ABSTRACT

In an attempt to achieve equality in employment practices this annual report is presented as an ethnic survey of employees of the executive branch of New York State government. This report compares the data collected in late 1972 with that gathered in three of five previous years: 1967, 1970, and 1971, and tabulates and examines employee distribution by ethnic group, agency, sex, occupational category, salary range, jurisdictional classification, and location. The final 56 pages comprise four appendixes covering: women in New York State government; department of correctional services; executive department; division of State police; and guidelines to collection of data, salary plan, occupational definitions and definitions of jurisdictional class. FOREWORD

This report presents the results of the sixth Annual Ethnic Survey conducted by the New York State Department of Civil Service under the mandate of the Governor.

The report compares the data collected in late 1972 with that gathered in three of five previous years: 1967, 1970, and 1971. The report is published to provide some measure of what has been accomplished and to help us gauge the problem ahead in our attempt to achieve equality of employment opportunity for all.

INTRODUCTION

The 1972 Ethnic Survey includes sixty-seven (67) agencies and 171,171 employees.¹ The data gathered for the 1972 Ethnic Survey was obtained through the use of a computer print-out which listed the titles found in each agency. Agency staff were required to enter directly on the computer print-out the ethnic identification and sex of employees serving in the titles listed. In prior years, agencies were given questionnaires on which to group employees in broad occupational categories, i.e., Laborers, Service Workers, Operatives, etc. These questionnaires did not provide the more refined title breakdown which is required for research and evaluation purposes.

While the use of computer print-outs posed some technical problems, it will now be possible to focus remedial and corrective action in specific areas. The Department of Civil Service, through analysis of the more refined data, will be better equipped to assist agencies in identifying areas of possible discrimination or vulnerability to charges of discrimination, and in formulating, implementing, and evaluating their affirmative action plans. The 1972 Survey continued the practice of having agency personnel, supervised by an agency coordinator, conduct a sight survey. The Survey also continued to use those categories used in all preceding Surveys: ethnic group (White, Black, Puerto Rican, and Other Minorities); occupational group (see definitions); jurisdictional class (as defined in the Civil Service Law); sex, and salary grade. Agency and county location were produced automatically by the reporting method.

Most of the tables in this report present data from the 1967 Survey (the initial Survey) and from the Surveys conducted in 1970, 1971, and 1972. The comparison with the 1970 and 1971 figures is essential, because the 1972 data cannot be put in proper perspective unless considered in the light of the cutback in the State work force, which took place between 1970 and 1971.

HIGHLIGHTS OF THE 1972 SURVEY

There were 26,089 more State employees in 1972 than in 1967: the White work force increased by 16,138 (61.9% of the total increase); the Black work force increased by 7,533 (28.9% of the total increase); the Puerto Rican work force increased by 1,572 (6.0% of the total increase); and those persons categorized as Other Minorities increased by 846 (3.2% of the total increase).

In 1972, ethnic minority group members made up 17.3% of the State work force. In 1967, ethnic minority group members made up 13.4% of the State work force.

Reported in the 1972 Survey were 1,393 federally funded Emergency Employment Act employees or 0.8% of the total work force surveyed; excluding these employees would decrease total minority employment by one-tenth of one percent (0.1%).

Of the 26,089 employees gained between 1967 and 1972, females increased by 12,297 or 47.1% and males increased by 13,792 or 52.9% of the total increase. This represents a 20.0% increase in total female employment and a 16.5% increase in total male employment since 1967.

Between 1971 and 1972 the percentage of State positions held by females decreased from 44.0% to 43.0%, representing the largest percentage decrease recorded since the Survey was first conducted. This was the second straight year that a decrease in female employment has been reported.

Of all female State employees, 17,776 or 24.1% were minority group members in 1972. In 1967, of all female State employees, 11,130 or 18.1% were minority group members. Of all male State employees, 11,628 or 11.9% were minority group members in 1972. In 1967, of all male State employees, 8,323 or 9.9% were minority group members.

The Black ethnic group was the only group to have a higher percentage of females than males employed in New York State Government. Of all Blacks employed, 52.8% were females and 47.2% were males. Of all Puerto Ricans employed, 45.7%

were females and 54.3% were males. Of all persons categorized as Other Minorities, 40.3% were females and 59.7% were males. Of all Whites employed, 39.4% were females and 60.6% were males.

The Department of Mental Hygiene is the largest agency in State Government. At the time of this survey, this Department employed 56,314 persons or 32.9% of the total State work force. The Department of Mental Hygiene employed 17,285 or 30.7% minority persons in 1972 as compared to 11,906 or 25.1% in 1967.

The Department of Mental Hygiene employed 44.7% of all females employed in State Government; 59.4% of all Black employees employed in State Government; 60.7% of all Puerto Ricans employed in State Government, and 47.7% of all persons categorized as Other Minorities employed in State Government.

From 1971 to 1972, the Department of Mental Hygiene's work force increased by 2,133 employees; 1,617 of these persons were minority group members. This is the largest numerical gain in minority employees reported by any agency in this Survey. The chart below shows the distribution of all Department employees and minority group employees by Salary Grade in 1971 and 1972.

Number Minority	- 7,791	+ 9,112	+ 251	- 13	+ 58

* The majority of the fluctuation between Salary Grade groups 1-6 and 7-13 was due to the establishment of a new Patient Care Career Ladder in April 1972, which resulted in the reclassification of nearly all Psychiatric Attendant, Salary Grade 6, positions to Mental Hygiene Therapy Assistant, Salary Grade 7.

- The Department of Mental Hygiene employed 32,911 women or 44.7% of all women employed by New York State. Of all women employed in the Department of Mental Hygiene, 23.5% were in Salary Grades 1-6; 61.7% were in Salary Grades 7-13; 12.8% were in Salary Grades 14-20; 1.4% were in Salary Grades 21-30, and 0.7% were in Salary Grades 31-38.
- Ninety-four and eight-tenths percent (94.8%) of all Black women employed by the Department of Mental Hygiene were in Salary Grades 1-13. Ninety-five and two-tenths percent (95.2%) of all Puerto Rican women employed by the Department of Mental Hygiene were in Salary Grades 1-13. Sixty-two and nine-tenths percent (62.9%) of all females categorized as Other Minorities in the Department of Mental Hygiene were in Salary Grades 1-13.
- The second largest agency in State Government is the State University of New York. The University employed 27,064 or 15.8% of all State employees. The University employed 2,863 or 10.6% minority persons in 1972 as compared to 1,609 or 7.7% in 1967.
- The State University employed 14.9% of all females employed in State Government; 8.5% of all Blacks employed in State Government; 6.1% of all Puerto Ricans employed in State Government, and 30.3% of all persons categorized as Other Minorities employed in State Government.
- The third largest agency in State Government is the Department of Transportation. The Department of Transportation employed 13,750 or 8.0% of all State employees. This Department employed 218 or 1.6% minority persons in 1972 as compared to 203 or 1.4% minority persons in 1967.
- The Department of Transportation employed 1.6% of all females employed in State Government; 0.7% of all Blacks employed in State Government; 0.6% of all Puerto Ricans employed in State Government, and 1.9% of all persons categorized as Other Minorities employed in State Government.

