ABSTRACT

In this elective quinmester course clustering around behavioral studies, Junior high students study Cuban heritage; Cuban events leading up to the migration to the U.S.; and Cuban-American population as it now exists in the U.S., including refugee problems, contributions, and the future. The focus is upon helping teachers and students understand and view the Cuban influx in Miami as a unique social phenomenon by comparing similarities between problems faced by earlier immigrants to America and those faced by minority groups such as today's Cuban refugees. The course content outline contains seven parts: 1) the nature and significance of the Cuban influx; 2) a brief survey of Cuban culture, geography, and history; 3) a study of America's Spanish heritage; 4) the psycho-social, economic, language, educational, and cultural problems of the immigrants; 5) contributions made by Cubans; 6) significance of cultural pluralism; and 7) examination of how the study might affect the future relationships of Cubans in Miami, along with suggestions for better human relations. The format arrangement is identical to other quinmester courses with sections on goals, content outline, objectives, learning activities, and materials. (Author/SJM)

INTRODUCTION

This course of study was written as a part of a total effort to revise curriculum to fit the administrative organization of schools. The materials and information in this guide are meant to be neither all-inclusive nor prescriptive; but rather, an aide to teachers as they plan instructional programs, taking into account student needs and characteristics, available resources, and other factors.

The major intent of this publication is to provide a broad framework of goals and objectives, content, teaching strategies, class activities, and materials all related to a described course of study. Teachers may then accept the model framework in total or draw ideas from it to incorporate into their lessons.

The guide is divided into 1) a broad goals section, 2) a content outline, 3) objectives and learning activities, and 4) materials. The first section provides descriptive and goal-oriented information for the teacher; "indicators of success" refers to suggested prerequisite or corequisite experiences. The content outline illustrates, in general terms, the scope and major subdivisions of the course. The objectives and learning activities section, hopefully, provides a total picture of the concept or main idea and specific behavioral objectives for a set of given learning activities. The materials section of the guide lists resources in four categories: essential textual or other material; alternate classroom materials to use in place of or in addition to the aforementioned; supplementary teacher resources; and supplementary student resources. The appendix may include other material appropriate for a specific course: e.g., pretests, readings, vocabulary, etc.

Anyone having recommendations relating to this publication is urged to write them down and send to : Social Studies Office, Room 306, Lindsey Hopkins, A-1.

COURSE GOALS:

1. THE STUDENT WILL COMPARE THE SIMILARITIES BETWEEN PROBLEMS FACED BY THE EARLIER IMMIGRANTS TO AMERICA AND THOSE FACED BY MINORITY GROUPS SUCH AS TODAY'S MIAMI CUBANS.
2. THE STUDENT WILL IDENTIFY SOME OF THE CONTRIBUTIONS WHICH THE VARIOUS ETHNIC AND NATIONAL GROUPS HAVE MADE TO LIFE AND CULTURE IN CUBA, PAST AND PRESENT.
3. THE STUDENT WILL DESCRIBE AMERICA'S SPANISH HERITAGE, EMPHASIZING THE ROLE WHICH THE UNITED STATES AND OTHER NATIONS, AS WELL AS THE CONQUISTADORES AND LATER INHABITANTS OF CUBA, PLAYED IN THE COLORFUL PAST OF SOUTH FLORIDA AND THE CARIBBEAN.
4. THE STUDENT WILL ANALYZE THE PROBLEMS OF CUBAN REFUGEES SINCE 1959, AND HOW THEY HAVE BEEN SURMOUNTED IN THE EXILE'S ADJUSTMENT TO A NEW LIFE IN DADE COUNTY, FLORIDA.
5. THE STUDENT WILL EXAMINE THE VALUE OF THE CONTRIBUTIONS WHICH THESE REFUGEES HAVE MADE TO THE LOCAL AREA AND ELSEWHERE, AND, AS A RESULT, HOW THEY ARE OFTEN MORE ALIKE THAN DIFFERENT FROM A SIZEABLE PART OF THE TOTAL COMMUNITY OF GREATER MIAMI.
6. THE STUDENT WILL DISCUSS CRITICALLY THE CUBAN REFUGEE'S ROLE IN REGARD TO SOUTH FLORIDA ACHIEVING A WORKING BALANCE BETWEEN ITS CITIZENS, FACILITIES, AND ECOLOGICAL ENVIRONMENT.
7. THE STUDENT WILL PREDICT HOW HIS OWN, AND OTHERS' INVOLVEMENT IN THIS STUDY MIGHT AFFECT THE FUTURE RELATIONSHIPS OF CUBAN AND OTHER SOCIAL UNITS IN DADE COUNTY, AND SUGGEST POTENTIAL MEANS OF BETTERING HUMAN RELATIONS ON A LOCAL LEVEL.

COURSE DESCRIPTION: A STUDY OF THE CUBAN HERITAGE; EVENTS LEADING UP TO THE MIGRATION TO THE UNITED STATES; FOCUSES ON THE CUBAN POPULATION IN THE U.S., ITS PROBLEMS, CONTRIBUTIONS, AND FUTURE.

