ABSTRACT

This course in banking intends to give students an insight into the personal and business services that banks provide. It includes instruction on savings and checking accounts, loans, trusts, and safety deposit facilities. Also included are the performance objectives, five pages of an outline on course content, suggested teaching and learning procedures, and five pages of resource materials for teacher and students. The appendix includes a glossary of banking terms, a bank reconciliation test, vocabulary test, bank principles test, and a suggested checkbook problem lesson.

- I. COURSE TITLE—BANKING SERVICES
- II. COURSE NUMBER—7713.15 (New: 7636.15)
- III. COURSE DESCRIPTION.
- A. Synopsis  
A course that gives students an insight into the personal and business services that banks provide. The course includes savings and checking accounts, loans, trusts, and safety deposit facilities.
- B. Occupational Relationships
- |                      |                   |
|----------------------|-------------------|
| General office clerk | Loan officer      |
| Secretary            | Bank clerk        |
| Accountant           | Bank teller       |
| Financial consultant | Investment broker |
- C. Textbook  
Any of the general business textbooks listed under "Resources for Students" may be used in class sets. The textbook must be supplemented with pamphlets and booklets, which are also listed under "Resources for Students." It is not necessary to issue a textbook for this course; ample learning material is readily available, and the text may be used as a resource.

IV. COURSE ENROLLMENT GUIDELINES

- A. Prior Experiences Needed  
It is recommended but not required that the student attain the objectives of Money and Banking prior to enrollment in this course.
- B. Pretest  
The pretest should follow the objectives of the course and be used as a guideline for placement within the course. Some students with a stronger background or aptitude could do individual research into the intricacies of banking services as well as developing the skills required to meet the course objectives.

V. COURSE OF STUDY PERFORMANCE OBJECTIVES

- A. Upon successful completion of this course, the student will be able to—
1. demonstrate an awareness of the function of banking in today's business world by writing a short report or orally giving a report;
  2. demonstrate an understanding of the fact that banks, while serving the public, are in business to earn a profit by listing the ways that banks derive income;

## V. COURSE OF STUDY PERFORMANCE OBJECTIVES, Continued

3. compare various kinds of banks and the services they provide by compiling a list of services offered by each;
4. demonstrate an awareness of bank regulation by writing the ways in which a bank is regulated by state and federal governments;
5. demonstrate an understanding of the organization and purpose of the Federal Reserve System and the Federal Deposit Insurance Corporation by writing an explanation describing the need for each;
6. fill out the following bank forms properly with 100% accuracy:
  - a. signature card for a savings account
  - b. signature card for a checking account
  - c. deposit slip and withdrawal slip for a savings account
  - d. deposit slip for a checking account
  - e. check stub
  - f. check
  - g. check endorsements (blank, restrictive, full)
  - h. traveler's check
  - i. loan application;
7. reconcile a bank statement and determine the amount of cash available for future use;
8. compute simple and compound interest when given rate, time, and amount;
9. compute bank discounts and repayment time on given promissory notes;
10. determine due dates when given beginning date and time;
11. compute true interest rate on time payment loans; and
12. match a list of banking terms with given definitions.

## VI. COURSE CONTENT

- A. Equipment and Supplies
  1. Textbooks and pamphlets
  2. Blank forms of banking services (either teacher-made, from workbooks, or from neighborhood banks)
    - a. signature cards
    - b. deposit and withdrawal slips for savings accounts
    - c. deposit slips for checking accounts
    - d. check stubs
    - e. checks
    - f. sets of checks with attached stubs
    - g. reconciliation forms
    - h. loan application forms

