DESCRIPTORS Art, Communications, Discussion (Teaching Technique), Educational History, Environment, *Ethical Values, History, *Humanities, Independent Study, Individual Development, *Language Arts, Language Skills, Literature, Music, Philosophy, Resource Materials, Secondary Education, Seminars, *Social Problems, *Social Studies

ABSTRACT

These three humanities course guides for grades 10, 11, and 12 have been designed to deal with social, ethical, and educational problems while maintaining the essentials of the traditional social studies and English programs, such as the development of writing and speaking skills, aesthetic values, and historical knowledge. The program enables the teaching team to educate each student as close to his individual potential as possible, encouraging the development of self-motivation and dependability. The syllabi briefly outline concepts to be developed, method of teaching (i.e., large group, seminar, lab, student-teacher conference, or independent study), and questions for discussion and student evaluation. Extensive lists of resource materials--readings, films, and recordings--are provided for individual topics. [Not available in hard copy due to marginal legibility of original document.] (MF)

THE DICKINSON HUMANITIES PROGRAM
STANTON SCHOOL DISTRICT

During the past two years, special teams have been developing a more realistic program for the students of John Dickinson High School. Because so many elements of the traditional English and social studies subjects have proven inadequate to meet the demands of today's world, the Humanities program has been designed to deal with real social, ethical and educational problems, while maintaining the essentials of the traditional social studies and English programs such as the development of writing and speaking skills, aesthetic values, historic knowledge, etc. Actually, we believe these skills and ideas will be re-inforced by the new concept approach used in Humanities.

It is hoped that every student will show his parents this syllabus so that they may see the scope of just one year of the Humanities program. The syllabus gives an outline of the complete course, stating clearly: (1) the concepts that are to be developed, (2) the content to be used in the development of the concept, (3) the methods of teaching, and (4) suggested questions for evaluation designed to measure how well each student has learned the concepts. Lists of supplementary readings, films, recordings, resource people and materials are also included. Teachers of the team designate to the students which materials are to be used-- often on an individual basis. The program is designed to enable the teaching team to educate each student as close to his individual potential as possible.

In no way are the limits of this course confined to the material listed. Students will be encouraged to do much on their own so they may develop the self-motivation and dependability that the school philosophy considers of utmost importance. The program provides art and music and other scientific reinforcement. Students are taught to examine concepts objectively and formulate their own conclusions, based upon data that are meaningful. They will be challenged to back their ideas with facts, particularly in small-group sessions, in individual tutoring sessions and on examinations.

Although the three-year Humanities program is sequential in design, provision is made so that each can be studied separately. The course has the official approval of the State Department of Public Instruction.

Important things to keep in mind:

1. There are three Humanities courses now offered in Dickinson.

Humanities I - Man and Evolution, Grade 10
Humanities II - Man and Revolution, Grade 11
Humanities III - The Future of Man, - Grade 12

2. Each course replaces the traditional English and social studies offered for that grade.
3. Each Humanities course offers 2 credits toward graduation.

4. One grade determined by the teacher team will be given.
5. Passing it is required since it meets the graduation requirements of English and social studies.
6. Each course consists of several types of instruction:
(1) large groups - used mainly to motivate students, to present facts and ideas and to evaluate, (2) seminars - to discuss and develop concepts, (3) labs - to develop writing skills and perform research, (4) independent study, and (5) teacher-pupil conferences.

The members of the teams who designed the program:

William Keim	-	Coordinator of Secondary Education
Henry Schaefer	-	Humanities Division Chairman
William Donald	-	Communications Section Leader
Anthony Carbone	-	Social Science Section Leader
Philip Keiffer	-	Social Studies
Robert Gerald	-	Social Studies
Fred Danaway	-	English
Charles Johnson	-	English
Richard Bellis	-	Social Studies
Ray Lewis	-	Art

Acknowledgment is made also to parents, students, the librarian and other faculty members who have aided indirectly in the program development.

