**ABSTRACT**

The State University System of Florida developed this Fact Book in response to a need for a convenient and authoritative source of information on the operations of the System and the individual universities. The Fact book contains information concerning student enrollment at the various universities, programs offered and degrees granted from 1966-67 through 1970-71, the employment of faculty and staff, allocation of physical facilities, and the financial situations of the various universities. Also included are campus maps and a glossary of terms used in the text of the document. (HS)

## FACT BOOK - 1972

### STATE UNIVERSITY SYSTEM OF FLORIDA

#### FOREWORD

This 1972 edition of the FACT BOOK represents the third annual revision since the FACT BOOK was first published in 1969.

The FACT BOOK was developed in response to a need for a convenient and authoritative source of information on the operations of the System and the individual universities.

tion to members of the Legislature and to State Agencies, as well as to the members of the Board of Regents and its staff and the university administrator, faculty member, student and parent.

University Catalogs, Faculty Handbooks, and other publications of the individual universities supplement information contained in the FACT BOOK.

Since its first publication, the FACT BOOK has been distributed to more than 1,000 persons inside and outside the University System. The FACT BOOK is intended to provide useful informa-

Suggestions for modifications or additions will be welcomed and should be addressed to the Director of Management Information Systems, 107 West Gaines Street, Tallahassee.

## STATE UNIVERSITY SYSTEM OF FLORIDA

Florida Participation in Southern Regional Programs

Since 1948 the State of Florida has contracted with the Southern Regional Education Board for the education of a restricted number of qualified Florida students to attend out-of-state professional schools. Under this program, Florida students have attended professional schools in Medicine, Dentistry, Veterinary Science, Teacher Training for children with visual and hearing difficulties and Actuarial Science.

\*\*\*This agreement with Ohio State University is not a part of the Southern Regional Educational Board program but is shown here because of its similarity. It also is funded by the Florida Legislature.

STATE UNIVERSITY SYSTEM OF FLORIDA

Florida Participation in Southern Regional Programs

The State of Florida pays the institution \$1,800 per year for each student who attends a regional school of dentistry or veterinary medicine\* to help defray overhead and operating costs to the limit of the number given in the contract. In the case of students attending a school of medicine, the payment to the institution will be \$2,750. Institutions with students in Special Education Programs receive \$850 per year; those in Actuarial Science \$400 per year. For the latter two programs this amount is credited against the student's tuition fee.

A Florida student who is accepted by a state university within the quota for the Regional Plan is permitted to enroll in the same category as a student who is a legal resident of the state in which the school is located. The student is required to pay the usual tuition, fees, board, room and other expenses charged by the institution. Private institutions accepting Florida dental and medical students under the contract with the Southern Regional Education Board will reduce the tuition for each student by the amount of \$250 per year.

\*To \$3,000 in 1972-73.

## VII. Glossary

STATE UNIVERSITY SYSTEM OF FLORIDA

Glossary

Enrollment - Full Time Equivalent (FTE)  
Enrollment computed by dividing a constant student credit hour load into the total student credit hours produced. (15 hours for undergraduate and 12 hours for graduate)

Enrollment - Head Count  
Total number of students enrolled regardless of the number of credit hours.

Educational and General

The educational functions of a university and those general activities which directly serve those functions. Included would be instructional departments and colleges, state-supported research activities, university administration, library, operation and maintenance of physical plant and organized activities related to instruction. Not included would be auxiliaries, contracts and grants, debt service, scholarships and loans, etc.

FTE  
Full time equivalent.

