The Honorable Jack Williams  
Governor of Arizona  
State Capitol Building  
Phoenix, Arizona 85007

Dear Governor Williams:

Presented herein is the annual report of the State Economic Opportunity Office for the year 1970.

This is the fourth yearly report produced by our office, for the purpose of presenting to interested agencies, public officials, and the general public an overview of OEO programs operating in the State.

The report gives a brief description and the purpose of the various programs. It also contains a compilation of projects by County and Indian community action agencies. Furthermore, we have included the single-purpose programs of record in our office, that are operating within the State of Arizona.

Respectfully yours,

*Eugene A. Marin*

## HIGHLIGHTS OF 1970

### Location of SEOO Moved —

Expansion of our program in 1970 required additional staff and it became necessary to seek more spacious quarters. In July the office was moved to 712 West Washington Street, Phoenix, Arizona.

### SEOO Awarded PCOYO Grant —

Translated into standard English this means that the State Economic Opportunity Office received a President's Council on Youth Opportunity grant.

This grant in the amount of \$32,000 federal share was made available to enhance state capabilities for developing coordinated public and private programming for poor (as defined by the Office of Economic Opportunity) youth.

The grant funds are to be used to employ a staff to stimulate as well as coordinate employment, training, education, urban development, and other development-type programs, emphasizing year-round youth needs.

### Staff increased —

The SEOO staff was increased from four to twelve during the year. On staff at the beginning of the year were: Eugene A. Marin, Director; Hollis M. Chough, Asst. Director/Program Analyst; Julia Zozaya, Resource and Information; and Lucia Perez, Administrative Secretary.

The new employees are: Alton W. Thomas, Technical Assistance Coordinator; Joan A. Pate, Research Specialist; Adolf Echeveste, State Youth Coordinator; John P. Aldape and Martin E. Alvarez, Special Project Assistants-PCOYO; Eunice I. Brink, PCOYO-Secretary; Helen Serpa, Clerk-Typist; and Alice Kendall, Secretary-Bookkeeper.

### Establishment of Planning Districts within the State —

Perhaps the most significant action taken by the Governor in 1970, as it affects the present community action agencies, was the issuance of Executive Order 70-2 which is reproduced below in its entirety. Individuals and OEO agencies concerned about the effects of this action should note that compliance with this order is not required until commencement of the CAA program year in 1972.

(During 1971 the Governor's office will issue instructions to the CAAs on the procedures which must be followed to effect the necessary changes.)

## EXECUTIVE ORDER

70-2

### RELATING TO THE INTERGOVERNMENTAL COOPERATION ACT OF 1968, PUBLIC LAW 90-577, AND THE ESTABLISHMENT OF PLANNING DISTRICTS WITHIN THE STATE OF ARIZONA

WHEREAS, the Intergovernmental Cooperation Act of 1968, Public Law 90-577, places certain responsibilities upon the states for coordination of Federal, State and local plans and projects; and

WHEREAS, the Bureau of the Budget, charged by Congress for implementation of said Act has issued a series of Circulars, A-80, A-82, A-95 and A-96 pertaining thereto; and

WHEREAS, Circular A-80 said in part, "the multiplicity of unrelated planning jurisdictions and activities now existing under various federal programs inhibits their most effective operation." To help correct this situation, the President called for procedures which would encourage:

"State and local planning agencies to work together in using common or consistent planning bases and in sharing planning facilities and resources, and utilization of common boundaries for planning and development districts or regions assisted by the Federal Government and consistency of such districts with established state planning and development districts and regions."

