ABSTRACT

This is the 22nd survey in the US Office of Education's annual series of surveys on earned degrees conferred by US institutions of higher education. This volume, Summary Data, is the first of 2 parts of the survey of bachelor's and higher degrees awarded in 1968-69. Data are presented by level of degree, field of specialization, sex of degree recipient, state, level of institution, and institutional control. Part B, covering Institutional Data, will list degrees conferred in each field by each institution. A third publication will provide information on associate degrees and other awards below the bachelor's level. (JS)

HIGHLIGHTS

1. Approximately 990,300 degrees were conferred by 1,595 U.S. institutions at bachelor's and higher levels during 1968-69. This was an increase of almost 118,500 over the number reported for 1967-68 and was more than double the 464,008 degrees reported in 1958-59.

2. The bachelor's, first-professional, master's, and doctor's degrees granted in 1968-69 represented increases of 15 percent, 3 percent, 10 percent, and 13 percent, respectively, over those reported for 1967-68.

3. Publicly controlled institutions awarded 63 percent of all degrees in 1968-69 as compared to 61 percent in 1967-68. For publicly controlled institutions there was a 16 percent increase over the 1967-68 figure; between 1966-67 and 1967-68 the gain was 15 percent. For privately controlled institutions the corresponding annual gains were 9 percent in 1968-69 and 10 percent in 1967-68.

4. Publicly controlled institutions conferred 64 percent of all bachelor's degrees, 42 percent of all first-professional degrees, 65 percent of all master's degrees, and 63 percent of all doctorates, as compared with 62 percent, 42 percent, 64 percent, and 61 percent, respectively, in 1967-68.

5. Men received 60 percent of all degrees in 1968-69 as they did in 1967-68. They received 62 percent in 1966-67. At each degree level the proportion of men was slightly lower in 1968-69 and in 1967-68 than in 1966-67.

	<u>Percent of degrees awarded to men</u>		
	<u>1968-69</u>	<u>1967-68</u>	<u>1966-67</u>
Bachelor's degrees	56	56	58
First-professional degrees	95	95	96
Master's degrees	63	64	65
Doctor's degrees	87	87	88

6. In the broad areas of study, at the bachelor's level, the degrees in the areas of education (153,248), social sciences (141,968), and business and commerce (94,616) accounted for 53 percent of all degrees conferred. At the master's level, education (71,423), social sciences (22,740), and business and commerce (19,398) represented 58 percent. At the doctor's level, education (4,829), physical sciences (3,859), and engineering (3,377) constituted 46 percent.

7. In specific fields of study, elementary education had the highest number of degrees at the bachelor's and master's levels, law at the first-professional level, and chemistry at the doctorate level. The same field at each level ranked first for the past three surveys, 1968-69, 1967-68, and 1966-67.

8. All institutions to which the survey questionnaire was sent responded to the Office of Education request for data--a response rate of 100 percent.

FOREWORD

This is the 22nd survey in the Office of Education's annual series of surveys on earned degrees conferred by U. S. institutions of higher education. The survey instrument was part of the fourth Higher Education General Information Survey (HEGIS). Limited information on this subject was published as part of the Annual Report of the Commissioner of Education from 1872 through 1916 and in the Biennial Survey of Education from 1917-18 through 1945-46. The present series began in 1947-48.

The 1968-69 survey of bachelor's and higher degrees is published in two parts: Summary Data by level of degree, field of specialization, sex of degree recipient, State, level of institution, and institutional control, is contained in this publication. Institutional Data with a detailed listing showing degrees conferred in each field by each institution is presented in another publication. A third publication will provide information on associate degrees and other awards below the bachelor's level.

For historical enrollment trends, reference should be made to the Office of Education's series on opening fall enrollment and on enrollment for advanced degrees. The three survey series together provide an overview of the flow of students through higher education.

The Office of Education is most appreciative of the continued splendid cooperation of the institutions of higher education that furnished data for this report.

INTRODUCTION

The data in this report were obtained from the survey of Degrees and Other Formal Awards Conferred Between July 1, 1968 and June 30, 1969 conducted by the United States Office of Education.