● In 1972, the Department of Correctional Services and the Division of State Police employed 68.1% of the Protective Service Workers in State Government.

● From 1967 to 1972, the Department of Correctional Services increased by 1,361 employees; 37.3% were minority persons, increasing minority employment in this agency from 4.5% to 10.1%, an increase of 5.6%.

● From 1971 to 1972, the Department of Correctional Services increased by 499 employees; 68.9% were minority persons.

1) From 1967 to 1972, the Division of State Police increased by 325 employees; 3.7% were minority persons, increasing minority employment in this agency from 0.6% to 0.9%, an increase of 0.3%.

● From 1967 to 1972, the number of Black employees of the Division of State Police increased from 13 to 18 and the number of Puerto Rican employees increased from two (2) to three (3). Between the two groups six (6) individuals were added to the Division payroll.

ANALYSIS OF SELECTED FINDINGSDistribution by Agency:

In 1972, twenty-one (21) of the fifty-one (51) agencies which had reported in 1971 showed an increase in work force; twenty-seven (27) showed a reduction in work force and three (3) reported no change. Twenty-four (24) agencies reported a total increase of 12.7% or 2,665 in the numbers of minorities employed.

Table III on page 19 denotes the employment in each agency and the number of minorities employed in each State agency in 1967, 1970, 1971 and 1972.

Nineteen (19) agencies reported a net decrease in the total number of minorities employed from 1971 to 1972:

Two agencies (2) accounted for 83.7% of the total increase in minority group employment between 1971 and 1972. The Department of Mental Hygiene accounted for 69.0% (1,617) and the Department of Correctional Services accounted for 14.7% (344).

Six agencies (6) reported that they employed no minority group members: New York State Bridge Authority, Job Development Authority, Office of Employee Relations, Adirondack Park Authority, Public Employment Pension Board, and Environmental Advisors. The New York State Bridge Authority has reported no minority group employees for the sixth straight year.

Twelve agencies (12) reported that they employed Blacks but no Puerto Ricans or persons categorized as Other Minorities: Public Employment Relations Board, Division of the Budget, Division of Probation, East Hudson Parkway Authority, Commission on Investigation, New York Higher Education Assistance Corporation, Teacher's Retirement System, Consumer Protection Board, Council on Architecture, Powers of Local Government, Atomic and Space Development, and Jones Beach Park Authority.

Eleven agencies (11) reported that they employed Blacks and Puerto Ricans but no persons categorized as Other Minorities: Civil Service, Office for the Aging, Alcoholic Beverage Control Division, Council on the Arts, Crime Victims Compensation Board, Labor Relations Board, Welfare Inspection, Social Welfare Board, Human Rights Appeal Board, Dormitory Authority, and Bethpage Park Authority.

Two agencies (2) reported that they employed Blacks and persons categorized as Other Minorities but no Puerto Ricans: Office for Local Government, and State University Construction Fund.

The agencies reporting the largest increases in Black and Puerto Rican employees from 1971 to 1972 were: Department of Mental Hygiene (1190 Blacks and 215 Puerto Ricans), the Department of Labor (321 Blacks and 145 Puerto Ricans), and the Department of Correctional Services (252 Blacks and 75 Puerto Ricans). The

largest increases for employees categorized as Other Minorities occurred in the Department of Mental Hygiene (212), the Narcotic Addiction Control Commission (34) and the Department of Labor (21).

Distribution by Ethnic Group:

The following shows the percentage breakdown of the New York State work force by ethnicity from 1967 to 1972:

Percentage Breakdown of New York State Work Force by Ethnic Group

<u>Year</u>	<u>Number</u>	<u>White</u>	<u>Black</u>	<u>Puerto Rican</u>	<u>Other Minorities</u>
1967	145,082	86.6%	11.4%	1.2%	0.8%

1972	171,171	82.7%	14.1%	2.0%	1.2%

For the six-year span measured by this Survey, the New York State work force increased by 26,089 employees. Of these, 61.9% were White; 28.9% were Black; 6.0% were Puerto Rican, and 3.2% were persons categorized as Other Minorities.

Distribution by Sex:

Appendix A of this report, "Women in New York State Employment," contains detailed statistics and a summary describing the distribution of employees by sex within the State work force.

The following table depicts the fluctuation of the percentage breakdown of the New York State work force by sex since 1967:

<u>Year</u>	<u>Number</u>	<u>Male</u>	<u>Female</u>
1967	145,082	57.7%	42.3%
1968	155,576	56.0%	44.0%
1969	161,410	56.0%	44.0%
1970	176,815	55.8%	44.2%
1971	168,110	56.0%	44.0%
1972	171,171	57.0%	43.0%

Distribution by Occupational Category:

The State's work force for purposes of this Survey was divided into eleven occupational categories. From 1967 to 1971, the Survey coordinator or first-line supervisor prepared the Survey indicating the category into which each of their employees was grouped. This year, each agency reported its employees by title and these titles were assigned to occupational categories by the central personnel agency (New York State Department of Civil Service).

The largest percentage of positions in the New York State work force were in the Administrative and Professional category (27.4%). The second largest category was Service Worker (24.3%), and the third largest was Clerical (21.5%). These three occupational categories accounted for 73.2% (124,823) of all employees reported in the 1972 Ethnic Survey.

Women comprised 81.3% of the Clerical workers, and men 18.7%. Sixty and two tenths percent (60.2%) of all Service Workers were women and 39.8% were men. Of all Technicians, 31.5% were women and 68.5% were men. Women make up 29.6% of all Administrators and Professionals, and men 70.4%. Men continue to hold a greater percentage of positions in all categories (68.5% to 99.6%) with the exception of Clericals and Service Workers. For the male-female ratio in the occupational categories, see Table VII.

From 1967 to 1972, the percentage of Blacks in Service Worker positions increased from 24.7% to 32.8%. The percentage of Blacks in Protective Service Worker positions also increased from 6.4% in 1967 to 13.5% in 1972. The percentage of Blacks in Administrative and Professional positions increased less than one-half of 1% (5.7% to 6.1%).