CLUSTER: BEHAVIORAL STUDIES
GRADE LEVEL: 7 - 9
COURSE STATUS: ELECTIVE
INDICATORS OF SUCCESS: NONE

COURSE RATIONALE: An understanding of Cuba and Cubans is essential for U. S. citizens if we are to deal intelligently with one of the most important problems ever faced in Latin America. A great deal of what has been written since Castro's revolutionary forces took over Cuba has been, for the most part, governed by personal and national reactions since 1959. This same attention given to Cuba by the world at large has been out of all proportion to its area, its population, and even to its significance as the world's greatest producer of sugar. It also contrasts strangely with our relative neglect of Cuba in the years before the revolution, especially in view of American proximity and familiarity. A similar case can be made for some of the attention which has been directed toward the Cuban refugees who have gone, and are still going, into exile in America particularly in Dade County.

This course of study is an endeavor to aid teachers and students to understand the Cuban influx in Miami as a unique social phenomenon, examining its local aspects and its relation to exile values and problems, with a minimum of passionate, highly colored reports and inadequately-researched material. The principal concern is objective analysis of the Cuban cultural evolution from colonial days to the present and conscious effort toward promoting an independent point of view consistent with the principles of a democratic nation.

COURSE CONTENT OUTLINE:

I. THE SETTING (AN INTRODUCTION)

- A. Nature of the Cuban Refugee.

- F. Introduction to Sociology (similarities and differences found among various human groups)
- G. Prejudice in America (ways behavior patterns may be changed from history, current events, and within the pupils' immediate surroundings)
- H. Human Relations (how and why people behave toward each other the way they do)

GOAL 1: THE STUDENT WILL COMPARE THE SIMILARITIES BETWEEN PROBLEMS FACED BY THE EARLIER IMMIGRANTS TO AMERICA AND THOSE FACED BY MINORITY GROUPS SUCH AS TODAY'S MIAMI CUBANS.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>I. THE SETTING (AN INTRODUCTION)</p>	<p>A. The student will describe the nature of the Cuban refugee.</p>	<ol style="list-style-type: none"> 1. Introduce the meaning of: <ol style="list-style-type: none"> a. Refugee - someone who flees for safety, or for personal freedom, especially to a foreign nation. b. Exile - an individual who is voluntarily absent from one's native country. c. Descendant - child of a certain ancestor, family, or group d. Ancestor - one from whom an individual is descended and who is usually more remote in the line of descent than a grand parent. 2. Show one, or more films from each of the following two categories: <ol style="list-style-type: none"> a. Indians: (our first immigrants) <u>American Indians Before European Settlement</u> <u>American Indians Today</u> <u>Indian Influences in the U. S.</u> <u>Seminole Indians</u> b. Immigrants: <u>American Anniversary</u> <u>Land of Immigrants</u> <u>Immigration</u> <u>Immigration in American History</u> <u>Our Immigrant Heritage</u> <p>NOTE: If none of these films are available, there are many other films about Indians which may be substituted.</p> <p>3. Alternate or Supplemental Activity - Discuss with class, or have them read about immigrants to America from <u>each</u> of the following <u>two</u> categories:</p>

- a. Indians:
Bean Soup (Crawford), Chapters 1, 2
Billion-Dollar Sandbar (E.P. Dutton), Chapter 2
La Florida (Steck-Vaughn), Chapter 1, 2
South Florida Frontiers (Florida Power & Light), Chapter 1
 Other books may be used.
- b. Immigrants:
American Civics (Harcourt Brace), pp. 239-245
Challenges In Our Changing Society (Laidlaw), pp. 269-273.
Civics For Citizens (J.P. Lippincott), pp. 286-288
 Any American History textbook, etc. may also be used.
4. Discuss the similarities, and differences between earlier "new-comers" to America and the Cuban refugees who have fled Communism since Castro's rise to power. In addition, consider the following in the discussion:
- Who were the very first immigrants to America?
 - Are some of their descendants present in Dade County today?
 - Why did each immigrant group come to America?
 - Which group came:
 - voluntarily?
 - involuntarily?
 - for other reasons?
 - What are some of the contributions which each immigrant group has made to the United States?
 - Identify some of the problems which each immigrant group, or immigrants in general, has faced?
 - Were any of your ancestors immigrants?
 - If so, why did they come to America?

