-service education programs for homemaker-home health aides were developed by a group of educators, public health nurses, social workers, nutritionists, and home economists. Homemaker-home health aide students should be able to read and write, work under supervision and be interested in people. Introductory materials relate the history of homemaker-home health aide services, and define terms. The details of planning and organizing a training program include staff and trainee responsibilities and qualifications, facilities, and instructional patterns. The second part of the guide supplies materials for 10 instructional units including programs for pre-service, on-the-job, combination of pre-service and on-the-job, and in-service training in a 40-hour course. Each unit focuses on a particular area of the aides responsibility: the family, the child, the aged, the community, finances, safety, nutrition, mental health, and personal care. The materials in each instructional unit are grouped under the headings; (1) Underlying Principles, (2) Educational Objectives, (3) Teaching Content, (4) Teaching Suggestions, (5) Teaching Resources, (6) Teaching Aids, and (7) Selected References. (FP)

Understanding Children Under Six; A Guide for Teachers. Up-Grading Program for Child Day-Care Center Personnel Unit I.

Kentucky Univ., Lexington. Instructional Materials Lab.

MF AVAILABLE IN VT-ERIC SET.

Pub Date - Apr68 54p.

\*CURRICULUM GUIDES; \*TEACHING GUIDES; RESOURCE MATERIALS; \*OCCUPATIONAL HOME ECONOMICS; \*CHILD CARE WORKERS; \*CHILD DEVELOPMENT; PRESCHOOL CHILDREN; ADULT VOCATIONAL EDUCATION; IMPROVEMENT; VOCATIONAL HIGH SCHOOLS

Curriculum needs were determined by a committee representing the Child Welfare and the Home Economics Division of the State Department of Education. Materials were developed according to their recommendations, tried out by several teachers, and revised in light of their suggestions. The guidelines are for teacher use in planning the first in a series of four units to prepare or up-grade adults who work in child day-care centers. The objectives of the unit are to develop an understanding of pre-school children as a basis for effectively guiding them in child-care centers. Lesson topics include: (1) What the Child-Care Worker Needs to Understand about Children, (2) Principles of Growth and Development, (3) Understanding the Two-Year Old, (4) Profile of the Three-Year Old, (5) Characteristics of the Four-Year Old, (6) What to Expect of the Five-Year Old, (7) Principles of Child Guidance, and (8) Guiding the Behavior of Children in Centers. The unit is designed for eight, 2-hour sessions. Each lesson suggests introductory techniques, teaching-learning activities, references, and instructional materials, as well as listing problems, and key ideas in the content. Supplementary forms, charts, and a bibliography of books and bulletins are included. Unit II is available as VT 007 121 and unit III as VT 007 120. (FP)

\*CURRICULUM GUIDES; \*OCCUPATIONAL HOME ECONOMICS; CHILD DEVELOPMENT; \*CHILD CARE WORKERS; \*TEACHING GUIDES; RESOURCE MATERIALS; PRESCHOOL LEARNING; \*CREATIVE ACTIVITIES; ADULT VOCATIONAL EDUCATION

Curriculum needs were determined by a committee representing Child Welfare and the Home Economics Division of the State Department of Education. The guidelines are for teacher use in planning the third in a series of four units to prepare or up-grade adult workers in child day-care centers. Objectives of the unit are to develop an understanding of the values of creative activities and ways to improve these activities for children in centers. Lesson I describes organizational procedures, the meaning and importance of creative activity, and the environment conducive to play. Lesson II discusses arts and crafts for pre-school children, considering types, values of the experiences, and the role of adults in arts and crafts activities. Books, stories, poems, periodicals, and finger plays for children and adults are the concern of Lesson III. Experiences of music and rhythms are suggested in Lesson IV. Lesson V utilizes trips and excursions, experiences with numbers, and science activities to familiarize the children with the world around them. Lesson VI suggests creative experiences to make special occasions and seasonal activities more meaningful. A bibliography of books, bulletins and periodicals is included in the document. Related publications VT 007 119 and VT 007 121 contain Unit I and II of the course. (FP)

\*CURRICULUM GUIDES; RESOURCE MATERIALS; \*TEACHING GUIDES; \*OCCUPATIONAL HOME ECONOMICS; \*CHILD CARE WORKERS; \*CHILDHOOD NEEDS; PRESCHOOL LEARNING; ADULT VOCATIONAL EDUCATION

Curriculum needs were determined by a committee representing Child Welfare and the Home Economics Division of the State Department of Education. Materials were developed according to their recommendations and tried out by several teachers. Materials were then revised in light of suggestions from these two groups. The guidelines are for teacher use in planning the second (Unit II), in a series of four units to prepare or up-grade adults who work in child day-care centers. Objectives of the unit are to understand the characteristics of a good child-care program and to identify some ways to carry out good programs in centers. Lesson topics include: (1) Launching a Good Child Care Program, (2) Children Learn Through Play, (3) Children Learn Through Routines, (4) More about Routines, (5) Looking at Good Child Care Programs, and (6) Planning Good Child Care Programs. Basic concepts of a unit are listed in a topical outline. Each lesson suggests introductory techniques, teaching-learning activities, references, and instructional materials as well as listing problems and key ideas in the content. Supplementary forms, charts, questionnaires, and a bibliography of books and bulletins are included. Documents VT 007 119 and VT 007 120 contain Unit I and Unit III for the same course. (FP)

Henry, Sarah T.  
Questions and Answers on Overhead Projection in Home Economics.

Kentucky Univ., Lexington. Instructional Materials Lab.  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 67 9p.

AUDIOVISUAL AIDS; \*MANUALS; \*HOME ECONOMICS EDUCATION; \*TEACHER EDUCATION; INSERVICE TEACHER EDUCATION; TRANSPARENCIES; \*OVERHEAD PROJECTORS; \*EQUIPMENT UTILIZATION

To facilitate the use of their overhead projector in pre-service and in-service home economics teacher education, guidelines were developed by a home economics specialist. Materials are appropriate for teacher or student use at the high school or college level. The content, organized in question and answer form, interprets uses of the projector in home economics classes. Some purposes for using the techniques are to: awaken or strengthen interests, develop broader understanding, create desirable attitudes, supply information, develop manipulative or judgment ability, and provide a medium for evaluation. Projectors may be portable or desk models, classroom or auditorium size. Transparent and opaque materials can be projected. Transparencies are defined as a sheet of transparent film on which material is inscribed for projection. An original or master is the text, copy, or illustrative material from which one makes a transparency. Originals can be teacher-made, printed material, or prepared transparency masters. Permanent transparencies may be made with an infrared copy machine. Temporary and reusable transparencies are made by writing on a plastic sheet with a wax pencil, crayon, transparency pencil, or a felt tip pen. Using color, overlays, and framing as well as presentation techniques are described. Some advantages of using the overhead projector as well as disadvantages in its use are presented. (FP)

\*OCCUPATIONAL HOME ECONOMICS; \*CURRICULUM GUIDES; \*HEALTH EDUCATION; HOME NURSING; \*CHILD DEVELOPMENT; \*FAMILY LIFE EDUCATION; RESOURCE MATERIALS; WORK ATTITUDES; OCCUPATIONAL INFORMATION; SECONDARY GRADES

A committee of home and family life teachers produced guidelines to aid homemaking teachers in preparing students for the triple role of wage earner, homemaker, and citizen. Introductory materials include the purposes of education, home and family life education, homemaking education, and the curriculum guide. The world of work unit includes concepts of why people work, the role of attitudes, job seeking, personal qualifications, job selection, interpersonal relations on the job, the relevance of education, reputation, and the dignity of work. The semester course in Child Development and Guidance contains concepts of individual differences, family interaction, personality variables, developmental needs and processes, childhood and parenthood values and attitudes, and child care. Concepts for the semester course, Health and Home Nursing, include identification of the kinds of health, factors affecting health, mental health, the relationship of health and personality, basic health principles, characteristics of a healthy person, responsibilities of the home nurse, safety, community resources, and the nursing profession. Course content and suggested activities, listed in outline form, and resource materials are included for each program area. (FP)

\*CURRICULUM GUIDES; \*HOMEMAKING EDUCATION; HOMEMAKING SKILLS; FAMILY LIFE EDUCATION; CONCEPTUAL SCHEMES;  
CLOTHING INSTRUCTION; FOODS INSTRUCTION; NUTRITION INSTRUCTION; SECONDARY GRADES; BIBLIOGRAPHIES

Guidelines for homemaking teacher use in planning homemaking experiences which will develop basic understanding, appreciation, skill, and generalizable concepts for boys and girls grades 7-12 were developed by a group of homemaking teachers on the basis of researched needs of students, tested for 2 years, and revised. Introductory materials include a statement of the philosophy of homemaking education in the Salem public schools, a preface, definition of terms, and a list of approved homemaking education textbooks. A tri-color format organizes materials according to the subject matter areas of family living, clothing and related arts, and foods and nutrition. Each section is prefaced with an outline of the conceptual framework and a scope and sequence chart of the content. Guidelines toward teaching concepts at level 1 through 5 representing grades 7, 8, 9, 10-11-12, and 11-12, are presented in tabular form according to concepts, educational experiences, and generalizations. Lists of resources, including community speakers and audio-visual aids, are included for each program area. (FP)

\*CONSUMER ECONOMICS; \*CONSUMER EDUCATION; \*HOME ECONOMICS EDUCATION; \*MONEY MANAGEMENT; FAMILY INCOME;  
FAMILY MANAGEMENT; RESOURCE MATERIALS

Each individual achieves economic competence to the degree that he develops his ability to: (1) establish realistic goals for spending and saving, (2) work out a plan for the use of income, (3) make wise choices when purchasing goods and services, (4) understand credit, insurance, saving and investments, and (5) recognize rights and responsibilities as a consumer. The money management library is comprised of twelve booklets. "Your Budget," a personalized, easy-to-use system for managing income recommends simplicity, realism, flexibility, and being systematic. The booklet, "Childrens' Spending," suggests ways to teach children money management, while "For Young Moderns" offers money management guidelines for teens. "Your Food Dollar" and "Your Clothing Dollar" include planning, buying and care information. "Your Housing Dollar" discusses how to select and plan housing costs whether you rent, buy or build. "Your Home Furnishings Dollar" describes good designs and provides guidelines for purchasing home furnishings. "Your Equipment Dollar" offers suggestions for buying large and small appliances and cookware. "Your Shopping Dollar" explains the consumer role as a purchasing agent, customer, and citizen. "Your Automobile Dollar" discusses buying and maintaining a car. "Your Health and Recreation Dollar" describes how to plan a recreation and health program and includes information on health insurance. "Your Savings and Investment Dollar" shows how to start a savings and investment program. (FP)

Consumer Education: A Guide for Home Economics Teachers.

South Carolina State Dept. of Education, Columbia. Home Economics Education Section  
Clemson Univ., S.C. Vocational Education Media Center  
EDRS PRICE MF-\$0.50 HC-\$3.45  
Pub Date - Sep68 67p.

\*CURRICULUM GUIDES; \*HOME ECONOMICS EDUCATION; \*CONSUMER EDUCATION; SECONDARY EDUCATION; LEARNING ACTIVITIES;  
RESOURCE MATERIALS; PROGRAM CONTENT

Curriculum materials for teacher use in preparing consumer education lessons for students in eighth grade home economics, and Homemaking I, II, III, integrate consumer education principles with the subject matter areas of clothing, food and nutrition, housing, personal and family relations, child care and development, health, safety and home nursing. Materials, which were developed by teachers participating in a conference, were tested in the classroom for a year, revised, and prepared for publication. Facets of consumer education to be covered in each subject matter area at each grade level are presented in a scope and sequence chart and objective lists. Concepts, objectives, generalizations, learning experiences, and evaluation techniques and devices are suggested for a Homemaking III or family living course. Concepts include: (1) The Role of the Consumer, (2) Sound Money Philosophy, (3) Security for Home and Family, (4) Consumer Education, (5) Budgeting, and (6) Consumer Education in the Home Economics subject areas mentioned above. References for student and teacher use as well as audiovisual aids are included in the document. (FP)

\*FAMILY LIFE EDUCATION; \*HOME ECONOMICS EDUCATION; \*FAMILY RELATIONSHIP; \*TEACHING GUIDES; HUMAN DEVELOPMENT;  
HEREDITY; ENVIRONMENT; FAMILY ENVIRONMENT; LEARNING; RESOURCE MATERIALS; FAMILY ROLE; DEVELOPMENTAL TASKS;  
PERSONAL RELATIONSHIP; \*INDIVIDUAL DEVELOPMENT; INDIVIDUAL NEEDS; GENERALIZATION; FUNDAMENTAL CONCEPTS; UNITS  
OF STUDY (SUBJECT FIELDS); LEARNING ACTIVITIES; ATTITUDE TESTS; PERSONALITY; SECONDARY GRADES

The course materials for basic and advance level courses in Human Development and the Family were developed at two Purdue University workshops. Unit objectives are phrased in the cognitive domain and stated in terms of behavioral objectives. Generalizations are listed for teacher use and the student is expected to arrive at the conclusions through the learning experiences which are designed to develop specific listed concepts. An overview outlines the concepts and objectives for basic and advanced level courses. Concepts include: (1) the individual, heredity and development, (2) basic needs, (3) learning, (4) personal relationship, (5) family roles, (6) family functions, and (7) the family culture. The use of green paper emphasizes advanced level materials. A vocabulary list, attitude and value inventories, a bibliography of teacher and student references, bulletins, pamphlets and information sources, and a film list are included in the appendix. (FP)

\*HOME ECONOMICS EDUCATION; \*CONSUMER EDUCATION; \*HOME MANAGEMENT; \*CONSUMER ECONOMICS; FINANCIAL PROBLEMS; MONEY MANAGEMENT; \*PURCHASING; DIRECTORIES  
\*BETTER BUSINESS BUREAU

An information source to aid persons in becoming more knowledgeable consumers was compiled on the basis of the varied experiences of 140 Better Business Bureaus. Today's market place offers many products, and many rapidly changing models; no one can possibly know everything about every article or gadget he might want to buy. Therefore, effective buying has become an art in itself. As such it entails gathering and analyzing information. Buying is such a universal and commonplace activity that few people recognize its inherent complexity. The document contains information on: (1) how to shop for a real value, (2) how to spot faulty merchandise, (3) how to read contracts and understand, and (4) basic facts about borrowing and financing. Basic guidelines are presented for buying a wide variety of foods and services; content areas include: (1) Better Business Bureau, (2) The intelligent consumer, (3) furniture and carpeting, (4) household appliances, (5) housing, (6) home improvement, (7) automobiles, (8) food, (9) clothing, and (10) buying with confidence. A list of the Better Business Bureau offices in the United States and abroad is included in the document. (FP)

Food for Space Flight.