WHEREAS, it is the responsibility of the State to encourage local initiative in developing organizational and procedural arrangements for coordinating comprehensive and functional activities and to avoid overlap, duplication, and competition between local planning activities; and

WHEREAS, the State must exercise its leadership in delineating and establishing a system of planning and development districts which provide a consistent geographic base for the coordination of federal, state and local development programs; and

WHEREAS, Executive Order 69-6 was issued on the 28th day of October 1969, which established preliminary planning districts pending the completion of a study to determine the most suitable and logical boundaries for planning districts within the State; and

WHEREAS, The Department of Economic Planning and Development has completed said study; and

WHEREAS, Bureau of the Budget Circulars A-95 and A-96, which supercede, in part, Circulars A-80 and A-82, and which require, as of October 1, 1969, the establishment of a Project Notification and Review System based upon compatible planning jurisdictions in order to facilitate the development of coordinated regions and statewide planning and review of activities with regard to many federal programs, demand immediate action on the part of the State of Arizona and the executive branch of government to establish a statewide clearing house to effectuate the Project Notification System required by Bureau of the Budget Circulars A-95 and A-96; and

WHEREAS, there have been a number of proposals from both federal and local agencies to establish planning areas within the State which, if implemented, would lead to gross duplication and overlapping of geographic and functional areas of concern;

NOW, THEREFORE, I, Jack Williams, Governor of the State of Arizona, do hereby direct that the State of Arizona be divided into six planning districts described as follows:

**PLANNING DISTRICTS**

- |  |  |
|--|--|
| 1. Maricopa County   | 4. Mohave County<br>Yuma County  |
| 2. Pima County   | 5. Gila County<br>Pinal County   |
| 3. Apache County<br>Coconino County<br>Navajo County<br>Yavapai County | 6. Cochise County<br>Graham County<br>Greenlee County<br>Santa Cruz County |

All planning functions currently under way, or to be undertaken, on a district, regional or area-wide basis within the state are now asked to conform to the prescribed planning areas or combinations thereof. All general or special purpose planning jurisdictions established, or to be established, and all planning programs undertaken pursuant thereto by federal agencies, state or local jurisdictions or combinations of local jurisdictions are requested to conform to said boundaries.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Arizona.

(SEAL)

DONE at the Capitol in Phoenix this 8th day of July in the year of Our Lord One Thousand Nine Hundred and Seventy and of the Independence of the United States the One Hundred and Ninety-fifth.

ATTEST:

Wesley Bolin  
Secretary of State

JACK WILLIAMS

### SYNOPSIS OF PROGRAMS

On the following pages are brief descriptions of the various programs conducted in Arizona. These are followed by a compilation of projects by County and Indian Community Action Agencies.

## C A A ADMINISTRATION

### P.A. No. 01

This function comprises administering and managing the central staff, facilities, and equipment, and other administrative overhead costs of the community action agency. Generalized CAA activities (such as intake and program placement) not related to a specific program, neighborhood service system, or community organization efforts, are included. The mobilization of community resources, and CAA level coordination efforts to ensure the execution of programs operated by the CAA and/or delegate agencies, are included. Also included is the day-to-day coordination of CAP-funded programs with related federal, state, local, and private agency programs. Management research activities are included, such as the collection, storage, and retrieval of management information when such activities are not a part of a specific project or program account but are utilized as a means of central administrative control.

## C A A PLANNING

### P.A. No. 03

This activity includes assistance to CAAs to plan for the improvement and strengthening of their systematic approach to community action by which, in each community: the problems and causes of poverty are identified; public and private resources are coordinated and mobilized; program priorities are established; and antipoverty programs are appropriately linked to one another.

The activity includes the planning and development of new programs and the improvement and modification of existing programs within the ongoing community action program, as well as the planning of strengthened coordination among CAP funded programs and related federal, state, local, and private agency programs. It specifically includes planning research activities. Research in this context includes obtaining information for the planning of the CAA's program structure and specific projects or program accounts; and obtaining the basic information and fundamental knowledge relevant to understanding and dealing with the problems and causes of poverty in the community. It also includes the provision of general planning assistance to groups or agencies which cannot be directly related to a specific program account.

## EVALUATION

P.A. No. 04

Evaluation in this context is that performed by CAAs as part of their administration and management activities. Evaluation includes analyzing the effectiveness of ongoing or completed community action programs. It focuses on results and implications of programs in being or completed, and therefore may or may not be directly related to a currently funded program.

