ABSTRACT

GRADES OR AGES: Seventh grade. SUBJECT MATTER: Sociology and American history. ORGANIZATION AND PHYSICAL APPEARANCE: The guide covers five units: "Biological Basis of Human Behavior," "How We Become Human," "The Family and Other Socializing Institutions," "Man's Behavior in Groups and Crowds," and "Minority Group Problems." The presentation of the units varies, but each includes objectives, bibliographies, and audio-visual aides. There are also worksheets, role playing discussion questions, and questionnaires. The guide is lithographed and spiral bound with a soft cover. OBJECTIVES AND ACTIVITIES: Behavioral objectives are set out in the introductory material. More detailed objectives are given for each unit. Role playing discussions are the only activities specified. INSTRUCTIONAL MATERIALS: In each unit there are bibliographies for students and teacher and lists of audio-visual aids. For unit five there is also a list of possible resource people, and the appendix includes a general teacher bibliography. STUDENT ASSESSMENT: A pre- or post-test of attitudes is included in the introductory material. (MBM)

FOREWORD

The basic plan for a new seventh grade social studies program was developed during the school year 1968-1969 by the members of an expanded social studies curriculum planning committee representing each junior high school. Members of the committee were Mrs. Frances Fischer representing Oak Grove, Mrs. Mary Jo Malchow for Olson, Miss Patricia Clancy for Penn, and Mr. Roger Erickson for Portland.

During the summer of 1969 a writing team was formed to prepare this guide for the implementation of a totally new program in sociology and American history. Members of the writing team were Mr. Kenneth Rood, Mrs. Mary Jo Malchow, Miss Patricia Clancy, and Mr. Roger Erickson.

BLOOMINGTON SCHOOL PHILOSOPHY

The philosophy of education of the Bloomington Public Schools professes the belief that each child should develop his potential to the fullest, and to meet his intellectual, moral, spiritual, aesthetic, vocational, physical, and social needs as an individual, an American citizen, and a member of the world community.

It believes the following basic principles. We believe in:

- The value of the individual personality.
- The worth of the individual.
- The individual's potentialities.
- The individual patterns of human growth.
- The individuality of learning.
- The value of good mental and physical health of the individual.
- The importance of the moral and spiritual values of the individual.
- The individuals who need to identify with groups.
- The value of creative instruction.
- Continuous educational research and utilization of its findings.
- The value of excellence in all instruction.

BLOOMINGTON GUIDE TO SEVENTH GRADE COURSE: MAN AND CULTURE

PURPOSE

The purpose of this guide is to supplement the guides prepared for the University of Minnesota seventh grade sociology curriculum. It is an attempt to assist the teacher in the use of the materials and not intended to be used without them.

THE SEVENTH GRADE CURRICULUM UNITS CONSIST OF:

1. Teacher's Guide to the Seventh Grade Course on Man and Society

Within this guide you will find goals related to concepts and generalizations, the rationale statement, explanation of the use of inquiry, and a general outline of the course.

2. Overview Resource Unit

This overview is designed to introduce pupils to the course. In it you will find objectives, outline of content, teaching procedures, and materials for instruction.

3. Unit I Resource Unit: Biological Basis of Human Behavior

This unit analyzes different theories of behavior and develops the idea that man's biological nature sets limits to and opens possibilities for his behavior but does not determine it. In this Resource Unit you will find objectives, outline of content, teaching procedures, and materials for instruction.

4. Prepared Reading Materials for Unit I

- a. Selected Readings for Unit I Man's Behavior: The Physical Basis
- b. "The Way We Look" Eva Knox Evans
- c. "More Race Questions"
- d. "Does Race Make a Difference?" May Edel

5. Unit II Resource Unit: How We Become Human (Socialization)

Pupils learn that man's biological nature makes socialization not only possible, but necessary. In the Resource Unit you will find objectives, outline of content, teaching procedures, and materials for instruction.

6. Selected Readings for Unit II

7. Unit III Resource Unit: The Family and Other Socializing Institutions

This unit uses both historical and comparative material from other cultures to teach pupils about family functions and structure. It also develops the idea that most of the social processes found in society as a whole are also found within the family. The Resource Unit contains objectives, outline of content, teaching procedures, and materials for instruction.

8. Selected Readings for Unit III

9. Unit IV Resource Unit: Man's Behavior in Groups and Crowds

This unit analyzes the meaning of institution and focuses upon education as an example of an institution. Included in the Resource Unit are objectives, outline of content, teaching procedures, and materials for instruction.

10. Selected Readings for Unit IV

11. Unit V Resource Unit: Minority Group Problems

This unit focuses upon a study of discrimination against the Negro, but the unit also deals with other minority groups. The Resource Unit contains objectives, outline of content, teaching procedures, and materials for instruction.

12. Selected Readings for Unit V

13. Bloomington's Guide to the Seventh Grade Course of Man and Culture

In this guide you will find the following information about each unit arranged by unit:

- a. Examples of behavioral objectives
- b. Objectives for each unit
- c. A difficulty code for reading levels of the "Selected Readings"
- d. Book resources with difficulty code of reading levels
- e. A list of selections from periodicals and books relating to each unit's objectives
- f. Television guide to selected programs relating to applicable unit concepts
- g. Annotated list of case studies that are related to unit concepts where applicable
- h. Study sheets developed for additional activities. Some include prepared audio-visual materials.
- i. Questionnaires and/or pre and post evaluations to determine student attitudes.
- j. Audio-visual materials guide to multi-media from I.M.C., University of Minnesota, and other sources.

- k. A correlation of United States history materials with each unit.
- l. A list of possible resource people for large and small group presentations.
- m. Tapes of protest music to be used as a supplement where desired by the teacher
- n. Calendar to be used as a guideline
- o. General bibliography for teacher references

BEHAVIORAL OBJECTIVES

In the area of skills it is highly desirable that objectives be behavioral. Since behavioral objectives are stated in terms of what the pupil is doing at the time he is demonstrating that he has achieved the objective, the variety of activities is very great. Therefore we have not prescribed specific mandatory activities; instead we offer several examples of the kind of behavioral objectives the teacher should develop for his pupils in the light of his own judgment, taking into account the abilities of each pupil.

Examples:

1. The student will demonstrate the use of the questionnaire by making up one, testing the items for clarity and validity and then using it to gather data. He will then organize the data in such a way as to reveal intelligible results.
2. The student will demonstrate his understanding of tables, graphs and charts by constructing a table of data and then drawing a graph or chart illustrating the data. He will label all parts correctly and write a brief explanation.
3. Given a piece of literature containing numbered facts, inferences and value judgments, the student will demonstrate his ability to distinguish between them by placing the numbers under the appropriate headings.
4. Given a biased piece of literature, the student will write out or explain the unexpressed basic assumptions (including theories and/or values) behind the bias.
5. The student will show that he can create the following statistical devices: (a) mean, (b) modal, (c) percentile and (d) scattergram.
 - a. Given a set of numerical data the student will find the mean.
 - b. After tabulating the data he will point out the modal or modals.
 - c. He will construct a percentile scale.
 - d. Given two sets of numerical data he will draw a scattergram, labeling it properly and indicating whether the correlation is positive, negative, or zero.

NOTE: A behavioral objective should state, where it is possible to do so, the standard of proficiency desired for acceptability, and the pupil should know in advance what this standard is. We have left this out of the above objectives; what is a reasonable standard for one pupil is unreasonable for others.

OVERVIEW:

Introduction to Human Behavior and
Sociological Reasoning

OVERVIEW

OBJECTIVES

After completing the prescribed course of study for this unit, the student will be introduced to and begin making progress toward the following concepts, generalizations, skills and attitudes.

CONCEPTS

1. Behavior The actions of men in a large number of situations.
2. Conflict The personal and antagonistic struggle over scarce things, material or non-material.
3. Theory An idea that helps us to explain something.

GENERALIZATIONS (including definitional generalizations)

1. Behavior consists of the actions of men in a large number of situations.
2. Human beings react to situations in many different ways.
3. Human relationships involve both agreeing and quarreling.
4. Conflict involves a struggle over scarce things, material or non-material; it is personal and antagonistic.
5. Human behavior is important; social scientists are interested in this behavior.
6. Scientists attempt to explain behavior by developing and testing theories.

SKILLS

1. Classifies data
2. Sets up hypotheses or theories and figures out ways of testing them

ATTITUDES

Scepticism of "conventional truths" demands that widely-held and popular notions be judged in accordance with standards of empirical validation.

The test on the following pages was prepared by Leone Crowlie and may be useful if given as a pre-test or attitude survey. Use in any part or manner suitable to your purposes.

MAN AND CULTURE - TEST I

To the student: We are interested in your opinions and reactions to the statements on this test. The test will not be used by your teacher in giving you a grade. Your teacher and your classmates will never know how you react to these statements. So please react to them as honestly as you can.

Directions: Please read each of the statements carefully. Find the space on the answer sheet that has the same number as the statement to which you are reacting. Carefully blacken in all of the space for the number of the answer you decide upon. Your teacher will put this table on the chalkboard for you to use in marking the answer of your choice:

1 	2 	3 	4 	5
"Strongly Agree"	"Agree"	"Don't Know, Not Sure"	"Disagree"	"Strongly Disagree"

If you "Strongly Agree" with what the statement says, mark space number 1 - "Strongly Agree." If you "Agree" with the statement, but are not convinced that you would agree with the statement all of the time, mark space number 2 - "Agree." If you completely disagree with what the statement says, mark space number 5 - "Strongly Disagree." If you would disagree with the statement in most situations, mark space number 4 - "Disagree." If you are unsure of your reaction to a statement, or if the statement is unclear to you, mark space number 3 - "Don't Know, Not Sure." Follow along very carefully as you go over the following examples in class.