William P. Keim
Coordinator of Secondary Education
Stanton School District

pmg

HUMANITIES I

Directions for use of the Syllabus

1. Please note that each unit is introduced by a statement of the concept, in essence, a statement of the unit theme.
2. Content refers to actual activities materials and questions that will be handled by the methodology suggested.
3. Each sub unit is followed by suggested resources which teachers will assign for study. These resources are available in the Humanities Learning Center. Additional material is listed at the end of each main unit.
4. In preparation for evaluations, please study the Evaluation Questions at the end of each unit.
5. A Humanities Workshop has been provided for writing, conference and research activities.
6. One of the most profitable practices you should establish is that of meeting individually or in small groups with one of your humanities teachers. They will be happy to give you individual help. You, however, are required to meet with them when they feel a conference is necessary.
7. CAUTION You will find it extremely wise to read ahead of the required reading load. Failure to do so will place you in the embarrassing position of a person whose reading debt bars him from discussion. Staying abreast of all reading and study requirements is a definite part of this course. Failure to do so will surely prevent your success.

UNIT INTRODUCTORY TITLE MAN IS THE OBJECT

CONCEPT There is a crisis in man's knowledge of himself.

Code: LG = large group
IS = independent study

CONTENT	METHODOLOGY
I. Why the Humanities approach? How is the Humanities approach different? Orientation to resource areas. "Are the Humanities Obsolete?", Janice L. Gorm	LG Seminar Seminar
II. What is Man? Alexander Pope: "An Essay on Man" William Wordsworth: From Ode on Intimations of Immortality Thomas Wolfe: "What is Man?"	LG
A. According to Alexander Pope, why is man's position in the world difficult?	Seminar
B. What does Wordsworth mean when the child becomes an adult, he tends to forget "that imperial palace whence he came."	Seminar
C. According to Thomas Wolfe, what is the "..... one belief, one faith, that is man's glory, his triumph, his immortality....?"	Seminar
<u>RESOURCES</u>	IS
"Ode on Intimations of Immortality", Wordsworth, <u>England in Literature</u> , pp. 279-80 <u>Essay on Man</u> , Pope, A. (Reprint) <u>What is man?</u> , Wolfe, T. (Reprint)	
III. Defining Oneself and Others:	
A. In "On Running Away", what do the boys find out about people and money?	Seminar
B. Have you ever felt that the "patterned world" you meet in school "insults the dignity of experience"? Or do you like the security which comes from being within a pattern?	Seminar
C. Why does Keats say that the individual's "chances of finding what he seeks are never good" in regard to the attempt to run toward life and toward himself?	Seminar

CONTENT	METHODOLOGY
D. What does Kerouac, in "Alone on a Mountain Top", consider the chief value of spending a long time alone?	Seminar
E. What was the lesson Kerouac learned from his summer on Desolation Mountain?	Seminar
F. What does Thoreau mean by the statement "that a man has to live....by dead reckoning"?	Seminar
G. What are some of Thoreau's objections to the way most people live?	Seminar

EVALUATION

UNIT IV - A TITLE MAN'S STRUGGLE WITH HIS ENVIRONMENT

What ideas would you incorporate in an educational system?

Why would you incorporate these ideas?

UNIT IV - B TITLE MAN'S STRUGGLE TO MASTER HIMSELF

Can one differentiate between law and justice?

Cite examples to show how the pure essence of the law seems to dictate a particular end while the administration of that law may produce another end.

Do guilty parties deserve legal defense? (Through consensus of eye witnesses or overwhelming evidence.)

UNIT IV - C TITLE MAN'S STRUGGLE TO MASTER HIMSELF

Is the present trend toward dehumanization (in Art, Music, Drama, etc.), a protest? Or is it compatible with the current technological scene?

Struggles as evidenced in the various media are cyclic. If you believe so, then show historical parallels. If you do not believe so, then support your theory.

UNIT IV - D TITLE MAN'S STRUGGLE TO MASTER HIMSELF

In what ways, if any, have the teenagers of today estranged themselves from organized religions?

What are the basic similarities between these religions?

How does humanism apply to religion?

UNIT IV - E TITLE MAN'S STRUGGLE TO MASTER HIMSELF

What current examples can give illustrating philosophy which is intuitive? Philosophy which is a product of reason?