NOTE: If any pupils, teachers, parents, or others could address the class about their, or a family member's personal experience as a Cuban refugee, it might add considerably to the discussion. Encourage such (positive) responses.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
	<p>B. The student will describe the significance of the Cuban Influx.</p>	<p>If desirable, this activity might be:</p> <ol style="list-style-type: none"> A general discussion. This "Pearl of the Antilles" has a wealth of scenic beauty, historical treasures, agricultural products, and mineral deposits. Located just inside the Torrid Zone, Cuba is the largest and most populous isle of the West Indies. Cuba is gifted with a tropical climate, moderate temperatures, a long growing season, adequate rainfall, and excellent soils for tropical crops. While the general impression of the island is one of rolling hills, it is in fact quite mountainous in parts.</p>

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
		<p>To the west of Havana is the Sierra de los Organos, with elevations of 2,500 feet; toward the center of the island are the Trinidad Mountains, rising to 3,700 feet; in the east, the Sierra Maestra has peaks reaching 6,500 feet. However, more than half of the land area consists of coastal lowlands and rolling green valleys. About one-sixth of the land is forested. The rough, stony headlands east of Guantanamo Bay are semi-arid and the source of copper, nickel, chrome, and iron ores. Deep pouch-shaped bays along the irregular coastline make good natural harbors. Numerous keys and islets dot the coast, the largest being the beautiful Isle of Pines, famous for its fruits.</p> <p>5. Following the audio-visual presentation and a follow-up discussion, and using the map from the previous activity, as well as any other available reference materials, review these aspects of Cuban geography:</p> <ol style="list-style-type: none">Cuba is the largest, and one of the most beautiful of the Caribbean islands.It is the same size as which state in the United States?In addition to the U.S., Cuba is very close to which other three Caribbean area nations?Like Florida, hurricanes are an ever-present threat to Cuba.Why can Cuba truly be called a "natural botanical garden?" <p>6. Havana was once an important tourist center.</p> <p>(2) Cuba's economy has always depended on the world sugar market, despite the extensive deposits of minerals in the eastern part of the island. Even today, with Castro, sugar remains the leading crop and sugar processing the most important industry. Tobacco, now a close second in importance, has replaced tourism.</p> <p>(3) Stock raising and related processing industries are also of importance. Among the many fruits grown on the island, bananas and pineapples are of excellent quality. Today chemicals are exported along with sugar and tobacco.</p> <p>(4) Since 1959 Cuba has depended on Russian economic aid to survive.</p> <p>(5) The word Cuba comes from the Indian word <u>Cubanacán</u>, meaning <u>center place</u>. (4) About three-fourths of the people are literate; illiteracy is concentrated in rural areas -- 42 per cent was the national rural average. Some African slaves arrived in 1517, however in the 1790's, when they were rapidly imported for the expanding sugar industry, the Negro population (not all of them were slaves) exceeded the white -- until 1850. Later, others immigrated from Haiti and Jamaica for the sugar harvest.</p> <p>c. Of considerable importance, though few in number are the Chinese, who originally came as indentured servants (eight year contracts) after Spain abolished -- for the third, or fourth time -- slavery in their colony in 1845. Later, their number declined, they mixed with other races, and many became important small businessmen. In 1959 there was an influx of Chinese Communist diplomats, technicians, and others.</p> <p>d. While mainly Spanish, the dominant white population included many Europeans, along with British, Americans, and Canadians. After World War II, many displaced persons came to Cuba. Today there are technicians and military personnel from behind the Iron Curtain. Many North Americans and Europeans whose property was expropriated have left the island.</p> <p>e. Although the language of Cuba is Spanish, because of close British and U. S. ties in the past, English was (is?) practically a second language. Cubans are nominally Roman Catholic, however, Castro opposes all religions now. Several Protestant denominations established good schools, though now all are state-controlled.</p> <p>f. The standard of living before Castro was among the highest in Latin America. Cubans enjoy visiting one another's home, and meeting in clubs, cafes, and in the many plazas. Sports are popular.</p> <p>g. The family has long been the basic and most powerful institution in Cuban society, embracing not only parents and children, but other relatives also, so that it is endowed with a clannish aspect.</p>

At this point in their study of the people, students should be able to grasp the social concepts of class, culture, and social mobility, and identify some characteristics of the Cuban society -- classifying them under categories applicable in the review of any culture or society. Cuban culture might be summarized as:</p> <p style="padding-left: 40px;">A deeply-rooted African influence, reflected in the songs and dances for which Cuba is famous, is modified by the somewhat formal customs and traditions</p>

		<p>of the Spanish-European conquerors of colonial Cuba. The melting of the Spanish-Christian with the African pagan customs has produced in Cuba a distinctive cultural pattern. Cuba is supposed to be Catholic, but tolerance of atheistic communism is but one indication of the importance of the Church in the daily lives of the people. Historically, Cuban culture has been twofold: the urbane, educated and sophisticated society of Havana, and the more basic, emotionally oriented outlook of the remote regions. The goal of the present (Communist) government is to achieve one culture, but this is suppressing the spontaneous expression of the people.</p> <p>The writings of Jose Marti, liberator of Cuba, are revered by all Latin Americans, and, in translation have become a part of literature esteemed in the United States. FOCUS

OBJECTIVE

LEARNING ACTIVITIES

If possible at this time, read some of the works of the Cuban patriot, Jose Marti.