National Aeronautics and Space Administration, Washington, D.C. Educational Programs Div.  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Apr69 7p.

\*NUTRITION; \*FOODS INSTRUCTION; \*HOME ECONOMICS EDUCATION; \*SCIENCE EXPERIMENTS; SCIENCE EDUCATION; \*FOOD PROCESSING OCCUPATIONS; AEROSPACE TECHNOLOGY; ELEMENTARY GRADES; SECONDARY GRADES; ILLUSTRATIONS

Special procedures for preparing, packaging, and storing food were developed for manned space flights. Weight and space limitations require that food for astronauts be very lightweight, require very little storage space and no refrigeration. Meal components must be eaten directly from a sealed container, because the condition of relative weightlessness during space flight makes it impossible to keep solid foods on a plate or liquids in an open cup. Foods for Project Mercury were designed to test the physiology of swallowing solid and liquids in a state of weightlessness. Tube foods and compressed dried foods mixes in cube form were used for the experiment. No problems were experienced in chewing, drinking or swallowing. The freeze-dehydration process was used on foods for the Gemini program. Significant facts about the process are included. Studies about nutritional requirements in space are described. The document includes illustrations, a vocabulary list, and teaching suggestions. (FP)

Industrial Arts Grades 7-8. (Tentative).

Rochester City School District, N.Y. Div. of Instruction  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 67 116p.

\*CURRICULUM GUIDES; GRADE 7; GRADE 8; \*INDUSTRIAL ARTS; JUNIOR HIGH SCHOOLS; JUNIOR HIGH SCHOOL STUDENTS; INDIVIDUAL CHARACTERISTICS; STUDENT PROJECTS

The experimental curriculum materials for grades 7-8 were developed by teams of teachers and consultants, tested in the classroom between 1966 and 1968, and used in teacher training sessions during the summer of 1968. The course outline is divided into areas by grade levels. Grade 7 includes wood, ceramics, drawing, and plastics. Grade 8 covers electricity, graphic arts, metal and power. A 5-week sequential teaching plan is suggested for each instructional area. Each unit contains introductory materials which explain the unit objectives as well as concepts, teacher and pupil activities, and vocabulary. Physical, mental and emotional, and social characteristics of junior high school students are listed in the document as well as the implications of the forementioned factors for program planning. (FP)

\*CURRICULUM GUIDES; \*INDUSTRIAL ARTS; \*CURRICULUM ENRICHMENT; SCIENCES; MATHEMATICS; SOCIAL STUDIES; ART; HEALTH; GRADE 5; GRADE 6; INSTRUCTIONAL AIDS; STUDENT PROJECTS

Developed as a 160-hour course by a curriculum director and a committee of teachers and consultants, this curriculum guide is for use by industrial arts and elementary teachers in grades 5 and 6. The major units are: (1) Science and the Industrial Arts, (2) Elementary Mathematics and the Industrial Arts, (3) Social Studies and the Industrial Arts, (4) Art and the Industrial Arts, and (5) Health and the Industrial Arts. Each unit includes objectives, suggested projects, required materials, and a content outline. Supplementary materials include lists of teaching aids, tools, materials, and references. The document is illustrated with photographs and line drawings. (EM)

Buchanan, Glen, And Others  
A Study of Manufacturing Industries. An Experimental Course at the Junior High School Level Combining Students of Grades Seven, Eight, and Nine.

Shiloh Junior High, Parma, Ohio  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 68 28p.

\*INDUSTRIAL ARTS; \*EXPERIMENTAL CURRICULUM; TEAM TEACHING; JUNIOR HIGH SCHOOLS; \*COURSE DESCRIPTIONS; \*MANUFACTURING  
\*SHILOH JUNIOR HIGH SCHOOL; PARMA, OHIO

The major aims of this experimental industrial arts course were to develop (1) an understanding of the growth and development of American industry, (2) an understanding of the functions of manufacturing industries, and (3) the ability to solve problems related to the functions of manufacturing. Seventh and eighth grade classes which met the same period were combined on a regular basis and a ninth grade class participated intermittently. A teaching team involved three industrial arts teachers. The functions of manufacturing which were taught were:

(1) Management, (2) Finance, (3) Production Planning and Control, (4) Manufacturing, and (5) Marketing. Student corporations were formed, product research and development was done, production methods were examined, and a product was selected and produced. Evaluation of students and teachers by teachers and students was emphasized. An extensive bibliography is included. (EM)

\*PROGRAM GUIDES; CURRICULUM GUIDES; \*INDUSTRIAL ARTS; SECONDARY GRADES; EDUCATIONAL EQUIPMENT; PROGRAM CONTENT; EVALUATION CRITERIA; \*PROGRAM DEVELOPMENT; EDUCATIONAL OBJECTIVES; EDUCATIONAL FACILITIES

This program guide was prepared by a developmental group of teachers through an examination and restatement of the place and purpose of industrial arts education in a changing, ever-expanding industrial and technical society. Guidelines for program development and evaluation are provided for a differentiated industrial arts program based on orientation and exploratory experiences in the junior high school and characterized by specialization and concentration in the senior high school. The guidelines are designed to assist school boards, administrators, and teachers in planning and developing general and specific program objectives, program financing, and laboratory facilities and equipment. The course of study outlines learning units and activities for (1) a 12-week Industrial Crafts course for grade 7, (2) 1-year courses in Drafting, General Metals, Woodworking, Electronics, and Power Mechanics for grades 10-12. A list of educational equipment necessary to provide adequate instruction is given. (EM)

Suggested Related Information for the Electricity Area. Industrial Arts Comprehensive General Shop Course.

New York State Education Dept., Albany  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - 65 185p.

