IDENTIFIERS Texas

ABSTRACT

The guide is arranged in vertical columns relating curriculum concepts in English to curriculum performance objectives, career concepts and career performance objectives, suggested teaching methods, and resource materials. State concepts for ninth grade English, as outlined in the Texas Education Agency "Bulletin 615" for instruction, are used in the manual. Space is provided for teachers' notes which will be useful when the guide is revised. The appendixes include miscellaneous teaching exercises and 26 condensed job descriptions. (EA)

San Antonio, Texas**

Meaningful existence is the goal of life in today's world. Living takes on meaning when it produces a sense of self-satisfaction. The primary task of education must be to provide each individual with skills necessary to reach his goal.

When children enter school, they bring with them natural inquisitiveness concerning the world around them. Normal curiosity can be the nucleus which links reality to formal training if it is properly developed. A sense of continuity must be established which places education in the correct perspective. Communities must become classrooms and teachers resource persons. Skills such as listening, problem solving, following directions, independent thinking and rational judgement then can merge into daily living procedures.

In classrooms especially designed to form a bridge between school and the world of work, experiences must be developed. On campus performance in job tasks and skills, following a planned sequence of onsite visitation, will fuse information into reality. Practical relationships developed with those outside the formal school setting will provide an invaluable carry-over of learned skills.

Search for a rewarding life vocation is never easy. Without preparation it becomes a game of chance. With a deliberate, sequential, and planned program of development, decisions can be made based upon informed and educated judgements.

A full range career education program, K-12, will offer opportunities for participants to enter employment immediately upon completion of training, post secondary vocational-technical education, and/or a four-year college career preparatory program.

C. N. Boggs, Superintendent
Harlandale Independent School District

The Career Education Project has been conducted in compliance with the Civil Rights Act of 1964 and is funded by a grant from the U. S. Office of Education and the Texas Education Agency.

Acknowledgments

For their help and constructive suggestions in the compilation of this guide we acknowledge the following persons.

Mrs. Lucylle V. Deasey - Project Director - Career Education Program

Mr. William R. Marshall - Associate Superintendent, Instructional Services

Mr. William H. Bentley - Director of Vocational Education

Miss Mary E. Daunoy - Secondary Consultant

Mrs. Ruth C. Lewis - English Department Chairman

Mrs. Gozelle B. Loveless - Audio-Visual Coordinator

Miss Molly J. Goodman - English Teacher

Mrs. Dianne G. Quigley - English Teacher

Gratitude is also expressed to the Texas Education Agency, Education Service Center--Region 20, and the Career Education Project Staff.

Foreword

The staff of the Harlandale Career Education Center is in the process of developing curriculum guides integrating state curriculum concepts with career education concepts.

These guides embrace the philosophy that the purpose of public school education is to prepare the student to enter gainfully into the field of work or to prepare him to further his career training by entering college or seeking other training beyond high school.

The composition of this guide was influenced by the following factors: (1) the need to teach curriculum concepts required by the state, as set out in Bulletin 615; (2) the need to have a guide which could easily be adapted to the quarter system; (3) the need for inclusion of career education concepts and materials into this guide, without disruption of instruction in basic academic concepts; (4) the need to write the guide in terms of student performance objectives; and (5) the need to build transportability into the guide so that it is easily adaptable to the needs and resources of other school systems.

It is reasonable to believe that individual teachers will find necessary the modification of this guide to their own classroom needs. Some will find the performance objectives too demanding as written; others may find their students unchallenged by the same objectives. Within the limits of the prevailing length of term within a school district, the instructor may choose to shift concepts from stated positions. Concepts may be taught repeatedly. This guide is intended to be a means for more fully educating the child and should not be considered an inflexible pedagogical instrument.

Philosophy

Viewed from the standpoint of career education, the language arts program is an essential part of the "equipment" the student acquires as he becomes aware of the many kinds of careers, selects one to his liking, and finally leaves school to pursue it for the better part of his life. While preparing himself he must learn to speak, listen, write and read in a satisfactory manner; regardless of the vocation he chooses, he must communicate. Should he prepare himself for one of the more specialized careers, he may find that he needs to know how to write seemingly endless reports, edit someone else's writing, make public speeches, take notes and form them into news stories, articles, or creative writing, possibly teach school, or even do a combination of several of these activities plus others.

The function of his teacher is to lead him to think clearly, write correctly and speak properly. By guiding students through the reading and in-depth study of poetry and prose, the teacher aims at educating young minds in logical thinking. In pointing out the organization of an essay, for example, he helps students trace an idea from thesis statement through full development to conclusion. He continues to lead the young down the path of logic repeatedly until they are able to find their way by themselves.

During the long, often frustrating struggle involved in teaching students to think, the teacher must also instruct them in the use of tools by which to express their thoughts in spoken or written form. Grammar, mechanics and usage are consequently introduced. Like most tools, they are to be picked up and used when needed. It is hoped that proficiency in using them will also help students to speak and write effectively.

Instruction in effective expression in spoken and written English should not interfere with a student's natural feelings and leanings toward the language, customs, and culture of the contributing ethnic group in which he had his origin. Though the United States of America is a blend of many cultures, its national language is English; English is therefore taught as the leading national means of communication. Students who can use a second language correctly should be looked upon as more richly endowed educationally and perhaps capable of wider service to their community.

