ABSTRACT

Thirty-seven employers of clerical personnel were surveyed to determine necessary skills, education, and experience for the positions of clerk/receptionist, clerk/stenographer, secretary, and administrative assistant. The results suggest that at least a high school diploma, typing speed, and one-two years of experience are considered necessary by a high percentage of employers for all four clerical positions. The current Secretarial Careers Program emphasizes preparations for the Certified Professional Secretary (CPS) examination. The high percentage of students obtaining employment prior to the completion of the two-year program raised a question as to whether employers wanted and were willing to pay for office staff with the skills of a CPS. Data indicated 75 percent were not familiar with the term at all. Two recommendations were made: (1) to begin to plan for the development of a shortened program, and (2) to make employers more aware of the skills of a Certified Professional Secretary. Tabular data and the survey instrument are appended. (Author/HJK)

PREFACE

Previous research has shown that many students leave the secretarial program prior to graduation, and that they are able to find employment in their field of study. The purpose of this study was to determine whether there is a need for a shortened intense program in addition to the existing two-year secretarial program.

At the request of the secretarial staff, the Office of Institutional Research operated in conducting a survey of area companies which hire clerical staff. Mrs. Peggy Scheloski and Mrs. Jean Smith provided the input for the development of the survey instrument. The students in the Secretarial Field Study course taught by Mrs. Jean Smith did the interviewing. Under the direction of the writer and Mr. Robert Watkins, the Secretarial Field Study students tallied the data obtained from the interviews. Mrs. Diana Kelley assisted with the preparation of this final report.

SKILLS, EDUCATION AND EXPERIENCE FOR CLERICAL STAFF: A SURVEY OF SOUTHERN METROPOLITAN KANSAS CITY EMPLOYERS

I. INTRODUCTION

Secretaries are currently very much in demand in the Kansas City area. The secretarial staff at JCCC felt that this high demand has had an impact on the number of students completing the secretarial career program. The majority of students do not complete the program. Yet, students who leave the program prior to graduation but with marketable skills are finding employment in secretarial fields. Over eighty percent of students in the secretarial program who either graduate or leave with a marketable skill were employed in secretarial related work (Career Student Follow-up, 1972 and 1973 Career Student Follow-up: Initial Placement). The current Secretarial Careers Program emphasizes preparation for the Certified Professional Secretary (CPS) examination. The high percentage of students obtaining employment prior to the completion of the two year program raised a question as to whether employers wanted and were willing to pay for office staff with the skills of a CPS.

II. PURPOSE

The purpose of this study was to obtain opinions from employers of clerical staff as to what skills, education and experience were necessary or desirable for the positions of clerk/receptionist, clerk/stenographer, secretary and administrative assistant. In addition, employer opinions were sought concerning Certified Professional Secretaries.

III. METHODOLOGY

Questionnaire

The questionnaire was developed by the JCCC secretarial staff in cooperation with the College research staff. A copy of the questionnaire is included in Appendix A. It should be noted that each of the four clerical positions was defined on the survey instrument.

Selected Companies

The employers were selected at random from the 1973 *Contacts Influential*. Seventy companies were selected with offices located within 34 zip zones in southern Metropolitan Kansas City specified by the secretarial staff. The sample was stratified with respect to the size of the company. Company size ranged from five or fewer employees to over 500 employees. The sample size of 70 was selected so that for reporting percentages, the obtained percentages would be within ten percent of the population percentages at the 0.90 level of confidence.

Procedure

A letter (Appendix A) was sent from President Harris to each of the 70 employers explaining the survey and informing the employer that a student in the secretarial program would be contacting them. The students in the Secretarial Field Study class were instructed in some basic interviewing procedures by a member of the research staff. Each student telephoned for an appointment at the employer's convenience.

