ABSTRACT

The purpose of this study was to survey student and graduate feelings about the undergraduate psychology curriculum in order to facilitate curriculum revision, to propose student participation in planning, and to improve student advising. The objectives were to determine: 1) the usefulness of the curriculum for graduate study or employment; 2) which courses were most useful specifically for graduate study, social work, or business; and, 3) whether the curriculum would emphasize preparation of the student for graduate study or for varied employment. A 150 item questionnaire requesting information on present activities, future goals, and an evaluation of the courses and educational experience was sent to all 74 psychology majors ever graduated from Wisconsin State University-La Crosse, and 58 present undergraduates. Twenty-seven general questions were included asking how to improve the curriculum, student-faculty relations, and balance in the Department, and inviting opinions regarding student participation in curriculum decisions, a psychology club, and other areas. It was found that the largest group of graduates goes into social work, not psychology; students desired more practical experience, field placement, and more job-related courses with only 21% having pursued graduate study; and, student participation, independent study, the club were strongly favored. Tables indicate the usefulness of the individual courses with respect to graduate study, social work, and business.

ERIC REPORT RESUME

Title: A Follow-up of Psychology Majors Graduated From
La Crosse State University, 1965-1968, for the
Purpose of Evaluating The Undergraduate Psychology
Programs

Author: Harris, Thomas M.

Institution: Wisconsin State University - La Crosse

Date: October 30, 1969 Contract: CORD Grant No. 505

Retrieval Terms: Curriculum Evaluation, Student Attitudes,
Follow-up Evaluation, Employment of Psychol-
ogists, Graduate Study by Psychology Majors

Abstract: A 150 item questionnaire on usefulness and improvement of
the undergraduate psychology program was distributed to
all LSU graduates with psychology majors, plus a selection
of undergraduates. Returns from 74 graduates and 58 under-
graduates were analyzed. Results were used for curriculum
reevaluation and to propose increased student participation
in curriculum planning.

I. Introduction

The suggestion for a survey of student and graduate feelings about psychology courses came from a Department discussion on curriculum revision. There were differences of opinion regarding the worth of several courses, especially General Psychology and Human Adjustment and it appeared the best way to resolve the differences was to ask graduates whether they had actually found these courses useful for school or employment.

A second difference of opinion concerned whether the curriculum should emphasize preparation of the student for graduate study or for varied employment. Should students be required to focus on traditional academic psychology areas, research-training and seminar report writing - traditional graduate student skills - or should they survey a broad spectrum of psychology areas with the emphasis, if any, on how psychology could be useful. We also wished to find out if some courses were more useful for students going on to graduate study, going on to social work, or into business. This would help us in advising students interested in these different areas.

II. The Questionnaire

A questionnaire was developed with the primary purpose of measuring (1) the perceived usefulness of each of the courses offered or which might be offered by the Psychology Department; (2) the areas in which the course proved useful; and (3) how the course could have been improved. The questionnaire also surveyed the post-college activities of our graduates and contained 27 general questions about how to improve the curriculum, student-faculty relations, and balance in the Department, and inviting opinions regarding student participation in curriculum decisions, a psychology club and other topics. A copy of the questionnaire is included in Appendix I.

III. Results

Highlights of the results and their relation to curriculum revision are discussed below. A complete report of all results is included in the Appendix.

A. Employment and Graduate Study by Graduated Majors

Psychology became an approved minor at La Crosse State in 1958 and an approved major in 1964. The first psychology major to graduate finished in January 1965, and 78 others graduated between then and January, 1969. Questionnaires were sent to all 79 graduated majors and 48 returned the questionnaire. Questionnaires were also sent to a random sample of 50 graduates with psychology. Fields of employment and graduate study listed by those responding are given in Table I.

