ABSTRACT

The purpose of this high school consumer education course is to make the student aware of his place in the economic system. This is achieved through the attainment of certain goals: 1) an understanding of the American economic system; 2) the function of money and banking; 3) a consideration of various types of insurance; 4) an identification of advertising methods; 5) a synthesis of variables acting on the consumer in the market place; 6) an understanding of credit and home buying procedures and of sources of consumer aid and protection. Course content elaborated upon by learning activities follows the identification of these goals. The last section of the course lists texts and numerous supplementary materials. (JH)

INTRODUCTION

This course of study was written as a part of a total effort to revise curriculum to fit the quinmester administrative organization of schools. The materials and information in this guide are meant to be neither all-inclusive nor prescriptive; but rather, an aide to teachers as they plan instructional programs, taking into account student needs and characteristics, available resources, and other factors.

The major intent of this publication is to provide a broad framework of goals and objectives, content, teaching strategies, class activities, and materials all related to a described course of study. Teachers may then accept the model framework in total or draw ideas from it to incorporate into their lessons.

The guide is divided into 1) a broad goals section, 2) a content outline, 3) objectives and learning activities, and 4) materials. The first section provides descriptive and goal-oriented information for the teacher; "indicators of success" refers to suggested prerequisite or corequisite experiences. The content outline illustrates, in general terms, the scope and major subdivisions of the course. The objectives and learning activities section, hopefully, provides a total picture of the concept or main idea and specific behavioral objectives for a set of given learning activities. The materials section of the guide lists resources in four categories: essential textual or other material; alternate classroom materials to use in place of or in addition to the aforementioned; supplementary teacher resources; and supplementary student resources. The appendix may include other material appropriate for a specific course: e.g., pretests, readings, vocabulary, etc.

Anyone having recommendations relating to this publication is urged to write them down and send to : Social Studies Office, Room 306, Lindsey Hopkins, A-1.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>I. THE CONSUMER IS THE MOST IMPORTANT COMPONENT OF THE FREE ENTERPRISE SYSTEM IN AMERICA.</p>	<p>A. The student will evaluate the role of the consumer, business, and government in the American economy.</p>	<p>1. Have students view the film <u>It's Everybody's Business</u> (22'C, 1-10214), and answer the following discussion questions:</p> <ul style="list-style-type: none"> a. How do our freedoms in the United States provide a foundation for our business system? b. Do any dangers exist that might affect these personal, political, and economic freedoms? c. What roles should the consumer, business, and government assume in protecting and perpetuating this free enterprise system? <p>2. Divide the class into the following groups: consumer, business interests, and government. Let each group answer the following questions among themselves:</p> <ul style="list-style-type: none"> a. What is the importance of your group in the economy? b. What role should your group assume? c. Should any restrictions or regulations be placed on your group or its activities? d. What relationship should exist between your group and the other groups in our economic structure? <p>After the groups have answered these questions, have a member of each group represent them in a debate with representatives from the other groups debating and presenting a defense of their role in society.</p>
<p>B. The student will distinguish between the economic goals of the consumer and those of the country as a whole.</p>		<p>1. Elicit responses from the students as to what they consider their personal economic goals and list them on the chalk board for discussion.</p>

FOCUS

OBJECTIVE

LEARNING ACTIVITIES

2. On an acetate, list the economic goals of the U.S., or if possible, obtain a tape-recording of the President's last state of the union message from the New York Times newspaper, and derive the economic goals from it while playing it to the class. Ask the students to respond to the following:
 - a. How are your individual goals similar to those of the nation? Different?
 - b. Do the goals of the nation represent those of the individual?
 - c. Can the individual achieve his goals through the achievement of those of the nation? Or vice versa?
1. Define GNP as the total amount of goods and services produced in a country during a given time period, and ask the students to define or construct methods for its measurement.
2. Ask the class to respond to the following:
 - a. What effect does the consumer have on GNP?
 - b. Would it be possible to determine GNP without the consumer?
 - c. Could GNP, as a measurement, exist without the presence of consumers?
3. To illustrate the expenditure method, divide the class into the following groups: consumers, business, government, net foreign investment. Ask each group to determine in what general categories could their expenditures be classified, and then have a representative from each group list their expenditures on the chalk board. The total of all four lists of expenditures will equal GNP.