From 1967 to 1972, the percentage of Puerto Ricans in Service Worker positions increased from 2.5% to 4.2%. The percentage of Puerto Ricans in Protective Service Worker positions increased from 0.4% to 1.9%. The percentage of Puerto Ricans in Administrative and Professional positions increased from 0.4% to 0.9%.

Distribution by Salary Range:

Between 1971 and 1972, a few classification actions resulted in the redistribution of large numbers of employees among the Survey salary groups. The establishment of a new Patient Care Career Ladder in the Department of Mental Hygiene resulted in the reclassification of nearly all Psychiatric Attendant SG-6 positions to Mental Hygiene Therapy Assistant, SG-7. This action was primarily responsible for the net decrease of 18,423 individuals in the salary group encompassing Salary Grades 1-6.

The reallocations of the Correction Officer, Narcotic Correction Officer, Conservation Officer, Industrial Investigator, Construction Safety Inspector, and Boiler Inspector classes from SG-13 to SG-14, were primarily responsible for the net increase of 5,149 individuals in the salary group encompassing Salary Grades

These reallocations reduced the effect of the Mental Hygiene classification action on the salary group encompassing Salary Grades 7-13 to the extent that there was a net increase of only 14,801 individuals in that salary group.

The chart below depicts these redistributions of employees by ethnicity and sex in the total State work force.

Distribution by Jurisdictional Classification:

Of 144,107 persons reported (excluding State University of New York) 75.3% or 108,570 were in the Competitive Class.

Of the 117,566 Whites employed 74.3% or 87,467 were in the Competitive Class in 1972 as compared to 75.6% or 80,434 in 1967. Although this represents a decrease of 1.3%, there was a numerical gain of 7,033 Whites in the Competitive Class. In 1972, of all Whites employed, 17,380 or 14.8% were in positions in the Non-Competitive Class as compared to 15,331 or 14.4% in 1967.

Table XIV shows that in 1972 of the 22,001 Blacks employed (excluding State University of New York) 82.1% or 18,074 were in the Competitive Class. In 1967, of the Blacks employed, 87.0% or 13,388 were in the Competitive Class. Although this represents a decrease of 4.9% of Blacks in Competitive Class positions over the five-year period, numerically there was an increase of 4,686 Blacks in the Competitive Class.

Between 1967 and 1972, the percentage of all Blacks in Non-Competitive positions increased from 8.6% or 1,317 to 12.7% or 2,786.

Seventy-one and six-tenths (71.4%) or 2,312 of all Puerto Ricans were in Competitive Class positions in 1972 as compared to 78.5% or 1,320 in 1967; a decrease of 7.1% although a gain of 929 individuals was realized. Over the same period, the number of Puerto Rican employees increased from 2.5% or 42 to 7.2% or 226 in Labor Class positions and from 17.4% or 292 to 19.8% or 622 in Non-Competitive positions.

In 1967, there were six Blacks and no Puerto Ricans in the Unclassified Service (with the exception of State University of New York). In 1972, there were twelve Blacks and eight Puerto Ricans in the Unclassified Service.

Of the 1,397 persons categorized as Other Minorities 55.8% or 780 were in the Competitive Class in 1972 as compared to 76.5% or 595 in 1967. Thirty-seven and three-tenths percent (37.3%) or 521 persons categorized as Other Minorities occupied positions in the Non-Competitive Class as compared to 17.6% or 137 in 1967, primarily in titles such as Clinical Physician, Teacher, Professor.

The State University of New York reported a total of 27,064 employees-- all with permanent status. Of these employees, 14,492 occupied positions in the Unclassified Service; 7,112 occupied positions in the Competitive Class; 3,268 occupied positions in the Non-Competitive Class; 2,179 occupied positions in the Labor Class; and 13 occupied positions in the Exempt Class.

Of the 10,947 females employed in the University, 48.5% were in the Competitive Class; 35.1% in the Unclassified Service; 8.4% in the Non-Competitive; 7.9% in the Labor Class and 0.1% in the Exempt Class.

Of the 24,201 Whites employed in the University, 55.0% were in the Unclassified Service; 27.2% in the Competitive Class; 10.7% in the Non-Competitive Class; 7.0% in the Labor Class and 0.1% in the Exempt Class.

Of the 2,051 Blacks employed in the University, 29.3% are in the Unclassified Service; 28.8% in the Non-Competitive Class; 22.4% in the Competitive Class and 19.5% in the Labor Class. There were no Blacks employed in the Exempt Class.

Of the 206 Puerto Ricans employed in the University, 32.0% were in the Unclassified Service; 31.6% in the Labor Class; 21.4% in the Competitive Class; and 15.0% in the Non-Competitive Class. There were no Puerto Ricans employed in the Exempt Class.

Of the 606 persons categorized as Other Minorities employed in the University, 83.4% were in the Unclassified Service; 7.8% in the Non-Competitive Class; 5.8% in the Competitive Class, and 3.0% in the Labor Class. There were no Other Minorities employed in the Exempt Class.

Distribution by Location:

In 1972, four percent (4.0%) of all persons residing in New York State lived in the Albany Standard Metropolitan Statistical Area which encompasses the four counties of Albany, Rensselaer, Saratoga, and Schenectady. Three and seven-tenths percent (3.7%) or 26,621 of the persons residing in this Standard Metropolitan Statistical Area were minority persons. One and one-tenth percent (1.1%) of all

Blacks residing in New York State lived in the Albany Standard Metropolitan Statistical Area. Twenty and three-tenths percent (20.3%) or 34,745 of all State employees worked in the Albany Standard Metropolitan Statistical Area. Of the State employees working in the Albany Standard Metropolitan Statistical Area, 4.1% or 1,427 were minority persons. Five and one-tenth percent (5.1%) or 1,235 of the 24,052 Black State employees worked in the Albany Standard Metropolitan Statistical Area.

In 1972, of all New York State residents, 63.4% lived in the Greater New York City Standard Metropolitan Statistical Area which includes the five Boroughs of New York City and the four outlying counties of Suffolk, Nassau, Rockland, and Westchester. Of these residents, 24.8% were minority persons, comprising 86.6% of all New York State Black residents and 96.9% of all Puerto Rican residents. Of the 171,171 State employees reported in this Survey, 35.6% or 60,900 were employed in this Standard Metropolitan Statistical Area of which 37.0% or 22,532 were minority persons. Of the 24,052 Blacks employed by New York State, 76.3% or 18,359 were employed in this Standard Metropolitan Statistical Area. Of the 3,349 Puerto Ricans employed by New York State, 92.1% or 3,084 were employed in this Standard Metropolitan Statistical Area.