Wilmington, Delaware 19808

Revised: August, 1970

TE 002171

THE DICKINSON HUMANITIES PROGRAM
STANTON SCHOOL DISTRICT

During the past two years, special teams have been developing a more realistic program for the students of John Dickinson High School. Because so many elements of the traditional English and social studies subjects have proven inadequate to meet the demands of today's world, the Humanities program has been designed to deal with real social, ethical and educational problems while maintaining the essentials of the traditional social studies and English programs such as the development of writing and speaking skills, aesthetic values, historic knowledge, etc. Actually, we believe these skills and ideas will be re-inforced by the new concept approach used in Humanities.

It is hoped that every student will show his parents this syllabus so that they may see the scope of just one year of the Humanities program. The syllabus gives an outline of the complete course, stating clearly: (1) the concepts that are to be developed, (2) the content to be used in the development of the concept, (3) the methods of teaching, and (4) suggested questions for evaluation designed to measure how well each student has learned the concepts. Lists of supplementary readings, films, recordings, resource people and materials are also included. Teachers of the team designate to the students which materials are to be used - often on an individual basis. The program is designed to enable the teaching team to educate each student as close to his individual potential as possible.

In no way are the limits of this course confined to the material listed. Students will be encouraged to do much on their own so they may develop the self-motivation and dependability that the school philosophy considers of utmost importance. The program provides art and music and other scientific reinforcement. Students are taught to examine concepts objectively and formulate their own conclusions, based upon data that are meaningful. They will be challenged to back their ideas with facts, particularly in small-group sessions, in individual tutoring sessions and on examinations.

Although the three-year Humanities program is sequential in design, provision is made so that each can be studied separately. The course has the official approval of the State Department of Public Instruction.

Important things to keep in mind:

1. There are three Humanities courses now offered in Dickinson.

Humanities I - Man and Evolution, Grade 10

Humanities II - Man and Revolution, Grade 11

Humanities III - The Future of Man, Grade 12

2. Each course replaces the traditional English and social studies offered for that grade.
3. Each Humanities course offers 2 credits toward graduation.

Humanities Program (Continued)

4. One grade determined by the teacher team will be given.
5. Passing it is required since it meets the graduation requirements of English and social studies.
6. Each course consists of several types of instruction: (1) large groups - used mainly to motivate students, to present facts and ideas and to evaluate, (2) seminars - to discuss and develop concepts, (3) labs - to develop writing skills and perform research, (4) independent study, and (5) teacher-pupil conferences.

The members of the teams who designed the program:

William Keim	-	Coordinator of Secondary Education
Henry Schaefer	-	Humanities Division Chairman
William Donald	-	Communications Section Leader
Anthony Carbone	-	Social Science Section Leader
Philip Keiffer	-	Social Studies
Robert Gerald	-	Social Studies
Fred Danaway	-	English
Charles Johnson	-	English
Ray Higgins	-	Social Studies
Ray Lewis	-	Art

Acknowledgment is made also to parents, students, the librarian and other faculty members who have aided indirectly in the program development.

William P. Keim
 Coordinator of Secondary Education
 Stanton School District

WPK:pmg

GENERAL DIRECTIONS

1. Please note that each unit cited in this syllabus is headed by a statement of the concept, in essence, a statement of the unit theme.
2. Content refers to factual material, to questions for discussion and to various learning projects. Note that methodology tells how each section of content is to be handled.
3. Each sub-unit is followed immediately by a list of required sources. A list of additional suggested sources is located at the end of each major unit. One of your teachers may assign to you as required reading a source listed as a suggested reading. An adequate number of required sources, as well as many of the suggested sources are available in the Humanities Learning Center. However, you are urged to seek and use additional sources on your own.
4. In preparation for evaluations you will find it helpful to contemplate the Suggestions for Study included immediately after Evaluation in the content list.
5. Humanities Workshop, both a time and place, has been established to provide you with a lab situation in which writing, conferences and research can be effected comfortably. At least one teacher of the Humanities will be available at all times in the workshop. Two teachers will work with you during scheduled workshop sessions.
6. One of the most profitable practices you should establish is that of meeting individually or in small groups with one of the teachers of Humanities. They will be happy to meet with you when you need extra help. By the same token, you are obligated to meet them when they feel a conference is necessary.
7. Required sources have been preceded by either an asterisk (*) or a sharp (#) symbol, some sources preceded by both (*#). The asterisk indicates that the source is especially suitable for the student who has little or no difficulty in reading. The Sharp symbol indicates that the source provides required information for the student who encounters difficulty with the asterisked sources. Both symbols indicate little difference in difficulty. Your teachers will clarify these symbols.
(*) (#) (*#)