Conclude this presentation with showings of the following audio-visual resources:

a. Independence:

Films

- Life and Times of Teddy Roosevelt, The
- Headlines of the Century, Reel 1
- Headlines of the Century, Reel 2
- Headlines of the Century, Reel 3
- U. S. Expansion: Overseas (1893-1917)

Alternate Films

- Our Monroe Doctrine (unless previously shown)
- Growth of American Foreign Policy (unless previously shown)
- Other films already listed for Cuba.

b. Nationhood:

Tapes

- World Cultural Geography ITV tape, Caribbean America -- Part II

NOTE: Obtain tapes from Media Dept., and video tape records, if needed, from your district office.

Films

- Castro, Fidel

NOTE: Also utilize any filmstrips and other materials in your school, as well as commercial resources (consult "Materials" section of this course of study).

Discuss the audio-visual presentations in relationships to the subheadings for activity 4.

5. Have the students read, or if a class set is not available, read to the class about the Castro Regime:
- 1953: a new era begins
 - Castro's rise to power
 - Early days: a new government is formed.
 - The development of a dictatorship
 - Ties with the Soviet bloc
 - Nationalization and expropriation
 - Relations with the United States
 - The future?

Also, perhaps some student artists can produce their own versions of a "visual editorial" on Cuba today. Encourage thought, ideas representing the Spanish-American War through the Castro Regime -- and anything, beginning with the Indians, might be accepted. All cartoons might be compiled into a scrapbook or some other kind of record for, among other uses, utilization later in the course, a Social Studies Fair entry, and essay theme development. Individual student success may necessitate, at least for already-published materials, dedicated research.</p>

To classify the Cuban-American...</p> <p>This exercise might be further developed into a colorful and meaningful bulletin board activity.</p> <p>Encourage interested students to add other locations and figures to their map through research (see references, III. B. To classify the Cuban-American population...). Possibly this effort could lead to some interesting written reports, orally presented to the class.</p> <p>2. To reinforce the map work, show the following films which depict additional Latin influence in America:</p> <p><u>Saint Augustine: Our Oldest City</u> <u>Spanish Influence in the U. S.</u> <u>Spanish Colonial Family of the Southwest</u> <u>U. S. Expansion in Texas and the New Southwest</u> <u>Uptown: A Portrait of the South Bronx</u></p> <p>Offer these questions for discussion:</p> <ol style="list-style-type: none"> Spanish is the native language for about how many Americans? (use round numbers). About how many of these are naturalized citizens? How many other Americans might speak Spanish as a second language? Approximately how many Spanish-speaking aliens (including refugees) are there in America? Then about what per cent of the U.S. speaks Spanish? How many Spanish-speaking people in America are probably first, second and third generation Americans? In addition to Spanish, are any other languages important?

	<p>B. The student will classify the Cuban-American population centers today.</p>	<p>1. Refer the class again to the map, "Major (U.S.) Areas of Spanish-American Population." Have students plot on a vertical bar graph the number of Cuban refugees in the following areas of the United States:</p> <ul style="list-style-type: none"> a. Chicago-Gary 50,000 b. New York - New Jersey 100,000 c. Philadelphia 5,000 d. Miami 250,000 e. New Orleans 30,000 f. California 25,000 g. Puerto Rico 25,000 h. Massachusetts 7,000 i. Texas 5,000 j. Ohio 3,000 k. Other cities - areas 100,000 * <p>* Clarency Senior report in <u>Our Citizens From the Caribbean</u> (Webster, McGraw-Hill, 1965, p. 112), that by March 27, 1965, Cuban refugees had been relocated in 1800 communities throughout every state, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, and twenty-four Latin American and European nations. This figure was determined by data presented by Juanita Green of Miami Herald, who said, "In all of the U.S. there are about 600,000 Cubans and of that more than 400,000 are refugees from Castro." Also, this is an important point: How many Cubans are aliens, or refugees? How many are U. S. citizens? (Some who came from Cuba were American-born and lived in Cuba). How many Cubans are living in America before Castro? In addition, it must be noted that many children of refugee parents, are citizens, since they were born here.</p> <p>NOTE: The distinction between Cubans who are citizens, some for many years, and those who are refugees is important. Census figures on the U. S. Cuban population will be ready in October, 1971, according to Miss Greene.</p>

