ABSTRACT

This report documents a research project conducted to ascertain what specific occupational competencies are necessary for employees in the food service industry. Questionnaires were mailed to employers, in restaurants and hospitals and to graduates of high school and postsecondary food service programs. The respondents completed 316 position evaluations in 16 different job classifications. Most of the document consists of the tabulated survey data, summarized to list the competencies needed for the 16 jobs areas by common elements for all 16 and also by competencies believed significant for specific jobs. From these data a curriculum will be constructed based on realistic food service job competencies and articulated among secondary education, postsecondary vocational education, technical education, and higher education. This project was funded pursuant to a grant with the Wisconsin Board of Vocational, Technical and Adult Education, thru use of federal funds from the U.S. Office of Education and by matching funds provided by the Southwest Wisconsin Vocational-Technical Institute. The views or opinions stated in this report are those representing the professional judgment of the investigators and do not necessarily reflect the views of the participating agencies.

#### **ACKNOWLEDGEMENTS**

'The researcher wishes to acknowledge and thank the members of the Curriculum Articulation Committee for the Food Service programs of the State of Wisconsin. Without their encouragement and assistance, the project would not have been undertaken. I further wish to thank the administration, staff and students of the Southwest Wisconsin Vocational-Technical Institute for their cooperation and support. Specific individuals at the Institute include Mr. Ronald Anderson, Mrs. Charlotte Brainerd, Mr. Daniel Wagner, and Mrs. Sally Kinder. Sincere appreciation is also extended to Miss Helen Scheve, Home Economics Education, and Mr. Roland Krogstad, Vocational Education Consultant, Research, Wisconsin State Board of Vocational, Technical and Adult Education for their financial support in federal funds and invaluable consultant support. I also wish to sincerely thank Dr. Elizabeth Monts of the University of Wisconsin, Madison for her supportive guidance in project development and operation. Finally, gratitude is expressed to graduates and employers who were willing to give their time and energy in a effort to make the survey a success

#### SUMMARY

The research project was conducted to ascertain what specific occupational competencies are necessary for employees in the expanding and diversified Food Service industry.

Questionnaires were mailed to two hundred forty-four (244) hospitals, restaurants, and graduates. Seventy-five (75) respondents were divided into four groups, those who are:

graduates of high school food service programs graduates of post-secondary food service programs employers in restaurants employers in hospitals

The respondents completed three hundred sixteen (316) position evaluations that include sixteen (16) different job classications.

The positions evaluated include: Baker & Pastry Cook, Bartender,
Busboy, Chef, Cook, Counter Person and/or Carhop, Dietary Aid, Food
Service Supervisor, Food Service Worker, Host/Hostess, Kitchen Worker,
Manager, Pantry Man/Woman, Short Order Cook, Sous Chef, and Waiter/
Waitress.

The data was received and tables—prepared which summarize the competencies necessary for sixteen (16) different food service jobs. The data is listed by common elements for all sixteen (16) positions and job competencies that respondents believe are significant for a specific job are also indicated. This resultant data will be reviewed, assimilated and acted upon by a food service workshop that will construct curriculum based upon realistic competencies. The curriculum generated will not only be competency based but articulated between secondary education, post-secondary vocational education, technical education, and higher education.

#### CHAPTER I

#### INTRODUCTION

Problem and Need:

Currently within the State of Wisconsin in post-secondary education, there are six associate degree programs, one 2-year diploma program and eight 1-year diploma programs in addition to numerous secondary level courses and extension courses in the field of food service. At the secondary education level there are 25 food service educational programs. Most of these existing programs have separately developed curriculum. Considering the present expansion and innovations in the food service industry, it is vital that an articulation be made within the State for secondary and post-secondary vocational programs and associate degree programs within the food service industry.

The problem, therefore, is to develop guidelines to be used statewide for existing and proposed programs in secondary and post-secondary vocational-technical food service. At present there is not in existence a suggested statewide guide for the food service programs. It is believed that the development of a program of articulation would foster review of existing programs and assist institutions in developing new program offerings at appropriate ... educational levels.

The problem was ascertained at the Southwest Wisconsin Vocational-Technical Institute when a lack of information of an analytical nature was apparent that hindered staff efforts in integrating an existing vocational program with a proposed technical level food service program. Educators and students also are concerned with the apparent duplication of courses required in the various food service programs. A definite need for a realistic career ladder in food service from secondary through associate degree programs with realistic job task competencies at each specific level has been identified.

