IDENTIFIERS South Carolina

ABSTRACT

This is the 1974 report of progress toward the 11 major objectives included in the five-year plan adopted by the State department of education in 1970. Separate sections are devoted to each of the major objectives: reducing the number of school dropouts, reducing the number of first grade failures, implementing a statewide kindergarten system, improving students' basic verbal and quantitative skills, providing adequate occupational training opportunities, increasing the number of high school graduates in postsecondary education programs, providing adequate educational programs for handicapped students, increasing adult enrollment in basic and secondary educational programs, assuring availability of qualified school personnel, annually assessing educational quality in each school district, and implementing a specified minimum program in each school district. Each section describes in great detail specific subgoals, current activities and achievements, and planned steps toward one of the major objectives on a year-by-year basis from 1971-72 through 1975-76. SOUTH CAROLINA'S FIVE YEAR PLAN FOR

CONTINUOUS UPGRADING OF EDUCATION

Philosophy, State Board of Education The Board, therefore, believes that there should be a five-year plan for educational improvement, prudent use of the State's financial resources and continuous leadership in means of improvement. The Board believes that the continuous upgrading of education requires careful planning, prudent use of the State's financial resources and continuous leadership in means of improvement.

THE FIVE YEAR PLAN

As early as 1967, the South Carolina State Board of Education demonstrated an interest in a statewide system which could be used to inform the public and the Legislature of the educational progress within the State. That year, the Board adopted the "Statement of Educational Philosophy." Contained within this philosophy is the following:

"The Board looks to the Superintendent as its primary educational leader for evaluating public education, developing plans for its improvement for Board consideration, providing aid to local school districts to assist in educational improvements, and developing short and long-range plans for educational advancement in the State.

The Board's Philosophy also included a mandate for a five year educational plan.

"The Board believes that the continuous upgrading of education requires careful planning, prudent use of the State's financial resources, and continuous leadership in the means of improvement. The Board, therefore, believes that there should be a five year plan for educational improvement developed by the Superintendent and approved by the Board after open hearings on it. This five year plan should be updated each year as a new year is added, and it should constitute the Board's primary means of communicating its programs and financial costs to the public and the Legislature."

The five year plan was to be based on an educational assessment of the State and the resulting identified needs.

In 1968, the State Department of Education began a comprehensive study to identify the educational needs in South Carolina through its involvement in the ESEA Title III program. The Department and the Committee on Educational Research, School of Education, University of South Carolina, developed two related models for the evaluation of public education in the State. The models were utilized to identify educational needs and to establish priority rankings of the identified needs.

The findings of the needs assessment and additional facts about the educational system were utilized by staff members in the Department to develop a proposed set of long-range educational objectives for South Carolina. These objectives were presented to the Board for consideration and on May 8, 1970, the Board adopted "South Carolina Educational objectives for 1975."

Department Planning Committees were established and plans were developed to meet eight of the Eleven Major Objectives. In 1971, the Board adopted Five Year Plans for each of the eight objectives. Planning Committees were then established for the remaining three major objectives and each Committee prepared a proposed plan to meet the objective. The three plans were submitted to the Board and approved in February 1973.

Each of the plans is updated during the Department's yearly planning cycle which begins in March and ends in June. Planning Committees for each of the major objectives are re-activated and the Five Year Plans are updated for the next two fiscal years. The scheduling of the Department's planning cycle is designed to complement the Department's budget development cycle and the subsequent review and approval of the budget by the Board.

REDUCE DROPOUTS 50%

TO REDUCE THE NUMBER OF DROPOUTS BY AT LEAST 50 PERCENT BY 1975

FIVE YEAR PLAN (Adopted by State Board in 1971)		1971-72	1972-73	1973-74	1974-75	1975-76
		16,500 to 14,025	14,025 to 11,550	11,550 to 9,900	9,900 to 9,075	9,075 to 8,250

FIRST YEAR DATA

1970-71		1971-72	
Old Status	Revised Old Status	Criterion	Status Adjusted
16,500	13,096	14,025	12,800
			7,042

Adjusted status according to new definition, i.e., a pupil who leaves school for any reason, except death, before graduation or completion of a program of studies and without transferring to another school. The figure includes summer dropouts.

