ABSTRACT

This is one of four publications presenting higher education financial data for the fiscal year 1966-67. The other three are Current Funds Revenues and Expenditures, Property, and Student Financial Aid. This publication, Federal Funds, was developed from financial questionnaires as part of the Office of Education's higher education general information surveys, and includes financial data for the fiscal year 1965-66. The document is a compendium of tables showing Federal funds expended by institutions of higher education (1) by Federal department or agency providing funds, control, and purpose--and aggregated for the United States; (2) by Federal department, control, level of institution, and purpose--also aggregated; (3) by Federal department, region, State, and purpose; (4) by Federal department, region, and State, with a breakdown by public or private, university, other 4-year, or 2-year institution. Appendices include the methodology, the number of institutions of higher education responding (by level, control, region, and State), a list of nonrespondents, and a sample survey report form. (DE)

## FOREWORD

The higher education financial data for fiscal year 1966-67 will be presented in a series of four publications: Current Funds Revenues and Expenditures, Property, Student Financial Aid, and Federal Funds (the latter including data for fiscal year 1965-66). This publication, Financial Statistics of Institutions of Higher Education: Federal Funds, 1965-66 and 1966-67, was developed from the financial questionnaires that were part of the Office of Education's Higher Education General Information Surveys.

We extend our sincere appreciation to the more than 2,000 business officers and other officials of those institutions who assisted us in the development of the surveys and completed the questionnaires.

Theodore H. Drews, Chief  
Higher Education Surveys Branch

## SUMMARY

All institutions of higher education expended a total of \$7.0 billion in funds provided by Federal agencies in the 1965-66 and 1966-67 fiscal years. In 1965-66, \$3.1 billion was spent; in 1966-67, \$3.9 billion.

The total was 26 percent of all current funds expenditures by the institutions during the 2 years: 25 percent in 1965-66 and 27 percent in 1966-67.<sup>1/</sup>

The money came to the institutions from the Federal Government in two forms: (1) grants and contracts and (2) loans. In 1965-66, the \$2.6 billion in grants and contracts funds expended was about five times the \$488 million expended in loan funds, while in 1966-67, the \$3.3 billion in grants and contracts funds was about six times as great as the \$559 million in loan funds. The funds were not necessarily received in the year in which they were expended.

The funds were provided principally by nine Federal sources--(1) the Office of Education; (2) the Public Health Service, including the National Institutes of Health; (3) other agencies within the Department of Health, Education, and Welfare; (4) the Department of Agriculture; (5) the Department of Defense; (6) the Department of Housing and Urban Development; (7) the Atomic Energy Commission; (8) the National Aeronautics and Space Administration; and (9) the National Science Foundation. There also is a 10th source category: "all other Federal departments and agencies."

Table 1 shows Federal funds by source of funds and by purpose of expenditure for all institutions, publicly controlled institutions, and privately controlled institutions. During 1966-67, the publicly controlled institutions spent \$1.7 billion of Federal grants and contracts funds; the privately controlled institutions spent \$1.6 billion. The comparable 1965-66 figures are \$1.2 billion and \$1.4 billion. The \$544 million increase for the publicly controlled institutions raised their share from 45 percent of such expenditures in 1965-66 to 52 percent in 1966-67. In the same interval, the share of loan funds expended by the publicly controlled institutions rose from 43 to 46 percent.

The largest source of Federal funds in grants and contracts in 1965-66 and 1966-67 was the Public Health Service, which provided \$611 million of the funds spent in the first year and \$729 million in the second. The two primary sources of loan funds expended by the institutions in both years were the Department of Housing and Urban Development (almost entirely funds for physical plant facilities) and the U.S. Office of Education (almost entirely student loans).

<sup>1/</sup> Financial Statistics of Institutions of Higher Education: Current Funds Revenues and Expenditures, 1966-67 (OE-52010-67). U.S. Department of Health, Education, and Welfare, Office of Education, Washington: U.S. Government Printing Office, 1969. p.9.

If all the Federal funds, both grants and contracts and loans, disbursed by agencies of the Department of Health, Education, and Welfare are totalled, that Department was the greatest source of Federal funds expended in both years. (These totals also appear in table 4.) In 1966-67, institutions expended \$1.5 billion provided by the Department of Health, Education, and Welfare. This was 39 percent of all Federal funds. In 1965-66, HEW provided \$1.1 billion, or 36 percent of the total.