C. The student will cite evidence for the importance of the consumer's contribution to Gross National Product.

2: THE STUDENT WILL ANALYZE THE RELATIONSHIP BETWEEN THE FUNCTIONS OF MONEY AND BANKING INTO THE AMERICAN ECONOMY.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>II. THE FUNCTION OF MONEY IS INTER-RELATED WITH THE FUNCTION OF BANKING IN THE AMERICAN ECONOMY.</p>	<p>A. The student will analyze the functions and characteristics of money.</p>	<p>1. Have student read the booklets <u>Money: Master or Servant and Counterfeit?</u> (available in class sets from the Federal Reserve Bank of Atlanta at no charge), and respond to the following discussion questions:</p> <ol style="list-style-type: none"> a. What is the role of money in the functioning of the U.S. economy? b. Are the functions of money necessary for the existence of our economy? c. Could you function without the existence of money? How? <p>2. List the characteristics of money on the chalk board and ask the students to identify forms of money that would best represent each characteristic. Then ask the students to evaluate how well U. S. currency measures up to the characteristics.</p> <p>3. Have a student give a report on the history of money in the U.S. and then ask the class to justify its importance.</p> <p>4. Divide the students into four or five groups and instruct them to hypothetically formulate a currency other than that presently used in the U.S., and answer the following:</p> <ol style="list-style-type: none"> a. What are the uses of your currency? b. Will another group accept your currency? Why or Why not? <p>Have each group compare their currencies with the other groups and then list on the chalk board, from class consensus, suggested functions and characteristics of money.</p>

FOCUS

OBJECTIVE

LEARNING ACTIVITIES

B. The student will propose reasons for the existence of the American banking system.

1. Have the students view either of the following films: Money on the Move (28'C, 1-31173) or Federal Reserve Bank and You (30' BW, 1-31161), and respond to the following:
 - a. What is the role of banking, as evidenced through the Federal Reserve System, in the U S.?
 - b. What consumer services does the banking system provide? What should they provide?
 - c. Is it necessary for banks to control money supply of a country? Why or Why not?
 - d. Can the banking system of the U.S. serve the consumer efficiently without the Federal Reserve System?

2. Students can read the following booklets and then respond to the aforementioned questions: The Federal Reserve System, Purposes and Functions or Keeping Our Money Healthy (both obtainable in class sets at no charge from the Federal Reserve Bank of Atlanta).

3. Have students interview banking officials and report to the class on their findings.

4. Plan a field trip to the First National Bank of Miami or some other bank to observe banking operations.

C. The student will synthesize the roles of banking and money in controlling inflation in our economy.

1. Have students read the following booklets: The Mystery of Economic Growth (available free from the Federal Reserve Bank of Philadelphia) and You and Your Money (available free from the Federal Reserve Bank of Richmond), and respond to the following:

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
		<ul style="list-style-type: none">a. What are the types of inflation?b. What function does money play in inflation?c. How can the banking system help to control inflation?d. Can inflation exist without the existence of money? How? <p>2. Invite a local banker to come in and speak to the class on inflation and the role of the banking system in its control.</p> <p>3. Initiate a general group discussion on the following topic: Will control of inflation benefit the consumer in the long-run?</p> <p>4. Have students research the effects of inflation in your locale and report back to class concerning the causes, effects, and possible controls.</p>

U 3: THE STUDENT WILL DISTINGUISH AMONG THE FORMULATION, FUNCTION, AND BENEFITS OF BUSINESS ORGANIZATIONS.

FOCUS

1. BUSINESS ORGANIZATIONS BOTH REPRESENT AND BENEFIT THE CONSUMER IN THE U.S.

OBJECTIVE

A. The student will analyze the role of the factors of production in the free enterprise system.

LEARNING ACTIVITIES

1. In an acetate, illustrate the circular flow diagram of the economy:

Ask students to respond to the following:

- a. In which direction is the money flowing?
 - b. In which direction are the factors or results of production flowing?
 - c. Which factors of products apply to each area of the diagram?
 - d. What role does the consumer play in the functioning of the diagram?
 - e. Can the diagram exist without the consumer?
- 2. Divide the class into the following groups: natural resources, management, capital, labor and ask them to respond to the following:**
- a. How would you define the purpose of your area?
 - b. Can the economy function without your area?
 - c. How does your area relate to or involve the consumer?
- Have a panel composed of a representative from each group defend their roles in the economy and discuss their importance with the class.**

FOCUS

OBJECTIVE

B. The student will compare the three forms of business organizations.

LEARNING ACTIVITIES

1. Show the film The Modern Corporation (28'C, 1-13311), and ask the students to respond to the following:
 - a. Of what importance is the corporation to the economy?
 - b. Of what importance is the consumer to the corporation?
 - c. Why has the corporation been successful?
 - d. Does the corporate enterprise tend to diminish the roles and importance of the single proprietorship and partnership?
 - e. As an investor, which of the three would it be most beneficial for you to enter?
2. Present the following situation to the class: They have just turned 21, have saved a few thousand dollars, and are thinking about going into business for themselves. Consider the following:
 - a. List the characteristics of the three forms of business organizations on the chalkboard.
 - b. Describe the advantages and disadvantages of each.
 - c. Evaluate the best form to enter and why.
3. Invite a speaker from the Small Business Administration office to come and discuss the costs and risks of starting a business.