\*STUDY GUIDES; \*INDUSTRIAL ARTS; \*ELECTRICITY; JUNIOR HIGH SCHOOLS; LEARNING ACTIVITIES; TESTS; BIBLIOGRAPHIES

This study guide is designed to direct the industrial arts student in the study of related subject matter in general electricity in the 7th, 8th, and 9th grade comprehensive general shop. It was developed by a teacher and state supervisor in cooperation with the New York Bureau of Vocational Curriculum Development and Industrial Teacher Training and the Bureau of Industrial Arts Education. To assist the instructor in lesson selection and use, the 79 lesson topics are grouped into 6 divisions of (1) Planning, (2) Social-Economics, (3) Guidance, (4) Science, (5) Safety and Hygiene, and (6) Consumer Values. Each lesson topic is prepared for a 10-minute average teacher presentation and includes specific background information related to the topic, a list of topic objectives, references, a student activity assignment and a topic test. The material is coordinated to the related lesson topics in the New York state syllabus for the comprehensive general shop. The appendix contains a composite bibliography of books, films, magazines, and periodicals as well as a detailed index of the study guide contents. (HC)

**Electronic Technology, A Suggested Two-Year Post-High School Program. Engineering Technology Series No. 2.**

Illinois Univ., Urbana. Engineering Technology Curriculum Advisory Committee  
 Illinois State Board of Vocational Education, Springfield  
 MF AVAILABLE IN VT-ERIC SET.  
 Pub Date - Jun64 74p.

\*TECHNICAL EDUCATION; \*CURRICULUM GUIDES; \*ELECTRONIC TECHNICIANS; ELECTRONICS; \*POST SECONDARY EDUCATION;  
 \*ENGINEERING TECHNICIANS; ASSOCIATE DEGREES

To aid administrators and instructors in developing an associate degree program in electronic technology, this curriculum guide describes the general requirements in the engineering and the electronic technology curriculums and suggests some possible course outlines for a 2-year program. It was developed by a national group of subject matter specialists and covers information on faculty, student selection, student services, courses, textbooks, laboratory instruction, equipment, and space requirements. Suggested course outlines are given for mechanical drafting, technical mathematics, communication, electronics, circuits, orientation, electronic drafting, technical physics, economics of industry, technical reporting, psychology and human relations, and industrial organization and operation. Suggested references and texts for each outline as well as a floor plan and equipment inventory for a laboratory are included. Number one of this series is available as VT 000 431 (AIM Spring 1969). This project is intended to implement two earlier publications which have been processed as ED 013 313 or VT 001 875 (AIM Winter 1967) and ED 013 309 or VT 001 736 (AIM Winter 1967). (MU)

**Suggested Guide. Training Program for Food Service Occupations.**

Kentucky Univ., Lexington. Dept. of Home Economics Education  
 MF AVAILABLE IN VT-ERIC SET.  
 Pub Date - 65 62p.

\*OCCUPATIONAL HOME ECONOMICS; \*FOOD SERVICE WORKERS; WAITRESS TRAINING; HOSTESS TRAINING; SALAD GIRL TRAINING; LUNCH COUNTER WAITRESS TRAINING; CURRICULUM GUIDES; SECONDARY LEVEL; ADULT EDUCATION

Classroom, laboratory work, and on-the-job experiences are suggested for preparing girls and women for occupations in food service and as waitresses, hostesses, salad girls, and lunch counter waitresses. The suggested length of the program is 180 clock hours including classroom and supervised work experiences. The first three units teach principles that are common to all food services, such as nutrition, safety, and sanitation. The fourth unit outlines training in the specific food service jobs. Trainees should have some work experience in each occupation at some time during the training program. Some criteria are listed for the trainees, teachers, facilities, and cooperating businesses. The appendix includes lists and sources of books, bulletins, films and film strips, and evaluation devices suggested for use with the course. (MS)

**Welding.**

West Virginia State Board of Education, Charleston. Bureau of Vocational, Technical and Adult Education  
 MF AVAILABLE IN VT-ERIC SET.  
 Vocational Industrial Curriculum Department, Capitol Building, Charleston, West Virginia 25305 (\$1.25).  
 Pub Date - Apr67 55p.

\*CURRICULUM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*WELDERS; \*WELDING; GRADE 11; GRADE 12; ADULT VOCATIONAL EDUCATION; EDUCATIONAL EQUIPMENT; EDUCATIONAL FACILITIES; RECORDS (FORMS); LEARNING ACTIVITIES

The purpose of this curriculum guide is to establish a set of standards for the content and equipment used in vocational welding courses at the secondary, postsecondary, and adult level. It was developed by teachers in several inservice workshops. Contents include: (1) a topical analysis of gas and electrical welding processes, (2) a topical course outline including student exercises for each section, (3) equipment standards, (4) list of instructional aids, and (5) student progress record forms. The outline was developed for 1080 hours of instruction for average students by a qualified instructor. (EM)

VT 001 678

**Safety Policy Manual for the Technical Schools of Hawaii. Circular-96.**

Hawaii State Dept. of Education, Honolulu  
 MF AVAILABLE IN VT-ERIC SET.  
 Pub Date - 64 75p.

\*SAFETY; \*ACCIDENT PREVENTION; \*TEACHING GUIDES; \*TRADE AND INDUSTRIAL EDUCATION

The purpose of this manual is to assist instructors in carrying out safety responsibilities and to help train students in safe working habits. Chapter headings are: (1) Purpose, (2) Policy on Use of Shops by Personnel, (3) Responsibility of the District Superintendent, (4) Responsibility of the Principal, (5) Responsibility of the Instructor, (6) Clothing Regulations and Safety Equipment Required of All Students, (7) Accident Reports, (8) General Electrical Safety Policy for All Shops, (9) Color Engineering Requirements for Technical School Shops, and (10) Safety Rules for Specific Shops. The last chapter covers these shops: (1) aircraft mechanics, (2) auto body, (3) auto mechanics, (4) diesel mechanics, (5) cafeteria management, (6) carpentry and cabinetmaking, (7) commercial sewing, (8) cosmetology, (9) electricity, (10) electronics, (11) radio and television, (12) machine shop, (13) refrigeration and air conditioning, (14) sheet metal, and (15) welding. **Minutes and Preliminary Findings of a Meeting Called at the Suggestion of and With the Support of the Statler Foundation (St. Louis, Missouri, February 22-23, 1964).**

Council on Hotel, Restaurant, and Institutional Education, Ithaca, N.Y.  
 MF AVAILABLE IN VT-ERIC SET.  
 Pub Date - 64 6p.