## NEIGHBORHOOD SERVICE SYSTEMS

P.A. No. 07

In a great number of communities the problem of poverty was not merely that of being poor, sick, or unemployed. The problem was that one did not know where to go for service, that the services were too far away, or that the services were fragmented in different parts of the community. Through Neighborhood Centers a complete array of services and programs are offered. Neighborhood centers may offer social welfare services, manpower services, health programs, school age education programs, consumer education, housing services, adult literary programs, legal services and cooperative enterprises such as credit unions and consumer cooperatives. Serving as a stimulus of self-help activities is one of the most important roles of a neighborhood center.

## COMMUNITY ORGANIZATION

P.A. No. 08

This activity includes community organization and outreach conducted to encourage antipoverty program participation. These activities may be directly related to a neighborhood center or community school, or may be totally independent of such facilities. Community organization includes involving residents of low-income neighborhoods in the affairs of their community by encouraging them to organize and take group action to deal with their problems. Activities include contacting individuals to help them organize, assisting them to determine their needs and conducting meetings to discuss their problems, and advising them on group action taken to solve their problems. Outreach involves actively seeking out poor people through direct personal contact for the purpose of determining their antipoverty needs and informing them of the programs and services available to them in the community action program or related non-CAP programs.

## JOB DEVELOPMENT, PLACEMENT, FOLLOW UP

### P.A. No. 11

*Job Development.* Finding new job openings that will provide employment for poor people, including stimulating the creation of new jobs and the further improvement of existing jobs in the labor market to benefit disadvantaged people through efforts to restructure hiring criteria, facilitate labor mobility, and promote fuller employment.

*Job Placement.* Placing individuals in appropriate jobs. A placement is defined as placing an individual in a job that is kept for a minimum of one month.

*Job Follow-Up Services.* Counseling individuals after they have been placed in a job. Such counseling is normally conducted for a minimum of three months.

## MANPOWER PROGRAM INTAKE, ASSESSMENT AND PROGRAM PLACEMENT

### P.A. No. 12

This program provides the means for measuring individuals aptitudes, needs, and interests to determine current skill levels and the potential for acquiring additional skills needed to participate in vocational or other training programs or to obtain employment. Participants are usually placed in prevocational or vocational training, direct employment or job placement services as a result of the assessment and placement functions.

## HEAD START (FULL YEAR)

P.A. No. 22 & 23

For the child of poverty, the foundation is laid early for a lifetime pattern of failure -- and thus of poverty. Youngsters from homes where English is not spoken well, and books are not read, usually have difficulty upon exposure to school in the first grade. They tend to lag further as they progress through school; many drop out entirely, further hampering their ability to get and keep a job. Head Start is designed to break that cycle before it is set. Head Start involves preschool youngsters in year-round and summer programs. Carried out in child development centers, these programs offer a broad range of services, including medical and dental care, psychological counseling, nutritional support, social services, and daily activities offering a variety of constructive experiences.

Parents participate in the planning and operation of programs and hold staff positions in child development centers.

## SCHOOL AGE EDUCATION

P.A. No. 26

Programs for School Age Education may include the following activities:

*Guidance, Testing and Counseling.* Identifying special problems and characteristics of poor students and helping those students make the best of their education through guidance, testing, and counseling efforts.

*Tutorial and Remedial Education.* Providing individual tutoring assistance, homework help, or supervised study classes to students after regular school hours to supplement regular classroom work at their current grade levels. This activity includes providing instruction in remedial reading (including English composition, language arts, and communication skills) and remedial instruction in other curricular areas, such as mathematics and science, for students performing below their normal grade level.

*Cultural Enrichment.* Increasing a student's school performance and motivation through active participation in and exposure to the creative and performing arts and other cultural activities. This activity includes field trips designed to fulfill these purposes.

*Curriculum and Faculty Development.* Improving and modifying course schedules and course content, and improving faculty capability in order to help poor students improve their performance and motivation.

