ABSTRACT

This is the first annual report to the Board of Regents from the Commissioner of Higher Education. The purpose of the report is to provide the Board of Regents with comprehensive information on programs and policies of the six institutions of the Montana University System: University of Montana at Missoula, Montana State University at Bozeman, Montana College of Mineral Science and Technology at Butte, Western Montana College at Dillon, Eastern Montana College at Billings, and Northern Montana College at Havre. The report includes financial and enrollment data; information on each of the six units; and information on federal programs, student financial aid, and various special projects. It also includes general information on changes in board policy, legal activities involving the Office of the Commissioner legislation that has affected higher education during the previous year, and moves toward increasing cooperation and effectiveness of the units of the system. SENT OFFICIAL NATIONAL INSTITUTE OF
EDUCATION POSITION OR POLICY.

BOARD OF REGENTS OF HIGHER EDUCATION

The Board of Regents of Higher Education is charged by Article X, Section 9 of the Montana Constitution with full responsibility for supervising, coordinating, managing and controlling the Montana University System.

The Board is also commanded by Article X, Section 9 to appoint a Commissioner of Higher Education and prescribe his term and duties.

General statutory references to the responsibilities of the Regents and the general operation of the Montana University System are found in Chapters 84, 85, 86, 87 and 88 of Title 75 of the Revised Codes of Montana, 1947.

Members of the Board of Regents are appointed by the Governor:

<u>OFFICER</u>	<u>TERM OF OFFICE</u>	<u>HOME ADDRESS</u>
Ted James, Chairman	7-1-73 to 2-1-79	P.O. Box 1346, Great Falls
Mary Pace, Vice-Chairman	7-1-73 to 2-1-78	1005 W. Durston Road, Bozeman
Lewy Evans, Jr.	7-1-73 to 2-1-75	1224 Poly Drive, Billings
John French	7-1-73 to 2-1-75	2601 K Street, Ronan
Gary Gallagher	7-1-73 to 2-1-80	3220 Old Pond Drive, Missoula
T. T. Heberly	7-1-73 to 2-1-77	1170 Oak Drive, Havre
Wayne O'Brien *	7-1-73 to 2-1-75	1306 East Park Place, Butte
<u>EX OFFICIO MEMBERS</u>		
Governor Thomas L. Judge	7-1-73 to 1-1-77	2 Carson Street, Helena
Dolores Colburg, Superintendent of Public Instruction	7-1-73 to 1-1-77	P.O. Box 992, Helena
Lawrence K. Pettit, Commissioner of Higher Education	7-1-73	109 South Montana, Helena

* Resigned, September, 1974. Replaced by Sid R. Thomas,
315 So. 14th Ave., Bozeman, Montana

THE MONTANA UNIVERSITY SYSTEM

The Montana University System is comprised of six institutions—University of Montana at Missoula, Montana State University at Bozeman, Montana College of Mineral Science and Technology (commonly called Montana Tech) at Butte, Western Montana College at Dillon, Eastern Montana College at Billings and Northern Montana College at Havre.

Full constitutional authority to manage, control and supervise these institutions is vested in the Board of Regents of Higher Education, whose policy and authority are administered by its agent and chief executive officer of the system, the Commissioner of Higher Education. The Commissioner's office is located at 1231 Eleventh Avenue in Helena.

The immediate administration of each institution is vested in the unit's president. There is also a local three-member Executive Board for each institution appointed by the Governor and confirmed by the Board of Regents.

Each institution of the Montana University System is co-educational. They vary in size from approximately 700 to 8,500 students. All units operate on a quarter basis with the exception of Montana College of Mineral Science and Technology, which operates on a semester basis.

INSTITUTIONS OF THE MONTANA UNIVERSITY SYSTEM

Name: MONTANA STATE UNIVERSITY

Founded: February 16, 1893
Location: Bozeman, Montana 59715
President: Dr. Carl W. McIntosh
Enrollment 1973-74: 8,025
Degrees Granted 1973-74: 1,680
Academic Personnel: 496
Professional Personnel: 132
Classified Personnel: 661
Student/Faculty Ratio: 18.3/1

Local Executive Board: Mrs. Donald Nash
Russell S. Rehm
William McGinley

Operating Budget 1973-74:

General Fund \$8,077,122
Total **\$13,494,845

Name: UNIVERSITY OF MONTANA

Founded: February 17, 1893
Location: Missoula, Montana 59801
President: Dr. Richard C. Bowers
Enrollment 1973-74: 8,468
Degrees Granted 1973-74: 2,226
Academic Personnel: *515
Professional Personnel: *106
Classified Personnel: *591
Student/Faculty Ratio: 18.6/1

Local Executive Board: Arthur Deschamps, Jr.
Mrs. Robert E. Haugen
Alex M. Stepanzoff

Operating Budget 1973-74:

General Fund \$ 8,167,083
Total **\$14,419,556

*Includes part-time appointments.
**Does not include scholarships and fellowships.

Name: WESTERN MONTANA COLLEGE
Founded: February, 1893
Location: Dillon, Montana 59725
President: Dr. James E. Short
Enrollment 1973-74: 700
Degrees Granted 1973-74: 268
Academic Personnel: *38
Professional Personnel: *12
Classified Personnel: *24
Student/Faculty Ratio: 13.9/1
Local Executive Board: Carl M. Davis
Frank M. Davis
James W. Flynn

Operating Budget 1973-74:

General Fund \$ 805,263
Total **\$1,267,917

Name: MONTANA COLLEGE OF MINERAL SCIENCE
AND TECHNOLOGY (MONTANA TECH)
Founded: February, 1893
President: Dr. Fred W. DeMoney
Enrollment 1973-74: 647
Degrees Granted 1973-74: 123
Academic Personnel: *50
Professional Personnel: *6
Classified Personnel: *105
Student/Faculty Ratio: 14/1
Local Executive Board: Walter L. Nelson
John W. Whelan
Blanche A. Copenhaver

Operating Budget 1973-74:

Total **\$1,413,721

* Includes part-time appointments.

**Does not include scholarships and fellowships.

Name: EASTERN MONTANA COLLEGE
Founded: March 12, 1927
Location: Billings, Montana 59101
President: Dr. Stanley J. Heywood
Enrollment 1973-74: 2,757
Degrees Granted 1973-74: 655
Academic Personnel: *137
Professional Personnel: *28
Classified Personnel: *174
Student/Faculty Ratio: 18.4/1

Local Executive Board: Vera Gerke
James E. Edwards
Gene A. Tuma

Operating Budget 1973-74:

General Fund \$2,582,857
Total **\$4,126,536

Name: NORTHERN MONTANA COLLEGE
Founded: March, 1929
Location: Havre, Montana 59501
President: Dr. Joseph R. Crowley
Enrollment 1973-74: 1,069
Degrees Granted 1973-74: 154
Academic Personnel: *74
Professional Personnel: *17
Classified Personnel: *62
Student/Faculty Ratio: 14.3/1

Local Executive Board: Sylvia Kafka
Peter Hamilton
Elizabeth Jergeson

Operating Budget 1973-74:

General Fund \$1,308,948
Total **\$1,982,288

* Includes part-time appointments.

**Does not include scholarships and fellowships.

OFFICE OF THE COMMISSIONER OF HIGHER EDUCATION

Commissioner of Higher Education: Lawrence K. Pettit, Ph.D.