Responses

Complete responses were obtained from 37 businesses. Partial responses were obtained from two companies by telephone for the first two questions. The responses were typically given by vice presidents, personnel officers and secretaries. No responses were obtained from 31 companies, partly because the companies concerned stated they did not have sufficient staff or time to participate in such an activity and partly because the student interviewers may not have tried very hard to secure an appointment.

The 37 participating businesses employed clerical staff as follows:

- Seventy-five percent employed nine or less clerical personnel.
- Eleven percent employed 10-19 clerical personnel.
- Three percent employed 20-29 clerical personnel.
- Eleven percent employed 50 or more clerical personnel.

IV. SURVEY RESULTS: JOB ENTRY REQUIREMENTS

Most of the companies surveyed did not employ clerical personnel in all four positions (clerk/receptionist, clerk/stenographer, secretary and administrative assistant). As a result, most respondents did not answer questions pertaining to all four clerical positions. Respondents typically answered only those questions pertaining to positions available in their own companies. Seventy-eight percent responded to the clerk/receptionist questions, 68 percent responded to the clerk/stenographer questions, 84 percent to the secretarial questions and 54 percent to the administrative assistant questions. Tables 12-15 in Appendix B use the format of the survey instrument to present the percentage of employers rating a specified skill, education or experience characteristic as necessary or desirable.

For each of the four clerical positions, Tables 3-6 present the percentage of employers rating a specified skill, education or experience as necessary for each position. For typing speed, shorthand speed, accounting courses, education and experience, the percentage reported in Tables 3-6 is the percentage rating that characteristic a minimum employment prerequisite. For example, if the typing speeds rated necessary for a clerk/receptionist are considered, three percent rated 30-39 words/minute as necessary, 38 percent rated 40-49 words/minute as necessary and 17 percent rated 50-59 words/minute as necessary. When aggregated, 55 percent (38% + 17%) rated typing at least 40-49 words/minute as necessary. A further aggregation reveals that 58 percent (3% + 38% + 17%) rated typing at least 30-39 words/minute as necessary. If percentages are not aggregated for these items in the rankings, the data can be misleading. This can be illustrated by comparing the necessary education for a clerk/receptionist (Appendix B) and an administrative assistant (Appendix B). Eighty-six percent of the employers considered a high school diploma necessary for a clerk/receptionist. For an administrative assistant, 65 percent considered a high school diploma necessary, 15 percent considered one

year of college (secretarial) necessary and 15 percent considered four years of college necessary. So 95 percent (65% + 15% + 15%) considered at least a high school diploma necessary. The 86% for a clerk/receptionist must be compared to 95% (not 65%) for an administrative assistant.

For each characteristic, the percentage rating the characteristic as necessary was added to the percentage rating it as desirable. These percentages indicate a different perspective of the characteristics that employers are looking for when hiring clerical staff. These characteristics ranked by the percentage of employers considering the skill, level of education or experience to be necessary and/or desirable are presented in Tables 7-10.

Clerk/receptionist

Employers rated the following as the three most necessary characteristics (Table 3):

- At least a high school diploma (86%)
- Telephone techniques (59%)
- Typing at least 30-39 words/minute (58%). At least 40-49 words/minute was specified by 55%.

Approximately one-third indicated they would hire someone with no experience.

When the percentage rating a characteristic as desirable is added to the percentage rating it as necessary, employers rated the following as the five most necessary or desirable characteristics (Table 7):

- High school diploma (89%)
- Telephone techniques (80%)
- Capable of setting up a filing system (69%)
- Alphabetic records management (66%)
- One to two years experience (62%)

Less than ten percent of the employers considered the following characteristics as necessary or desirable:

- Typing 70 or more words/minute
- Shorthand at 100 or more words/minute

- One semester or more of college accounting
- Six or more years experience
- Four or more years of college

Clerk/stenographer

Employers rated the following as the three most necessary characteristics

(Table 4):

- At least a high school diploma (92%)
- Typing at least 30-39 words/minute (72%). At least 40-49 words/minute was specified by 68% and at least 50-59 words/minute was specified by 56%
- At least one or two years experience (52%)

Approximately one-fifth of the employers indicated they would hire someone with no experience.