WOMEN IN NEW YORK STATE GOVERNMENT

APPENDIX A

WOMEN IN NEW YORK STATE GOVERNMENT

The sixty-seven (67) New York State agencies surveyed employed 73,629 women, representing 43.0% of the 171,171 employees reported in the 1972 Ethnic Survey.

Over the five-year period from 1967 to 1972, the number of women employed in New York State Government increased by 12,297. This increase represents 47.1% of the total increase in State employment. For the same period of time, the number of men employed in New York State Government increased by 13,792. This increase represents 52.9% of the total increase in State employment.

Distribution by Ethnic Group:

The chart below shows the increase in total State employment by sex and ethnic group during the period covered by the Surveys.

		<u>1967</u>	<u>1972</u>	<u>Numerical Increase</u>	<u>Increase as a % of 1967 Total</u>

	Puerto Rican	724	1,530	806	111.3%
	Other Minorities	509	808	299	58.7%

In 1968 and 1970, women made the largest numerical gains, increasing 7,179 between 1967 and 1968 and increasing 7,122 between 1969 and 1970. During the

period of budget cutbacks, between 1970 and 1971, the number of women employees decreased by 4,169. From 1971 to 1972, the number of women in State Government decreased by an additional 364.

Of all women employed in State Government, 55,853 or 75.8% were White; 15,438 or 21.0% were Black; 1,530 or 2.1% were Puerto Rican, and 808 or 1.1% were women categorized as Other Minorities. Of the four ethnic groups, Blacks were the only ethnic group to have a larger percentage of females than males employed in New York State Government.

Distribution by Agency:

The percentage of women within each agency ranged from a low of 1.9% in the New York State Bridge Authority to a high of 80.0% in the Council on Architecture.

Of agencies employing 1,000 or more persons, female employment ranged from a low of 8.3% in the Division of State Police to a high of 66.1% in the Department of Motor Vehicles.

The Department of Mental Hygiene employed 56,314 persons, of whom 32,911 or 58.4% were women. This constituted 44.7% of all women employed by New York State. Fifty-five and three-tenths percent (55.3%) are distributed in the remaining sixty-six (66) agencies. Without the Department of Mental Hygiene, these agencies employed 114,857 persons, of whom 40,718 or 35.5% were women and 74,139 or 64.5% were men.

Distribution by Occupational Group:

As in prior years, women were employed in all occupational categories surveyed by the Department of Civil Service. Women, who constituted 43.0% of the New York State work force, held the following percentages of each occupational category.

<u>Occupational Category</u>	<u>Percent</u>
Clerical	81.3%
Service Workers	60.2%
Technicians	31.5%
Administrative and Professional	29.6%
Operatives	16.3%

Three agencies employed 77.1% of all women in Administrative and Professional positions in New York State Government. The Department of Mental Hygiene employed the largest number of women in Administrative and Professional positions. In fact, fifty-six percent (56.0%) of all Administrative and Professional positions in the Department of Mental Hygiene were held by women. This agency employed 5,312 women in Administrative and Professional positions or 38.4% of all women employed in this occupational category.

The State University of New York employed the second largest number of women in Administrative and Professional positions. Females held 3,482 Administrative and Professional positions in this agency, representing 25.1% of the Administrative and Professional women employed by New York State and 27.4% of the Administrative and Professional positions in that agency.

The Department of Labor, which employed 1,880 women in Administrative and Professional positions, was the third largest employer of women in this occupational category. Women constituted 37.0% of the persons in Administrative and Professional positions within the Department of Labor and 13.6% of all women employed in the Administrative and Professional Occupational category in the State. This rank order of agencies employing women in Administrative and Professional positions remained the same as in the preceding five Ethnic Surveys conducted.

In 1972, nine (9) agencies reported no women employed in the Administrative and Professional category.

21-30	2,056	160	8	88
31-38	261	23	6	62

From 1967 to 1972, White females employed in New York State Government increased by 5,651. For this same period, Black females employed in New York State Government increased by 5,541; Puerto Rican females employed in New York State Government increased by 806, and females categorized as Other Minorities increased by 299.

The following chart shows the increase or decrease in each Salary Grade group for each ethnic group from 1967 to 1972.

<u>Salary Grade Group</u>	<u>Salary Grades 1-6</u>	<u>Salary Grades 7-13</u>	<u>Salary Grades 14-20</u>	<u>Salary Grades 21-30</u>	<u>Salary Grades 31-38</u>

Puerto Rican Female	- 130	+ 595	+ 83	- 8	+ 6
Other Minorities Female	- 60	+ 171	+ 103	+ 25	+ 60

The chart below shows the percentage distribution of State employees by sex and Salary Grade groups for the 1972 Survey period.

<u>Salary Grades</u>	<u>Male</u>	<u>Female</u>
1- 6	37.9%	62.1%
7-13	52.0%	48.0%
14-20	74.0%	26.0%
21-30	84.8%	15.2%
31-38	91.2%	8.8%

In Salary Grade groups 14 and above, the disparity is more pronounced as female representation decreases in inverse proportion to male representation.

Seventy-nine and six-tenths percent (79.6%) of all White females were employed in Salary Grades 1-13. Eighty-nine and six-tenths percent (89.6%) of all Black females were employed in these Salary Grades. Ninety-one and six-tenths percent (91.6%) of all Puerto Rican females and 60.0% of all females categorized as Other Minorities were employed in Salary Grades 1-13.

Twenty-seven (27) agencies employed a total of 352 women in positions earning over \$25,000. Three (3) agencies employed 84.9% of all females earning over \$25,000. Sixty-seven and six-tenths percent (67.6%) or 238 of these females were employed by the Department of Mental Hygiene. Ten and five-tenths percent (10.5%) or 37 were employed by the State University of New York. Six and eight-tenths percent (6.8%) or 24 were employed by the Department of Health.

Distribution by Jurisdictional Classification:

Seventy-five and five-tenths percent (75.5%) of the State work force (excluding State University of New York) or 108,570 persons were employed in the Competitive Class: 49.2% were females (53,463); 50.8% were males (55,107).

Fourteen and eight-tenths percent (14.8%) of the State work force (excluding State University of New York) were employed in the Non-competitive Class: 32.1% were females (6,830); 67.9% were males (14,479).