EVALUATION

A final written evaluation will be submitted by the student at the end of each unit. The student will be asked to analyze the unit concept in the light of the materials presented in lectures or in reading assignments and materials discussed in seminars and in labs.

What is the difference between Evolutionary change and Revolutionary change?	Seminar

UNIT ICODE: L.G. - Large Group
I.S. Independent Study

CONCEPT: "Rebellion, said Camus, is not realistic. Because it is not realistic it may work miracles. To say this, however, is not to imply that the rebel is indifferent to facts or has no sense of history; if anything, he is gorged by that. Though Camus' book The Rebel, prompted by holocaust, followed out the metaphysical consequences of the word, what he said bears upon the state of the theater in America: Rebellion is born of the spectacle of irrationality, confronted with an unjust and incomprehensible condition." - Herbert Blau.

CONTENT	METHODOLOGY
What is Theater?	L.G.
Read & Discuss - Ibsen's play, "Hedda Gabler"	Seminar
Read & Discuss - T. Williams' play, "Glass Menagerie"	Seminar
Read & Discuss - A. Miller's play "Death of a Salesman"	Seminar

Wilmington, Delaware 19804

TE 002 171

THE DICKINSON HUMANITIES PROGRAM
STANTON SCHOOL DISTRICT

During the past two years, special teams have been developing a more realistic program for the students of John Dickinson High School. Because so many elements of the traditional English and social studies subjects have proven inadequate to meet the demands of today's world, the Humanities program has been designed to deal with real social, ethical and educational problems while maintaining the essentials of the traditional social studies and English programs such as the development of writing and speaking skills, aesthetic values, historic knowledge, etc. Actually, we believe these skills and ideas will be re-inforced by the new concept approach used in Humanities.

It is hoped that every student will show his parents this syllabus so that they may see the scope of just one year of the Humanities program. The syllabus gives an outline of the complete course, stating clearly: (1) the concepts that are to be developed, (2) the content to be used in the development of the concept, (3) the methods of teaching, and (4) suggested questions for evaluation designed to measure how well each student has learned the concepts. Lists of supplementary readings, films, recordings, resource people and materials are also included. Teachers of the team designate to the students which materials are to be used-- often on an individual basis. The program is designed to enable the teaching team to educate each student as close to his individual potential as possible.

In no way are the limits of this course confined to the material listed. Students will be encouraged to do much on their own so they may develop the self-motivation and dependability that the school philosophy considers of utmost importance. The program provides art and music and other scientific reinforcement. Students are taught to examine concepts objectively and formulate their own conclusions, based upon data that are meaningful. They will be challenged to back their ideas with facts, particularly in small-group sessions, in individual tutoring sessions and on examinations.

Although the three-year Humanities program is sequential in design, provision is made so that each can be studied separately. The course has the official approval of the State Department of Public Instruction.

Important things to keep in mind:

1. There are three Humanities courses now offered in Dickinson.

Humanities I - Man and Evolution, Grade 10
Humanities II - Man and Revolution, Grade 11
Humanities III - The Future of Man, Grade 12

2. Each course replaces the traditional English and social studies offered for that grade.
3. Each Humanities course offers 2 credits toward graduation.

4. One grade determined by the teacher team will be given.
5. Passing it is required since it meets the graduation requirements of English and social studies.
6. Each course consists of several types of instruction:
(1) large groups - used mainly to motivate students, to present facts and ideas and to evaluate, (2) seminars - to discuss and develop concepts, (3) labs - to develop writing skills and perform research, (4) independent study, and (5) teacher-pupil conferences.