The Commissioner of Higher Education shall execute and administer the policies, decisions and rules of the Board of Regents. He shall exercise control, consonant with general Board policies, over inter-unit matters, including those pertaining to budgets, curriculum, research and extension activities. The status of the Commissioner shall be considered to be at a level equal to that of the presidents, except that he shall be regarded as the agent of the Board in securing, through the presidents, the implementation and observance of Board policy.

Deputy Commissioner for Planning and Research: William J. Lannan

The Deputy Commissioner for Planning and Research is responsible for administering and coordinating all federal programs relative to higher education. He maintains and coordinates enrollment data for the Montana University System. He is responsible for facilities planning and projections of future requirements for physical plant and staff.

Deputy Commissioner for Management and Fiscal Affairs: John H. Noble

The Deputy Commissioner for Management and Fiscal Affairs is responsible for the preparation of all budget materials. He maintains financial information for the Montana University System and coordinates financial reports on all aspects of the System. He develops the formula by which budget appropriation requests are determined. He compiles statistical reports and analyses. He also administers various student financial aid programs.

Staff Counsel: Barry L. Hjort

The staff counsel serves as legal consultant and representative for the Commissioner of Higher Education and the Montana University System in all matters requiring litigation or legal interpretation. The main areas of attention are collective bargaining, contracts, union negotiations, faculty tenure and salary questions, discrimination questions, etc. He also conducts legal research and prepares reports on various subjects relative to higher education.

Administrative Assistant: Sherry S. Matteucci

The administrative assistant serves as aide to the Commissioner in whatever area he may designate. She conducts research and prepares reports on special projects. She coordinates news releases, bulletins and edits the Montana University System Newsletter. She may serve as the Commissioner's representative in his absence. She has been assigned responsibility for special projects in health care education and in ethnic education.

SIGNIFICANT CHANGES IN BOARD POLICY

1. Item 2-902-R0973.
Authorization for Commissioner of Higher Education to Create Inter-Unit Advisory Committees, Montana University System
2. Item 2-006-R0973:
Authorization for Commissioner of Higher Education to Assist in Labor Negotiations, Montana University System
3. Item 3-901-R1273:
Authorization for Commissioner of Higher Education to Cooperate with State Personnel Bureau
4. Item 6-003-R0974:
Guidelines for the Review Process for the Commissioner of Higher Education and Presidents, Montana University System
5. Item 2-001-R0973:
Policy Statement on Guidelines for Curriculum Proposals, Montana University System (Revised)
6. Item 6-005-R1174:
Policy Regarding Inter-Unit Projects, Montana University System
7. Item 1-001-R0773:
Authorization to Invest Non-Treasury Funds Through the Board of Investments, Montana University System
8. Item 2-016-R1073:
Authorization for Use of Building Fees, Montana University System
9. Item 3-006-R1273:
Providing for Submission of an Annual Inventory and Validation of Miscellaneous Fees and Charges, Montana University System
10. Item 3-013-R1273:
Submission of Annual Financial Reports, Montana University System
11. Item 3-014-R1273:
Qualification and Classification of Students for Fee Purposes, Montana University System
12. Item 5-006-R0774:
Policy Regarding Fee Waivers, Montana University System (Revised)
13. Item 2-004-R0973:
Organization of the Council of Presidents, Montana University System

14. Item 2-005-R0973:
Policy Regarding Labor Negotiations, Montana University System
15. Item 3-021-R0174:
Policy Regarding the Hiring of Personnel to Perform Special Services, Montana University System (Revised)
16. Item 6-004-R0974:
Policy Regarding Search and Screening Committee for Presidents, Montana University System
17. Item 3-008-R1273:
Policy on Procedure for Purchase of Real Property, Montana University System
18. Item 3-020-R0174:
Procedures for Handling Capital Improvement Projects, Montana University System
19. Item 3-016-R0174:
Regulations Respecting Local Executive Boards for Institutions of the Montana University System Subject to the Jurisdiction of the Board of Regents of Higher Education
20. Item 4-004-R0474:
Division of Governance Responsibilities, Montana Community Colleges

Copies of the Board of Regents Policy Manual are now available in the libraries of the units of the Montana University System.

REPORT OF THE COMMISSIONER:

This is the first annual report to the Board of Regents from the Commissioner of Higher Education. This document details the increased responsibilities and broader areas of jurisdiction which are now incorporated in the Office of the Commissioner. While we have absorbed all the duties previously performed by the Executive Secretary, the management authority of the Commissioner has increased parallel to the constitutionally enlarged role of the Board of Regents.

The purpose of the report is to provide the Board of Regents with comprehensive information on programs and policies administered by this office during fiscal 1974. The report includes financial and enrollment data, information on each of the six units, and information on federal programs, student financial aid, and various special projects. It also includes general information on changes in Board policy, legal activities involving the Office of the Commissioner, legislation which has affected higher education during the previous year, and efforts toward increasing cooperation and effectiveness of the units of the system.

The constitutional change in the governance structure of higher education in Montana provides a prime opportunity to redirect the efforts of the Board of Regents toward comprehensive and coordinated planning and development. The role of the commissioner, as the agent of the Board of Regents, is crucial in assuring success in these endeavors. I believe we have made substantial progress this year in several areas. For example, a policy manual for the

Montana University System units and the community colleges has been revised. Uniform accounting and financial reporting procedures have been formulated for the six campuses. New curriculum and program review procedures for community colleges, colleges and universities have been implemented. Collective bargaining has been coordinated through the Commissioner's office and may be expanded to include faculty under new enabling legislation. New policies have been developed for presidential review, and a new formula budgeting system has been initiated. The role of the Board of Regents with respect to the direction of the community colleges in the state has been clarified and defined.

Overall, there are many areas in which developments have contributed toward increasing the quality and scope of educational opportunities for Montanans.

Lawrence K. Pettit, Ph.D.
Commissioner of Higher Education

SUMMARY OF LEGISLATIVE AND ADMINISTRATIVE MODIFICATIONS

The new Montana Constitution, which became effective July 1, 1973, requires annual sessions of the legislature, but budgeting and appropriations are still biennial. A state general fund surplus opened the door in the 1974 non-appropriations session to special emergency supplementals. A number of significant funding measures of benefit to the Montana University System were given approval. These included monies for civil rights compliance, emergency salary increases, library acquisitions, the establishment of an Indian Culture Master Plan study emergency WICHE student exchange program support payments, and supplemental appropriations for the WAMI and rural dentistry programs.

Apart from appropriations measures, probably the most significant legislation was HB 1032 which authorized collective bargaining by professional faculty members. This legislation amended a public employee's collective bargaining act which had excluded college and university faculty. Recognition was given to the enhanced constitutional authority of the Commissioner of Higher Education by his legislative designation as collective bargaining agent for the University and Community Colleges.

Educational broadcasting was initiated in the state with the passage of a Senate bill which created an Educational Broadcasting Commission. A five-member commission of Montana citizens was appointed by Governor Judge with the Commissioner of Higher Education, Superintendent of Public Instruction, and the Director of the State Department of Administration as ex officio members. The Commission was appropriated \$300,000 by the legislature to supplement anticipated Federal money to initiate educational television in Montana.

The legislature also passed a bill which created a State Work-Study Program in partial response to continued decline in Federal Work-Study appropriations. No funding was granted for fiscal year 1975, giving the Board of Regents time to promulgate comprehensive administrative procedures to be presented to the next legislature. In concept, the State Work-Study Program is designed to emphasize off-campus summer employment—the area most affected by declining federal support.

A bill creating a Commission on Federal Programs received legislative approval, and after Commission members were appointed, the Commission was designated by the Governor as a "1202 Commission" to function as a post-secondary planning body in accordance with the requirements of the Higher Education Act Amendments of 1972.