When the percentage rating a characteristic as desirable is added to the percentage rating it as necessary, employers rated the following as the five most necessary or desirable characteristics (Table 8):

- One or two years experience (84%)
- High school diploma (80%)
- Capable of setting up a filing system (80%)
- Telephone techniques (80%)
- Limited knowledge of ten-key adding machine (64%)

Less than ten percent of the employers considered the following characteristics as necessary or desirable:

- Typing 70 or more words/minute
- Two or more semesters of college accounting
- Six or more years experience
- Four or more years of college

Secretary

Employers rated the following as the five most necessary characteristics (Table 5):

- At least a high school diploma (83%). Sixteen percent considered at least two years of college (secretarial) necessary.
- At least one or two years experience (80%). Thirty-two percent considered at least three to five years experience necessary.
- Typing at least 30-39 words/minute (80%). Seventy-seven percent considered at least 40-49 words/minute necessary while 71 percent considered at least 50-59 words/minute necessary.
- Shorthand at least 40-59 words/minute (64%). Fifty-eight percent considered at least 60-79 words/minute necessary, 39 percent considered at least 80-99 words/minute necessary, and 10 percent considered 100 or more words/minute necessary.

Approximately ten percent will hire someone with no experience.

When the percentage rating a characteristic as desirable is added to the percentage rating it as necessary, employers rated the following as the five most necessary or desirable characteristics (Table 9):

- Capable of setting up a filing system (93%)
- Telephone techniques (84%)
- Alphabetic records management (78%)
- One or two years experience (67%)
- Numeric records management (65%)

Less than ten percent of the employers considered the following characteristics as necessary or desirable:

- Two or more semesters of college accounting
- Six years of college

Administrative Assistant

Employers rated the following as the five most necessary characteristics (Table 6):

- At least a high school diploma (95%). Thirty percent considered at least one year of college (secretarial) necessary and 15 percent considered at least four years of college necessary.

- At least one or two years experience (70%). Forty-five percent considered at least three to five years experience necessary and five percent considered at least ten years experience necessary.
- Capable of setting up a filing system (70%).
- Typing at least 30-39 words/minute (55%). Fifty percent considered at least 40-49 words/minute necessary, 45 percent considered at least 50-59 words/minute necessary, 15 percent considered at least 60-69 words/minute necessary and 10 percent considered at least 70 words/minute necessary.

Approximately five percent will hire someone with no experience.

When the percentage rating a characteristic as desirable is added to the percentage rating it as necessary, employers rated the following as the six most necessary or desirable characteristics (Table 10):

- Capable of setting up a filing system (100%)
- Telephone techniques (80%)
- Personnel management course (75%)
- Alphabetic records management (70%)
- Business Law I (65%)
- Three to five years experience (65%)

V. COMPARISON OF RESULTS FOR CLERICAL POSITIONS

Education

The employers considered at least a high school diploma to be the most necessary of all the specified characteristics for all four clerical positions. The percentage of employers considering at least a high school diploma necessary for each position were: clerk/receptionist (86%), clerk/stenographer (92%), secretary (83%) and administrative assistant (95%). The employers considered at least one year of college secretarial training progressively more necessary from the position of clerk/receptionist to that of administrative assistant.

These percentages were: clerk/receptionist (0%), clerk/stenographer (12%), secretary (22%) and administrative assistant (30%). There was a trend towards progressive emphasis on higher levels of education (2 years secretarial training and 4 years college) from the position of clerk/receptionist through administrative assistant. None of the employers considered six years of college necessary (Tables 3-6).

Experience

Employers considered at least one to two years experience necessary for the positions of clerk/stenographer (52%), secretary (80%) and administrative assistant (70%) but only 24 percent considered this level of experience necessary for a clerk/receptionist. At least three to five years experience was considered necessary by 32 percent of the employers for a secretary and 45 percent of the employers for an administrative assistant (Tables 3-6).