Nearly half the majors undertook some graduate study, though only 21% had completed fifteen or more hours at the time of the survey. Three had earned Master's degrees, one in psychology, one in social work, and one in religious education. The most popular area of graduate study was social work, (9 persons), followed closely by psychology (6 persons). Social work was also the most frequent field of employment (17 persons), with management second (7 persons). Only one major out of 48 was currently employed full time in psychology - a psychology instructor at a junior college - although others were preparing to be psychologists. Several female graduates volunteered bitter complaints about the lack of employment opportunities for those with only a BA in psychology.

One result of the study is to make the Department aware that the largest group of our graduates goes into Social Work, not psychology. There is a tendency by faculty to assume that students will follow in one's path, and for the Psychology Department to shape its curriculum to preparing students for graduate study in experimental psychology. We must realize when selecting faculty, advising students or initiating new courses that this is a secondary function and that our primary function is service to sociology and education.

B. Courses Rated "Most Useful" by Graduates and Students

Respondents were asked to rate each course offered or under consideration by the Psychology Department for its overall usefulness and its specific usefulness for graduate study, employment and for homemaking and other purposes. Tables II and III show a brief summary of the courses rated most useful by different groups of respondents and the complete results are presented in the Appendix.

TABLE III Most Useful Courses As Rated By Graduates and Undergraduates, Majors and Minors

Respondents were asked to rate each course - regardless of whether they had taken it or not - and to separately indicate which courses they had taken. Ratings of usefulness for each course were compiled both for the total group and for only those who said they took the course. Tables II and III present usefulness ratings by all respondents, whether they had taken the course or not, while both sets of ratings are presented in Appendix III. The differences in ratings between 'taken' and 'total' were very small in almost all cases. Since many courses are new and few or no students reported taking them, it was judged that the total responses were most useful.

The survey results, including the ratings of usefulness in Tables II and III, have been distributed to all psychology majors at the college and to the psychology faculty and the administration. These ratings and how they might be used by students at the annual psychology majors meeting. They will prove useful to the students and advisors in selecting programs for each student.

The Psychology Department was pleased that all the courses were rated in the useful direction and none were overall rated as of little or no use. There were few surprises in the listings. Generally, courses rated most useful by the different groups of respondents were the ones which would have been recommended to them by their advisors. One surprise was the high rating given the seminar. This course has received little student interest in the past. As a result of this survey, the seminar is being revitalized, more interesting topics suggested and is being pushed by the advisors.

Another surprise was the high rating accorded to Motivation, a traditional course at most universities, but one which La Crosse has never thought useful enough to offer. As a result of this study, it is now being considered and we hope to offer it in the future. Industrial Psychology has not been offered before at La Crosse either, but was rated high by those graduates in management careers. As a result of the survey, it will be regularly offered, starting this spring. Another course previously undervalued by the Department was Research Foundations, rated high by full time graduate students. It has seldom been offered in the past due to lack of interest but will now be regularly offered and will be pushed by advisors.

Two courses that had been under much fire within the Psychology Department were General Psychology and Human Adjustment. Both had been thought of little use and the Department had discussed dropping them or limiting them to nonmajors. A primary purpose

of the survey had been to discover if students also felt this way. However, both courses received high overall ratings and will be kept. Thus, the survey has had important immediate effect on curriculum - although in the conservative direction of not changing it.

C. Difficulty of courses

The perceived difficulty of the ten most popular courses and suggestions for improvement are presented in Table IV. This is the average of ratings of all respondents. On this question, respondents rated only courses which they had actually taken. A breakdown of difficulty scores by subgroups is presented in the Appendix.

As can be seen, all the ratings group close to the neutral point with half the courses rated "a little too easy" and half rated "a little too difficult". The Psychology faculty were surprised to have their courses rated as "too easy" and to have more work requested. Graduates consistently remembered the courses as easier than undergraduates. The most consistent request for improvement of courses was for more fieldwork and demonstrations.