\*SERVICE OCCUPATIONS; FOOD SERVICE OCCUPATIONS; \*JUNIOR COLLEGES; \*FOUNDATION PROGRAMS; FINANCIAL SUPPORT; \*GUIDELINES; CURRICULUM

The Statler Foundation, interested in promoting junior college programs of quality for the public hospitality field, asked the 11 persons attending the meeting to develop some guidelines to help it appraise programs seeking financial help. The Foundation may provide matching funds up to \$25,000 for a program when substantial local interest, time and funds are invested. Local industry must be willing to provide opportunities for

practice internship and permanent jobs. The committee recommended that to be eligible for Foundation support, a school must offer substantially all the subject matter covered in the specifically required courses in the committee-developed curriculum assigned for the student seeking immediate placement after the junior college experience. A minimum of 500 hours of supervised experience in the field was recommended. Laboratory facilities should be provided for instruction in basic sciences, in elementary and quantity food production, for front office procedures and general operation of transient hotel facilities. Specific standards for faculty number and training and for library facilities should be maintained. (MS)

TEACHING GUIDES; \*STUDY GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*ELECTRONIC TECHNICIANS; \*SHEET METAL WORK; WELDING; SECONDARY GRADES; INDIVIDUAL INSTRUCTION

The purpose of this course is to provide the high school electronic technician student with understanding and skill in the use of the basic shop tools and machines so that he may make repairs, alterations, or fabrications as needed. This study guide was developed by a vocational coordinator in cooperation with a representative of the Trade-Industrial-Technical Branch of the Vocational Division of Indiana. The course was designed on the concept and philosophy of using individual assignment sheets to allow each student to progress at his own rate and to enable the teacher to devote most of his time to individual instruction. The teacher's lesson outlines give the lesson objectives, references, introduction, subject material outline, and study assignments. The assignment sheets provide the student with the textbook reference, an introduction, and assignment study questions and experiments. Sample assignment subjects are: Safety in the Use of Tools and Machines, Hand Tools--Care and Uses, Cutting and Bending Sheet Metal, and Soldering Techniques. The course is designed for 1 semester, but may be extended to 2 semesters by adding assignment sheets for each tool or machine. This book is for teacher use only. The student is to use the assignment sheets in loose unbound form. When he completes an assignment sheet, he returns it to the teacher and secures the next one. (HC)

\*CURRICULUM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*ELECTRONIC TECHNICIANS; \*ELECTRONICS; \*TECHNICAL EDUCATION; TECHNICAL INSTITUTES; POST SECONDARY GRADES  
\*MARATHON COUNTY TECHNICAL INSTITUTE; WISCONSIN

This curriculum guide is for teacher use in course planning in post-secondary electronics programs. It was developed by instructors with suggestions from an advisory committee. The content objectives are to describe and outline the current curriculum. Course outlines are provided for the 19 courses covering 4-semester. Each outline gives (1) the course title, (2) class and credit hours, (3) a course description, (4) course objectives, (5) a topical outline, and (6) texts and references. The teacher should have academic and occupational experience in electronics. Students should have a high school background in physics and algebra and pass an electronics aptitude test before starting the curriculum. Supplementary materials include: (1) Statement of Institutional Purposes and Curriculum Organization, (2) Descriptive Philosophy of the School, (3) equipment inventory list, (4) description of the school library, (5) personnel resumes, (6) minutes of an advisory committee meeting, and (7) information on student personnel services. \*PROGRAM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*TRADE AND INDUSTRIAL TEACHERS; \*FIRE SCIENCE EDUCATION; \*INSERVICE TEACHER EDUCATION; PROGRAM DEVELOPMENT; FACILITY REQUIREMENTS; CURRICULUM GUIDES; PROGRAM ADMINISTRATION

This program guide is for use in instructor training courses for fire department personnel. It is a guide for the development of a long-range training program. The author compiled the contents which were validated by The International Fire Service Training Association. Major sections are: Objectives of a Training Program, Training Facilities Required, The Training Officer and Instructors, and Operating a Training Program. Supplementary materials include a sample drill schedule, rookie schedule, monthly probationary report, personnel evaluation report, personnel field test report, and training report. A related publication is VT 006 484. (EM)

\*TEACHING GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*SCHOOL SHOPS; \*MACHINE TOOL OPERATORS; \*MACHINE TOOLS;  
POST SECONDARY EDUCATION; INSTRUCTIONAL AIDS; AUDIOVISUAL AIDS; SECONDARY EDUCATION; RESOURCE MATERIALS

This instructor's guide was developed for use with VT 007 485 in a 180-hour course in machine shop. The content includes guides to 24 assignment sheets in the areas of fundamentals of machine shop, measurement and layout, benchwork, grinding machines, drill press, lathe, shaper, and milling machine. Each guide sheet contains a key to the study questions, suggested supplementary assignments, suggested list of visual aids, and other instructional aids. The key to the study questions lists a reference and page number where the answer may be obtained in one of six books. Teachers should be certified vocational instructors in secondary and post-secondary schools. (DM)

\*STUDY GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*SCHOOL SHOPS; \*MACHINE TOOL OPERATORS; \*MACHINE TOOLS;  
POST SECONDARY EDUCATION; STUDENT RECORDS; SECONDARY EDUCATION

This course of study was developed for teaching machine shop on a group or class basis in a trade preparatory program. Fundamentals of machine shop, measurement and layout, benchwork, grinding machines, drill press, lathe, shaper, and milling machine are included in the 24 assignment sheets to be completed by junior and high school students in a 180-hour course. Each assignment in the manual contains an introduction, reading assignment, and a series of discussion questions based upon one of the six references for the course. The instructor's guide available as VT 007 484 is for use by certified vocational instructors teaching the course in secondary or post-secondary schools. (DM)

\*TEXTBOOKS; \*TRADE AND INDUSTRIAL EDUCATION; \*PRINTERS; \*ENGLISH; GRADE 11; GRADE 12; ACHIEVEMENT TESTS;  
\*PRINTING

Developed by the authors in cooperation with an English department in a vocational high school, this textbook is for student use in vocational courses for printers. The 64 lessons are given under these titles: (1) The Story of Printing, (2) Spelling, (3) Compound Words, (4) Word Divisions, (5) Punctuation, (6) Capitalization, (7) Technical Terms, (8) Abbreviations, (9) The Style Manual, (10) Proofreading, and (11) Signs, Symbols, Numerals. Each lesson contains an objective, a reading unit, and study questions. Also included are 11 achievement tests. This textbook was designed for use during one or two periods per week in addition to the regular English curriculum. The teacher should be certified to teach English and the students should be of high school level and approved for printing courses. (EM)

\*CURRICULUM GUIDES; \*SERVICE STATION ATTENDANT; \*TRADE AND INDUSTRIAL EDUCATION; \*ADULT VOCATIONAL EDUCATION;  
SALES OCCUPATIONS; SALESMANSHIP; BUSINESS SKILLS; INSTRUCTIONAL AIDS; AUTO MECHANICS; BIBLIOGRAPHIES;  
EDUCATIONAL FACILITIES

Developed by a trade and industrial education instructional materials laboratory, this guide was designed to assist administrators and teachers in developing course content for training potential automotive service station attendants with needed competencies. Course units are: (1) Occupational Orientation, (2) Appearance, Housekeeping, and Safety, (3) Selection, Use and Maintenance of Tools and Equipment, (4) Business Procedures, (5) Service Training, and (6) Salesmanship. Suggestions are included for planning the lesson, teaching aids, and criteria for evaluating training readiness for employment. The bibliography includes titles of manuals, brochures, pamphlets, aids, and visual aids. Appendixes include suggested lists of equipment, small tools, supplies, and suggested training facilities. The basic course is designed for approximately 165 hours of instruction for a class of 20 students. Teachers should be competent in teaching and have had current experience in the successful operation of an automotive service station. (MM)

**\*LEADERS GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*SAFETY; ACCIDENT PREVENTION; ADULT VOCATIONAL EDUCATION; \*SAFETY EDUCATION**