THE STUDENT WILL ANALYZE THE TYPES OF INVESTMENTS THAT CAN IMPROVE ONE'S FINANCIAL POSITION, BOTH PRESENTLY AND IN THE FUTURE.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>IV. ONE'S FINANCIAL POSITION CAN BE IMPROVED THROUGH AN INTELLIGENT INVESTMENT PROGRAM.</p>	<p>A. The student will suggest goals and risks that might be encountered when investing money.</p> <p>B. The student will compare the investment possibilities of various saving institutions.</p>	<ol style="list-style-type: none"> 1. Have the students identify possible goals for individual financial investment and list them on the chalk board. 2. List risks, as suggested by students, that might be encountered when attempting to achieve their investment goals. Discuss the risks associated with the goals to evaluate the possibility of achieving the goals. 3. Have students play one of the simulation games commercially available which identify risks involved when investing money. <ol style="list-style-type: none"> a. <u>BMG</u> (simulates a competitive market where participants try to make profit and accumulate-capital assets). b. <u>Consumer</u> c. <u>Market Game</u> 1. Have students research and report to the class on the following saving institutions: commercial banks, savings and loans, and credit unions. 2. Ask the students to respond in writing to the following: Given \$1000 to invest, which of the savings institutions would you deposit it in and why? Discuss risks and benefits. 3. Invite a speaker from a credit union to come in and discuss the functions of his organization. 4. Possible field trips might be undertaken to any of these institutions to evaluate the possibilities at each.

FOCUS

OBJECTIVE

LEARNING ACTIVITIES

C. The student will propose reasons for investing in stocks and bonds for financial improvement.

1. Show the film The Work of the Stock Exchange (15' BW, 1-10194), and ask the students to respond to the following:
 - a. Why would an individual wish to invest in stocks or bonds?
 - b. Would the consumer benefit more from this type of investment rather than that in a savings institution? Why?
 - c. How does this form of investment help the American economy through the consumer?

2. Have the students read either of the following booklets and answer the questions stated above: You and Your Investment World (obtainable in class sets from the offices of the New York Stock Exchange Department along with a copy of Portfolio of Teaching Aids) and/or How to Invest in Stocks and Bonds (obtainable from any local stockbrokerage).

3. Invite a local stockbroker to come in and discuss investment possibilities or take a field trip to a stockbrokerage firm.

4. Have students play the Stock Market Game (can be purchased from Parker Bros.).

5. Have students follow stocks to evaluate their investment judgment, noting paper losses and gains.

D. The student will illustrate the investment possibilities of real estate.

1. Have the students hypothetically invest money into a piece of real estate and list the variables that might affect the appreciation or depreciation of the property.
2. Elicit responses from students concerning factors to be reviewed before selecting real estate for investment.
3. Invite a realtor to come in and discuss the possibilities available and procedure to follow for real estate investment.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>THE CONSUMER CAN PROMOTE THE SAFETY AND WELL-BEING OF HIMSELF AND HIS FAMILY BY PROCURING COMPREHENSIVE INSURANCE COVERAGE.</p>	<p>A. The student will analyze the need for property and liability insurance by the consumer.</p>	<p>1. Show the film <u>Casualty Insurance</u> (20' BW, 1-10251), and ask the students to respond to the following:</p> <ul style="list-style-type: none"> a. In what situations or under what circumstances would an individual need to have property insurance? b. Under what circumstances would an individual need liability insurance? c. What costs are involved when purchasing such insurance? d. Should property and/or liability insurance be voluntary or mandatory for homes and/or autos? e. Under what circumstances would an individual not need such insurance coverage? Why? <p>2. Invite an insurance agent to come in and discuss the function and necessity of property and liability insurance. An automobile insurance agent would be preferable.</p> <p>3. Assign student research projects dealing with the need for property and liability insurance for different items, and have them to report back to the class.</p>
<p>B. The student will propose reasons for the need for life and health insurance for the consumer and his family.</p>		<p>1. Invite a speaker from a life insurance company to come in and discuss the needs for, types of, and uses of life and health insurance.</p> <p>2. Have the students identify the following types of life insurance and evaluate their importance:</p> <ul style="list-style-type: none"> a. Whole or straight life b. Limited life c. Endowment d. Term