Typing

Employers considered the ability to type at least 30-39 words/minute to be a necessary skill for each of the clerical positions. These percentages were: clerk/receptionist (58%), clerk/stenographer (72%), secretary (80%) and administrative assistant (55%). The ability to type at rates faster than 30-39 words/minute was considered progressively more necessary for the positions of clerk/receptionist through secretary. For example, the ability to type at least 50-59 words/minute was considered necessary by 17 percent of the employers for a clerk/receptionist, by 56 percent for a clerk/stenographer, and by 71 percent for a secretary. The ability to type at least 50-59 words/minute was considered to be necessary for an administrative assistant by 45 percent of the employers (Tables 3-6).

Shorthand

The employers considered the ability to take shorthand at least 40-59 words/minute progressively more necessary from the position of clerk/receptionist

through secretary. These percentages were: clerk/receptionist (17%), clerk/stenographer (48%) and secretary (64%). The ability to take shorthand at least 40-59 words/minute was considered necessary by 25 percent of the employers for the administrative assistant. Shorthand rates faster than 40-59 words/minute were considered necessary by more employers for the position of secretary than for the other three positions (Tables 3-6).

Filing

The employers considered the capability of setting up a filing system as progressively more necessary from the position of clerk/receptionist to that of administrative assistant. The percentage of employers considering this skill necessary were: clerk/receptionist (14%), clerk/stenographer (36%), secretary (61%) and administrative assistant (70%).

Other Characteristics

Telephone technique skills were considered necessary by a large percentage of the employers for each of the four clerical positions. These skills were considered most necessary for a clerk/receptionist. The percentages were: clerk/receptionist (59%), clerk/stenographer (40%), secretary (55%) and administrative assistant (45%). At least limited knowledge of the ten-key adding machine was considered by employers to be relatively more necessary for the positions of clerk/stenographer and administrative assistant (52% and 35% respectively) than for the positions of clerk/receptionist and secretary (17% and 24% respectively). A relatively low percentage of the employers considered courses in high school bookkeeping, college accounting, personnel management and Business Law I necessary. In each case, the percentage of the employers considering these courses necessary was highest for the administrative assistant.

VI. OTHER SURVEY FINDINGS

Entry Level Salary

Average monthly entry level salaries for the four clerical positions in the surveyed businesses were as follows: clerk/receptionist (\$454), clerk/stenographer (\$465), secretary (\$509) and administrative assistant (\$628). These results are presented in Table 1 together with the low, high and median monthly entry level salaries for each position.

Personality Traits

The employers were asked to select from a list the five most important qualities looked for in an applicant for a clerical job. The five personality traits selected most often and the percentage of the employers selecting them were: effective communications (78%), attitude (76%), intelligence (70%), appearance (54%) and maturity (49%). Four personality traits not included in the survey list were written in by employers. These four qualities and the percentage of employers suggesting them were: dependability (5%), punctuality (5%), compatibility (5%) and absence record (3%). Since these traits were written in, the relatively low percentage of employers associated with them may not reflect the actual percentage of the employers considering these traits important. More complete data on this survey item are presented in Table 2.

Certified Professional Secretaries

Only 25 percent of the employers were familiar with the term Certified Professional Secretary. None of the employers responded that they currently employ certified professional secretaries. Nineteen percent were unsure and 81 percent responded that they did not currently employ anyone with a CPS rank. Seventeen percent of the employers responded that they would prefer an applicant to have attained a CPS rank. Forty-two percent did not know while forty-one percent were sure they would not prefer an applicant with a CPS rank. Twenty-nine

percent of the employers responded that they would offer a CPS a higher salary in contrast to an applicant without a CPS rank. Twelve percent of the employers did not know, while 59% were sure a CPS would not be offered a higher salary than an applicant without a CPS rank.