Of the 62,683 or total number of females employed (excluding State University of New York), 85.3% or 53,463 were in the Competitive Class and 10.9% or 6,830 were in the Non-competitive Class. Of the 81,424 or total number of males employed (excluding State University of New York), 67.7% or 55,107 were in the Competitive Class and 17.8% or 14,479 were in the Non-competitive Class.

The chart below shows the distribution of females by Jurisdictional Classification, their percentage of the total female work force (62,683), and their percentage of the total State work force (144,107).

INTRODUCTION - APPENDICES B AND C

Since New York State's first Annual Ethnic Survey was conducted in 1967, we have continued the practice of highlighting one or more State Agencies in each succeeding year. In view of the widespread public interest resulting from the incidents at Attica in September 1971, and with a concern toward detecting changes in State employment which may be attributed to those incidents, we have included in the 1972 Survey an analysis of the work forces of the two State Agencies which employ the largest number of Protective Service Workers in New York State--the Department of Correctional Services and the Division of State Police.

DEPARTMENT OF CORRECTIONAL SERVICES

APPENDIX B

DEPARTMENT OF CORRECTIONAL SERVICES

The Department of Correctional Services is responsible for the care, treatment, and rehabilitation of all offenders sentenced to its Institutions.

The Department, therefore, seeks to:

1. Maintain secure custodial care of committed offenders.
2. Rehabilitate committed offenders by providing meaningful educational and vocational opportunities and counseling, so that they may be prepared for their role in society upon release.
3. Assist committed offenders in adjusting to community life upon release by establishing acceptable patterns of behavior to reduce recidivism.

To meet these objectives, the Department performs the following functions:

1. Confining, disciplining, assigning, treating, and rehabilitating all offenders sentenced to its Institutions.
2. Assisting inmates and parolees to find employment.
3. Supervising and counseling inmates upon their release from Correctional Institutions.
4. Collecting and reporting of statewide inmate and criminal statistics.
5. Inspecting and regulating all State and local Correctional Institutions.
6. Establishing, maintaining, and operating basic Correctional training programs for local Correctional personnel.

Within the Department there are four major program areas:

1. Administration
2. Rehabilitation and Supervision of Offenders
3. Correctional Industry
4. Inspection of Penal Institutions

The Administrative Program provides the leadership, direction, and services necessary to carry out the Department's operating programs, including constant liaison with the Institutions and area offices to make certain that they fulfill the directives of the Department.

The primary objectives of the Rehabilitation and Supervision of Offenders Program are: (1) to maintain secure custodial care of committed offenders; (2) to rehabilitate committed offenders by providing them with meaningful educational and vocational training; (3) to assist committed offenders in adjusting to community life upon release by establishing acceptable patterns of behavior and to protect the community from parolees.

The Bureau of Prison Industries is financed by the Correction Fund which receives all receipts from the sale of goods produced by the industries. The fund is the source of all expenditures made for personal service, payment of inmates' wages, purchase of raw materials, supplies, equipment, and the construction of industrial buildings.

The general powers and duties of the Commission's Inspection of Penal Institutions includes the inspection of all Institutions used for the detention of sane adults charged with or convicted of a crime, securing humane and economic administration of such Institutions, and investigating the conduct and management of Institution officials.

The Department of Correctional Services is the fifth largest State agency. In 1972, the Department employed 7,935 persons or 4.6% of all State employees. This Department also employed 2.7% of all minority persons in New York State Government.

In 1967, the Department of Correctional Services employed 6,574 persons or 4.5% of all State employees, and 1.5% of all minority persons employed in New York State Government that year.

Distribution by Ethnic Group and Sex:

In 1967, there were 294 minority employees in the Department of Correctional Services, representing 4.5% of the Department's total work force. In 1971, there were 457 minority employees in the Department of Correctional Services, representing 6.2% of the Department's total work force. In 1972, there were 801 minority employees in the Department of Correctional Services, representing 10.1% of the Department's total work force.

From 1967 to 1972 the Department increased by 1,361 persons. Sixty-two and seven-tenths (62.7%) or 854 positions were gained by Whites; 27.7% or 377 positions were gained by Blacks; 7.8% or 106 positions were gained by Puerto Ricans, and 1.8% or 24 positions were gained by persons categorized as Other Minorities.

*The primary reasons for the numerical fluctuations between Salary Grade groups 7-13 and 14-20 within the Protective Service Worker category from 1971 to 1972 were: the reallocation in April 1972 of all Correction Officer and Correction Officer (Spanish Speaking) positions from Salary Grade 13 to Salary Grade 14; and, the addition of 239 minority employees in the Protective Service Worker category during this period.

Distribution by Salary Grade:

From 1971 to 1972, there was a net decrease of 3,715 persons in the Salary Grade group 7-13 and a net increase of 4,014 in the Salary Grade group 14-20. As previously indicated, the primary reasons for these numerical fluctuations were: the reallocation of all Correction Officer and Correction Officer (Spanish Speaking) positions from Salary Grade 13 to Salary Grade 14; and, the addition of 301 minority employees (of which 239 were in the Protective Service Worker category) during this period.

The following chart shows the distribution of each ethnic group by Salary de groups 7-13 and 14-20 in 1971 and 1972.

In 1971, employees in Salary Grades 7-13 represented 63.2% of the Department's work force and employees in Salary Grades 14-20 represented 23.2%. In 1972, employees in Salary Grades 7-13 represented 12.4% of the Department's work force and employees in Salary Grades 14-20 represented 72.3%.

From 1971 to 1972, the number of Whites in Salary Grades 31-38 increased from 54 to 55; Blacks increased from 1 to 3; Puerto Ricans remained the same with one person in this salary range, and persons categorized as Other Minorities increased from 2 to 8. The number of males in Salary Grades 31-38 increased by 6 and females by 3. In 1967 there were 38 employees reported in this salary range: 82.1% were White; 4.5% were Black; 1.5% were Puerto Rican, and 11.9% were persons categorized as Other Minorities.

Of all Whites employed by this Department, 0.8% were in Salary Grades 31-38; of all Blacks employed by this Department, 0.4% were in Salary Grades 31-38; of all Puerto Ricans employed by this Department, 0.9% were in Salary Grades 31-38. Although those persons categorized as Other Minorities held fewer positions numerically (25) and percentagewise (0.3%) in the Department's work force, 8 or 32.0% were in Salary Grades 31-38.

In all Salary Grades, males held a larger percentage of positions than females with the exception of Salary Grades 1-6. Of all males employed, 2.6% were in Salary Grades 1-6; whereas, 52.2% of all females were employed in this same group. Males held 172 or 21.0% of the positions in Salary Grades 1-6, and females held 549 or 79.0% of the positions in Salary Grades 1-6.

