FACT BOOK - 1973

STATE UNIVERSITY SYSTEM OF FLORIDA

FOREWORD

In this fifth annual edition of the FACT BOOK several significant developments have been incorporated into the updated contents. Two of these are the opening of Florida International University in Miami with 5,126 students and the University of North Florida in Jacksonville with 1,996 students, boosting the 1972 fall enrollment of the system to 88,426.

The FACT BOOK was initiated in 1969 to provide a convenient and authoritative source of information on the operations of the State University System. It is distributed inside and outside the University System as a systemwide reference

for members of the Legislature, state agencies, members of the Board of Regents and its staff and university administrators, faculty members, students and parents.

Information contained in the FACT BOOK is supplemented by University catalogs, faculty handbooks, and other publications of the individual universities.

The SUS Management Information Systems, 107 West Gaines Street, Tallahassee, will be pleased to receive suggestions for modifications or additions to the FACT BOOK.

VI. Miscellaneous

STATE UNIVERSITY SYSTEM OF FLORIDA

Florida Participation in Southern Regional Programs

The State of Florida pays the institution \$1,800* per year for each student who attends a regional school of dentistry or \$3,000 per year for each student who attends a regional school of veterinary medicine, to help defray overhead and operating costs to the limit of the number of places given in the contract. In the case of students attending a school of medicine, the payment to the institution will be \$2,750. Institutions with students in Actuarial Science will receive \$400** per year per student. For the latter program this amount is credited against the student's tuition fee.

A Florida student who is accepted by a state university within the quota for the Regional Plan is permitted to enroll in the same category as a student who is a legal resident of the state in which the school is located. The student is required to pay the usual tuition, fees, board, room and other expenses charged by the institution. Private institutions accepting Florida dental and medical students under the contract with the Southern Regional Education Board will reduce the tuition for each student by the amount of \$250 per year.

* To increase to \$2,750 in 1973-74.

** To increase to \$900 in 1973-74.

STATE UNIVERSITY SYSTEM OF FLORIDA

Florida Participation in Southern Regional Programs

Since 1948 the State of Florida has contracted with the Southern Regional Education Board for the education of a restricted number of qualified Florida students to attend out-of-state professional schools. Under the current program, Florida students attend professional schools in Medicine, Dentistry, Veterinary Science, and Actuarial Science.

VII. Glossary

Glossary

Enrollment - Full Time Equivalent (FTE)

Enrollment computed by dividing a constant student credit hour load into the total student credit hours produced. (15 hours for undergraduate and 12 hours for graduate)

Enrollment - Head Count

Total number of students enrolled regardless of the number of credit hours.

Educational and General

The educational functions of a university and those general activities which directly serve those functions. Included would be instructional departments and colleges, state-supported research activities, university administration, library, operation and maintenance of physical plant and organized activities related to instruction. Not included would be auxiliaries, contracts and grants, debt service, scholarships and loans, etc.

FTE

Full time equivalent.

