## ABSTRACT

The supplemental career education activities are designed for career education concept teaching at the kindergarten level. Concepts are coordinated with units on people, helping, needs, places, learning, rules, and growing. Specific activities involve art, poetry, song, cooking, finger plays, resource people, parental interviews, games, discussion, role playing, stories, and learning center use (related activity pictures, songs, poems, and story scripts are included). Suggested activities are listed in one column with an adjoining column provided for teachers to record evaluation and changes for future reference. (EA)

BEST COPY AVAILABLE

DRAFT COPY

These supplemental Career Education activities were developed by a Task Force of thirteen creative and dedicated elementary teachers under the direction and leadership of the Elementary Career Education Coordinator, Mr. Kenneth L. Tyson. The work was done within the guidelines established for the Model Career Education Project located in Washington County, Maryland.

The total project is a joint effort of the U. S. Office of Education, the Maryland State Department of Education Division of Vocational-Technical Education, and the Washington County Board of Education. Major funding sources include U. S. Office of Education, Part D Research and Development Funds and Part C Exemplary Funds.

The Elementary Component of this project presently involves four elementary schools K-5 in Washington County. As these activities are implemented during the 1972-73 school year, we realize that this is only a beginning. The activities will be evaluated, altered and in many cases new activities will be generated.

Looking toward the future we see the final compilation of these career education activities being implemented in all elementary schools in Washington County and similar activities being developed involving other subject areas.

This work is just a part of our plan for Career Education K-adult, however, the elementary program plays a most important role in a systematic meaningful approach to the Career Education Concept.

## RATIONALE FOR ELEMENTARY CAREER EDUCATION

The following statements provide some of the justifications for inclusion of career education in elementary programs.

1. Every experience from early childhood to maturity contributes to career choice.
2. Children can see a positive relationship between school and the world of work through career awareness education.
3. Today, elementary children learn more and learn faster than any comparable group in history and are, therefore, ready for learning the foundations of career decision making.
4. Occupational choice results from acquired behaviors and experiences during the formative years of childhood and adolescence.
5. Children are capable of learning about what work is and how the world of work might shape their thoughts, abilities, attitudes, and interests through career education.

ELEMENTARY CAREER EDUCATION TASK FORCE  
WASHINGTON COUNTY

Career Education Concepts

1. People need to work to preserve and advance society.
2. People work for rewards and satisfaction.
3. There are rules for all kinds of work.
4. All kinds of work are interdependent and should benefit society.
5. Attitudes and personality factors have an effect on work, performance and success.
6. All work has dignity and is worthwhile.
7. All work involves the production of either goods or services.
8. Most kinds of work need some skill or training.
9. All people can and should contribute their particular talents and capabilities to the world of work.
10. People should adapt to technological and sociological changes which create or eliminate work.
11. Environmental and cultural factors determine the kinds of work available.
12. Man's work affects his way of life.

DRAFT COPY

Dear Kindergarten teachers:

As you go through this manual, several things may catch your attention - several things which we would like to explain. We feel that the Concepts 40 social studies program has a lot of good material and a lot of good concepts to offer. However, we have changed the order of the units and the pictures within the units because we felt that in the teacher's manual there wasn't enough continuity between lessons. This does not mean that you have to follow the order we have chosen. Please feel free to "do your own thing", using the activities we have suggested in which ever order suits you.

You may also notice that some lessons are heavily loaded with art activities and poems. We do not intend for you to use all the activities suggested, but we offer a variety so that you can pick and choose those that you like or those that best fit into your curriculum.

In each lesson we have listed the activities alphabetically rather than in the order of their importance. As you come to each lesson, skim down the page to decide which activities you like and which you think should be first or last.

Throughout the manual we have mentioned activities that should be on-going projects during the year. Here, we would like to offer some suggestions for carrying them out.

ALL ABOUT ME BOOK

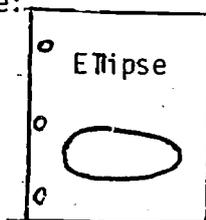

Compile a folder for each child to be kept in a central place and as he does a page for the book, slip it into the folder. If you punch the holes in the pages as they are each done, it will save you a lot of work at the end of the year when the books are ready to go home. By the way, these books

DRAFT COPY

would make a marvelous Mother's Day gift if the books are ready by then! There are a lot of ideas for pages to go in the book which really don't pertain to career education, but which should be included in the books. We have listed them at the end of the manual.

### DICTIONARY

Every time a new word, unfamiliar to the majority of your class, is introduced, make a page for a class dictionary. A loose-leaf notebook would be more durable than one with a construction paper cover. In addition, pages can be added more easily to a loose-leaf notebook. The dictionary should be for all new words learned, not just those concerned with career education. For example, when you teach the AAAS lesson shapes, you may need a page like:

You may want to keep your dictionary right on your book shelf or library shelf where it is always handy and available for the children to look at.

### POEM BASKET

We have included so many poems that the children could not possibly memorize them all. You might want to have a poem basket or box containing all the poems listed. On one side of a piece of cardboard put a picture that pertains to the words of the poem and on the other, print the words. When you have a few minutes free get the poem basket off the shelf and let the children choose a card for you to read. Another suggestion we ran across concerned combining prop boxes with songs and poems about the helper whose

things the prop box contains. When you construct a prop box (on the policeman, for example) put a manilla envelope on the side of the box, containing all the cards with the poems about the policeman.

### MODEL COMMUNITY

This project will require a lot of work on your part, but we feel that it can be an exciting project for both you and your class. To begin with, you will need a large piece of plywood or heavy cardboard on which to build your community. As this project is continuous throughout the year, the plywood would be better suited for the wear and tear the community will have to take. Consider the size of your classes (number of children in each) and the number of buildings and such to go in the community when purchasing the plywood. Most building supply companies sell plywood in 4' x 8' sheets. Now, you are wondering where you would store such a large piece of wood when the children are not playing with it; we really can't solve that problem for you, as each school is different. However, we suggest that the community could probably be hung on a wall in a hall, or suspended somehow from the ceiling. So that you have some idea how to arrange your community we have included one plan you might like to try.

### LETTER TO PARENTS

The parents of your children can be invaluable resources in your study of careers IF you are well aware of what they do. We are including a letter for you to send home with your students at the beginning of the year to help you find out what types of jobs their parents have.

We are counting on your evaluations and suggestions to help us make career education an integral, exciting part of the kindergarten curriculum

in Washington County. Please feel free to contact us about any questions you have, any new ideas you would like to share, or even to complain if something in our manual bothers you.

Sincerely,

Margie Crites - kindergarten teacher  
Potomac Heights School

And

Janice Floyd - Kindergarten teacher  
Pangborn School

## Suggested Letter to Parents

Dear \_\_\_\_\_

We, the kindergarten class, are going to study the importance of all types of work. We want to learn more about the work of each of the parents of all the boys and girls in our class.

Would you please answer our questions and send them back to school?

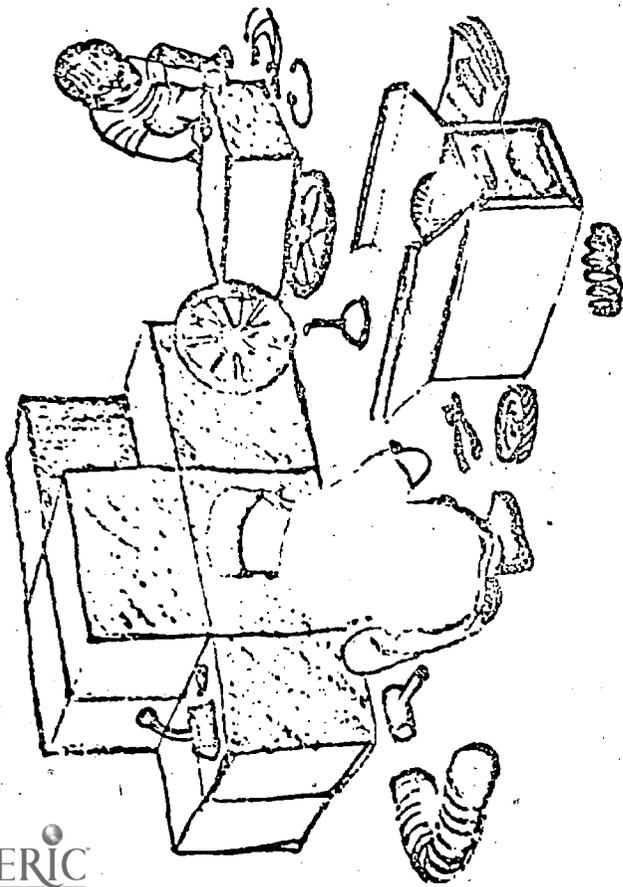

1. What is your job?
2. What are some of your duties?
3. Is there anything about your work that we would enjoy seeing ( uniform, materials, tools, etc.)?
4. Would a field trip to your place of employment be helpful to our kindergarten class?

Thank you for your help.

Sincerely,

Kindergarten Class

and slots for handgrips. They are lightweight for carrying and may be collected at very minimal cost from local distributors. They are quite tough, water repellent, and may be painted bright colors.

There are many sources for props:

- Once you are aware of their potential for use, you will discover community sources for these real things at little, often no expense (hardware and surplus stores, repair services, dumps). I have found that if you have a vivid imagination, one of the best sources is a state surplus property facility. Find out how your state implements its Federal Surplus Property Program and if

your school is eligible for its use. Depending on the day of your visit, you may find anything from long underwear and boot liners (great for space suits), to broken computers (great for space panels), to tools and electrical parts, typewriters, fancy papers, nails and things which you won't know what they are, but children will love them for something. This challenging situation also exists in many junk yards, behind car repair shops—and in our own attics, basements and garages.

- Children and parents will contribute odds and ends and add them

children need materials to extend their play (electrical switches, wire and pliers for the electrician; plastic flowers and vases for the florist). The props are real and that is their appeal. Or they are made to order by the players over at the art center or the carpentry table. And so they are meaningful because they are made the way a child thinks they should be made.

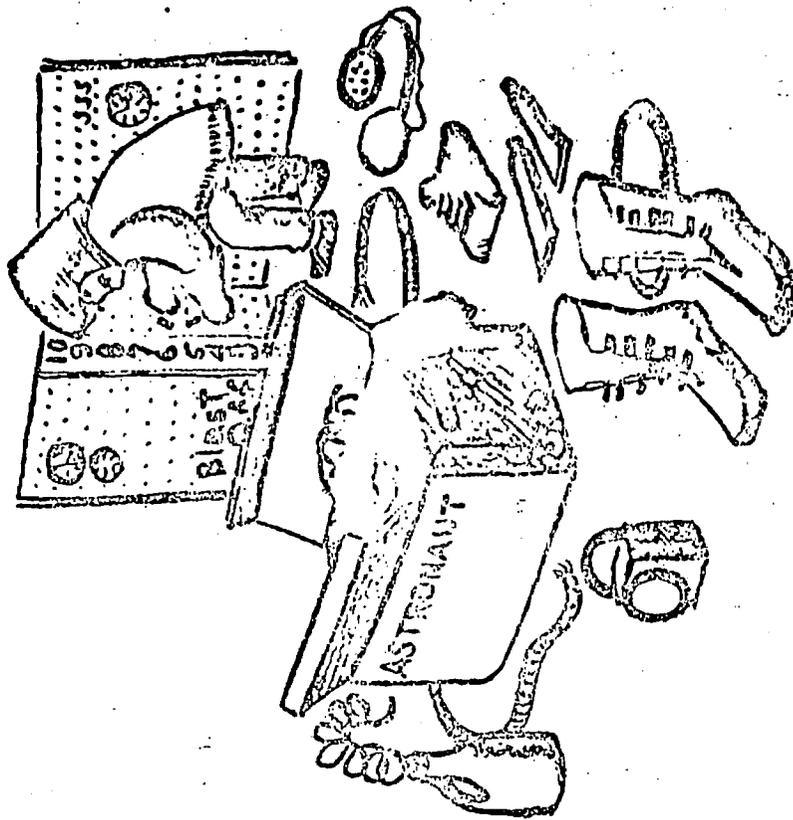

I watch children use the props. They use them in many ways; in conjunction with dramatic play, with large and unit-building blocks, in relation to wheel toys, in relation to large cardboard construction projects. Often they stand alone

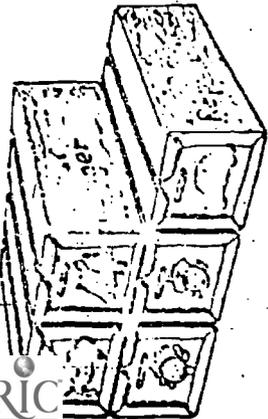

Judith Bender, B.A., is currently a child day care center coordinator with the Maryland State Dept. of Health and Mental Hygiene. Previously, she was on the staff of the University of Chicago Laboratory School, the Michael Reese Hospital Therapeutic Nursery and the Baltimore City Public Schools.

as an exploratory, experimental material unrelated to any other activity. They are very versatile and very absorbing.

As an open-ended material, prop boxes can be developed for children to use at home or at school. At home they may be joint creations of parent and child, or created as a gift for a young child. At school they are developed by children and staff together. They constantly grow. They fill up and probably start to spill over as everyone finds things or makes things to add.

Since these are really separate boxes for various kinds of role-playing, they can be made easily identifiable to children by appropriate pictures cut from magazines or drawn by children and/or adults. Clear manuscript labels might also be used. The boxes which are pictured here are heavy cardboard returned here are beer cartons with fold-in lids

to increasing collections (a timer, an old mirror, a license plate, a tape measure).

