ABSTRACT

Presented is the 5th annual report of the Arizona State Economic Opportunity Office (SEOO). The purpose of the report is to provide interested agencies, public officials, and the general public an overview of SEOO programs operating in Arizona. The report gives descriptions and purposes of these various programs and discusses grants received by SEOO. A 2-page summary of a 1971 study on causes of poverty in Arizona is also provided. Following descriptions of community action projects (by county or Indian community action agency), all single-purpose programs of record in the state office are described. Tables provide statistical data on recipients of public assistance funds (by county), assistance payments (by program), and demography of Arizona counties and Indian tribes in terms of population, income, welfare status, and labor force. A related document is ED 050 880. (MJB)

(602) 261-4331

December 31, 1971

The Honorable Jack Williams
Governor of Arizona
State Capitol Building
Phoenix, Arizona 85007

Dear Governor Williams:

Presented herein is the annual report of the State Economic Opportunity Office for the year 1971.

This is the fifth yearly report produced by our office for the purpose of presenting to interested agencies, public officials, and the general public, an overview of OEO programs operating in the State.

The report gives a brief description and the purpose of the various programs. It also contains a compilation of projects administered by Indian and Non-Indian community action agencies. Furthermore, we have included the single-purpose programs of record that are operating within the State of Arizona.

Respectfully yours,

Adolf P. Echeveste
State Director

HIGHLIGHTS OF 1971

Governor Appoints New SEOO Director

Mr. Adolf Echeveste was appointed Director of the State Economic Opportunity Office on April 16, 1971. Mr. Echeveste is a native of Arizona and was born in Miami, Arizona and attended secondary schools in Phoenix. He attended Arizona State University and graduated with a B.A. in Secondary Education, Class of 1965, with a Political Science Major and a Minor in Spanish. Mr. Echeveste received his Master of Arts degree in Urban Studies at Occidental College, Los Angeles, California. He received a Fellowship from the National Urban Fellows Program, co-sponsored by Yale University and the National League of Cities and Conference of Mayors.

In addition to the studies at Yale University, Mr. Echeveste served an internship as special assistant to both the Mayor of Phoenix and the Director of the Arizona State Personnel Commission. His most recent assignment was an appointment by the Governor as the State Youth Coordinator. In the past, Mr. Echeveste has served in administrative positions with several anti-poverty organizations. Mr. Echeveste is also a member and active in the American Society of Public Administration, The League of United Latin-American Citizens, VESTA Club, and other professional, service and social organizations.

Arizona State Programming and Coordinating Committee for Federal Programs

Mr. Echeveste has been named to this committee to represent the State Economic Opportunity Office and the other OEO federally funded programs within the state. The purpose of this committee is to advise and assist the Governor in the exercise of his obligations for the programming and coordination of activities involving Federal assistance and to keep the legislature informed. The Committee also assists the State Clearinghouse in the performance of its mission. They provide a communications forum among state agency users of Federal assistance programs and try to insure that Federal Programs do not duplicate, overlap or impact unfavorably on one another. The program is also designed to identify voids or gaps to be filled by programs.

OEO Community Action Strategy 1972-1973

National OEO would like to see an acceleration of the movement toward the goal of CAAs solidly established in their communities as strong, viable local institutions, able to continue their anti-poverty leadership, drawing on local, state, federal and private resources with broad community support. The strategy suggests a new awareness to the need for CAAs to coordinate their program activities with local governing bodies. National OEO will give the CAAs more responsibility and with this, more accountability. Greater freedom will be given to employ local planning formats using multi-year funding. Greater recognition will be given to CAA Boards as sources of authority and direction.

SEOO Goals and Priorities

The State Economic Opportunity Office wishes to more clearly identify the conditions of poverty that are peculiar to this state and assist the local anti-poverty agencies with resources that will enable them to eventually overcome these particular problems.

It is the position of the SEOO to advise the Governor and the Legislature with respect to laws and pending legislation which affect the minorities and the poor. The SEOO is striving to more effectively discover, develop and mobilize all possible anti-poverty resources and develop closer coordination between the human resource state agencies and the Community Action Agencies.

An immediate SEOO priority is the reorganization of CAAs to conform to the Planning Districts as designated by the Governors' Executive Order 70-2. This reorganization will enable the CAAs to effectively coordinate and communicate their planning with COG, State, and Federal planning in their geographical areas, thereby providing a higher degree of service to the people in the community.

The SEOO has established a long range priority of more effectively evaluating on-going programs and seeking means of more effectively utilizing OEO resources. The SEOO is striving to produce a dynamic State Government posture towards recognition of the problems of poverty and to carefully assess the State Agency, The Educational, and the Institutional Resource Bank for training and technical assistance to CAAs and other anti-poverty agencies.

STATE ECONOMIC OPPORTUNITY OFFICE RECEIVES FOUR GRANTS

Arizona Housing Development Corporation
Suite 310
222 West Osborn
Phoenix, Arizona 85013
279-4141
Mr. Joe Benites, Director

The original grant to the SEOO was to formulate a plan, organize, and implement a statewide housing assistance corporation to serve as a vehicle for providing technical support to individuals, non-profit organizations and local government units interested in sponsoring low and moderate cost housing.

The Arizona Housing Development Corporation has incorporated and as of January 1, 1972 all responsibility for the grant was transferred from the SEOO to the AHDC Board of Directors. The Board consists of one representative from each of the six Councils of Governments and Community Action Agencies plus three at-large members.

AHDC has closed a 127 unit apartment project in Chandler under Section 236, FHA funding. In development stages are a 100 unit apartment complex in Flagstaff, a 100 unit residence for the elderly in Glendale, 100 units for the elderly in South Phoenix, a 20 unit apartment in Hayden and a group of single unit dwellings in Williams, Arizona. These are all funded through Section 236, FHA.