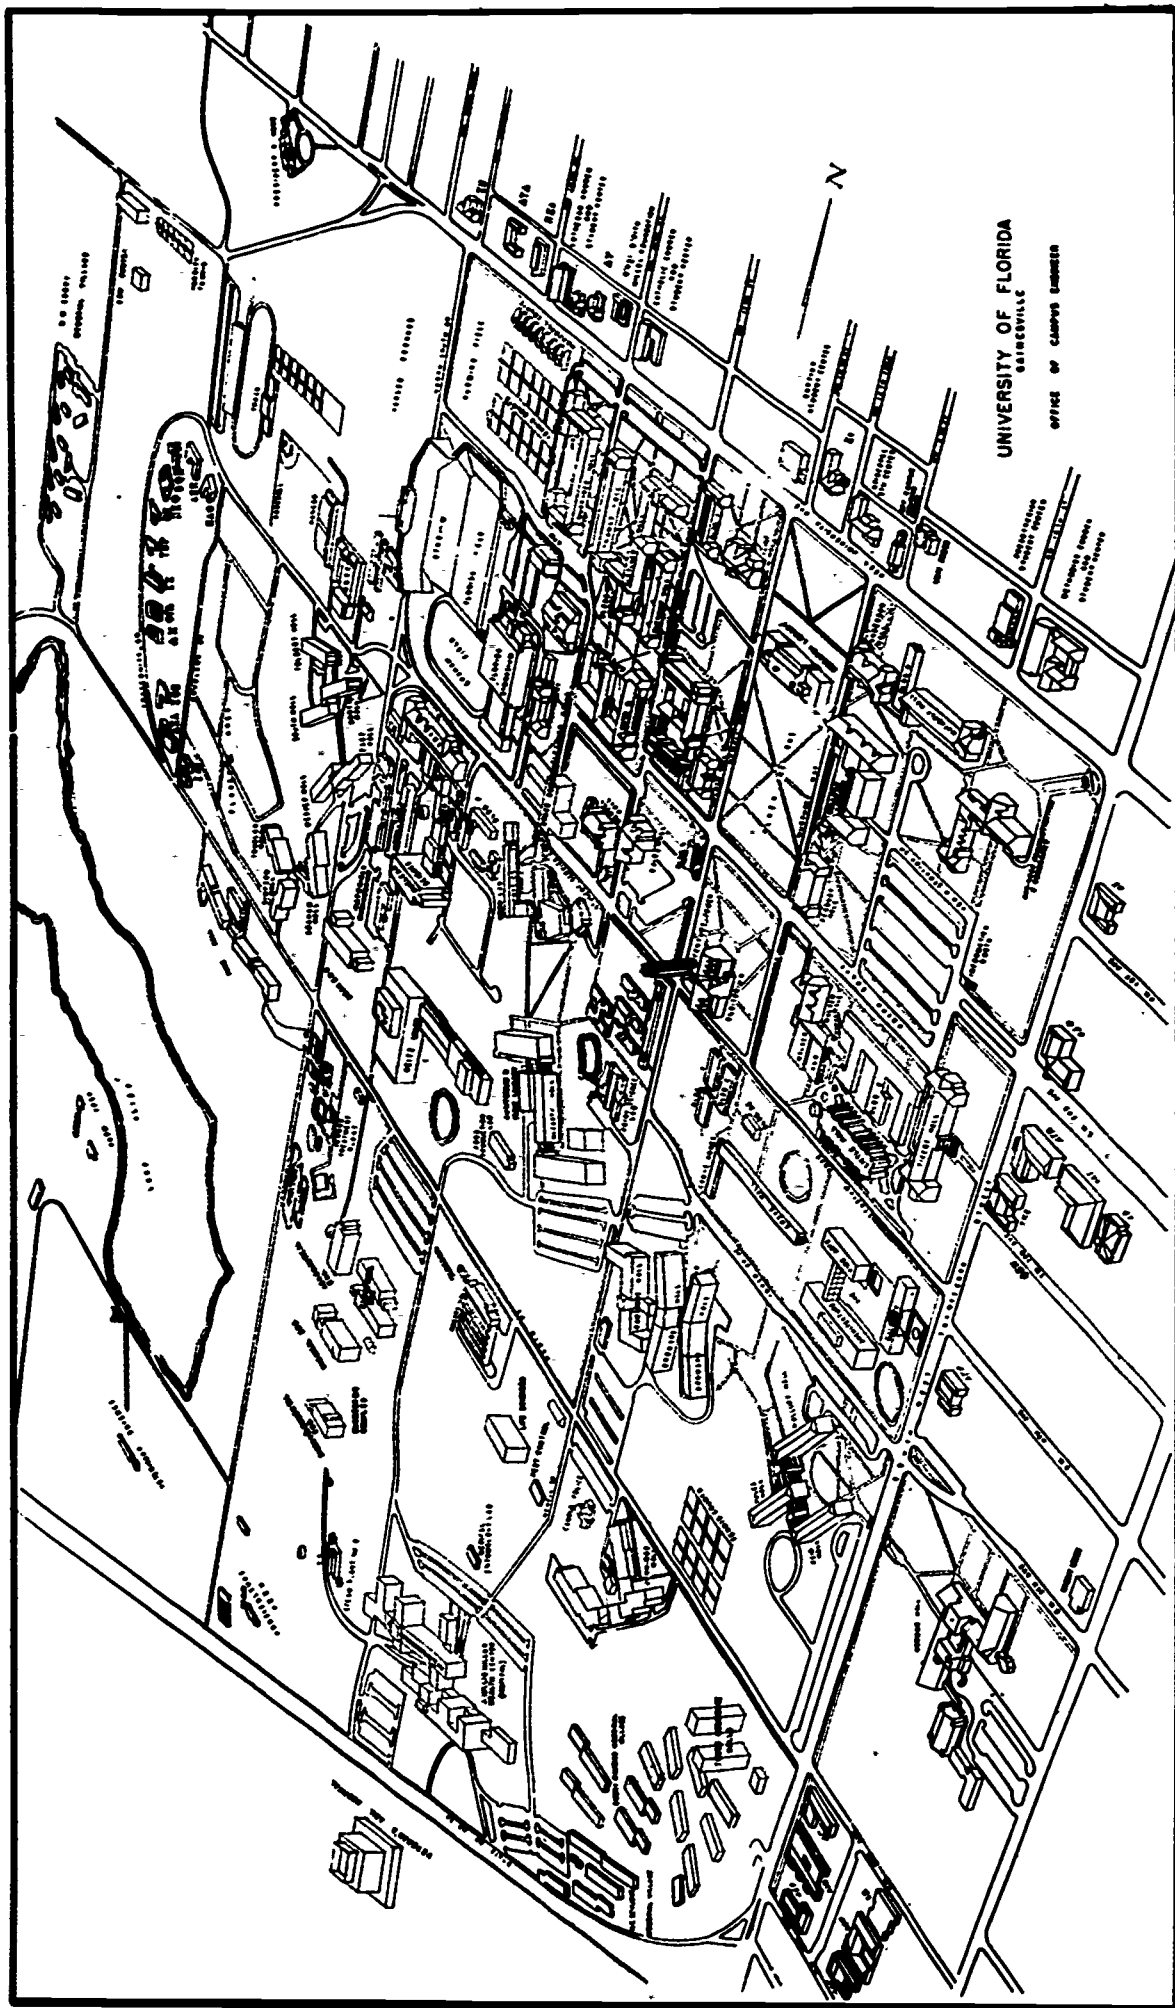

General Revenue Funds

Those funds provided from the tax revenues of the state which are appropriated by the Legislature.

