TITLE Aviation and Transportation Majors and Curricula Offered by Colleges and Universities.

INSTITUTION Federal Aviation Administration, Washington, D.C.

REPORT NO GA-20-72

PUB DATE Nov 69

NOTE 27p.

AVAILABLE FROM Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (Cat. No. 0-359-576)

EDRS PRICE EDRS Price MF-\$0.25 HC Not Available from EDRS.

DESCRIPTORS Aviation Technology, *College Curriculum, *College Majors, *Directories, *Engineering Education, *Transportation

ABSTRACT

This directory of colleges and universities offering courses in aviation, aerospace and transport technology indicates which United States institutions offer curricula leading to diplomas, certificates or degrees (associate, bachelor, master, doctor). Forty-four categories of aviation programs are listed, but as the terms used are those used by the institution, different names may refer to the same basic course of study. An address directory of institutions offering such courses is provided. (AI)

AVIATION AND TRANSPORTATION--
MAJORS AND CURRICULA

Colleges and universities are listed by state under the following majors and curricula:

Aeronautical & Astronautical Engineering	*Air Transportation
Aeronautical Engineering	Astro-Geophysics
Aeronautical Engineering & Astronautics	Astronautical Engineering
Aeronautical Technology	Astronautics
Aeronautics	Astrophysics
Aeronautics & Astronautics	Atmospheric Science
Aerospace Engineering	*Aviation Education
Aerospace Operations Management	Aviation Electronics
Aerospace Law	*Aviation Flight/Professional Pilot
Aerospace Sciences	*Aviation Management/Administration
Aerospace Technology	Aviation Mechanics
Agricultural Aviation	*Aviation Technology
Aircraft-Aircraft Engineering Technology	Flight Sciences
Aircraft Design	Mechanical & Aerospace Studies
Aircraft Engineering Technology	Professional Pilot (see Aviation
Aircraft Maintenance	Flight)
Aircraft Mechanics	Transportation
Aircraft Production Skills	Transportation Administration
*Airframe-Powerplant Technology	Transportation Engineering
Airline Hostess	Transportation & Public Utilities
Airport Operation	Travel Industry Management
*Air Traffic Control/Aviation Technology	

Included in this listing are institutions offering both two year terminal courses of instruction and those leading to baccalaureate and higher degrees. Students should be aware that some junior college programs will require an additional two years of study in order to be qualified for a career in their field of interest. Thus, students must take the initiative to check both the requirements of their career field and the program offered at the institution of interest.

The above categories are names applied by the various educational institutions to their aviation programs. Often differing appellations refer to the same basic course of study with options or electives available for preparation of fields of specialization. For example, under Aerospace Engineering can be grouped Aeronautical & Astronautical Engineering, Aeronautical Engineering, Aeronautical Engineering & Astronautics, Aeronautics & Astronautics, and Astronautical Engineering. Aeronautical Technology could encompass Aircraft Engineering Technology, Aircraft Maintenance, Aircraft Mechanics, Airframe-Powerplant Technology, Aviation Mechanics, and Aircraft Production Skills.

Information about general admissions and course descriptions can be obtained by writing directly to the institutions. An index with the addresses of all schools listed, by state, is included at the end of the curricula offerings.

* See addendum for additional listings on page 13

Two main sources have been used in compiling this listing of aviation and transportation majors and curricula. The information on aerospace and aeronautical technology was obtained from ENGINEERING TECHNICIANS, J. G. Ferguson Publishing Company. Most of the other listings were excerpted by permission from THE COLLEGE BLUE BOOK, 12th Edition, College Planning Programs, Ltd., publisher.

Aviation, aerospace and transportation technology is advancing at such a rapid rate that colleges and universities have difficulty keeping pace with new developments. Likewise, college and university offerings in this area are emerging at an almost weekly rate. Because of this, omissions of fine programs are apparent in this listing. Addenda will be added periodically to accommodate this growing field. Details of new programs that are appropriate for listing in the next edition of this publication should be forwarded to:

Special Assistant for Aviation Education, GA-20
Federal Aviation Administration
Department of Transportation
800 Independence Avenue S.W.
Washington, D. C. 20590

Note: Additional institutions having aviation and transportation programs came to our attention after this document was ready for printing. They are listed under the appropriate programs beginning on page 13. The above institutions are also included in an addendum beginning on page 10 of the Index of Institutions.