Vesta Scholarship Bank
Office of Student Affairs
Arizona State University
Tempe, Arizona 85281
965-4433
John Adalpe, Director

This is a one year demonstration grant to enable the Vesta Club to establish a central educational resource bank to identify, catalog and link disadvantaged students with available scholarships and to assist these students with scholarship and aids counseling. The Vesta Club is a non-profit organization seeking to encourage minority students to further their education through scholarship assistance and educational counseling.

As a Delegate Agency, the Vesta Club is responsible to the SEOO for all terms of application of the grant.

STATE ECONOMIC OPPORTUNITY OFFICE RECEIVES FOUR GRANTS

Student Intern Program
712 West Washington
Phoenix, Arizona 85007

This grant is to provide a means of access to experience in the areas of Public Administration work within State Agencies. The grant is geared toward low income and minority upper-level college students who express an interest in Public Administration as a full time career. Students are employed on a part-time basis by state agencies who give them practical insights into management activities and problems. The grant normally pays part of the salary and the sponsoring agency pays a matching portion. Interns have been placed with the State Senate, the Department of Corrections, the Highway Department, the Department of Public Instruction, the Personnel Commission and the SEOO. The grant is being administered by the State Economic Opportunity Office.

Southern Arizona Manpower Demonstration Grant
City Office Building
Tucson, Arizona
Richard Bartholomew
Senior Manpower Specialist

This is a special one year Technical Assistance grant to provide manpower consultant services in Districts II, V and VI. Three manpower specialists have been added to the SEOO staff and outstationed in Tucson.

The main objective of the grant is to orient and assist the poor so that they can participate effectively on local manpower planning committees. Project personnel will also provide information and writing assistance and training to other Manpower Council members. It is hoped that the grant will facilitate inter-action between OEO agencies and local groups in the areas of Manpower programs.

Manpower programs play an important role in the efforts by State and Federal Governments to eliminate the problems of poverty and take people off the welfare rolls. Manpower projects provide job counseling, skills training and many other facets of assistance to enable the unskilled and unemployed to compete adequately on the labor market.

CAUSES OF POVERTY IN THE STATE OF ARIZONA A 1971 STUDY

The fundamental causes of poverty fall into three identifiable categories.

1. Social Causes, created by deficiencies in our Social, Economic, Cultural, Religious and Political Systems.
2. Individual Causes, which would include personal psychological, educational, and physiological inadequacies caused by an evolving social system which has not been able to meet the challenge of meeting individual development.
3. Geographic Causes, which can be the result of location, topography and resources but reflect back to a social category.

LOW MINIMUM WAGES are a prime cause of poverty because of the inability of the individual to earn a minimum livable wage as determined to be satisfactory in our social system.

PREJUDICES AND ATTITUDES found in the majority groups by reasons of race, religion, ethnic origin and sex prevent minority peoples from gaining an equitable living standard.

1. The poverty incidence is 3.3 times higher for non-whites than for whites.
2. Indians have the highest poverty incidence with 68% living below the poverty level.
3. Negroes have the second highest poverty incidence with 47% living below the poverty level.
4. Mexican-Americans have the third highest poverty incidence with 34% living below the poverty level.
5. Women heading families have the fourth highest poverty incidence with 33% of families headed by women living at the poverty level.
6. The white population has a poverty incidence of 5%.

INADEQUATE EDUCATION bears a direct relationship to Unemployment and to the existing levels of Poverty.

1. The educational deficiencies fall into several defined areas including Language problems, Reading, Vocational Re-education and Adult Basic Education.

FAMILY PLANNING creates poverty conditions. Inadequate family planning results in families too large to sustain themselves and produce poverty conditions that defy correction through our social system.

UNEMPLOYMENT, through the inability of the worker to locate employment because of the failure of our economic structure to provide gainful employment for each person seeking employment, is a continuing cause of poverty.

HEALTH SERVICE INADEQUACY causes poverty because the inability to obtain adequate health care prevents maintenance of a normal physical condition which is required for continued employment.

NUTRITION problems of the poor cause existing poverty and create a future poverty level for the individual through loss of physical and mental health.

1. Undernourishment of 63% of urban poor families is a direct proportional cause of brain damage of poor children.

CAUSES OF POVERTY IN THE STATE OF ARIZONA

A 1971 STUDY

INADEQUATE CONSUMER PROTECTION is an economic cause of poverty as abuses are directed toward the under-educated person who is unable to make sound economic judgments.

LEGAL AID DEFICIENCIES cause poverty through the inability of our social system to provide equitable legal protection and counseling to the low income person in our society.

ILLEGAL ENTRY WORKERS are a major factor creating poverty in Arizona through job displacement of citizens who might otherwise find employment.

It is difficult to differentiate between the causes and the problems associated with poverty. The problems of course, are born through poverty and the problems, in turn, give birth to poverty. It becomes a cause-problem, problem-cause cycle.

HOUSING is one of the major problems of poverty.

1. It is a social cause of potential poverty.
2. Costs of adequate housing exceed the incomes of the poor.
3. The environment of inadequate housing creates many social problems.

FOOD is a direct problem-cause cycle of poverty

1. Families with inadequate nutrition produce a high proportion of children with mental and physical deficiencies.

TRANSPORTATION is a problem more seriously affecting the poor and their means of reaching employment, health services and social agencies.

DISJOINTED AGENCY FUNCTIONING in the past has been individualistic, patronistic by agency, fragmented and often ineffectual.