Table 2 breaks down the data of table 1 by level of institution--i.e., university, other 4-year, and 2-year. This table shows that public universities expended more Federal grants and contracts funds in 1966-67 than any other level of institution, a total of \$1.4 billion. This was a 51 percent increase over the \$896 million expended in 1965-66. Other 4-year private institutions were first in total loan funds expended by the institutions, \$210 million in 1966-67. This was a 4 percent increase over the 1965-66 figure.

Table 3 is a region and State listing of Federal funds expended by source of funds and purpose. This listing is for all institutions.

In 1965-66, the States with the greatest expenditures of Federal grants and contracts funds were California, Massachusetts, and Illinois, with \$630 million, \$238 million, and \$203 million, respectively. In 1966-67, the leading States were California, \$794 million; Massachusetts, \$282 million; and New York, \$255 million (up from \$140 million the previous year).

In 1965-66, California and Illinois were first and second in loan funds expended by the institutions, \$41 million and \$32 million, respectively. In 1966-67, California continued to rank first in this category, but the dollar figure had dropped to \$39 million. Pennsylvania was second with a figure of \$37 million.

Table 4 is a region and State listing by level and control of institution. The figures shown are aggregates of all Federal funds expended--the grants and contracts plus the loans.

California's institutions of higher education expended more Federal funds than those in any other State, for both years. In 1965-66, the figure was \$672 million; in 1966-67, it was \$833 million. The States showing the greatest percentage increases in expenditures of Federal funds between the 2 years were West Virginia, 124 percent; New Hampshire, 110 percent; and Delaware and New York, 73 percent each. Four States showed declines in expenditures of Federal funds: Idaho, 9 percent; Connecticut, 4 percent; and Kansas and South Dakota, 3 percent each.

Table 5 is a region and State listing of Federal funds expended by purpose of expenditure.

This table provides these data for all institutions at all levels and both publicly and privately controlled.

The purposes of expenditures are divided into two sets of categories, one for grants and contracts and the other for loans. Grants and contracts are expenditures for instruction and departmental research, extension and public service, organized research, other sponsored activities, libraries, student financial aid, physical plant facilities, and other expenditures for grants and contracts. Of these purposes, more money was expended for organized research than for any other purpose: in 1965-66, \$1.7 billion out of \$3.1 billion; in 1966-67, \$2.1 billion out of \$3.9 billion, or 53 percent in each year. Organized research includes all sponsored and separately budgeted research such as research bureaus and institutes, agriculture or engineering experiment stations, and other specific research projects funded by Federal agencies in accordance with written agreements (grants and contracts).

There were two primary purposes for loans to the institution: (1) student loan funds and (2) physical facilities. There was also a third category-- other loans to institution--but it was less than 1 percent of all loans.

## APPENDIX A

### METHODOLOGY

#### Fiscal Year 1966-67

The Higher Education General Information Survey package was mailed in the spring of 1967 to the presidents of all institutions of higher education. This package contained OE form 2300-4, "Financial Statistics of Institutions of Higher Education." (See appendix D.)

Completed questionnaires were received from 2,060 institutions--a response rate of 86 percent. The numbers of respondents by level of institution, region, and State are shown in appendix B. The institutions that failed to respond or to provide adequate data are listed in appendix C.

One of two methods was used to adjust for nonresponse depending on whether or not an institution's data were available for a prior or succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trend information provided in the U.S. Office of Education publication, Projections of Education Statistics to 1977-78 (1968 Edition), and entered as the institution's report for fiscal year 1966-67.

If no other year's data were available for an institution, peer institution data for fiscal year 1966-67 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of institution, and enrollment size.

### Fiscal Year 1965-66

In the fall of 1966, questionnaires (OE-2300-4) were mailed to 2,295 institutions of higher education. This universe consisted mainly of the listing of institutions generated by the 1965 Opening Fall Enrollment survey, supplemented by those institutions that had opened during the 1965 academic year subsequent to that survey and had reported financial data for the period on form OE-2300-4. A copy of this form is shown in appendix D.

Completed questionnaires were received from 1,948 institutions--a response rate of 85 percent. The response rate for the Nation, by level and control, is shown in the following table:

<u>Level and control</u>	<u>Percent response</u>	<u>Level and control</u>	<u>Percent response</u>
Total:	84.9	Other 4-year institutions:	85.1
Publicly controlled	88.0	Publicly controlled	92.9
Privately controlled	83.1	Privately controlled	82.9
Universities:	99.4	2-year institutions:	81.2
Publicly controlled	98.9	Publicly controlled	82.2
Privately controlled	100.0	Privately controlled	79.6

A table showing the number of respondents by level of institution, region, and State, appears as appendix B.