As he instructs these future leaders and followers who will hold many-faceted careers in community life, the English teacher thus attempts to build upon the sturdy framework of reading, writing, and speaking and listening. He attempts to instruct in reading and listening so that his students may form constructive thoughts of their own; he endeavors to instruct in proper mechanics and usage so that they may speak and write those thoughts correctly. He may even suggest that a few of his students may move, like Carl Sandburg, from such jobs as milkman, barber-shop porter, dishwasher, truck driver, scene shifter, farmhand, and carpenter's assistant to the lofty position of well-loved national

poet. Many a dream has grown from the source of a so-called "lowly" job. And what are dreams for, if not for fulfillment?

Miss Mary Daurcy
Secondary Consultant
Harlandale Independent School District

Use of the Guide

This manual uses state concepts for ninth grade English as outlined in the Texas Education Agency Bulletin 615. As their schedules permit, teachers are urged to study this English guide so that we may benefit from their professional evaluations.

The performance objective mode is used for instruction and implies the necessary evaluation criteria. Each teacher must allow for student differences by selecting performance objectives and modifying levels of acceptable achievement according to the needs of individual students or groups of students.

Career education is included as an extension of the basic curriculum concept. Career concept performance objectives are employed to strengthen fundamental career concepts which are related to the stated curriculum concepts. These career performance objectives may build onto curriculum performance objectives. We cannot overemphasize that career education is an integral--not a separate--part of the curriculum; instruction in the basic curricular concepts of English remains the primary duty of the English teacher.

The guide proper is divided into three sections: "Language," "Composition," and "Literature." Each of these titles identifies the English area which is to receive emphasis--at least fifty per cent of the total time devoted to the section. Although

these three divisions are discrete, promoting conformance with the quarter plans in operation in many school districts, fusion of the various English skills is essential and is incorporated into the performance objectives.

A column of suggested teaching methods has been included to aid new teachers or to offer new or novel approaches to experienced instructors.

All audio visual media listed in the "Materials" column, unless otherwise specifically labeled, are from the Harlandale Independent School District Audio Visual Department. Teachers will wish to preview all audio visual listings to ascertain before class presentation their applicability to a particular instructional situation. The list of films and records is brief, and it is recommended that the teacher study the catalog prepared by the local audio visual center as well as those compilations of the Education Service Center, Region 20, and the Main Branch of the San Antonio Public Library for other useful materials.

"Appendix A" contains numerous exercises and rules which may aid the teachers in presenting various concepts called for in the performance objectives. "Appendix B" contains selected job descriptions condensed from the Occupational Outlook Handbook (a publication of the United States Department of Labor) and other sources; teachers may wish to use these summaries for handy reference when dealing with careers which may be covered in the teaching of this course. One volume of the Occupational Outlook Handbook has been placed in high school library for use by students and teachers. More than 800 jobs are covered in depth by this

volume.

The teacher is urged to note other miscellaneous information included in appendices for possible use in classroom instruction. Other materials which may be used to advantage in conjunction with this guide are Job Clusters, a booklet prepared by the counseling component of the Career Education Center, and a comprehensive listing of resource personnel prepared by the Community Involvement Coordinator.

This guide must be revised, updated, and improved after actual use in the classroom. The teacher's comments, including names of books and other materials, and other constructive criticism will be of vast help in the task of revision.

The credit for success of this guide will be due to the classroom teacher for the willingness to try the new approach, for the ability to adapt the guide to individual needs, and for an understanding that career education must be assigned a role in today's education to prepare the student for the demanding world of work.

Course Requirements for English Language Arts

Grade 9

Taken from Bulletin 560 (revised) 615, Texas Education Agency

Introduction

The English program, grades 7-12 in all schools, provides an instructional progression, each course building upon knowledge and skills attained in earlier grades. In addition, speech, drama, and journalism courses are offered as elective in the secondary program.

Certain instructional elements are common to all grades of the six-grade sequence. These elements are reading of exposition and literature; listening to both exposition and literature; composition, oral and written, expository and creative; and grammar, usage, and mechanics.

Instruction in any one of these elements is carefully related to instruction in other phases, rather than given in segments widely separated in time. Each principle or skill taught is applied to various phases to reinforce the total learning process.

Reading and Literature

In each English course description, skills in reading exposition are differentiated from skills in reading literature. This differentiation is made (1) to point up the need for inclusion of reading materials other than literary selections; (2) to suggest that,

in moving gradually to a more completely coordinated program, some schools may concentrate study of literature in one semester (the second is suggested) and will include additional readings in the first semester.

Expository selections may serve for instruction in such reading skills as determining main ideas, and recognizing coordination; and for instruction in composition by providing a written model and by stimulating ideas. Literary selections may serve for instruction in reading skills peculiar to generalizing about author's meaning, ideas, and achieved effects. Literary selections also provide the subject matter for expository composition and stimulate creative composition.

Reading courses, corrective or developmental, apart from the regular English courses, may be organized. Reading activities in such courses should be planned to reinforce and complement, not duplicate, instruction in the regular program.

Listening

Listening is one of the processes by which students receive and test ideas. Many opportunities are provided in the classroom for directing the development of skills in listening, especially as the reciprocal processes of reading aloud and speaking are proceeding. Instruction in receiving and discriminating ideas from mass media both in and out of school is a part of the responsibility of the English language arts teacher. This responsibility includes teaching reasoning, inductive and deductive; the pitfalls of reasoning; and the devices of propaganda.

Skills of listening are not described separately in the course descriptions since they are similar to those of reading and composition. For example, the reading skill of following a story line, found in the literature sequence, has its counterpart in listening for the story line. Similarly, the writing skill of communicating effectively, found in the composition sequence, has its counterpart in listening for emphasis as a student reads aloud what he has written.

Composition

Composition, oral and written, continues through each course. The balance between speaking and writing is determined by pupil needs, but in the six-year sequence, the proportion of written work gradually increases. When students have command of oral language and their own ideas, written composition is engaged in as often as possible. Composition assignments generally arise from what the individual or the group has read and talked about. Some composition is creative (imaginative or emotional), especially if the student is interested in expressing himself in literary forms; most composition is expository (informational, factual, critical, analytical). The central purpose of composition is communication of the student's ideas to a listener or reader.

Grammar, Usage, and Mechanics

Grammar is the study of form and structure of sentences. Usage has to do with language practice, spoken, and written. Conventions in spelling, punctuation, and capitalization are referred to in the course description as mechanics. These three elements are

taught directly and incidentally, sequentially, and individually. Drill and practice arise out of student error. Diagnostic tests of knowledge and performance in writing and speaking are used to determine the need for and nature of the instruction.

English Language Arts -- Grade 9

The English course in grade 9 is a segment in the cumulative and sequential twelve-grade program planned by the local school. Elements are reading, including the reading of literature; composition, oral and written; grammar, mechanics, and usage.

Curriculum adjustments are made for individuals and groups (1) for corrective instruction as needed, and (2) for enrichment and acceleration.

Reading

For students who are reading at grade level, instruction includes the following: stating the main idea of an expository paragraph in a short sentence and writing an outline indicating the main divisions of an essay; interpreting ideas implied but not directly stated; beginning to differentiate between purposes of illustrations or examples, between factual and suppositional examples; beginning to recognize the author's point of view, particularly in content materials, such as social studies and science; differentiating rate of reading according to purpose; skimming for answers indirectly stated, for reviewing, and for browsing; and determining word meanings by context clues as well as dictionaries.

Vocabulary development, including words needed in the student's writing and speaking, is a part of instruction, not only in English but in other subject matter areas. Vocabulary

lary study arises from what the student reads and hears. Instruction includes use of advanced dictionaries and context clues for determining word meaning; continued study of connotation and denotation; study of simple etymology, roots and affixes of words of words found in sentence contexts.

In the area of study skills, the student uses a step-by-step method of attack on study-reading; reads and follows directions calling for sub-steps; uses the card catalog and standard library references with some skill; is introduced to the Reader's Guide to Periodical Literature; reads diagrams, graphs, and statistical illustrations with increasing skill; uses the parts of a book as aids to study and begins using format and organization of a book in understanding logical development of topics and chronological presentation.

Some attention is given to development of oral interpretation skills, such as using phrasing, cadence, and stress to reflect meaning, mood, and tone.

Reading instruction in grade 9 uses a variety of materials, such as collections of essays, literature autobiographies, textbooks in content areas, expendable reading matter (magazines, newspapers), reference and library books.

Literature

The literature program, all grades, has a primary purpose to develop the skills necessary to read literature. A corollary is the development of appreciations and

attitudes toward literature which will extend from the student's school reading to his personal or individual reading now and as an adult.

In grade 9, literature to be read is generally selected and organized around themes of interest or concern to students, but the literature to be studied is selected and organized according to difficulty in keeping with the reading skills achievement of students. The State-adopted anthologies and school library materials provide the major sources from which selections are made but other resources are desirable (public library, magazines, recordings, paperbacks, films, television, theater).

Skills which are included in the program at grade 9 are following a story line in increasingly complex materials, using knowledge of character and motivation in the making of predictions; using word connotation and denotation of author in limiting the reader's visualization; consciously using sensory impressions in "experiencing" reading; drawing conclusions and seeing character with greater precision and with less reliance upon reaction patterns of the group; beginning to recognize how through word connotations an author sets tone and mood and thus further limits the reader's freedom to imagine; generalizing, in terms of experience, upon the meaning of a story; differentiating between figurative and literal language; seeing literature as a reflection of its region and culture, and thus broadening experience with different ways of life and thought, races, countries, and times.

Literature used in instruction is chosen from a variety of types: poetry, stories, biography, essays (informational, personal), the novel (character-told or omniscient author), and drama (melodrama or surface, especially one-act, radio and television).

Composition

Composition, oral and written, is continuous in the program, with writing receiving more attention than speaking in grade 9. Instruction necessary to effective communication, including spelling, capitalization, punctuation, manuscript form, handwriting, usage, and grammar, should be carefully coordinated with reading, writing, speaking, and listening activities.

Compositions, as in the earlier grades, continue to be written about subjects largely personal, with some, however, beginning to call for thoughtful analysis and to be related specifically to the reading being done. Increasingly, exposition is emphasized, especially explanatory and informative paragraphs. Writing and speaking, based upon carefully organized notes or outlines, are included regularly throughout the year. Interested students are encouraged to write imaginative or emotional (creative) prose and poetry.

Skills in composition in grade 9 for students achieving at grade level will include the following: differentiating between fact and opinion; drawing inferences from facts; substantiating abstractions by specific detail; increasing sensitivity to repetitious wording; increasing precision in word choice, for setting tone and mood, for connoting meaning, for

subordinating and coordinating ideas; developing paragraphs in which the first sentence, though perhaps not a topic sentence, raises questions which are then answered logically.

In a composition of several paragraphs, the student learns to write from a simple outline and to show the reader an organization through use of careful transition. In using reference materials, the student should learn to refrain from using the wording or organization of the original. In polishing a composition, the student should proofread with skill; he should begin to revise whole paragraphs at the teacher's direction.

Grammar

In grade 9, after review of concepts developed in grades 7 and 8, students are introduced to the function of the adverbial clause as a modifier, and thus begin the study of the complicated and mature concept of subordination, including concepts of the conjunction, the compound sentence, the complex sentence, and the appositive. Instruction should be grounded in reading in which complex thought relationships are conveyed; drill and practice should consist of the student's using the structure studied in his own composition, rather than identifying those structures in sentences composed by others.

Mechanics

Instruction in mechanics at grade 9 includes forms for business letters as needed to complete assignments involving letterwriting; capitalization needed in written assignments; punctuation particularly of transitional devices, and coordinated and subordinated phrases and clauses to which attention is being given in composition and grammar.

Usage

Instruction at grade 9 develops the student's ability to differentiate levels of usage, identify illiteracies as incorrect, and identify some usages as inappropriate in standard speech and informal writing. Usage errors habitually made by students are singled out for constant attention in all oral and written work. The school faculty should study language habits of students and determine a grade placement where specific usage items are to be attacked.

LIBRARY SKILLS
(continued)

Curriculum Performance Objectives

The student is able to perform the following activities:

- Given a list of topics by the teacher, select one for which he lists three references taken from the Reader's Guide to Periodical Literature.
- Using one or more of the sources listed in Performance Objective 5 above, write a 50-word paragraph beginning with a clearly stated topic sentence and presenting a summary of the information found.

Career Concepts and Career Performance Objectives

Suggested Teaching Methods for Curriculum and Career Concepts	Materials	Teacher's Comments
<p><u>For Teaching Career Concepts</u> (continued)</p> <ol style="list-style-type: none"> 1. Students who are able to travel to a library containing bound periodicals may want to get extra credit for reports on some of the articles discovered in their work with the <u>Reader's Guide</u>. Very brief reports on some points which they consider especially interesting, such as salary, special training or equipment required, or unusual working conditions, may benefit all members of the class. 		

Curriculum Concepts	Curriculum Performance Objectives	Career Concepts and Career Performance Objectives
<p>COMPOSITION</p> <ul style="list-style-type: none"> • Dialogue • Mechanics 	<p>The student is able to perform the following activities:</p> <ol style="list-style-type: none"> 1. Create a fictional dialogue involving at least two persons, using correctly commas and other terminal punctuation for quotations as well as quotation marks, observing proper paragraphing techniques involving a change of speaker, and employing at least five examples of appropriate figurative language. 2. Given five examples of figurative language, rephrase each so that the literal meaning is made unavoidable. 3. Name one advantage and one disadvantage of slang usage. 4. Differentiate between slang or colloquial usage and sub-standard speech by citing one example of each. 5. Observe the use of colloquial dialogue in a selected reading. 	<p><u>Career Concept</u></p>
<p>USAGE</p> <ul style="list-style-type: none"> • Figurative language • Slang • Sub-standard usage 		

Suggested Teaching Methods for Curriculum and Career Concepts

For Teaching Curriculum Concepts

1. You may wish to emphasize that in use of quotation marks, commas and periods always remain inside and semicolons and colons go outside. Some examples by you of the varying placement of question marks and exclamation marks may be helpful.
2. -- 5. Discuss with the class the simple meanings of figurative and literal language. Choose many expressions from today's slang which are figurative.

Curriculum Concepts	Curriculum Performance Objectives	Career Concepts and Career Performance Objectives
PARTS OF THE SHORT STORY <ul style="list-style-type: none"> • Setting • Conflict • Characters • Theme 	<p>The student is able to perform the following activities:</p> <ol style="list-style-type: none"> 1. In selected short stories, identify by oral or written means setting, conflict, characters, and theme. 2. Using assigned short stories or television viewings, write a brief paragraph explaining the conflict in one of these. The paragraph should include a topic sentence naming the conflict, followed by statements telling the background or reasons for the conflict and its final resolution. 3. Participate in a class discussion of themes of at least two short stories assigned by the teacher. This discussion should relate these themes to the student's experience. 	<p><u>Career Concept</u></p> <p>Work is necessary in all areas of human existence. Even characters in fiction must, if we read between the lines, earn a living.</p> <p><u>Career Performance Objective</u></p> <p>The student is able to perform the following activity:</p> <ol style="list-style-type: none"> 1. Given a list of characters from selected short stories, theorize as to the profession or occupation which the person does or may pursue. The supposition is to be defered with at least one fact or illustration from the text.

Suggested Teaching Methods for Curriculum and Career Concepts	Materials	Teacher's Comments
<p><u>For Teaching Curriculum Concepts</u></p> <p>1., 2., and 3. Some short stories you may wish to consider for these activities are Arthur Conan Doyle's "The Adventure of the Speckled Band," Edgar A. Poe's "The Cask of Amontillado," James Hurst's "The Scarlet Ibis," Stephen Vincent Benet's "By the Waters of Babylon," Jack Finney's "The Life and Death of a Western Gladiator," Guy de Maupassant's "The Necklace," Francis Wood's "Turkey Red," and Richard Connell's "The Most Dangerous Game."</p> <p>Television offerings such as <u>Kung Fu</u>, <u>Kod Squad</u>, and <u>The Maltons</u> can provide pithy themes and plots for class discussion.</p> <p><u>For Teaching Career Concepts</u></p> <p>1. The same stories mentioned above can apply to this career assignment. Initiate a discussion around the idea that even though fictional characters often appear isolated from work, this separation is not generally found in real life situations.</p>	<p><u>Curriculum</u></p> <p>ESC, Region 20:</p> <p>8837 <u>What's in a Story</u> (16mm, color, 14 m.)</p>	

Curriculum Concepts	Curriculum Performance Objectives	Career Concepts and Career Performance Objectives
<p>SKILLS IN READING LITERATURE</p> <ul style="list-style-type: none"> • Understanding complexities of plot • Understanding characterization • Predicting outcomes <p>• Sensory devices</p>	<p>The student is able to perform the following activities:</p> <ol style="list-style-type: none"> 1. Assigned a series of short stories of increasing complexity by the teacher, summarize orally or in written form the plot of each; identify the main character; list his most important emotional, mental, and physical attributes; name his goal or objective; and at a point given by the teacher, predict the outcome of the story. 2. During the reading aloud by students or teacher of selected writings, participate in a discussion of effective sensory devices and the author's creation of mood and time (which further limits the reader's freedom to imagine). 	<p><u>Career Concept</u></p> <p>Understanding the characters of others from the subtlety of behavioral clues is important in getting along with one's co-workers.</p> <p><u>Career Performance Objective</u></p> <p>The student is able to perform the following activity:</p> <ol style="list-style-type: none"> 1. Participate in a discussion of the importance of understanding and getting along with one's co-workers.

Suggested Teaching Methods for Curriculum and Career Concepts	Materials	Teacher's Comments
<p><u>For Teaching Curriculum Concepts</u></p> <ol style="list-style-type: none"> 1. Generally, a literature text will offer a section of short stories from which stories progressing from simple to complex can be selected. 2. Richard Connell's famous "The Most Dangerous Game" lends itself well to a study of mood and sensory devices in the short story. <p><u>For Teaching Career Concepts</u></p> <ol style="list-style-type: none"> 1. Students may enjoy putting on little dramatic situations to study this objective: "The Boss's Bad Day," "When Not to Ask for a Raise," or other similar episodes. 	<p><u>Career</u></p> <p>HISD AV Dept.:</p> <p>16-696 <u>Your Job: Fitting In</u> (16mm, color, 16 m.)</p>	

COMPOSITION

- Creative writing

Curriculum Performance Objectives

The student is able to perform the following activities:

1. For extra credit only, observing and following models in the textbook or other sources if possible, create one of the following:
 - a. a short-short story
 - b. a poem
 - c. a one-act play
 - d. an essay of at least 800 words.

Career Concepts and Career Performance Objectives

Career Concept

Talented individuals may choose careers in the creative literary arts.

Career Performance Objective

The student is able to perform the following activity:

1. List at least three and participate in a discussion of careers in various forms of creative writing.

Suggested Teaching Methods for Curriculum and Career Concepts

For Teaching Curriculum Concepts and Career Concepts

1. Seeing one's words in print can be quite a thrill. If students are interested, these creative writings can be compiled, with some proofreading and editing, and published (by mimeo or spirit duplicator). Students can learn a lot about careers involving the actual writing, editing, and actual production of printed materials and books through this practical exercise.

Curriculum Performance Objectives	Career Concepts and Career Performance Objectives
<p>The student is able to perform the following activities:</p> <ol style="list-style-type: none"> 1. Select and read to the class one newspaper editorial or column which he feels illustrates the individual writer's point of view, restating in his own words the viewpoint which he feels the author advocates. 2. Collect and identify one newspaper or magazine clipping illustrating each of the following: <ol style="list-style-type: none"> a. satire b. editorial c. propaganda d. political or social cartoon e. "letters to the editor" column. 3. Read to the class one article which he has taken from a magazine or newspaper which illustrates the effective use of figurative language. 	<p><u>Career Concept</u></p> <p>Local, national, and international events can affect the job market. These are frequently discussed or handled in editorials or cartoons.</p> <p><u>Career Performance Objective</u></p> <p>The student is able to perform the following activity:</p> <ol style="list-style-type: none"> 1. Find one cartoon or editorial pertaining to the job market.

READING TECHNIQUES

•Author's point of view

•Figurative language

Suggested Teaching Methods for Curriculum and Career Concepts

For Teaching Curriculum Concepts

1. You may wish, with the help of willing students, to begin collecting newspapers a week or so before the assignment so that all students will have a paper. Review the different sections and types of information found in the newspaper before you proceed with the assignment.
2. & 3. You may wish to have the students do this assignment in the form of a notebook, with extra credit for various embellishments which the students wish to add. For 3 you may have to suggest some authors or columns to get some students started. Local authors include Sam Kindrick and Paul Thompson. Jack Smith and Art Buchwald are syndicated columnists whose writings are colorful.

For Teaching Career Concepts

1. This can probably be tied in with the activities above.

Collect and be able to interpret in his own words one example of each of the following: <ol style="list-style-type: none"> a. bar graph b. circle or pie graph c. line graph. 2. On a city map, locate the approximate location (when given street addresses) of four of the following: <ol style="list-style-type: none"> a. the student's home b. the location of the school c. a museum named by the teacher d. the police department e. the public library f. a theater named by the teacher. 	<p><u>Career Concept</u></p> <p>Statistical charts and graphs provide graphic demonstrations of occupational information.</p> <p><u>Career Performance Objective</u></p> <p>The student is able to perform the following activity:</p> <ol style="list-style-type: none"> 1. Present to the class and interpret a poster or blackboard display which he has prepared on some facet of occupational information garnered from some valid source such as the <u>Occupational Outlook Handbook</u>.

Suggested Teaching Methods for Curriculum and Career Concepts

For Teaching Curriculum Concepts

1. Other textbooks such as social studies texts and science books should provide a wealth of this type of illustration.
2. Generally, these maps are free at service stations. Perhaps some students can bring maps to use. Emphasize the use of the alpha-numeric scales which the maps use to pinpoint addresses.

For Teaching Career Concepts

1. The Occupational Outlook Handbook contains quite a few tables and graphs. If not enough information is available, in your opinion, perhaps students could form groups of three or four to collaborate on the drawing and explanations.

<p>SKILLS IN READING LITERATURE</p> <ul style="list-style-type: none"> • Reading of a novel • Conflict and plot • Predicting outcomes • Composition • Theme of novel • Descriptive character sketch 	<p>The student is able to perform the following activities:</p> <ol style="list-style-type: none"> 1. Participate in oral as well as silent reading of a novel assigned by the teacher. 2. Participate in discussions concerning complexities and development of plot. 3. Participate in a discussion of those characteristics of the main characters which helped determine the outcome of the novel's conflict or plot. 4. Write a brief paragraph using the following (or similar) topic sentence: "The theme of _____ (title of novel), like the theme of any good literature, can be related to the feelings, life, or desires of the reader." 5. Write one paragraph of 50 to 75 words describing in detail the physical appearance of one character (other than a main character) from the novel, using and identifying at least six descriptive adjectives. <p style="text-align: center;">(Continued)</p>	<p><u>Career Concept</u></p>

ted Teaching Methods for Curriculum and Career Concepts

For Teaching Curriculum Concepts

1. --9. Since class discussions at selected intervals during the reading of the novel are helpful, it may be wise to have all students read the same novel. (Other novels should be allowed, of course, for extra work and credit.) You may want to consider available paperbacks, such as Jack Schaefer's Shane, Twain's The Adventures of Tom Sawyer, or Esther Forbes' Johnny Tremain. The region and culture reflected in the novel can be studied by permitting students to publish a newspaper as it would have appeared during this time, along with student illustrations and advertisements. The class discussions may dwell on the character changes which will be evidenced, in subtle and obvious clues, in the behavior of many characters.

Miscellaneous Teaching Exercises

Practice in identification of sentence elements

1. That man is a fireman in San Antonio.
P.n.
2. The girls are wifners of the trophy.
P.n.
3. My books are very old.
P.s.
4. My teacher seems very tired.
P.a.
5. The river flooded the banks of the Mississippi.
d.o.
6. Some monkeys climbed the banana tree quickly.
adj. d.c. adv.
7. Soon the bell will ring.
adv.
8. Juan mailed Michael a letter.
i.o. adj. d.o.
9. Bob sent Mary some flowers.
i.o. adj. d.o.
10. Maria, my sister, is in nursing school.
s.p.
11. Mr. Jones, the principal, made the morning announcements late.
d.o. adv.
12. He went to the room concert with me.
adj.
13. Margaret, the girl in the red dress, is very smart.
s.p. p.a.
14. The plane was a P-52.
P.n.
15. Fernando gave Janicé his project.
i.o. d.c.
16. The train wreck killed twenty people.
adj. d.c.
17. Self-discipline will be your hardest lesson in life.
adj. p.n.
18. The moon is full once every twenty-eight days.
P.a.
19. The volcanic eruption was frightening.
P.a.
20. He called me into his office.
d.o.

Practice in identification of noun functions (objects of prepositions and possessive modifiers)

1. That is my book on the table.
2. Joan's dress is in the closet.
3. Our students are always courteous in the halls.
4. We will ride with Oscar's mother.
5. The school's football record was 5 and 3.
6. The doctor's phone was busy.
7. Your future should be determined by your interests and ability.
8. Pioneers traveled across the continent.
9. The stars in the sky twinkle by night.
10. The building custodian's work is vital to the operation of the school.
11. Without him the classrooms, halls, and grounds would turn learning off.

Differentiating between phrases and clauses

1. When I frow up, I want to be a doctor.
clause phrase
2. You will fail the test if you don't study.
clause
3. I asked the girl who didn't know the answer.
clause
4. Before you leave, straighten the desks.
clause
5. Although Herlinda was ill, she performed her part well.
clause
6. During the intermission, I bought some popcorn.
phrase
7. The boys had a flat tire after the dance.
phrase
8. Are you going to the party?
phrase
9. I lost my papers on the way to school.
phrase phrase
10. The books were under the desk.
phrase

Combining independent clauses and dependent clauses to form complex sentences.

1. The birds suddenly stopped singing / when the sun set.
2. I fell down / as I was running along.
3. Mary was called home / because her mother was sick.
4. She was chosen the outstanding student / although she didn't have straight A's.
5. The principal canceled classes / until the snow melted.
6. The team arrived late / since the bus broke down.
7. Janie could not go to the party / if she didn't clean her room.
8. The paint on the wall began to peel / as if the surface had not been properly prepared.
9. Let's hurry to the store / before the storm begins.
10. The springs in the chair were sprung / so that you could not sit on it.

These sentences may be expanded by the use of adverbial clauses.

1. The sun was shining brightly.
2. They decided to go to the beach.
3. The waves lapped against the shore.
4. The hot dogs tasted especially good.
5. James' nose was sunburned.
6. He brought his surfboard along.
7. We had to wait under the umbrella.
8. Mary came running out of the water.
9. The water was warm and salty.
10. We went home exhausted.

These sentences may be expanded by the addition of prepositional phrases.

1. There are five books _____.
2. The swimmer dived _____.
3. _____ there is fertile land.
4. The flowers _____ were beautiful.
5. Countless reminders _____ are everywhere.
6. Bloodcurdling tales _____ are often told.
7. Beautiful Creole girls _____ are seen in the French Quarter.
8. The adventures _____ make exciting reading.
9. _____ this situation would never have developed.
10. Nevertheless, he decided to fly in the face of tradition and write the report _____.

Rules for forming plurals

1. Most nouns: add s to the singular--ox. bird, birds
2. Nouns ending in ch, sh, s, x, or z: add es to the singular--ex. box, boxes; church, churches
3. Nouns ending in o preceded by a consonant: add es to the singular--ex. hero, heroes;
potato, potatoes (exceptions: musical terms, piano, pianos)
4. Nouns ending in o preceded by a vowel: add s to the singular--ox. radio, radios
5. Nouns ending in y preceded by a consonant: change y to i and add es--ex. cry, cries;
sky, skies
6. Nouns ending in y preceded by a vowel: add s to the singular--ox. turkey, turkeys
7. Some nouns ending in f or fe: change f or fe to ve and add s--ex. knife, knives
8. Some nouns: change internal vowels to form plurals--ex. goose, geese
9. Some nouns: add en or ren to form their plurals--ox. child, children; ox, oxen

Exercise for pluralizing

I. Nouns ending in s, z, ch, and sh

- | | | | |
|---------|-----------|----------|------------|
| 1. bush | 6. church | 1. man | 6. oasis |
| 2. fox | 7. bench | 2. foot | 7. child |
| 3. wish | 8. thrush | 3. woman | 8. tooth |
| 4. tax | 9. branch | 4. goose | 9. radius |
| 5. buzz | 10. grass | 5. ox | 10. fungus |

II. Change in spelling

III. Nouns ending in y

- | | |
|------------|---------------|
| 1. city | 6. journey |
| 2. lady | 7. enemy |
| 3. turkey | 8. alley |
| 4. chimney | 9. dictionary |
| 5. baby | 10. party |

IV. Changing f to v

- | | |
|----------|----------|
| 1. wife | 6. self |
| 2. knife | 7. leaf |
| 3. half | 8. thief |
| 4. calf | 9. life |
| 5. wolf | 10. loaf |

IV. Nouns ending in o

- | | |
|-----------|------------|
| 1. hero | 6. volcano |
| 2. potato | 7. tomato |
| 3. trio | 8. studio |
| 4. radio | 9. zero |
| 5. echo | 10. domino |

Some suggested rules for capitalization

1. Capitalize the first word of a sentence.
2. Capitalize the first word of a quoted sentence.
3. Capitalize the word I.
4. Capitalize the days of the week, the months of the year, and the names of the holidays.
5. Do not capitalize the names of the seasons.
6. Capitalize the names of particular people.
7. Do not capitalize words that refer to people in general.
8. Capitalize the names of specific companies and places.
9. Do not capitalize words that refer to places in general.
10. Capitalize the names of languages and of national, racial, or religious groups.
11. Capitalize school subjects only when they are used with numbers or when they name languages.
12. Capitalize Mother, Father, etc. when they are used instead of relative's names.
13. Capitalize Mother, Father, etc. when they are used in direct address.
14. Capitalize positions, titles, ranks, jobs, and family relationships when followed by a name.
15. Capitalize the name of the Deity, or any noun or pronoun which stands for the Deity.
16. Capitalize the words north, south, east, and west or combinations when they refer to a section of the country, but never when they refer to direction.
17. Capitalize the first word and all important words in the titles of books, plays, stories, movies, songs, magazines, and newspapers.
18. Capitalize the names of specific documents, historical events, buildings, churches, schools, and clubs or other organizations.

Exercise in capitalization

1. my aunt and i were very close.
2. when she was dying, i wrote her son.
3. which is the tallest building in new york?
4. where is the washington monument?
5. the dance will be saturday, april 24.
6. he works for the famous patio foods company.
7. in hollywood, he stood on the corner of hollywood and vine.
8. next suesday is easter.
9. my favorite summer month is july.
10. is mari the daughter of mrs. gonzales?
11. is daddy home yet, mama?
12. my cousin is teaching my sister to swim.
13. is his secretary from the east?
14. does sergeant garcia live east of here?
15. poe wrote "the cask of amontillado."
16. i sold the express and news for fifteen years.
17. ask uncle bob to call aunt rose.
18. are you taking algebra II or geometry next year?
19. did you pass spanish?
20. president john f. kennedy was a catholic democrat.

Exercise in use of possessive forms of pronouns

1. (1, S) house burned down last night.
2. Give me (2, S) address before you leave.
3. Michael broke (3, S) leg in the accident.
4. There is no excuse for (1, P) neglect.
5. Margaret and Susie, did you get (2, P) dresses for the prom.
6. James and John left (3, P) homework on the bus.
7. I think that one is (1, S).
8. Did you lose (2, S), too.
9. The winning project was (2, S).
10. The glove on the bench is (3, S).
11. The fault was (1, P).
12. Are these cakes (2, P).
13. (3, P) is better than (1, P).
14. Golf was (3, S) hobby, but tennis was (3, S).
15. (3, P) idea was not as good as (1, S).
16. The judges thought (3, S) painting was more colorful than (3, P).

Exercise requiring use of apostrophes

1. To show possession. Change the following phrases into possessive nouns by using an apostrophe and s.
 - a. the dresses of Mary
 - b. the book of John
 - c. the house of Margaret
 - d. the toys of the child
2. Pluralization of letters, symbols, and numbers. Make the underlined plural.
 - a. How many A did you get?
 - b. She did not put enough s in Mississippi.
 - c. James made 100 on all of his tests.
 - d. I didn't get any F.
 - e. His L looked like 7, so all his answers were marked as being wrong.
 - f. On his personality test he received nearly all t.

Exercises in transformation

Requests or questions

1. The birds sing. (Sing, birds.) (Do birds sing?)
2. The boys played ball. (Play ball, boys.) (Did the boys play ball?)
3. Mary is my friend. (Be my friend, Mary.) (Is Mary my friend?)
4. John bought Marya a corsage. (John, buy Marya a corsage.) (Did John buy Marya a corsage?)
5. Our football team is a winner. (Be a winner.) (Is our football team a winner?)

Exercise in changing active voice verbs to passive voice verbs

1. The quarterback passed the ball to the end.
2. The Rolling Stones recorded a new album.
3. The class voted Mark as its president.
4. The class toured the Witte Museum.
5. The planned a picnic after the field trip.
6. Everyone enjoyed the outing.
7. Mrs. Gonzalez brought soda for the students.
8. The bus driver fixed the flat tire.
9. The parents picked up the children.
10. Each person wrote a report about the trip.

Exercise in the use of reflexive pronouns

1. He (himself) told me about the skeleton in his closet.
2. She bruised (herself) badly when she went over the falls in a barrel.
3. I gave (myself) a high rating on modesty.
4. Given too much food, a goldfish will literally eat (itself) to death.
5. Sam, allow (yourself) time to proofread your essay.
6. Some science fiction writers use the theme that eventually we will destroy (ourselves).
7. If they are given the opportunity, they will police the picnic area (themselves).
8. Scholars, prepare (yourselves) for a tough test.

BEST COPY AVAILABLE

Suggested lists for determining chronological order of events.

Baking a cake

1. Reading the recipe
2. Assembling the ingredients
3. Mixing the ingredients
4. Greasing and preparing pans
5. Baking the cake

Preparing for football

1. Conditioning
2. Drilling
3. Learning plays
4. Practicing plays
5. Playing a game

Presenting a play

1. Writing the script
2. Casting
3. Rehearsing
4. Rehearsing in full dress costume
5. Presenting public performance

Driving a car

1. Turning on the ignition
2. Starting engine
3. Fastening seat belt
4. Placing transmission in gear
5. Driving away

A Partial Listing of Characters in Greek and
Roman Mythology

Some of the important characters in Roman and Greek mythology are listed below. The accompanying descriptions are very brief and are meant to be only spurs to your memory. For a fuller review, please consult a good mythology source book, such as Bulfinch's Mythology by Frank Bulfinch or Edith Hamilton's Mythology.

Achilles, the central hero in Homer's Iliad, was vulnerable to injury only on his heel. He was killed by Paris' arrow during the siege of Troy.

Adonis was an extremely handsome lad who was loved by Venus. He expired on the horns of a wild boar.

Aphrodite (Venus) was the goddess of love and beauty.

Apollo held dominion over the sun, prophecy, music, medicine, and poetry.

Ares (Mars) represented war and battle.

Artemis (Diana) served as goddess of the hunt, of healing power, and disease.

Athene (Minerva) was the goddess of wisdom and power.

Atlas, as punishment, was forced to hold the world on his shoulders. His name has become a synonym for a person of great strength.

The Centaur possessed the upper torso of a man and the lower body of a horse.

Cerberus, a dog with saucer-sized eyes, guarded the gates of Hades, or the underworld.

The Chimera breathed fire, and was part lion, part goat, and part dragon.

Circe, an enchantress, changed men into swine. Odysseus, or Ulysses, landed on her island during his long journey home.

Cupid (Eros), the offspring of Venus, was the god of love.

Perseus slew the Gorgon named Medusa.

The Sirens, sea nymphs who were part woman and part bird, lured sailors with their songs to the rocks on which the mariners' ships were dashed to pieces.

Theseus, with the aid of a ball of string, wended his way into the labyrinth to kill the Minotaur.

Vulcan (Hephaestus) was the god of fire.

The Cyclopes were one-eyed giants, cannibals, whom Odysseus encountered and outwitted during his travels.

Daedalus built the labyrinth to contain the monstrous Minotaur. He also created a pair of wings on which his son Icarus flew to his death.

The Gorgons, three evil sisters, had the power to turn people to stone with their glances.

Hades (Pluto) ruled as god of the underworld.

Hercules, a hero-god, won immortality by completing the twelve "impossible" labors assigned to him by Hera.

Hermes (Mercury) was the messenger of the gods.

The Hydra, a hundred-headed monster slain by Hercules, was able to grow two heads in place of each one severed. Hercules defeated the monster by searing with a torch the stub of each decapitation.

Juno (Hera) reigned as the queen of Heaven. She was the wife of Jupiter (Zeus).

Jupiter (Jove, Zeus) occupied the throne as the highest Olympian deity.

Medusa, one of the Gorgons, had hair which had been changed into serpents. She was executed by Perseus, who used a mirror to avoid her petrifying glare.

The Minotaur, a creature half bull and half man, lived in the labyrinth on a diet of human flesh until he was destroyed by Theseus.

Morpheus was the god of dreams.

Neptune (Poseidon) had dominion over the seas.

Odysseus (Ulysses) fought heroically for the Greeks in the Trojan War. His adventures while he was homeward bound after the war are described by Homer in the Odyssey.

THE DESCENT OF THE GODS