1. As many as 70 agencies in a metropolitan community may be involved in poverty related projects, often not knowing of the existence of the other.

PSYCHOLOGICAL SERVICES are often unavailable to the lower income groups.

1. Personnel and facilities to meet the psychological and sociological needs of the poor are seriously deficient.

CRIME is a problem and often directly attributable to poverty conditions. The person living in that environment and who is unable to earn a satisfactory wage or find employment will discover that crime is an easy source of income not otherwise available.

This synopsis of the causes and problems of poverty in Arizona is indicative of the problems faced by the Community Action Agencies. Many of these problems have been identified for a long time and many CAA programs are directed toward the goal of lessening or erasing the problems recognized and defined in their communities.

COMMUNITY ACTION AGENCIES WITHIN PLANNING DISTRICTS

The State Economic Opportunity Office enabled Arizona to become one of the first states in the nation to designate and realign Community Action Agency boundaries to conform to the geographical boundaries of the recently established State Planning Districts. This became possible only through the coordinated efforts of the SEOO, Region IX Office of Economic Opportunity, the Community Action Agencies and local Governmental bodies.

Recognizing the need for more effective, coordinated government at all levels, the U.S. Congress, through the Intergovernmental Cooperation Act and the National Environmental Policy Act, recently passed legislation to ensure this coordination between governmental bodies at all levels of state and federal government programs.

Governor Williams, who is an advocate of efficiency and modernization in State Government, established by executive order in July, 1970, State Geographical Planning Districts to coordinate State and Federal programs in the different areas of the state. The Planning Districts will enable more efficient planning by state and local governments.

On August 13, 1971, the original SEOO redesignation order and notice of public hearing was released. The hearings, as required by OEO, were held in affected Districts from August 24, 1971 to October 14, 1971. These hearings identified areas of attention that necessitated minor changes in the tentative reorganization plans.

The final Redesignation Order was released to the proper elected government officials and the Community Action Agencies in November 1971. The order was recognized and accepted by regional and national OEO and became effective on December 20, 1971. The following map shows the established Planning Districts, and the Community Action Agencies, as designated by SEOO, now conform to the geographical areas of these Districts as stated below.

DISTRICT	COUNTIES	CAA DESIGNATED
District II	Pima	Committee for Economic Opportunity, Inc.
District III	Coconino-Navajo Apache-Yavapai	Northern Arizona Development Council
District IV	Mohave-Yuma	Arizona Rural Effort, Inc.
District V	Gila-Pinal	Pinal County Community Action Agency
District VI	Santa Cruz-Cochise Graham-Greenlee	Committee for Economic Opportunity, Inc.

STATE PLANNING AND DEVELOPMENT DISTRICTS

COMMUNITY ACTION AGENCIES WITHIN PLANNING DISTRICTS

In Planning District IV, the Council of Governments will become the designated grantee, effective with the new program year beginning April 1, 1972. Mr. Robert Kennerly, formerly ARE director, will become the Executive Director for the new grantee. The Council of Governments of District III opted to become the grantee for that District and the Northern Arizona Council of Governments will be recognized as the OEO grantee after April 1, 1972. Mr. Leon Berger will be the Acting Director of this COG.

In District VI, CEO will become the designated grantee. CEO is also the grantee for District II. The redesignation should enable the Community Action Agencies to more effectively take the lead in National OEO Strategy and more effectively coordinate their planning with local community governments. District I was not affected by the Designation Order.

COUNCILS OF GOVERNMENTS

Regional Councils of Governments have now been formed within each Planning District. Referred to as COGs, they serve as a planning body for the district and are composed of representatives from the County Boards of Supervisors, Mayors of Incorporated Cities and other locally elected officials. Some COGs have representation from the County School Superintendents and Indian Reservations. Under recent federal guidelines, regional planning to coordinate city and county growth is necessary to receive federal grants.

The COG's primary purposes are to end overlapping and duplication of planning. To provide unified, specific planning. To act as a forum for district government leaders to discuss common problems and devise solutions. To gather information necessary to perform an area review of federal assistance plans.

Briefly, the four areas of policy role concern are: (1) inter-local coordination (2) COG-State coordination (3) COG-federal coordination, and (4) the COG relationship to the larger community. In the Maricopa and Pima Districts, the COGs are recognized as regional clearinghouses.

The Councils of Governments by District are:

District 1	Maricopa Association of Governments
District 2	Pima Association of Governments
District 3	Northern Arizona Council of Governments
District 4	District IV Council of Governments
District 5	Central Arizona Association of Governments
District 6	Southeastern Arizona Government Organization

COMMUNITY ACTION AGENCY BOARD STRUCTURE

A CAA may have both a Governing Board and an Administrative Board. If a political subdivision has been designated the OEO grantee or if there is a joint powers arrangement of several counties acting as the grantee, the elected officials will serve on the Governing Board which delegates administrative authority to the Administering Board.

Indian CAAs usually have a Governing Board which consists of the elected tribal officers. In some cases an Indian CAA may also have an administrative board.

Non-profit corporations designated as an OEO grantee have a Governing Board. The Boards of a Community Action Agency are elected and must be composed of one-third public officials, one-third representatives of the poor, and the balance are to be officials or members of business, industry, labor, welfare, education or other interested groups in the community. All geographical areas and ethnic groups are usually represented on the boards. In this report, the word "Poor" after the board members name means that he represents the poor.

HEAD START FUNDING SOURCES

The Headstart pre-school programs are funded through the Economic Opportunity Act but administration of these programs has been delegated to the Office of Child Development, a department of the U.S. Dept. of Health, Education and Welfare. The Office of Child Development gives preference to Community Action Agencies as local grantees for the Headstart programs. The CAAs may then either administer the program or designate a delegate agency.

VISTA-ACTION

522 North Central
Phoenix, Arizona 85004

Jess Sixkiller, Director

Action is a new agency partially funded by OEO and this agency consolidates Vista, Foster Grandparents, SCOR (Service Corps of Retired), Voluntary Action, RSVP (Senior Volunteer Programs). Vista volunteers are active at Arizona Job College and in other locations. Cochise College has initiated a University for Year in Action program, which is an Action program.

SYNOPSIS OF PROGRAMS

On the following pages are brief descriptions of the various programs conducted in Arizona. These are followed by a compilation of projects by County and Indian Community Action Agencies.

C A A ADMINISTRATION

P.A. No. 01

This function comprises administering and managing the central staff, facilities, and equipment, and other administrative overhead costs of the community action agency. Generalized CAA activities (such as intake and program placement) not related to a specific program, neighborhood service system, or community organization efforts, are included. The mobilization of community resources, and CAA level coordination efforts to ensure the execution of programs operated by the CAA and/or delegate agencies, are included. Also included is the day-to-day coordination of CAP-funded programs with related federal, state, local, and private agency programs. Management research activities are included, such as the collection, storage, and retrieval of management information when such activities are not a part of a specific project or program account but are utilized as a means of central administrative control.

C A A	Program Year	Federal	Non-Federal	Total

TOTAL		<u>1,890,753</u>	<u>265,407</u>	<u>2,156,160</u>

C A A PLANNING

P.A. No. 03

This activity includes assistance to CAAs to plan for the improvement and strengthening of their systematic approach to community action by which, in each community: the problems and causes of poverty are identified; public and private resources are coordinated and mobilized; program priorities are established; and antipoverty programs are appropriately linked to one another.

The activity includes the planning and development of new programs and the improvement and modification of existing programs within the ongoing community action program, as well as the planning of strengthened coordination among CAP funded programs and related federal, state, local, and private agency programs. It specifically includes planning research activities. Research in this context includes obtaining information for the planning of the CAA's program structure and specific projects or program accounts; and obtaining the basic information and fundamental knowledge relevant to understanding and dealing with the problems and causes of poverty in the community. It also includes the provision of general planning assistance to groups or agencies which cannot be directly related to a specific program account.

C A A PLANNING

TOTAL		<u>47,190</u>	<u>9,387</u>	<u>56,577</u>

EVALUATION

P.A. No. 04

Evaluation in this context is that performed by CAAs as part of their administration and management activities. Evaluation includes analyzing the effectiveness of ongoing or completed community action programs. It focuses on results and implications of programs in being or completed, and therefore may or may not be directly related to a currently funded program.

C A A	Program Year	Federal	Non-Federal	Total

TOTAL		<u>40,677</u>		<u>40,677</u>

NEIGHBORHOOD SERVICE SYSTEMS

P.A. No. 07

In a great number of communities the problem of poverty was not merely that of being poor, sick, or unemployed. The problem was that one did not know where to go for service, that the services were too far away, or that the services were fragmented in different parts of the community. Through Neighborhood Centers a complete array of services and programs are offered. Neighborhood centers may offer social welfare services, manpower services, health programs, school age education programs, consumer education, housing services, adult literary programs, legal services and co-operative enterprises such as credit unions and consumer cooperatives. Serving as a stimulus of self-help activities is one of the most important roles of a neighborhood center.

COMMUNITY ORGANIZATION

P.A. No. 08

This activity includes community organization and outreach conducted to encourage antipoverty program participation. These activities may be directly related to a neighborhood center or community school, or may be totally independent of such facilities. Community organization includes involving residents of low-income neighborhoods in the affairs of their community by encouraging them to organize and take group action to deal with their problems. Activities include contacting individuals to help them organize, assisting them to determine their needs and conducting meetings to discuss their problems, and advising them on group action taken to solve their problems. Outreach involves actively seeking out poor people through direct personal contact for the purpose of determining their antipoverty needs and informing them of the programs and services available to them in the community action program or related non-CAP programs.

JOB DEVELOPMENT, PLACEMENT, FOLLOW UP

P.A. No. 11

Job Development. Finding new job openings that will provide employment for poor people, including stimulation of the creation of new jobs and the further improvement of existing jobs in the labor market to benefit disadvantaged people through efforts to restructure hiring criteria, facilitate labor mobility, and promote fuller employment.

Job Placement. Placing individuals in appropriate jobs. A placement is defined as placing an individual in a job that is kept for a minimum of one month.

Job Follow-Up Services. Counseling individuals after they have been placed in a job. Such counseling is normally conducted for a minimum of three months.

**MANPOWER PROGRAM INTAKE, ASSESSMENT
AND PROGRAM PLACEMENT**

P.A. No. 12

This program provides the means for measuring individuals aptitudes, needs, and interests to determine current skill levels and the potential for acquiring additional skills needed to participate in vocational or other training programs or to obtain employment. Participants are usually placed in prevocational or vocational training, direct employment or job placement services as a result of the assessment and placement functions.

HEAD START (FULL YEAR)

P.A. No. 22 & 23

For the child of poverty, the foundation is laid early for a lifetime pattern of failure — and thus of poverty. Youngsters from homes where English is not spoken well, and books are not read, usually have difficulty upon exposure to school in the first grade. They tend to lag further as they progress through school; many drop out entirely, further hampering their ability to get and keep a job. Head Start is designed to break that cycle before it is set. Head Start involves pre-school youngsters in year-round and summer programs. Carried out in child development centers, these programs offer a broad range of services, including medical and dental care, psychological counseling, nutritional support, social services, and daily activities offering a variety of constructive experiences.