Status determined by comparing the 180-day enrollment data of 1970-71 with the 180-day enrollment data of 1971-72 and adjusting it on the basis of non-public school enrollment differences. Essentially, the figure shows the "holding power" of the system.

Established in Five Year Plan

Old Status determined by comparing the 180-day enrollment data of 1969-70 with the 180-day enrollment data of 1970-71 and adjusting it on the basis of non-public school enrollment differences. Essentially, the figure shows the "holding power" of the system.

Estimated by comparing 10-day enrollment reports for 1969-70 with 10-day enrollment reports for 1970-71.

ADJUSTED SECOND YEAR OBJECTIVE

1971-72
7,042 to 6,644

SECOND YEAR DATA

1971-72	1972-73	
Status	Criterion	Status
7,042	6,644	7,107

ADJUSTED THIRD YEAR OBJECTIVE

1973-74
7,107 to 5,906

Preliminary third year data reports indicate that the 1973-74 yearly objective will not be met. (1973-74 status figure is projected to be 7,198.) Therefore, the following yearly objectives are adjusted to reflect this preliminary status figure.

RECOMMENDED YEARLY OBJECTIVES FOR FY 75, FY 76, FY 77

1974-75	1975-76
7,198 to 7,100	7,100 to 7,013

1976-77
7,013 to 6,854

NOTE: The yearly objectives were determined in the following manner:

<u>Year</u>	<u>Yearly Objective</u>	<u>Procedure</u>
1974-75	7,198 to 7,100	7,100 is 5.00% of projected enrollment of 142,007 for grades 9, 10 and 11
1975-76	7,100 to 7,013	7,013 is 4.95% of projected enrollment of 141,679 for grades 9, 10 and 11
1976-77	7,013 to 6,854	6,854 is 4.90% of projected enrollment of 139,884 for grades 9, 10 and 11

Major Objective: To Reduce the Number of Dropouts

In South Carolina Public Schools

Objective for 1974-75: To reduce the anticipated number of dropouts in Grades 9-11 from 7,198 to 7,100 by the completion of the 1974-1975 school year. (This number will represent a dropout rate of 5.00% of the anticipated total enrollment for these grades)

↑ Estimates based on measurements taken at the beginning of the 1971-72 school year

In May 1973, the State Board of Education approved the recommendation of the Department that the yearly objectives for the Basic Skills plan be restated in terms of "percentage of students" rather than "number of students" scoring in the lowest quartile in basic verbal and quantitative skills. Therefore, the following data and revised yearly objective reflect this change.

Major Objective: Each student will develop the knowledge,

skills and attitudes necessary for basic scientific and environmental literacy.

Objective for 1975-76. By 1976, the percentage of 16 year old students who demonstrate knowledge of basic scientific concepts and the ability to apply this knowledge to solve basic scientific problems and to make decisions scientifically will increase by a factor of .33 (80-X).

Sub-Objective (optional): percentage of 16 year olds who demonstrated knowledge and ability in this area in 1975 and the increase is to be referenced to X.

Estimated Total Cost: \$2,420

In May 1973, the State Board of Education approved the recommendation of the Department that, beginning with the third year, the yearly objectives be expanded to include consumer and homemaking programs, i.e., to increase the number of students enrolled in pre-vocational, occupational, and consumer and homemaking programs.

The figures included in the yearly objectives for FY 75, FY 76, FY 77, and FY 78 are increased as a result of the addition of the new programs.

ADJUSTED THIRD YEAR OBJECTIVE

1973-74
103,494 to 111,538

Preliminary third year data reports indicate that the 1973-74 yearly objective will not be met. (1973-74 status figure is projected to be 105,794.) Therefore, the following yearly objectives are adjusted to reflect this preliminary status figure.