• Children may make props as

#### For the Automobile Repairman

Used (and washed) motor parts: spark plugs, filters, carburetors, cable-sets, gears, etc.

Tools: hammers, pliers, screw driver

• Oil funnel

Empty oil cans

Flashlight

Wiring

Air pump

Windshield wipers

Key carrier and keys

Rags, old shirts, gloves

Automobile supply catalogues

Etc.

#### For the Forest Ranger (or Camper)

Canteen

Flashlight

Rope

Mosquito netting

Canvas for tent

Knapsack

Food supplies

Nature books

Small logs

Grill

Binoculars

Etc.

#### For the Beautician

Mirror

Curlers

Hairpins

Hairnets

Dryer

Aprons or large bibs

Combs

Towels

Magazines

Empty shampoo bottles (plastic)

Plastic basin

Emergency boards

Pencil, paper

Money

Etc.

#### For the Plumber

Piping: all lengths, widths, and shapes for fitting together

Spigots

Plungers

Tools

Hose and nozzles

Spade

Old shirt, cap

Hardware supply catalogues

Measuring devices

Etc.

Again, watch the children. What props can you find for such plays as:

Doctor

Nurse

Petermanian

Seamstress

Post office worker

Scientist

Secretary

Ship captain

Bus driver

Electrician

Fireman

Office worker

Reporter

Teacher

Shoe salesperson

Policeman

Painter

Peace Corps worker

Grocer

Fireman

Spaceman

Maritan

Fisherman

Pilot

Telephone repairman

Magician

Railway engineer

Evaluation and Changes in Each Activity

Art: Each child draws a self-portrait for his All About Me book. You may want to give each child a piece of paper on which you have mimeographed:

I'm making a book.  
A book about me.  
So I'll start right out  
With a picture of me.

Poem: Fingers

I have ten little fingers and ten little toes,  
Two little ears and one little nose.  
I can wiggle my fingers, I can wiggle my toes.  
I can't wiggle my ears, but I can wiggle my nose!

Myself

My head nods,  
My elbows bend.  
My eyes move  
For hours on end.

My waist twists.  
My hands clap,  
Or just stay still  
Upon my lap.

Use appropriate actions.

My legs stretch.  
My arms do, too.  
I curl my toes  
Inside my shoe.

Evaluation and Changes in Each Activity

Enrichment: Peabody Language Development Kit

Art: To further show the differences and likenesses between the children have them compare handprints and footprints. For the All About Me book have each child dip his hand in tempera paint and then make his handprint on a page on which you have mimeographed:  
  
 Here is my handprint.

Have him put his foot in paint and then press it on a page on which you have mimeographed:  
  
 Here is my footprint.

Comparing-Investigating: Weigh and measure each child. Make a bar graph showing the heights. (see drawing that follows)

Discussion: Use pictures of children from other lands, Africa, China, etc. If you do not have such a set, pictures from National Geographic can be used. Direct questions such as:

I have here a picture of a boy from a country called Africa (Keep picture hidden). Will he have two eyes, two ears, one nose, etc? Show the picture and see if they were right. How does he look different from us?

Finger Plays: Fee, Fi, Fo, Fum  
 Fee, Fi, Fo, Fum, Measure myself,  
 Measure my arm, Way down to my toes,  
 Measure my nose

Please add your own activities for this lesson on the back

Note:    Bar Graph on Height Comparison

1. Use a large sheet of paper, lined off, for the graph.
2. Use different color for each child. With help he may color in his own section.

Finger Plays: This Is The Circle

This is the circle that is my head.  
This my mouth with which words are said.  
These are my eyes with which I see.  
This is my nose that's a part of me.

This is my hair that grows on my head.  
This is my hat all pretty and red.  
This is the feather so bright and gay.  
Now, I'm all ready for school today.

Poem: Everybody Says

Everybody says  
I look just like my mother.  
Everybody says  
I'm the image of Aunt Bee.  
Everybody says  
My nose is like my fathers'.  
But I want to look like ME!

Resource persons: Have mothers, fathers, or siblings of children in the class come to visit. Have a guessing game to see if the children can guess by looking at the similarities in facial features, who belongs to which parents or siblings. Discussion could follow about how certain characteristics are passed down from parent to child. If the parent has brown eyes, does the child?, etc.

The Three Eggs

Irving Wolfe

Fun to be a Helper

1. It's fun I can set a help-er,  
 2. Oh, I can set a ta-ble,

A help-er, a help-er,  
 The ta-ble, the ta-ble,

It's fun I can set a help-er  
 Oh, I can set the ta-ble

Just any-ner time  
 At din-ner time

3. Oh, I can dry the dishes,  
 The dishes, the dishes  
 Oh, I can dry the dishes,  
 And make them shine.

4. Oh, I can rake the dead leaves,  
 The dead leaves, the dead leaves,  
 Oh, I can rake the dead leaves,  
 In autumn time.

Don't Want to Go Home

Czech Children's Song

A musical staff with a treble clef, a key signature of two flats (Bb and Eb), and a 2/4 time signature. The melody consists of quarter and eighth notes. The lyrics 'Don't Want to Go Home' are written below the staff. A handwritten 'X' is at the end of the staff.

Don't want to go home, don't want to go home, Mother's cross with me.

A musical staff with a treble clef, a key signature of two flats (Bb and Eb), and a 2/4 time signature. The melody consists of quarter and eighth notes. The lyrics 'Don't want to go home, don't want to go home, Mother's cross with me.' are written below the staff. A handwritten 'X' is at the end of the staff.

Don't want to go home, don't want to go home, Mother's cross with me.

A musical staff with a treble clef, a key signature of two flats (Bb and Eb), and a 2/4 time signature. The melody consists of quarter and eighth notes. The lyrics 'Took her apple pie, you see, She'll put me a cross her knee.' are written below the staff.

Took her apple pie, you see, She'll put me a cross her knee.

Poems continued:

Marketing

Marketing, marketing, this is the day  
We go to the market to spend Daddy's pay...  
Carrots and cookies and pepper and peas;  
Spaghetti and lamb chops, and hard, yellow cheese;  
Three kinds of cereal high on the shelf,  
(I'm tall enough now to reach some by myself);  
Floorwax and flour and two loaves of bread;  
(I'd much rather buy jelly doughnuts instead!)

Marketing, Marketing, this was the day  
We WENT to the market and SPENT Daddy's pay!

Boots

Wee small boots  
Like to go  
Splashing through water  
Tracking through snow.

Middle-size boots  
Go through rain  
Shopping at markets  
And then back again.

Great big boots,  
Tall and strong,  
Work at machines  
All the day long.

Have three pairs of boots - a child's, a lady's and a man's.  
Have three children wear the boots and act out how the people would act who normally wear the boots..

Poem: Drinking Fountain  
When I climb up to get a drink,  
It doesn't work the way you'd think.  
I turn it up. The water goes  
And hits me right upon the nose.  
I turn it down to make it small  
And don't get any drink at all.

Sprinkling  
Sometimes in the summer  
When the day is hot  
Daddy takes the garden hose  
And finds a shady spot;  
Then he calls me over,  
Looks at my bare toes  
And says, "Why you need sprinkling,  
You thirsty rose!"

Evaluation and Changes in Each Activity

Enrichment: Peabody Language Development Kit Food Cards have some vegetables included and there are 3-D plastic vegetable in the large box.

Art: Ginn Kit A - Unit 10, Lesson A&B, and Unit 13  
Make a grocery store for Model Community.

Make a farm for growing vegetables on the Model Community.

Each child joins in a "Tasting Party" with various raw vegetables. Before the party each child can make a placemat to use. In order to make the placemat, the child is given a mimeographed page picturing the vegetables to be tasted. He colors the pictures, cuts them out and pastes them out and pastes them around the edges of his placemat. During the actual tasting the child can circle the pictures on his placemat of the things he likes and put an X on those he doesn't.

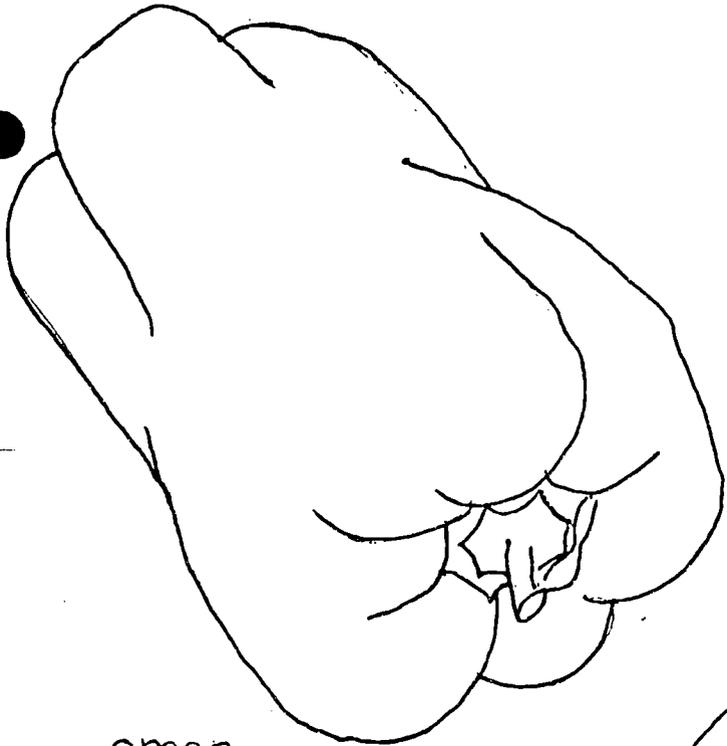

Each child can make a page for his All About Me book about foods he likes or doesn't like. The page might say:

Here are some things I like to taste,

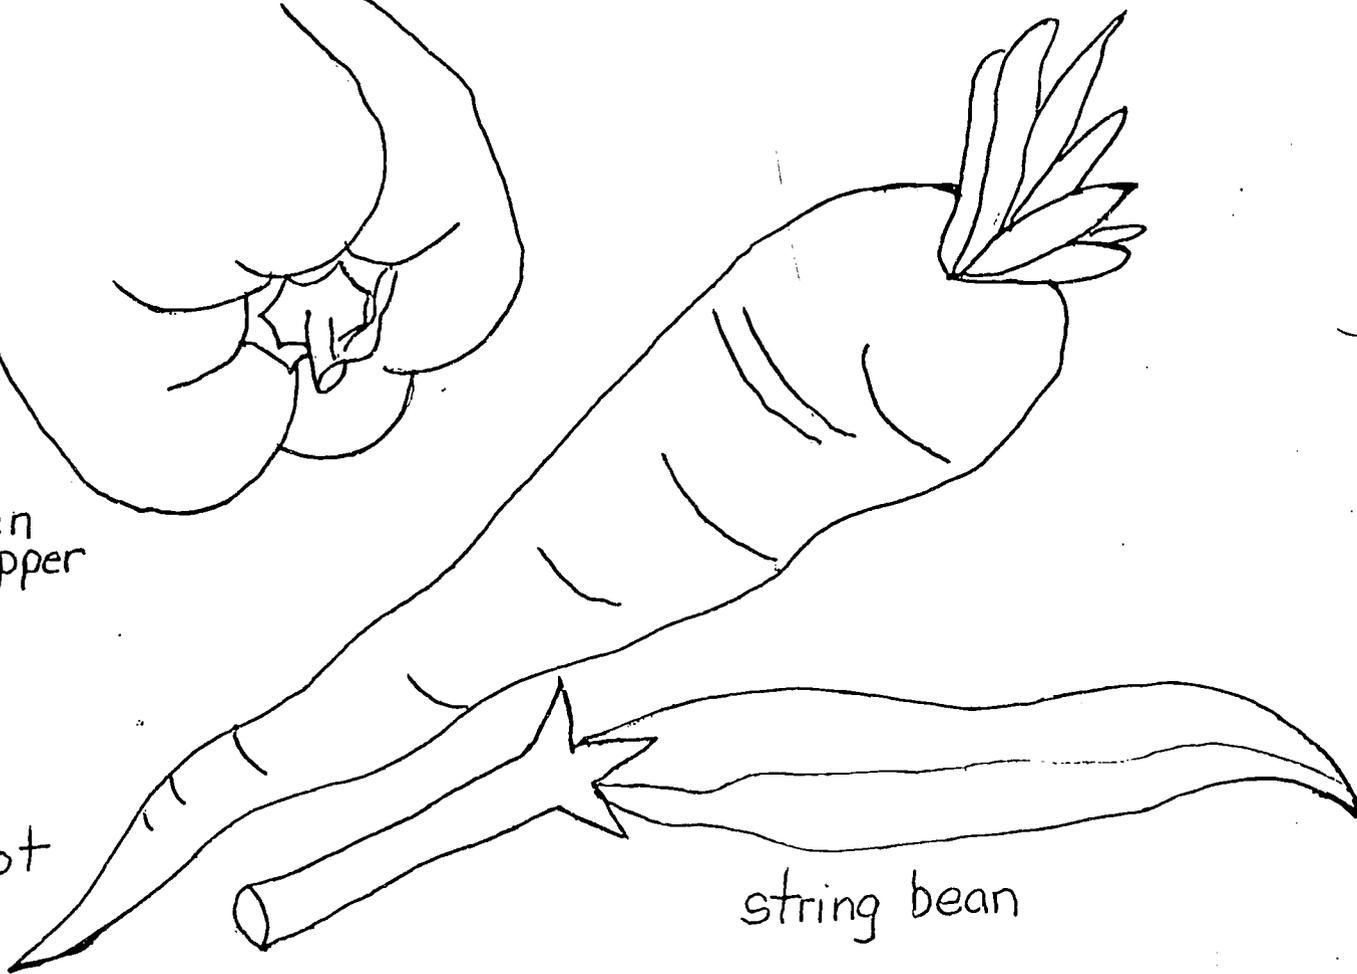

but here is something I don't like to taste.