EXAMPLE A. Social Studies class is enjoyable.

1	2	3	4	5

The person who reacted to this statement agreed with it, but he did not strongly agree with it. Perhaps he said to himself, "Yes, I usually enjoy social studies, but once in a while it is not very interesting and I don't enjoy it then."

Do Example B and then discuss with the test administrator why some of you reacted with 1 - "Strongly Agree," while others gave different reactions.

EXAMPLE B. Dogs make good pets.

1	2	3	4	5

NOTE: Work quickly. Answer all questions. If you should decide to change an answer, be sure that you completely erase your first choice.

MAN AND CULTURE

Test I

Be sure to follow carefully the instructions your teacher has given you.

1. Most people who end up in prison are just naturally bad people.
2. Even if an Indian boy were brought up in the city he would probably be a better army scout than a white boy.
3. Even if I had been lost in the woods as a baby and I had never seen another human being, I would still act a lot like I do now.
4. White people are naturally superior to people of other races.
5. I usually act much the same no matter what situation I'm in.
6. Some people in our school, like the principal and assistant principal, really have very little to do with what I learn.
7. When a school is run efficiently the students are happier.
8. I probably could learn a lot more in school if there weren't so many rules to worry about.
9. Every organization must have leaders if it is to run well.
10. We would probably get along better if we didn't have to associate with other people.
11. If a white man's skin turned black, he would soon learn to behave like a Negro.
12. If all students studied as much as the best students, all students would get "A" grades.
13. Most kids in the world would like to live very much as I do.
14. Some African girls wear rings in their noses for the same reason that American girls wear make-up.
15. Only uneducated people would allow themselves to be ruled by a dictator.
16. Civil rights laws can end prejudice.
17. Voting in school board elections is foolish because nothing really changes no matter who is elected.

18. I'm afraid that the colored races will take over the world if we don't do something soon.
19. The only reason that primitive tribes live as they do is that they don't know any better.
20. Segregation of Negroes harms the whites as well as the Negroes.
21. Probably George Washington was born naturally honest.
22. Some people are born to lose.
23. Artists and musicians inherit their talents from their parents.
24. People of different races naturally act very differently.
25. If the water was of better quality in France the French would probably drink less wine.
26. Brothers and sisters often act alike because they have the same blood.
27. Most Jews are born with the ability to make more money than other people.
28. People naturally want to live with their own kind.
29. Rules are good because they tell us how we are expected to act.
30. The Eskimos have few schools. This probably means that most Eskimos have no education.
31. Working in the hot sun doesn't bother Negroes as much as it does white men.
32. Everyone is born with a personality that is difficult to change.
33. If there were no police or judges or jails people would do whatever they wanted to do.
34. Most people don't have to learn how to behave, they naturally do what is right.
35. Life would be better if there were no laws.
36. Most Negroes have more talent with Jazz music than people of other races.
37. Segregation probably cannot end until most whites accept people of other races as equals.
38. We learn how to live from many different people.
39. An orphanage is really like a family.
40. We probably like people that we know better than we like people that we don't know.
41. Everyone really wants to be rich.

42. Irishmen were discriminated against when they first came to America because they weren't as smart as they are now.
43. Most kids will grow up to be like their parents.
44. If I had grown up in Abraham Lincoln's time I would really be very much the same person that I am today.
45. People I like agree with me most of the time, while people I dislike do not.
46. I can't help behaving as I do because my behavior was determined before I was born.
47. When I am with a group of people, I usually do what the group wants to do.
48. The civil rights movement is probably led by communists because Negroes are not good leaders.
49. Segregated schools probably help to cause many whites to believe that they are superior to Negroes.
50. Human children learn to take care of themselves about as soon as most young animals.
51. There probably would be no human beings today if the family had not developed.
52. If my grandparents had come from Sweden, it would be easy for me to learn the Swedish language.
53. If Americans took over the Chinese government, most Chinese would soon act like white people.
54. Race riots are never justified.
55. You can have lots of fun at football games because few people know who you are.
56. I learned to behave as I do from my family and my friends.
57. Each of the people I know is different from all other people in the world.
58. We are educated when we graduate from high school.
59. Probably the most important things that we learn are not learned in school.
60. A woman's place is in the home.
61. Children should be taught to obey their parents at all times.
62. If all kids were brought up in the same way, they would probably behave exactly alike.
63. If I had different friends I would probably be a very different person.

TAPES

- T1480 Lesson 21 - Reading and Listening Between the Lines
Making inferences, or reading between the lines, is demanded in active, attentive reading and listening to get the full meaning of the message. The narrator helps the listener-reader to make inferences as to mood, tone, setting, and intent, and guides him through related exercises
- T1482 Lesson 23 - Keeping Up With the News
The various ways in which we keep up with the news are discussed and television, the newspaper, and other news periodicals are discussed as to type and completeness of news coverage.
- T1540 An Introduction to General and Specialized Reference Books - I-J
- T1543 The Approach to Reference Books and Encyclopedias - I-J
- T1545 Periodicals and the Readers' Guide to Periodical Literature - I-J
- T1546 The Card Catalog - I-J

KITS

- K3129 Graph and Picture Study Skills Kit - grades 4-8 (Use 6 weeks)
Students learn to read and interpret such illustrative materials as photographs, editorial cartoons, graphic forms, charts and diagrams. These visual aids--common to texts, newspapers, and other media--are used to clarify the various kinds of subject matter.
- K3148 How to use the Readers' Guide to Periodical Literature and the Indexes - grades 6-12 (Use 1 month)
- K3098 Taking Better Notes

UNIT I

BIOLOGICAL BASIS OF HUMAN BEHAVIOR

UNIT I BIOLOGICAL BASIS OF HUMAN BEHAVIOR (Man's Behavior, the Physical Basis)

OBJECTIVES

After completing the prescribed course of study for this unit, the student will be introduced to and begin making progress toward the following concepts, generalizations, skills, and attitudes.

CONCEPTS

- | | |
|---------------------------|--------------------------|
| 1. Race | 12. Brain |
| 2. Nationality | 13. Intelligence |
| 3. Culture | 14. Growth |
| 4. Norms | 15. Biology |
| 5. Values | 16. Average |
| 6. Biological needs | 17. Theory (Explanation) |
| 7. Learned behavior | |
| 8. Species (human beings) | |
| 9. Communication (speech) | |
| 10. Reflex | |
| 11. Instinct | |

GENERALIZATIONS

Those new in this unit:

1. Man's biological nature (his inheritance) sets limits to and opens possibilities for his behavior, but does not determine it.
2. Men are extremely plastic; they are able to satisfy basic needs in a variety of ways.
3. Human beings are members of the same species; they are far more alike physically than they are different.
4. Humans, as a single species, possess traits which occur only in man and not in other animals.
5. Human children mature more slowly than do the young of other species.
6. Most human behavior is learned behavior. Reflexes serve mainly a protective function and have little influence over most important types of behavior.
7. Although human beings have the same basic physical inheritance, each human has unique physical characteristics.
8. Physical traits tend to set off some groups of people and to influence their behavior.
9. Separation of human beings into races is done on a physical basis; this separation tends to emphasize the differences and de-emphasize the similarities among humans.
10. Social scientists are limited in the kinds of experiments which they can conduct.

Generalization reviewed from Overview:

Human behavior is important, and social scientists attempt to explain behavior by developing and testing theories.

SKILLS

The broad skill area toward which teaching is ultimately directed is underlined. Specific skills taught in the unit are in plain type.

Attacks Problems in a Rational Manner

1. Sets up theories or hypotheses and figures out ways of testing them.
2. Sets up simple experiments.
3. Defines terms in order to avoid confusion.

Gathers Information

1. Reads material for a specific purpose, to answer questions.
2. Adjusts rate of reading to purpose and type of reading.
3. Increases his understanding of social studies vocabulary by studying the context within which words are used.
4. Uses dictionary effectively. (Uses guide words at tops of pages)
5. Listens for the main idea.
6. Identifies main ideas and supporting details.

Organizes and Analyzes Information and Draws Conclusions

1. Uses simple statistical devices for analyzing data.
2. Checks hypotheses against data.
3. Generalizes from data.
4. Draws tentative conclusions from evidence from a variety of sources.

Works Effectively With Others

1. Participates actively in group but does not try to dominate it.
2. Helps create and preserve an atmosphere in which all members of the group feel secure and anxious to participate.
3. During discussions, keeps to the point and helps move the discussion along.

ATTITUDES

1. Is committed to the free examination of social attitudes and data.
2. Appreciates and respects the cultural contributions of other countries and races.
3. Is sceptical of "conventional truths;" demands that widely-held and popular notions be judged in accordance with standards of empirical validation.
4. Is sceptical of the finality of knowledge; regards generalizations and theories as tentative, always subject to change in the light of new evidence.
5. Believes that the social sciences can contribute to man's welfare by providing information and explanatory generalizations which help him achieve his goals.
6. Takes brief outline notes on material presented in oral activities.
7. Interprets tables and graphs. (Studies title and headings, and the legend on a graph. Notes relationships.)
8. Increases the accuracy of his observations by use of an observation schedule.