The Objectives of the Study:

- 1. The main purpose of this study is to identify competencies that employers and employees consider necessary to perform the duties of different food service positions.
- 2. The resultant data from this study will be used to facilitate development of a statewide food service model for use in articulation of food service instruction within secondary and post-secondary vocational and technical programs related to realistic employment competencies.
- 3. The resultant data will enable the curriculum builders in the 1973 food service articulation workshop to design an articulated curriculum on the basis of competencies that will be recognized by employers and students as being occupationally realistic and relevant for the learner.

#### CHAPTER II

#### METHODOLOGY

Selection of Participants:

1353 -

A random sample was selected from members of the Wisconsin Restaurant Association, hospitals in the State of Wisconsin, and 1971 and 1972 graduates of secondary and post-secondary food service programs in the state. Only graduates who are presently employed in the food service industry were included in the sample.

The questionnaire was mailed to 244 hospitals, restaurants, and graduates. Of the 244 questionnaires sent out, one hundred twenty-eight or 52.5% were to members of the restaurant association, ninety-two or 37.7% to graduates of food service programs and twenty-four or 9.8% to hospitals.

Design of the Questionnaire:

The first problem in designing the survey instrument was to ascertain the nature and specific kind of information desired. Since the information gathered was to be used to develop a model for statewide program articulation for secondary and post-secondary food service education, a surve, instrument to determine industry and employee opinion in regard to competencies needed to perform different level jobs was developed.

Through use of the <u>Dictionary of Occupational Titles</u>, a list was composed of 63 different jobs to possibly include in the survey instrument. The competencies needed to perform these jobs were established using the job definitions from the <u>Dictionary of Occupational Titles</u>, course listings from school catalogs and other studies previously completed in the area of food service. Using job titles and competencies believed relevant, a sample questionnaire was developed. This sample questionnaire was presented to a

competency identification committee consisting of teachers and coordinators in secondary and post-secondary food service, general education instructors, employers and employees of food service establishments and the President of the Wisconsin Restaurant Association. This committee reviewed in depth the questionnaire during a one-day session and made suggestions as to the elimination and/or additions to the job titles and competencies included in the sample survey instrument. A copy of the final questionnaire is found as Appendix A.

This study is a beginning in a development process that will produce revised suggested curriculum for the food service programs in secondary and postsecondary education in Wisconsin. The project is intended to provide the Food
Service Articulation Workshop with occupational competencies that employers
and employees believe are essential for successful performance in the different
jobs evaluated.

#### CHAPTER III

#### FINDINGS AND RESULTS

Seventy-five questionnaires were completed and returned for a 30.7%, response. Thirty-five or 38.0% of the former students responded, thirteen or 54.2% of the hospitals and twenty-five or 21.1% of the restaurants. The respondents evaluated the following fourteen positions: Baker/Pastry Cook, Bartender, Busboy, Chef, Sous Chef, Cook, Short Order Cook, Counter Person and Carhop, Food Service Supervisor, Host/Hostess, Kitchen Helper, Manager, Pantry Man/Woman, Waiter/Waitress. The majority of hospitals also evaluated Dietary Aid and Food Service Worker, thus the original fourteen positions are supplemented by the two additions.

Three hundred and sixteen (316) position evaluations were completed by the seventy-five (75) respondents. They are divided on a rather even distribution among the sixteen (16) positions for which the competencies are being analyzed. Table I illustrates the distribution for percentage of response in each of the sixteen (16) positions.

The respondent population represented in the evaluation a total employment of 1,290, seven hundred thirty-three (733) in restaurants and five hundred fifty-seven (557) in hospitals.

Former students in addition to the competencies questionnaire, were asked what formal training they had received. Ten or 35.7% had vocational and onthe-job training, two or 7.1% had high school and on the-job training, two or 7.1% had high school and vocational training, three or 10.7% had only vocational training, two or 7.1% had only high school training and three or 10.7% had

high school, vocational and on-the-job training. Six or 21.4% of the former students repsonding did not have formal training.

At the pre-session of the Food Service Articulation Workshop, the committee reviewed a rough draft of the assembled data. They established the following percentages as being significant for retaining or deleting a competency. If over 75% of the respondents believed the data did not have significance, the competency should be eliminated. Therefore, if a combination of the much and some columns equaled 25 percent of mor petency should be included. In reviewing the following tables, the asterisks in the none columns indicate the competency possibly will not be utilized in the development of subsequent curriculum. Since the respondents have indicated a strong negative response, the competency should be carefully reviewed. Thus competencies without asterisks will be studied by the subsequent workshop for possible inclusion within resultant curriculum.

TABLE

### DISTRIBUTION OF POSITIONS EVALUATED

POSITION	NUMBER OF RESPONSES	PERCENT OF TOTAL RESPONSES
aker	17	5.4
Bartende	18	5.7
Eusboy	19	6.0
Chef	20	6.3
Cook	44 .	13.9
Counter Person and/or Carhop	13	4.1
Dietary Aid	10	3.2
Food Service Supervisor	19	6.0
Food Service Worker .	6	1.9
Host/Hostess	17	5.4
Kitchen Helper	31	9.8
Manager	30	9.6
Pantry Man/Woman	15	4.7
Short Order Cook	21	6.6
Sous Chef	11	3.5
Waiter/Waitress	25	7.9
	316	100.0

The articulation project workshop, which will be a prime user of the data compiled in this report, has after considerable discussion, decided upon a 25% factor as being significant in the combined much and some columns.

Using this 25% figure, Table 2 includes a list of competencies common to all 16 positions evaluated. The following table lists elements that are basic and necessary in job tasks for the food service positions studied.

#### TABLE 2

#### COMMON COMPETENCIES NECESSARY FOR POSITIONS EVALUATED

Basic Math Skills Including First Degree Algebra

Basic Principles of Hygiene

Basic Principles of Safety

Básic Principles of Sanitation

Compiles with Health and Sanitation Laws and Regulations

Cleans Service Area

Uses and Cares for Equipment

Uses and Cares for Tools and Utensils

The tables of data which follow are organized alphabeticly, beginning with Baker and Pastry Cook. The D.O.T. code under each title represents a classification code obtained from the <u>Dictionary of Occupational Titles</u>, written and published by the United States Department of Labor. The codes are provided to allow the reader to obtain from the D.O.T., a proper definition of the occupational classifications utilized in this report.

#### TABLE 3

#### BAKER AND PASTRY COOK

(D.O.T. 313.781 & 313.381)

Prepares and bakes bread, rolls, biscuits, cakes, cookies, pies, puddings and desserts according to recipe.

In the twelve establishments reporting employment of bakers and pastry cooks, twenty are employed; eight in hospitals and twelve in restaurants.

Of the ten respondents who reported on whether they would be more likely to hire someone with training, 100% said yes.

Seventeen or 5.4% of the 316 positions evaluated were bakers and pastry cooks.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the duties of baker and/or pastry cook.

#### TABLE 4

#### BARTENDER

(D.O.T. 312.878)

Mixes and serves alcoholic and nonalcoholic beverages to patrons of a bar.

In the fourteen establishments reporting employment of bartenders, sixty-eight are employed in restaurants and none in hospitals. Two of the former students who responded are employed as bartenders.

Of the fifteen respondents who reported on whether they would be more likely to hire someone with training 66.7% said yes and 33.3% said no.

Employers reported that bartenders also perform the duties of host.

Eighteen or 5.7% of the three hundred sixteen positions evaluated were bartenders.

The following table lists the competencies surveyed, and the percentage of respondents who indicated a specific competency was needed to perform the duties of bartender.

#### TABLE 5

#### **BUSBOY**

(D.O.T. 311.878)

Cleans, sets tables and performs other duties to facilitate food service.

In the seventeen establishments reporting employment of busboys, seventy-five are employed in restaurants and none in hospitals.

Of the seventeen respondents who reported on whether they wou'd be more likely to hire someone with training 23.5% said yes and 76.5% said no.

Nineteen or 6% of the three hundred sixteen positions evaluated were busboys.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the duties of busboy.

#### TABLE 6

#### CHEF

(D.C.T. 313.131)

Supervises, coordinates and participates in activities of cooks and other kitchen personnel engaged in preparing and cooking foods.