You could make two separate pages if you'd rather.

Evaluation and Changes in Each Activity

Cooking: Before the children make the vegetable soup, you could have a short discussion on washing their hands and the vegetables before cooking. Use a magnifying glass to look at their hands and the vegetables before and after washing.

Vegetable Soup: (or Vegetable Beef Soup)

Equipment- Electric frying pan with cover, spatula, soup ladle, knives, spoons, can opener paper or plastic cups for serving the soup.

Ingredients- 1 1/2 lbs. ground beef, 2 cans of tomatoes, 1 can onion soup, 1 can beef bouillon, small peeled potatoes, peeled carrots, 1 lb. green beans, (canned corn and canned peas can be added if you wish.), salt and oregano.

Procedure-

Have the children clean the beans and snap them. They can also cut the potatoes and carrots once you have peeled them. Brown the hamburger, pour off the fat and add the other ingredients. Have the children smell the oregano. Cook until the vegetables are tender (30 to 40 minutes) and ladle into cups. If the soup is too thick, add a little water.

Game: "Here we go to the Grocery Store" (to tune of Mulberry Bush) The children can suggest the things you will buy there.

Please add your own activities for this lesson on the back

	<p><u>Enrichment:</u> We suggest that Picture #10 from unit on Places be used in connection with this lesson rather than in its proper place.</p> <p>Peabody Language Development Kit Household Cards</p> <p>Ginn Kit A - Units #5 and #13</p> <p><u>Art:</u> Each child can draw a picture of his house for his <u>All About Me</u> book. The page could have this mimeographed at the top: Here is where I live with my Family.</p> <p>When each child have learned his address he may make his house to go on the Model Community. We suggest using the following pattern for the houses as milk cartons would probably be too large for all the children's houses to fit on.</p> <p>Construct a doll house for the room from a large cardboard box. Furniture pictures could be cut from magazines or catalogs and glued on to matchboxes.</p> <p><u>Brainstorming:</u> Name all the kinds of houses that people live in. This could be an on-going project as the children will probably keep thinking of things. Include such things as apartment houses, trailers, tents, houses on stilts, log cabins, tree houses. The story, <u>We Were Tired of Living in a House</u> would go well here. They could also think of all the kinds of houses that animals live in and add the words to the dictionary.</p>	

Please add your own activities for this lesson on the back

## PATTERN FOR CHILDREN'S HOUSES

1. Color doors and windows on those sections WITHOUT the X. (Use colored pencils.)
2. Cut on the SOLID lines.
3. Fold on the DOTTED lines, folding the sections with the X's behind the colored sections
4. Leave the tops open.
5. Print the child's name and address on one side of his house.
6. If you mimeograph this pattern on construction paper, the houses will have a little more body than if you use the regular mimeograph paper.

Prop Boxes: This would be a good time to fix up a prop box for the plumber, the electrician and the carpenter. Refer to the information in the front of this guide for ideas in constructing a prop box.

Resource people:

Bricklayer - Have the bricklayer construct a small wall to show the children how layers of bricks are alternated. Someone from Cushwa could come to show how bricks are made.

Bulldozer operator - Have the operator bring his bulldozer to show the children how it works. Add match-box bulldozers to the Model Community. Use toy bulldozers in the block corner.

Cement mixer and operator: Let the children watch how the cement mixer works. Make cement in the classroom.

Carpenter: Have him show the children the tools he uses. Construct a work bench for the children to use in the classroom. (soap rubbed on nails makes them easier to drive into a piece of wood.)

Electrician: Have him show the children all the tools he uses and have him lead a brainstorming session on all the things that use electricity in the house.

Painter: After his visit the children could use large brushes and water to paint the outside of the school.

Enrichment: Peabody Language Development Kit has pictures of fruits to use in this lesson.

Ginn Kit A - Unit 10

Art: Add an orchard and maybe a packing shed to the Model Community.

Use the Apple Tree Story on the following page and have the children color, cut and paste their own story. (This activity is good for strengthening the left-to-right concept.)

In the unit on needs, Lesson Three, Picture #25 we suggested that a bulletin board be started about vegetables that grow under the ground and on vines. We suggested that space be left to add fruit trees. The different kinds of fruit trees could be added now.

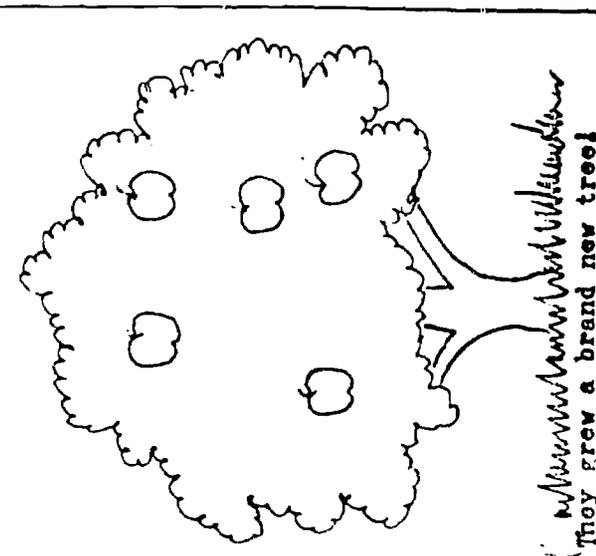

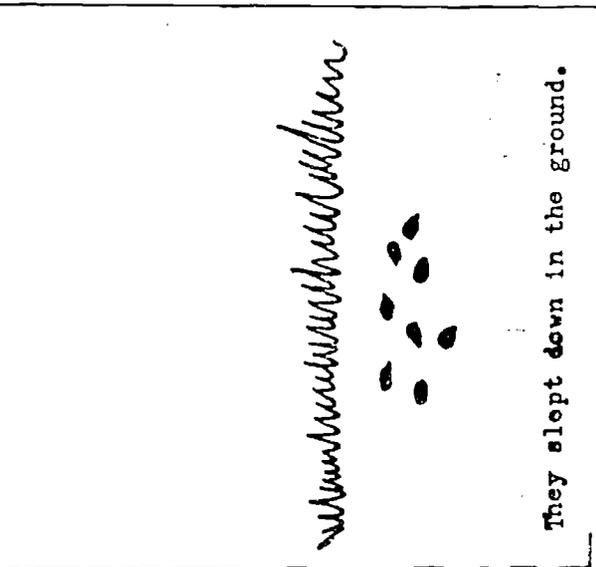

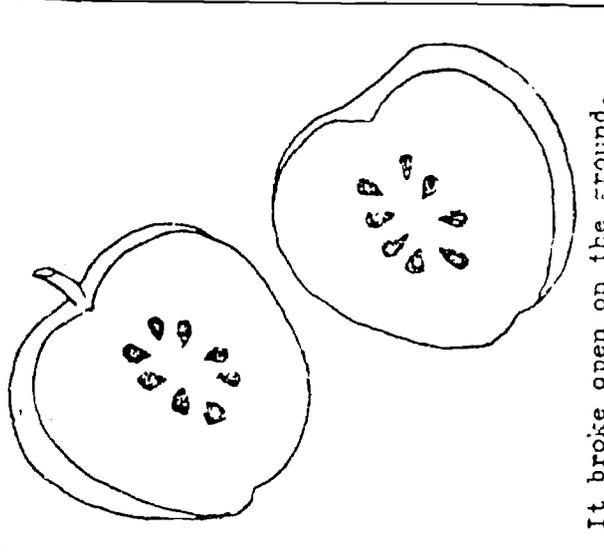

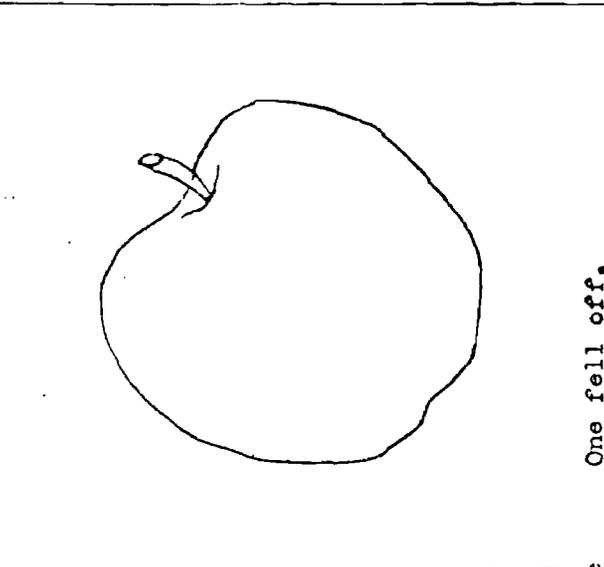

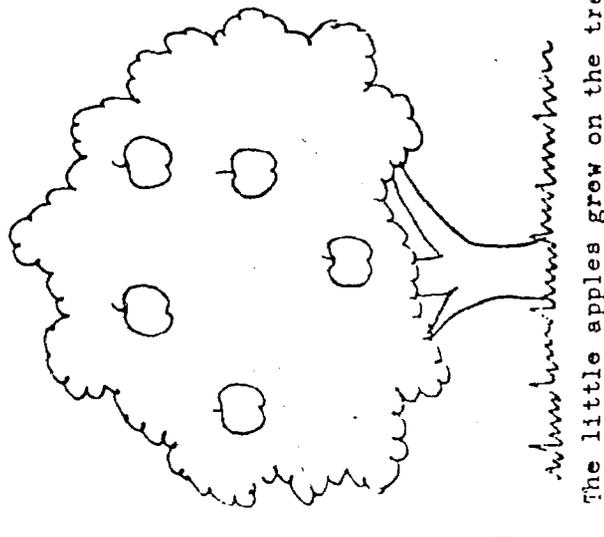

Draw a tree on the chalk board. Children add fruits that grow on trees with colored chalk. One child acts as the eraser to erase those that are not fruits or those fruits such as watermelon and tomatoes that grow on vines.

Make papier maché or play dough fruits for the grocery store in your room. The recipes and suggestions for making papier maché and play dough are listed in the unit on needs, Lesson Three, Picture #25.

Please add your own activities for this lesson on the back

1. Make a transparency story or a larger copy of the picture and tell the story several times until the children are joining in and helping.
2. Give each child this sheet of pictures to color and then have them cut on the solid lines.
3. Give each child a long, thin sheet of paper and see if he can paste the pictures in the right order so that he can tell the same story you did, using his picture story.

Evaluation and Changes in Each Activity

Cooking: Make applesauce.

Equipment- large pan, knives (for mothers or other adults to use in peeling and quartering apples ), measuring cup, large spoon, spoons, paper or plastic cups for eating the applesauce.

Ingredients- 22 large apples  
2 1/2 cups of water  
1 1/2 cups of granulated sugar  
1 1/2 cups of red candies (Red Hots)  
2 tsp. cinnamon

Procedure - Peel and quarter the apples. Put the apples and the water in the large pan with the lid on and simmer until the apples are very soft. Stir in the remaining ingredients until the sugar and candies are dissolved. Cool. Put into cups for eating. (This recipe makes about 30 servings.)

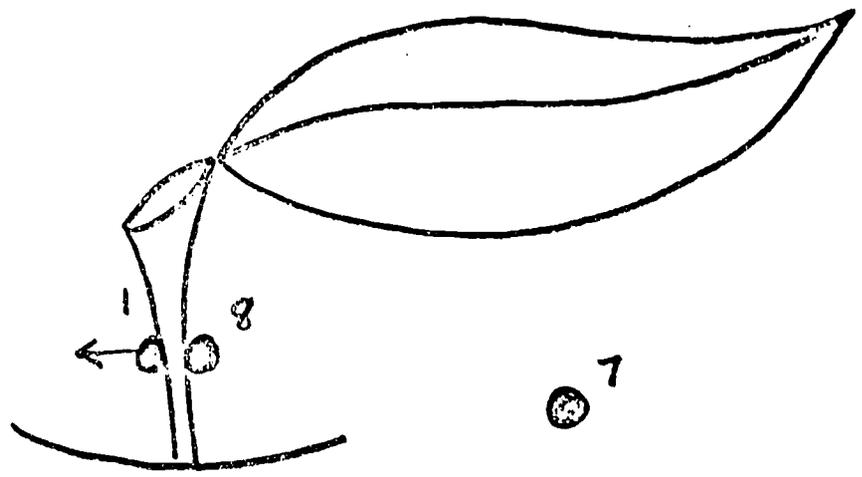

Have a fruit tasting party using the directions given for the vegetable tasting party in the unit on Needs, Lesson Three, Picture #25.

Make Fruit cocktail. Use canned fruit cocktail and add cut, fresh fruit that you have peeled and the children have cut into small pieces.

After making and eating either the applesauce or fruit cocktail, have a "Clean Up Party" with certain children assigned to washing the dishes and certain children assigned to drying them and putting them away.

Suggested Activities

Evaluation and Changes in Each Activity

Discussion: Why do pickers and packers have to be careful of the fruit when they are working with it. Drop an apple on the floor several times, wait a short while and peel it to show the children the bruises - the consequence of dropping the fruit. Cut up some fresh fruit and allow it to sit out for several days so that the children can see how it dries up when it is exposed to the air. It might be helpful to mention that prunes are dried on purpose to make prunes and that grapes are allowed to dry on purpose to make raisins.

What is a migrant worker? Why do they only work a part of the year? Why do they have to move so much?

Field Trip: Go to an Apple orchard. The Keller Lewis and Son Orchard on the Cavetown Pike is a good orchard. Mr. Lewis can tell you when they will be picking.