VII. SUMMARY

Thirty-seven employers of clerical personnel were surveyed to determine necessary skills, education and experience for the positions of clerk/receptionist, clerk/stenographer, secretary and administrative assistant. Students in the spring 1974 JCCC Secretarial Field Study course conducted the interviews. The results suggest that at least a high school diploma, typing speed and one to two years of experience are considered necessary by a high percentage of the employers for all four clerical positions. Other characteristics such as capability of setting up a filing system, telephone technique, courses in bookkeeping, Business Law I and personnel management were considered more necessary for some positions than others.

Only a small percentage of the employers are familiar with the rank of Certified Professional Secretary. The data obtained in the survey indicated that 75 percent were not familiar with the term. Employers need to be made more aware of the rank and the skills possessed by a Certified Professional Secretary. Although 59% responded that they would not offer a higher salary to an individual with a CPS rank, 29% would pay more and 12% did not know. It may be concluded that some employers are interested in hiring Certified Professional Secretaries. The data in this study also indicate that many employers put more emphasis on experience than on education beyond one year of college (secretarial). Some positions require two or more years of college but they seem to be in the minority.

VIII. RECOMMENDATIONS

Based on this study and earlier research, the following two recommendations are made:

- After determining the feasibility of augmenting the current two-year program, the secretarial staff should begin planning for the development of a shortened program.
- If the secretarial staff feel that the rank of Certified Professional Secretary (CPS) is worthwhile, employers in the southern metropolitan Kansas City area need to be made aware of the skills possessed by a secretary with the rank of a CPS.

Students conducting interviews in future surveys should be referred to as "representatives of the college" rather than students. Employers may be more responsive and willing to be of assistance. Secondly, the interviewer should make the initial contact in person, not by telephone. It is easier to refuse an interview over the telephone than in person.

TABULAR DATA

TABLE 1

ENTRY LEVEL MONTHLY SALARY DATA FOR FOUR OFFICE JOBS

Job	Low	High	Average	Median
Clerk/Receptionist	\$305	\$675	\$454	\$405
Clerk/Stenographer	325	740	465	450
Secretary	325	750	509	500
Administrative Assistant	350	1000	628	600

TABLE 2

PERSONALITY TRAITS MOST
VALUED BY EMPLOYERS

<u>Personality Traits</u>	<u>Percentage of Employers Responding</u>
Effective Communications	78%
Attitude	76%
Intelligence	70%
Appearance	54%
Maturity	49%
Tactfulness	38%
Grooming	32%
Loyalty	24%
Sense of Humor	16%
Voice Quality	16%
Earnestness	14%
Others: (suggested by the surveyed employers)*	
Dependability	5%
Punctuality	5%
Compatability	3% ▲
Absence Record	3%

* Since these traits were written in, the relatively low percentage of employers associated with them may not reflect the actual percentage of the employers considering these traits important.

Note.--Employers were requested to select the five most important personality traits looked for during the first interview.

TABLE 3

SKILLS, LEVELS OF EDUCATION AND EXPERIENCE
RANKED BY PERCENTAGE OF EMPLOYERS
WHO CONSIDERED THEM NECESSARY
FOR A CLERK/RECEPTIONIST

Characteristics	Percentage of Employers Considering Necessary
At least a high school diploma	86%
Telephone technique	59%
Typing at least 30-39 words/min.	58%
Typing at least 40-49 words/min.	55%
Records management - alphabetic	38%
0 years experience	34%
Switchboard	31%
At least 1-2 years experience	24%
Records management - numeric	21%
Typing at least 50-59 words/min.	17%
Ten-key - at least limited knowledge	17%
Shorthand - at least 40-49 words/min.	17%
Records management - subject	17%
Capable of setting up filing system	14%
At least high school bookkeeping	13%
Shorthand - at least 60-79 words/min.	10%
Ten-key proficiency	10%
Transcribing machine training	10%
Shorthand - at least 80-89 words/min.	10%
Records management - geographic	7%
At least 1 semester college accounting	6%
MTST training	5%
Data base filing	3%
At least 2 semesters college accounting	3%
Duplicating machine training	1%
More than 2 semesters college accounting	0%
At least 3-5 years experience	0%
Personnel management course	0%
Business Law I	0%
Typing at least 60-69 words/min.	0%
Mag card training	0%
At least 1 year college (secretarial)	0%
At least two years college (secretarial)	0%
Shorthand 100+ words/min.	0%
Typing 70+ words/min.	0%
At least 6-9 years experience	0%
10 years experience	0%
At least 4 years college	0%
6 years college	0%