In other legislative action, a Board of Regents-sponsored bill to provide indemnification for public employees was passed by the legislature, statutory waivers of tuition for senior citizens and dependents of POW's were signed into law, and the Board of Regents was given additional power in statutory implementation of the new Montana Constitution. In total, more than 70 bills were con-

sidered during the second session of the legislature that had ramifications affecting the University System and Community Colleges.

After nearly a year of gathering information and preparing technical committee reports, the staff of the Governor's Commission on Postsecondary Education on June 6 delivered its recommendations to the full Commission. The Commission was created for a special two year study of all Montana postsecondary institutions and is charged with rendering a final report for the consideration of the Governor, the Board of Regents and the legislature by December of 1974. The Commission considered the staff recommendations in late June. After a series of hearings on the various proposals Commission recommendations were finalized at an October meeting.

The six units of the Montana University System suffered a 1.1% decline in net fall enrollments from 1972 to 1973. By comparison, Montana's three private colleges showed an increase of 4.1% and the state's three community colleges had enrollment increases of 7.2%. Total postsecondary enrollments in all public and private institutions in the state showed a 0.3% increase.

President Robert T. Pantzer of the University of Montana at Missoula resigned effective July 1 after seven years service in that capacity. A special presidential search committee was formed which screened some 270 applications for the position, and ultimately recommended the appointment of Richard C. Bowers to the Board of Regents. Dr. Bowers was chosen and assumed his new office on July 15, 1974.

In exercising its new constitutional mandate to "supervise and coordinate, and manage and control" the Montana University System, the Board of Regents adopted several significant policies having an effect upon the institutions. A policy was adopted which declared that for purposes of faculty tenure, the professional faculty contract shall be with the appropriate institution rather than with the Montana University System. The faculty contract form and rules and regulations regarding tenure and dismissal are presently being revised.

A new Board of Regents policy was implemented which establishes a required performance review of each president within the Montana University System on a periodic basis. Also enacted was a policy item relating to the division of governance responsibility between the Board of Regents and local governing boards of trustees of the three community colleges. Under this policy, regential authority extends to matters of curricular offerings, uniform budgetary procedures, the establishment of minimum entrance requirements and the acquisition of capital improvements requiring the expenditure of state funds .

SUMMARY OF LEGISLATIVE ACTIVITY, 1974 SESSION

The following is a final report prepared by Sid R. Thomas, Legislative Intern for the Montana University System during the 1974 legislative session, January to March, 1974. The report includes all legislation relevant to the System and is contained in the Annual Report as information of interest. The entire staff of the Office of the Commissioner of Higher Education spent many hours in study, analysis and testimony on these bills.

The forty-third legislative assembly considered a number of bills and resolutions having significant ramifications for the University System. Aside from the appropriations bills, probably the most important piece of legislation considered was House Bill 1032, which authorized collective bargaining by all University employees. House Bill 1039 codified a Montana Work-Study program to be implemented by the Regents. A bill introduced on behalf of the Commissioner, Senate Bill 655, provided for the indemnification of public employees. Senate Bill 712 allowed the Regents to authorize the withholding of registration materials until the collection of outstanding traffic fines. A number of studies were mandated by the legislature including a comprehensive master plan for the revision of Indian studies curricula, a study for the implementation of a comprehensive ethnic studies program, a study of student financial need in the WICHE, WAMI and the NDEA student assistance program, and a review of alcoholism education programs. House Bill 764 created a statewide Commission on Federal Higher Education Programs. Two bills provided for additional statutory fee waivers -- HB 958 created a waiver for those 62 years of age and older and SB 463 created a waiver for dependents of POW's. Administrative personnel were exempted from personnel classification by HB 670. A number of public employee benefit bills were passed including authorization for the accumulation of annual leave time, and amendments to the public employee's retirement system.

The following is a summary of legislation having ramifications for the University System that was considered by the second regular session of the 43rd legislative assembly.

House Bill 77 - Recodification of laws pertaining to the state's educational structure

This recodification was drafted in cooperation with Superintendent Colburg. It implements the constitutional designation of the State Board of Education as a state agency, and gives the Board of Regents the authority to appoint advisory councils without the approval of the Governor. The Commissioner testified in favor of the bill before both education committees, and the bill has been signed into law by the Governor.

House Bill 385 - Entering Montana into the Compact for Education

This legislation was aimed to enter Montana into the National Compact for Education as a member of the Education Commission of the States -- a research and advisory group. Cost of entry was estimated at \$11,000, and the bill was killed by the Senate Education Committee.

House Bill 501 - Requiring instruction in American Indian Education for all teachers

The bill mandated a course in American Indian culture for all teachers in elementary, secondary and vocational education programs. The Commissioner raised objection to the bill on the grounds that curriculum should not be legislated. Representative Holmes then withdrew the bill in lieu of House Joint Resolution 60, which instructs the Board of Regents to devise a master plan for enriching the background of public school teachers in Indian ethnic studies.

House Bill 577 - State collection service

This bill authorized the Department of Revenue to establish a state debt collection service. The bill has been signed by the Governor, and any unit of the University System may, as of July 1, turn uncollectible debts over to the Department.

House Bill 589 - Regents to establish uniform compensation for community colleges

House Bill 589 would have granted the Board of Regents authority to establish uniform guidelines for the compensation of administrative employees at community colleges. The bill passed the House, but was killed by the Senate

House Bill 632 - Economic impact statements required on major projects

This legislation would have required economic impact statements from state agencies before the initiation of major projects. The financial impact on the University System would have amounted to \$50,000 per year. The bill was killed in the Senate.

House Bill 635 - Underground cables required for newly constructed buildings

This bill requires that all new state buildings or major modifications of state buildings provide for underground cables. The bill has been signed by the Governor.

House Bill 654 - Anti-discrimination statutes extended to handicapped

This legislation provides for the extension of all anti-discrimination statutes to the handicapped. This bill could open the University System to suits to modify inadequately constructed buildings. The bill has been signed into law.

House Bill 670 - Updating personnel classification system

This bill was initially offered as a bill exempting legislative employees

from the provisions of personnel classification (59-904 R.C.M. 1947). The Commissioner offered amendments to the bill which would exempt administrative employees of the University System. The amendments were accepted, and the bill has been signed by the Governor.

House Bill 671 - Amending public employees' retirement system

This bill amends the public employee retirement system by (1) providing that installment payments were not to exceed twenty-four monthly payments except when the monthly payment exceeds five percent of compensation in the initial month of payment; (2) providing for an administrative fee of not more than .3% of gross compensation from the employer; (3) adding a 10 year service requirement to standards for eligibility for survivorship allowance in lieu of death benefits; (4) changing the calculation of survivorship allowance; and (5) changing the composition of the Board of Administration. There is no material fiscal impact from the bill. It has been signed into law.

House Bill 675 - Requiring consumer education courses to be taught in secondary schools

This legislation would have required all public high schools to provide instruction on the rights and responsibilities of the consumer. The Commissioner raised objection to the bill on the grounds that it legislated curriculum, and it was withdrawn in lieu of a resolution.

House Bill 689 - Repeal of Montana Wheat Research and Marketing Act

The intent of this bill was to repeal the Montana Wheat Research and Marketing Act and redistribute the funds to the Montana State University Agricultural Experiment Station. The bill was killed in committee.