Game: Upset the Fruit Basket - The children are seated in a circle and each is given a cut-out of a kind of fruit (use the patterns we supplied for the placemats) to sit on. (Several children are given the same cut-out to sit on) One child stands in the center of the circle and calls the name of a fruit. The children sitting on that fruit must change seats, and as they do so the child in the center tries to get one of the seats. If he succeeds, the child left out takes his place in the center and calls the name of a fruit. If the child in the center calls, "Fruit Basket", all change seats. There must always be one cut-out fewer than the number of children playing.

Poems: Three Little Apples (Act this one out.)

Away up in the apple tree  
Three little apples smiled down at me.  
I shook that tree as hard as I could;  
Down came the apples. Ummmmmmmm, they were good!

The Apple Tree

In spring, the apple tree was pink  
And white all round about;  
And somewhere, near the very top,  
A pair of robins, in and out.

In summer, the old apple tree  
Had fruit and leaves of green;  
And hungry little baby birds  
Among the branches could be seen.

Upon the tree in autumn time --  
Were apples big and gay.  
We could not hear the robins sing,  
They left and sadly flew away.

Cold winter time is here again.  
The apple tree must rest,  
With snow upon its spreading boughs  
And snowflakes in the robins' nest.

Art: During free choice time the children could make milk carton trucks to take home. Directions for making the trucks follow.

Make a mobile of the ways that our food gets to us. Pictures cut from magazines could be mounted on cardboard and suspended on strings of different lengths from the ceiling. We have included some pictures in case you would rather run them off on a mimeograph and have the children color and cut them out to use. If you would like the pictures to have a three-dimensional effect, mount them on boxes instead of pieces of cardboard.

Add a toothpick railroad track, an airport and some Matchbox brand trucks and boats to the Model Community.

Poem:

Trucks  
Big trucks for steel beams,  
Big trucks for coal,  
Rumbling down the broad streets,  
Heavily they roll.

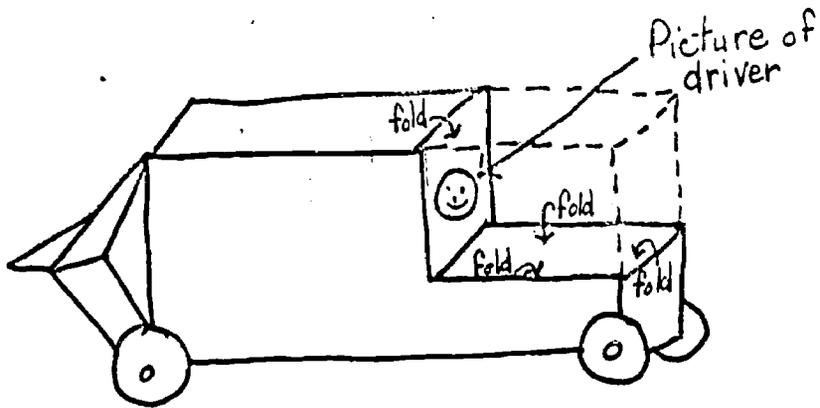

Little trucks for groceries,  
Little trucks for bread,  
Turning into every street,  
Rushing on ahead.

Big trucks, little trucks, While I read their signs  
In never ending lines,  
Rumble on and rush ahead

Sewing: Give the children squares of burlap with simple outlines on them and let them use yarn and large needles to stitch around the outline. Use embroidery hoops.

Art: Add a factory to the Model Community.

Make candles in class. If you want them to resemble the candles in the picture have the children dip string in melted wax over and over until the wax on the string is thick enough to be used as a candle. Only a few children at a time can do it this way and it required a lot of adult supervision so that they do not drip the hot wax on the floor or table top. It is also quite time consuming as they have to dip their string and blow it dry anywhere between fifteen and twenty-five times to get a decent candle.

Another way to make candles is as follows;

Materials - a half pint milk carton with the lid cut off for each child, parafin, a pan for melting wax, and egg beater for whipping the wax, string for wicks, and knives.

Procedure- The child puts his string, dangling down the center of the milk carton and arranges blocks of solid parafin on either side of it. Melted parafin is then poured over the whole works. When the melted wax is hardened, the child tears off the milk carton. More melted wax spread on the after being whipped to a frothy consistency. While the whipped wax is still soft, glitter may be sprinkled on the candle.

Evaluation and Changes in Each Activity

Resource People: Ask someone from the Washington County Arts Council come in with a potters wheel to throw a pot. The children would make their bowls as a follow-up. Ask some older children in the school to put on a puppet show for your class. Point out to your children that they probably learned something from the experience such as how you hold a puppet, how to use a big voice, how to know when your puppet is supposed to shown, etc. Using the information they learned from the experience they could then give the same puppet show for another class.

Role Playing: To show the children how they learn from older children or from each other, let them try to teach each other how to tie shoes. They will realize that teaching is not as easy as it sometimes seems.

Note: Save discussion on teachers until picture #15.

Lesson #   Two  

Picture #   14  

Career Education Concepts: Most kinds of work need some skill or training.

Check Activities Used	Suggested Activities	Evaluation and Changes in Each Activity
	<p><u>Cooking:</u> Make rice in the classroom (from past experience, we suggest that you pay the extra few cents and buy Minute Rice.) Serve the rice in paper or plastic cups. If it is at all possible, try to let the children use chopsticks in their eating. If it is not possible to supply chopsticks for all the children, use two plastic spoons held together under the bowl of the spoons with a rubber band for chopsticks. When the children find that they have trouble eating this way all they have to do is to unhook the spoons and turn them around to use them the correct way.</p> <p><u>Resource People:</u> Have someone come to show the children how to eat with chopsticks. Many young men who have been in the service and have been stationed in the Orient have learned to use chopsticks.</p>

Evaluation and Changes in Each Activity

Enrichment: Picture #33 on Page 35 of the World of Language.

Art: Each child may draw two pictures for his All About Me book on pages that say:  
Here is my school.

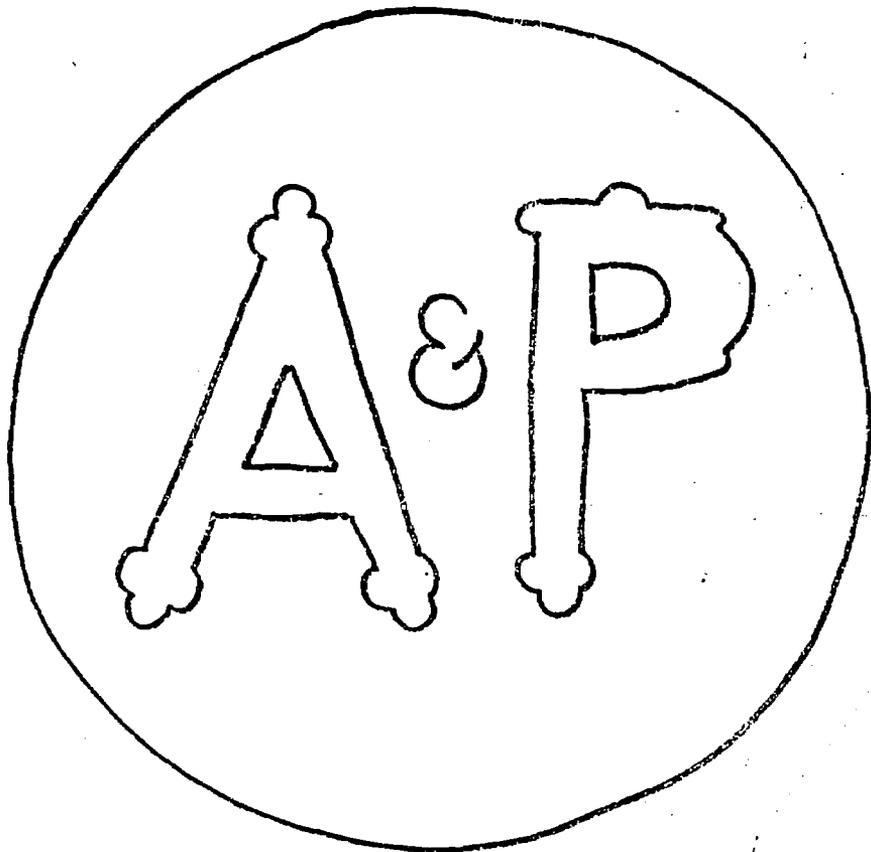

There are many teachers at my school.  
This is my teacher.

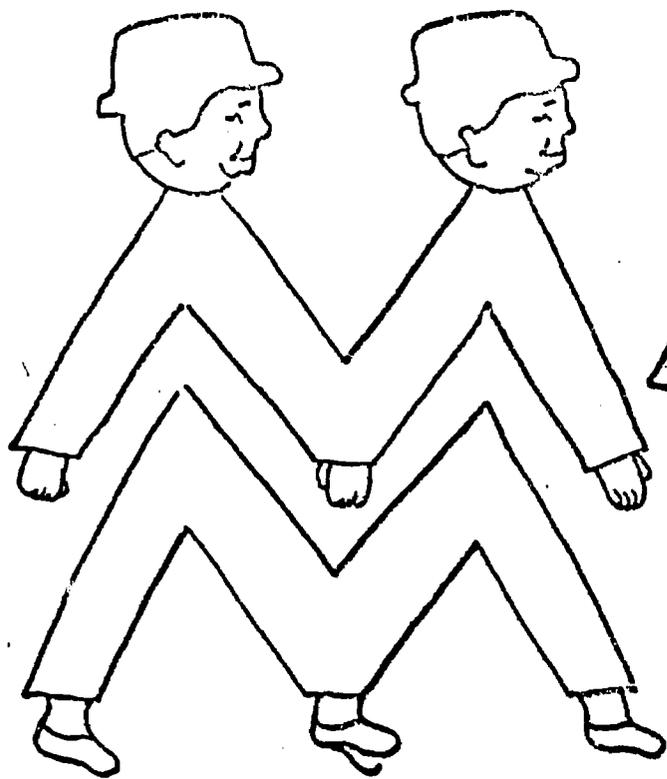

Put the school on the Model Community.

Game: To show the children the importance of learning to read and the fact that they can read a lot of words already, play this game with them. On the following page are words that are common to them because they usually appear in a certain place or are usually written in a certain way. Put the words on pieces of tag, hold one up and say: "All of you who think that you know what this word says, stand up." and then call on those standing until the word is correctly identified.

Guessing Game: To show the children the importance of reading, put the following items in a box, take one out at a time, let the children guess what it is and then guess why their parents need to know how to read to use it: cook book, letter, bill, medicine bottle, newspaper, catalog, T.V. guide, map, telephone directory, directions for putting a toy together, a pattern, check, schedules, advertisement, box mixes, cans, household cleaning bottle, magazines, street sign and a Bible.

Investigation: If there are educational toys in the room, the children could be divided into groups, and each group given an unfamiliar toy or game to learn how to use or play by themselves  
Examples: A Seeque story to put in order  
Construct a car from Tinker Toys  
Lotto games to figure out

Poem: Thinking

I'm thinking, I'm thinking,  
So leave me alone.  
I don't need your help.  
I'll do fine on my own.

I have a few problems  
I have to work out,  
Which cannot be done  
If you stand there and shout,

"We need you for baseball,  
So come right away."  
I'll come when I feel  
I am ready to play.

Please stop making faces.  
It won't help to groan.  
I'm thinking, I'm thinking,  
So leave me alone.

Unit Rules

Lesson # One

Picture # 17

Career Education Concepts: There are rules for all kinds of work.

Check  
Activities  
Used

Suggested Activities

Field Trip: Take a walk or a trip to a playground to use equipment that is not available in the school yard. Before hand, talk about rules for using a swing or a slide, or a sandbox, or a see saw.

Guessing Games: Whatever rules you have for your playground at school could be incorporated into this game. Say something like: I'm thinking of something that you are not allowed to stand on when you use it. (merry-go-round) I'm thinking of something you do when I blow the whistle. (line up to go in)

Role playing: If you have not played any familiar games such as duck-duck-goose or Mother May I? ask one of the kids who thinks he knows it to tell the others that he is the teacher and he is going to teach them. Have him describe the game and the rules and then play, exactly by his directions. He will probably realize that some were left out and therefore the game didn't go as planned.

Evaluation and Changes in Each Activity

Art: Add a baseball field to the Model Community.  
Dot-to-dot baseball picture.

Collection: Make a collection of pictures of all kinds of sports figures to compare their dress and talk about the rules of their sport. Include baseball, football, boxing, basketball, soccer, etc. Some magazines such as Sports Illustrated would be good sources for the pictures.

Homework: Watch part of a professional game of any kind (it all depends on the season) on television. Look to see what kind of uniform the man who "rules" the game wears and find out what he is called. (referee, umpire,)  
Note: don't forget new words for the dictionary.

Letter Writing: Have the class compose a letter, written by you on a large piece of experience paper to send to a sports figure. (We suggest that you send it to the office of the team for which the sports figure plays. The Baltimore Colts, Bullets or Orioles - depending on the choice of the person chosen)

Ask questions such as:

How did you get to be a \_\_\_\_\_ player?