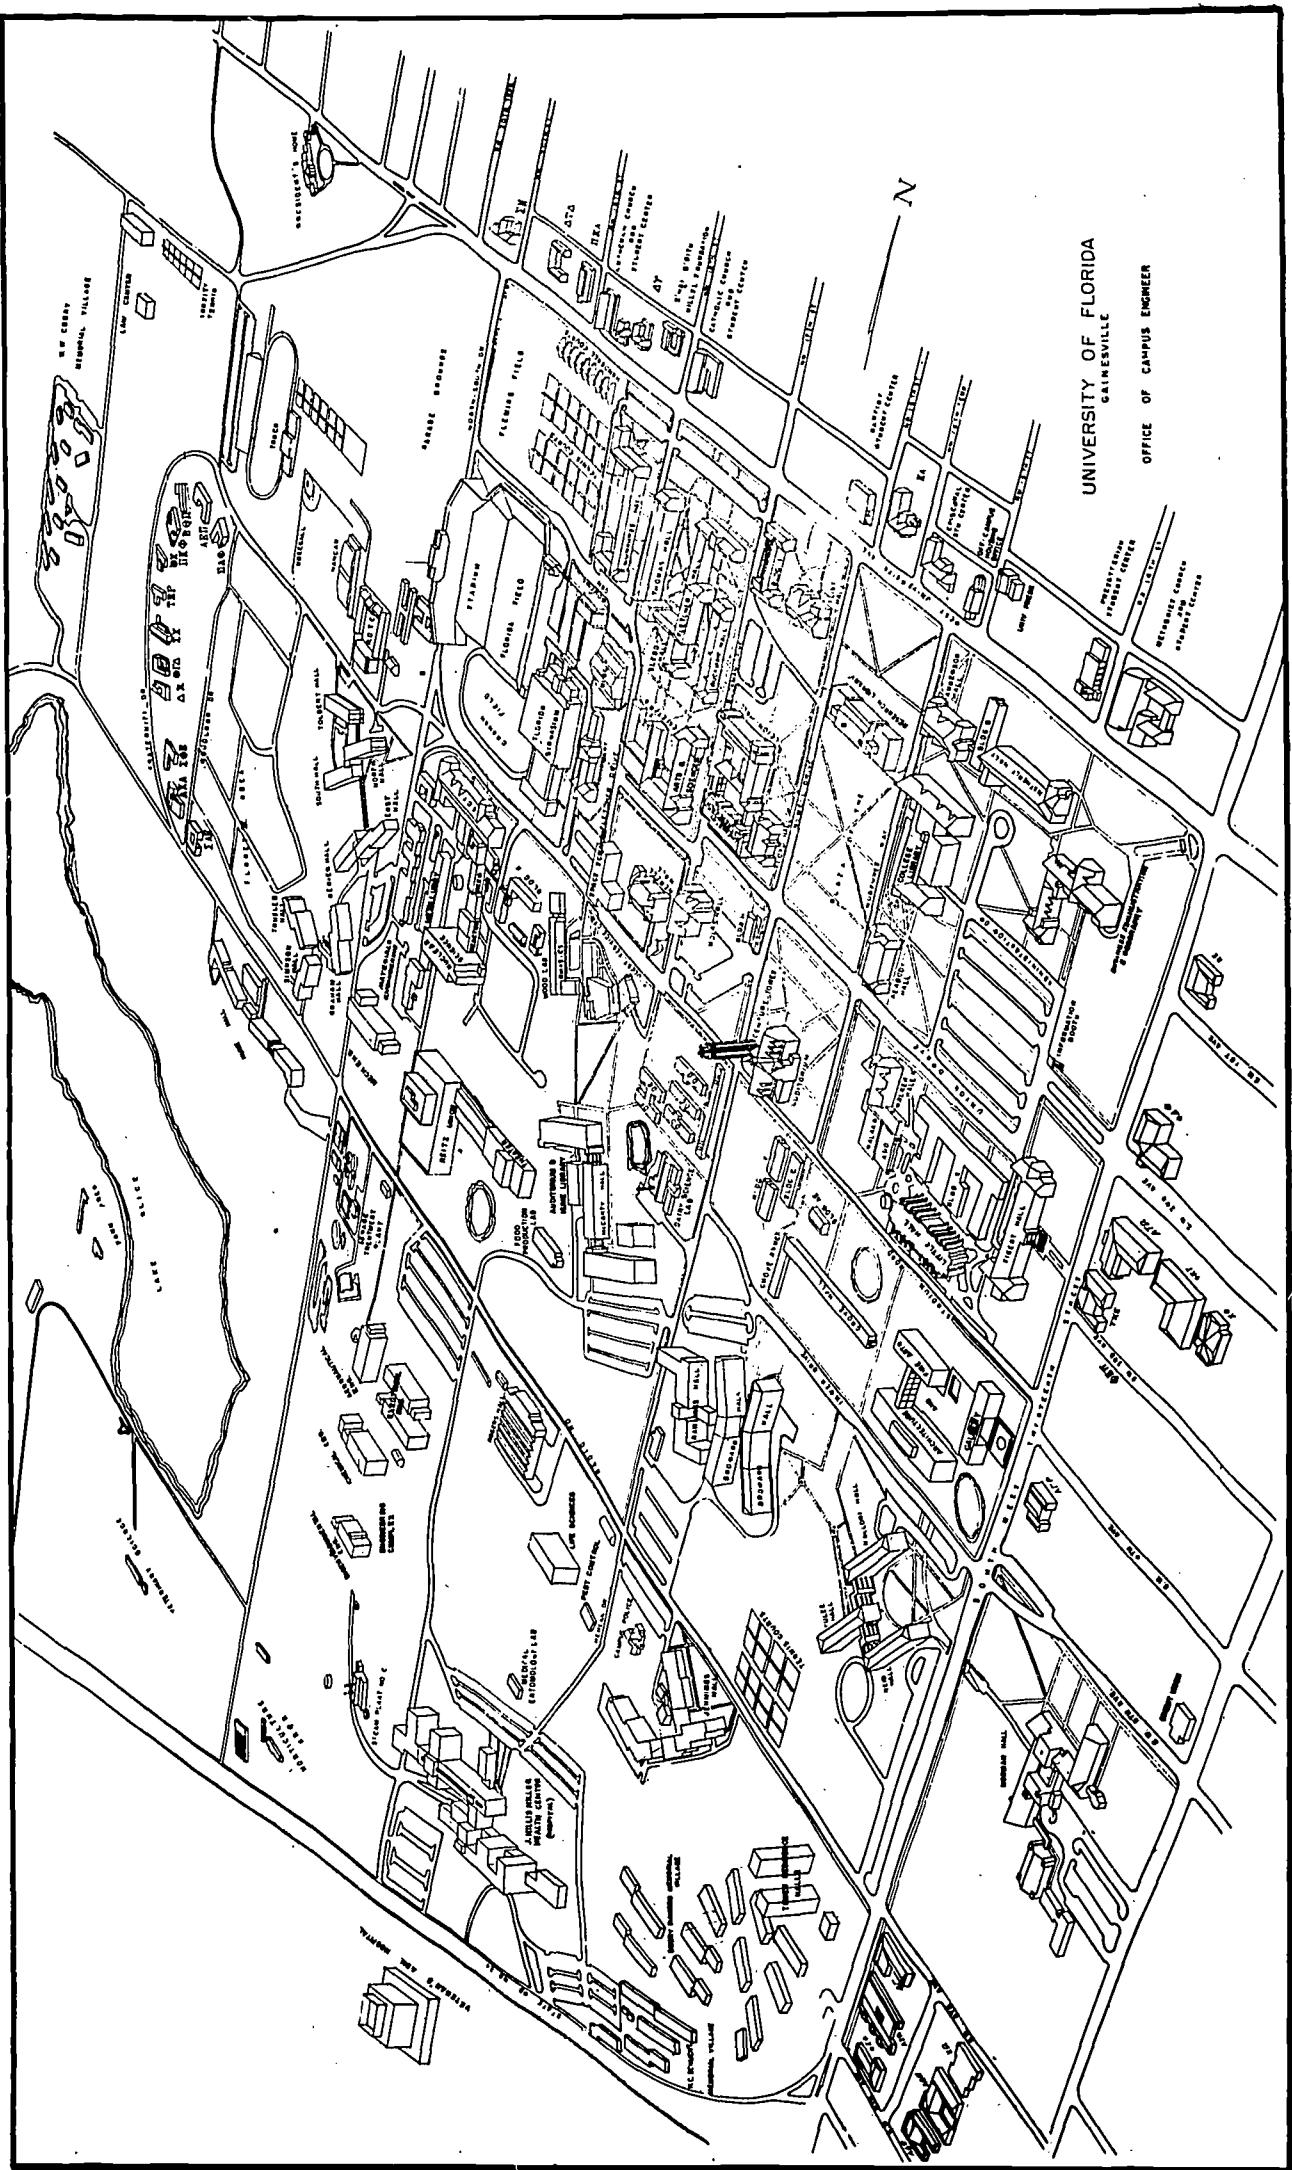