Evaluates Information

1. Checks on the completeness of data and is wary of generalizations based on insufficient evidence.
 - a. Tries to think of other causative factors.
 - b. Checks on the representativeness of sample or population used in study.
 - c. Identifies card stacking.
2. Compares sources of information.
3. Identifies basic assumptions (including theories) which are expressed or unexpressed.
4. Distinguishes between difficulty of proof. (Differentiates among fact, inference, and value judgment.)

DIFFICULTY LEVELS OF SELECTED READINGS

I. "Nature's Five Gifts to Man" Carleton S. Coon, <u>The Story of Man</u> , New York. Knopf. 1954. pp 14-19	Medium

VII. "The Way We Look"	Easy
VIII. "Does Race Make a Difference?"	Medium
IX. "More Race Questions"	Difficult

NOTES ON THE BOOKLISTS

The booklists for students were compiled chiefly from the Penn Junior High School library. While many of these books will be found in the other junior high school libraries, the teacher will have to supplement the lists with books from his own school library.

Only rarely can any of these books be used in their entirety; in most cases only a small portion of a book will be usable for any given unit, but other portions of the same book will be usable for other units. Thus, although books listed in Unit 2 on socialization are usable in Unit 3 on the family, they are not listed again in Unit 3.

As the teacher becomes better acquainted with these books and those he may add to the lists, he can refine and update the lists, weeding out those least usable, and indicating which portions of each book are most appropriate to each unit.

Unit I

IMC Films

- F1173 The Color of Man - J-S (12 min. color)
This film gives the scientific explanation for racial skin pigmentation utilizing both photographic and cartoon techniques. (Validity questioned by Science Department may be useful for critical analyses)
- F3176 Endocrine Glands - How They Affect You - J (15 min. b/w)
In this film, all the endocrine glands are explained with the help of animation. Each endocrine gland is located and the function of its important hormones is clearly shown. Experiments, varying the amount secreted by some hormones, are made, and the effects on the body and personality are studied.
- F3087 Laws of Heredity - S (15 min. color)
How does "like beget like"? The film answers this question by showing, with clear, simple logic, that inheritance is determined in statistically predictable ways. It presents the insights and conclusions about inheritance that were first achieved by Gregor Mendel. The laws of heredity are the cornerstones of the modern science of genetics, and necessary to our understanding the process of natural selection.
- F9058 The Pygmies of Africa - I-J-S (20 min. b/w)
Describes the unceasing search for wild fruits and vegetables; illustrates techniques for stalking game, and the construction of hunting weapons. Shows basket-making, shelter construction, ivory collecting, bartering and unusual sacrificial ceremonies.
- F9070 What Color Are You? - I (15 min. color)
Why don't all people look alike and have the same color skin? This film explains how mutations sometimes occur in genes to produce different traits in an individual and how the changed individual will survive.
- F8085 Monkeys and Apes: An Introduction to the Primates - P-I (11 min. color)
The monkeys, apes, and their relatives make up a group of animals called the primates. Primates live in the warmer regions of the world. They have deep-set eyes in the front of their heads. Their hands have long flexible fingers, with flattened fingernails, and a thumb that helps them grasp things. Because of their hands, they are able to climb easily, and many live in trees.

Exploring the Myths of Prejudice, Dr. Ethel J. Alpenfels

This set of two color sound filmstrips brings to light a variety of the myths and misconceptions which underlie racial prejudice. The narrative points out that all human beings are basically alike and that prejudices are the learned results of an individual's social environment.

FS1422 Making Decisions - J-S

Points out that everyone must make decisions and indicates some psychological blocks to making decisions. Stresses the importance of admitting to a wrong decision and sticking to a right decision.

INTRODUCTION TO THE HISTORICAL CORRELATIONS

Each of the five units lend themselves readily to the interjection of American history concepts. Some ideas will be listed at the end of each unit and are meant only as guidelines and not limits on the teacher. No doubt the teacher will find many instances in which he will want to include his wealth of American history knowledge.

CORRELATION OF HISTORICAL CONCEPTS FOR UNIT ONE

Light in the Forest by Conrad Richter is used in this unit, either in part or the whole novel. When introducing this novel, possible historical background would include exploration, colonization, and the French and Indian Wars. Sources in addition to the text, Story of America, Laidlaw that may be useful are:

UNIT II

HOW WE BECOME HUMAN (Socialization)

UNIT II HOW WE BECOME HUMAN (Socialization)

OBJECTIVE

After completing the prescribed course of study for this unit, the student will be introduced to and begin making progress toward the following concepts, generalizations, skills and attitudes.

CONCEPTS

1. Socialization
2. Culture
3. Communication
4. Role
5. Social Control
6. Identification
7. Society
8. Self

GENERALIZATIONS

Those new in this unit:

1. Man's biological nature makes socialization not only possible, but necessary.
2. Language facilitates communication, the development of an on-going culture and reasoning.
3. Much of man's behavior is acquired through a process called socialization (building group values into the individual.)
4. Through the process of socialization individuals become members of a group by learning role expectations and to perform a wide variety of tasks.
5. Social sanctions, both formal and informal, are used in the process of socialization and later to maintain social control; however, social control is also furthered by internalized values which result from socialization.
6. Socialization takes place through a number of social agents.
7. The process of socialization is a continuous process; the individual acquires new values and patterns of behavior and a sharp change in his life may result in re-socialization.
8. Through the process of socialization, each individual acquires a self.

Those reviewed from unit I:

1. Humans as a single species possess traits which occur only in man and not in animals.
2. Men are extremely plastic. They are able to satisfy basic needs in a variety of ways.
3. Man's biological nature (his inheritance) sets limits to and opens possibilities for his behavior, but does not determine it.

SKILLS

1. Uses Readers' Guide to Periodical Literature.
2. Evaluates social science data by checking on the completeness of data.
3. Evaluates the usefulness of fiction materials for social science.
4. Organizes and evaluates data from autobiographical and other introspective sources.

ATTITUDES

Is curious about social data and wishes to read and study further in the social sciences. (To be developed by unit as a whole.)

"The Outsiders"

CASE STUDIES OF PEOPLE AND CULTURES

SOURCE: Anthropology in Today's World
American Education Publications, Cost 30¢

1. "An Eskimo Views the U. S."
The clock and its importance to American life is reflected in this quote from an Eskimo, "If time worship can be considered a religion, Americans may be the most religious people on earth."
2. "Why the Natives Tried to Buy President Johnson"
It really happened in 1964. New Guinea natives raised over \$82,000 to buy President Johnson as their leader. Should we have sold?
3. "Change vs. Tradition in Saudi Arabia"
You've come a long way baby? What should a woman's role be in a tradition bound country influenced by western ideas of a woman's place in society?
4. "Undergroup version of 'Davy Crockett'".
This case introduces the idea of subculture by tracing a comic version of the Davy Crockett song as it diffused through the children's "underground" communication system and turned up in countries around the world.
5. "Are U. S. Teens a Breed Apart?"
Are teenagers in the mainstream of American society or are they part of a unique subculture?
6. "Can Israel Heal Its Cultural Split"
Is it possible for Jews to discriminate against other Jews? An understanding of subcultures in Israel provides part of the answer.
7. "Seneca Indians Cling to Tribal Unity"
Can the dikes of a subculture hold against the power and influence of the dominant culture? Specifically, could the Seneca Indians prevent the Federal government from flooding 10,000 acres of their land by building a Federal dam in 1961? Excellent case to use along with "The Cherokee Incident", Selected Case Studies in American History, Gardner, Berry-Olson, pages 114-126.
8. "America Sets the Global Beat"
The Americanization of world culture -- Americanization or vulgarization?
9. "Japan's Emperor and the End of a War"
An understanding of Japanese values and culture may have hastened the surrender of Japan and saved American lives.
10. "A Broken Engagement; A Clash of Customs"
Marriage customs can be deadly or the Albanian dis-engagement.

WORKSHEET FOR STATUS

(Slides will be included)

You will be shown two series of photographs. In the first series there are eight pairs of photographs. These photographs show different people from our society. You are to determine for each pair of photographs which of the two people is considered by the society to be more important and is more respected by other members of our society. WHAT ARE SOME CLUES THAT MAY HELP YOU TO MAKE YOUR DECISION?

Circle the letter of the photograph of the person who is more respected and is considered to be more important.

1. A B

5. A B

2. A B

6. A B

3. A B

7. A B

4. A B

8. A B

In the second series there are seven pairs of photographs showing different people from other cultures. Decide which person in each pair of photographs has the greatest prestige and is the most important. Circle the letter of the photograph showing the more important person.

1. A B

5. A B

2. A B

6. A B

3. A B

7. A B

4. A B

This exercise is designed to help develop the concept of status, and to help students gain an understanding of the ways in which status is determined in different societies. The photographs and exercise should be followed by a discussion; some of the questions for this discussion might be as follows:

1. Which of the two series of photographs did you find easier to work with? Why?
2. Why was it more difficult to judge the importance of the people in the second series of photographs?
3. Does this tell us anything about the way different societies rank people?
4. What can we say about the way people are recognized to be more or less important in a particular society?

In addition, at some point during the discussion the term status should be introduced. It would probably be best to wait until after the students have identified a variety of ways in which status is determined before introducing the term.

ROLE EXPECTATIONS WORKSHEET

To introduce the concept of role expectations show the students this series of cartoons. Ask them to speculate on how they would react to the same situations if they were Linus. And ask them why they think he reacted in the ways he did. Then ask the following questions:

What would you think of Linus if he WANTED to go to dancing school?

- if he WANTED to walk behind Lucy or any other girl, instead of beside her or in front of her?
- if he WANTED to be a perfect gentleman?
- if he WOULD RATHER get married than join a circus?

Why would you think of him in that way?

Do you think he will ever want to dance, respect women, get married?

If so, why will his attitude change? What things will affect his attitudes?

Is Linus learning in these cartoons? What things is he learning? How is he learning them?

**DON'T BE SILLY, YOU'LL LEARN TO
LOVE DANCING SCHOOL!**

**WHEN A GUY WOULD RATHER GET MARRIED
THAN JOIN A CIRCUS HE'S LIVED TOO LONG.**

DON'T EVER ASK A LADY HER AGE!

**WHEN INDIANS WALKED TOGETHER
THE BRAVE ALWAYS WALKED IN FRONT.**

Unit II: Socialization

Concepts: Norms, Accomodation, Social Control, Role Perception

DR. HEIDEGGER'S EXPERIMENT

by Nathaniel Hawthorne

1. Describe the structure of Dr. Heidegger's group.
2. Notice the description of each person's character given by Dr. Heidegger. Are they ordinary people? How does each person react when his faults are revealed?
3. Why do you suppose the people react as they do when Dr. Heidegger shows them the rose and describes his experiment?
4. What social pressures are acting upon the group?
5. Why does Dr. Heidegger feel he has chosen the right people for his experiment? Do you agree with him?
6. How do the people react when they have drunk from "the Fountain of Youth"? Is their behavior what you would expect?
7. How do you suppose these people would have reacted if they had been involved in this experiment on an individual basis? Would they have acted differently if this was done with a group of total strangers?
8. Do you believe that the people actually grew younger during the experiment? Support your answer.
9. Why does Dr. Heidegger suggest establishing a set of rules before beginning the experiment? Are his suggestions followed?
10. What can be learned from this experiment? Can this be related to real situations? Explain.

Unit II

IMC Films

- F4067 Huckleberry Finn: What Does Huckleberry Finn Say? - S (27 min. color)
The noted author, lecturer, and critic, Clifton Fadiman, as narrator, takes the intellectual content of the novel as a whole. He points out that Huckleberry Finn can be viewed from three angles: as an adventure story, as the picture of a world, and as a drama of moral conflict. Scenes depicting the relationships between Huck and Jim, Huck and Pap; and Huck and the Grangerford and Shepherdson families delineate the basic structure of the novel and help place it in proper perspective for the student.
- F3159 Debt to the Past: Language and Communication - I-J-S (17 min. color)
Depicts such varied means of communication as spoken, unspoken and written language. Presents three stages in the development of written language? Pictographic, ideographic and phonetic. Discusses phonemes and the history of the alphabet. Demonstrates the power of language for good and evil, and stresses the need for man to use the great gift of language for worthy and constructive purposes.
- F8073 Growing Up, Growing Older, P-I (8 min. color)
This animated film serves to motivate discussion about the various aspects of growing up and growing older. It traces the life of one person from infancy to old age. The film is designed to help the child become aware of the continuity of life and of his changing roles and increased responsibilities as they relate to the change in his maturity.

UNIT III

THE FAMILY AND OTHER SOCIALIZING INSTITUTIONS

UNIT III THE FAMILY AND OTHER SOCIALIZING INSTITUTIONS

OBJECTIVE

After completing the prescribed course of study for this unit, the student will be introduced to and begin making progress toward the following concepts, generalizations, skills and attitudes.

CONCEPTS

1. Social structure
2. Social function
3. Nuclear family
4. Extended family
5. Social process
6. Conflict
7. Competition
8. Domination--submission
9. Accomodation
10. Institution
11. Status

GENERALIZATIONS

Those new in this unit:

1. Ways of living differ from one society to another and within the same society; family functions may vary somewhat, but families everywhere fulfill a few basic and significant functions.
2. Each type of family structure imposes a different role relationship and has unique consequences.
3. Changes in the structure and functions of families occur in a number of ways.
4. All institutions in a society are interrelated; because of these interrelationships, a change in one institution is likely to affect others.
5. Most of the social processes found within the larger society are found also within the family.

Those reviewed from units I and II:

1. Much of man's behavior is acquired through a process of socialization.
2. Through the process of socialization individuals become members of a group by learning role expectations and to perform a wide variety of tasks.
3. Socialization takes place through a number of social agencies.
4. Social sanctions, both formal and informal, are used in the process of socialization.
5. Men are extremely plastic. They are able to satisfy needs in a variety of ways.

SKILLS

1. Interprets tables and graphs.
2. Constructs charts.
3. Sets up hypotheses and tests against data.
4. Generalizes from data.
5. Checks on the completeness of data.
6. Increases accuracy of observations through the use of questionnaires.
7. Increases accuracy of observations through the use of content analysis.

ATTITUDES

1. Is curious about social data and wishes to read and study further in the social sciences. (To be developed by the unit as a whole.)
2. Is sceptical of conventional truths and demands that widely-held and popular notions be judged in accordance with standards of empirical validation.
3. Is sceptical of the finality of knowledge; considers generalizations and theories as tentative, always subject to change in the light of new evidence.

ROLE PLAYING DISCUSSION QUESTIONS (Study Sheet)

Unit III: Family

Concepts: Role, Role Expectancy, Role Perception, Conflict

I REMEMBER MAMA

by John Van Druten

1. How would you assess Mama's status in this family?
2. If Uncle Elizabeth had died, and/or if Mama had reacted differently, to Mr. Hyde's actions would her image in the play have changed? Explain.
3. Compare the role of Mama to that assumed by Papa. Comment on the desirability of this situation.
4. What role do you think each parent should assume in a family?
5. The conversation between Mama and Katrin centers mainly around money and riches. What value does each character place on these items?
6. What attitude do each of the following people express toward Mr. Hyde: Mama, The Children, Aunt Jenny.
7. What can you learn about each character and his attitude toward Mr. Hyde?
8. What can be learned about Mama from her interactions with those around her? Does her behavior effect those around her?
9. What conflict must she resolve within herself? Who helps her make this decision?
10. Is this play an example of a typical American family? Why?

ROLE PLAYING DISCUSSION QUESTIONS (Study Sheet)

Unit III: The Family

Concepts: Family functions, Social functions, Social processes, Socialization, Accommodation.

THE BIG WAVE

by Pearl Buck

1. This play gives some very close and personal views of Japanese life. Make a list comparing the family customs and attitudes mentioned in this play. Compare the families of Kino, Jiya, and your own. Show both differences and similarities.
2. Make a second brief listing of the factors which cause the differences in these family customs.
3. What attitude does each boy in this story hold toward the sea? Cite examples and tell why you think he feels as he does.
4. Jiya is deeply saddened by the death of his parents. In how many different ways does the big wave effect his life?
5. In what ways might Jiya have been different if the big wave had not come when he was so young?
6. How well did Jiya adjust to his new life? Would you say he was re-socialized.
7. Notice the ideas and values held by the following people: Old Gentleman, Father, Sitsee, Mother. What in your opinion is the importance of the role played by each of these people?
8. What basic family functions do Kino's parents fulfill for Jiya? Do you think the Old Gentleman could have done this?
9. The belief that "life is stronger than death" is expressed by Kino's father. Do the other actors in the play believe this?
10. Is the idea that "life is stronger than death" unique to the Japanese culture? Support your answer.

Unit III

IMC Films

- F3208 Family in Tokyo - P-I-J-S (15 min. color)
To show how an average middle-class Tokyo family lives, featuring some customs that are similar to ours, and some that are different. Sequences include the usual daily things that a father and mother and two children do from the time of close of school in the classroom through shopping, meal preparation, recreation, dining, study time, and preparation for bed.
- F3138 Japanese Mountain Family - I (15 min. color)
Uji is the son of a woodcutter in modern Japan. His family lives in the forested mountain country. During a holiday, Uji goes to cut wood with his father -- and later is able to follow the wood to a village, where he sees it is being made into pianos. The film illustrates very well the warm family spirit, and the details of rural life in contemporary Japan.
- F1282 Mothers - What They Do - P-I (10 min. color)
This film is concerned with the mother's function whether she works full or part-time, outside the home or entirely within it. The narration defines the primary reasons and circumstances that motivate three mothers. In summing up, the economic value of a mother's job is another element provided to initiate thought in the young.
- F1181 Our Family Works Together - P-I (11 min. color)
Mike and Susan enjoy helping around the house. Today they are very excited about the big surprise for their father and are eager to help mother prepare for it. The film stresses the importance of the family playing together and working together to make the home a pleasant place in which to live.
- F3146 Russian Life Today - J-S (19 min. color)
Shows the people of Soviet cities and rural communities at work, in school, and at home. Scenes of their stores, markets, transportation, and public buildings include unique shots taken inside homes, hospitals, factories, schools, art galleries, and the Kremlin. Views of the farming communities and village markets show a different side of Soviet life. Both winter and summer scenes are included. Government sequences feature a celebration on famous Red Square. This film will be of interest to all groups, and its portrayal of a society under rigid state control will make it useful to teachers.
- F3197 Southeast Asia Family - I-J (15 min. color)
The film follows the activities of the Sen family who are rice farmers. Everyone in the family shares in the work. The film brings the experience of these far-off lands, and especially the family life in Southeast Asia, into the classroom.