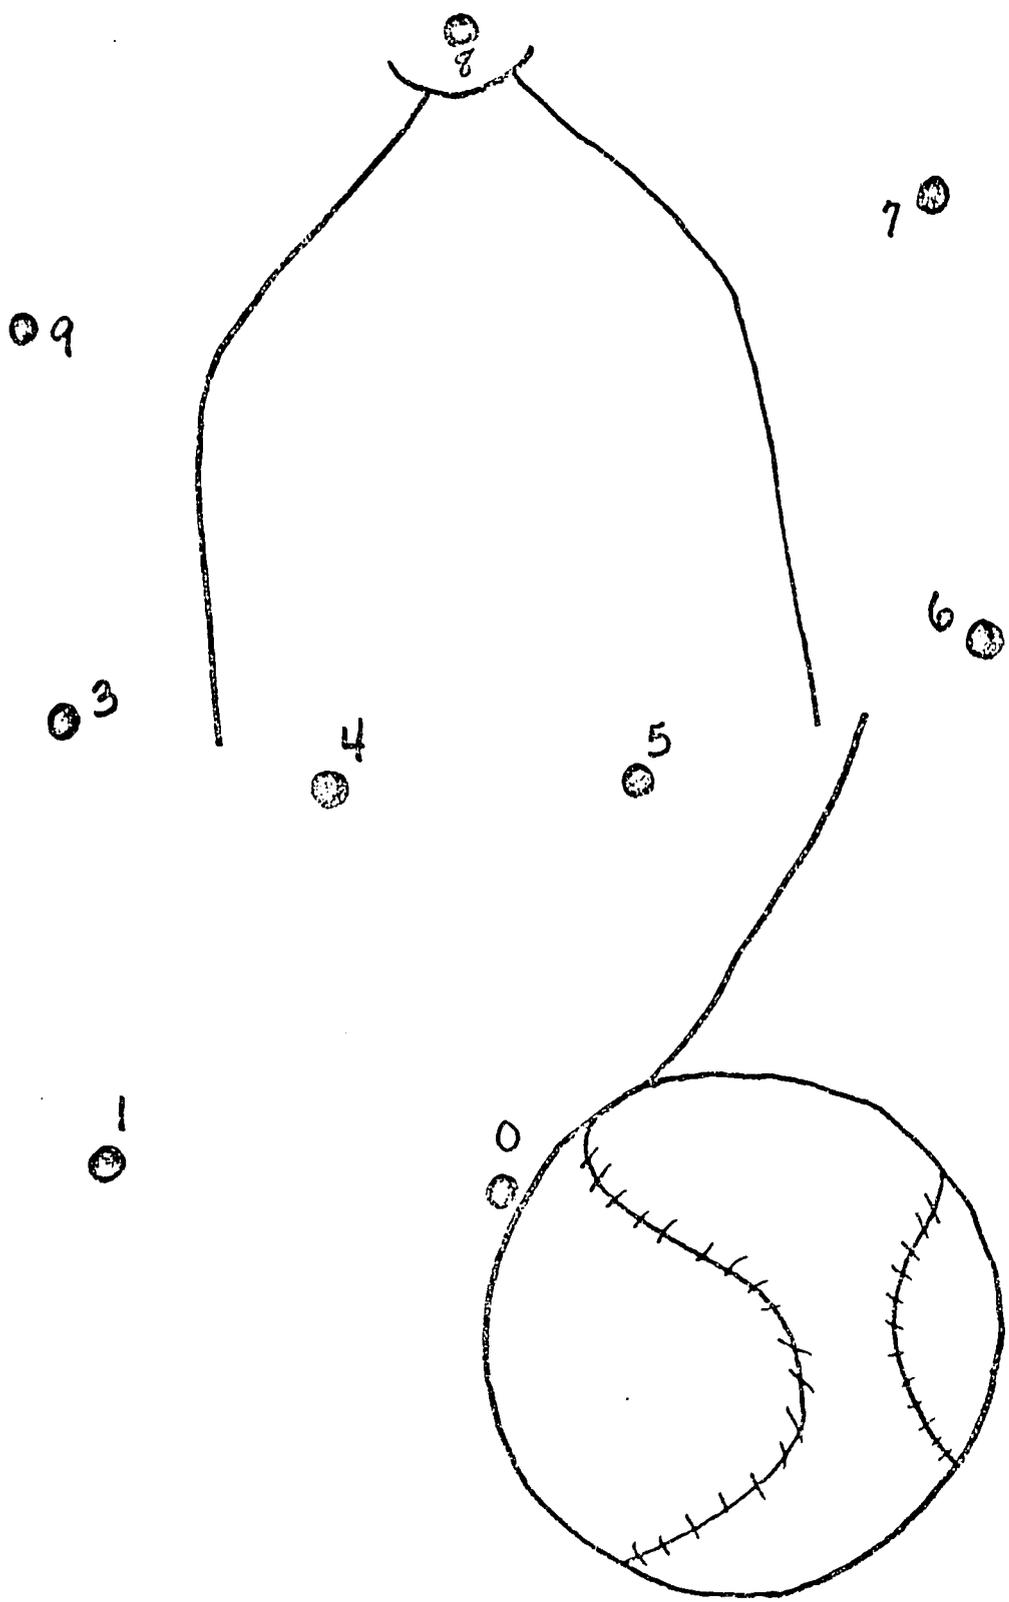

What skills did you need?

Do you earn money?

Do you play all year?

Resource Persons: Have some little league players come in their uniforms and make up a list of questions to ask them before they come in.

Please add your own activities for this lesson on the back

Jim wears this \_\_\_\_\_ when he goes to play  
On the baseball diamond every day.

Evaluation and Changes in Each Activity

Game: Activity chaos ---Allow the children to break some of your standing rules, but not all of them. Have six try to use the bathroom at one time and then ask them to tell you what the result was. Did you have to wait a long time? Did you remember to flush when there were so many people there? Were you forced to share a sink with someone else?

Poems: Outdoor Voice

Your outdoor voice is fine, I'd say,  
For shouting out of doors at play,  
But in the room we'd all rejoice,  
If you would use your indoor voice.  
Your outdoor voice is big and gruff,  
And loudest when your games are rough,  
Your indoor voice is soft and low,  
When you're indoors, please keep it so.

The "D" Words

I do not like the do's and don't's  
That grown-ups often say.  
These two short words that start with"d"  
Keep getting in my way.

Story: Tell the story, "Jonathan's Big Voice" to the class and talk about the importance of a little voice inside. The script for the story is on the next page. If you wish, flannel characters could be made so that the story could be told with the flannelboard to help keep the attention of the class.

Please add your own activities for this lesson on the back

Jonathan Bartholomew Nicodemus Smith was six. Jonathan was a good boy, but he had an ENORMOUS VOICE. He never spoke softly.

He SCREAMED.

He SHOUTED.

HE ROARED.

His mother would call, "Jonathan, breakfast is ready." Then he would shout, "I'M COMING, MOTHER!" and the whole house would shake.

Jonathan Bartholomew Nicodemus Smith's mother would sigh, "Why can't you talk like other boys, Jonathan?"

And Jonathan would shout, "I LIKE TO SHOUT. I HAVE A VOICE LIKE A BIG BASS DRUM. BOOM! BOOM! BOOM!"

When Daddy came home he would ask, "Jonathan, have you been good?"

Ar' Jonathan would shout, "YES! I HAVE BEEN A VERY GOOD BOY TODAY!"

Daddy would shake his head, "Jonathan, please talk quietly."

But Jonathan would shout, " I LIKE TO SHOUT. I HAVE A BIG VOICE, A VOICE LIKE THUNDER, BANG! BANG! BANG!"

Daddy would shut himself in a closet. Then he could read his paper without hearing that big voice.

Jonathan had a dog. The dog loved Jonathan. But when Jonathan shouted, "HERE, LADDIE BOY SKIPPER SMITH!" the dog would crawl under the bed.

But Jonathan Bartholomew Nicodemus Smith did not care. He shouted, "I LIKE MY BIG VOICE. I CAN SOUND LIKE CYMBALS. CRASH! CRASH! CRASH!"

Laddie Boy Skipper Smith would stay under the bed and shiver and shake.

Jonathan had a sister. Her name was Samantha Sarah Smith. She liked to play records. But she could not hear them when Jonathan shouted.

So Samantha said, "Please do not shout. I cannot hear my records."

But Jonathan replied, I LIKE TO SHOUT. I HAVE AN ENORMOUS VOICE, LIKE A WATERFALL, ROAR! ROAR! ROAR!"

Jonathan's sister Samantha cried and took her records to a friend's house.

One day Jonathan's mother had a party. She asked Jonathan to play with the boy next door. But the boy did not like Jonathan's big voice. Jonathan had to go home.

When he saw all the ladies, he shouted, "HELLO, LADIES! I', JONATHAN. I HAVE A BIG VOICE. MY VOICE IS LIKE A JET. R-R-R-R-R! MY VOICE IS ENORMOUS."

Mother's friends could not hear each other. They went home. Mother cried.

Jonathan Bartholomew Nicodemus Smith went to school. He shouted when the teacher asked questions. The teacher told him that everyone has two voices -

an indoor voice

and

an outdoor voice.

She asked Jonathan to use his indoor voice in school. But still Jonathan shouted and the children covered their ears.

One day Mother went away. Daddy said, "Jonathan, when Mother comes home she will bring a surprise." But he would not tell Jonathan what the surprise was.

Jonathan shouted all the time Mother was away. Soon he had no friends. Neighbor children would not ask him to play. Daddy and Samantha locked themselves in their rooms so they could not hear him.

One morning Daddy said, "Jonathan, Mother is coming home today. Please don't shout when you see her."

Now Jonathan had been lonesome. He missed his mother and his friends.

Daddy called Jonathan in to see Mother. Mother said, "See what I brought you. Now don't shout. You'll scare her."

Jonathan Bartholomew Nicodemus Smith could not believe his eyes. There was a little baby with big blue eyes. Jonathan forgot to be quiet. He shouted, "OH, THIS IS MY BABY! I LIKE HER!"

And the baby began to cry. She cried louder and LOUDER and LOUDER until Jonathan covered his ears.

Then Jonathan shouted, "DON'T CRY. I LOVE YOU. DON'T CRY."

But the baby only cried louder.

Mother said, "Jonathan, speak softly. Your sister is afraid of your big voice."

So Jonathan spoke softly. "Do not cry, little sister." And she stopped crying.

Jonathan smiled, "I know! I must use my indoor voice when I am inside, and my OUTDOOR voice when I am outside."

Mother smiled. Daddy smiled. The baby went to sleep holding Jonathan's finger. Jonathan whispered, "Good-by little sister," and tiptoed out of the room.

Evaluation and Changes in Each Activity

Enrichment: Peabody Language Development Kit has pictures of a policeman and a policecar. Ginn Kit A - Units #2 and #13.

Art: Add a police station, traffic signs and cross walks to the Model Community. The traffic signs and traffic lights can be made of construction paper glued to toothpicks and then the toothpicks stuck in play dough bases. The cross walks and yellow lines can be painted or colored with yellow crayon on the streets.

Make traffic lights out of milk cartons, spray painted black with construction paper circles pasted on.

Use two large sheets of cardboard to make "sandwich boards" for the children to wear. Put stop signs, one-way signs, railroad crossing signs, on them with tempera paint and fasten at the shoulder with ribbon or string. Have the children wear the "signs" and use them for some role playing in the classroom and out on the blacktop.

Fingerplay:

Five Strong Policemen

Five strong policemen standing by a store.

One became a traffic cop and then there were four.

Four strong policemen watching over me.

One took home a lost boy and then there were three.

Three strong policemen dressed all in blue.

One stopped a speeding car and then there were two.

Suggested Activities

Two strong policemen - how fast they can run.  
One caught a bad man and then there was one.  
One strong policeman saw some smoke one day.  
He called the firemen who put out the fire right away!

Games: "Traffic Light" - "It" stands in the center of the circle holding up a card with a green circle on it. The other children march around the circle chanting "go, go, go, go". When "it" holds up the red circle the children chant "stop" and stop marching. When "it" holds up the yellow circle the children chant "no" and don't go. When a child does not follow the signal, he is out.

"Policeman, Find My Child" - one child is the mother and one child is the policeman. The mother tells the policeman that here child (one of the children sitting in the circle) is lost and he needs to find him. The policeman has to ask questions to find out which child the mother is thinking of. The questions should be: What color hair does your child have? Is it a boy or a girl? What color eyes does your child have? When the policeman guesses correctly, the mother and the policeman choose two children to take their places.  
(Caution the mother not to keep looking at her child.)

Poems: Red Light

Red Light, stop,  
Yellow light, no.  
Wait for the green  
And then we go.

Homework: Make a check list of things the children need to do to stay healthy and send home the list for the parents to check their own children off. After the allotted time, have the children bring their check-list back to see how they did. (An example of a check-list follows)

Laboratory experiment: Let the children use a stethoscope to see how their heart beat increases with strenuous activity. When you are outside let the children listen to their heart beat (suggestion: slip the stethoscope under their shirt or dress for better results) and then have them run around the playground and listen again to hear the difference.

Poems:

After a Bath

After my bath I try, try, try

To wipe myself till I'm dry, dry, dry.

Hands to wipe and fingers and toes

And two wet legs and a shiny nose.

Just think how much less time I'd take

If I were a dog and could shake, shake, shake.

Naughty Soap Song

Just when I'm ready to start on my ears,

That is the time that my soap disappears,

It jumps from my fingers and slithers and slides

Down to the end of the tub, where it hides.

And acts in a most disobedient way

And that's why my soap's growing thinner each day.

Poems continued:

Joys

I'm rather fond of medicine,  
Especially if it's pink,  
Or else the fizzy-wizzy kind  
That makes you want to blink;  
And eucalyptus lozengers  
Are very nice I think.

I like it when I'm really ill  
And have to stay in bed  
With Mother's grown-up pillows  
All frilly round my head;  
But measles are the funniest,  
Because you get so red!

An Indignant Male

The way they scrub me in the tub,  
I think there's hardly any doubt  
Sometime they'll rub, and rub, and rub  
Until they simply rub me out!