Parents participate in the planning and operation of programs and hold staff positions in child development centers.

SCHOOL AGE EDUCATION

P.A. No. 26

Programs for School Age Education may include the following activities:

Guidance, Testing and Counseling. Identifying special problems and characteristics of poor students and helping those students make the best of their education through guidance, testing, and counseling efforts.

Tutorial and Remedial Education. Providing individual tutoring assistance, homework help, or supervised study classes to students after regular school hours to supplement regular classroom work at their current grade levels. This activity includes providing instruction in remedial reading (including English composition, language arts, and communication skills) and remedial instruction in other curricular areas, such as mathematics and science, for students performing below their normal grade level.

Cultural Enrichment. Increasing a student's school performance and motivation through active participation in and exposure to the creative and performing arts and other cultural activities. This activity includes field trips designed to fulfill these purposes.

Curriculum and Faculty Development. Improving and modifying course schedules and course content, and improving faculty capability in order to help poor students improve their performance and motivation.

Special and Other School Age Education. This activity includes (1) programs using special education techniques to teach children with physical or emotional handicaps, including education for mentally retarded children; (2) programs other than Upward Bound providing aid to promising high school students to improve their opportunities to attend college, and to promising college students to continue their education; and (3) other education programs or services to school age participants outside the scope of those listed above.

ADULT EDUCATION

P.A. No. 29

Adult Basic Education provides basic literary training for adults who are unable to read and write. The literary training in this category is designed to increase employment opportunities, enhance participant benefits from manpower training programs, and generally upgrade the ability of participants to cope with their environments.

Teaching English to persons whose native language is not English is included.

HOUSING SERVICES

P.A. No. 36

These funds are used to stimulate home repairs, improvements, or construction. This activity may include programs concentrating on construction skill training where housing construction or repair is an equivalent or even secondary benefit; funds for building materials or permanent financing are not included. It may also include programs assisting in homesite preparation and subsequent home maintenance.

It also provides other housing services to meet the complex needs of the poor. This activity includes providing (a) help to poor families or individuals in finding new housing arrangements, and (b) information to individuals and groups on the availability and best use of current public and private housing programs, such as public housing, urban renewal, and special financial assistance.

COMPREHENSIVE HEALTH SERVICES

P.A. No. 41

Comprehensive health service grants are to provide for treatment, screening and diagnostic services, home care, outreach rehabilitation, dental care, family planning, mental health care and other health related services. In addition, the grants may help to obtain equipment and supplies, training for personnel planning activities, evaluation of projects, and transportation for patients.

Provisions must be made to assure that all health services are under competent professional supervision and meet high standards of quality. All appropriate elements of the community, including those served, must be involved in the projects' planning and development. OEO funds are a "last dollar" resource and cannot be used to support services, facilities, equipment or supplies for which support is already available.

FAMILY PLANNING

P.A. No. 47

Family planning grants make family planning services available to low-income persons in areas of high concentration or proportions of poverty.

They endeavor to improve, supplement or add new elements to existing family planning projects, make new arrangements for provision of services, and to provide information about family planning including contraception to poor persons and to facilitate their voluntary use of services available. Among the services that can be supported are clinical (including medical examinations and appropriate laboratory tests, and drugs), education, counseling, outreach, and referral.

CONSUMER ACTION AND FINANCIAL COUNSELING

P.A. No. 52

Consumer action helps develop and support local groups that seek to solve consumer problems through group action, consumer education, financial counseling, and the establishment of new consumer institutions to provide choices in goods, services, and credit to poor consumers. It may involve creating and maintaining credit unions and other sources of low cost credit that provide poor people the opportunity to save and to obtain inexpensive credit, financial counseling, debt handling and reduction services, and long-term budgeting aid.

LEGAL SERVICES

P.A. No. 57

This program provides funds to establish law offices in low-income neighborhoods and provides attorneys to advise and represent clients who cannot afford to pay for a lawyer's services. By statute, such representation is limited to civil cases. Clients must meet the standard of indigency which is set locally. Local legal services agencies also provide representation to groups, provide assistance in plans for economic development and attempt to make the law more responsive to the needs of the poor through the prosecution of test cases.

ECONOMIC DEVELOPMENT

P.A. No. 62

Economic Development programs are designed to stimulate economic development in the community. Activities provide for planning and organizational vehicles, assistance in locating suitable funding and technical assistance courses, and coordination with appropriate government agencies and the private business community. Among other things, these programs may seek to establish or expand businesses and services operated by local individuals and groups, the location of outside industry in the community, tourism projects, and the development of natural resources such as lumber, minerals, and fishing. They may also assist in providing or obtaining essential community facilities which will aid in improving the economic environment of the target population.

C A A	Program Year	Federal	Non-Federal	Total
Comm. for Economic Opportunity	4-1-71 to 3-31-72	30,761	13,627	44,388

SENIOR OPPORTUNITIES AND SERVICES

P.A. No. 65

This program is designed to identify and meet the needs of poor persons above the age of 55, in projects which serve or employ older persons as the predominant or exclusive beneficiary or employee group.

Such projects may seek to develop and provide new employment and volunteer services; effective referral to existing health, welfare, employment, housing, legal, consumer, transportation, education, recreational, and other services; stimulation and creation of additional services and programs to remedy gaps and deficiencies in presently existing services and programs; modification of existing procedures, eligibility requirements and program structures to facilitate the greater use of and participation in public service by the older poor; development of all season recreation and service centers controlled by older persons themselves; and such other activities and services as are necessary or specially appropriate to meet the needs of the older poor and to assure them greater self-sufficiency.