The procedure used to adjust for nonresponse was to group the institutions within each State by control (public or private) and by level (universities, other 4-year institutions, and 2-year institutions). For each of these groups the ratio

$$\frac{\text{Responding institutions} + \text{nonresponding institutions}}{\text{Responding institutions}}$$

was computed. These ratios were then applied to all data for the responding institutions in the group.

At the national level, this imputation procedure added 7 percent to the financial estimates for all institutions, 6 percent for public institutions, and 8 percent for private institutions. For all universities, this figure was 1.5 percent.

The institutions that failed to respond or to provide adequate data are listed in appendix C.

HIGHER EDUCATION GENERAL INFORMATION SURVEY  
FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION

Report for Fiscal Year Ended \_\_\_\_\_ 1967

(Report due within 3-months after close of fiscal year or November 30th, whichever is first)

NAME AND TITLE OF PERSON REPORTING:

TELEPHONE AREA CODE, NUMBER, EXTENSION:

These financial schedules are designed, in general, in categories which are compatible with groupings and definitions in College and University Business Administration, Volumes I and II, published by the American Council on Education, 1785 Massachusetts Ave., N. W., Washington, D. C.

Please complete these schedules and return them to the U.S. Office of Education not later than 2 months after the close of the fiscal year for your institution (e.g., if your fiscal year closes on May 31, the schedules should be returned to the U.S. Office of Education not later than August 31; if on June 30, by September 30; or if on August 31, by November 30).

The data requested in these financial schedules are usually published by statistical total or aggregates. In some instances, the data are published with the institution identified. Please indicate below by schedule number which schedules, if any, should not be published with institutional identification.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Theodore H. Drews, at (202) 962-7301, in Washington, D. C.

NOTE: THE DATA PROVIDED IN THIS SURVEY MUST BE TYPED ON THESE FORMS, SINCE THEY WILL BE PROCESSED BY CHARACTER-READING OPTICAL SCANNING EQUIPMENT. PLEASE BE SURE THAT THE TYPEWRITER IS IN GOOD CONDITION, THAT THE KEYS ARE CLEAN, AND THAT THE RIBBON IS NEW. NYLON OR ONE-TIME PLASTIC BLACK RIBBONS PRODUCE THE BEST RESULTS. THE TYPING SHOULD BE CONFINED TO THE SPACE WITHIN THE PURPLE OUTLINES OR BOXES. PLEASE USE ONLY NUMBERS FOR ALL DATES, IN MONTH, DAY, AND YEAR SEQUENCE. STRIKEOVERS AND ERASURES SHOULD BE AVOIDED.

HIGHER EDUCATION GENERAL INFORMATION SURVEY  
FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION

Report for Fiscal Year Ended \_\_\_\_\_ 1966  
month

(Report due within 3-months after close of fiscal  
year or November 30th, whichever is first)

NAME AND TITLE OF PERSON REPORTING:

TELEPHONE AREA CODE, NUMBER, EXTENSION:

The data requested in these financial schedules will be used normally for (1) administrative purposes by institutions within the U.S. Office of Education and other agencies of the Federal government; (2) special studies by foundations, research organizations, associations of higher education, and peer groups of institutions, with the individual institutions not identified; and (3) publication at aggregate levels such as State and region, type, and control, again with individual institutions not identified.

The schedules are designed, in general, in categories which are compatible with groupings and definitions in College and University Business Administration, Volumes I and II, published by the American Council on Education, 1785 Massachusetts Ave. N. W., Washington, D. C.

Please complete these schedules and return them to the U.S. Office of Education not later than 3 months after the close of the fiscal year for your institution (e.g., if your fiscal year closes on May 31, the schedules should be returned to the U.S. Office of Education not later than August 31; if on June 30, by September 30; or if on August 31, by November 30).

The data requested in these financial schedules are usually published by statistical total or aggregates. In some instances, the data are published with the institution identified. Please indicate below by schedule number which schedules, if any, should not be published with institutional identification.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mrs. Hazel Poole, at (202) 962-2937, in Washington, D. C.