My Nose

It doesn't breathe.  
It doesn't smell.  
It doesn't feel so very well.  
I am discouraged  
With my nose  
The only thing it does is BLOWS!

Poems continued:

About My Nose

This is a poem  
About my nose.  
It smells hot soup.  
It smells a rose.  
It smells the ocean  
And a new rubber ball,  
But when I have a cold,  
It can't smell at all.

Sneezes

If could windy breezes  
Bring sniffles and sneezes,  
Here's something you really should do...  
Use a hanky. Take care.  
Never sneeze in the air.  
But cover up every ker-choo!

Problem Box: Introduce a medicine chest made of a box for the family corner. Have articles to go in the medicine chest in a bag. Have a child come up and choose an object from the bag and tell whether the object is safe for a child to get by himself from his medicine chest at home. If it is something a child may handle, the child simply lays it in the medicine chest. If it is something that is dangerous to a child the teacher should tie it in the medicine chest so that it cannot be easily removed. Some items might include: medicine bottles, a thermometer, a toothpaste box, a toothbrush, soap, nail polish,

Miss Polly Had a Dolly (words & music follows)

English Rhyme

Miss Polly Had a Dolly

Musical notation for the first line of the song, featuring a treble clef, a key signature of one sharp (F#), and a 4/4 time signature. The melody consists of quarter and eighth notes.

1. Miss Polly had a dolly who was sick, sick, sick,  
 2. He looked at the dolly and he shook his head;

Musical notation for the second line of the song, continuing the melody from the first line.

So she phoned for the doctor to be quick, quick, quick,  
 Then he said, "Miss Polly, put her straight to bed."

Musical notation for the third line of the song, continuing the melody.

The doctor came with his bag and his hat,  
 He wrote on a paper for a pill, pill,

Musical notation for the fourth line of the song, continuing the melody.

And he rapped at the door with a rat ta-tat.  
 "I'll be back in the morning with my bill, bill, bill."

Two empty musical staves at the bottom of the page, intended for student practice.

Learning center: Paste pictures on cardboard of people of long ago and people now and have the children put them into two piles or groups - long ago in one and now in the other.

Poem: The End

When I was one, I had just begun.  
When I was two, I was nearly new.  
When I was three, I was hardly me.  
When I was four, I was not much more.  
When I was five, I was just alive.  
But now I am six, I'm clever as clever.  
So I think I'll be six for ever and ever.

It might be good to point out to your children that you cannot take a picture of something that has not happened yet, only those things that have already happened. If you have an artists conception of cities, people or cars of the future, show them to the class, explaining that the artist is only guessing. T.V. programs such as Star Trek and the Jetsons are only guessing about the way things MIGHT be.

Evaluation and Changes in Each Activity

Art: Place a campground, motel and restaurant on the Model Community.

Discussion: Where do you stay when you go on a vacation?  
What kinds of people have jobs at the campground or motel where you stay?

Where do you eat when you are on vacation?

What kinds of people have jobs in the restaurant where you eat?

When you go on vacation, how do you go? by car? by train? by plane?

Cooking: Roast hot dogs or marshmallows over a grill on your playground.

Poem: We had cookies

and lemonade.

Beth saw a bee

and got afraid.

I dropped a pickle

in the dirt,

but I washed it off

so it didn't hurt.

We had a picnic.

Was it fun?

NOW all we want

is another one!

Show and Tell: Have each child bring to school something he got while on vacation and tell about it.

Songs continued: Workers in our Town (the music for this song is found in the unit on NEEDS, lesson four, Picture #27)  
And every morning early,  
Before we see the sun,  
The milkman stops at our house  
With milk for every one.

Story: "Ice Cream is Good." The script and pictures for this story follow. You could color and cut out the pictures and back them with flannel to use on the flannel board or copy them onto acetate sheets to be used with the overhead projector.

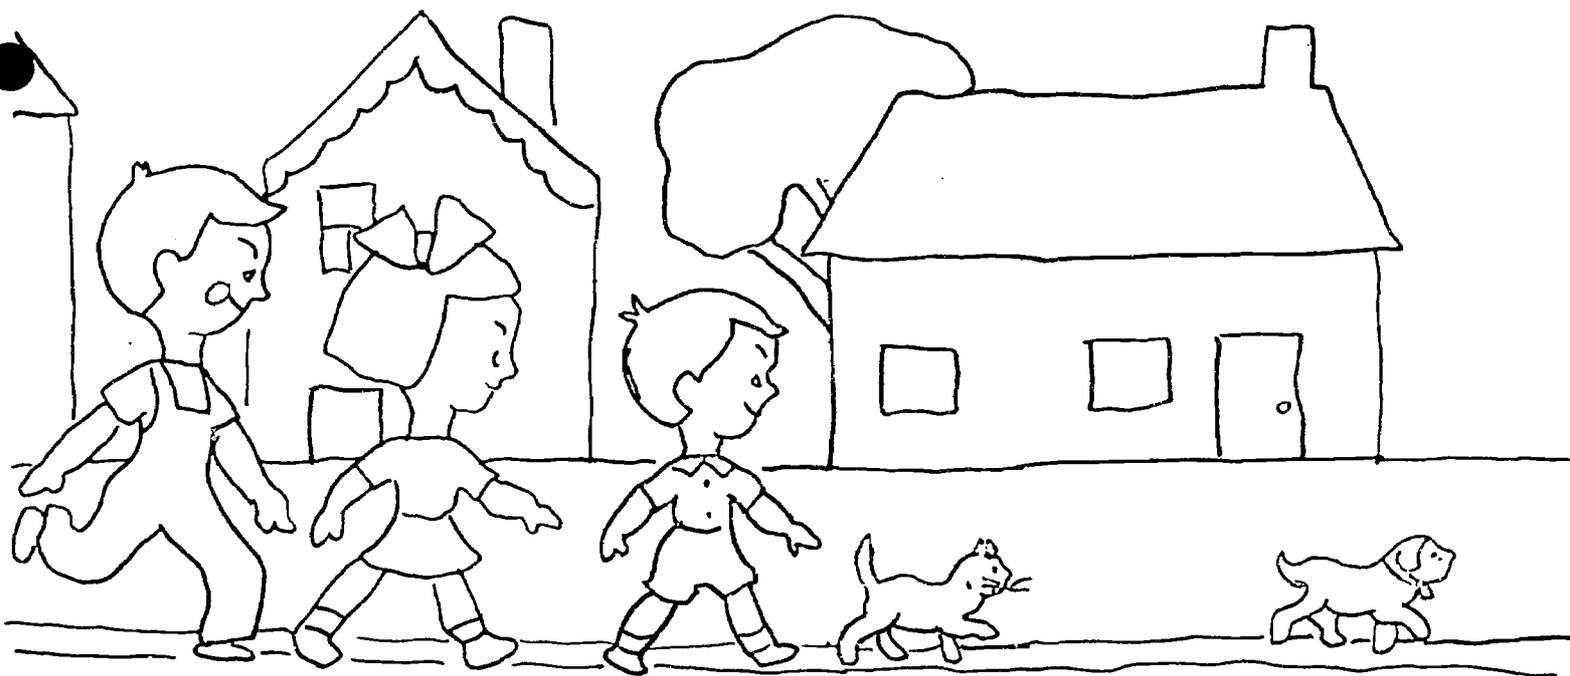

Poem: The People Who Come to My House  
Everyday some people  
Come to my house to call--  
The mailman, the milkman,  
And that isn't all--  
The garbageman, the bakeryman,  
The groceryman -- oh, my!  
So many, many people  
Every day stop by.

Tasting: If you have access to goat's milk, by all means taste some!  
Taste all kinds of dairy products including those that are not so familiar, such as butter-milk, cheeses, yogurt, sour cream and cream cheese.

Please add your own activities for this lesson on the back

Oh, look who is coming!

Let's run down the street . . .

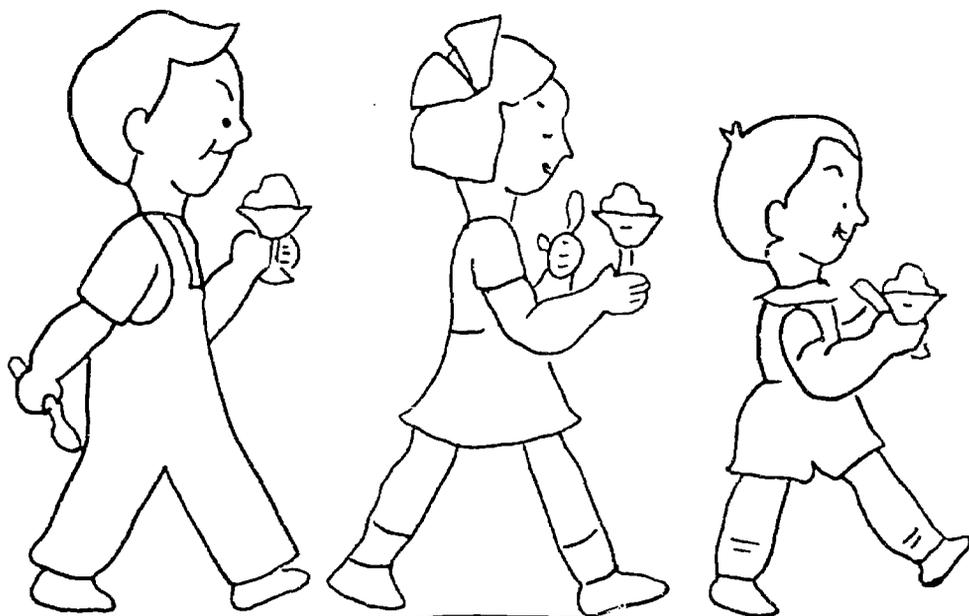

Brother, Sister, and I,  
Our Daddy to meet.  
We call, "Hello" . . .

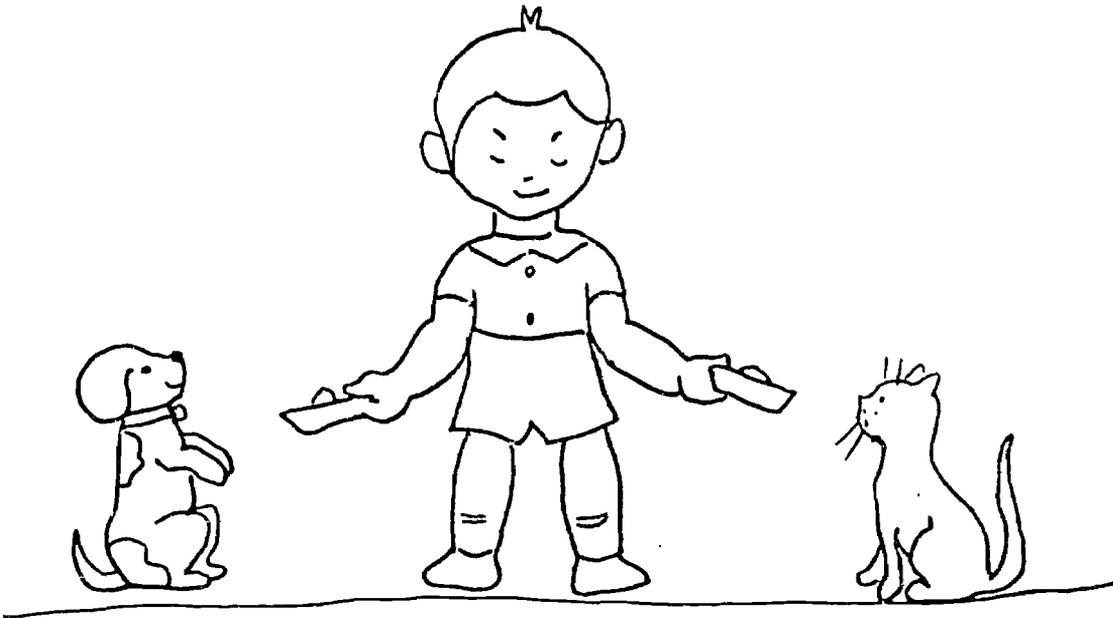

And then we spy  
What he holds high!  
It's time for supper,  
So home we fly.

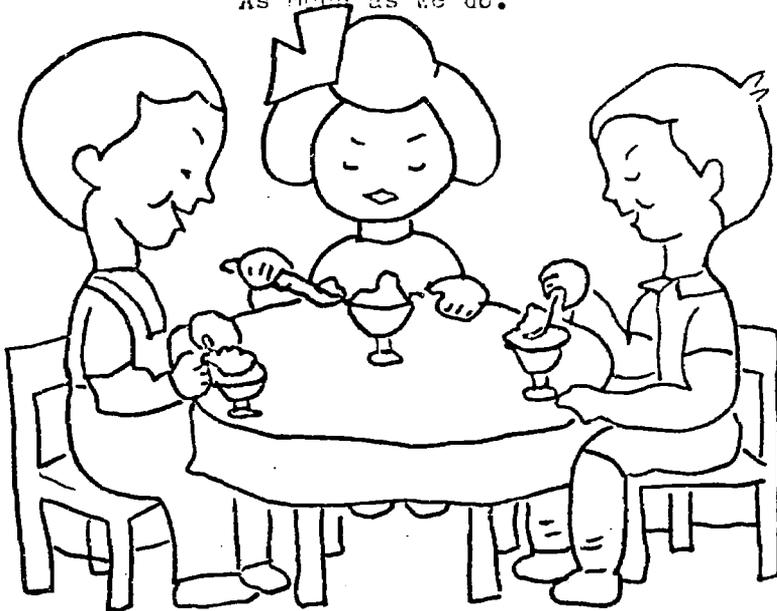

Oh, look! Ice cream!  
We give a shout,  
And watch while Mother  
Dishes it out.