This booklet was developed for use by industrial supervisors as a series of talks to employees on the subject of safety and accident prevention. This twelfth edition was prepared by a state safety division. The contents consist of 13 texts of 5 minute talks. Their titles are: (1) Where Do We Go From Here? (2) Avoid Hand Tool Accidents, (3) How to Put the Brakes on Moving Objects, (4) Stop...Bumping into Danger, (5) Give Falls the Run Around, (6) Have a Happy Vacation, (7) An Uplift Can Be Your Downfall, (8) Don't Be Mr. In Between, (9) Eye Believe! (10) Be Fire Resistant--Avoid Fires! (11) Beware That Hot Charge! (12) Let Safety Light Your Tree, and (13) Watch Out for Slips and Falls. A discussion of motivation and an accident prevention guide are included. Available with the document are posters and handout materials. (EM)

**\*WELDING; \*WELDERS; \*STUDENT PROJECTS; \*TRADE AND INDUSTRIAL EDUCATION; \*TEXTBOOKS; SECONDARY GRADES; ADULT VOCATIONAL EDUCATION; TRANSPARENCIES**

Developed by a group of teachers, supervisors, technicians, and engineers, this student reference is for use in high schools, colleges, trade schools and union schools. Students must be able to weld in vertical, horizontal, and overhead positions prior to enrolling for this course. The practice jobs explained are: (1) Preliminary Practice-Plate-All Positions, (2) Assembly and Tacking of Pipe Workpiece, (3) Root Bead-Horizontal Fixed Position, (4) Second Bead-Horizontal Fixed Position, (5) Cover Bead-Horizontal Fixed Position, (6) Root Bead-Vertical Fixed Position, (7) Second Bead-Vertical Fixed Position, (8) Third and Fourth Beads-Vertical Fixed Position, (9) Root Bead-Poorly Fitted Joints-Horizontal Fixed Position, and (10) American Society of Mechanical Engineers Butt Weld Procedure Qualification Test. This 80-hour course may be utilized in preparing welders for pipe welding in industry. The document is illustrated with line drawings and photographs and may be used as a practice guide in a welding booth. The pages are suitable for reproduction as transparency masters. (DM)

**\*CURRICULUM GUIDES; \*TEACHING GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*REFRIGERATION MECHANICS; HEATING; AIR CONDITIONING; REFRIGERATION; \*CLIMATE CONTROL; GRADE 11; GRADE 12; POSTSECONDARY EDUCATION; ADULT VOCATIONAL EDUCATION; BIBLIOGRAPHIES; OCCUPATIONAL INFORMATION; EMPLOYMENT OPPORTUNITIES**

This curriculum guide is for use by teachers, supervisors, and administrators in 2-year secondary, postsecondary, or adult courses for air conditioning, heating and refrigeration mechanics. It was developed by a committee of industrial training specialists and educators. Upon completion of the course, students should understand and be capable of trouble shooting control systems. Major units are: (1) Refrigeration, (2) Basic Electricity, (3) Commercial Refrigeration, (4) Year-Round Air Conditioning, (5) Air Distribution, (6) Controls, (7) Trouble Shooting, and (8) Customer Relations. Each unit includes: (1) time allocation, (2) objectives, (3) tools and materials, (4) instructional procedure, (5) unit outline, (6) laboratory activity, (7) shop activity, and (8) references and aids. The teacher should have a minimum of 2 years in technical education and 3 years of related experience. The section relating to the organization and teaching of the course includes: (1) teacher qualifications, (2) organizing instruction, (3) lesson planning, (4) evaluation, (5) facilities, (6) advisory committees, and (7) safety. Supplementary materials include lists of tools, equipment, and supplies. Operation sheets and task sheets are included in some units. (EM)

\*CURRICULUM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*AUTO BODY REPAIRMEN; AUTO MECHANICS; OCCUPATIONAL INFORMATION; SECONDARY GRADES; ADULT VOCATIONAL EDUCATION; FEDERAL PROGRAMS  
\*MANPOWER DEVELOPMENT AND TRAINING ACT PROGRAMS; MDTA PROGRAMS

This curriculum guide is for administrative use in planning vocational programs for automotive body repairmen. It was developed for the Division of Vocational and Technical Education under a contract by Oklahoma State University. Major units for 1,760 hours of classroom and laboratory instruction are: (1) Related Occupational Instruction, (2) Automotive Metals, (3) Body Panel and Fender Straightening, (4) Welding and Leading, (5) Frame Straightening, (6) Front End Repair and Alignment, (7) Refinishing Processes, (8) Removing and Replacing Upholstery and Trim, and (9) Glass Removal and Replacement. Each unit gives (1) training time, (2) objectives, (3) unit outline, (4) suggested shop exercises, and (5) references. The U.S. Employment Service General Aptitude Test Battery B-593 should be utilized as an aid in the selection of trainees. Instructors should have related employment experience. Supplementary materials include lists of films, tools, equipment, and supplies. (EM)

\*PROGRAMED MATERIALS; \*TRADE AND INDUSTRIAL EDUCATION; \*VOCATIONAL ADJUSTMENT; \*READING; \*MATHEMATICS; ADULT VOCATIONAL EDUCATION; CORRECTIVE INSTITUTIONS; CORRECTIONAL EDUCATION; REMEDIAL PROGRAMS; PROGRAMED UNITS; PROGRAMED INSTRUCTION; ILLUSTRATIONS

This collection of programed materials is for use by educators in correctional institutions. It was developed by an educational staff for use on the B.L. Allen Teaching Machine. The purpose of this collection is to introduce and disseminate the several programs. "Introduction to Programing" is designed to explain the characteristics of programs to training staffs. "Basic Communications" and "Basic Skills (Verbal)" are designed for use with trainees scoring between 0.0 and 4.0 and between 4.0 and 7.0 on Specific Aptitude Test (SAT) respectively. "Basic Skills (Numerical)" is designed for use with trainees scoring between 4.0 and 7.0 on SAT. "Vocational Related Instruction" is for use with vocational trainees. "GED Preparation" is designed for trainees scoring between 7.0 and 9.0 on SAT and who are preparing for high school equivalency. All programs presented are considered to be in the trial and testing stage of development. The programs are illustrated. (EM)

\*CURRICULUM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*OCCUPATIONAL CLUSTERS; \*ELECTRONICS INDUSTRY; ADULT VOCATIONAL EDUCATION; ELECTRONICS; COMMUNICATIONS; CORRECTIVE INSTITUTIONS; BIBLIOGRAPHIES; STUDENT PROJECTS; UNITS OF STUDY (SUBJECT FIELDS)

Developed for correctional institutions, this series of six curriculum guides is for use in teaching an occupational cluster in electronics technology. Each guide contains 20 instructional units designed for a 120-hour course. Units in this volume include: (1) Introduction to Communications, (2) Sound and Radio Waves, (3) Vacuum Tube Characteristics, (4) Audio Circuits, (5) Introduction to Detectors, (6) Superheterodyne Receivers, (7) Testing and Servicing Receivers, and (8) Evaluation and Testing Communication Circuits and Devices. Each unit provides lesson plans, a reference list, an audio-visual materials list, and suggested student activities. Other guides are VT 008 343-VT 008 348. (EM)