House Bill 695 - Requiring Mexican American studies of certain teacher candidates

This bill would have codified the state's educational commitment to the Mexican American, and would have required school districts with enrollments of at least 15% Mexican American children to employ only teachers that had received Mexican American ethnic studies instruction. The Commissioner raised objections to the bill on the grounds that it, in effect, legislated curriculum. The bill was subsequently withdrawn in favor of House Joint Resolution 59.

House Bill 713 - Allowing students to use dormitory rooms for one week following final exams

The Commissioner pointed out in testimony before the House Education Committee that such a policy already existed and that passage of the bill would raise student fees. The bill was killed by the Committee.

BEST COPY AVAILABLE

House Bill 717 - Residence of husband not presumptive evidence of wife's residence

This bill would have altered residency codes to provide that the residency of the husband was not presumptively the residence of the wife. The impact of this would be to classify more students as out-of-state residents. The legislation passed the House, but was killed in the Senate Judiciary Committee.

House Bill 719 - Public participating in agency rule-making

The intent of this legislation was to mandate an opportunity for the public to participate in all state agency rule-making. The Commissioner offered several amendments to the bill. It passed the House and was killed by the Senate Judiciary Committee.

House Bill 720 - Public right to observe all state agency deliberations

This bill would have required all state agencies to publish notice of their deliberations, and would have forbidden closed meetings. The Commissioner offered amendments clarifying the impact of the bill on the University System. HB 720 passed the House, and was killed by the Senate Judiciary Committee.

House Bill 721 - State agencies to disclose documents on request

The impact of this legislation was to require state agencies (including all University units) to disclose documents on request of the public, unless the disclosure of the document would violate an individual's privacy. The bill passed the House and was killed by the Senate Judiciary Committee.

House Bill 731 - Tuition for Montana Vietnam veterans halved

It was pointed out to the author by the Commissioner that the bill would (1) cut in half benefits that were currently being received by veterans under the State Veteran Fee Waiver program; (2) cost the University System \$350,000 by providing fee waivers to veterans receiving federal G.I. Bill benefits; and (3) would only provide \$45 per quarter in aid to the veteran. The bill was withdrawn by the author.

House Bill 746 - University System appropriation

The original bill proposed funding for the MSU Foreign Trade Study and for civil rights compensation. The Commissioner offered amendments to the bill that were accepted by the legislature. The following amounts were appropriated by the bill:

	<u>FY 74</u>	<u>FY 75</u>
MSU Civil Rights Compliance	-0-	\$30,000
UM Civil Rights Compliance	\$167,345	60,128
MSU Foreign Trade Study	46,000	81,600
Libraries		
University of Montana	-0-	61,000
Montana State University	-0-	55,000
Eastern Montana College	-0-	13,000
Northern Montana College	-0-	11,000
Western Montana College	-0-	8,500
Montana Tech	-0-	5,000
WICHE Student Payments	-0-	65,000
WAMI Administration	-0-	15,000
NDEA Matching Loan Funds	25,000	-0-
Indian Education Program	-0-	37,500
Indian Culture Master Plan	-0-	24,000
Drug Education Program	-0-	28,000
Rural Dentistry Program	12,000	32,000

House Bill 747 - Salary increase to state employees

The bill in its original form granted a 5% salary increase retroactive to January 1 for state employees funded through the general fund. In its final form, House Bill 747 provides for a salary increase for all state employees of thirty dollars per month, prorated for less than full-time employment. In addition, all state employees are to receive a two percent salary increase as of July 1, 1974. The bill has been signed into law by the Governor.

House Bill 749 - Regulation of proprietary institutions

The Commissioner suggested amendments which provided for a required consultative role in the establishment of regulations. The amendments were accepted, and the legislation has been signed into law.

House Bill 755 - Saline seep investigation

The MSU College of Agriculture and Montana Tech's Bureau of Mines presented testimony during the Senate and House hearings. The bill was extensively amended to provide for an independent council on saline seep, and it was then vetoed by the Governor.

House Bill 762 - Extending the MSU soils education program

Under a 1971 bill, the MSU College of Agriculture receives funds from an assessment of fertilizer for a statewide fertilizer and related soil management program of education and research. The program, and the money derived from the fertilizer assessment were due to expire March 15, 1975. House Bill 762 eliminated this expiration, making the program, and the fertilizer assessment permanent. It has been signed by the Governor.

House bill 764 - Creation of a Commission to meet federal higher education requirements

This bill creates a Commission on Federal Higher Education programs to meet the requirements of the Higher Education Act. The Commission consists of ex-officio, the appointed members of the Board of Regents, and a representative from each private college board of trustees. The chairman of the Board of Regents is chairman of the Commission, and the Commissioner of Higher Education is the administrative officer of the Commission. The Commission is mandated to (1) administer state plans under Title VI of the Federal Higher Education Act of 1965; (2) administer state plans under Title I of the Federal Higher Education Facilities Act of 1963; (3) administer state plans under Title I of the Federal Higher Education Act of 1965; and (4) to administer state plans under federal funding that may be assigned by the Governor. Testimony was presented on the bill by the Commissioner, and the bill has been signed by the Governor.

House Bill 821 - Relationship between Department of Agriculture and MSU's Grain and Seed Laboratory

The bill delineated the relationship of the Agriculture Department to the MSU Grain and Seed Laboratory. There was no substantive change of the law in the bill, but it was killed in the House Agriculture Committee.

House Bill 823 - Accumulation of annual leave time by public employees

Section 59-1002, R.C.M. 1947 provides for accumulation of annual leave time not to exceed 30 working days as of the last day of the year. House Bill 823 amended this to provide for accumulation not to exceed two times the maximum number of days earned annually. The Budget Bureau has estimated that the fiscal impact of this will be minimal because (1) it will have no effect on employees with less than ten years service (these employees now earn 15 days leave a year; thus the accumulation will remain the same); (2) attrition among employees exceeding ten years service is minimal; and (3) most employees at retirement elect to use their annual leave rather than pay tax on a lump sum; so there will probably be no large increase in lump sum payments. The bill has been signed by the Governor.

House Bill 826 - No further expansion of community college system without legislative authorization

The bill would have required specific legislative approval before the initiation of any new community college. The Commissioner pointed out to the House Education Committee that legislative authority already existed in this area, and the bill was killed in committee.

House Bill 844 - Development of an Environmental Education master plan

It was the intent of this bill to mandate the implementation of a comprehensive master plan for environmental education in the University System and in the public school system. The cost of the program was estimated at \$106,400.

The Commissioner raised objection to the bill on the grounds that it legislated curriculum, and because the money required for implementation was not provided for. The bill was killed in committee.

House Bill 910 - Public employees authorized to enter into deferred compensation plans

This bill authorized political subdivisions of the state to establish, after reaching agreement with the employee, a program for employees to defer any portion of that employee's compensation up to the allowed maximum by the IRS. The Department of Administration is authorized to coordinate the programs. Mr. Ken Heikes of Eastern Montana College testified on behalf of the Commissioner, and offered several amendments that were accepted by the committee. The bill has been signed by the Governor.

House Bill 937 - An act to fund the Executive Intern program

HB 937 funded student interns for the Governor, Attorney General, and Public Service Commission. After the Executive Intern Act, House Bill 1007, was killed by the Senate, this bill was also killed.

House Bill 958 - Waiver of tuition for senior citizens

This bill authorized the Board of Regents to waive resident registration and incidental fees for students over sixty-two years of age. For implementation of the waiver, the Regents must take affirmative action. The bill has been signed by the Governor.