*Special and Other School Age Education.* This activity includes (1) programs using special education techniques to teach children with physical or emotional handicaps, including education for mentally retarded children; (2) programs other than Upward Bound providing aid to promising high school students to improve their opportunities to attend collage, and to promising college students to continue their education; and (3) other education programs or services to school age participants outside the scope of those listed above.

## ADULT EDUCATION

P.A. No. 29

Adult Basic Education provides basic literary training for adults who are unable to read and write. The literary training in this category is designed to increase employment opportunities, enhance participant benefits from manpower training programs, and generally upgrade the ability of participants to cope with their environments.

Teaching English to persons whose native language is not English is included.

## HOUSING SERVICES

### P.A. No. 36

These funds are used to stimulate home repairs, improvements, or construction. This activity may include programs concentrating on construction skill training where housing construction or repair is an equivalent or even secondary benefit; funds for building materials or permanent financing are not included. It may also include programs assisting in home site preparation and subsequent home maintenance.

It also provides other housing services to meet the complex needs of the poor. This activity includes providing (a) help to poor families or individuals in finding new housing arrangements, and (b) information to individuals and groups on the availability and best use of current public and private housing programs, such as public housing, urban renewal, and special financial assistance.

## COMPREHENSIVE HEALTH SERVICES

### P.A. No. 41

Comprehensive health service grants are to provide for treatment, screening and diagnostic services, home care, outreach rehabilitation, dental care, family planning, mental health care and other health related services. In addition, the grants may help to obtain equipment and supplies, training for personnel planning activities, evaluation of projects, and transportation for patients.

Provisions must be made to assure that all health services are under competent professional supervision and meet high standards of quality. All appropriate elements of the community, including those served, must be involved in the projects' planning and development. OEO funds are a "last dollar" resource and cannot be used to support services, facilities, equipment or supplies for which support is already available.

## ALCOHOLISM

### P.A. No. 46

Objectives of this program are to discover and treat the disease of alcoholism, emphasizing the reentry of the alcoholic into society rather than institutionalization, and encouraging the use of the services of recovered alcoholics as counselors.

Community health projects involve the prevention and control of alcoholism and the care of alcoholics, including guidance, training and job placement.

## FAMILY PLANNING

### P.A. No. 47

Family planning grants make family planning services available to low-income persons in areas of high concentration or proportions of poverty.

They endeavor to improve, supplement or add new elements to existing family planning projects, make new arrangements for provision of services, and to provide information about family planning including contraception to poor persons and to facilitate their voluntary use of services available. Among the services that can be supported are clinical (including medical examinations and appropriate laboratory tests, and drugs), education, counseling, outreach, and referral.

## CONSUMER ACTION AND FINANCIAL COUNSELING

P.A. No. 52

Consumer action helps develop and support local groups that seek to solve consumer problems through group action, consumer education, financial counseling, and the establishment of new consumer institutions to provide choices in goods, services, and credit to poor consumers. It may involve creating and maintaining credit unions and other sources of low cost credit that provide poor people the opportunity to save and to obtain inexpensive credit, financial counseling, debt handling and reduction services, and long-term budgeting aid.

## LEGAL SERVICES

### P.A. No. 57

This program provides funds to establish law offices in low-income neighborhoods and provides attorneys to advise and represent clients who cannot afford to pay for a lawyer's services. By statute, such representation is limited to civil cases. Clients must meet the standard of indigency which is set locally. Local legal services agencies also provide representation to groups, provide assistance in plans for economic development and attempt to make the law more responsive to the needs of the poor through the prosecution of test cases.

## ECONOMIC DEVELOPMENT

P.A. No. 62

Economic Development programs are designed to stimulate economic development in the community. Activities provide for planning and organizational vehicles, assistance in locating suitable funding and technical assistance courses, and coordination with appropriate government agencies and the private business community. Among other things, these programs may seek to establish or expand businesses and services operated by local individuals and groups, the location of outside industry in the community, tourism projects, and the development of natural resources such as lumber, minerals, and fishing. They may also assist in providing or obtaining essential community facilities which will aid in improving the economic environment of the target population.