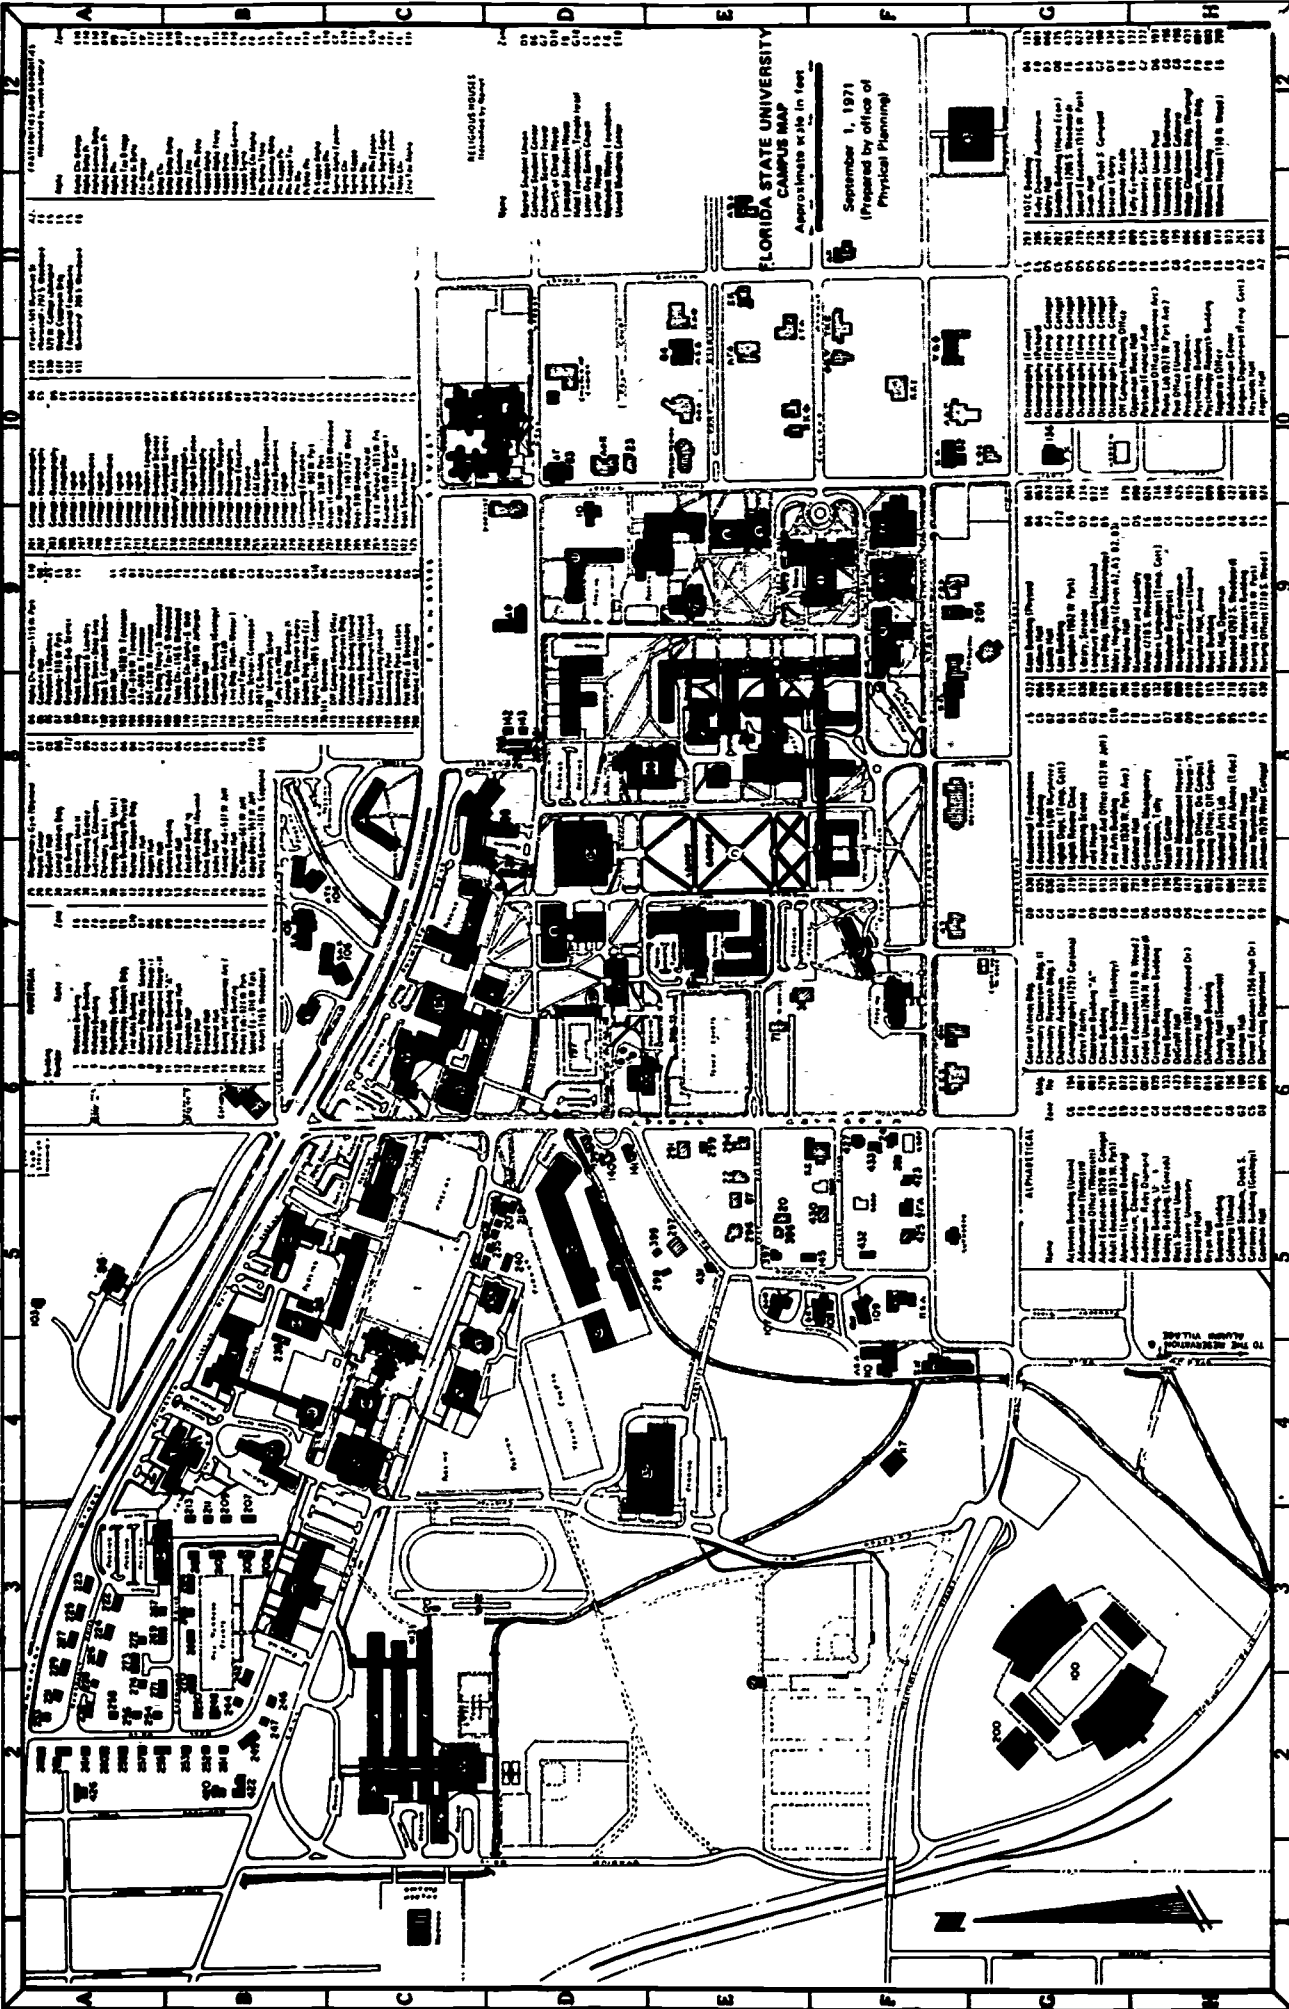

Trust Funds

Those funds, other than General Revenue, used to support the operation of the University. They might include student fees, miscellaneous sales, contract and grant indirect cost allowance, etc. For summary purposes, contracts and grants are also considered to be trust funds.