- F3145 Spanish Community Life - I-J-S (15 min. color)
The story of a farm family and their pueblo near Madrid. Here the farmers live in the town, going out to work each day in the fields which surround the village. In many ways the pueblos remain primitive and unchanged.
- F3206 U.S.S.R. - Family of Tashkent - I-J-S (20 min. b/w)
In simple, unpretentious terms, this film demonstrates how change has come to an area which, until 40 years ago, had altered little since the days of Mohammed. Severe in its emphasis on careful, accurate reporting, this unusual motion picture shows us how a self-contained community works, by following the activities of a village foreman. The viewer gets a clear sense of the life of these people -- their dignity, charm and their ability to blend the old with the new.
- F3210 West German Family - I-J (15 min. color)
Everyday activities of the Schmidts, a typical working class family living in Sindelfingen, a small city in West Germany, are followed in this economic geography film. Herr Schmidt, his wife, and two sons and grandchildren represent three generations and illustrate the modern West Germany, two characteristics of German philosophy dominate the need for owning a piece of land of their own, and the desire for family unity or the atmosphere which they call Gemutlich.
- F9080 Boy of Southeast Asia, I-J (17 min. color)
Life on a rice farm in Southeast Asia calls for great cooperation on the part of all members of a family. Geng, the young son in a typical home, helps his family in many ways. As he and his brother go to school, we see something of the countryside of Southeast Asia. At school, we visit a science class. We see Geng and his classmates play several games and stop for a refreshing drink of fresh coconut milk. After school, Geng helps his family again.

K4025 The Tuned Out Generation

Takes dead aim at the idea of separateness of youngsters and their parents by focusing not on the ways the generations differ, but rather on the ways they are alike. Much of this program is built on actual live interviews with dozens of adults, who speak without inhibition about their own attitudes and toward teenagers. Structured to help both teenagers and adults gain new insights into and compassion for the "other" generation. Part I - 15 min. Part II - 13 min.

UNIT IV

MAN'S BEHAVIOR IN GROUPS AND CROWDS

UNIT IV MAN'S BEHAVIOR IN GROUPS AND CROWDS, (Our Behavior in Groups and Crowds)

OBJECTIVES

After completing the prescribed course of study for this unit, the students will be introduced to and begin making progress toward the following concepts, generalizations, skills, and attitudes.

GENERALIZATIONS

1. Those new in this unit:

1. Institutions are a basic and universal way that behavior is organized in every society.
2. All societies have ways of educating children, although the ways of doing so differ.
3. Large groups are frequently organized as bureaucracies in order to accomplish goals; the behavior of individuals is affected by the formal rules of the bureaucracy.
4. The structure of bureaucracies often causes problems which block achievement of goals and causes dissatisfaction among those who work in the bureaucracy.
5. All behavior in bureaucracies cannot be accounted for by the formal system. Much patterned behavior occurs as a result of spontaneous interaction of people within the organization. This is called the informal structure.
6. Members of a small group influence the behavior of other members by setting up and enforcing norms for proper behavior.
7. The behavior of people in crowds differs from their behavior in institutions.

2. Those reviewed from units one to three:

1. All institutions in a society are interrelated; because of these interrelationships, a change in one institution is likely to affect others.
2. Socialization takes place through a number of social agencies.
3. Social sanctions, both formal and informal, are used in the process of socialization and later to maintain social control; however, social control is also furthered by internalized values which result from socialization.

KEY CONCEPTS

1. Institution
2. Bureaucracy
3. Informal structure
4. Formal structure
5. Crowd

SKILLS

1. Sets up hypotheses and tests against data.
2. Sets up simple experiments to test hypotheses.
3. Interprets tables and charts.
4. Increases the accuracy of his observations through the use of questionnaires.
5. Uses effective interview techniques.

ATTITUDES

1. Is curious about social data and wishes to read and study further in the social sciences. (To be developed by the unit as a whole.)

Unit IV

IMC Films

- F3029 Everyone Helps in a Community - P (13 min. color)
The central concepts are two: the interdependence of people in a community, and the benefits of a division of labor. The film emphasizes that in a modern community each person specializes in what he can do best. Simple economics are introduced through the payment for goods and services.
- F4050 The Twisted Cross - J-S (55 min. 2 reels, schedule for use 2 days-b/w)
The rise and fall of a dictator is seen in this story of Adolf Hitler and the Nazi movement, as recreated almost entirely through captured German film.
- F8051 A Short Vision - J-S (6 min. color)
Powerful portrayal of the effects of a bomb exploded over a sleeping city, destroying all life -- the peaceful sleepers, the apprehensive wakeful, even the animals of field and forest. Unique visuals.

UNIT V

MINORITY GROUP PROBLEMS

UNIT V MINORITY GROUP PROBLEMS (Intergroup Relations)

OBJECTIVES

After completing the prescribed course of study for this unit, the student will be introduced to and begin making progress toward the following concepts, generalizations, skills, and attitudes.

GENERALIZATIONS

1. Those taught for the first time in this unit:
 1. Differential treatment of individuals because they are members of a particular group presents a problem for our society because of the conflict with our basic cultural values and because of the wide-ranging effects of that discrimination on society as a whole and on individual members of the society.
 2. The nature of discrimination and prejudice against a specific group is the result of particular group interactions over time.
 3. Groups may engage in power conflict; one group tries to dominate another in order to take something from it, such as its labor or wealth.
 4. People try to work out rationalizations for behavior which is inconsistent with their basic values. Racism is a relatively recent development which has served as a rationalization for discrimination against other races.
 5. Racial beliefs involve strongly-held attitudes which affect behavior both at the conscious and unconscious level.
 6. Frustration may result in aggression; when cultural norms are strongly opposed to aggression toward certain people (e.g. parents) or when people are frustrated by events beyond their control or the control of people they know, the aggression may be turned against others who become scapegoats.
 7. Authoritarian personalities tend to be conformist, to use stereotyped thinking, and to project their own traits which they consider desirable onto other people; many prejudiced people are authoritarian personalities.
 8. An individual brought up in one culture and then thrust into another faces serious problems of adjustment to the new culture; the resulting culture conflict involves mental conflict and tension.
 9. Discrimination against a minority group tends to isolate members of the group and promotes retention of their cultural values and norms.
 10. Some members of minority groups have exhibited hatred of their own group; they have learned (been socialized) to accept the majority group's perceptions of their own minority group.

11. Frustration and/or self-hatred or self-doubts may lead to apathy.
12. People do not work actively in voluntary organizations unless they have a sense of group pride, of positive identification with the group.
13. The development of group pride, positive identification with one's group, is essential to determined efforts to achieve an end to discrimination.
14. The unequal distribution of power reflects the fact of political organization; individuals join into aggregates (parties, interest groups, etc.) to increase their political power by joining it with others.
15. Discrimination against a minority group tends to isolate members of the group and promotes retention of their cultural values and norms.
16. Changes in a caste system result from a combination of economic and ideological factors.
17. The exercise of freedom is culturally determined; the individual has to be taught what the options are, how one goes about exercising them, why he should exercise them, etc.
18. Any decision is in part a product of the internalized values and perceptions of the person making a decision.
19. Because discrimination precedes prejudice (historically and in most individual cases) it is not necessary to destroy prejudice first in order to bring about an end of most kinds of prejudice-producing discrimination.
20. The people of the world are interdependent.
21. Other things being equal, prices fall if supply exceeds demand at a given price.

2. Those reviewed from earlier units:

1. Human beings are members of the same species; they are far more alike physically than they are different.
2. Separation of human beings into races is done on a physical basis, this separation tends to emphasize the differences and de-emphasize the similarities among humans.
3. Much of man's behavior is acquired through a process called socialization (building group values into individual).
4. Through the process of socialization individuals become members of a group by learning role expectations.
5. Social sanctions, both formal and informal, are used in the process of socialization and later to maintain social control.
6. Family functions vary somewhat, but families everywhere fulfill a few basic and significant functions.
7. Each type of family structure imposes a different role relationship and has unique consequences.
8. Institutions are interrelated; a change in one is likely to affect others.
9. The behavior of people in crowds differs from their behavior in institutions.

CONCEPTS

ROLE PLAYING DISCUSSION QUESTIONS (Study Sheet)

Unit V: Intergroup Relations

Concepts: Discrimination, Frustration, Racism, Prejudice

THE YOUNGERS BUY A HOUSE

by Lorraine Hansberry

1. When Mrs. Younger returns home and announces she has just purchased a new home, how does her family react?
2. Ruth states that she isn't afraid of "crackers" but ... "Wasn't there no other house no where?" Why does she feel this way? Isn't she anxious to improve her surroundings?
3. Notice Mama's speech which begins ... "I just saw my family falling apart today ..." Describe the problems which you think she is faced with. What are some of the things which she is looking forward to in her new surroundings?
4. What is meant by the word "crackers" as Ruth uses it? Why does she select this term? Do you have any terms in your vocabulary comparable to it?
5. Notice the reactions of the various characters to organized civil rights movements. Do you think any of these characters would be active in these groups?
6. Describe Mr. Lindner's mission as head of the "Clybourne Park Welcoming Committee." What arguments does Mr. Lindner use to discourage the Youngers' from moving into this neighborhood?
7. Does Mr. Lindner believe his own argument? Find examples. What conflicting values is he trying to rationalize?
8. Are special interest groups such as "The Clybourne Park Welcoming Committee" a reality?
9. How do the Youngers react to Mr. Lindner? Would you have reacted the same way?
10. Do you think the Youngers will move to Clybourne Park? How will their life change in their new surroundings? Will they have any effect on the new neighborhood?