In the thirteen establishments reporting employment of chefs, seventeen are employed; three in hospitals and fourteen in restaurants. Three of the former students who responded are employed as chefs.

Of the eleven respondents who reported on whether they would be more likely to hire someone with training, 90.9% said yes and 9.1% said no.

Employers reported that chefs sometimes perform the duties of managers, and cooks.

Twenty or 6.3% of the three hundred sixteen positions evaluated were chefs.

The following table lists the competencies surveyed, and the percentage of respondents who indicated a specific competency was needed to perform the duties of chef.

#### TABLE 7

#### COOK

(D.O.T. 313.381)

Prepare:, seasons and cooks soups, meats, vegetables, desserts and other foodstuffs.

In the twenty-seven establishment reporting employment of cooks, eighty-seven are employed; fifty-two in hospitals and thirty-five in restaurants. Eleven of the former students who responded are employed as cooks in restaurants

Of the twenty-two respondents who reported on whether they would be more likely to hire someone with training, 100% of the hospitals and 92.8% of the restaurants said yes and none of the hospitals and 7.2% of the restaurants said no.

Employers reported that cooks may also perform the duties of dietary aids and bakers in hospitals. In restaurants they may perform the duties of butchers, bakers, chefs, managers, kitchen helpers and short order cooks.

Forty-four or 13.9% of the three hundred sixteen positions evaluated were cooks.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the job of cook. In the evaluation of cooks, the total is broken out into hospitals and restaurants to differentiate the duties in each type of establishment.

#### TABLE 8

### COUNTERPERSON AND/OR CARHOP

(D.O.T. 311.878)

Serves food to customers in fast food service establishments.

In the nine establishments reporting employment of counterpersons and carhops, seventy-nine are employed; twenty in hospitals and fifty-nine in restaurants. One of the former students who responded is a counterperson.

Of the eight respondents who reported on whether they would be more likely to hire someone with training, 62.5% said yes and 37.5% no.

Thirteen or 4.1% of the three hundred sixteen positions evaluated were counterpersons and/or carhops.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the duties of counterperson and/or carhop.

#### TABLE 9

### DIETARY AID

(D.O.T. 355.878)

Prepares and delivers food trays to hospital patients and performs various other duties to keep work areas clean and orderly.

Most of the hospitals that responded to the survey added the position of dietary aid thus the inclusion of this position. In the seven hospitals reporting employment of dietary aids, one hundred fifty are employed.

Of the six respondents who reported on whether they would be more likely to hire someone with training, 33.3% said yes and 66.7% no.

Ten or 3.2% of the positions evaluated were dietary aids.

The following table lists the competencies surveyed, and the percentage of respondents who indicated a specific competency was needed to perform the duties of dietary aid.

#### TABLE 10

### FOOD SERVICE SUPERVISOR

(D.O.T. 319.138)

Trains and supervises employees engaged in serving food in hospitals, nursing homes, schools or college food service departments or similar institutions.

In the eighteen establishments reporting employment of food service supervisors, fifty-two are employed; forty-three in hospitals and nine in restaurants.

Of the fourteen respondents who reported on whether they would be more likely to hire someone with training, 90% of the hospitals and 100% of the restaurants said yes and 10% of the hospitals and none of the restaurants said no.

Nineteen or 6% of the positions evaluated were food service supervisors.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the job of food service supervisor. In the evaluation of food service supervisor, the total is broken out into hospitals and restaurants to differentitate the duties in each type of establishment.

### TABLE 11

### FOOD SERVICE WORKER

(D.O.T. 317.887)

Assists workers engaged in preparing foods in hospitals, nursing homes, schools or college food service departments or similar institutions.

Most of the hospitals that responded to the survey added the position of food service worker, thus the inclusion of this position. In the five hospitals reporting employment of food service workers one hundred seventy-six are employed. One of the former students who responded is employed as a food service worker.

Of the five respondents who reported on whether they would be more likely to hire someone with training, 20% said yes and 80% no.

Six or 1.9% of the three hundred sixteen positions evaluated were food service workers.

The following table lists the competencies surveyed, and the percentage of respondents who indicated a specific competency was needed to perform the duties of food service worker.

#### TABLE 12

#### HOST/HOSTESS

(D.O.T. 310.868 & 311,138)

Welcomes patrons, seats them at tables and supervises and coordinates activities of dining room employees to provide courteous and rapid service to diners.