Telephone: 337-4477

GRANT NO.: CG-7055/D  
Program Year: March 1, 1970 to  
February 28, 1971

Apache County covers an area of 11,180 square miles in the northeast corner of Arizona, one-half of which lies within the border of the Navajo Indian reservation. The 1970 census showed 32,298 inhabitants, including 26,982 residing on the Navajo and Ft. Apache Indian reservations, an overall increase of 6.1% over 1960.

Most of the economic activity in the county is based on governmental activities, tourism, livestock and forest industries. Per capita income for 1967 was \$1,069, ranking 14th among Arizona's fourteen counties.

It is estimated that 52% of the families residing in the county have incomes under the present poverty index. During 1969 the unemployment rate for the county was 6.2%, but this rate does not include the substantial number of Navajos who would seek work if it were available. It is estimated that 43% of the Navajo labor force is unemployed under this definition.

GRANT NO. CG 8010/A/2 (FURPO)  
 Program Year October 1, 1970 to  
 September 30, 1971

Arizona Rural Effort, Incorporated serves Cochise, Gila, Greenlee, Graham and Yuma Counties. All of these counties are located in the southeast portion of the state with the exception of Yuma county which is in the southwest corner. They comprise a total area of 27,583 square miles, and a total population of 178,900 people.

Per capita incomes for 1967 were: Cochise \$2,347, ranking 6th; Gila \$2,070, ranking 9th; Greenlee \$2,385, ranking 5th; Graham \$1,943, ranking 12th; Yuma \$2,954, ranking 2nd of Arizona's fourteen counties.

The major economic activity in the eastern counties is mining, governmental employment and retail trade. Yuma county generates its income from agriculture, governmental activities and tourism.

Underemployment due to lack of education and skills contributes to the poverty picture in Yuma and Cochise counties. Lack of job opportunities in Greenlee, Graham and Gila counties is a major deterrent to improving the status of the disadvantaged in those areas.

Telephone: 774-0635

GRANT NO.: CG-7003/E  
Program Year: March 1, 1970 to  
February 28, 1971

Coconino County covers an area of 18,599 square miles in the north central section of Arizona. It is the largest county in the state and the most sparsely populated. The 1970 census showed 48,326 inhabitants, including 12,229 residing on the Navajo, Hopi, Hualapai and Havasupai Indian reservations, an overall increase of 15.5% over 1960.

Most of the economic activity in the county is based on governmental activity, retail trade, tourism and lumbering. A large part of the economy relies on tourism which leads to a highly seasonal employment pattern. Per capita income for 1967 was \$2,029, ranking 10th among Arizona's fourteen counties.

Ethnic distribution of population was estimated as follows: 63.7% White, including 10.8% with Spanish surnames; 31.1% Indian; 4.7% Negro; less than 1% all other. 1960 census figures indicate a poverty level or below income for 65% of non-white families (primarily Indian).

## COMMITTEE FOR ECONOMIC OPPORTUNITY, INC.

721 North Fourth Avenue  
Tucson, Arizona 85705  
Telephone: 622-4896

GRANT NO.: 0378/E 9087/A  
Program Year: April 1, 1970 to  
March 31, 1971

The Committee for Economic Opportunity, Incorporated is the Community Action Agency which serves the people of Pima and Santa Cruz Counties. Pima County covers an area of 9,241 square miles in the south central section of Arizona. It includes the City of Tucson, Arizona's second largest population, trade and service center. The 1970 census showed 351,667 inhabitants, an increase of 32.4% over 1960.

Santa Cruz is Arizona's smallest county encompassing 1,246 square miles in the south central section of the border area joining Arizona with Mexico. Total population of 12,966 persons showed a 29.2% increase over 1960.

The counties' economic activities center around governmental activities, retail trade and tourism with the U.S.-Mexico trade dominating the Santa Cruz area. The relatively large supply of labor from nearby Mexico and low skills of the disadvantaged in these counties have a tendency to keep wages depressed.