## VI. COURSE CONTENT, Continued

3. Transparencies and overhead projector with screen
  4. Movie and filmstrip projectors
- B. Study of Banking as a Business
1. Brief history of banking in America
  2. Banks organized for different business services:
    - a. Community banks
    - b. Commercial banks
    - c. Trust companies
    - d. Industrial banks
    - e. Export-import banks
    - f. Federal Reserve Banks
    - g. World Bank
    - h. Savings banks
  3. A bank as a business firm
    - a. Organization
      - (1) Charter
      - (2) Capital
      - (3) Stock issuance
      - (4) Board of directors
      - (5) Regulatory agencies
      - (6) Personnel
    - b. Expenses and profits for banks
- C. Bank Services
1. Deposits
    - a. Who may make deposits
      - (1) Savings accounts
      - (2) Checking accounts
    - b. Who may not make deposits
  2. Checking accounts
    - a. Opening an account
      - (1) Signature card
      - (2) Initial deposit
      - (3) Service charges explained
      - (4) Advantages of using a checking account
    - b. Using a checking account
      - (1) Arithmetic of check stub
      - (2) Filling out the check and its stub
      - (3) Identification numbers on a check
      - (4) How a check is transferred
        - (a) blank endorsement
        - (b) endorsement in full
        - (c) restrictive endorsement
      - (5) How a check is cleared and cancelled
      - (6) Cautions of illegalities
        - (a) Raising
        - (b) Forgery
        - (c) Insufficient funds—protest fees
      - (7) Stopping payment on checks

## VI. COURSE CONTENT, Continued

- c. Reconciliation of account
  - (1) Outstanding checks
  - (2) Service charges
  - (3) Available bank funds after reconciliation
- 3. Savings accounts
  - a. Passbook
  - b. Regular savings account
    - (1) Filling out deposit slips
    - (2) Filling out withdrawal slips
    - (3) Entering interest credits
    - (4) Computation of compound interest
    - (5) How savings grow—use of savings table
    - (6) Insured savings
      - (a) Maximum amount of account
      - (b) Multiple accounts
      - (c) Insurance compared with that offered by savings and loan associations
  - c. Time certificates
  - d. Christmas clubs
- 4. Various forms of payment (negotiable instruments)
  - a. Certified checks
  - b. Cashier's checks
  - c. Bank drafts
  - d. Bank money orders
  - e. Express money orders
  - f. Traveler's checks
  - g. Personal checks
  - h. Letter of credit
- 5. Loans
  - a. Commercial lending
    - (1) Loans to individuals
      - (a) Collateral loans
      - (b) Signature loans
      - (c) Commodity loans
    - (2) Promissory notes
      - (a) Who may borrow
      - (b) Procedure for filling out loan application
      - (c) Interest payment
      - (d) Discounted note
      - (e) Maturity date
      - (f) Rate
  - b. Consumer financing
    - (1) Time payment contract
    - (2) Collateral
    - (3) Interest charges
    - (4) Figuring true rate of interest on time payments
      - (a) Truth in lending law
    - (4) Required insurance on loans
      - (a) Accident insurance (automobiles)
      - (b) Life insurance on borrower
    - (5) Bank repossessions

## VI. COURSE CONTENT, Continued

- c. Real estate mortgage financing
  - (1) Appraisal service
  - (2) Qualifying for a home loan
  - (3) Costs involved with such a loan
  - (4) Repayment of home loan
    - (a) Amortization schedules
    - (b) Total cost of home due to interest
    - (c) Prepayment clause in loan contract
  - (5) F.H.A. insured bank loan
- d. Federal aid through banks for development of small businesses
  - (1) Who can qualify for such a bank loan
  - (2) Repayment and interest on small business loans
- e. Educational loans
  - (1) Who can qualify for such a loan
  - (2) Repayment of educational loans
- f. Loans against a depositor's own savings account
  - (1) Produces a loan at a lower interest rate
  - (2) Procedure for taking out such a loan
- 6. Government and Municipal bonds sold and redeemed
  - a. Bond (defined)
  - b. Interest rate—increases in indirect proportion with time of redemption. Comparison of Series E and Series H
  - c. Procedure of buying and redeeming
  - d. Advantages and disadvantages of bonds as means of saving money
- 7. Trusts
  - a. Investment of money
  - b. Collect rent, supervise upkeep of property
  - c. Guardians of money of minor children
  - d. Help in budgeting and investing an individual's finances
- 8. International department
  - a. Currency exchange
  - b. Transfer of foreign funds
  - c. International credit
- 9. Safety deposit boxes
  - a. Procedure for renting
  - b. Procedure for putting articles in or taking articles out
  - c. Privacy and safety
- D. A Bank's Place in a Business Community
  - 1. Banks raise the standard of living in a community and supply business capital
    - a. Help build homes
    - b. Start new businesses
    - c. Help farmers finance business
    - d. Finance children's education
    - e. Help communities pave streets, construct hospitals, erect public buildings, build parks, etc.
    - f. Provide time payment loans for household purchases, automobiles, etc.