General Revenue Funds

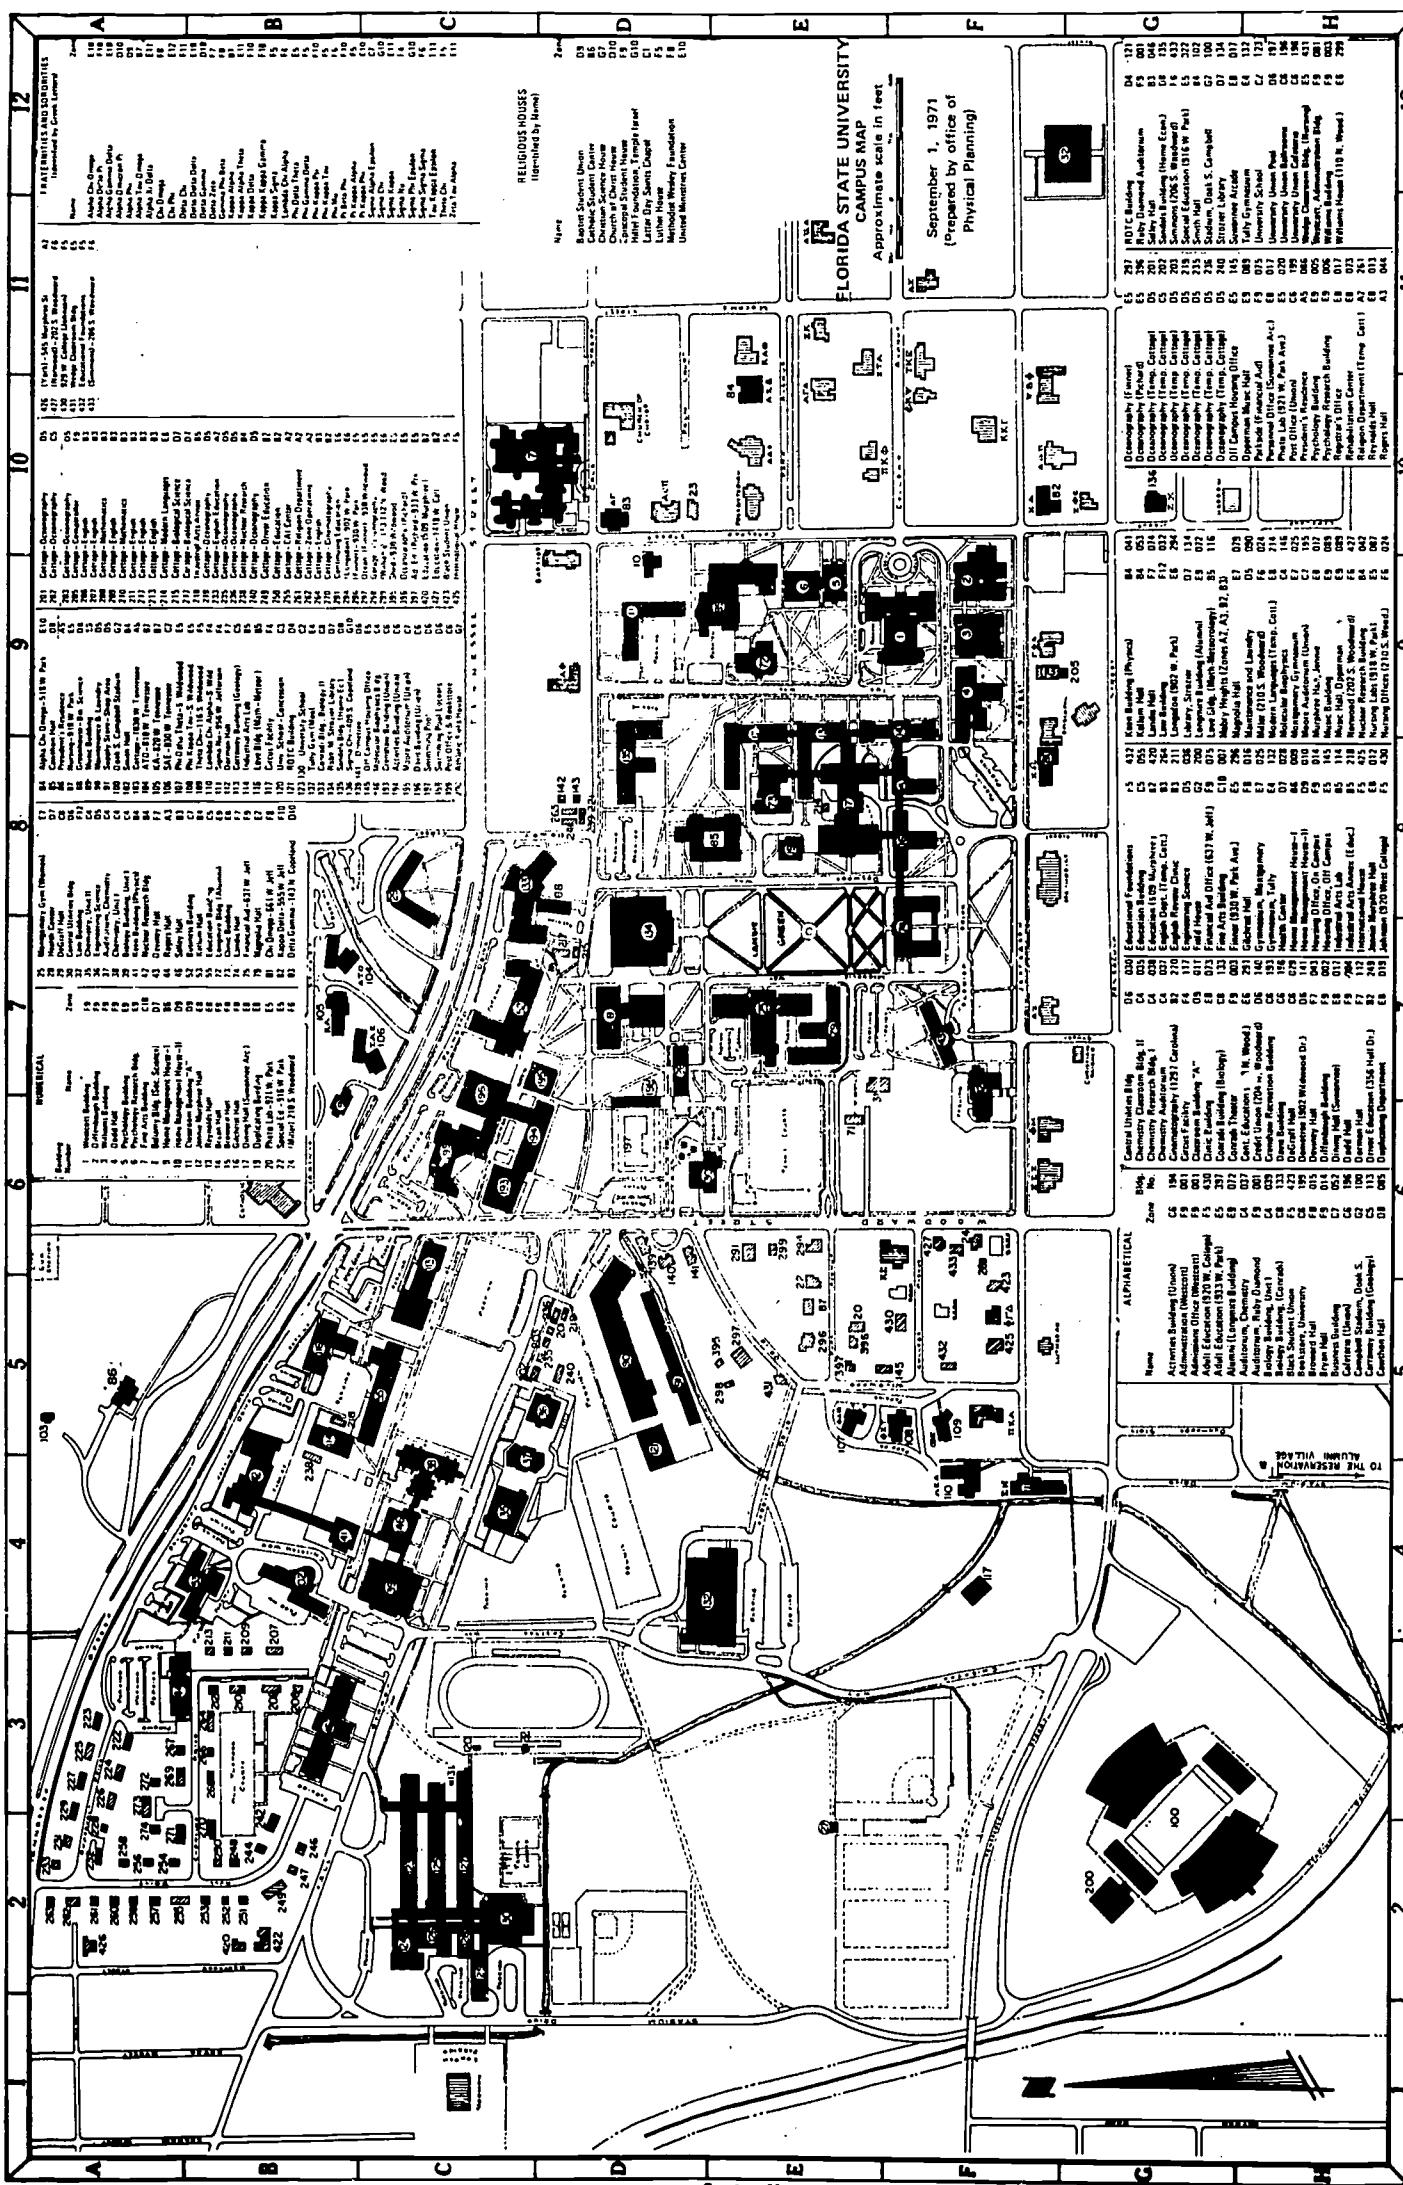

Those funds provided from the tax revenues of the state which are appropriated by the Legislature.