The members of the teams who designed the program:

William Keim	-	Coordinator of Secondary Education
Henry Schaefer	-	Humanities Division Chairman
William Donald	-	Communications Section Leader
Anthony Carbone	-	Social Science Section Leader
Philip Keiffer	-	Social Studies
Robert Gerald	-	Social Studies
Fred Danaway	-	English
Charles Johnson	-	English
Richard Bellis	-	Social Studies
Ray Lewis	-	Art

Acknowledgment is made also to parents, students, the librarian and other faculty members who have aided indirectly in the program development.

William P. Keim
Coordinator of Secondary Education
Stanton School District

pmg

THE FUTURE OF MAN:

His Search for Survival
His Search for Value

INTRODUCTION

1. The format for this course of study is not designed to reflect complete and rigid content. Flexibility is vital to allow for meaningful and significant growth; therefore, this syllabus is to be used as a general guideline for the year. Revisions and additions will be made when situations warrant such action.
2. Source materials and readings are listed for the students' convenience. Not all that is pertinent has been included, but it does supply the student with a starter core. Use of these materials will provide valuable depth experience; however, the student is obligated only for those that the teachers specify
3. Please note that each unit is introduced by statements of a topic which states the problem to be attacked; a concept which reaches a tentative conclusion; and an objective which gives a purpose for the unit.
4. "Content" refers to actual activities, materials and questions that will be handled by the suggested "Methodology."
5. Suggested resources are noted under "Content" with those marked with an * designated for students who have no difficulty reading. These readings, etc. will be required unless otherwise designated by your instructors.
6. A Humanities workshop is scheduled for writing, conference and research activities. You are encouraged to use this area in some of your non-scheduled time.
7. One of the most profitable practices you should establish is that of meeting individually or in small groups with your Humanities teachers. They will be happy to help you. You, however, are required to meet with them if they feel a conference is necessary.
8. CAUTION You will find it extremely wise to read ahead in the required material. Failure to do so will place you in the embarrassing position of one whose reading debt bars him from discussion. Staying abreast of all reading and study requirements is a definite part of this course. Failure to do so will sorely prevent your success.

UNIT I TITLE THE FUTURE OF MAN

TOPIC "What problem does man presently have in communications?"

CONCEPT Man's survival is highly dependent on the ability to understand one another.

OBJECTIVE To create an understanding of the nature of communication and its impact on human activity.

Code: LG = large group
IS = independent study

CONTENT	METHODOLOGY
<p>(1) Early modes of communications Caveman to current, to possible future forms of communications</p> <p>Is the mode of communication chosen important to the understanding of the situation?</p> <p>##"Communications Explosion" (film) ##"Communications Process" (record)</p> <p>In comparison with communication media of yesteryear, we, today, are in rapid touch with current events. Does this contact with worldwide occurrences make you more compassionate or more apathetic?</p> <p>## "Language and Communication" (film)</p> <p>Are some present forms of communications still cave-man like?</p>	<p>LG Staff</p> <p>Seminar</p> <p>LG Staff IS</p> <p>Seminar</p> <p>LG Staff</p> <p>Seminar</p>
<p>(2) Communication and the problem of understanding person to person(s) person(s) to society, institutions, etc. society to society, nations, world. (microcosmic to macrocosmic projections)</p> <p>## "Women & Secrets" Fontaine. <u>Adventures in World Literature</u> pp83-4</p> <p>What are the similarities and parallels between personal and national confrontations?</p> <p>## "Thought, the Foundation of All Communication," NCAT Tape</p>	<p>LG Staff</p> <p>IS</p> <p>Seminar</p> <p>IS</p>

UNIT I TITLE THE FUTURE OF MAN (CONTD.) 3.

TOPIC "What problem does man presently have in communications?"

CONCEPT "Man's survival is highly dependent on the ability to understand one another."

OBJECTIVE To create an understanding of the nature of communication and its impact on human activity.

CONTENT	METHODOLOGY

UNIT	III	TITLE	THE FUTURE OF MAN
TOPIC	How does man form values? (Ethical and Aesthetic)		
CONCEPT	Man's acceptance of certain values will greatly determine the nature of his future.		
OBJECTIVE	To show the relationships which determine formation of values with a view toward value planning for the future.		