Note.--For typing speed, shorthand speed, ten-key skills, accounting courses, education and experience the percentage reported is the percentage requiring that characteristic as minimal. For example, consider the typing speeds rated necessary for a clerk/receptionist (Appendix B). Three percent rated 30-39 words/minute as necessary, 38 percent rated 40-49 words/minute as necessary and 17 percent rated 50-59 words/minute as necessary. When aggregated, 55 percent (38% + 17%) rated typing at least 40-49 words/minute as necessary. A further aggregation reveals that 58 percent (3% + 38% + 17%) rated typing at least 30-39 words/minute as necessary.

TABLE 4

SKILLS, LEVELS OF EDUCATION AND EXPERIENCE
RANKED BY PERCENTAGE OF EMPLOYERS
WHO CONSIDERED THEM NECESSARY
FOR A CLERK/STENOGRAPHER

Characteristics	Percentage of Employers Considering Necessary
At least a high school diploma	92%
Typing at least 30-39 words/min.	72%
Typing at least 40-49 words/min.	68%
Typing at least 50-59 words/min.	56%
At least 1-2 years experience	57%
Shorthand - at least 40-59 words/min.	48%
Records management - alphabetic	44%
Telephone techniques	40%
Capable of setting up filing system	36%
Transcribing	36%
Shorthand - at least 60-79 words/min.	36%
Records management - numeric	32%
Ten-key - at least limited knowledge	24%
Duplicating machine training	24%
0 years experience	20%
Records management - subject	16%
Typing at least 60-69 words/min.	16%
Shorthand - at least 80-89 words/min.	16%
High school bookkeeping	16%
At least 1 year college (secretarial)	12%
Switchboard	8%
At least 3-5 years experience	8%
Records management - geographic	8%
MTST training	8%
At least 1 semester college accounting	4%
At least 2 years college (secretarial)	4%
Mag card training	4%
Records management - data base filing	4%
Shorthand 100+ words/min.	4%
Personnel management course	0%
Ten-key proficiency	0%
Business Law I	0%
Typing - 70+ words/min.	0%
At least 2 semesters college accounting	0%
At least 6-9 years experience	0%
10+ years experience	0%
More than 2 semesters college accounting	0%
At least 4 years of college	0%
6 years of college	0%

Note.--For typing speed, shorthand speed, ten-key skills, accounting courses, education and experience the percentage reported is the percentage considering that characteristic a prerequisite. For example, consider the levels of education rated necessary for a clerk/stenographer (Appendix B). Eighty percent rated a high school diploma as necessary, 8 percent rated 1 year of college (secretarial) as necessary, and 4 percent rated 2 years of college (secretarial) as necessary. When aggregated, 12 percent (8% + 4%) rated at least 1 year of college (secretarial) as necessary. A further aggregation reveals that 92 percent (80% + 8% + 4%) consider at least a high school diploma as necessary.