Of the 7,114 positions in Salary Grades 7-38, males held 6,525 or 91.7%, and females held 589 or 8.3%.

Distribution by Jurisdictional Classification:

Ninety-one and eight-tenths percent (91.8%) or 7,287 of the Department's work force were in Competitive Class positions (6,623 or 83.5% of the Department's work force were permanent Competitive, and 664 or 8.3% of the work force were temporary or provisional Competitive).

Seven and two-tenths percent (7.2%) or 570 of the Department's work force were in the Non-competitive Class.

One percent (1.0%) of the Department's work force were in the remaining Jurisdictional Classifications.

Of all Whites employed, 83.1% had permanent status in the Competitive Class, and 8.3% had either temporary or provisional status.

Of all Blacks employed, 88.6% had permanent status in the Competitive Class, and 7.5% had either temporary or provisional status.

Of all Puerto Ricans employed, 85.3% had permanent status in the Competitive Class, and 11.0% had either temporary or provisional status.

Of all persons categorized as Other Minorities, 36.0% had permanent status in the Competitive Class, and 48.0% had either temporary or provisional status. These temporary and provisional employees were Clinical Physicians, a Principal Psychologist, Teachers, etc.

DIVISION OF STATE POLICE

APPENDIX C

DIVISION OF STATE POLICE

The Division of State Police is responsible for:

1. The prevention and detection of crime, the apprehension of criminals, and safeguarding and protecting the lives and property of people within New York State.
2. Enforcement of the Vehicle and Traffic Law and promotion of highway safety.
3. Assisting municipal and county authorities in criminal investigations through the State Police Bureau of Criminal Investigation and the State Police Scientific Laboratory.
4. Enforcement of regulations governing inspection of motor vehicles and motorcycles and the load weights of trucks.

The New York State Police's primary jurisdictional territory is divided into eight troop areas, headquartered respectively at Batavia, Malone, Sidney, Oneida, Canandaigua, Middletown, Loudonville, and Poughkeepsie.

In December 1971, the Division relocated the Troop "K" headquarters from Hawthorne in Westchester County to a more central location near Poughkeepsie.

In addition, the Division maintains Troop "T" to patrol the Governor Thomas E. Dewey Thruway.

The Division's functions are carried out through the following programs:

- (1) Administration
- (2) Patrol Activities
 - a. Highway Safety
 - b. Preservation of Law and Order
- (3) Criminal Investigation
- (4) Support Activities

Administration:

The goal of the administration of the Division is the formulation and establishment of policy and provision of executive oversight to ensure that such policy is carried out. Other administrative units provide staff work to enable uniformed field forces and criminal investigators to operate effectively.

Also in this program are such related executive staff functions as finance, personnel, training, office services, inspection, and planning.

New York State Police Academy:

The Division of State Police operates a State Police Academy located adjacent to Division Headquarters in Albany. This facility provides a central location where Division members and selected local police can acquire the professional skills required of today's policemen, and allows the Division to establish its in-service training on a biennial basis. Uniformed members receive instructions on new laws, trends in crime and innovations in police techniques.

Patrol Activities:

This program includes the Uniform Force, which operates a readily identifiable police service in rural and suburban areas throughout the State. This program is subdivided into two program subcategories:

- a) Highway Safety
- b) Preservation of Law and Order

Highway Safety

The objective of this subcategory is to reduce the loss of life and to decrease personal injury and property damage caused by traffic accidents.

To attain its objectives, the Division utilizes around-the-clock patrols on State and secondary roads. It uses a variety of modern equipment including aircraft, radar, speed computers, and loadometers to increase effectiveness.

Patrols conduct periodic road checks on vehicles, including the use of various tests for alcoholic content in the blood of suspected violators.

Preservation of Law and Order

Division objectives in this subcategory are to apprehend and deter criminal offenders, preserve the peace, and protect life and property in those areas where the New York State Police is the primary police agency.

To achieve its objectives the Division deters criminal offenders through on-site patrolling in readily recognizable vehicles and aircraft. Uniformed Troopers respond to calls for police service, investigate crimes, secure and present evidence toward conviction of offenders and provide security for the Governor.

Criminal Investigation:

The Bureau of Criminal Investigation (BCI) has responsibility for the investigation of serious crimes in those geographical areas where the New York State Police is the primary police agency. It conducts special investigations of criminal activities and cooperates with other law enforcement agencies in the development of evidence and information for court presentations.

Three interrelated areas encompass the overall responsibilities of this Bureau:

1) General investigative activities. Members of the BCI are located in each Troop throughout the State. During 1970 these members investigated 46,156 criminal and non-criminal matters. In addition, the Bureau was directly responsible for the recovery of 713 stolen motor vehicles plus locating and identifying 2,269 motor vehicle applications supported by fraudulent proof of ownership.

2) Narcotics Unit. This Unit is primarily concerned with the uncovering and removing from society, through legal means, the sources, suppliers, transporters, and distributors of illegal and dangerous drugs. The Division cooperates with city and Federal authorities by participating in both the New York Joint Strike Force and the Federal Task Force for New York City.