ROLE PLAYING DISCUSSION QUESTIONS (Study Sheet)

Unit V: Intergroup Relations

Concepts: Prejudice, discrimination, aggression, socialization, role, status.

WILLIAM AND ELLEN CRAFT

1. There are probably many slaves on the plantation on which this particular play takes place, but the feelings between the plantation mistress and Ellen are particularly tense. Why?
2. How is the mistress going to resolve this problem? Why is she able to do this?
3. Do you think the mistress is taking out her aggressions or anger on the most appropriate source?
4. Ellen has apparently been on the plantation since her birth but now she is about to be sold by the plantation mistress. Who has been responsible for saving her from this fate at an earlier period in her life? How do you suppose Ellen feels about this person?
5. What role does Ellen foresee for herself if she does not escape immediately? Is she willing to accept this role? Would you say she was well socialized in her role as a slave?
6. What regard is being given to Jim and Ellen's marriage if she is sold? What legal action can Jim take to protect his wife? Comment on the stability of the slave family structure.
7. When Ellen's first escape route is suddenly cut off an alternative is decided upon. What makes this alternative possible? Is Ellen pleased to be "blessed" with this condition? Would you be?
8. The "white folks" worked pretty hard to find out about the "underground." Why were they so worried about this type of organization?
9. Ellen has been a slave all of her life. How does she react when she has to play the role of a white man? Would you say she was well socialized in her role as a slave?
10. This play has very few directions or descriptions; therefore it is up to you to picture the scenes and people for yourself. Describe what you think each character looked like and tell why.

WILLIAM AND ELLEN CRAFT

Characters:
William Craft
Ellen Craft
Aunt Mandy
Sam

Time: Before the Civil War
Place: On the upper Mississippi

A log cabin with a window and door at rear. A fireplace at right with sweet potatoes baking in the ashes. At center a table. At left a sheet drawn across the room to screen the bed. A box of wood beside the fireplace. Two chairs near the table. On the back of one chair an old black coat with a needle in it. Near the window a bench on which are a bucket of water and a gourd. ELLEN is looking out of the window at the setting sun. Seeming to be in deep thought she begins to pick up articles of clothing and ties them in a bundle. Hearing a knock at the door she throws the bundle behind the curtain and taking the coat begins to sew.

ELLEN: Who's there?

MANDY: (entering) It's me. Mandy. Weren't you expecting me?

ELLEN: Of course, but I'm so nervous and fidgety.

MANDY: And scared too, I bet. You'd better be because--

ELLEN: Because what?

MANDY: Because I have bad news for you.

ELLEN: Bad news? What do you mean?

MANDY: The Mistress found out about the underground railroad, and now none of you can get away. They are watching your hiding places like hawks.

(ELLEN drops her sewing and puts her hands to her face moaning.)

MANDY: (Picks up sewing and starts to darn.) I'll finish this coat for you, dear. I suppose you thought William was going to wear it tonight, didn't you?

ELLEN: (Brokenly) Yes. But, Aunt Mandy, do they know about our last secret hiding place in the woods where Captain Smith meets the slaves and takes them to the boat?

MANDY: Yes, honey, they know all about everything. You sure can't go now because they'll catch you.

ELLEN: But I've got to go! I've got to!

MANDY: (Exasperated) No you can't. How could you?

ELLEN: I don't know, but surely there must be some other way.

MANDY: (Soothingly) Poor child. I know it's hard, but you've got to bend to the rod. You've got to stand it.
(Looks at potatoes on hearth.)
Trouble doesn't last forever. Everything passes sometime. Come on, let's eat one of these potatoes; I'll peel you one.

ELLEN: (Shaking her head) You go ahead and eat. I'd choke. Those traders will be here at dawn and you know they plan to take me down the river!

MANDY: (Peeling and eating potato.) I'll finish this coat for you. Now child, be sensible; life's mighty sweet even if there is some bitterness.

ELLEN: (Agitatedly) Oh, you don't know what they plan to make out of me, do you?

MANDY: (Soothingly) Yes, I know. Your pretty white face is your curse. You're the spitting image of your daddy, old Master Charles.

ELLEN: I hate him! I hate him!

MANDY: Don't say that. He was good to you while he was alive. Now the Mistress is taking her revenge out on you by sending you down the river.

ELLEN: I hate her for it. I'd rather stay here and work like a dog in the field than go down the river!

MANDY: No honey, your hands are too white for field work. They make ladies out of people like you.

ELLEN: (Sarcastically) Lady. Ish!

MANDY: If you were black and ugly, you would sure get along a lot better. Those white devils!

ELLEN: (Goes up to Mandy supplicatingly) Don't you see that I've just got to get away tonight?

MANDY: (Shaking her head) Poor child, you're just plain scared, but we're all in the hands of the good Lord.
(As she speaks a sound is heard at the door. WILLIAM enters hurriedly. ELLEN flies to him and flings herself into his arms crying.)

ELLEN: Oh, William. Aunt Mandy says you can't go tonight.

WILLIAM: (Excitedly) What did you say?

MANDY: The white folks have found out all about the underground.

WILLIAM: Who told them?

MANDY: They caught Jack and Sophie last night and whipped them until they told all about the secret plans and meeting places. Liza's boy Bill overheard them from the kitchen while they were talking in the dining room. They said there weren't going to be any more darn niggers running away soon. They said they'd shoot any nigger full of buckshot that set foot near the river bottom.

WILLIAM: (Putting his hand up to his face thoughtfully, then sinks weakly into a chair and puts both hands up to his face. ELLEN drags over to the fireplace and cries hopelessly. There is a tense stillness in the cabin for some minutes, then WILLIAM jumps to his feet snapping his finger.)

ELLEN: (Rushing over to him eagerly) What, William, what?

WILLIAM: (Walking up and down excitedly.) If I can get the things I need, we can do it. I bet my life on it.

MANDY: What tomfoolry are you planning, William? I told you that the white folks are suspicious and all the patrols are out tonight. You can't get away.

WILLIAM: You don't understand, Aunt Mandy. I have to get Ellen away from here tonight or die trying.

ELLEN: You're right, William. I'd rather be dead than stay here until morning, and....

WILLIAM: (Still moving nervously about) If I can just get some things I need we can steal across the corn fields and catch the north bound when she stops at the flag station. I did it many times with young Master Charles when we used to go up to Philadelphia. (Stops dead still)
But I have to get a suit of Master's clothes.

MANDY: Land sakes. What do you plan to do with them?

WILLIAM: (Speaking excitedly) You see, if I could get a suit of Master's clothes, I could dress Ellen up like a white man and I could go along and be her slave just like I did with young Master Charles.

MANDY: You crazy boy!

ELLEN: Oh, William, how could we do that?

WILLIAM: You see, when I used to go off to school with young Master, I looked after everything for him. That's why he taught me to read, write, and figure. I know how to travel. I can do it. I must do it, but I need to get the clothes.

ELLEN: But where?

WILLIAM: I can steal them from the big house. I know where all old Master's clothes are. I can sneak in there....

ELLEN: (Breaking in) Oh, William they might catch you!

MANDY: That's mighty dangerous.

WILLIAM: Can't help it. Ellen can't stay here until morning. No matter what happens, I won't let her!

ELLEN: (Moaning) Lord, what's to become of me?

WILLIAM: (Rising) Stay with her, Aunt Mandy. I'm going to get a suit of clothes somewhere.

MANDY: I think you're plumb crazy, William, running away like white folks, you and Ellen. If they catch you...Oh!

WILLIAM: (Moving toward the door) Don't worry! I can do it! Young Master used to say that me head was too good for a nigger and now I'm going to try it out.

ELLEN: (Moving toward door with WILLIAM solicitously) Be careful, William.

MANDY: (Standing up hesitantly, as if trying to make up her mind about something) Wait, William. I think you've gone crazy and lost your mind, but since you're going to go anyhow, I'll help you. I have a suit!

WILLIAM: (Turning back toward Mandy excitedly) A Suit! You Have?

MANDY: Yes, I have.

WILLIAM: Oh, Aunt Mandy where did you get it?

MANDY: It's in my loft. You see, old Mistress didn't want anything left around here to remind her of the terrible time when young Master died. She told me to burn up all his clothes because you know he had that contagious disease.

WILLIAM: It sure is lucky for us! You didn't burn anything at all?

MANDY: Nothing at all. After I washed and laid out young Master Charles, I took every stitch of his clothes and burned sulfur through them in my hut....

WILLIAM: (Interrupting, lowering his voice earnestly) You haven't got his tall hat, have you?

MANDY: I sure have! Even down to his walking stick.

WILLIAM: What a God send! Will - will you let Ellen wear them?

MANDY: Sure she can. Since you two are going to be fools, I can at least do this much to help.

WILLIAM: (Pulling AUNT MANDY up from chair) Hurry Aunt Mandy! You go get them and we can catch that Northbound at the crossing in no time.

ELLEN: (Moving over to WILLIAM) I'm scared, William, so scared.