What is the subject of the verb in line 15? "If I could Fear once again the rising freshet, Dread the bell in the fog outside, I should be happy!" 		<p>2. Discuss with the class about the psychological and sociological effects of a life in exile upon Cuban refugees in Miami. Among the many aspects of this subject which might be discussed, consider the following:</p> <ol style="list-style-type: none"> a. In 1965, there were nearly 8,000 Cuban refugee children in Miami who had arrived without parents. b. If Castro was overthrown today, would many Cubans return to their homeland? Would many stay in Miami? c. Have the Cubans in Miami really built a new Cuban social class since 1959? Why? d. For countless Cuban families, exile in Miami has provided -- for all the despair and heartache of earlier years -- remarkable opportunities which would have been denied in Cuba. Consider: Are the rewards of today, then worth yesterday's problems of adjustment to a Cuban exile? e. Ask students if they have visited other places in the U.S., or overseas, which they disliked somewhat? Propose: "If you moved there to live for several years (before returning to Miami), under less comfortable conditions than at present, how would you adjust to your new life? Contrast this with a Cuban refugee's adjustment." f. How have age and cultural differences changed many of the old Cuban ways? (see article, p. 15-G, "Between Two Worlds," The Miami Herald, June 18, 1971.) g. Is it inconsistent to be a good Cuban and a good American at the same time? (possible essay topic) h. In what ways have the psychological and sociological problems of the Cuban refugee been less difficult in Miami than elsewhere in the U. S.? <p><u>References</u></p> <p>"Between Two World," by Janet Caucuir, p. 13-G. "Cuban Clinics Flourish With Prepaid Coverage," by Ena Nauton, p. 1-B (July 26, 1970).</p>

Most refugees since that time through, came with almost nothing except the clothing they were wearing. c. Many have received employment opportunities also here in the U.S. and financial assistance to relocate their families there through the federal government's resettlement program, the purpose being to somewhat relieve the Miami area from the total impact of exiles.

LEARNING ACTIVITIES	<p>2. Show the films, <u>Fray Felipe</u>, <u>America Del Sur</u>, <u>La (Vistas a la America Del Sur)</u>; and present a tape recording, or record that is used in learning English as a foreign language -- or present other appropriate AV resources.</p> <p><u>Alternate AV resources</u></p> <p><u>Mexico's Heritage (Spanish Version)</u> <u>Spanish: Introduction to the Language</u> Others -- consult AV catalogs, language teachers in your school, etc.</p> <p>3. Discuss with students the relationships between the themes of the audio-visual presentations and the main ideas of the volunteer reports in the immediate preceding activity, number 1. Also consider the following:</p> <ol style="list-style-type: none"> The transition from "Aqui Se Habla Espanol," to "English is Spoken Here." Because of the self-contained Miami Latin community of "Little Havana," some Cubans (about 100,000) find it generally unnecessary to learn English. In addition to Latin food markets, drug stores, and movie houses, Cubans who live, work, and play in this "Cubanized" urban renewal, have Spanish-language radio and TV stations, as well as newspapers and magazines for entertainment. Thousands of Americans have learned, and are learning how to speak Spanish. Knowledge of English is sometimes essential in emergencies such as house fires (and some public agencies are not prepared to handle emergency calls in Spanish). How can we solve our language "problem" in Miami? <p>4. Ask students where, or how an individual might learn English, or <u>Spanish</u> in Dade County:</p>

Is TV doing its job now?</p> <p>z. Present other evidence of important Cuban customs and institutions.</p>

NOTE: For as many of these "things to do" as possible, draw upon material in activities throughout the study.

2. Ask the groups why it is a necessity that Cuban refugees in Greater Miami retain their cultural heritage; have students identify the major as well as minor evidences of Cuban culture that exists here; list and be prepared to explain the specific value of these cultural traditions; and to assess the exiles' need for remembering elements of their true history. Remind students to also consider both American customs which the refugees have acquired, and new, or "mixed" ways of (Cuban - American) living that have developed in Miami since 1959.

	<p>B. The student will contrast the civic, cultural, and citizenship effects of the Cuban influx.</p>	<p style="text-align: center;"><u>OUR LATIN ACCENT</u></p> <p>The 1970's marked the second phase in the Cuban influx. As this decade began, these refugees -- about 500 every week -- were still flowing into Dade County in flight from Castro. At this rate, one resident in four will be Latin by 1975. We have learned though, that there were, prior to the Cuban <u>revolution</u>, numerous contacts with Cubans in South Florida.</p> <p>Exiles made several <u>abortive</u> attempts at returning to Cuba, but it now appears that they are a permanent part of the Miami scene. The U. S. Government aided our Spanish-speaking neighbors with <u>federal assistance</u> for school children, college loans, and the <u>establishment of the Cuban Refugee Center</u>. Today, success stories are part of local <u>follore</u> -- in sports, in education, and in restoring pride in their own <u>heritage</u> and traditions, the exile has achieved a unique place in Gold Coast history.</p> <p>1. View the TV tape, <u>This Exile and This Stranger</u>. What were the problems which the exiles themselves identified in the program? b. How have some refugees overcome these problems? c. Describe some civic contributions by the Cubans. d. Have many of them become citizens? Why, or why not? (Or do many have intentions of becoming citizens?)

3. Some student statisticians and others might be interested in (substituting this activity for number 1) examining other Latin economic influences:
- Which of these business activities are dominated by Cubans? (Identify per cent of domination?)
 - What other types of work activities do Cubans influence, despite lack of Cuban ownership?
 - Identify some other types of Latin-owned businesses?
 - How many Cuban-owned companies are there in total?
 - Are there any particular reasons why Cuban exiles own most of the businesses in any one category?
 - Classify the companies in each category as either "small businessman," or "large company."
 - Report on the Cuban millionaires.