House Bill 988 - Providing for an Alcoholism Services Center at Galen State Hospital

This bill transfers the treatment of alcoholic treatment to Galen State Hospital rather than Warm Springs. It is relevant to the University System in that it provides for the Alcoholism Services Center to "initiate and coordinate with the schools and institutions of higher learning in Montana courses of study and clinical experience in the evaluation, care, treatment, referral, rehabilitation and after-care of alcoholics for both professional and lay persons requiring such information and experience." The total impact of this legislation has not yet become apparent. The bill has been signed by the Governor.

House Bill 1007 - Executive Intern Act

The intention of this legislation was to codify a program of student internship in executive agencies. It would have provided the Governor with two interns and every other elected state official (plus the Commissioner of Higher Education) with one student intern. The program would have been funded by the University System at a stipend of seventy dollars per week per intern, with the total cost being \$6,300 per legislative session. The Commissioner supplied written testimony in favor of the bill. It passed the House, but was killed on the Senate floor because it was felt that the program could be initiated without legislation.

BEST COPY AVAILABLE

House bill 1011 - Legislative Intern Act

This act provides for a student internship program with legislators, to be coordinated by the Legislative Council. All institutions are entitled to one intern, and an additional five are chosen at large. Preference is given to Montana high school graduates. This year such a program was not funded by the legislature and each participating University unit will probably have to finance their participating interns in the future. The bill has been signed by the Governor.

House Bill 1024 - The Montana Privacy Act

This comprehensive implementation of the constitution provided for (1) the prohibition of wiretapping; (2) extensive regulation of computer data systems; (3) regulation of polygraphs and personality testing; (4) limitation of what questions could be used in hiring procedures; (5) limitation of police surveillance activities; and (6) a guarantee of marital and familial privacy. The original draft of the bill contained a number of serious ramifications for the University System that were later amended in consultation with representatives of the University System. The Commissioner supported the bill as amended. It passed the House and was killed by the Senate Judiciary Committee.

House Bill 1032 - Collective bargaining authorized for employees of the University System

Collective bargaining by University System employees was institutionalized with the enactment of this bill. The provision of the legislation include (1) authorizing the Commissioner of Higher Education to be the collective bargaining agent for the University System and community colleges; (2) placing University and community college employees under the provisions of the existing public employees collective bargaining act; (3) allows the Board of Personnel Appeals to determine the definition of a bargaining "unit"; and (4) codifies the legislative intent that collective bargaining by University and community college employees is an integral part of the System decision-making process. The bill has been signed by the Governor.

House Bill 1039 - The Montana Work-Study Act

This bill codifies a Montana Work-Study program. It provides that: (1) the employers shall contribute no less than 30% of the student's salary plus an administrative expense with the state paying the rest of the cost of employment; (2) that 30% of the funds allocated to the program may be used for students who do not have a demonstrated financial need; and that (3) the Board of Regents shall promulgate guidelines for the implementation of the Act. The legislation defines "student" as anyone who "has met the qualifications for enrollment as a student of an institution" or a full-time student at an institution. This means that the Board could fund students for work-study that are not students, but "have met the qualifications for enrollment." The Montana Work-Study Act is mostly geared toward filling the summer off-campus work-study program. The Commissioner testified in favor of the bill before both education committees, and it has been signed by the Governor. No money was appropriated for the program this session.

House Bill 1077 - Requirement of training in Mexican-American culture before certification in certain areas of the state

The intent of this bill was identical to that of House Bill 695. The Commissioner raised objection to the bill on the grounds that it legislated curriculum and it was killed in committee.

House Bill 1079 - Special liquor permit for University System units

This bill would have authorized units of the University System to procure a special permit for the sale of liquor at the unit. The permit would be granted by the Department of Revenue for a 24-hour period ending at 2 A.M. The bill was killed on the House floor.

House Bill 1104 - Library appropriations

This bill simply provided for appropriations for the library of each unit. The Commissioner supported amendments providing for an equitable allocation of funds, and these proposed amounts were amended into House Bill 746. House Bill 1104 was then killed, and the amendments to House Bill 746 inserted in lieu thereof.

House Bill 1105 - Rural dentistry program appropriations

These appropriations would set up a program of cooperation with the University of Minnesota Dental School. The Commissioner testified in favor of the bill. The amount requested for the program was amended into House Bill 746, and House Bill 1105 was then killed.

House Bill 1108 - Appropriation for EMC Science Building

This bill would have appropriated funds for the Eastern Montana Science Complex. It was killed in committee.

House Bill 1112 - Appropriation of funds for MSU and UM

The Commissioner affirmed the need for large supplemental appropriations at all units of the University System. Some of the items contained in HB 1112 were amended into House Bill 746, but HB 1112 itself was killed in committee.

House Bill 1117 - Release of earmarked funds to help finance the construction of feed mill at MSU

The previous legislature had passed appropriations for the construction of a feed mill at Montana State University. Rising construction costs and the unavailability of a qualified state architect delayed the project until supplemental funding could be procured. Monies existed in the earmarked Agricultural Experiment Station account, and HB 1117 requested a release of \$25,000 of these funds. Testimony was presented on behalf of the Commissioner at the hearing, and the bill has been signed into law.

House Bill 1115 - Appropriations for the Montana Work-Study Act

This appropriations measure would have granted \$300,000 for the Montana Work-Study Program (as created under House Bill 1039). Funding of this amount would have added 1,800 students to the summer work-study program. HB 1115 passed the House with amendments to reduce the sum to \$100,000, but was killed by the Senate Finance and Claims Committee.

House Bill 1120 - Appropriation of funds to the WICHE program

This appropriations bill was designed to fund students that had been certified for participation in the WICHE medical program. The amounts requested in the bill had already been amended into House Bill 746, and therefore, HB 1120 was killed.

House Resolution 40 - Standardization of research incentives

This resolution called for the Regents to unify research incentives for faculty at all units of the University System. It was killed in committee.

House Resolution 48 - Encouraging adulthood classes for secondary schools

This resolution called for the Board of Public Education in cooperation with the Regents to encourage "responsibility of adulthood" classes in secondary schools. The committee killed the resolution.

House Joint Resolution 59 - Teacher training in ethnic studies

A master plan for the implementation of teacher training in ethnic studies was called for in this resolution. It passed both the House and the Senate.

House Joint Resolution 60 - Teacher training in Indian ethnic studies

This joint resolution called for the development of an Indian education program for prospective teachers. It passed both the House and the Senate.

House Joint Resolution 73 - Economic impact statements

A thorough economic analysis of the impact of major projects by state agencies was requested by this resolution. Economic impact statements are already required by the Montana Environmental Policy Act of 1971, and the impact of this legislation is to request state agencies to obey the law. It passed both houses of the legislature.

House Joint Resolution 76 - Development of consumer education in secondary schools

This resolution called for the Board of Regents and the Board of Public Education to establish a plan for the implementation of consumer education courses in secondary schools. It was killed in committee.

Senate Bill 48 - Occupational Health and Safety Act

Senate Bill 48 provided for the implementation of the Federal OSHA program. Under the Federal Occupational Health and Safety Act, states were required to adopt an OSHA plan or submit to the Federal OSHA requirements. The state plan contemplated by SB 48 had a number of defects including an exclusion of some important facets of occupational health, and a weakening of enforcement provisions. The bill passed the Senate, and was killed in the House Labor Committee. OSHA requirements will probably cost the University System \$25,000 sometime in the future.