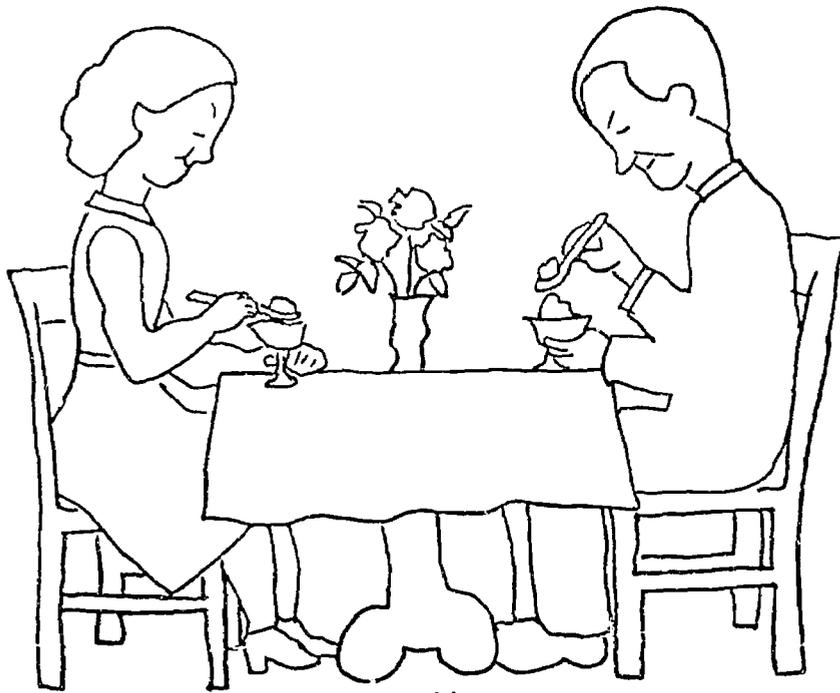

Yum, yum, yum,  
Here we come,  
Ice cream to eat --  
It can't be beat!

A taste for Puppy  
And Fussy, too.  
They like ice cream  
As much as we do.

We take little bites  
Off the very top,  
Then keep on eating  
To the very last drop.  
We never eat fast --  
We make it last.

Mother and Daddy

Eat it, too.

They say they like it

Even MORE than we do!

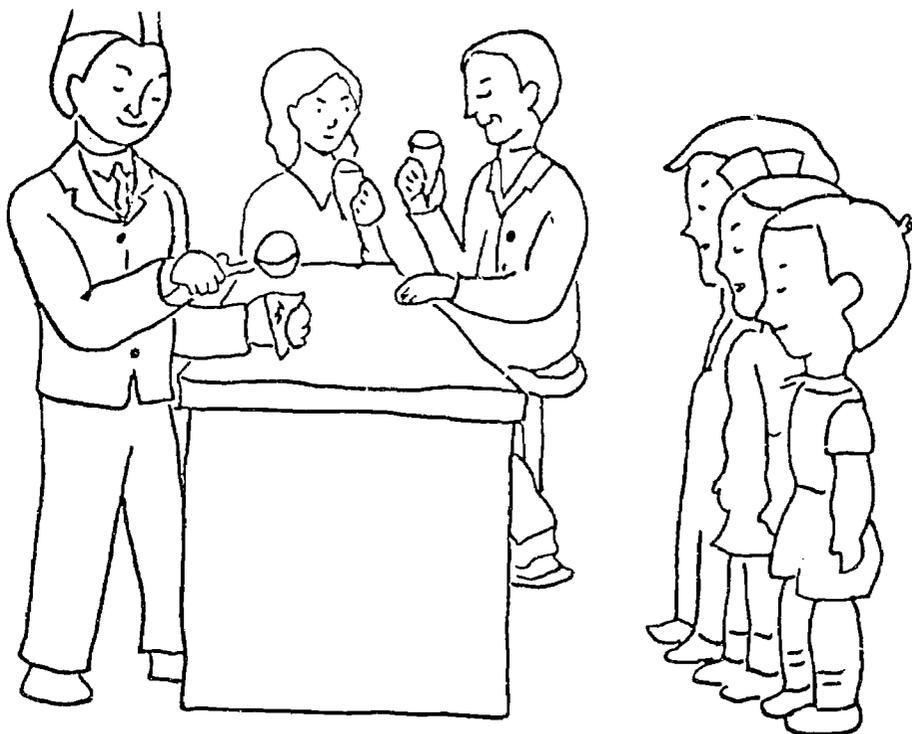

Sometimes, after supper,

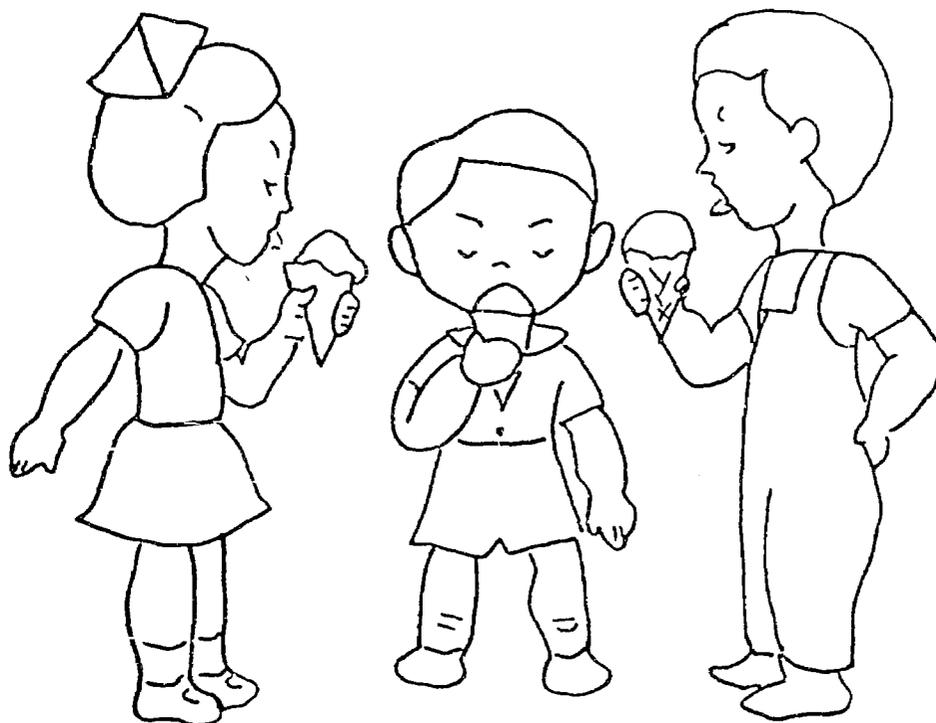

Down the street

We go to the drug store

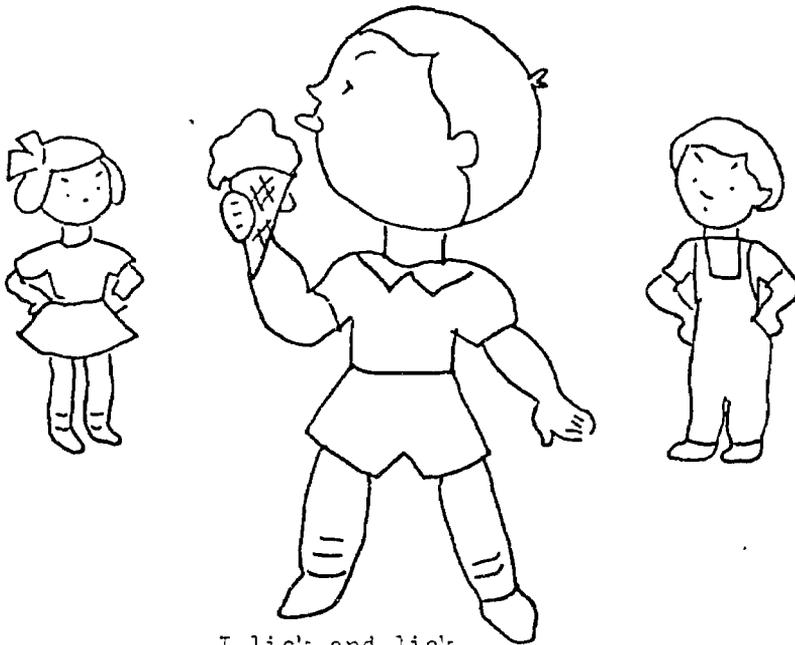

For a treat . . . .

"Ice cream!" we cry,  
Then we stand by  
While ice cream cones  
Are filled up high.

A pink cone for Sister --  
That's strawberry.  
A brown cone for Brother --  
That's chocolate.  
But a white cone for me --  
The best of all, you see,  
Vanilla.

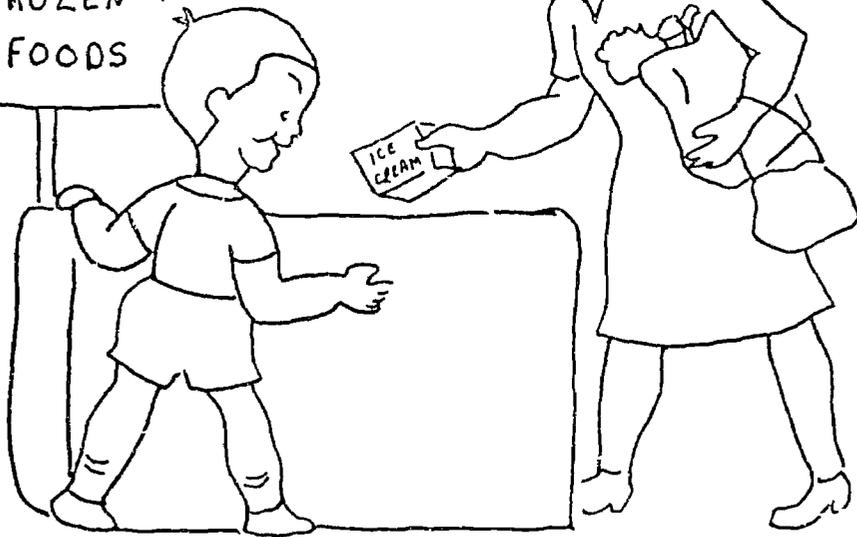

I lick and lick  
With my little pink tongue.  
I nibble some bites  
Until it's all gone!

Sometimes we go, Mother and I,  
To the grocery store to buy  
Bread, milk, and meat,  
And good things to eat.

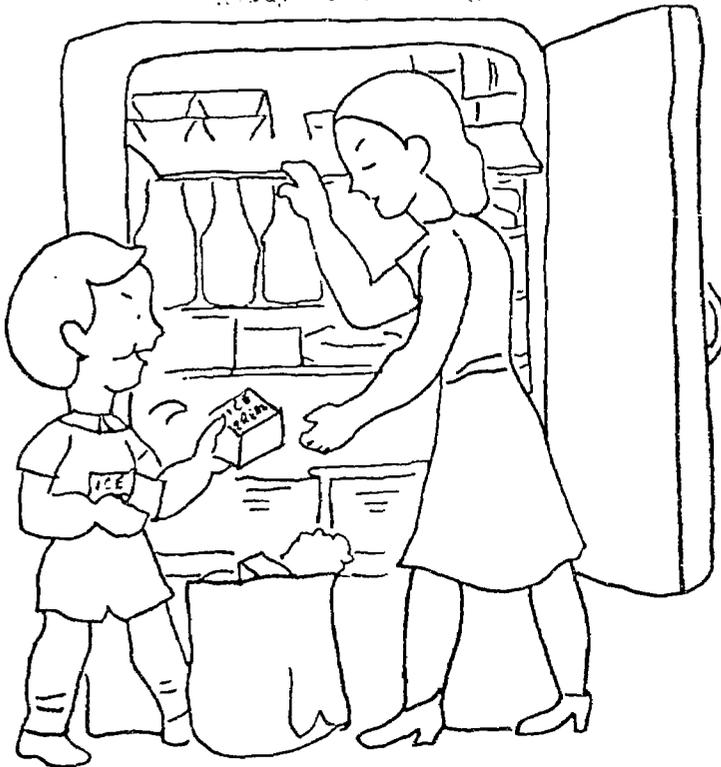

FROZEN  
FOODS

And there

We get ice cream

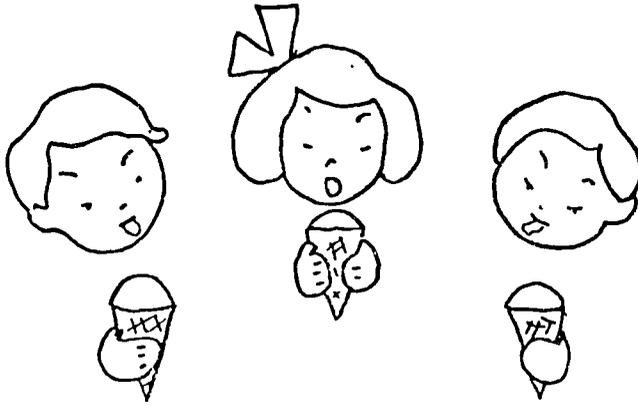

In packages, cold and neat,  
Ready to take right here and keep.

In the refrigerator  
Mother puts it away  
Where it will stay  
Cold as ice --  
So smooth

and sweet  
and slippery  
and - nice!

Ready for Brother and Sister and Me

We ALL think it's good,

And WE ought to know,

Because many good things  
Into it go.

There's cream and milk

From the cow, we know.

There's eggs from the hen,

Sugar, too, and gelatin!

These are good foods and so

Ice cream will help us grow, you see ...

Brother

and

Sister

and

Me.