A DIVERSE ENVIRONMENT

In the " (2) City," a (13) persons are working in offices, hotels, and (4); some are even employed in mining (8); most Miamiams drive to their jobs from Dade's twenty-seven (10) and towns on (1). Fewer people live in South (5); here many work on (17). All are governed by (21).

On balmy weekends large numbers visit Cape (3) and other beaches via (15) that connect nearly every offshore (7) with the mainland.

(14) winds carry the warmth of an (11) current, the (6), to the land in the winter; in summer, they bring coolness. The (23) shines almost every day. This fabulous climate lures millions of "Snowbirds," who fly here each (19) as well as each winter.

Today Cuban exiles are remaking the area into the " (20) of the Americas."

But the (12) is threatened; (22) (abbr. major airline) 727's, among others, bombard schools and tourists alike with (9) -- one of several pollutants attacking us. Perhaps our new university, Florida (18), can help save our environment in South Florida?

No longer can we dump our sewage into the (16) ! So you see, our environment is diverse, as well as complex. Now let us take a look at Greater Miami's society, which is as diverse, if not more so.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
		<p>2. Discuss briefly further aspects of Miami's environmental diversity.</p> <p>3. Have four students volunteer to debate in favor of the following issue and four students in opposition to it:</p> <p>Resolved: The United States Government should continue the Cuban Airlift indefinitely.</p> <p>1. Have students find out the Cuban refugee population growth for Dade County in one-year intervals beginning in 1960; from the information gathered, draw a graph and display it in the classroom; use as a source, "Cubans in Dade: 1 in 4 by 1975," by Juanita Greene, p. 2-G, The Miami Herald, June 18, 1971. His articles includes a chart, "Cuban Migration to the U. S. -- 1960 to 1970," from which the necessary data for the graph may be extracted; for best results, use the column that is entitled <u>Cuban Refugees in Dade County.</u></p> <p>Upon completion of this activity, discuss the following questions:</p> <ol style="list-style-type: none"> Which one-year period had the greatest growth in population? Why do you think this was so? Which one-year period had the second greatest growth? Why? Which one-year period had the least growth in population? S. citizens who lived in Cuba (some of these are native Americans, others being Cuban-Americans -- even today there are about 2,000 "Americans" in</p>

2. Ask students to write a composition about "achieving a working balance ...," solving our urban problems, thereby helping to make South Florida one of the most beautiful and most desirable places to live in the decades that lie ahead.

7: THE STUDENT WILL PREDICT HOW HIS OWN, AND OTHERS' INVOLVEMENT IN HIS SOCIETY WILL AFFECT THE FUTURE RELATIONSHIPS OF CUBAN AND OTHER SOCIAL UNITS IN DADE COUNTY, AND SUGGEST POTENTIAL MEANS OF BETTERING HUMAN RELATIONS ON A LOCAL LEVEL.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>THE FUTURE</p> <p>In this part, it is useful to refer initially to the previously completed section on Cuban culture--in Cuba, and in ca (see "cultural contributions" in Part as well as other ones of the study.</p>	<p>A. The student will defend reasons why Miami is becoming a bilingual, international city -- a true "Gateway to Latin America."</p>	<p>1. Social scientists have identified four processes that can take place when two or more different cultural groups come into contact in the same geographic region;</p> <p>See: <u>Tradition and Change In Four Societies</u> (Holt, Rinehart, and Winston), pp. 11-12.</p> <p>Introduce these processes to the class:</p> <ol style="list-style-type: none"> a. Amalgamation - The physical or biological blending of peoples through such measures as intermarriage into a single, new cultural group. b. Assimilation - A social process through which cultural differences between groups of people are gradually reduced or eliminated. c. Accommodation - A social process through which conflicting groups settle their differences while retaining their separate identities. d. Extermination - The process by which the members of one group kill all the members of another. <p>NOTE: Also consider the term:</p> <ol style="list-style-type: none"> e. Acculturation - A process of intercultural borrowing between diverse peoples resulting in new and blended patterns.

Apply the terms in the introduction in activity 1 to the previous three questions. Discuss. What about the future -- more Cuban American? more American? or more Cuban culture in Miami?

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>B. The student will estimate how many exiles might return to Cuba if Castro falls.</p>	<p>3. Have the class construct a large Cuban-American mural. If possible, make it visible to the entire student body of your school.</p>	<p><u>Teacher's mural-making hint</u></p> <p>In addition to making things for the mural in the classroom, and/or to save on class time, have students (after careful planning) do the time-consuming activities such as tedious coloring-painting, detail work, etc., at home, and then bring "semi-finished" parts of the mural back to class.</p> <p>1. Read to the class the article, "Phone Lines, Mafi Link Lilies to Cuba," by Frank Soler, p. 25-G (<u>The Miami Herald</u>, June 18, 1971). Ask: "If there is so much communication between exiles in Miami and their Cuban friends and relatives in Cuba, then might there be a <u>large number of Cubans who would return to Cuba if and when Castro is overthrown?</u>"</p> <p>2. Since some major changes in Cuba must occur before exiles could even consider returning, discuss the possibility of Castro being overthrown, and/or the U. S. and Cuba establishing some type of friendly relations (similar to Red China-U.S.'s proposed meeting of heads of state).</p> <p>Direct students to write an essay: "If Castro Falls, Few (or Many) Exiles Will Return."</p>