TOTAL		<u>2,267,710</u>	<u>828,569</u>	<u>3,096,279</u>

Under the new OEO guidelines, in an effort to simplify grantee accounting procedures and enable the grantee to identify problems at a localized level, there will be no extensive use of program account numbers. Beginning with the Fiscal Year 1972, there will be only two account or program numbers that will be used with regularity.

MIGRANT PROGRAMS

Guadalupe Organization 8810 S. 56th Street Guadalupe, Arizona CG 8533/F PY 4-1-71 to 3-31-72	Federal	Non-Federal
	194,877	44,834

The objectives are to provide adult education and vocational skills education under the purpose of the migrant education and rehabilitation funds. The organization also operates a community service center, tries to obtain adequate health service and bring social reform to the community.

Migrant Opportunity Program
 6611 South Central
 Phoenix, Arizona
 Mrs. Olga Aros, Director
 (268-0293)
 CG-0792/F PY 1-1-71 to 12-31-71

The purpose is to improve the living conditions of the migrant seasonal farm workers and their families throughout the state of Arizona. MOP operates an in-depth educational service providing GED, ESL, Vocational Training and Job development. In the area of housing it provides technical services, home improvement, consumer education and other classes. The program also gives tuition assistance with financial support, tutoring, counseling, and training in financial aids and admission.

Account No.	Program Title	Federal	Non-Federal
87	Administration	117,228	-0-
89	Education	456,201	-0-

Navajo Community College HEW/OCD 9071/A PY 12-1-70 to 5-31-71	Federal	Non-Federal
	73,094	-0-

This grant provides Head Start training for new teachers in early childhood education. It also provides training to aides and parents and tries to upgrade the Head Start educational program.

ARIZONA RURAL EFFORT, INC.

377 Main Street – Room 202
 Yuma, Arizona 85364
 Telephone: 782-9403
 Robert Kennerly, Director

GRANTS NO: CG-7175/D 3-1-71 to 2-29-72
 CG-8010/A/2 (FURPO)
 10-1-71 to 9-30-72

Arizona Rural Effort, Incorporated, serves Cochise, Gila, Greenlee, Graham and Yuma Counties. All of these counties are located in the southeast portion of the state with the exception of Yuma county which is in the southwest corner. They comprise a total area of 27,583 square miles, and a total population of 178,900 people.

Per capita incomes for 1970 were: Cochise \$3,158, ranking 6th; Gila \$2,545, ranking 9th; Greenlee \$3,627, ranking 5th; Graham \$2,404, ranking 12th; Yuma \$3,581, ranking 2nd of Arizona's fourteen counties.

The major economic activity in the eastern counties is mining, governmental employment and retail trade. Yuma county generates its income from agriculture, governmental activities and tourism.

Underemployment due to lack of education and skills contributes to the poverty picture in Yuma and Cochise counties. Lack of job opportunities in Greenlee, Graham and Gila counties is a major deterrent to improving the status of the disadvantaged in those areas.

The following is a listing of programs funded during the program year:

Account No.	Program Title	Federal	Non-Federal	Total
01	CAA Administration	55,041	6,800	61,841

84	Pilot Project – FURPO	117,373	26,000	143,373
	TOTAL	638,346	140,940	779,286

Effective April 1, 1972, ARE will no longer be recognized as the grantee for OEO funded programs for District IV. The District IV Council of Governments opted to become the OEO grantee for their district. This was recognized by Regional OEO and the change will be effective the beginning of the new program year. Mr. Kennerly will be the executive director for the COG.

CG-9115/A 6-1-71 to 3-31-73
CG-9116 6-1-71 to 12-15-72
CG-0378/F 4-1-71 to 3-31-72

The Committee for Economic Opportunity, Incorporated, is the Community Action Agency which serves the people of Pima and Santa Cruz Counties. Pima County covers an area of 9,241 square miles in the south central section of Arizona. It includes the City of Tucson, Arizona's second largest population, trade and service center. The 1970 census showed 351,667 inhabitants, an increase of 32.4% over 1960. Pima County has an average of 5.2% of population on welfare. Unemployment % was 4.4.

Santa Cruz is Arizona's smallest county encompassing 1,246 square miles in the south central section of the border area joining Arizona with Mexico. Total population of 13,966 persons showed a 29.2% increase over 1960. Santa Cruz County had 5.5% of population on welfare. Unemployment % was 8.3.

The counties' economic activities center around governmental activities, retail trade and tourism with the U. S. - Mexico trade dominating the Santa Cruz area. The relatively large supply of labor from nearby Mexico and low skills of the disadvantaged in these counties have a tendency to keep wages depressed.

 CG-H-0682/F 4-1-71 to 3-31-72

LEAP is a department of the City of Phoenix and LEAP program administration is delegated to the Leap Commission. LEAP programs serve many minority groups, including a large population of peoples defined as Negro for census purposes. A high percentage of the Negro families live at or below the poverty level. A large Mexican-American population is also served. Off-reservation Indians, one-parent families, usually mothers with no work experience or education, and other poverty level peoples are served. Immigration to urban areas poses a problem for LEAP as the City is faced with a burden of peoples moving from rural areas and a seasonal influx caused by climate and farm labor conditions.

The principal employers in the Phoenix area for 1970 were the retail and wholesale trades, followed by services, manufacturing and governmental activities. Per capita income for 1970 was \$3796, highest in the state. Total population of the city is 581,562, showing a 32.4% increase over the 1960 census.

It is estimated that 16.8% of the families in the city have incomes under the poverty index. Unemployment in the "Inner City" was estimated as 13.2%.