Senate Bill 282 - Increasing employer contribution for group insurance

The intent of this bill was to increase the employer contribution for group insurance from ten dollars per month to fifteen dollars per month, not to exceed one-hundred eighty dollars per year. The bill would have cost the System more than \$250,000. The Senate did not concur with the House amendments to the bill, and with the end of the session, the bill died.

Senate Bill 367 - Shifting motor pool to pre-1971 operation mode

The intent of this bill was to return control of the state motor pool to each individual local unit, which would have transferred control back to the University System. The Commissioner offered amendments clarifying the bill. These were not accepted by the committee, and thus significant ambiguities remain in the bill. It was signed by the Governor.

Senate Bill 463 - Waiver of fees for dependents of POW's

This bill waives tuition for Montana residents who were POW's during the Vietnam conflict and their dependents. Several amendments to the bill were offered by the Commissioner that gave the Regents rather than the State Board of Education authority to waive fees. The amendments were accepted, and the bill was signed into law.

Senate Bill 504 - Small Business Purchasing Act

This bill provided that a certain amount of goods and services had to be contracted from small businesses from state agencies. Because of the definition of a "small business" and the present purchasing procedures, the bill should have no immediate impact on the System, but may have long-term effects on the purchasing system. It has been signed by the Governor.

Senate Bill 533 - Educational Television appropriation

Senate Bill 533 is a general appropriation bill that contains an appropriation of \$300,000 for the fiscal year ending June 30, 1975 for the Educational Broadcasting Commission. The Commission was created by the enactment of Senate Bill 689 during the session. SB 533 has been signed by the Governor.

Senate Bill 602 - Legislative liaison with Bureau of Mines

This bill creates a legislative committee of four members to prepare, with the advice of the Director of the Bureau of Mines, a revision of the laws pertaining to the Bureau of Mines. The bill has been signed into law.

Senate Bill 603 - Bureau of Mines appropriation

The Commissioner testified against the bill on the grounds that it was not part of the Regents' supplemental appropriation package. The bill was killed in committee.

Senate Bill 620 - Noxious weed designation

A section of this bill gives the MSU Agricultural Experiment Station veto power over country designation of noxious weeds. The bill has been signed into law by the Governor.

Senate Bill 621 - Transfer to UM Law School of the Justice of the Peace orientation course

This bill transfers to the University of Montana Law School the responsibility for the conduct of the Justice of the Peace orientation course. The Commissioner testified in favor of the bill, and it has been signed into law.

Senate Bill 622 - Appropriation to UM Law School

The bill appropriated fifty-thousand dollars to the University of Montana Law School for the conduct of the Justice of the Peace orientation course required by Senate Bill 621. Testimony on behalf of the Commissioner was presented and the bill has been signed by the Governor.

Senate Bill 651 - Changes in per diem allowance

The impact of this legislation was to (1) change required departure time from 8 to 7 a.m.; (2) provide per diem allowance not to exceed two dollars per day for moneys actually expended for mid-day meals when the departure is after 7 a.m. on the return prior to 6 p.m. for persons in state service regularly assigned to an 8 a.m. to 5 p.m. work period; and (3) establish for persons in state service assigned to work periods other than 8 a.m. to 5 p.m. an allowance of one dollar and fifty cents for morning meals and three dollars and fifty cents for evening meals. The bill has been signed by the Governor.

Senate Bill 652 - Licensing of social workers

This bill was written by Dick Shields of the University of Montana. It provided for state license of all social workers. Testimony was presented by both MSU and UM social welfare departments. The bill was indefinitely postponed by the committee.

BEST COPY AVAILABLE

Senate Bill 655 - Employees of government to be immune from personal liability in suits

This bill was introduced at the request of the Commissioner. The major provisions include (1) requiring that suits brought against employees of governmental entities for employee action within the scope of his employment shall name the governmental entity as the defendant; (2) providing that employees of governmental entities shall remain immune from recovery of damages for acts committed while conducting governmental business, and (3) that in any action in which the employee is a party defendant, the employee shall be indemnified by the governmental employer for legal expenses unless the suit is based on an "intentional tortious act" of the employee. Testimony was presented in favor of the bill by the Commissioner before both judiciary committees, and the bill has been signed into law.

Senate Bill 689 - Establishment of an Educational Broadcasting System

Senate Bill 689 creates a State Educational Broadcasting Commission to run the educational television network for the state. The Commission consists of the Superintendent of Public Instruction, the Commissioner of Higher Education, Director of Administration and five Montana citizens and has sole regulatory authority over educational television. The bill has been signed into law.

Senate Bill 707 - Saline-Alkali Correction Act

This bill would have created a saline-seep commission to investigate and report on necessary remedial measures. The legislation was amended into House Bill 755, which was vetoed by the Governor. Senate Bill 707 itself was killed in committee.

Senate Bill 711 - Management officials not included in state bargaining units

This legislation would have prohibited management and supervisory personnel from participating in bargaining units of the state. The bill passed the Senate, but was killed in the House Labor Committee.

Senate Bill 712 - Students not permitted to register until traffic fines are paid

SB 712 was drafted by the Attorney General's office at the request of the University of Montana. The final amended version of the bill granted the Regents the authority to authorize the withholding of registration packets until outstanding traffic fines are collected. The bill has been signed by the Governor.

Senate Bill 723 - Earmarked tax on coal to fund Bureau of Mines

This bill would have diverted 1¢ portion of the coal tax to the Bureau of Mines. Because the impact of this bill would have been a \$250,000 loss to the general fund of the state, the bill was killed by the Senate Finance and Claims Committee.

MONTANA UNIVERSITY SYSTEM LITIGATION

July 1, 1973 - June 30, 1974

BEST COPY AVAILABLE

During fiscal year 1974, contemporary legal issues which faced the national postsecondary educational community also confronted the Board of Regents, Commissioner of Higher Education, presidents, and other administrators within the Montana University System. In the past year, legal emphasis in the college and university context has centered upon tenure disputes, "quota" systems, non-renewal of non-tenured faculty, faculty collective bargaining, consideration of the impact of the proposed Title IX guidelines, the multifaceted implications of sex discrimination, the legal ramifications of a lowered age of majority (e.g. application of residency requirements, rules relating to mandatory on-campus living, and the rights of students to have access to previously confidential files), and emerging and more clearly defined substantive and procedural due process standards for both students and faculty members.

In Montana, the Board of Regents, the Commissioner of Higher Education, the institutional presidents, and the administrative staffs of the respective units have been involved as defendants in lawsuits which have raised a number of the above-mentioned issues. In the past year three separate actions were brought by faculty members seeking to have tenure and promotional rights judicially determined.

In the case involving tenure, Leland v. State, the Board members were named as individual defendants and some \$5 million in actual, punitive, and exemplary damages was sought. The suit was dismissed prior to trial by the United States Federal District Court on the grounds that the complaint did not state a cause of action based upon alleged First and Fourteenth Amendment

violations, and also because no significant property interest of the plaintiff professor was affected when he was issued a terminal contract prior to his seventh year of employment.

Two lawsuits brought by the same professor and entitled Mossman v. State Board of Regents, are predicated, respectively, upon a breach of contract theory and a tort theory for the Eastern administration's failure to promote plaintiff to associate professorship in each of three separate contract years. Both of these suits have passed beyond the motion to dismiss stage, and are currently pending trial. The first suit seeks injunctive relief and an order mandating promotion. The second suit seeks monetary damages for failure to promote, loss of salary, loss of opportunity to secure tenure, and miscellaneous other damages all of which, when totalled together, exceed \$100,000.