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
	<p>C. The student will formulate hypotheses for -- the Cubans are Miami's Great Hope.</p>	<p>3. Ask the class to consider: As the Cubans have become such a permanent, successful part of life in South Florida; and if perhaps anti-Castro guerrillas overthrew the present Cuban government, took control of the island, and the "Cuban Situation" suddenly changed; then most of the Cubans in Miami would probably remain here? Why, or why not? Discuss.</p> <p>Consider briefly, too, the history of Cuban exile anti-Castro guerrilla activity.</p> <p>See if the class would be interested in making a survey to determine what per cent might return: visit Cuban-owned businesses on Flagler, or S. W. Eighth Street, and ask the camera-managers; conduct a telephone poll; question students in public schools with a high Latin enrollment; get a Latin private school to cooperate; survey other social studies classes in your own school; survey citizens in a shopping center; etc.</p>
		<p>1. Read to the class the following two newspaper ads (<u>The Miami Herald</u>, June 18, 1971):</p> <p>a. The Inter National Bank of Miami, p. 22-G.</p> <p>b. Flagler Federal Savings and Loan Association, p. 38-C.</p> <p>NOTE: If possible, obtain a copy of Mr. William L. Pallo's address presented during Pan American Week (see the ad reference above; contact the bank to determine if it's available).</p> <p>Discuss the question: Are the Cuban exiles really Miami's Great Hope?</p>
		<p>2. For another viewpoint, judge Nixon Smiley's article, "The Cubans in Crowder, But a Yen ..." (<u>The Miami Herald</u>, June 15, 1971), p. 8-G.</p>

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
		<p>Consider this comment by Mr. Smiley:</p> <p>The readjustment of the Cubans in Miami has not been painless, no less for the natives than for the Cubans.</p> <p>What about his penetrating summary?</p> <p>The Cubans are Miami's great hope. While the city's leaders are talking about plans for revitalizing the city, the Cubans are transforming Miami into what can be one of the most interesting and attractive international cities in the Western Hemisphere. All they need is a little help from their friends.</p> <p>Ask students:</p> <ol style="list-style-type: none"> Is the author qualified to issue such statements? Why, or why not? Discuss. Are both of his comments agreeable to yours? Explain. Have the Americans really had as difficult an adjustment? What about the future of the Cubans in Miami, the future of the area, and every American's future? <p>3. <u>Course Conclusion:</u></p> <p>For a possible summing-up, perhaps a practical approach might be to consider <u>attitude change toward greater understanding of others' (or if Cuban, self) cultural backgrounds, in relation to the above questions and comments.</u></p>

II. ALTERNATE CLASSROOM MATERIALS:

A. Textual

- ** Alexander, Robert J. Latin America. New York: Scholastic Book Services, 1967. (A paperback introduction to the history, geography, cultures, and political and economic problems of the Latin American countries, with a good section on Cuba, pp. 132-138, which briefly covers Cuban history and relations with the U.S. from 1900 to 1959 and after, the Castro revolution, and Cuba under Castro; also contains other references to Cuba).
- Copeland, Leeila S. and Lovell, J. E. La Florida -- Its Land and People. Austin, Texas: Steck-Vaughn Co., 1957. (A very good junior high school history textbook -- especially for discovery and exploration, and the Spanish periods).
- * Dicker, David and others. Urban American -- Problems and Promise. New York: W. H. Sadlier, Inc., 1971. (Includes accompanying research and discovery workbook, Your City, with 192 pages of interesting and relevant activities; also includes Teacher's Guide for the text; the text covers a wide range of urban topics, including tensions among urban groups, social problems, the Mexican-Americans, the Puerto Ricans, and the future of our cities).
- ** Encyclopedia Britannica. (An excellent source for Cuban history, geography, and culture; the Castro regime; Spanish-Americans other than Cubans; etc.).
- Fagan, Richard and others. Cubans in Exile. Stanford: Stanford University Press, 1968. (Disaffection and the revolution -- who the refugees are and why they left Cuba; covers the entire U. S. and touches slightly upon the Miami area).
- * Golberg, Daniel. Challenges in Our Changing Urban Society. Riverforest, Illinois: Doubleday, 1971. (Very useful, up-to-date all-purpose junior high school social studies textbook; includes Teacher's Manual; among other topics, includes references to Miami Beach, Inca and Aztec cultures, Brasilia and Buenos Aires, minority groups and city life -- including Mexican-Americans and Puerto Ricans, among others, although the only item about Cuba is a photo on page 272 showing 125 refugees arriving aboard a small fishing boat at Key West in 1965).