CONTENT	METHODOLOGY
(1) Values formed through contact and associations family Advertising peer groups political & economic political philosophy economic diffusion (contact with social other cultures) religious communications	(2) LG 1. political economic contacts 2. institutions, family, education
##* <u>Lost Horizon</u> - Hilton (record)	IS
* " <u>Michael</u> ", " <u>Tintern Abbey</u> " and " <u>Ode: Intimations of Immortality</u> " - Wordsworth, <u>Adventures in English Literature</u>	IS
Each generation embraces a set of values. How do yours differ from your parents' set of values?	Seminar
##* <u>Death of a Salesman</u> - A. Miller	IS
The family structure is breaking down. What are the results both now and in the future?	Seminar
##* <u>The Catcher in the Rye</u> - Salinger	IS
(2) Culture cramps (The visual arts & the masses) The Death of Socrates	LG LG
Tape of commercials from TV & radio	Lab
(3) "Values for teenagers; the choice is yours" (filmstrip)	LG
##* "Who's Conforming Now?" - tape	IS
Will your future child have a set of values that will differ from yours? If so, how do you suppose they will change?	Seminar

11. / 12

UNIT III (Contd.) TITLE THE FUTURE OF MAN

TOPIC How does man form values? (Ethical and Aesthetic)

CONCEPT Man's acceptance of certain values will greatly determine the nature of his future.

OBJECTIVE To show the relationships which determine formation of values with a view toward value planning for the future.

CONTENT	METHODOLOGY
(3) Contd. What are traditions and customs? How do they affect your set of values?	Seminar
(4) "The Tuned-Out Generation" filmstrip Case studies of social workers	LG Lab
(5) The nature of our social problems	LG guest speaker: social worker

UNIT III TITLE THE FUTURE OF MAN

EVALUATION QUESTIONS FOR STUDY

1. Discuss the set of values that the characters (from assigned readings) desire from their relationships.
2. Comment on the terms:
 "Tuned-out generation"
 "Culture cramps"
 "Peer Groups"

UNIT IIITITLE THE FUTURE OF MANRESOURCES

The Rich and the Super Rich

UNIT VIII

TITLE THE FUTURE OF MAN

TOPIC What are the political problems which may affect man's search for survival and values?

CONCEPT The essence of any substantive society is structure. The basis of structure is policy.

OBJECTIVE To establish that man is still striving for the ideal political formula.

CONTENT	METHODOLOGY
(1) Overview of governmental structures (historical approach dealing with Egyptian, Greek, Roman, tribal, feudal, monarchy, oligarchy, etc.) (benefits and drawbacks of each)	LG
#* "Macbeth" - Shakespeare, <u>Adventures in English Literature</u> , pp 129-95 or record	IS
#* "Government in Action: The President, The Congress, Federal Courts" 3 filmstrips	IS
Most people agree that Democracy is not perfect. What elements from other structures could be included with elements of our democracy to make a more perfect system?	Seminar
#* "Creative Federalism" - Muskie - tape	IS
#* "The Two-Party System in America" - Dirkson - tape	IS
Role Playing - students represent different problems and try to solve these problems. Microcosm to macrocosm	Lab.
"Nightmare in Red" - film (St. Film Lib.)	LG
Why wouldn't a tribal structure work in our society?	Seminar
#* "What Is Communism?" tape	IS
#* "Why Do Students Succumb to Communism?" (tape)	IS
What are the conditions of the individual in the various forms of government?	Seminar
Are we headed toward a collectivist form of government in the United States?	Seminar

UNIT VIII TITLE THE FUTURE OF MAN
 TOPIC What are the political problems which may affect man's search for survival and values? (Contd.)
 CONCEPT The essence of any substantive society is structure. (Contd.)
 OBJECTIVE To establish that man is still striving for ideal political formula. (Contd.)

CONTENT	METHODOLOGY
(2) Our Political Future - Trouble, Trouble, Rubble. (League of Nations, U.N.--failures and successes)	LG
#* "An Enemy of the People" - Ibsen, <u>Adventures in World Literature</u> pp 595-681	IS
