**ABSTRACT**

This report analyzes 4,664 grade reports received from the California State College-University System for students who had transferred from Pasadena City College. The analysis covers all reports that were available as of June 20, 1973, for the period fall 1966 through winter quarter 1973. The grade reports data are tabulated. The tables provide (1) comparisons between cumulative GPA's earned by Pasadena City College transfers and GPA's earned by other students, (2) differentials between entrance and subsequent GPA's of Pasadena City College transfers, (3) cumulative GPA's earned by Pasadena City College transfers, (4) percent of GPA's earned by Pasadena City College transfers that were 3.00 or higher or 2.00 or less, by institution, and (5) GPA earned at San Jose State College each term by Pasadena City College transfers, by grade level. \* Several of the California State Colleges became Universities during period represented by this study.

Grade reports were available for analysis from seventeen state colleges. Although the colleges exhibited wide diversity in reporting academic progress of transfer students, three major methods were employed:

1. Comparison between cumulative GPA's earned by Pasadena City College Transfers and GPA's earned by other students.
2. Differential between entrance GPA and subsequent GPA earned by Pasadena City College Transfers.
3. GPA earned by Pasadena City College Transfers at transfer institution.

1. Comparison Between Cumulative GPA's Earned by Pasadena City College Transfers and GPA's Earned by Other Students

Six of the colleges provided sufficient data for making varied comparisons between achievement of Pasadena City College transfers and other college students.

TABLE I records data by institution for 1,443 grade reports.

SUMMARY FOR UNDERGRADUATE DIFFERENTIAL indicates the mean cumulative GPA for 849 Pasadena City College grade reports from four institutions was 2.72; comparable GPA for all undergraduates at those institutions was 2.75 (-.03 differential).

SUMMARY FOR ALL TRANSFERS DIFFERENTIAL shows cumulative GPA for 1,390 Pasadena City College grade reports from four institutions was 2.57; comparable GPA for all transfers was 2.55 (+.02 differential).

Pasadena City College transfers at Northridge earned cumulative GPA's .08 above those of all undergraduates, .10 above all transfers, and .13 above first semester transfers.

2. Differential Between Entrance and Subsequent GPA's

Grade reports from four of the state colleges provided data for determining differentials between entrance and subsequent GPA's of Pasadena City College transfers.

Table II contains pertinent data from 1,798 grade reports, by institution. Pasadena City College transfers showed plus differentials at all institutions ranging from +.08 to +.34, with a weighted mean of +.15.

### 3. GPA's Earned by Pasadena City College Transfers

Grade reports from seven colleges provided term GPA's earned by Pasadena City College transfers. Table III lists cumulative GPA's.

Table IV shows per cent of GPA's earned that were 3.00 or higher, and per cent that were 2.00 or less, by institution.

From a total of 4,664 grade reports: 33.8% were 3.00 or above (1,575), 14.0% were 2.00 or less (653). The per cent of 3.00 or better GPA's was higher than 2.00 or less GPA's at all colleges except San Diego.

San Jose State College grade reports for Pasadena City College transfers provided data relating GPA's earned to their grade level. Table V shows the relationship: Except for three freshmen students who earned a mean 2.64 GPA, the higher the grade level the higher the GPA.