NOTE: THE DATA PROVIDED IN THIS SURVEY MUST BE TYPED ON THESE FORMS, SINCE THEY WILL BE PROCESSED BY CHARACTER-READING OPTICAL SCANNING EQUIPMENT. PLEASE BE SURE THAT THE TYPEWRITER IS IN GOOD CONDITION, THAT THE KEYS ARE CLEAN, AND THAT THE RIBBON IS NEW. NYLON OR ONE-TIME PLASTIC BLACK RIBBONS PRODUCE THE BEST RESULTS. THE TYPING SHOULD BE CONFINED TO THE SPACE WITHIN THE PURPLE OUTLINES OR BOXES. PLEASE USE ONLY NUMBERS FOR ALL DATES, IN MONTH, DAY, AND YEAR SEQUENCE. STRIKEOVERS AND ERASURES SHOULD BE AVOIDED.

General instructions and definitions

1. General and detailed instructions and definitions are coded by number in each schedule (e.g., detailed instruction no. 11 is coded at the end of the description of schedule I).
2. Data requested on financial statistics are for the fiscal year of your institution, not the fiscal year of the Federal government.
3. Data on all of the organizational units of your institution (e.g., Federal contract research centers, branches, extensions) should be included. Any support provided an independent organization, such as a consortium, should also be included.
4. Data for your institution which are not kept on the records of your institution, but are kept on the records of another organization or agency for your institution, should be included (e.g., State agency keeping records on physical plant).
5. Estimated value of "contributed services" (e.g., Members of a religious order) should be included under income (Private gifts and grants) and under expenditures by appropriate categories.
6. In reporting Federal funds received, include those Federal funds channeled through State agencies.
7. Exclude agency funds - i.e., funds handled by the institution in a custodial capacity only (e.g., funds for student organizations).
8. No one institution will have data for all of the cells in these schedules (e.g., in schedule I, item 4, private gifts and grants are usually for only columns (2), (3), and (5); and, if this is the case at your institution, you will have no data for columns (4), (6), and (7)).
9. Detailed instructions and definitions are with each schedule, with the box-head items of each schedule included first and stub items included second.
10. In reporting dollar amounts, omit cents.

SCHEDULE I - CURRENT-FUNDS REVENUE BY SOURCE AND PURPOSE FOR FISCAL YEAR ENDING \_\_\_\_\_, 1966 (11)  
MONTH

11. In schedule I, report all current-funds revenue (unrestricted and restricted by donor; undesignated and designated by the institution) received for the fiscal year. Report all current-funds revenue as shown on your accounting records, regardless of the accounting basis used (e.g., cash, accrual, etc.).
12. Column (2) - Report all current-funds revenue for educational and general purposes, except for separating out for columns (3) and (4) only that portion of the educational and general revenue which is used for organized research and for organized activities relating to educational departments.
13. Column (3) - Organized research is revenue for sponsored or other separately organized research activities. If your institution does not maintain records of organized research revenue, make the assumption that organized research revenue total (Schedule I, 9, col. (3) is equal to organized research expenditure total (Schedule IV, 1 h), and estimate revenue by source for organized research if necessary. It is assumed that organized research revenue from the Federal Government source is known; and, therefore, does not have to be estimated.
14. Column (4) - Organized activities relating to educational departments is revenue for activities organized and operated in connection with educational departments and conducted primarily as a necessary part of the work of the departments. In some instances, an activity may be operated for more than one purpose, making it necessary for your institution to report the activity under more than one category: e.g., (1) Organized activities relating to educational departments, and (2) Auxiliary enterprises (e.g., - a medical school hospital which serves two purposes: a teaching aid (organized activity) and a nonteaching function (auxiliary enterprise)). Report these activities as shown on your records.