WILLIAM: Oh, buck up. You don't want to be here in the morning when the slave traders come, do you?

ELLEN: Oh no, William, no. I'll go...I'll go.

WILLIAM: (Urging AUNT MANDY toward the door) Do hurry, Aunt Mandy.

MANDY: (Going toward the door) I'll be right back. They're all right there in my loft.

WILLIAM: Put them in a quilt and if anybody sees you, tell them you're coming to do some quilting with Ellen.

MANDY: (Going out of the door) Don't you worry. I'm an old fox.

ELLEN: (Going up to WILLIAM trembling) Are you sure you can get us through, William?

WILLIAM: Sure honey, haven't I been on that train many times with the young Master and can't I read and write?

ELLEN: But how can I be like young Master? I'm shaking so now.

WILLIAM: (Soothing her) All you have to do is walk. You don't have to talk. You don't have to do a thing but walk along arrogantly like a white man. See? (Shows her how to walk) Try it.

ELLEN: (Tries to walk like him) This way?

WILLIAM: You're doing fine. You see, you're supposed to be sick. You've got a toothache and you're going to a doctor in Philadelphia. You're nearly deaf, and your Negro slave is taking you. Understand? Oh no....

ELLEN: What's wrong?

WILLIAM: Nothing at all. Give me your shears. I have to cut your hair. You see, you're a man now.

ELLEN: (Despairingly) Oh my hair! (She gets the scissors from the sewing basket, and brings them to him.)

WILLIAM: (Placing chair near table where the candle is lighted.) Set here. (He goes to shutter, makes sure it is tight, walks back to ELLEN, who has let down her long hair.)
I sure hate to cut your pretty hair, but....

ELLEN: (Resignedly) Anything is better than going down the river.

WILLIAM: (Takes a lock of hair to cut it when there is a sound of voices and footsteps outside of the door.)
You better get behind the curtain. Somebody might drop in.

ELLEN: Yes. (Rising) That tattle-tail Sam has a way of just walking in without warning.

WILLIAM: That would be terrible! He'd be sure to get suspicious.

ELLEN: (Halting as she raises the curtain) If he drops in what are we going to say? How do we get rid of him?

WILLIAM: Oh, I'll say that you're sick with a headache or something, and that you've gone to bed. I'll get a few horseradish leaves out of the garden and put one or two on the table to make it look natural.

ELLEN: (Entering into the spirit) Yes, and I'll put the coffee pot on some coals and you can say you're making some coffee to help me.

WILLIAM: You sure learn fast. You're real smart. I know that you're going to make this trip perfect.

ELLEN: (Beaming, moves toward the table as WILLIAM moves toward the door.)
Hurry, William.

WILLIAM: (Going out of door) All right, honey, put on the coffee.

ELLEN: (Takes some water from the bucket with the gourd, puts it in the coffee pot, puts some coffee in it, sets it on some coals at the fireplace. Goes to the window, cracks it open a little, looks anxiously down the road and sighs. After a moment there is a soft scraping at the door, then MANDY comes in with a big bundle tied up in a quilt.)
Oh, you got them!

MANDY: (Placing bundle on the floor) Sure. Where's William?

ELLEN: He's in the garden getting some horseradish so that if anybody drops in we can play that I'm sick behind the curtain there.

MANDY: That's right! I'll put these things behind the curtain too. You can never tell -- there's many a slip.

WILLIAM: (Coming in with leaves. Puts them on table; saying breathless to MANDY.) Did you get them?

MANDY: (Points) Sure! I put them behind the curtain.

WILLIAM: May the good Lord bless you, Aunt Mandy.

MANDY: That coffee smells good!

ELLEN: You drink some, Aunt Mandy, while William's cutting off my hair behind the curtain. We have to be careful now. (ELLEN goes behind the curtain.)

MANDY: You're so right! I clean forgot about your hair. William sure has a good head on him.

WILLIAM: If anybody happens to drop in, please get rid of them, Auntie. (Takes scissors and follows ELLEN behind screen.)

MANDY: Just leave it to me. I know what to do. (Pouring some coffee in a mug, tastes it.) Um-m-m, it sure is good. Both of you better swallow a mug before you start tonight. It'll buck you up.

WILLIAM: (From behind curtain) You're right, we sure will. Leave it where it'll keep hot.

ELLEN: (From behind curtain) Did you get some molasses for your coffee, Aunt Mandy?

MANDY: Yes, Child, I sweetened it.

WILLIAM: (Poking his head out from behind the curtain.) You did fine, Aunt Mandy! These things sure fit! I'll help Ellen get into the pants and then she can do the rest.

MANDY: They ought to fit for she's just the size of her half brother, Master Charles.

ELLEN: (From behind the curtain) Don't talk about that, Aunt Mandy!

WILLIAM: (Coming out and pouring himself a mug of coffee.) Well, that's done.

MANDY: Do you have enough money to get to Philadelphia?

WILLIAM: (Snapping his finger) Goodness! I just remembered I've got my money buried under a tomato bush in the garden. I'm going to dig it up.
(Drinks down his coffee)

MANDY: It's high time!

WILLIAM: (Goes to window, cracks shutter a little, peers into darkness, then closes it.)
We haven't any time to lose. Hurry, Ellen!

ELLEN: (From behind curtain) I'm almost ready!

MANDY: It sure would be too bad if you missed that train.

WILLIAM: We're almost ready to leave now.

MANDY: I hope nothing hinders you.

WILLIAM: Nothing is going to.

ELLEN: (Steps out from behind curtain dressed in a man's suit, tall silk hat, and a muffler, shrinkingly.)
Oh, I feel terrible!

MANDY: (Admiringly) You look just like Master Charles. If I hadn't laid him out, I'd have said you were him.

WILLIAM: (Standing up and looking her over critically, wrapping the scarf up around her face.)
Like this.
(He then takes a large handkerchief from the pocket of the suit and pins it to her coat and puts one arm in it, explaining.)
You see, you can't write becuse you have rheumatism, so I have to sign for everything.

MANDY: (Admiringly) You sure are smart, William.

ELLEN: (Breathlessly) Do you think we will make it, Aunt Mandy?

MANDY: I sure hope so. (Sighs)

WILLIAM: (To ELLEN) Now take a mug of coffee while I go out and dig up the money.
(As he goes out of the door, says)
Practice walking like a white man while I'm gone.

ELLEN: All right, William. (Nervously) You hurry.
(Drinks coffee and walks up and down cabin, as WILLIAM had shown her.)

MANDY: (Solicitously) Do you have everything in your valise?

ELLEN: I think I have.

MANDY: Let me see. (Gets valise from behind curtain, looks in it. Says um-m, then goes to cupboard.)
I'll put a piece of bread and some herring in it because you can't tell about those trains.
(Fixes bread and herring and puts in valise while ELLEN is stalking up and down the cabin practicing.) (Listening)
Isn't there somebody at the door?

ELLEN: It isn't William. Who's there?

MANDY: You get behind the curtain, Ellen.
(Then sets valise behind curtain quickly. Louder.)
Who's there?

VOICE: (Outside) It's me, Sam!

MANDY: (To ELLEN softly) We'd better let him in.

ELLEN: (Softly to MANDY) Yes, but get rid of him quickly.

MANDY: (Opening the door) What are you doing, running up and down the road worrying sick people?

SAM: (Coming in and looking around) Who's sick:

MANDY: Ellen. She's got a terrible headache and has gone to bed.

SAM: Where's William?

MANDY: Out in the garden.

SAM: Fine time of the night to be gardening.

WILLIAM: (Entering rather upset and overhearing Sam's last remark.)
I was trying out a new secret on my tomatoes this year. Every
time I get a piece of iron I bury it under them. It makes them
blood red and big as your fist.

SAM: I never heard of that. I'm going to watch yours from now on.

WILLIAM: (To MANDY) How is Ellen feeling?

MANDY: I think she's about ready to drop off to sleep.

WILLIAM: Maybe we had better change the poultice on her head. (Takes up
another horseradish leaf and bruises it.)

MANDY: (Softly) Give it here. I'll put it on her. Then we'd better put
out the light and let her get to sleep.

SAM: (Riled) You going to put me out.

WILLIAM: No we aren't, but Ellen has to get up before sunrise to do some
work for the Mistress and she has to get some sleep tonight.

SAM: (Slyly) I've been hearing rumors that the traders are coming tomorrow
and there was some talk that the Mistress was sending Ellen down the
river.

MANDY: Don't you pay any attention to that gossip. There isn't any such
thing. The Mistress isn't thinking about sending Ellen anywhere.

SAM: (Rising slowly) Well, it isn't any of my business anyhow.
(Slyly) May I have a drink of water before I go?

WILLIAM: Sure, take a gourd full.
(William moves toward the gourd but SAM wheels suddenly and ducks
toward the curtain, peeping behind it. ELLEN screams, then
stifles it.)

WILLIAM: You mangy dog! What do you mean by doing that?

SAM: (Sneeringly) So you're going to try to get away, are you? Going to
tell the Mistress goodbye? (Moves toward the door)

WILLIAM: (Excitedly) What are you going to do?

SAM: (Snarlingly) What do you think, Mr. Educated Nigger?

WILLIAM: (Rushes up to him and catches him about the throat.) So you are going to tell! Spying on us! I'll show you!

MANDY: (Jumping up, overturning her chair in excitement) What are you going to do, William?