TABLE 5

SKILLS, LEVELS OF EDUCATION AND EXPERIENCE
RANKED BY PERCENTAGE OF EMPLOYERS
WHO CONSIDERED THEM NECESSARY
FOR A SECRETARY

Characteristics	Percentage of Employers Considering Necessary
At least a high school diploma	83%
At least 1-2 years experience	80%
Typing at least 30-39 words/min.	80%
Typing at least 40-49 words/min.	77%
Typing at least 50-59 words/min.	71%
Shorthand - at least 40-59 words/min.	64%
Capable of setting up filing system	61%
Shorthand - at least 60-79 words/min.	58%
Telephone technique	55%
Records management - alphabetic	55%
Ten-key - at least limited knowledge	52%
Records management - numeric	42%
Typing at least 60-69 words/min.	42%
Shorthand - at least 80-99 words/min.	39%
At least high school bookkeeping	32%
At least 3-5 years experience	32%
Transcribing machine training	29%
Duplicating machine training	29%
Ten-key proficiency	23%
Records management - subject	23%
At least 1 year college (secretarial)	22%
Switchboard	20%
Records management - geographic	19%
At least 2 years college (secretarial)	16%
Typing 70+ words/min.	13%
At least 6-9 years experience	13%
0 years experience	10%
Shorthand - 100+ words/min.	10%
Mag card training	6%
Business Law I	6%
At least 1 semester college accounting	6%
At least 2 semesters college accounting	6%
More than 2 semesters college accounting	3%
At least 4 years of college	3%
MTST training	3%
Personnel management course	3%
Records management - data base filing	3%
6 years college	0%
10+ years experience	0%

Note.--For typing speed, shorthand speed, ten-key skills, accounting courses, education and experience the percentage reported is the percentage considering that characteristic a prerequisite. For example, consider the level of ten-key skill rated necessary for a secretary (Appendix B). Twenty-nine percent rated limited knowledge of ten-key as necessary and 23 percent rated proficiency of ten-key as necessary. When aggregated 52 percent (29% + 23%) rated at least limited knowledge of ten-key as necessary.

TABLE 6

SKILLS, LEVELS OF EDUCATION AND EXPERIENCE
RANKED BY PERCENTAGE OF EMPLOYERS WHO
CONSIDERED THEM NECESSARY FOR
AN ADMISISTRATIVE ASSISTANT

Characteristics	Percentage of Employers Considering Necessary
At least a high school diploma	95%
At least 1-2 years experience	70%
Capable of setting up a file system	70%
Typing at least 30-39 words/min.	55%
At least high school bookkeeping	55%
Typing at least 40-49 words/min.	50%
At least 3-5 years experience	45%
Typing at least 50-59 words/min.	45%
Telephone technique	40%
Ten-key - at least limited knowledge	35%
Personnel management course	35%
Records management - alphabetic	35%
Records management - numeric	30%
At least 1 semester college accounting	30%
At least 1 year college (secretarial)	30%
Shorthand - at least 40-59 words/min.	25%
Ten-key proficiency	25%

More than 2 semesters college accounting	15%
At least 2 years of college (secretarial)	15%
At least 4 years college (secretarial)	15%
Typing 70+ words/min.	10%
Mag card training	10%
Records management - data base filing	10%
At least 6-9 years experience	10%
Shorthand - at least 80-99 words/min.	5%
10+ years experience	5%
0 years experience	5%
Shorthand 100+ words/min.	0%
Switchboard	0%
MTST	0%
6 years college	0%

Note.--For typing speed, shorthand speed, ten-key skills, accounting courses, education and experience the percentage reported is the percentage considering that characteristic a prerequisite. For example, consider the levels of shorthand speed rated necessary for an administrative assistant (Appendix B). Five percent rated 40-59 words/minute as necessary, 15 percent rated 60-79 words/minute as necessary and 5 percent rated 80-99 words/minute as necessary. When aggregated, 20 percent (5% + 15%) rated shorthand at least 60-79 words/minute as necessary. A further aggregation reveals that 25 percent (5% + 15% + 5%) rated shorthand at least 40-59 words/minute as necessary.