RECOMMENDED YEARLY OBJECTIVES FOR FY 75, FY 76, FY 77, FY 78

1974-75	1975-76
105,794 to 111,538	111,538 to 117,959

COMPREHENSIVE PROGRAM FOR THE HANDICAPPED

BEST COPY AVAILABLE

**TO DEVELOP AN ADEQUATE EDUCATIONAL PROGRAM FOR YOUTH WITH PHYSICAL, MENTAL, OR EMOTIONAL HANDICAPPING CONDITIONS
BY 1975**

FIVE YEAR PLAN (Adopted by State Board in 1971)		1971-72	1972-73	1973-74	1974-75	1975-76
		29,430 to 36,450	36,450 to 53,550	53,550 to 70,550	70,550 to 86,450	86,450 to 104,000

FIRST YEAR DATA

1970-71	1971-72		
Old Status	Criterion	Status	Adjusted
30,152	36,450	35,256	33,454

Adjusted status indicates number of students participating in a program for handicapped students and was based on new definition and data collection procedures (Data include students assigned to a self-contained special education classroom and handicapped students assigned full-time to regular classes).

Estimate of the number of students participating in a program of handicapped students based on the number of special education teachers in 1971-72 and number of speech handicapped students.

Established in Five Year Plan

In re-examination of the old status figure, the number of students participating in a program for handicapped students (based on the number of special education teachers in 1970-71 and number of speech handicapped students) was estimated to be 30,152 rather than 29,430.

1972-73
33,454 to 53,550

SECOND YEAR DATA

1972-73	
1971-72	1972-73
Status	Criterion Status
33,454	53,550 42,064

Below goal by 11,486

In May 1973, the State Board of Education approved the recommendation of the Department that, beginning with the third year the data totals for students enrolled in programs for the handicapped exclude students assigned full-time to regular classrooms receiving preferential treatment (special seating, etc.). In addition, new programs for deaf-blind students have been instituted and there is a projected increase in programs for the visually handicapped student.

The figures included in the yearly objectives for FY 75, FY 76, FY 77, and FY 78 are adjusted to reflect these changes.

ADJUSTED THIRD YEAR OBJECTIVE

1973-74
42,064 to 60,184

Preliminary third year data reports indicate that the 1973-74 yearly objective will not be met. (1973-74 status figure is projected to be 51,031). Therefore, the following yearly objectives are adjusted to reflect this preliminary status figure.

RECOMMENDED YEARLY OBJECTIVES FOR FY 75, FY 76, FY 77, FY 78

1974-75	1975-76
51,031 to 61,237	61,237 to 73,484

TO DEVELOP AND MAINTAIN A SYSTEM OF CONTINUOUS EVALUATION AND UPGRADING OF EDUCATION

- FIVE YEAR PLAN**
(Adopted by State Board in 1973)
- 1971-72:** To design and develop a method and model to be used in establishing a system for the annual evaluation of educational quality in each school district of the state
- 1972-73:** To design and field test a comprehensive plan for educational evaluation for the state of South Carolina by June 30, 1973
- 1973-74:** To implement the comprehensive statewide plan for educational evaluation during the 1973-74 school year
- 1974-75:** To implement the comprehensive statewide plan for educational evaluation during the 1974-75 school year
- 1975-76:** To implement the comprehensive statewide plan for educational evaluation during the 1975-76 school year

333

FIRST YEAR ASSESSMENT Method and model was designed and developed to establish a system for annual evaluation

ADJUSTMENT TO SECOND YEAR OBJECTIVE None

SECOND YEAR ASSESSMENT Selected components of the comprehensive plan for educational evaluation have been designed and field tested

ADJUSTMENT TO THE THIRD YEAR OBJECTIVE To continue to design, field test, and implement a comprehensive plan for educational evaluation during the 1973-74 school year

BEST COPY AVAILABLE

RECOMMENDATIONS TO ALTER
OBJECTIVES FOR FY 75, FY 76

1974-75:

To continue to implement the comprehensive statewide plan for educational evaluation during the 1974-75 school year by increasing the number of measurement points assessed

1975-76:

To continue to implement the comprehensive statewide plan for educational evaluation during the 1975-76 school year by increasing the number of measurement points assessed