WILLIAM: I'm going to shut his mouth. Give me a piece of rag, Mandy.

MANDY: (Hunts around the cabin, finds a piece of cloth in the sewing basket and brings it to WILLIAM.) (Looking at SAM)
Dirty pup.

WILLIAM: (Stuffs cloth in SAM'S mouth, while he presses him down into a chair with his knees. To MANDY)
Now get me Ellen's clothes line - over there in the corner.

MANDY: (Running to corner getting clothes line, bringing it to WILLIAM excitedly.)
Lord, Help us!

WILLIAM: (Tying rope around SAM'S arms with a loop knot.) (To MANDY)
Peep out first, then open the door.
(Takes SAM and drags him out of the door as ELLEN comes trembling from behind the curtain.)

ELLEN: (Crying) What will we do now, Aunt Mandy?

MANDY: (Shaking her head despondingly) Things look mighty bad, honey.
I just don't know.

(For a few minutes there is a strained silence in the cabin while the two women strain their ears listening for sounds outside. ELLEN nervously moves about the room, picking up things and putting them down. AUNT MANDY picks up William's coat she has darned, shakes it.)

MANDY: (Head on one side listening outside) Wonder what William is doing to Sam?

ELLEN: (Tearfully) I don't want to know.

MANDY: He brought it on himself.

WILLIAM: (Entering disheveled and brushing his hands on his trousers, speaking hoarsely.) Come on, Ellen. Trains don't wait.

ELLEN: Oh, William! What have you done?

MANDY: (Holding William's coat for him to put on, as WILLIAM slips off his sweater. (To ELLEN) Don't worry about that now. It's too late.

WILLIAM: I'm sorry, Aunt Mandy, but I had to do what I did to cover you because he saw you here. (Just then a train whistle blew, all listen and move excitedly.) Come on Ellen. We can just make it by taking the shortcut. Walk in front of me and don't say anything to anybody. I'll do all the talking. Keep your arm in the sling. (Breathlessly) Goodbye, Aunt Mandy, goodbye.

MANDY: You aren't gone yet.

ELLEN: (Whimpering, as she hesitates at door.)

MANDY: (To ELLEN) Buck up, child. White men don't cry.

WILLIAM: (To MANDY) I hope no harm comes to you because of tonight, Aunt Mandy.

MANDY: (Appreciatingly) Huh! After I nursed all of the Mistress's children, I can take care of myself.

WILLIAM: Well, goodbye, Aunt Mandy.
(Kisses her) (To ELLEN)
You go first, Ellen. I'll walk behind you in the light, but I'll walk with you in the dark. Hurry!

ELLEN: (Throws arms around MANDY, kisses her, then dashes out.)

MANDY: God bless you, William.

MANDY: (Closes door, goes to shutter, cracks it a little, and peers out. It is quiet for a few minutes. A train whistle is heard in the distance. MANDY drops down on her knees on the floor, while the candle sputters and goes out.)

IMC Films

- F4048 A Day in the Night of Jonathan Mole - J-S (32 min. b/w)
Frank presentation of the problem of prejudice and the fallacies on which it thrives. The film is a fantasy built around a courtroom trial testing a new law intended to restrict employment to people of "pure" racial origin.
- F4049 Harvest of Shame - J-S (54 min. b/w)
This film reveals the deplorable plight of millions of migratory workers who harvest America's crops. On-the-scene reports in Florida, Georgia, Virginia, New Jersey, New York, Michigan and California show the degradation and exploitation of these men, women, and children who are moved from state to state in trucks, live in crowded, unsanitary huts, and work long hours for little pay. Views presented both for and against the use of migratory workers under the conditions seen.
- F9070 What Color Are You? - I (15 min. color)
Why don't all people look alike and have the same color skin? This film explains how mutations sometimes occur in genes to produce different traits in an individual and how the changed individual will survive and produce offspring like himself.
- F9300 Black History: Lost, Stolen or Strayed (54 min. color)
This film is a Bill Cosby guided tour through a history of attitudes - black and white - and their effect on the black American. It is a portrayal of some of the things that happen to an American if he is black. Cosby reviews black American achievements omitted from American history texts, the absence of recognition of Africa's contribution to Western culture, and the changing Hollywood stereotype of the black American.

Film list compiled by Louise Boedeker not available in IMC

The Hat - (15 min. color) (W/Law Fund)

Explores the need for a world legal authority to establish disarmament and settle international disputes peaceably. Tells the story of a soldier who drops his helmet across a border line and then tries to cross the line to get it back.

Freedom Movement (History of the Negro in America Series) - (21 min. b/w) (McGraw)

Studies the Negro sharecropper's tenant-farmer existence. Describes his migration to the north and west. Considers his involvement in the two world wars and in the later civil rights battle on the home-front.

Boundary Lines - (10 min. color) (IFF)

A plea to eliminate the arbitrary boundary lines which divide people from each other as individuals and as nations -- invisible boundary lines of color, origin, wealth and religion.

UNIT V - Possible Resource People

Directory of Minnesota Human Relations Organizations and Agencies

Federal and State civil rights laws constitute important legislation; however, implementation is a major current need. The principles of justice in housing, employment, education, public accommodations, and other areas must be acted upon at the level of individuals. Throughout the state there are many organizations - public, private and voluntary - offering help and information to those who wish to effect human betterment. This guide attempts to list these resources.

Concerned citizens using this guide will find that many of these organizations will provide information, educational materials and speakers. Through these resources each Minnesotan can obtain specific information about intergroup problems, discriminatory practices and methods to correct them.

American Civil Liberties Union, Minnesota Branch

925 Upper Midwest Building
Minneapolis, Minnesota
333-2534

The ACLU is the only permanent, non-partisan national organization devoted solely to the defense of the constitutional rights of freedom of expression, freedom of religion, due process and equal protection of the laws and other freedoms in the Bill of Rights and Constitution for everyone. Its activities include providing volunteer lawyers in important constitutional cases and engaging in educational and legislative programs.

Anti-Defamation League of B'nai B'rith

127 North 7th Street
Minneapolis, Minnesota
335-3277

The Anti-Defamation League of B'nai B'rith is a national organization dedicated to the preservation and enrichment of America's democratic legacy. Education, community action, legal and court action when necessary are the dynamic means ADL uses to achieve better human relations. ADL offers a broad educational program utilizing films, publications, recordings and speakers and develops human relations programs with other organizations.

Catholic Interracial Council of the Twin Cities

2388 University Avenue
St. Paul, Minnesota 55114
646-0103

The Catholic Interracial Council seeks to educate, to involve and to commit Catholics to their moral obligation in the field of interracial justice. The council works through parishes, schools and other Catholic organizations, and also conducts an educational grant program for minority group youngsters in Catholic schools. The C.I.C. cooperates with other human relations organizations in securing legislation and carrying out social action programs.

Fridley City Human Relations Committee

6431 University Avenue N.E.
Minneapolis, Minnesota
560-3450

The primary purpose of the Committee is to encourage the establishment and development of amicable human relations through the process of education among both young and old, emphasizing the desire for good human relations within the city. The Committee shall perform such functions as may be provided by the City Council, including the making of recommendations to the Council as to methods and means by which the basic policy of the city relative to human relations may be effectively established and developed; provided that the Committee shall not itself be created and established as an enforcement agency of the city to make a determination in any particular dispute or to prosecute any law or ordinance adopted for the promotion of such public policy. The Committee shall be composed of fifteen members: three from each ward and six to be appointed from the city at large.

Golden Valley Human Rights Commission

7800 Golden Valley Road
Golden Valley 27, Minnesota
545-3781

The nine member Commission appointed by the Village Council is essentially an educational body. Currently the Commission is working on the development of human relations programs that can be presented at meetings of village, civic, service and church organizations, and making an employment survey of public and private employers.

St. Paul, Minnesota 55101
221-3696

Advisory to the Commissioner of the Minnesota Department of Employment Security and his staff on matters pertaining to the recruitment and employment of agricultural workers is the Governor's Farm and Migratory Labor Advisory Committee. In addition, the Committee gives counsel and information to other State agencies concerned with the health, education, welfare and other problems of the migrant worker and his family. The Committee is concerned with all problems of the migrant agricultural worker and his family such as: the educational opportunities provided the children of migrant workers, establishment of day care centers, hospitals and medical attention, insurance, and other matters closely associated with the health, education and welfare of the migrant workers and their families who come to Minnesota each year. The Committee was appointed by the Governor and consists of twenty-four members representing principal farm organizations, major employers of agricultural labor, unions, farmers, religious groups and migrant worker representatives, as well as representatives from State departments and federal agencies.

Governor's Human Rights Commission

72 State Office Building
St. Paul, Minnesota 55101
221-2931

The Governor's Human Rights Commission is charged with conducting an educational program in civil and human rights and human relations. Its programming is on a state-wide basis, and it involves working with human rights citizen's committees in communities throughout the state. The Commission works in all civil and human rights areas that are not the responsibility of the State Commission Against Discrimination. The Commission has a major program interest concerning problems of migrant workers, Indians, Negroes, and other minority groups. It works to build a climate of harmonious relations among the State's various racial, religious, nationality and ethnic groups. A major part of the Commission's objectives require research and fact finding efforts as a prelude to submitting policy recommendations to the Governor's office, the legislature, state agencies, and other public bodies. As part of its educational functions, the Commission develops and distributes brochures, pamphlets and other publications.