Approximately 990,300 bachelor's and higher degrees were conferred by 1,595 institutions of higher education in the United States during the survey period. This was an increase of almost 14 percent over the approximately 871,800 degrees conferred by 1,567 institutions in 1967-68.

The tables in this report provide extensive summary data by level of degree, sex of student, control and level of institution, State, and area or field of study.

A copy of the portion of the 1968-69 report form pertaining to bachelor's and higher degrees, together with definitions and instructions to respondents, is reproduced in the appendix. The 1968-69 form was changed from that used in 1967-68 to add new fields in the areas of biological sciences, engineering, and education. (See section 6(i) of the "Instructions for Part B" of the survey.)

For the years 1965-66 through 1968-69, survey data on bachelor's and higher degrees may be considered comparable. For years prior to 1965-66 care must be exercised in making comparisons. The difficulty in making such comparisons is caused by the fact that degree levels were redefined for the 1965-66 survey. For a detailed description of the differences between the 1965-66 survey and previous surveys, see Earned Degrees Conferred, 1965-66 (OE-54013-66).

COVERAGE OF INSTITUTIONS

The 1,595 colleges and universities in this survey constitute all of the institutions in the Office of Education's higher education survey universe that were known to have conferred bachelor's or higher degrees during the period from July 1, 1968, through June 30, 1969. This universe is a part of the total higher education universe described in Opening Fall Enrollment in Higher Education, 1968: Part A - Summary Data (OE-54003-68, Part A). Since the survey covered awards below the bachelor's level, as well as bachelor's and higher degrees, questionnaires were sent to all institutions in the higher education survey universe regardless of degree-granting status.

All of the 1,595 institutions responded with complete survey data, making it unnecessary for the Office of Education to estimate any of the breakdowns by sex of student, level of degree, or detailed field of study.

ORGANIZATION OF THE TABLES

Table 1 presents a brief historical comparison of degrees granted by level of degree and sex of student from 1965-66 through 1968-69.

Table 2 is a summary of the degrees conferred in 1968-69, by level of degree, sex of student, and control and level of institution. In this table data are presented separately for universities and for other 4-year institutions. Classified as universities are institutions that give considerable stress to graduate instruction, confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and have at least two professional schools that are not exclusively technological. Other institutions offering four or more years of college-level work, but not meeting the criteria for classification as universities, make up the "other 4-year and over" group.

Tables 3 through 3D show State counts for each of the degree levels. Table 4 reports bachelor's, master's, and doctor's degrees by areas of study. Table 5 presents the same information as table 4 by detailed fields within areas of study. Table 6 gives data on the fields of study in which first-professional degrees were conferred.

HIGHER EDUCATION GENERAL INFORMATION SURVEY
INSTRUCTIONS FOR COMPLETING
SCHEDULE I. DEGREES AND OTHER FORMAL AWARDS CONFERRED BETWEEN
JULY 1, 1968 AND JUNE 30, 1969
(OE FORM 2300-2.1)

SCHEDULE I IS DIVIDED INTO THREE PARTS

PART A is concerned with first-professional degrees only.

PART B is concerned with bachelor's, master's, and doctor's degrees.

PART C is concerned with awards below the bachelor's level (*Associate in Arts degrees and other formal awards*).

Many institutions will appropriately skip one or more of the three parts. If a particular part (A, B, or C) does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE THREE PARTS

GENERAL INSTRUCTIONS FOR ALL PARTS

Please examine the definitions and instructions which accompany each part. If you need additional clarification on any of them, please call Dr. Marjorie Chandler, 202-962-7301, Washington, D. C.

1. **PROMPTNESS.** Registrars are respectfully requested to complete the report form by August 15, 1969.

If degrees or other awards were conferred in 1968-69 for the **FIRST TIME** in a field of study new to your institution, please place an "X" in column (4). This will save correspondence later regarding the entry.

2. **INCLUSIVE DATES.** Report degrees conferred from July 1, 1968 through June 30, 1969 including those granted at the end of the 1968 summer session.