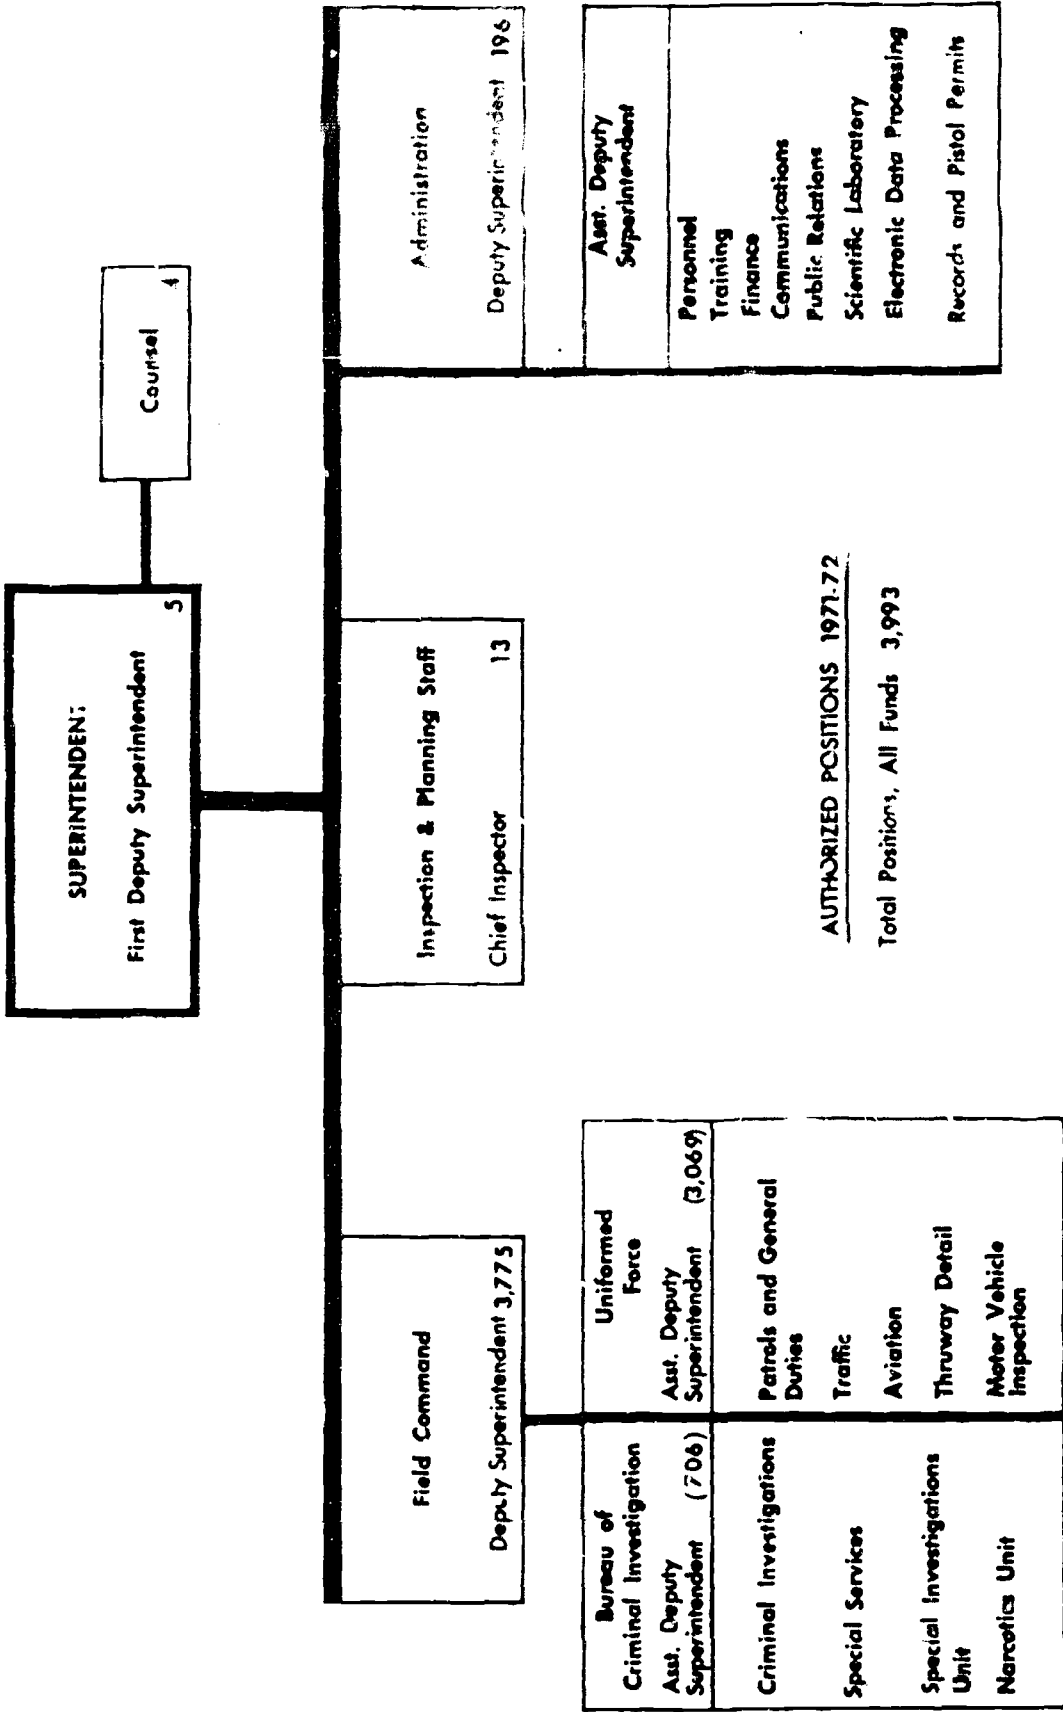

3) Special Investigative Unit. This Unit is primarily concerned with the investigation and deterrence of organized crime activities and has been assigned to act as the principal investigative arm of the Statewide Organized Crime Task Force headed by the Deputy Attorney General.

Support Activities:

The objective of this program is to assist the Division by providing technological, scientific, maintenance, and record-keeping facilities and services. Included in this subcategory are the scientific laboratory, electronic data processing, communications, aviation, record services, fleet management, and building maintenance.

Executive Department Division of STATE POLICE

SEPTEMBER 1, 1971

The Division of State Police is the ninth largest State agency. In 1972, the Division employed 3,670 persons in nine troop headquarters and in the Main Office in Albany, representing 2.1% of the total State work force and 0.1% of the total State minority work force. In 1967, the Division of State Police employed 3,345 persons representing 2.3% of the State work force and 0.1% of the total State minority work force.

The Division in 1973 undertook a recruitment campaign to bring minority group members as well as women into its staff. This report, based on 1972 data, does not reflect the results of these efforts.

Distribution by Ethnic Group and by Sex:

The number of minority employees in the Division of State Police increased from 20 or 0.4% of the Division's total work force in 1967, to 32 or 0.9% of the Division's total work force in 1972. The chart below shows the distribution by ethnic group for these two Survey years, and the percentage change over 1967.

	<u>1967</u>	<u>1972</u>	<u>Change</u>	<u>% Increase Over 1967</u>
<u>Total</u>	3,345	3,670	325	9.7%
White	3,325	3,638	313	9.4%
Black	13	18	5	38.5%
Puerto Rican	2	3	1	50.0%
Other Minorities	5	11	6	120.0%

In 1972, the Division of State Police employed 3,366 males comprising 91.7% of its work force, and 304 females comprising 8.3% of its work force. In 1967, the Division employed 3,095 males comprising 92.5% of its work force, and 250 females comprising 7.5% of its total work force. Although the number of female employees increased by 54 from 1967 to 1972, as a percentage of total Division employment the percentage of female employees decreased by 0.8%.

The following chart shows the ethnic group and sex of the Division's work force for 1972.