In separate mandamus actions against the Registrar of Montana State University and against the University System and the Commissioner, two students sought, respectively, admission to undergraduate school as a resident student, and mere admission to the graduate school of education at the University of Montana. The first student successfully obtained admission as a resident, and MSU's Registrar was orally enjoined from the bench not to seek to levy non-resident fees or to hold up the matriculation of the plaintiff-student. In the second case, a writ of mandamus was denied Mr. Benedetti who sought admission to the University's graduate school of education.

In a development not related to actual litigation, the professional faculty members of the several institutions sought and obtained an amendment to the Public Employees collective bargaining act in which the 1973 legislative session authorized professional faculty members to engage in collective bargaining negotiations with their public employer.

INTER-UNIT COORDINATION

One of the results of the change in governance structure and the accompanying appointment of the Commissioner of Higher Education has been greater realization of the necessity for inter-unit cooperation and coordination. Given Montana's demographics and economics, it is clear that in order to provide Montanans with the greatest possible educational opportunities at the least possible cost, the units of the Montana University System must work together to maximally utilize resources. These resources include, but are not limited to financial resources. Facilities, library and media materials, manpower and expertise must also be considered in long-range plans.

The Board of Regents has adopted two policy items which directly relate to inter-unit coordination. They are:

Item 2-902-R0973, Authorization for Commissioner of Higher Education to Create Inter-Unit Advisory Committees, Montana University System.

Item 6-005-R1174, Policy Regarding Inter-Unit Projects, Montana University System.

The following inter-unit committees were active during 1973-74:

1. Faculty Service Committee
2. School-College Relations Committee
3. University Personnel Committee
4. Systems Benefit Committee
5. Committee on Labor Relations
6. Inter-Unit Committee on Educational Broadcasting
7. Inter-Unit Budgetary Committee
8. Inter-Unit Advisory Committee on International Charter Flights
9. University System Committee on Computer Use

There are two major programs which are covered by the regulations of the policy regarding inter-unit projects. They are:

1. The development of magnetohydrodynamic energy being conducted cooperatively by Montana College of Mineral Science and Technology (Montana Tech) and Montana State University.
2. The NSF/Rann Project to determine the impact of coal development in eastern Montana being conducted cooperatively by the University of Montana, Montana Tech and Montana State University.

Another vehicle to promote inter-unit coordination is the Montana University System Newsletter. This publication is circulated on a quarterly basis to all units and to others who have an interest in the activities and projects of the Commissioner's office.

**MONTANA COMMISSION FOR FEDERAL
HIGHER EDUCATION PROGRAMS**

The 1974 legislative session passed H.B. 764 which provided for a Commission to meet federal requirements to administer State Plans under federal higher education programs. This Commission replaced the former Montana Commission for the Higher Education Facilities Act of 1963 and also provided a Commission to meet the requirements of Section 1202 of the Higher Education Act of 1965, as amended. This latter commission is necessary before a state can receive assistance under Section 1203 to develop comprehensive statewide planning of postsecondary educational resources in the state.

This new commission, appointed by the Governor, includes the seven appointed members of the Board of Regents of Higher Education and three private college trustees--Mr. Walter Huffman from Rocky Mountain College, Mr. Joseph A. Maierle from Carroll College and Mr. J. L. McLaughlin from the College of Great Falls. The Commissioner of Higher Education is designated to serve as Administrative Officer and clerical and administrative services are performed by his office.

At the present time the federal programs which are being served by this Commission are:

1. Title VII of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1972, which provides grants to Montana's institutions of higher education for construction of academic facilities.
2. Title VI-A of the Higher Education Act of 1965, which provides matching grants to Montana's public and private institutions of higher education to purchase instructional and closed circuit TV equipment.
3. Comprehensive Planning Grant under Section 1203 of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1972.
4. Title I of the Higher Education Act of 1965 for Community Service and Continuing Education programs. This particular program has been assigned to the Montana State University campus and Mr. Ernest R. Ahrendes serves as Coordinator and Mr. Edward M. Chauner is Administrative Assistant.

An Annual Report covering the activities of the Title I program is available from the Community Service Programs, Montana State University, Bozeman, Montana, 59715. A review of the other programs under the Montana Commission is given on following pages.

GRANTS FOR THE CONSTRUCTION OF ACADEMIC FACILITIES

The original Higher Education Facilities Act of 1963, P.L. 88-204, was created at the federal level to assist the nation's institutions of higher education to increase their academic facilities in order to accommodate expanding student enrollments. The Higher Education Amendments of 1972 incorporated Title I of this act into the Higher Education Act of 1965, under Title VII. Section 702 of this Act provides grants for public community colleges and public technical institutes and Section 703 provides grants to institutions of higher education other than public community colleges and public technical institutes.

The funds appropriated by Congress for F.Y. 1973, under a continuing resolution for the facilities construction program, were impounded by Presidential action. No action, therefore, was taken on two supplemental applications that were received by the Montana Commission until May, 1974 when the funds were finally released. The following grants were approved:

Dawson College - (Supplemental Application for a Classroom-Multipurpose Building)	\$ 22,000
Montana State University - (Supplemental Application for a Classroom-Faculty Office Building)	\$146,667

Since the inception of this program, grants approved for Montana institutions of higher education total the following:

Dawson College	\$ 248,378*
Miles Community College	266,533*
Northern Montana College	991,204*
Carroll College	545,527
Eastern Montana College	1,367,028
Western Montana College	825,247
Montana State University	1,102,494
Montana Tech	67,300
Rocky Mountain College	463,719
University of Montana	1,820,205
Total	<u>\$7,697,633</u>

* Indicates grants up to 40% of the total project costs. All others are grants up to 33-1/3% of the total project costs.

The Commissioner of Higher Education, as administrative officer of the Commission on Federal Higher Education Programs, receives and processes the applications for these grants and presents them to the Commission for approval. Files are maintained on all projects and considerable data is furnished and correspondence carried on with the Office of Education, the federal agency that administers these grants.

INSTRUCTIONAL EQUIPMENT GRANTS

Title VI-A of the Higher Education Act of 1965, P.L. 89-329, as amended, authorizes a program of grants to institutions of higher education for the purchase of equipment to be used in undergraduate instruction. Two areas of equipment are eligible--laboratory and other special equipment and materials for regular instructional programs (Category I) and/or equipment and materials for closed circuit television instructional programs (Category II). This program has made it possible for Montana's higher education institutions to secure in excess of \$840,000 in equipment, with the federal government providing one-half the cost, in the past 8 years.

The Montana Commission for Federal Higher Education Programs, using the staff and administrative services of the Commissioner of Higher Education, receives and processes the applications for grants before forwarding them to the Office of Education in Washington, D.C. for final approval. Grant funds are allotted on a priority basis in accordance with guidelines set forth in a State Plan which has been approved by the Office of Education.