Art: Have each child draw a picture in his All About Me book on which these words have been mimeographed:

I almost forgot to tell you ---  
I am \_\_\_\_\_ years old.

On my next birthday cake  
Will have this many candles.

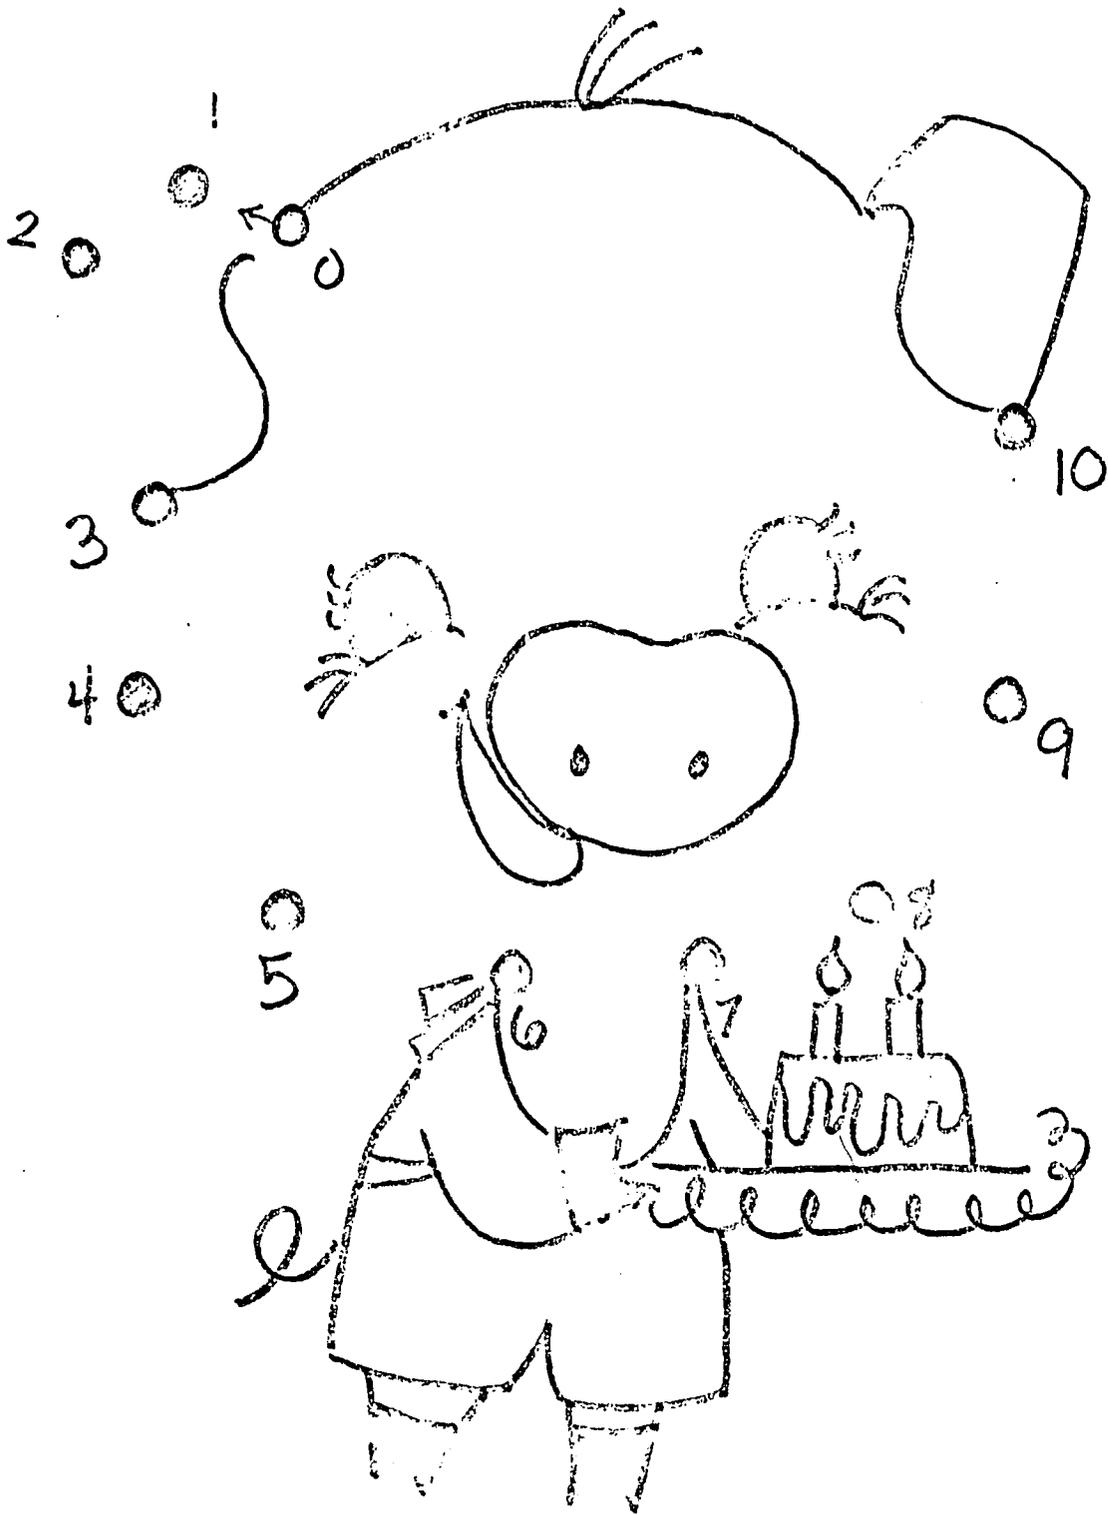

Poem: Let Me Grow As I Be

Let me grow as I be  
And try to understand  
I want to grow like me  
Not like my mom  
Wants me to be,  
Nor like my dad  
Hopes I'll be,  
Or my teacher  
Thinks I should be.  
Please try to understand  
And help me grow  
Just like me!

If this lesson is close to the end of the school year it would be a good time to have a party for all the children in the class who have birthdays in the summer.

Enrichment: Peabody Language Development Kit has pictures of members of the family and has a record with the voices of different aged member of the family.

The World of Language has pictures on pages 40 and 41 that can be used with this lesson.

Art: Have each child draw a picture of his family for his ALL About Me book. The page could have these words mimeographed on it.

Some families are big.  
Some families are small.  
Here is my family --  
Meet them all.

We suggest that the children draw a line on the bottom of the page to represent a time line with the youngest member of the family drawn to the extreme left of the line and the oldest member of the family drawn to the extreme right. The other family members would be drawn in between in the order of their ages.

Each child can color his family tree with you adding the names of the family members. (a pattern for the family tree follows)

Suggested Activities

Enrichment: The kindergarten teacher's manual to Making Music your Own has a section called "Pretend Time" beginning on page 164 about astronauts to use with this lesson.

Art: Have each child make a small rocket ship from cardboard tubes (from paper towel rolls), construction paper (for fins) and pointed paper cups (for the nose cone).

If you are ambitious, have the entire class help you in making a "life sized" space ship. Use chicken wire to form the cylinder shape and cover it with papier maché. The top is somewhat difficult to make. Use straight wires attached to the chicken wire base, twisted together at the top and then cover the whole top with heavy-duty aluminum foil. (Don't forget to cut a doorway in the chicken wire before you cover it with the maché.)

Sky Maps -- Give each child a sheet of black construction paper for the background, foil stars (the self-sticking variety you can buy in the dime store), and different sized and colored circles to represent the sun, moon and earth. Have each child paste his biggest circle (preferably colored yellow) in the center of his black paper to be the sun. With a white crayon he then colors a circle around the sun, representing the orbit of the earth. Somewhere on the white circle he is to glue his middle-sized circle to be the earth going around the sun. He then colors a white circle around the earth representing the orbit of the sun. He then glues his smallest circle (preferably colored white) on this white line to be the moon. The stick on stars go around the edges for decoration. This is a good activity for following directions! Do it one step at a time.

Poems:  
 When I grow up  
 (For I must, you know!)  
 I'll go wherever  
 I want to go --  
 I'll go to the zoo  
 Whenever I choose,  
 I'll walk in the mud  
 In brand-new shoes,  
 I'll go to the circus  
 Two days straight,  
 I'll sleep in the morning  
 And stay up late,  
 Have turkey and ice cream  
 Every meal,  
 And squeal as loud as  
 I want to squeal,  
 I'll have six dogs,  
 And three white mice,  
 And let 'em all eat with me --  
 Won't it be nice?

Moon Shavings  
 Who whittled on the moon last night  
 And left a slender curve of light?  
 I found the shavings today, at dawn,  
 Yellow daffodils all over my lawn.

Jumps

One jump, we jump to the moon,  
Two jumps, we jump to a star,  
Three and four and maybe more,  
We don't know where we are.

Art continued: Have each child draw a picture of what he wants to be when he grows up for his All About Me book. These words could be mimeographed at the top:  
When I grow up I want to be a \_\_\_\_\_.

Game: "Johnny go round the stars" -- One child is chosen to be Johnny. The others form a circle, the middle of which is the landing field. Johnny flies around the inside of the circle while the others chant:  
Johnny go round the stars  
Johnny go round the moon.  
Johnny can fly up in the sky  
And land with a big boom!  
When they say "boom", Johnny and all of the others fall to the floor. Before the game one child is chosen as the control tower. He stands on a chair or table where he can see well and it is his job to decide which child on the outside of the circle falls last. This child must then join Johnny in the center. The game continues until five children have joined Johnny in the center and then they are all "grounded" and must go back to the outside of the circle, with Johnny choosing a new Johnny and the control tower choosing a new control tower.

## MAKING A SPACE HELMET

If you decide to have a prop box on an astronaut, you might want to provide a helmet for your little astronauts to wear. Here are some directions for making a papier mache helmet.

You will need:

- tape measure
- large balloon
- wheat paste or wall paper paste
- water
- paper towels
- 2 large buttons
- paint

Directions:

Using the tape measure, measure the size of a child's head to find the approximate size the balloon needs to be. Blow up the balloon so that it is bigger than the measurement of the child's head. Put a string on the end of the balloon.

Mark off a space on the balloon for the viewing window of the helmet. This can be done with a felt-tip pen. At the bottom part of the balloon, mark off a space wide enough for a head to slip through. This will be the opening through which the head will go.

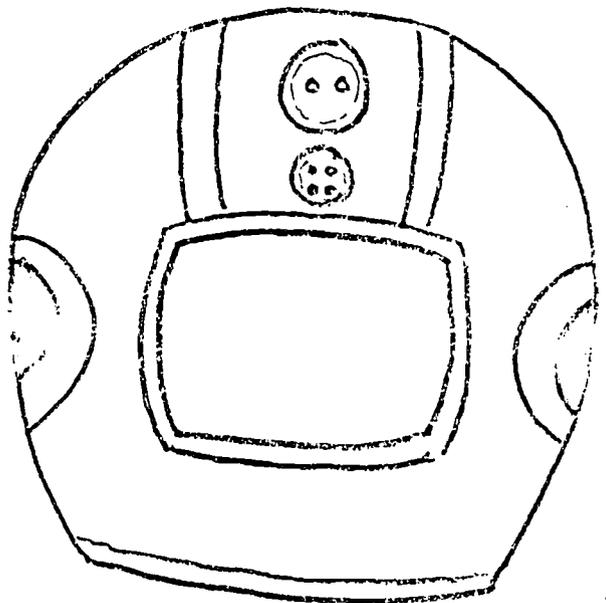

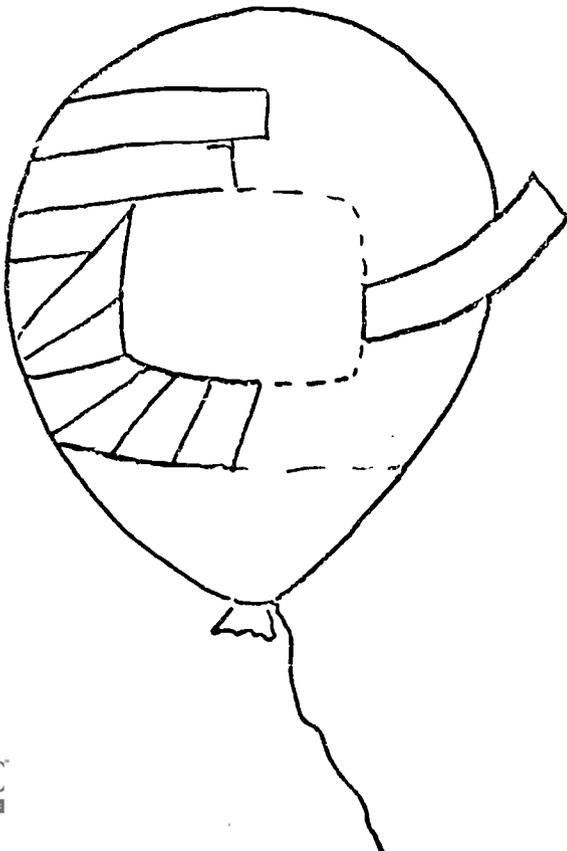

Tear up paper towels and after mixing wheat paste and water to a proper consistency, dip the strips of paper towels and apply them to the balloon. Do not cover the marked areas. Use at least 3 to 4 layers of paper strips to cover the balloon securely.

Hang the balloon by the string to dry.

When the papier mache is dry, pop the balloon and remove it from inside the helmet.

If needed, put more layers of paper on the helmet so that it is sturdy. Make sure all edges of openings on the helmet are smooth.

Paint the helmet and glue the two buttons on top of the helmet as added decoration.