	<u>Male</u>	<u>%</u>	<u>Female</u>	<u>%</u>
White	3,340	99.2	298	98.0
Black	14	0.4	4	1.3
Puerto Rican	2	0.1	1	0.3
Other Minorities	10	0.3	1	0.3

Distribution by Occupational Category:

In 1972, ninety-six and two-tenths percent (96.2%) or 3,528 of the Division's employees were found in three occupational categories: seventy-one and nine-tenths percent (71.9%) were employed in the Protective Service Worker category; fourteen and seven-tenths percent (14.7%) were employed in the Investigator and Inspector category; nine and six-tenths percent (9.6%) were employed in the Clerical category.

The Division of State Police was the second largest employer of persons in the Protective Service Worker category, employing 2,637 persons or 24.2% of all State employees in this occupational category.

The Division of State Police reported no females employed in the Protective Service Worker category.

The Division of State Police employed 17 minority persons in the Protective Service Worker category, in 1972. That number represented 0.6% of all persons employed in that occupational category by the Division. In 1967, 0.4% or 11 of all the persons employed by the Division in this category were minority persons. The chart below shows the distribution of the Division's employees in the Protective Service Worker category for 1972 by Salary Grade and ethnic group.

<u>Ethnic Groups</u>	<u>Salary Grades 1-6</u>	<u>Salary Grades 7-13</u>	<u>Salary Grades 14-20</u>	<u>Salary Grades 21-30</u>	<u>Salary Grades 31-38</u>
White	0	3	2,506	111	0
Black	0	0	6	0	0
Puerto Rican	0	0	2	0	0
Other Minorities	0	0	9	0	0

The 17 minority persons employed by the Division of State Police in the Protective Service Worker occupational category represented 53.1% of the Division's total minority work force of 32.

The Division employed 539 persons in the Investigator and Inspector category or 17.3% of the total State's work force employed in this category. There were no women employed in the Investigator and Inspector category by the Division of State Police. In 1972, 534 White employees represented 99.1% and the 5 minority employees represented 0.9% of the Division's employees in the Investigator and Inspector category. In 1967, Whites represented 100.0% of the Division's employees in this category.

The Division of State Police employed 352 persons in the Clerical category of which 8 or 2.3% were minority persons. In 1967, the Division employed 255 persons in this category of which 6 or 2.4% were minority persons. Although an increase of 2 minority persons was realized from 1967 to 1972, there was an overall decrease of 0.1% in the percentage of minority persons employed in the Clerical category. The chart below shows the distribution of all employees in the Division of State Police by Occupational Category and ethnic group.

Distribution by Salary Grade:

Eighty-one and two-tenths percent (81.2%) or 2,981 persons employed by the Division of State Police were in Salary Grades 14-20 (2,523 of these persons were in the Protective Service Worker occupational category).

Of all Whites employed, 8.4% or 287 were in Salary Grades 1-6; 4.5% or 155 were in Salary Grades 7-13; 80.1% or 2,959 were in Salary Grades 14-20; 6.8% or 233 were in Salary Grades 21-30, and 0.1% or 4 were in Salary Grade 31-38.

Of all Blacks employed, 27.8% or 5 were in Salary Grades 1-6; 11.1% or 2 were in Salary Grades 7-13; 55.6% or 10 were in Salary Grades 14-20, and 5.6% or 1 was in Salary Grades 21-30. There were no Blacks employed in Salary Grades 31-38.

Of all Puerto Ricans employed, 33.3% or 1 was in Salary Grades 1-6, and 66.7% or 2 were in Salary Grades 14-20. There were no Puerto Ricans employed in Salary Grades 21-30 or in Salary Grades 31-38.

Of all persons categorized as Other Minorities, 9.9% or 1 was in Salary Grades 1-6, and 90.1% or 10 were in Salary Grades 14-20. There were no persons categorized as Other Minorities employed in Salary Grades 21-30 or in Salary Grades 31-38.

In all Salary Grades, males held a larger percentage of positions than females with the exception of Salary Grades 1-6. Of all males employed, 1.7% were in Salary Grades 1-6, whereas 77.9% of all females were employed in this same group. Males held 57 or 19.4% of the positions in Salary Grades 1-6 and females held 237 or 80.6% of the positions in Salary Grades 1-6.

Of the 157 positions in Salary Grades 7-13, males held 94 or 59.9% and females held 63 or 40.1%.

Of the 2,981 positions in Salary Grades 14-20, males held 2,977 or 99.9% and females held 4 or 0.1%.

There were no females employed in Salary Grades 21-30 or in Salary Grades 31-38.

The chart below shows the percentage distribution of each ethnic group in the Division of State Police, within Salary Grades for 1967 and 1972.

GUIDELINES TO THE COLLECTION OF DATA BY RACE, CREED, COLOR AND/OR NATIONAL ORIGIN

To implement Article VII of Governor Rockefeller's *New Code of Fair Practices*, the Division of Human Rights has formulated a set of criteria or guiding principles to assist agencies of the State of New York in developing research procedures bearing on the collection of data by race, creed, or color and/or national origin. The intent of these guidelines is to provide safeguards that will reflect the spirit of the *Code of Fair Practices*, and to insure that all citizens of the State shall in no way be disadvantaged by the collection of research data and the temporary existence of research records pertaining to the race, creed, color or national origin of individuals.

First: The Commission recognizes that there are legitimate circumstances under which it is necessary and desirable for an agency of the State to conduct research which involves the collection of data on race, creed, color and/or national origin.

Second: Information relating to race, creed, color and/or national origin shall be obtained in a manner which is not offensive to the individual concerned.

Third: Information on race, creed, color and national origin shall not be entered on research records in conjunction with the names of specific individuals.

Fourth: Identifying characteristics other than specific names (e.g., code numbers) shall be allowed for research purposes with the understanding that data sheets, questionnaires, punched cards, and all other research records pertaining to specific individuals will be destroyed when they have served the purposes of research and that, in no event, shall these records become permanent.

Fifth: Records containing data on race, creed, color or national origin which pertain to specific individuals shall (1) be collected for research purposes only, (2) be physically located in the research or statistical unit responsible for the conduct of the research activity, and (3) not be made available to operating personnel within State agencies but shall serve only the research purposes for which originally intended.

Sixth: The agency undertaking the collection of data by race, creed, color or national origin shall bear the responsibility for conducting such research activity in accordance with the principles set forth above. The procedures adopted for purposes of collecting and maintaining temporary data on race, creed, color and national origin shall be subject to review by the Division of Human Rights.

These guidelines for the collection of ethnic data were discussed and approved by the Division of Human Rights and the Department of Civil Service.