3. **BRANCH INSTITUTIONS.** Please be sure to indicate in items 6 and 7 whether your report includes or excludes awards to students at branches of your institution. (*Please do not include awards by branches outside the United States, its Territories, or possessions.*)

INSTRUCTIONS FOR PART A. FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS

FIRST-PROFESSIONAL DEGREES IN SELECTED FIELDS. The first-professional degrees to be reported in columns 5 and 6 are those degrees which signify the completion of the academic requirements for selected professions, which are based on programs which require at least two academic years of previous college work for entrance and which require a total of at least six academic years of college work for completion. For example, include professional degrees in Law (*LL.B.* or *J.D.*), Medicine (*M.D.*), Theology (*B.D.*), and so forth. Degrees beyond the first-professional in these fields are to be reported in Part B.

Report all master's degrees in Part B, columns 7 and 8 even though the master's degree is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion of the master's degree.

PART A. FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS (Requiring at least six years of study)

INSTRUCTIONS FOR PART B. BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

Please read the instructions before entering the data for your institution. Paragraph No. 2, Grouping of Subject Fields, which explains the arrangement of the form, and Paragraph No. 3, Skipping Inapplicable Sections, should help to expedite completion of the Schedule without impairing its accuracy or completeness.

1. **TYPE OF DEGREES.** Report **EARNED** bachelor's, master's, and doctor's degrees (*not honorary*). Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work. Do **NOT** report certificates for course work beyond the bachelor's. Report First-Professional degrees in Part A. Report Associate in Arts degrees or similar awards below the bachelor's degree in Part C.

2. **GROUPING OF SUBJECT FIELDS.** Glance through the report-form to observe how the various fields of study have been grouped. Most of the subject-fields have been classified under the following 18 boldly capitalized headings:

<p>AGRICULTURE BIOLOGICAL SCIENCES BUSINESS AND COMMERCE COMPUTER SCIENCE AND SYSTEMS ANALYSIS EDUCATION ENGINEERING ENGLISH AND JOURNALISM FINE AND APPLIED ARTS</p>	<p>FOREIGN LANGUAGES AND LITERATURE HEALTH PROFESSIONS HOME ECONOMICS MATHEMATICAL SCIENCES MILITARY SCIENCES PHILOSOPHY PHYSICAL SCIENCES PSYCHOLOGY RELIGION SOCIAL SCIENCES</p>
---	--

A few fields, such as Architecture, City Planning, Folklore, Forestry, Law, and Records Management have been listed independently with boldly capitalized headings. A glance through the form will suffice to identify these headings. Attention is also called to the "Broad General Curriculums and Miscellaneous Fields" on the last page of the report-form.

3. **SKIPPING INAPPLICABLE SECTIONS.** If your institution does not grant degrees in the area covered by a boldly capitalized heading, you may **SKIP ALL THE ITEMS UNDER THAT HEADING**. Thus, most registrars will properly skip the entire section headed Agriculture. Similarly, many will properly skip the sections on Health Professions and on Religion. Technological schools will generally skip the section on Fine and Applied Arts. Men's colleges will skip the section on Home Economics.

4. **NUMBER OF DEGREES.** Report all degrees (*within the limitations of paragraph 1, above*). If a student earned two degrees between July 1, 1968 and June 30, 1969 (e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report both degrees, each classified separately. This is a survey of degrees conferred, not necessarily a count of different students receiving degrees.

5. CATEGORY OF DEGREES.

(a) Report all **BACHELOR'S DEGREES** requiring at least 4 but not more than 5 years of academic work in columns 5-6 of the report-form. Also, report **ALL** Bachelor's degrees conferred in a **COOPERATIVE** or **WORK-STUDY PLAN** or **PROGRAMS** in columns 5-6. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) **MASTER'S DEGREES.** The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Report all master's degrees in Part B, columns 7 and 8 (*even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.*)

The master's degree in professional fields is an advanced degree beyond the first-professional but below the Ph.D. degree (e.g., the *LL.M.*; *M.S. in Surgery, following the M.D.*; *M.S.D.*; *Master of Science in Dentistry*; etc.) Report all master's in professional fields in Part B, columns 7 and 8 even though the first-professional degrees in those fields are reported in Part A.

