ABSTRACT

An imaginary trip to Spain is outlined in this minicourse guide. Several of the course objectives are (1) to give students a broad overview of Spain--historically, geographically, and culturally; (2) to develop interest in Spain and the Spanish language; (3) to introduce useful Spanish vocabulary; (4) to develop an awareness of cultural differences facilitating the acceptance of such difference; and (5) to show that travel can be an enjoyable and educational experience. The outline points out information to be covered, activities, and Spanish vocabulary for the five areas included in the course: preparation for the trip, arrival at the destination, accommodations, food, and traveling in Spain. A bibliography and suggestions for evaluation are included. (RL)

LETTER OF TRANSMITTAL

The mini-course guides accompanying this letter are illustrative of the increased educational options available to students under our new flexible quarter programs. Courses such as these can be developed to meet varying needs, interests, and abilities of individual students.

The mini-courses serve to enrich the student's experience by enabling him to explore a variety of different offerings or pursue intensively a specific interest or idea. We believe this heightens and dramatizes a basic purpose of education--to cultivate one's natural curiosity, self-motivation, and direction.

Educational options of the kind exemplified in these courses present exciting challenges and rewarding opportunities to teachers as they try to meet the demands of this age of acceleration and pervasive change.

Your associates who have worked so industriously to prepare these guides have twin hopes for the results of your working with them: that you and your students will find them helpful, and that you will freely offer suggestions for their improvement.

Best wishes for continued efforts to enlarge and improve educational experiences.

Introduction

This course of study is designed to provide a "relief" from the regular foreign language studies and to intensify interest in the foreign language programs. We are offering this mini-course (an imaginary trip to Spain) to give students insights into Spain, its culture, and its language. The teacher will use the procedure of planning a trip with her class. The successful presentation of this course hinges upon the creativity and flexibility of the teacher. Students will be involved as much as possible in discussions and activities. Appropriate vocabulary will be introduced whenever possible. We are hoping in this manner to inspire students to pursue their study of Spanish with renewed enthusiasm, to give new students the impetus to enter the regular foreign language program, and to simultaneously inculcate the objectives that we have set forth.

Objectives

1. To give students a broad overview of Spain--historically, geographically, and culturally
2. To develop interest in Spain and the Spanish language
3. To introduce useful Spanish vocabulary
4. To develop an awareness of cultural differences facilitating the acceptance thereof
5. To show that travel can be an enjoyable and educational experience

Suggestions for Evaluation

1. To have several students play the role of the travel guide for sections of the journey
2. To allow the students to perform in skits and dialogues which reflect the information and vocabulary learned
3. To have the students draw maps indicating their knowledge of the planned itinerary
4. To encourage the artistically inclined students to make representations of Spanish landmarks and monuments
5. To allow students to exhibit Spanish realia such as monies, stamps, etc.
6. To highlight as a major part of the evaluation student participation in class discussions of the imaginary trip