These results have been shared with the faculty and discussed at a department meeting. It is hoped that the faculty have acted to implement the improvements. As a result of the survey, I have assigned more outside readings in two of my courses and scheduled field trips to local mental health facilities in a third.

D. Student Opinions About the Psychology Department

All respondents answered a series of questions about student participation and about improving the psychology program. The average of responses for all respondents are presented in Table V, and a complete breakdown by groups is in the Appendix.

The sense of responsible interest evident in the answers is very encouraging. For example, in questions 1 and 2 students strongly favor participation and independent study, yet reject the abolition of required courses or giving advice on faculty promotions and merit pay. In other questions it is evident that students desire more practical experience and field placement and more specialized job-related courses. The primary student interest is obviously jobs when the graduate and a broad liberal education is merely frosting on the cake to them. The students claimed an interest in a Psychology Club (one flopped when the staff tried to start it three years ago) and volunteered that its major activity should be professional orientation and practical experiences.

As a direct result of the survey, the Department is pushing for student participation and an enrichment program. The Psychology Department has promoted the formation of a student association

and budgeted \$200.00 for them to spend in any enrichment program they suggest. We have also surveyed student interest in films and speakers as enrichment activities. We hope the student association will sponsor trips to the Midwest Psychological Association annual convention and to area mental health facilities. We also hope to use it as a vehicle for collecting student views on curriculum reevaluation and selection of Summer Session courses.

USEFULNESS OF YOUR UNDERGRADUATE PSYCHOLOGY COURSES

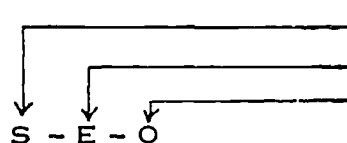

THE PSYCHOLOGY DEPARTMENT SERVES STUDENTS WITH MANY DIFFERENT FUTURE GOALS, SUCH AS EMPLOYMENT OR GRADUATE STUDY IN PSYCHOLOGY OR NON-PSYCHOLOGY AREAS AND MARRIAGE. TO BETTER ADVISE PRESENT STUDENTS AS TO WHICH COURSES WILL PROBABLY BE MOST USEFUL TO THEM, WE WISH TO KNOW WHICH COURSES HAVE PROVED MOST USEFUL TO GRADUATES AND IN WHAT AREAS THEY HAVE BEEN USEFUL. LISTED BELOW ARE THE PSYCHOLOGY COURSES TAUGHT OR UNDER CONSIDERATION AT LSU. FOR EACH COURSE, PLEASE RATE HOW USEFUL THE COURSE HAS BEEN OR MIGHT HAVE BEEN IN YOUR SUBSEQUENT STUDY, EMPLOYMENT OR OTHER EXPERIENCES. MARK WITH AN ASTERISK THOSE COURSES WHICH YOU TOOK AS AN UNDERGRADUATE AT LSU. PLEASE RATE COURSES YOU DID NOT TAKE BY ESTIMATING ON THE BASIS OF YOUR EXPERIENCE SINCE GRADUATION HOW USEFUL A COURSE IN THAT AREA MIGHT HAVE BEEN.

IN THE LAST THREE COLUMNS, PLEASE CIRCLE THE AREA IN WHICH THE COURSE WAS USEFUL TO YOU—STUDY, EMPLOYMENT OR OTHER AREAS. CIRCLE ALL THE AREAS THE COURSE WAS USEFUL IN, OR IF IT WAS NOT USEFUL, OMIT THIS.

RATING OF USEFULNESS

- 
1. VERY USEFUL. A GREAT HELP IN WORK OR GRADUATE STUDY.
 2. QUITE USEFUL. DIRECTLY RELEVANT TO MY FUTURE STUDY OR WORK.
 3. MODERATELY USEFUL. SOME RELEVANCE TO MY STUDY OR WORK.
 4. LITTLE USE. I GOT LITTLE OUT OF COURSE.
 5. WASTE OF TIME. NO USE OR RELEVANCE TO MY WORK OR STUDY.

DO YOU HAVE ANY COMMENTS, THE FRANKER THE BETTER, ABOUT THESE OR OTHER PSYCHOLOGY COURSES? DO YOU HAVE ANY SUGGESTIONS AS TO HOW ANY OF THE COURSES MIGHT HAVE BEEN MADE MORE USEFUL OR INTERESTING TO YOU? (USE BACK OF PAGE IF YOU NEED MORE SPACE.)

PLEASE INDICATE YOUR AGREEMENT OR DISAGREEMENT WITH EACH OF THE FOLLOWING STATEMENTS ABOUT STUDY AT LA CROSSE STATE UNIVERSITY. CIRCLE THE NUMBER WHICH BEST REPRESENTS YOUR VIEWS.

AGREE DISAGREE

1. MOST UNDERGRADUATES ARE MATURE ENOUGH TO BE GIVEN MORE RESPONSIBILITY FOR THEIR EDUCATION. 1—2—3—4—5
 TO GIVE STUDENTS MORE RESPONSIBILITY, THERE SHOULD BE
 A. NO REQUIRED COURSES OR OTHER REQUIREMENTS 1—2—3—4—5
 B. MORE INDEPENDENT STUDY COURSES, (NO LECTURES, JUST SELF STUDY) 1—2—3—4—5
 C. AN HONORS PROGRAM OF INDEPENDENT STUDY 1—2—3—4—5
 COULD YOU SUGGEST OTHER WAYS?

2. THE PSYCHOLOGY DEPARTMENT SHOULD INVITE STUDENT PARTICIPATION IN ACADEMIC DECISIONS. 1—2—3—4—5
 THE DEPARTMENT SHOULD SEEK STUDENT ADVICE ON
 A. INVITING SPEAKERS OR GUEST LECTURERS 1—2—3—4—5
 B. CURRICULUM PLANNING (TYPE AND CONTENT OF COURSES) 1—2—3—4—5
 C. CHOOSING SUMMER SESSION COURSES 1—2—3—4—5
 D. PROMOTIONS, TENURE AND MERIT PAY FOR FACULTY 1—2—3—4—5
 COULD YOU SUGGEST OTHER AREAS?

3. THE PSYCHOLOGY PROGRAM AT LSU WOULD BE IMPROVED IF
 A. GRADES WERE ABOLISHED 1—2—3—4—5
 B. STUDENTS WERE REQUIRED TO SPEND MORE TIME IN FIELD PLACEMENT AND COMMUNITY SERVICE 1—2—3—4—5
 C. THERE WERE LESS EMPHASIS ON SPECIALIZED TRAINING AND MORE ON A BROAD LIBERAL EDUCATION 1—2—3—4—5
 D. THERE WERE MORE LABORATORY WORK AND MORE EMPHASIS ON THEORY, STATISTICS AND RESEARCH METHODS 1—2—3—4—5
 COULD YOU SUGGEST OTHER WAYS?

4. STUDENTS PLANNING GRADUATE STUDY OR WORK IN PSYCHOLOGY SHOULD TAKE AS MANY PSYCHOLOGY COURSES AS POSSIBLE, EVEN IF THEY MISS OTHER AREAS. 1—2—3—4—5
5. THE PSYCHOLOGY CURRICULUM AT LSU HAS SUFFERED FROM THE SPECIALIZATION OF FACULTY MEMBERS. 1—2³—3—4—5
6. I WAS BASICALLY SATISFIED WITH THE TRAINING IN PSYCHOLOGY I RECEIVED AT LSU. 1—2—3—4—5
7. THE PSYCHOLOGY FACULTY AT LSU SHOULD PERSONALLY INVOLVE THEMSELVES MORE WITH THEIR STUDENTS. 1—2—3—4—5