\*CURRICULUM GUIDES; TEACHING GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*OCCUPATIONAL CLUSTERS; \*AEROSPACE INDUSTRY; ADULT VOCATIONAL EDUCATION; CORRECTIVE INSTITUTIONS; \*ORIENTATION MATERIALS; UNITS OF STUDY (SUBJECT FIELDS); BIBLIOGRAPHIES

Curriculum materials in the nine volumes of this series were designed to introduce prisoners to eight types of occupations which encompass most of the skilled occupations in aerospace industries. The series represents an integrated curriculum for basic skill development in this occupational cluster. Each volume covers 20 six-hour instructional units. Each unit provides lesson plans which give essential content, references, audio-visual materials, and suggested student activities. Some of the 20 units in this introductory volume are: (1) An

Overview of the Aerospace Industry, (2) History and Development of Mass Production, (3) Vacuum Forming Plastic, (4) Metalworking, (5) Screen Process Printing, (6) Advertising in Industry, (7) Plant Organization, (8) Operating the Production Line, and (9) Evaluation of Production Line Process. Others in the series are VT 008 355-VT 008 362. (EM)

\*CURRICULUM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*OCCUPATIONAL CLUSTERS; \*POWER MECHANICS; \*AEROSPACE INDUSTRY; ADULT VOCATIONAL EDUCATION; CORRECTIVE INSTITUTIONS; ORIENTATION MATERIALS; UNITS OF STUDY (SUBJECT FIELDS); STUDENT PROJECTS; BIBLIOGRAPHIES

This curriculum guide is one of a series of nine which was developed under contract with the U.S. Bureau of Prisons. Its purpose is to provide an introductory vocational course on power mechanics for prisoners. The series is designed to cover a cluster of seven aerospace occupations. The twenty 6-hour instructional units include: (1) Power Technology in Aerospace, (2) Internal Combustion Engines, (3) The Automobile, (4) Diesel Engines, (5) Rotary Combustion Engines, and (6) Theory of Flight and the Aircraft Piston Engine. Each unit provides lesson plans and lists references, audio-visual materials, and suggested student activities. Others in the series are VT 008 354-VT 008 362. (EM)

Training Recommendations: Managers and Supervisors.

Carpet Industry Training Board, Wilmslow Cheshire (England)  
MF AVAILABLE IN VT-ERIC SET.  
Pub Date - Jun68 29p.

\*PROGRAM GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*MANAGEMENT EDUCATION; \*CARPETING; MANUFACTURING INDUSTRY SUPERVISORS; MANAGERIAL OCCUPATIONS; ADULT VOCATIONAL EDUCATION; MANAGEMENT; BUSINESS EDUCATION; SUPERVISORY TRAINING; OCCUPATIONAL INFORMATION; EDUCATIONAL NEEDS; ADMINISTRATIVE POLICY; INDUSTRIAL TRAINING

Developed by the Carpet Industry Training Board of Wilmslow Cheshire, England, this manual is designed to aid in training effective supervisory and managerial personnel in the carpet industry. Part A, A Guide to Training Policy, provides a conceptual scheme and is intended primarily for senior management personnel. Part B, Guides to Implementation Training, is designed to provide practical guidance to those directly concerned with implementing the training policies within the individual firms. Part A covers: (1) need for a realistic training policy, (2) training toward the objectives of improved performance, promotion, direct entry, and development of potential, (3) types of training policies, (4) accountability for training, (5) training needs, (6) recruitment, (7) placement, (8) the actual training program, (9) evaluation of training procedures, and (10) record-keeping. Part B deals with such aspects as: (1) effective policy statements, (2) job descriptions, (3) appraisals, (4) improving performance, (5) evaluation of training, (6) personnel selection procedures, (7) induction, and (8) actual training methods. The manual is illustrated with charts, diagrams, and sample forms. (AW)

Handbook on First Year Apprenticeship Training in Engineering.

Ministry of Labour, London (England)  
DOCUMENT NOT AVAILABLE FROM EDRS.  
Sales Section, British Information Service, 845 Third Avenue, New York, New York 10022.  
Pub Date - 66 293p.

\*TEACHING GUIDES; \*TRADE AND INDUSTRIAL EDUCATION; \*MACHINISTS; \*APPRENTICESHIPS; STUDENT PROJECTS; ADULT VOCATIONAL EDUCATION

This teaching guide is for use in first-year machinist apprentice courses. It was developed in the Training Department of the Ministry of Labour. Lectures and student exercises are progressive in nature and cover bench work, lathes, milling machines, grinders, and shapers. Typical topics are: (1) Reading of Engineering Drawings, (2) Safety Precautions for Machine Operators, (3) The Use of Datum Lines, Points, and Faces, (4) Measuring Instruments, (5) The Centre Lathe, (6) Heat Treatment of Tool Steels, (7) The Dividing Head, (8) Gears, (9) Workshop Geometry and Trigonometry, and (10) Bending Allowances for Sheet Metal. The course was planned to allow 24 weeks on benchwork, 22 weeks on lathes, and four weeks on reciprocating machines. This guide is in a 4-ring, loose-leaf notebook; pages are 8 x 13 inches. Supplementary materials include several dozen drawings of machine tools, measuring tools, machine operations, gears, and student exercises which can be used as transparency masters or student handouts. \*MANPOWER DEVELOPMENT AND TRAINING ACT PROGRAMS; MDTA PROGRAMS

Examples of training plan outlines for entry level and refresher Manpower Development and Training Act (MDTA) courses designed to prepare trainees for employment as carpenters, millmen, and woodworking machine operators are given. Prepared by training agencies under provisions of the MDTA, these outlines present brief descriptive information and a topical outline of each course, including: (1) major units, (2) clock hours, (3) specific skills to be developed, (4) instructional materials, teaching aids, and new equipment, and (5) evaluation of progress and achievement. The examples of training plan outlines illustrate courses ranging in length from 600 to 2000 clock hours. (AW)

ES 70; ORGANIC CURRICULUM

The coordinators were given an overview of the entire ES '70 project and organic curriculum at the ES '70 Coordinator's Workshop, August 1967. Special emphasis was placed on the role of the coordinator in carrying out the program in the local community. A Network Conference held September 1967, of 51 participating school personnel, USOE and E.F. Shelley and Company representatives (1) limited the number of participating schools to 17, (2) considered secondary network possibilities, (3) reviewed the organic curriculum, (4) described the procedure for developing behavioral objectives, (5) considered a preliminary Program Evaluation and Review Technique (PERT) schedule, (6) distributed a questionnaire to obtain baseline data, (7) continued developing guidelines to show the relationship of school systems to the network, (8) urged local school systems to establish affiliations with universities, (9) discussed relations with commercial organizations, (10) considered training programs for teachers and administrators, and (11) listed schedules of meetings. "ES '70 Report Number 1" (ED 019 521 in AIM Winter 68) describes the program and its organization, and "ES '70 Report Number 2" (ED 019 522 in AIM Winter 68) reports the Executive Committee Meeting of July 1967. WORKBOOKS; \*STUDY GUIDES; \*OCCUPATIONAL GUIDANCE; \*OCCUPATIONAL INFORMATION; CAREER PLANNING; STUDENT PROJECTS; GRADE 10; PERSONALITY ASSESSMENT; APTITUDE; INTERESTS; EDUCATIONAL PLANNING; BIBLIOGRAPHIES; WORK ENVIRONMENT

This career orientation workbook was developed by a local committee of teachers, and was revised after testing with high school students. It was designed as a 1-semester course with 10th-grade pupils and focuses on general career planning activity. Teachers conducting such a course should have a background in occupational information and vocational guidance. Some of the topics discussed include: (1) Interests, (2) Aptitudes and Achievement, (3) Personality and Character Traits, and (5) Education on Career Planning. Assignment sheets and a bibliography are appended. (CH)

 Pub Date - May68 11p.