GRANT NO.: CG-7096/E  
Program Year: March 1, 1970 to  
February 28, 1971

Maricopa County covers an area of 9,253 square miles in the south central portion of Arizona. The Maricopa County Community Action Agency serves all of the county except for the City of Phoenix, which is served by Operation LEAP. The 1970 census showed a population of 967,522, 55% of the state's total. Phoenix residents numbered 581,562, with 385,960 people in the rest of the county. There was a 45.8% increase in population over the 1960 census.

Major industries in the County are manufacturing, retail trade, tourism, governmental activities and agriculture. Per capita income for 1967 was \$2,984, ranking 1st among Arizona's fourteen counties.

It is estimated that 19% of the families residing in the county have incomes under the present poverty index. Labor force participation rate is relatively high compared with the rest of the state, due to large number of work opportunities for women. Unemployment rate for 1969 was 2.6%.

GRANT NO.: CG-7004/E  
Program Year: March 1, 1970 to  
February 28, 1971

Mohave County covers an area of 13,403 square miles in the northwestern corner of Arizona, including an estimated 1,000 miles of fresh water shoreline along the Colorado River and its various lakes. The 1970 census shows 25,857 inhabitants, including 683 residing on the Lualapai Indian reservation, an overall increase of 234.2% over 1960.

Most of the economic activity in the county is based on agriculture, governmental activities, retail trade and tourism. The location of Mohave County, with its rivers and lakes, proximity to Las Vegas and its transcontinental highway promises continued growth especially in the retail trade and services sector. Per capital income for 1967 was \$2,158, ranking 8th among Arizona's fourteen counties.

It is estimated that 21% of the families residing in the county have incomes under the present poverty index. Poverty pockets are found among the Indian population and in older persons with small retirement incomes.

Telephone: 289-4619

GRANT NO.: CG-7054/E  
Program Year: March 1, 1970 to  
February 28, 1971

Navajo County covers an area of 9,915 square miles in the northeastern portion of Arizona. Approximately two-thirds of this area is occupied by the Navajo and Hopi Indian reservations. The 1970 census showed 47,715 inhabitants, including 22,622 residing on the Navajo, Hopi and Fort Apache Indian reservation, an overall increase of 25.6% over 1960.

Most of the economic activity in the county is based on governmental activities, tourism, retail trade and lumbering. Per capita income for 1967 was \$1,607, ranking 13th among Arizona's fourteen counties.

It is estimated that 33% of the families residing in the county have incomes under the present poverty index. A relatively low labor force participation rate and high unemployment rate, especially in the reservation population contribute to poverty in Navajo County.

GRANT NO.: CG-9004/A  
 Program Year: May 1, 1970 to  
 February 28, 1971

The Northern Arizona Development Council (NADEC) consolidates the Community Action agencies in Apache, Coconino, Mohave, Navajo and Yavapai Counties. The total area covers 61,192 square miles and contains 190,929 inhabitants.

The initial funding of NADEC was made for the period May 1, 1970 through February 28, 1971. Because of the "split" fiscal year, each county was also funded individually. Reference should also be made to each individual county description for a complete portrayal of activities in the NADEC area.

Telephone: 723-4121

GRANT NO.: CG-7099/E  
Program Year: May 1, 1970 to  
April 30, 1971

Pinal County covers an area of 5,394 square miles in the south central section of Arizona. Four Indian reservations lie within its boundaries — Maricopa reservation is wholly included, most of the Gila River reservation and part of the Papago and San Carlos reservations. The 1970 census showed 67,916 inhabitants, an increase of 8.4% over 1960.

Most of the economic activity in the county is based on agriculture, mining, and governmental activity. Per capita income for 1967 was \$2,417, ranking 4th among Arizona's fourteen counties.

It is estimated that 31% of the families residing in the county have incomes under the present poverty index. Major areas of hard core unemployment exist among reservation Indians and Negro workers. Agricultural employment has decreased due to mechanization, and of those persons seeking work, most are unskilled.