Trust Funds

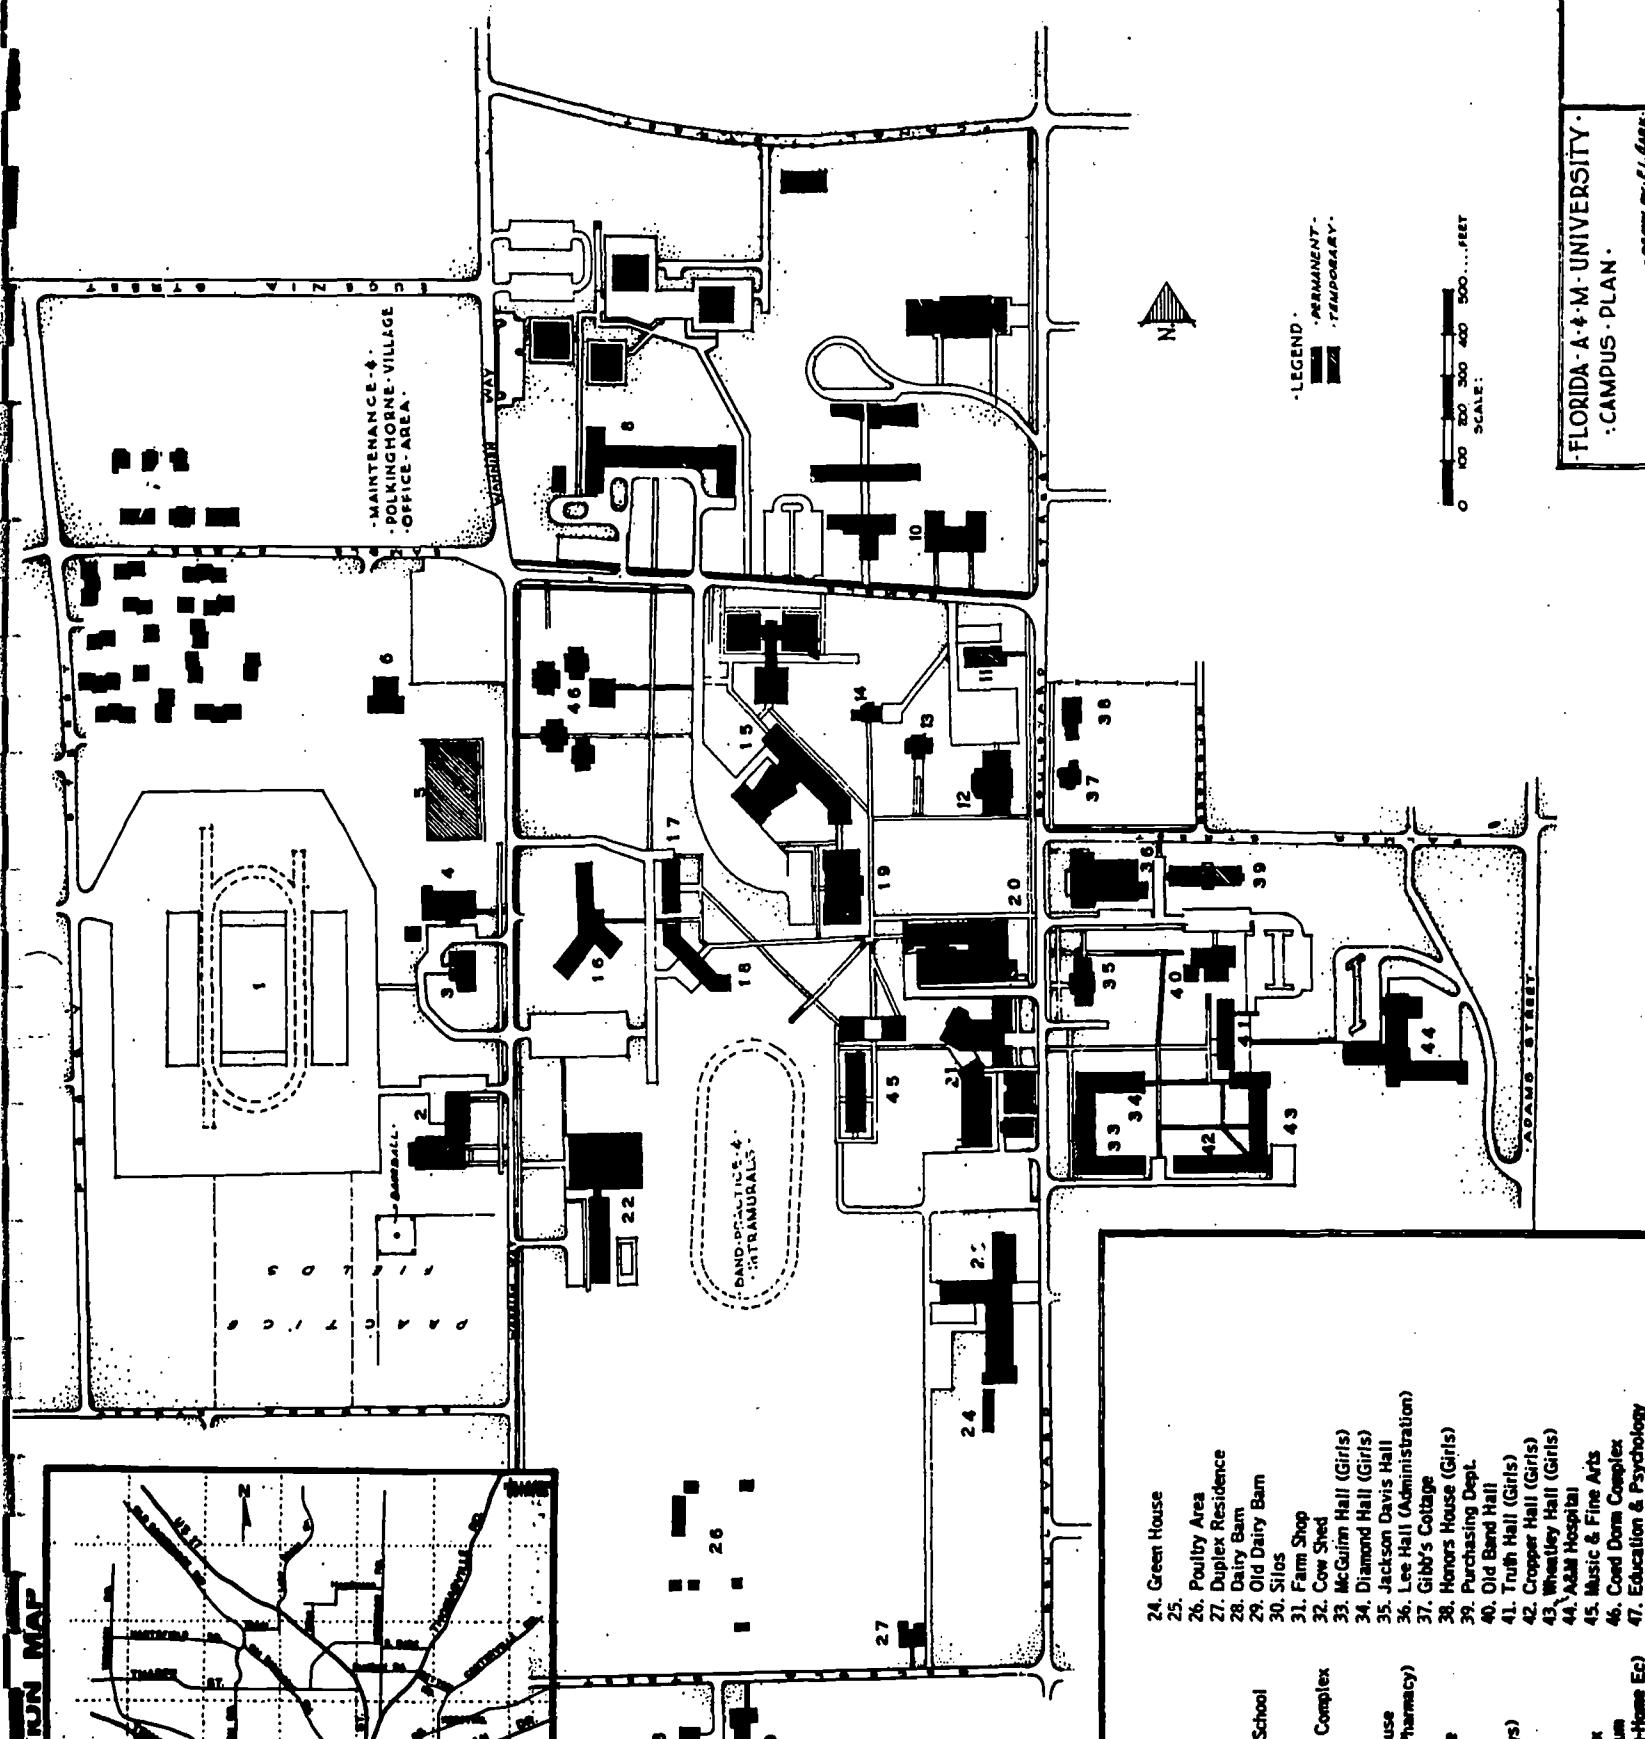

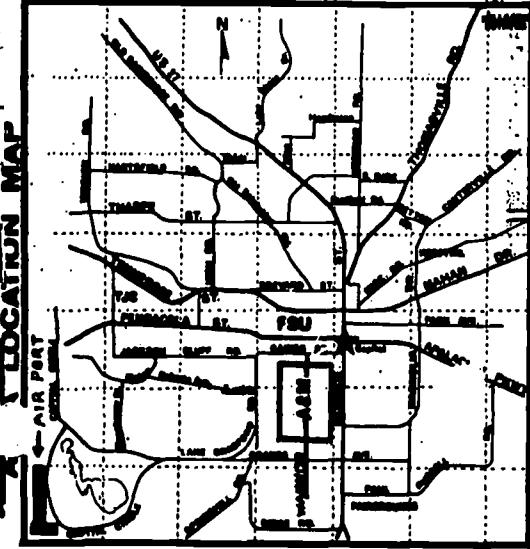

Those funds, other than General Revenue, used to support the operation of the University. They might include student fees, miscellaneous sales, contract and grant indirect cost allowance, etc. For summary purposes, contracts and grants are also considered to be trust funds.