\*VOCATIONAL EDUCATION; \*JUNIOR COLLEGES; \*STATE SURVEYS; \*EDUCATIONAL PROGRAMS; CURRICULUM; COMMUNITY COLLEGES; TECHNICAL EDUCATION  
 \*ILLINOIS

The purpose of this brochure is to identify: (1) sources for trained personnel, (2) opportunities for upgrading work force, and (3) the status of occupational curriculums. In 1968, an opening enrollment of 133,100 students was projected for 30 public community colleges in Illinois. Twenty-one percent of the students currently enrolled are in occupation-oriented programs which account for 34 percent of all courses offered in public community colleges. The Illinois Public Junior College Act of 1965 requires "at least 15 percent of all courses taught to be in occupational, semi-technical, or technical fields leading directly to employment, one-half of which courses to be fields other than business education." A table is provided which indicates the distribution of these courses among the public junior colleges. Also presented is the survey of occupational programs currently offered or in the planning stages. (CH)

SUPPLEMENTARY TEXTBOOKS; \*VOCATIONAL EDUCATION; \*STUDY GUIDES; \*SCHOOL SAFETY; \*SCHOOL SHOPS; SHOP CURRICULUM; \*SAFETY EDUCATION; SECONDARY GRADES; ILLUSTRATIONS; PHOTOGRAPHS

This guide is for use by high school students in studying safety practices and procedures in school shops. It was developed by two safety program instructors at the high school level. The content objective is to develop an understanding of the concepts of safety practices and procedures. Units include: (1) Introduction to the School Shop, (2) Safety Practice and Procedure Outline for any Shop, (3) General Causes of Accidents in Any Shops, (4) Personal Factors and Safety, and (5) Other Factors Which Cause Accidents. Unit outlines include objectives, related information, questions, and assignments. The guide includes 43 units to be taught over a 1-year period. Teachers should have appropriate certification. The document is illustrated with line drawings and photographs. (CH)

ERIC Clearinghouse for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210 (Quarterly--Fall, Winter, Spring, Summer, \$9.00 per year).  
 Pub Date - 69 164p.

\*ANNOTATED BIBLIOGRAPHIES; \*INSTRUCTIONAL MATERIALS; \*VOCATIONAL EDUCATION; \*TECHNICAL EDUCATION; BUSINESS EDUCATION; AGRICULTURAL EDUCATION; DISTRIBUTIVE EDUCATION; HEALTH OCCUPATIONS EDUCATION; HOME ECONOMICS EDUCATION; INDUSTRIAL ARTS; TRADE AND INDUSTRIAL EDUCATION; INDEXES (LOCATORS); CLEARINGHOUSES

This quarterly publication announces the availability of instructional materials acquired and processed by the Educational Resources Information Center (ERIC) Clearinghouse on Vocational and Technical Education. It should be of particular interest to teachers, curriculum specialists, supervisors, and administrators involved in curriculum development or the use of instructional materials in the teaching-learning setting. Each abstract, a condensation of the report in about 200 words, usually includes the means used to develop the material, the setting for use of the material, and source of available copies. Abstracts are included under the following sections: Agricultural, Business and Office, Distributive, Health Occupations, Home Economics, Industrial Arts, Technical, Trade and Industrial, General Vocational and Technical Education, and Other Resources. An author index, document number index, and subject index are provided. Most of the documents which have not been announced in "Research in Education," are available as a separate microfiche set from the ERIC Documents Reproduction Service (VT 009 405). Others are available from the source identified in the abstract. (CD)

VT 009 405 ED (See Jan'70 RIE)

Microfiche Collection of Clearinghouse Documents Reported in Abstracts of Instructional Materials in Vocational and Technical Education (AIM), Summer 1969.

Ohio State Univ., Columbus. Center for Vocational and Technical Education  
Office of Education (DHEW), Washington, D.C.  
EDRS PRICE MF-\$86.00 HC NOT AVAILABLE FROM EDRS.  
Pub Date - 69 24,048p.

\*INSTRUCTIONAL MATERIALS; \*VOCATIONAL EDUCATION; \*TECHNICAL EDUCATION; BUSINESS EDUCATION; AGRICULTURAL EDUCATION; DISTRIBUTIVE EDUCATION; HEALTH OCCUPATIONS EDUCATION; HOME ECONOMICS EDUCATION; INDUSTRIAL ARTS; TRADE AND INDUSTRIAL EDUCATION; INDEXES (LOCATERS); CLEARINGHOUSES

Documents announced with VT numbers only in the Summer 1969 issue (VT 009 404) of "Abstracts of Instructional Materials in Vocational and Technical Education" (AIM) are included in this microfiche set. The microfiche set is arranged in the following sequence: (1) a Vocational Technical (VT) number index to documents in the microfiche collection, (2) the author and subject index from AIM, and (3) the full text of documents listed in the VT number index. The texts are filmed continuously in VT number sequence. (CD)

KEY

- x Limited number of complimentary copies available. Address orders to: The Publications Clerk, The Center for Vocational and Technical Education, The Ohio State University, 1900 Kenny Road, Columbus, Ohio 43210.
- o Out-of-print, available only through the ERIC system (see \*)
- \* Documents which show an ED number and issue of Research in Education (RIE)<sup>1</sup> are available on microfiche or facsimile copy through ERIC Document Reproduction Service (EDRS). Ordering information is obtained from the appropriate issue of RIE.

Documents shown with a VT number are being processed for introduction into the ERIC system and will be available on microfiche and facsimile copy when announced in the issue of Research in Education (RIE) shown with the VT number. Ordering information can be obtained from that issue of RIE. In cases where the "Center Cost" is indicated as well as the ED number in the "ERIC System," those particular documents are also available from the Center.

<sup>1</sup>Research in Education is published 12 times a year. The first issue was no. 1, November 1966. Subscription: Domestic \$21.00 a year; foreign, \$5.25 additional. Single copy: Domestic, \$1.75. Send check or money order (no stamps) to the Superintendent of Documents, U.S. Government Printing Office, Washington, D. C. 20402