The following is a listing of programs funded during the program year:

Delegate Agencies are often used by CAAs to more effectively administer a particular type of program, a joint funded program or programs involving particular peoples or neighborhoods. Alcohol, Drug, Legal Services and Youth programs are often delegated. Health projects and Head Start programs are sometimes placed under a delegate agency.

The Area Councils within LEAP are the neighborhood functional planning and coordinating centers for each particular community. This enables the recipients of LEAP programs to express their needs to their community organization. LEAP also operates community centers which serve as a neighborhood social services base.

Maricopa County covers an area of 9,253 square miles in the south central portion of Arizona. The Maricopa County Community Action Agency serves all of the county except for the City of Phoenix, which is served by Operation LEAP. The 1970 census showed a population of 967,522, 55% of the state's total. Phoenix residents numbered 581,562, with 385,960 people in the rest of the county. There was a 45.8% increase in population over the 1960 census.

Major industries in the County are manufacturing, retail trade, tourism, governmental activities and agriculture. Per capita income for 1970 was \$3,760, ranking 1st among Arizona's fourteen counties.

It is estimated that 19% of the families residing in the county have incomes under the present poverty index. Labor force participation rate is relatively high compared with the rest of the state, due to large number of work opportunities for women. Unemployment rate for 1971 was 4.5%.

MCCAA has placed a high priority in the area of manpower needs and has established Job Banks and ASES personnel in some of the Area Councils. Housing is a critical area and the agency is involved in 235 Housing and Self-Help housing and initiated new programs in Wickenburg and Guadalupe.

Medical service delivery is being confronted and service to the western portion of the County has been increased. Educational needs in the area of GED, English and Adult Basic Education are being serviced through programs in each Area Council. Operation Tailgate, a project to service the commodity foods program to people without transportation has been successful. MCCAA serves a high portion of Mexican-American peoples.

The following is a listing of programs funded during the program year:

NORTHERN ARIZONA DEVELOPMENT COUNCIL, INC.

P. O. Box 1964
 Flagstaff, Arizona 86001
 Telephone: 774-1895
 Leon Berger, Director

GRANT NO: CG-9004/B 5-1-71 to 2-29-72

The Northern Arizona Development Council consolidates the Community Action programs for Apache, Coconino, Mohave, Navajo and Yavapai counties. The total area is difficult to serve because of the geographical size of 61,192 square miles and a scattered rural poverty incidence that precludes density type programs. The population of the 5 counties is 190,929. The rural areas suffer from unemployment, transportation problems and a difficulty in obtaining social service delivery.

The percentage of the population on welfare ranges from a high of 22% in Apache County to a low of 2.19% for Mohave County. Unemployment ran approximately 5.19% for all counties. The per capita income ranged from a low of \$1861 for Apache County to a high of \$2,579 for Yavapai.

The NADEC Governing Board of Directors is made up of 3 county supervisors from each of the 5 counties. The administering board is composed of members from all counties with representation of approximately 1/3 poor sector, 1/3 private agency sector and 1/3 public sector. Each member county has a County Advisory Council with representation of all major ethnic groups from the public, private agency and poor segments of the community.

In fiscal year 1972 the Council of Governments for District III will become the CEO Grantee and the CAA will become a part of the COG, serving Apache, Navajo, Coconino and Yavapai counties.

**PINAL COUNTY
COMMUNITY ACTION PROGRAM, INC.**

188 South Main
Coolidge, Arizona 85228
Telephone: 723-4121
John Felix, Director

GRANT NO.: CC 7099/F 3-1-71 to 4-30-72

Pinal County covers an area of 5,394 square miles in the south central section of Arizona, Four Indian reservations lie within its boundaries – Maricopa reservation is wholly included, most of the Gila River reservation and part of the Papago and San Carlos reservations. The 1970 census showed 67,916 inhabitants, an increase of 8.4% over 1960.

Most of the economic activity in the county is based on agriculture, mining, and governmental activity. Per capita income for 1970 was \$2,834, ranking 4th among Arizona's fourteen counties.

It is estimated that 31% of the families residing in the county have incomes under the present poverty index. Major areas of hard core unemployment exist among reservation Indians and Negro workers. Agricultural employment has decreased due to mechanization, and of those persons seeking work, most are unskilled. 9.2% of population is on welfare. Unemployment rate is 3.7%.

The Navajo Indian Reservation covers an area of approximately 24,000 square miles in New Mexico, Utah and the northeastern portion of Arizona. Reservation lands extend into Coconino, Navajo and Apache counties. Total population is 127,054 persons, largest Indian tribe in the United States.

Primary sources of income include governmental activities, shepherding, forest and mineral resources and commercial enterprises. Through the efforts of the Navajo people and their tribal council industrial development is proceeding rapidly. The Navajo Indian Irrigation Project, with the first crop year projected for 1976, is expected to provide 8,000 new jobs in agriculture and related commercial activities.

Per capita income from individual sources is estimated at \$831. Total labor force numbered 39,363. Unemployment among the Navajos in October 1971 was estimated at 16,909.

	TOTAL	389,386	49,820	439,206

TRIBAL FUNDING STATUS

Because of the unique legal status of the reservations, the OEO Indian programs are funded directly through the Indian Division of National OEO. The Tribes often cooperate and coordinate their anti-poverty efforts with those of the State and other OEO funded programs. The Tribes can have representation on the District Councils of Governments.

Many Tribal programs are centered around the areas of Manpower Training and economic development, because of the high unemployment rate and lack of job opportunities. However, recent development of mineral resources on some reservation land may ease the unemployment situation.

Educational needs areas are being served with special emphasis on skills training and community college level training. Bi-cultural education to enable the Indian to live either on or off the reservation has become an important educational effort.

Identifying the problem of the alcoholic and rehabilitation are high priority programs where the incidence of alcoholism is high because of sociological problems.