(c) **DOCTORATE.** The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. (*In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.*) Please report the doctor's degrees (*except when such degrees are first-professional*) in columns 9 and 10 of the report-form.

6. CLASSIFICATION OF DEGREES WITH RESPECT TO MAJOR FIELD OF STUDY.

(a) **Specific Classification.** Classify degrees as **SPECIFICALLY** as the list of fields in the report-form permits. Thus, a bachelor's degree in Business Administration with a major in Accounting should be reported in Accounting (Item 2002), **NOT** in Business and Commerce, general (Item 2001).

(b) **Degree of Doctor of Philosophy.** Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, **NOT** as one in Philosophy.

(c) **Majors of students prepared to teach.** The general rule is to classify degrees according to the major area of specialization. This means, in general, that degrees of students who have prepared to teach an academic subject, such as English, Biology, Mathematics, or Social Studies, should be reported in English (*Item 2901*), Biology (*Item 1704*), Mathematics (*Item 5601*), Social Sciences (*Item 7701*), etc.—and **NOT** in Secondary Education (*Item 2359*). On the other hand, the degrees of students who have prepared to teach such special subjects as Agriculture, Art, Music, etc. should be reported in Agricultural Education (*Item 2319*), Art Education (*Item 2322*), and Music Education (*Item 2336*). (*The system of reporting prescribed in this paragraph fits in with, and supplements, data available from other sources.*)

(d) Split and Double Majors. When a student graduates with a split major or a double major - e.g., in Spanish and French - report the degree either in the area of greater specialization or as half a degree (.5) in French and half a degree (.5) in Spanish. (If the split or double major involved Spanish and an unlisted language, the second language would be reported in Other Languages). Similarly in the case of a student with a split or double major in Biology and Chemistry, report the degree in the area of greater specialization or as (.5) degree in Biology and (.5) degree in Chemistry.

(e) Unlisted Fields of Study. Degrees in fields of study which are not listed should be consolidated with the listed fields if such consolidation is descriptive of the specialization. Thus,

Sculpture should be reported in Fine and Applied Arts, Other Fields of Study (Item 3213);

Astrophysics should be reported in Astronomy (Item 6804);

Geochemistry should be reported in Earth Sciences, Other Fields of Study (Item 6828);

Criminology should be reported in Sociology (Item 7725);

Police Administration should be reported in Applied Social Sciences, Other Fields of Study (Item 7746);

Industrial Design should be reported in Fine and Applied Arts, Other Fields of Study (Item 3213) or in Architecture (Item 1400)—depending on the nature of the curriculum; and so on.

(f) General Majors. The term general major is used to designate diversified curriculums within an area of study. Ordinarily, degrees based on a general major should be reported in one of the general categories of the report-form such as Physical Sciences, general, (Item 6801); Social Sciences, general (Item 7701); Arts, general program (Item 8301); etc. Thus a degree based on concentration in History-Government-Economics should be reported in Social Sciences, general.

(g) Interarea fields of study. Item 8313 is for reporting fields of study which represent two or more broad SUBJECT AREAS; for example, MASS COMMUNICATIONS, encompassing segments of PSYCHOLOGY, EDUCATION, BUSINESS, JOURNALISM, SOCIAL SCIENCES, FINE ARTS, etc., should be reported here. Specify the name of the interarea field of study when reporting in Item 8313.

(h) If the field of study does not fit into any of the listed fields, report in Item 8314, Field of Study Not Classifiable in Items 1000 through 8313 above.

(i) Fields of study are the same as those used in 1967-68 with the following additions:

- Biological Sciences
 - Molecular Biology
- Engineering
 - Biomedical Engineering
 - Ceramic Engineering
- Education
 - Education of the Gifted
 - Special Learning Disabilities
 - Education of the Multiple Handicapped
 - Administration of Special Education

Within the field of Education, the single category Education of the Visually Handicapped has replaced two categories (Education of the Partially Sighted and Education of the Blind.)