- ** Greene, Juanita. "Cubans in Miami: The Economics of Impact." The Miami Herald, p. 7-A, July 13, 1971. (A most relevant and current source, as of July, 1971, -- each story at this editorial - "Viewpoint" - page column, the Cuban influx, and is written by the newspaper's Urban Affairs Writer, Miss Green; other subjects dealt with include education, welfare, employment, and the exile community).
- ** Greene, Juanita. "Miami's Silent Majority." Tropic (The Miami Herald). pp. 16-22, April 18, 1971. (Excellent material -- one of the very few available sources on the life of South Florida's 30,000 Puerto Ricans).
- ** Kofoed, Jack. The Florida Story. New York: Doubleday, 1960. (One chapter entitled "Florida's Suburbs -- Havana, Nassau, and Jamaica" is especially good for impressions of the cosmopolitan life of Cuba's capital city before Castro).
- * Linder, Bertram L. Economics for Young Adults. New York: W. H. Sadlier, Inc., 1971. (Excellent brief references on the migrants, Indians, Puerto Ricans, economic and social problems of city-urban areas, middle class living, different levels and changes in levels of living, the poor and their war on poverty, consumers, and Americans at work).
- Muir, Helen. Miami, U.S.A. Coconut Grove, Florida: Hurricane House, 1963. (Best history of Dade County, although it only takes the story up through the early 1950's).
- ** Redford, Polly. Billion-Dollar Sandbar. New York: E. P. Dutton, 1970. ("A Biography of Miami Beach" -- an in-depth, up-to-date coverage, that has already won several awards, which has several references to the Cuban influx, among other Cuban items).
- ** Reese, Lisle M. Bean Soup. Jacksonville, Florida: Crauford, 1964. ("Florida with a Spanish Accent" -- a concise, well done sketch of Spanish influence since 1513; includes one chapter, "Se Habla Espanol -- Miami, Tampa, and Key West," that should be read by every junior high school student in the state of Florida).
- ** Senior, Clarence. Our Citizens From the Caribbean. St. Louis: Webster Division, McGraw-Hill, 1965. (One of the Americans All series; stresses the Puerto Ricans, although the book section deals with the life of the Cubans -- including a good brief history of (U.S. as well as the Cuban influx; available, among other places, in the Teachers Professional Library).
- ** Smith, Mike. South Florida Frontiers. Miami: Florida Power and Light Co., 1957. (Good text for South Florida history up to the book's copyright; good coverage on the earlier Spanish influence on the state, and has numerous references to pre-Castro Cuba).

** The Miami Herald. "Our Latin Accent." (Special 46 page section on the Cuban impact) pp. 1-46-G, June 18, 1970. (An indispensable resource almost for use in this study -- contains 46 articles on the life of the exile, their problems, successes etc. This may be purchased from The Miami Herald).

South American Handbook. (Published each year since 1926 by Tade and Travel Publications, Ltd., 14 Leadenhall Street, London -- typical of the type of material which reveals times both before and after the revolution, as well as Cuban history, glimpses of many different parts of the country, and items on geography, people, commerce, etc.).

** World Book Encyclopedia. (Good source for background information on the people, geography, and history of the island of Cuba).

* New Florida state-adopted textbooks for 1971-72.

** Of particular interest and use in this course of study.

NOTE: In addition, in order to update this study, one should continually be alerted for more material in the newspapers, magazines, periodical school publications, etc. Also, consult other library reference books, vertical files; history and geography textbooks about Latin American and especially Cuba; and check with your school librarian.

B. Television Tapes

Caribbean American - Part II. Dade County Schools Media Center. 1 TV tape, 1969. See p. 76, World Cultural Geography ITV Teacher Guide Supplement (Tele-lesson), and p. 284, World Geography Guide. (Latin American dictatorships: direct focus on Cuba, its history, and the rise of Castro).

The Spanish Culture TV Series. Dade County Media Resources Center, 1969, 8 TV tapes, color. (Deals with Spanish, not Cuban culture, but probably quite useful).

This Exile and This Stranger, WFTS, 1971. 60 min. ESL. (July 5, 1971, presentation which surveyed the "Plight of the Cuban exile" -- interesting program consisting mostly of interviews of refugees, showing their views on the problem, contributions, and future of the exile -- should be available from the Media Department on 1st floor in the fall of 1972 -- teachers can obtain WFTS through their district office, if they are not available in their school, in order to use this pertinent audio-visual resource).

Pepito. WTVJ, 1961, 27-54 min. (The story of a representative Cuban child's initial adjustment to life in Miami -- may be available; arrangements must be made between the Media Dept. and Channel 4).

Pepito Revisited. WTVJ, 1965. 27-54 min. (An update of the first program, Pepito -- may be available).

NOTE: Some of these tapes might be transferred to film, thus assisting wider use. Also, the commercial stations, as well as WPET, should continually be contacted for other "undiscovered" programs, and, in addition, those in production, or planned to be produced soon.
