ABSTRACT

Combined cumulative indexes are provided for the four issues of "Abstracts of Instructional Materials in Vocational and Technical Education" (AIM) and of "Abstracts of Research Materials in Vocational and Technical Education" (ARM), both published during calendar year 1972 as Volume 5, Numbers 1-4. Researchers, supervisors, teacher educators, education specialists, administrators, and teachers may use this index as a tool in searching by subject or by author for materials acquired and processed by the Educational Resources Information Center (ERIC) Clearinghouse on Vocational and Technical Education. Major sections include: (1) Subject Index, (2) Author Index, and (3) Conversion of Document Number Index. Instructions for ordering documents and VI/ERIC Microfiche collections are provided. The Conversion of Document Number Index is cumulative from Fall 1967 through Volume 5, Number 4, 1972. Within the first two sections, materials are listed by VT identification number, including the title, ED Identification number if available in "Research in Education", and the number and page of the applicable issue of AIM or ARM in which the full abstract is located. MISSION OF THE CENTER

The Center for Vocational and Technical Education is an independent unit on The Ohio State University campus. It serves a catalytic role in establishing consortia to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach and interinstitutional in its program.

The Center's mission is to strengthen the capacity of state educational systems to provide effective occupational education programs consistent with the individual needs and manpower requirements by:

- Conducting research and development to fill voids in existing knowledge and to develop methods for applying knowledge.
- Programmatic focus on state leadership development, vocational teacher education, curriculum, vocational choice and adjustment.
- Stimulating and strengthening the capacity of other agencies and institutions to create durable solutions to significant problems.
- Providing a national information storage, retrieval and dissemination system for vocational and technical education through the affiliated ERIC Clearinghouse.

This publication was prepared pursuant to a contract with the National Institute of Education, U.S. Department of Health, Education and Welfare. Contractors undertaking such projects under Government sponsorship are encouraged to express freely their judgment in professional and technical matters. Points of view or opinions do not, therefore, necessarily represent official National Institute of Education position or policy.

ORGANIZATION OF THIS INDEX

This volume cumulates the indexes that appeared in the quarterly issues of Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and Abstracts of Research Materials in Vocational and Technical Education (ARM), Volume 5, No. 1 through Volume 5, No. 4.

This cumulation is intended to be a companion volume to the individual issues of ARM and AIM, which contain the complete resumes of documents.

Three indexes are provided in this volume:

Subject
Author
Conversion of Document Numbers (1967-1972)

Each entry in the Subject and Author indexes shows the title of the document; the VT number and, if any, the ED number; and the publication name, volume and issue numbers, and page on which the resume appears. The searcher can use this information to locate the particular volume of AIM or ARM in which the resume appears.

Instructions for ordering copies of individual documents appear in each issue of AIM and ARM.

WE ENCOURAGE THE FORWARDING OF TWO COPIES OF ITEMS

SUBJECT INDEX

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the Thesaurus of ERIC Descriptors, are listed in alphabetical order.

As shown in the example below, the AIM or ARM volume-issue numbers, and the page on which the document resume appears are displayed above the title.

DOCUMENT ORDERING INSTRUCTIONS

All documents cited in this publication are available in their full text. Availability is by one of the options listed below:

1. ORIGINAL COPY FROM PUBLISHER OR SUPPLIER

These documents have an availability listed in the resume. Often such documents are not available by any other means.

2. MICROFICHE AND HARD COPY REPRODUCTIONS

Documents with ED numbers are usually available individually on microfiche (\$0.65 a title) or paper copy (xerox - \$3.29 per 100 pages or fraction thereof) from:

ERIC Document Reproduction Service (EDRS)
P.O. Drawer 0
Bethesda, Maryland 20014

Orders must specify ED number. A sample order form follows this page.

3. MICROFICHE SETS

Documents with VT numbers only are not available as individual microfiche, but most are part of VT-ERIC microfiche sets.

A microfiche set contains all the documents announced in a single issue of AIM which are not available by one of the options outlined above. These documents are filmed continuously in VT number order, and each set is assigned a single ED number.

VT-ERIC microfiche sets are available

- a. In any complete collection of ERIC microfiche.
- b. As VT-ERIC microfiche sets purchased individually. (See page 709 for price lists of these sets)
- c. From institutions (e.g., state research coordination units) which have the VT-ERIC microfiche sets and are willing to provide microfiche duplicates of individual VT numbered documents.

Since ED numbers are assigned after announcement in RIE, ED numbers for the microfiche set corresponding to this publication can be obtained from future issues of AIM, ARM, and RIE.

THESAURUS OF ERIC DESCRIPTORS

A NEW EDITION

This definitive vocabulary of education has been developed and brought up-to-date by educators who review the literature in their field. The *Thesaurus* is the source of all subject headings used for indexing and for retrieval of documents and journal articles in the ERIC collection.

The *Thesaurus* will serve to give all educators an increased awareness of the language of their field. It is as useful for the active teacher, or the student of education, as it is for the information specialist.

Foreword by Dr. Frederick Goodman of the University of Michigan, entitled "The Role and Function of a Thesaurus in Education." This Foreword brings to professional educators the insights of one of the leading experts in the field of vocabulary development and communication.

This 4th edition of the *Thesaurus of ERIC Descriptors* supersedes all previous editions. Newly assigned descriptors and rotated descriptor display as of March 1972 are included.

358 pages. Cloth, \$8.95. Paperback, \$6.95.

ERIC Clearinghouses Each of the 18 clearinghouses, as well as acquiring, reviewing, abstracting, and indexing the documents announced in **Research in Education**, also prepares bibliographies and interpretive summaries of research which appear in **Research in Education** and are disseminated through the ERIC Document Reproduction Service. Because clearinghouses have limited resources for providing detailed replies to inquiries for information on specific topics, educators are urged to subscribe to **Research in Education** and obtain the other ERIC publications to search for desired information.

ERIC clearinghouses are listed below, but individuals desiring additional information concerning ERIC and its function are encouraged to contact:
