ABSTRACT

The guide, a revision of the one issued in Winter 1971, lists ethnic studies materials in the Learning Resources Center of Shoreline Community College, Seattle, Washington. The bibliography was compiled to help students locate ethnic materials, and as a tool to help the library assess its collection. Most materials cited were published in the 60's and 70's. The bibliography is arranged alphabetically by subject in the following ethnic groups: Afro-Americans; Asian-Americans; Mexican-Americans; and Native-Americans. The Afro-American materials comprise about one-half of the guide. Within each ethnic group the listing is by type of material and includes reference materials, books and microforms, periodicals and newspapers, and media materials. Works on Africa and Mexico are listed separately. A section on general works which pertain to all ethnic groups and race relations is also provided. Information for each item cited consists of author, publishing company, date and Dewey Decimal Classification number. (RM)

A Guide to Materials

for

Ethnic Studies

in the

Shoreline Community College

Learning Resources Center

This guide to the Ethnic Studies Collection is a revision of the bibliography which was issued during Winter 1972. The new features of the revised guide include the following: (1) A section on general works which pertains to all ethnic groups and race relations; (2) A section on Asian-Americans; (3) A list of citations to specific items for each ethnic group (provided only for Afro-American materials in the first guide); and (4) A list of subject headings for each group.

COMPILATION. The library shelf list was used to compile the guide. The decision to include an item and its placement in the guide was based entirely on the subject tracings used to describe each item. None of the materials were examined first hand. For this reason, some of the materials may be placed incorrectly, and some materials may have been inadvertently excluded or vice versa. Such errors are the sole responsibility of the compiler.

A few items from the first issue have been deleted from the revised version because they were found not to apply, and/or were found to be missing from our collection. However, inclusion in this list does not preclude that some of the items may not be missing or lost, or charged out to someone. It is also possible that certain items may have been reclassified since compilation of the guide. Consult the card catalog for new dewey numbers.

ARRANGEMENT. The arrangement of this bibliography is an alphabetical subject arrangement by ethnic group and then by type of material within each group. Works on Africa and Mexico have been listed separately because such an arrangement facilitated compilation.

The major divisions are mentioned below.

SUBJECT HEADINGS. The subject headings listed are those which are most frequently used to describe the various ethnic materials. Consult the subject card catalog for new material under these headings.

REFERENCE MATERIALS. These basic reference tools are located in the reference room and are not circulated.

BOOKS AND MICROFORMS. Books and microfiche are intershelfed in the circulation room. A microfiche reader is conveniently located there. Microfilm and microfilm readers are housed in the reference room.

PERIODICALS AND NEWSPAPERS. The periodicals and newspapers listed are those which specifically pertain to non-white ethnic groups. Students should be aware that pertinent materials also appear in journals (such as the American Journal of Sociology and the American Anthropologist), which only occasionally feature articles on ethnic groups. Articles in such journals can be located through the indexes listed on page 7.

MEDIA MATERIALS. Media materials include tapes and records, slides, filmstrips, motion pictures, prints, maps, and transparencies. These are housed in the media centered on the lower level of the library.

A separate and complete catalog exists in printed form issued by Jerry Magelssen that shows the 16mm motion picture holdings in all subjects. Please consult that catalog for additional ethnic studies films.

A quick glance at the guide shows that SCC ethnic collection has grown considerably in depth and quality. The collection on the Asian-American is especially poor; however, every effort is being made to develop that collection. New materials are constantly arriving at the LRC. Please consult the Library Acquisitions List and the Card Catalog for new acquisitions.

This bibliography should not be regarded as a complete listing of all SCC materials on ethnic studies. It is merely a GUIDE to the collection and provides a starting place for students in their search for pertinent material. Students and faculty are encouraged to utilize the resources at SCC Learning Resources Center. The library staff is ready and willing to help YOU.

DEWEY DECIMAL CLASSIFICATION

The Dewey Decimal Classification scheme represents the basic arrangement of SCC library materials. Most ethnic studies materials are classified in the social science (300's) and the geography and history (900's) divisions. For this reason, a breakdown of these divisions is included here. The DDC schedules are also an excellent guide to browsing.

The classification tables which follow are reproductions from Melvil Dewey's DEWEY DECIMAL CLASSIFICATION AND RELATIVE INDEX, 18th edition, Forest Press, 1971, pages 450, 454, and 460.

SCC CARD CATALOG

The card catalog is the basic index to the entire collection, both book and non-book, of SCC Learning Resources Center. The main catalog which is located in the circulation room, is divided into two sections: one section lists all holdings by author and title and the other section lists holdings by subject. In addition to the main catalog, there are satellite catalogs in the reference room and the media center.