Distinguish PREMEDICAL, PREDENTAL, and PREVETERINARY SCIENCES from BIOLOGY, GENERAL, Item 1704. The former, in general, includes curriculums in which the premedical sciences predominate, without specialization in any one specific subject. The last year or two of such a curriculum is frequently taken in a MEDICAL, DENTAL, or VETERINARY school. BIOLOGY, GENERAL typically includes curriculums oriented toward preparation for the teaching of biology in high school or college, or toward further specialized study in such fields as MICROBIOLOGY, ENTOMOLOGY, GENETICS, etc. When the distinction between Items 1701 and 1704 is difficult to make, classify in the broader category (Item 1704).

NOTE: Students intending after graduation to enter schools of MEDICINE, DENTISTRY, or VETERINARY MEDICINE are not necessarily enrolled in PREMEDICAL, PREDENTAL, or PREVETERINARY programs (Item 1701); some of them choose to take more specialized programs, in which case their degrees should be reported in Item 1713, ANATOMY and HISTOLOGY; Item 1721, BIOCHEMISTRY; etc.

INSTRUCTIONS FOR PART C, DEGREES AND COMPLETIONS BASED ON LESS THAN 4 YEARS

1. Report in Section 1 all associate degrees based on at least 2 years of work that is wholly or chiefly creditable toward a bachelor's degree in your institution or by transfer to another institution. Include (1) all associate degrees awarded to students not in organized occupational curriculums and (2) all associate degrees awarded to students in organized occupational curriculums that are reported in columns 4 and 5 of Sections 2, 3, and 4, provided such degrees are based on work wholly or chiefly creditable toward a bachelor's degree. Thus, for example, a student who completed an organized occupational program in Chemical Technology and received an Associate in Science degree would be included both in Section 3 (*Item 2619*) and in Section 1 (*Item 0040*), provided that the work which he had completed was wholly or chiefly creditable toward a bachelor's degree.

2. Report in Sections 2, 3, and 4 completions of **WHOLE CURRICULUMS** only, **NOT INDIVIDUAL COURSES**. For purposes of this survey, an **ORGANIZED CURRICULUM** is one which meets all four of the following criteria:

A. High school graduation (*OR ITS EQUIVALENT*), but no work beyond high school, is required for admission to the curriculum. The general level of these curriculums is the first one to three years beyond high school

B. The curriculum is a series of required and elective courses constituting an integrated program designed to prepare students for **IMMEDIATE** employment in a **SPECIFIC** occupation or cluster of occupations. A group of courses, even though all of them are in a given subject area, do not necessarily constitute a curriculum.

C. Completion of the curriculum requires at least one but less than four years of full-time attendance, or the equivalent in part-time attendance over a longer period. A "year" means an academic year of approximately nine months.

D. The curriculum leads to **ANY** type of formal recognition (*certificate, associate degree, diploma, a transcript recognizing successful completion, a statement of completion from an administrator of your institution, or other FORMAL recognition*) signifying that the student has completed an organized curriculum; or the State grants a license or other formal recognition, upon examination, to all graduates of the curriculum.

Report in columns 4 through 7 of Sections 2, 3, and 4 only those associate degrees, diplomas, certificates, or other formal awards signifying the completion of organized curriculums which prepare for occupational competence in the specified fields or areas. The associate degrees reported here should also be included in the totals requested in Section 1. Formal awards other than associate degrees in organized occupational curriculums should be reported only in Sections 2, 3, and 4.

3. Note that, for purposes of this survey, organized occupational programs are **NOT** designed as the equivalent of the first one, two, or three years of a baccalaureate degree program. Example: pre-engineering is **NOT** an organized occupational curriculum as defined in this survey, because it is designed to prepare students for continuation in the regular engineering program. Engineering technology **IS** an organized occupational curriculum, as defined in this survey, because it is designed to prepare students for immediate employment upon completion. Note that work taken in an organized occupational curriculum may be partly or wholly creditable toward a bachelor's degree and it may lead to an associate degree; the essential point is that the organized occupational curriculum prepares for immediate employment in a specific occupation.

4. Fields of study are the same as those used in 1967-68 with the following additions:

Health Service Curriculums

Electroencephalograph Technician
Inhalation Therapy Technician
Optician