## SCHEDULE I INSTRUCTIONS (CONTINUED)

15. Column (5) - Student aid grants is revenue received by the institution which is used for grants including grants-in-aid, scholarships, and fellowships. It should not include student loan funds or funds to be used for work assignments, since neither of the two latter categories are grants (out-right gifts which require of the student neither work nor repayment) to the student.
16. Column (6) - Housing and food service are activities operated primarily for services to students and staff and are intended to be self-supporting. Report revenue on all housing and food service owned or leased by the institution. For contracted food service report only revenue as shown on the records of your institution if the contractor collects directly from the students.
17. Column (7) - Other auxiliary enterprises are also activities operated primarily for service to students and staff and are intended to be self-supporting. Report revenue on such activities including bookstores, presses, and intercollegiate athletics (if classified as an auxiliary enterprise by your institution).
18. Line 1 - Tuition and fees source is the gross revenue resulting from such charges being assessed the student. This source of revenue is normally for educational and general purposes and therefore should be reported on line 1, in column (2), with these exceptions: gross tuition and fee revenue used for organized research or organized activities should be reported on line 1, in columns (3) and (4), respectively; and institutions providing the student a reduction from his gross tuition and fees charge which is an unfunded (i.e., not underwritten from other revenue sources) grant, such as grant-in-aid, scholarship, or fellowship, should report the total of these unfunded grants on line 1, in column (5).
19. Line 2 - Room, board, and all other charges to individual users of service is gross revenue resulting from charges assessed either at enrollment or at the time the service is rendered. Charges for organized activities should be reported in column (4); housing and food service in column (6); and bookstore and other auxiliary activity charges in column (7).
20. Line 3 - Revenue from endowment investment is earnings in the form of dividends, rents, interest, et cetera, for current operating purposes, resulting from investment of permanent endowment, term-endowment, quasi-endowment, (e.g., funds functioning as endowment), and endowment funds held in trust by others. It is assumed that this revenue is used for one or more purposes as enumerated in columns (2) through (5) inclusive.
21. Line 4 - Private gifts and grants is revenue from alumni, "contributed services" (i.e., members of religious orders), other individuals, business corporations, foundations, and religious and other groups. The distribution of these gifts and grants by purpose is assumed to be primarily in columns (2) through (5), inclusive.
22. Line 5 - Local government is revenue received from a municipality, a county, or a district, and is assumed to be used primarily for purposes designated in column (2) and (3).
23. Line 6 - State government is appropriation revenue which is presumed to be used primarily for purposes designated in columns (2) and (3), and perhaps (4) and (5) also.
24. Line 7 - Federal Government is grant and contract revenue (not loans) received from Federal agencies and departments. Much of this income is used for organized research and for student aid grants (columns (3) and (5), respectively). College Work-Study (work assignment) funds received should be reported in columns (2), (3), (4), (6) or (7), according to purposes for which the funds were expended, not as student-aid-grants (column 5).
25. Line 8 - Other sources is all other current-fund revenue from sources not listed above, (e.g., cash discounts on invoices, temporary investments of current-funds).

## SCHEDULE II - CAPITAL FUNDS RECEIPTS BY SOURCE AND FUND FOR THE FISCAL YEAR ENDING \_\_\_\_\_, 1966 (26)

26. In schedule II, report data on capital funds receipts which are included in the capital-funds statements of your institution. Do not include borrowed funds received.
27. Column (2) - Physical plant receipts are for use in acquiring land, improvements other than buildings, buildings, and equipment and for payment of debt service (principal and interest) on these facilities.
28. Column (3) - Endowment funds are receipts for permanent endowment, term-endowment, quasi-endowment (e.g., funds functioning as endowment) and endowment funds held in trust by others.
29. Column (4) - Annuity and living trusts are receipts which are made available to the institution on the condition that the institution bind itself to pay to the donor or other designated individuals in amounts and for periods determined by agreement at the time of receipt of funds.
30. Column (5) - Student loans are receipts belonging to the institution (i.e., not borrowed by the institution) which are to be loaned to students.
31. Line 1 - Fees charged to students are receipts which are from students and designated for capital-fund purposes (e.g., a student union building).
32. Line 2 - Receipts added to fund from investment of funds are realized gains and other income retained in the capital-funds and reinvested (or expended, if for physical plant).
33. Line 3 - Private gifts and grants are receipts from alumni, other individuals, business corporations, foundations, religious and other groups for capital funds purposes.
34. Line 4 - Receipts are from local government appropriations and/or direct tax levies (not borrowed funds).
35. Line 5 - Receipts are from State government appropriations and/or direct tax levies (not borrowed funds).
36. Line 6 - Receipts are from Federal Government department or agency (grants or contracts, not borrowed funds).
37. Line 7 - Other sources includes any source not listed above in lines 1 through 6, inclusive.

## SCHEDULE III - CAPITAL-FUNDS LOANS RECEIVED BY SOURCE AND FUND FOR THE FISCAL YEAR ENDING \_\_\_\_\_, 1966 (38)