- C. The student will discuss critically the need for social insurance.
3. Ask students who are employed to identify any health or life insurance coverage provided by their employer. Have others ask their parents about personal coverage. Then either construct a panel to discuss the benefits from both forms of coverage or conduct a general class discussion on the topic.
 4. Have students play the Mangging Your Money game (available from the DUNA Mutual Insurance Society, P.O. Box 391, Madison, Wisconsin 53701) to experience the decision-making situations that may arise when investing in insurance.
 1. Invite a speaker from the local Social Security Office to come in and discuss the purposes and benefits of social security.
 2. Invite a speaker in from the Dade County Welfare Office to discuss unemployment compensation and the importance of social insurance.
 3. Employ charts and acetates to show students the reasons for Social Security and Medicare. (Teaching kits are available in class sets with acetates, charts, and discussion questions free of charge on Social Security and Medicare from the local Social Security Office or from HEW, Social Security Administration, Washington, D. C.).
 4. Have students research and report to the class on the functions and importance of:

UNIT 8: THE STUDENT WILL PROPOSE REASONS FOR THE INTELLIGENT USE OF CREDIT AND INSTALLMENT BUYING.

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
<p>VIII. CREDIT AND INSTALLMENT BUYING REQUIRE INTELLIGENT CONSUMER DECISION MAKING.</p>	<p>A. The student will devise a method for determining a consumer's purchasing power.</p> <p>B. The student will suggest reasons for consumer financial borrowing.</p>	<p>1. Show the film <u>The Wise Use of Credit</u> (12'C, 1-10199), and ask the students to respond to the following:</p> <ol style="list-style-type: none"> How is consumer credit established? What factors determine how much credit a family can afford? Are the requirements for obtaining credit too strict? Can you suggest a better method of determining one's credit potential? Is collateral always necessary for borrowing? <p>2. Present three credit application situations to the students and ask them to construct a schedule to be used to determine one's purchasing power:</p> <ol style="list-style-type: none"> No. 1 owns home, married with 2 children, \$150/week income, \$3000 in bank, has gas credit card and department store charge plates, is paying off a car. What is the credit potential? How is it determined? No. 2 and No. 3 examples might be of single people, young marrieds with no children, or large families renting a home. <p>1. Have students read booklets entitled <u>Understanding Consumer Credit</u> (obtainable from the Educational Opportunities Division, Follett Educational Corp., Chicago, at cost for a class set) and list reasons, both acceptable and unacceptable, for borrowing.</p> <p>2. Invite a speaker in from the Credit Bureau of Greater Miami to discuss reasons for consumer borrowing and the procedures involved.</p>

3. Elicit reasons from students why they would borrow money and evaluate their acceptability.

4. Have students read and report on pertinent articles in Consumers Reports magazine.

5. Discuss the importance of self-restraint on the part of the consumer where borrowing is concerned. Does credit lessen a consumer's self-restraint?

C. The student will investigate the use of various forms of charge accounts.

1. Invite a member of the credit department of a local department store to come in and discuss the use of charge accounts and lay-away plan.

2. Have students research and report to the class on the difference between revolving charge accounts, household accounts, and lay-away plans. From these reports, the students can list advantages and disadvantages of each for the consumer.

3. Have the students write to various companies and stores requesting credit card applications. When the applications are brought to class, discuss them as follows:

- a. What financial requirements are asked?
- b. How much personal background information is requested?
- c. Are there any other restrictions or regulations indicated?
- d. What type of credit references are asked? (Have some return them and not fill in this section to determine its importance).
- e. What is the type of business?

4. Discuss the following:
- Can the average U.S. family afford consumer credit?
 - Can the average U.S. family afford not to have consumer credit?
 - Can expansion of the American productive system continue without an expanding market based on easy credit?
 - What are the advantages and disadvantages to the consumer?
1. Show the film Installment Buying (10' BW, 1-04054) and ask students to respond to the following:
- What questions should consumers answer before attempting installment buying?
 - What sections of the installment contract should be of prime concern to the consumer?
 - What are the costs of installment buying?
 - What risks does the consumer assume when buying in this manner?
 - How can the consumer save money through installment buying?
2. View filmstrips on Our Credit Economy narrated by Sen. Proxmire (obtainable from Guidance Associates of Pleasantville, New York, includes 2 filmstrips, 2 records, and a teacher filmstrip guide).
3. Invite a local bank official in to discuss installment buying and contracts.