8. I FELT THE PSYCHOLOGY FACULTY AT LSU WERE STRONGLY INTERESTED IN THE ACADEMIC PROBLEMS OF STUDENTS. 1-2-3-4-5

9. THE PSYCHOLOGY CURRICULUM AT LSU SHOULD PLACE MORE EMPHASIS ON PRACTICAL TRAINING, JOB-RELATED COURSES AND COMMUNITY SERVICE AND LESS ON RESEARCH AND THEORY. 1-2-3-4-5

10. DO YOU AGREE THAT GENERAL PSYCHOLOGY IS A WASTE OF TIME FOR PSYCHOLOGY MAJORS AND THAT THEY SHOULD SKIP IT AND GO DIRECTLY TO UPPER DIVISION COURSES? 1-2-3-4-5

11. IF YOU TOOK HUMAN ADJUSTMENT, DO YOU AGREE THAT IT HELPED YOU TO BETTER UNDERSTAND YOUR PERSONALITY AND THAT OF OTHERS? 1-2-3-4-5

IN REGARD TO PSYCHOLOGY OF HUMAN ADJUSTMENT, DO YOU AGREE THAT

A. IT HELPED YOU TO BETTER UNDERSTAND YOUR PERSONALITY AND THAT OF OTHERS. 1-2-3-4-5

B. IT WAS A WASTE OF TIME AND SHOULD BE SKIPPED BY PSYCHOLOGY MAJORS. 1-2-3-4-5

C. IT SHOULD BE TAUGHT IN SMALL THERAPY OR SENSITIVITY GROUPS, RATHER THAN LECTURES. 1-2-3-4-5

D. IT SHOULD EMPHASIZE THE ANALYSIS AND IMPROVEMENT OF THE STUDENT'S PERSONALITY RATHER THAN THEORY. 1-2-3-4-5

HOW DO YOU THINK THE COURSE COULD BE IMPROVED?

12. VERY FEW STUDENTS TAKE THE SEMINAR IN THEIR SENIOR YEAR. DO YOU AGREE THAT ALL MAJORS SHOULD BE REQUIRED TO TAKE A PSYCHOLOGY SEMINAR IN THEIR SENIOR YEAR? 1-2-3-4-5

WHAT SHOULD SUCH A SEMINAR EMPHASIZE?

___ RECENT RESEARCH ___ BROAD INTEGRATION ___ A SPECIALIZED AREA

13. SEVERAL YEARS AGO THE PSYCHOLOGY DEPARTMENT ENCOURAGED THE FORMATION OF A STUDENT PSYCHOLOGY CLUB, BUT IT DID NOT LAST. DO YOU AGREE THAT A PSYCHOLOGY CLUB WOULD HAVE BEEN USEFUL AND INTERESTING TO YOU? 1-2-3-4-5

WHAT SHOULD THE ACTIVITIES OF A PSYCHOLOGY CLUB BE?

14. THE PSYCHOLOGY DEPARTMENT HAS 9 FULL TIME MEMBERS THIS YEAR AND WILL HAVE 12 NEXT YEAR. DO YOU AGREE THAT RAPID EXPANSION OF STAFF AND NUMBER OF COURSES BEST SERVES THE INTERESTS OF STUDENTS? 1-2-3-4-5

TO MEET ALL THE NEEDS OF STUDENTS, PERSONAL AND ACADEMIC, WHAT DO YOU THINK WOULD BE THE BEST SIZE FOR THE PSYCHOLOGY DEPARTMENT?

_____ SMALL (5—10)
_____ MEDIUM (10—15)

_____ LARGE (15—25)
_____ VERY LARGE (25)

15. WHAT KIND OF HELP DID YOU RECEIVE IN PLANNING YOUR POST-COLLEGE ACTIVITIES FROM COLLEGE FACULTY, ADMINISTRATORS OR OTHERS? WAS IT USEFUL?

IN WHAT WAYS COULD THE FACULTY OR ADMINISTRATION BEEN MORE HELPFUL?