In the thirteen establishments reporting employment of host/ hostess, twenty-three are employed in restaurants and none in hospitals.

Of the twelve respondents who reported on whether they would be more likely to hire someone with training, 33.3% said yes and 66.7% said no.

Seventeen or 5.4% of the three hundred sixteen positions evaluated were hosts/hostesses.

The following table lists the competencies surveyed and the percentage of respondents who indicated a specific competency was needed to perform the job of host/hostess.

#### TABLE 16

#### SHORT ORDER COOK

(D.O.T. 314.381)

Prepares and cooks to order all varieties of food which require only a short time to prepare.

In the thirteen establishments reporting employment of short order cooks, sixty-two are employed in restaurants and none in hospitals. Four of the former students who responded are employed as short order cooks in restaurants.

Of the twelve respondents who reported on whether they would be more likely to hire someone with training, 91.7% said yes and 8.3% said no.

Employers reported that short order cooks may also perform the duties of night manager.

Twenty-one or 6.6% of the three hundred sixteen positions evaluated were short-order cooks.

The following table lists the competencies surveyed and the percentage of respondents who indicate a specific competency was needed to perform the duties of short order cook.

#### CHAPTER IV

#### CONCLUSIONS

The study was conducted for the Wisconsin Board of Vocational, Technical and Adult Education. The major purposes of the study were to (1) identify competencies that employers and employees consider necessary to perform the duties of different food service positions; (2) resultant data of the study will be used to facilitate development of a statewide model for use in articulation of food service instruction within secondary and post-secondary vocational and technical programs related to realistic employment competencies.

The findings of the study are based upon three hundred and sixteen (316) position evaluations. In reviewing the preceding tables of resultant data from the position evaluations, we observe common competencies for the sixteen (16) different positions evaluated. They include the following: basic math, hygiene, safety, sanitation, human relations and psychology, first aid, reading, trade vocabulary, speaking, customer and employee relationships, efficiency improvements, cleaning of service areas, use and care of equipment and utensils.

In reviewing the position evaluations, we observe that the respondents have expressed clear opinions as to which competencies are requested for proficient job performance. The various tables of data illustrate skill areas necessary for job performance. Thus the major objective of the study has been accomplished, as competencies that both employees and employers consider necessary have been identified. With the assembled resultant data, the curriculum builders of the 1973 Food Secretary Articulation Workshop will be able to develop an articulated curriculum on the basis of competencies that will be recognized by employers and students as being occupationally realistic and relevant for the learner.

# Southwest Wisconsin Vocational-Technical Institute

Bronson Boulevard Fennimore, Wisconsin 53809 Phone: 608-822-3262

Ronald H. Anderson District Director

APPENDIX P

February 28, 1973

Dear Employer:

The Wisconsin Board of Vocational, Technical and Adult Education has approved a research and curriculum development project for improving the food service educational programs in Wisconsin to provide you with better trained personnel. The project is being cooperatively conducted with the Southwest Wisconsin Vocational-Technical School, the Wisconsin Restaurant Association, and the Wisconsin Department of Public Instruction.

Although the enclosed questionnaire appears long, we would appreciate it if you would take sufficient time to respond. The results of this survey will be very important to the future of food service programs offered in high schools and vocational, technical schools.

This summer a group of Wisconsin educators and food service personnel will be utilizing the results of this survey to develop an articulation program for high school and post-high food service.

We would appreciate receiving the completed questionnaire and General Information Sheet by March 23, 1973. A self addressed stamped envelope is enclosed for your use.

If you have any questions please contact Mrs. Charlotte Brainerd at (608) 822-3262 or Mrs. Linda Wagner at (608) 822-3184.

Thank you for your cooperation.

Sincerely,

Konald H. Anderson District Director

#### Directions for Completing Questionnaire:

Employment competencies which relate to employees in the Food Service Industry are listed on the following pages. Please check each competency in the appropriate column that you feel is necessary for the employee. Indicate this for only the job titles you employ. For example if you employ a cook, follow down the column under "cook" and respond to each competency listed by checking the appropriate box for much (M) or some (S). If you believe a job requires much proficiency, meaning he must be able to do that task extremely well and sometimes teach others, check the M column. If the job requires some proficiency so that the person only need know the task and it is not too important to the job, check the S column.