## VI. COURSE CONTENT, Continued

2. Federal Deposit Banks supply necessary capital to communities
3. Help keep economy of community stable by adjustment of interest rates (through Federal Reserve Bank)

### E. Coins and Paper Money

1. Authorization for minting or printing
2. Location and method of production
3. Distribution by banks
  - a. Redemption of worn out money
  - b. New money put into circulation
  - c. Counterfeit money

### F. Federal Reserve System

1. Organization of the Federal Reserve System
  - a. Need of such a system—brief history
  - b. Organization of system, districts, branch banks
  - c. What banks belong—how this affects the consumer
2. Services of Federal Reserve Banks
3. Issuance of Federal Reserve Notes and how it affects the consumer
4. Federal Deposit Insurance Corporation

## VII. SUGGESTED PROCEDURES, STRATEGIES AND LEARNING ACTIVITIES

### A. Suggested Teaching Methods

The goals of a study of banking services differ in the complexity and difficulty of attainment, depending on the level of maturity of the students. The skills of using the commercial forms such as deposit slips, checks, and cards can be mastered easily at the junior high school level. An understanding of the intricacies of money transfers, credit transfers between banks, community-government credit services performed by banks and the Federal Reserve System can best, and perhaps only, be taught at the senior high school or higher level. A brief history of banking and the Federal Reserve System can be comprehended quite well by the junior high school student. A variety of activities should be used in presenting the content of this course. Select those suggested activities that you feel may be beneficial and interesting to your students.

### B. Simulation Experiences

#### 1. Checking account

The students may practice having their own checking accounts. Signature cards, deposit slips, and checks may be obtained or prepared by the teacher or students. The students may then work problems which include writing checks, preparing deposit tickets, and reconciling bank statements.

## VII. SUGGESTED PROCEDURES, STRATEGIES AND LEARNING ACTIVITIES, Continued

### 2. Savings account

The teacher may ask the principal's help in determining the legality and feasibility of establishing a short-term in-school savings fund or of inviting a local financial institution to offer a savings program to students. The students may make a list of the materials needed for such a project; e.g., signature cards, deposit slips, withdrawal slips, bank books, and ledger cards. They may establish some rules and regulations in order to operate their bank. After all the necessary forms are available and rules established, the class may decide on the type of employees that would be necessary to carry on the savings service (a teller to receive the deposit and a bookkeeper to record the money deposited). Two students could be selected by the class and the bank would be open for business. Possible rules for operation are listed below:

- a. Banking hours are from 9:25 to 9:45 a.m.
- b. The maximum deposit is \$10.00.
- c. No money will be accepted without a passbook.
- d. Withdrawals will be only at the end of the course.
- e. No transfer of passbook or balance.
- f. If passbook is lost, notify the teller.
- g. All deposits are subjected to the terms printed in the passbook.
- h. No interest will be paid.

### C. Local Resource Activities

#### 1. Field trips

The students may enjoy a field trip to a local bank in order to receive realistic exposure to banking services. A guide could provide supplementary information on the basic banking functions.

#### 2. Bulletin boards and displays

Bulletin boards and displays may be prepared by the students. Topics might include:

- a. Who uses a bank
- b. Bank services
- c. Bank forms
- d. Tracing a check from writer to cancellation and back to writer

#### 3. Scrapbooks, folders, and notebooks

Students may collect samples of deposit slips, signature cards, withdrawal slips, loan application forms, reconciliation worksheets, checks, and travelers checks. Additional information and articles may be taken from local newspapers or pamphlets provided by banks and their associations (in addition to those in Resources for Students).

## VII. SUGGESTED PROCEDURES, STRATEGIES AND LEARNING ACTIVITIES, Continued

### 4. Local bank information list

The students might be interested in studying the banks in the immediate area or within the city limits. The following information could be secured about each bank:

- a. Is it a commercial bank, or has it been organized for a special purpose?
- b. Is it a state or national bank?
- c. Does it belong to the Federal Reserve System?
- d. Are deposits guaranteed by the Federal Deposit Insurance Corporation or by some other agency? What is the name of the agency?
- e. Does it provide any special services for its customers?

### 5. Guest speaker

Invite a guest speaker from a local bank. He could speak on job opportunities in banking, or banking services (see Resources for Teachers).

## D. Textbook Activities

### 1. Reading from the general business texts

The textbooks for general business contain extensive units on banking services consisting of four to six chapters. A textbook may serve as one of the primary sources since it contains detailed explanations, examples, and illustrations.