Nutrition is a problem of the Indian engulfed in poverty and efforts are being made to provide adequate diets to the Indian peoples. Medical services provided through the Public Health Service are being improved. Transportation is another problem of the rural, poor Indian.

**SINGLE PURPOSE PROGRAMS
SUPPLEMENTARY AND DEMONSTRATION PROJECTS**

	Federal	Non-Federal
Arizona State University College of Education Tempe, Arizona 85281 Dr. Don O'Beirne, Director CG-9048/B PY 6-30-71 to 3-31-73 #84 Pilot Program	79,970	-0-

A careers opportunity project providing preparation for sixty Indian personnel for positions as teachers. Four regional training centers are established. Trainees will be selected by the education agencies and the community.

Comprehensive Health Planning Council of Maricopa County 1515 East Osborn Road Phoenix, Arizona 85014 Milton Gan, Executive Director CG-9810/B PY 7-1-70 to 6-30-71 #41 Comprehensive Health Services	84,200	26,211
--	--------	--------

The thrust of this proposal is to enable the poor of the community, along with other concerned consumers and providers of health care, to identify means and programs for improving and extending comprehensive out-patient health care services to persons of low income through the modification and reorganization of all present services.

Pascua Yaqui Association 4730 W. Calle Tetakusim Tucson, Arizona 85706 Richard Dolny, Director CG-9675/B PY 10-1-70 to 9-30-71 #36 Housing Services	166,955	41,645
--	---------	--------

The program proposes to train men in the field of construction so that they can meet experience qualifications and build housing at the same time, providing on the job training and construction of homes for low income families.

University of Arizona College of Medicine 1501 North Campbell Tucson Arizona 85724 CG-9875 PY 7-15-71 to 7-15-72	30,000	16,315
--	--------	--------

This program will involve efforts to increase the role of minorities in health professions by seeking out students from minority and poverty backgrounds who have an interest in professional health careers.

**SINGLE PURPOSE PROGRAMS
SUPPLEMENTARY AND DEMONSTRATION PROJECTS**

	Federal	Non-Federal
University of Arizona College of Education Early Childhood Center 1515 East First Tucson, Arizona 85724 OCD-9782 PY 8-1-71 to 7-31-72	14,689	1,096

This program consists of an intensive investigation of the efforts of a planned variation Head Start program, using the Tucson Early Education curriculum.

Arizona Western College P. O. Box 929 Yuma, Arizona 85364 OCD-9790 PY 6-1-71 to 5-31-72	49,920	-0-
--	--------	-----

This program deals specifically with the problems normally encountered by the migrant child upon entering a school system through realistic pre-school training in a head start setting. The project will focus on the problem of the migrant and his family.

National Indian Training Center 2121 S. Mill Ave. - Suite 107 Tempe, Arizona 85281 CG-9649/A PY 7-1-71 to 5-31-72	324,733	-0-
--	---------	-----

The program objectives are to provide Indians with skills to assist them in getting full rights and benefits of all educational programs to which they are entitled. They also encourage Indian parents to contribute to the improvement of schools and evaluate on-going educational programs in the Indian communities.

Dineheiiina Nahiilna Be Agaditahe, Inc. P.O. Box 306 Window Rock, Arizona 86515 Leo Haven, Director CG-9878/D PY 9-1-70 to 11-30-71 Legal Services	1,263,375	-0-
---	-----------	-----

This program provides various legal services for the Navajo Reservation Indians. Included in this would be individual case work for criminal and civil cases. A program of law reform has been instituted and class actions seeking favorable social and legal reform court decision are instigated. The agency is also working with the Legalities of Economic Development and community education.

**SINGLE PURPOSE PROGRAMS
SUPPLEMENTARY AND DEMONSTRATION PROJECTS**

	Federal	Non-Federal
Navajo Community College Navajo Tribal Council Many Farms, Arizona 86053 Ned Hatathli, President CG-9011 PY 6-1-71 to 12-31-72	44,600	-0-

A college project serving 900 students and offering GED, vocational, technical and adult basic education. The project will demonstrate that a community college planned for maximum participation of the poor can be uniquely responsive to the multiple educational and economic needs of the rural community.

Arizona Job Colleges, Inc. 426 W. Cottonwood Lane #84 Casa Grande, Arizona 85222 Dr. Louis Nau, Director CG-9604 PY 8-1-71 to 7-31-73	928,440	-0-
---	---------	-----

The project is to provide a total family residential rehabilitation program to increase the potential of the socio-economically advantaged to participate productively in society. It provides vocational rehabilitation, family counseling, medical services, parent child care, home management, and remedial education skills.

Pima College 2202 W. Anklam Road Tucson, Arizona 85709 HEW/OCD-H-9074 PY 3-1-71 to 2-29-72	40,000	-0-
---	--------	-----

As regional training office for all Head Start programs in the state, this project will provide training services and resources for staff development and program improvement. This includes assisting local centers to assess their training needs, set training goals and design programs to meet such goals.

City of Tempe Tempe, Arizona 85281 CG-9138/A 8-1-71 to 7-31-72	33,000	33,000
--	--------	--------

The objectives of this program are to obtain funding from federal sources and seek technical assistance to staff the project and to provide revolving "seed" capitol funds to implement a business development plan.

Arizona Affiliated Tribes, Inc ICAP 138 West Camelback Road Phoenix, Arizona 85013 Randy Eubank, Director	140,000	-0-
--	---------	-----

ICAP provides a focal point for coordination of Indian Community Action Agencies and provides training and technical assistance to the Indian Tribes, their OEO programs and to the OCD funded Headstart programs.