If you do not feel a competency is necessary for that job leave it blank. If you do not employ anyone for a particular job title leave that column blank throughout the questionnaire,

Please add any other job titles you may have in your establishment by crossing out one or more of the existing titles that do not apply and writing in your titles. Also please list any additional competencies that you feel are necessary to do any of the jobs you have in your establishment.

#### EXAMPLE:

Competencies	Baker		Cook		Waiter Waitress	
	M	S	M	S	M	S
Basic Math			7			
Bakes Bread				V		
Prepares Meat						
Serves Customers						

#### DEFINITIONS

(For use in completing general information sheet and questionnaire)

- Bakers & Pastry Cook Prepares and bakes bread, rolls, biscuits, cakes, cookies, pies, puddings and desserts according to recipe.
- Bartender Mixes and serves alcoholic and nonalcoholic drinks to patrons of the bar.
- Busboy Cleans and sets table and performs other duties to facilitate food service.
- Chef Supervises, coordinates and participates in activities of cooks and other kitchen personnel engaged in preparing and cooking foods.
- Sous Chef (Assistant Chef) Supervises and coordinates activities of cooks and other workers engaged in preparing and cooking foods. Cooks during rush periods and special events.
- Cook Prepares, seasons and cooks soups, meats, vegetables, desserts and other foodstuffs.
- Cook, Short Order Prepares and cooks to order all kinds of food which require only a short time to prepare.
- Counterman/Woman and Carhops Serves food to diners in fast food service establishments.
- Food Service Supervisor Trains and supervises employees engaged in serving food in hospitals, nursing homes, schools or college food service departments or similar institutions.
- Host/Hostess Welcomes patrons, seats them at tables and supervises and coordinates activities of dining room employees to provide courteous and rapid service to diners.
- Kitchen Helper Performs various duties, such as washing dishes, pots and pans by hand or mechanically, to keep work areas clean and orderly and assists cooks and bakers.
- Manager Supervises and coordinates activities of all workers in coffee shop, restaurant and/or other food service establishments.
- Pantryman/Woman Prepares salads, appetizers, sandwich fillings and other cold dishes.
- Waiter/Waitress Serves meals to patrons according to established rules of etiquette.

APPEIDIX C

February 28, 1973

Dear Employee:

The Wisconsin Board of Vocational, Technical and Adult Education has approved a research and curriculum development project for improving the food service educational programs in Wisconsin in order to provide better training. It is being cooperatively conducted with the Southwest Wisconsin Vocational-Technical School, the Wisconsin Restaurant Association, and the Wisconsin Department of Public Instruction.

Although the enclosed questionnaire appears long, we would appreciate it if you would take the time to respond. Since you have recently completed one of the food service programs and are now employed, your response will be of great value in revising the food service programs in high school and/or post-high vocational, technical schools.

This summer a group of Wisconsin educators and food service personnel will use the results of this survey to develop an articulation program for high school and post-high food service.

We would appreciate receiving the completed questionnaire and General Information Sheet by March 23, 1973. A self addressed stamped envelope is enclosed for your use.

If you have any questions please contact Mrs. Charlotte Brainerd at (608) 822-3262 or Mrs. Linda Wagner at (608) 822-3184.

Thank you for your cooperation.

Briefly indicate which part of the training was of no help -
•
•

#### Directions for Completing Questionnaire:

Employment competencies which relate to employees in the Food Service Industry are listed on the following pages. Please check each competency that applies to your job. For example, if you are presently employed as a cook, indicate the competencies needed for your position. For each job title there are two columns, an M (much) and S (some), which relate to competency proficiency. If you must do a particular competency extremely well check the M column. If your job requires that you only know about a particular task and it is not too important to your job, check the S column. If you do not feel a particular competency is necessary to perform your job leave that competency blank.

If there are some competencies missing that you feel are necessary in your job, please list them at the end. Also if your job title was not included at the top, cross out one of the existing job titles and replace it with your title.

#### FOR EXAMPLE:

Competency	Baker	Baker		Cook .		Waiter Waitress		
	М	S	М	S	M	S		
Basic Math			\ <u>\</u>					
Bakes Bread	1	<u> </u>	<u> </u>	V				
Prepares Meat			1					
Serves Customers