### 2. Writing answers to unit questions

Students will find a valuable study guide in the questions that follow the order of the text. Teachers will find the questions a valuable means of determining comprehension.

### 3. Completing workbook activities

Workbooks are available for units on banking services (see Resources for Students). They may be very helpful when used in independent study as the directions are clear and concise.

### 4. Developing vocabulary

The textbooks and the appendix of this quinmester course of study contain vocabulary lists that assist in building an understanding of the language of business. The vocabulary exercises located at the end of each chapter help students master the important terms that are defined in the text.

### 5. Discussing Topics

Students enjoy sharing their personal experiences with others. Credit cards, bank forms, travelers checks, credit applications, magnetic ink characters, safety deposit boxes, and the financing of homes or automobiles are topics that may generate discussion. Students develop the ability to communicate with others and learn how to argue constructively.

## VII. SUGGESTED PROCEDURES, STRATEGIES AND LEARNING ACTIVITIES, Continued

### E. Problem Solving

#### 1. Reconciling a bank statement

Reconciliation problems provide realistic experience for developing a skill which is necessary for anyone who has or will have a checking account in the future. The problems make the students aware of bank service charges, outstanding checks, and outstanding deposits.

#### 2. Computing interest, rate, maturity date

The students may become acquainted with the various types of interest, bank discount, and rates used in banking today. Problems may include: finding a percentage of an amount; finding principal, given rate, time, and interest; finding rate, given principal, time, and interest; finding true rate of interest for time payment loans; using shortcuts in finding percentage and determining maturity dates, given beginning date and time.

#### 3. Financing an automobile

A problem involving the financing of an automobile may be used because this may be the first large purchase a high school student plans to make. Such things as the amount of money financed, payment period, rate, amount of note, monthly payments, and required insurance would be of interest.

#### 4. Using graphs

- a. Circle graphs may show sources of income of banks, items of expense of a bank, percent in 1935 and 1971, types of savings in which individuals save money, etc.
- b. Bar graphs may be used to compare values for: percent of students in each grade having savings accounts, total assets in various banks, percent of available loan money used for various types of loans, etc.
- c. Broken line graphs may show trends in banking, bank deposits, decreases in bank failures since 1935, increases in bank hold-ups and burglaries since 1940, changes in number of services and types of services, changes in number of banks and types of banks, etc.

### F. Supplementary Activities

#### 1. Films and filmstrips

Many films and filmstrips are available on banking services (see Resources for Students). This provides a variety in the presentation which is very helpful in stimulating interest. If listening stations are available, these media may be used for individualized study.

VII. SUGGESTED PROCEDURES, STRATEGIES AND LEARNING ACTIVITIES, Continued

2. Pamphlets

Pamphlets are available that give information on individual topics relating to banking (see Resources for Students).

3. Written and oral reports

Reports may be given to students who wish to do an in-depth study of a particular area of banking which interests them.

4. Learning activity packages

Many excellent activities are listed in the learning activity packages, Expressway to Success in Everyday Living—banking series, that were prepared by Dade County Public Schools. (See Resources for Students.)

VIII. EVALUATIVE INSTRUMENTS

A. Pretest

No prerequisites are necessary for this course. In order to present meaningful learning experiences, it would be helpful to the teacher if he assessed each student's comprehension of banking services.

A pretest may be constructed which will measure the course of study performance objectives in Section V.

B. Interim Tests

During this quinmester course the teacher may wish to evaluate the students' performance by means of short unit tests. Banking services, banking functions, federal reserve system, the checking account, loan procedures, and bank organization are just a few of the many topics you may wish to evaluate. Commercially prepared tests; teacher prepared tests; and content quizzes following a field trip, speaker, student report, film or filmstrip aid greatly in the evaluation of the objectives of the course. The teacher should reinforce those concepts that have not been successfully mastered by channeling those students through activities that may increase student progress.

C. Final Evaluation

A posttest may be developed by the teacher which covers the course content and effectively measures the course of study performance objectives in Section V.

## IX. RESOURCES FOR STUDENTS

### A. Textbooks

Crabbe, Ernest H.; Debrum, S. Joseph; and Haines, Peter G. General Business for Economic Understanding, 9th edition. Cincinnati: South-Western Publishing Co., 1966.