 EMPLOYER OPINIONS CONCERNING CERTIFIED
 PROFESSIONAL SECRETARIES

<u>Item</u>	<u>Percentage</u>
Familiar with term Certified Professional Secretary (CPS):	
Yes	25%
No	75%
Have Certified Professional Secretaries in organization:	
Yes	0%
No	81%
Don't know	19%
Would prefer applicant to have attained rank of CPS:	
Yes	17%
No	41%
Don't know	42%
If applicant with a CPS were available, would offer such an individual a higher salary in contrast to an applicant without a CPS rank:	
Yes	29%
No	59%
Don't know	12%

APPENDIX A

1. Letter to Employers
2. Survey Instrument

We are in the process of evaluating the secretarial curriculum at Johnson County Community College and would appreciate your advising us of the current job requirements for your office personnel.

Within the next two weeks, a student in our secretarial program will be contacting you. The student will set up an appointment at your convenience. She will ask you to complete a survey form regarding job requirements for office personnel. This will take approximately 20 minutes of your time.

If there is another individual who is in charge of hiring office personnel, we would appreciate your directing the student to the individual who has that responsibility.

We sincerely appreciate your cooperation in helping to complete this survey. Thank you.

Sincerely yours,

Dr. Robert G. Harris
President

SECRETARIAL CAREERS SURVEY
JOHNSON COUNTY COMMUNITY COLLEGE

Please answer the following questions.

1. Number of clerical/office personnel in your organization

_____ 0-9 _____ 10-19 _____ 20-29 _____ 30-39 _____ 40-49 _____ 50+

2. Please indicate the monthly entry level salary for the following jobs.

Clerk/receptionist \$ _____

Clerk/stenographer \$ _____

Secretary \$ _____

Administrative Assistant \$ _____

3. Personality Traits

Please check the five most important personality traits you look for during the first interview.

- a. Grooming _____
- b. Tactfulness _____
- c. Appearance _____
- d. Effective Communications _____
- e. Self Confidence _____
- f. Attitude _____
- g. Maturity _____
- h. Voice Quality _____
- i. Earnestness _____
- j. Sense of Humor _____
- k. Loyalty _____
- l. Intelligent _____
- m. Others _____

Certified Professional Secretary

Are you familiar with the term of Certified Professional Secretary?

Yes _____ No _____

Do you have any Certified Professional Secretaries currently in your organization?

Yes _____ No _____ Unknown _____

Would you prefer an applicant to have attained the rank of Certified Professional Secretary:

Yes _____ No _____ Unknown _____

If an applicant with a CPS were available, would you offer such an individual a higher salary in contrast to an applicant without a CPS rank?

Yes _____ No _____

Additional Comments:

Other desired courses you feel an applicant should have:

Thank you for your time and effort.

DESCRIPTIONS OF OCCUPATIONS

Clerk/receptionist--Receives clients or customers coming into establishment, ascertains their wants, and directs them accordingly. May perform variety of clerical duties. May collect and distribute mail and messages.

Clerk/stenographer--Takes dictation in shorthand of correspondence, reports, and other matter, and transcribes dictated material, using typewriter. Performs variety of clerical duties. May transcribe material from sound recordings.

Secretary--Schedules appointments, gives information to callers, takes dictation. Reads and routes incoming mail. Locates and attaches appropriate file to correspondence to be answered by employer. Takes dictation in shorthand, transcribes. Composes and types routine correspondence. Files. Answers telephone and gives information to callers or routes call to appropriate official and places calls. Schedules appointments, greets visitors, and conducts visitors to employer. May arrange travel, compile and type statistical reports, supervise clerical workers, may keep personnel records, and record minutes of staff meetings.

Administrative Assistant--Aids executive by coordinating office services, such as personnel, budget preparation and control, housekeeping, records control, and special management studies. Studies management methods in order to improve workflow, simplify reporting procedures, or implement cost reductions. Analyzes operating practices, such as recordkeeping systems, forms control, office layout, suggestion systems, personnel requirements, and performance standards, to create new systems or revise established procedures. May assist in preparation of budget needs and annual reports of organization.

Note--These definitions of the four clerical positions accompanied the survey instrument.
