FOREWORD

This is a partial listing of some teaching-learning resources in music education relating to a minority group in America. You will note from the cover that this is Book I. We intend to provide bibliographic information regarding music of other minority groups. The booklet is punched so that you can place it in a three-ring binder. We hope you will keep this handy to your desk and find the information very useful.

Our thanks to many individuals and organizations who have contributed to this list. Rather than risk leaving out some names, we will mention none.

As new materials are developed and as you discover more materials in your research, would you send additions and annotations to our office. Local and state resources are most important to us in this effort.