The Montana Commission met on May 20, 1974 and approved applications for grants for the 1972-73 school year (these funds had been impounded by presidential action for more than a year) and grants for the 1973-74 school year as follows:

	<u>1972-73</u>	<u>1973-74</u>
<u>Category I</u>		
Flathead Valley Community College	\$ 933	\$ 1,103
Miles Community College	12,408	7,685
College of Great Falls	11,523	
Montana State University	9,766	
Carroll College	12,552	
University of Montana		32,087
Montana College of Mineral Science and Technology		425
<u>Category II</u>		
Montana State University	\$ 6,560	
University of Montana		<u>\$ 5,598</u>
Total	<u>\$53,742</u>	<u>\$46,898</u>

COMPREHENSIVE STATEWIDE PLANNING OF POSTSECONDARY EDUCATION
(Section 1203, HEA of 1965, as Amended)

After the passage of Section 1203 to the Higher Education Act of 1965, as amended, the Montana Commission developed a proposal for statewide postsecondary education planning and presented this proposal to the Office of Education in May, 1974. The Office of Education gave their approval to the proposal in June, 1974 and the State of Montana received a grant in the amount of \$26,105 for fiscal year 1975 to carry out the comprehensive planning activities. These activities include:

1. Developing a compatible data base for all postsecondary institutions in area of students, faculty, finance, facilities and curriculum.
2. Provide an update or initiate a curriculum inventory or academic program inventory for all postsecondary units and other agencies under the State Board of Education.
3. Develop or broaden methods of projecting student enrollments.
4. Broaden the facilities inventory and classification system to include all postsecondary institutions using the current HEGIS taxonomy and room classification system.

The data base so generated will provide institutions with compatible and comparable statistics for institutional study, planning and effective utilization of resources. This data base can also provide the necessary information for state, regional and national studies dealing with postsecondary educational units and/or systems which would coordinate planning and resource allocation.

Planning activities are to be coordinated through an advisory council which is broadly representative of every type of postsecondary institution in the state. Most studies and reports will originate with the Commission staff and then presented to the Advisory Council. Computers will be utilized to store statistical data.

It is anticipated that this planning activity will coordinate the expansion of educational opportunity in the State of Montana and will help meet the general public's needs and demands for educational and educational related services. It will also provide a common ground for educators to speak to the issues, objectives and goals in all of postsecondary education.

WAR ORPHANS SCHOLARSHIP

The Board of Regents of Higher Education is authorized by law to waive the registration and incidental fees for the Montana University System for Montana war orphans under Section 75-8612 R.C.M. 1947 with the following provisions:

1. That the applicant is a child of a Montana veteran who served on active duty during World War II and/or the Korean conflict or the Viet Nam war.
2. That the deceased veteran had legal residence in this state at the time of entry into service;
3. That the veteran was either killed in action or shall have died as a result of injury, disease or other disability incurred while in the service of the armed forces of the United States;
4. That the child of the veteran shall enter any unit of the Montana University System prior to attaining the age of twenty-three.

When a request for this benefit is received in the Office of the Commissioner of Higher Education it is acknowledged and verification of the information is requested from the Veterans Administration Center at Fort Harrison. If the records are not on file in that office we are informed at which regional office they may be obtained. The details are then requested from the regional office and when they are received, if the requirements of the law have been met, the fee waiver is approved by the Commissioner. The applicant and the registrar of the institution he plans to attend are notified of the action taken.

During this reporting period five War Orphans Scholarships have been awarded.

HIGH SCHOOL HONOR SCHOLARSHIPS

The High School Honor Scholarship Program was set up by the State Board of Education in June, 1917 and revised in December, 1949 to update the regulations. The office of the Chancellor and its successor offices for the Montana University System, have administered this program since its inception. These scholarships entitle the recipient to a waiver of registration and incidental fees during the Freshman year at any of the six university units.

There were 536 scholarships issued to the top ranking seniors of the 1974 graduating classes of the 182 high schools in the state, both public and private. The distribution of these scholarships is as follows:

<u>School Size (Grad.Srs.)</u>	<u>No. of Schools</u>	<u>Total Graduating Seniors</u>	<u>% of Total</u>	<u>Number of Scholarships Issued</u>	<u>% of Total</u>
1 - 25	85	1,273	10.0%	78	14.6%
26 - 100	56	2,949	23.2%	114	21.3%
101 - 300	21	3,238	25.4%	131	24.4%
301 and Over	<u>10</u>	<u>5,271</u>	<u>41.4%</u>	<u>213</u>	<u>39.7%</u>
Total	182	12,731	100.0%	536	100.0%

This year's scholarship recipients were registered at the various units as follows for the Fall Quarter, 1974:

	<u>U/M</u>	<u>MSU</u>	<u>MCMST</u>	<u>WMC</u>	<u>EMC</u>	<u>NMC</u>	<u>Total</u>
Number	139	285	18	4	28	17	491*
% of Total Issued -	25.9%	53.2%	3.4%	.7%	5.2%	3.2%	91.6%*

*This figure will increase during the year as the holders of the scholarships have nine months in which to enter school.

Five of the 182 Montana high schools did not have any eligible seniors for the High School Honor Scholarship and 3 eligible schools did not respond in recommending a member of their graduating class.

Two private secondary schools closed after the 1973-74 school year. They were St. Paul's Mission High School in Hays and Sacred Heart Academy High School in Missoula. Two public high schools will award high school honor scholarships for the first time in June, 1975. They are Capital High School in Helena and Hays-Lodge Pole High School in Hays which has replaced the St. Paul's Mission High School.

REGULATIONS GOVERNING HIGH SCHOOL
HONOR SCHOLARSHIPS

1. Upon the presentation of the required certificate from the high school principal, the Montana University System will authorize the award, each year to graduates of each of the accredited high schools of the state, of High School Honor Scholarships for the component units of the Montana University System.

2. One scholarship may be awarded to the membership of any graduating class having twenty-five or fewer graduates. An additional scholarship may be awarded to the membership of classes for each additional twenty-five graduates or major fraction thereof.

3. To be eligible for a High School Honor Scholarship the individual must be certified by the principal:

- (a) To be a graduate of an accredited high school of the state;
- (b) To rank within the highest one-fourth or major fraction thereof of his class in scholarship;
- (c) To be the highest in scholarship of those members of the graduating class desiring to attend the Montana University System.

4. If the recipient of a High School Honor Scholarship decides not to enter a unit of the Montana University System he should relinquish the scholarship at once. In such cases, the high school principal may certify the next ranking ELIGIBLE member of the same graduating class, but such person will be subject to the same restrictions as the original holder of the scholarship.

5. In order to utilize any High School Honor Scholarship the holder must enter the Montana University System within nine months after high school graduation, and must maintain a satisfactory standard of scholarship and regularity of attendance in some course leading to graduation.

6. The recipient of a High School Honor Scholarship will be exempt from the payment of the registration and incidental fees in any unit of the Montana University System. The registration and incidental fee waiver shall be valid through the completion of the first 45 credit hours (30 semester hours) of course work following eligibility. The 45 credits (30 semester hours) must be completed within three years after the date of the scholarship.

The procedure for awarding these scholarships is as follows:

January - Every high school in the State is requested to send a list of their graduating seniors. The students are counted and the number of scholarships to which a school is entitled is determined.

February - The correct number of recommendation blanks, based on the student lists, are sent to all high school principals for their use in recommending the eligible graduates. Award is made upon recommendation and confirmation of status by the high school principals. Waiver forms are also sent for the signature of eligible students who do not wish to utilize their scholarship.

May - Scholarships are typed as soon as the principal returns the recommendation form designating the student's name and standing. The scholarships are forwarded to the high schools for presentation to the student on graduation day.

STUDENT FINANCIAL AID

In addition to the High School Honor Scholarships and the fee waivers for war orphans which are processed through the Office of the Commissioner of Higher Education, the units themselves are authorized to grant certain waivers. The bulk of these consist of advance honor or merit scholarships. The waiver of non-resident fees in a limited number is also permitted for certain out-of-state students.

Waivers, however, are only a part of the assistance open to worthy or needy students. Montana universities and colleges have been recipients of numerous gifts and bequests for scholarships. Students will find that many loans, student employment and outright grants are available.

Loan funds are principally derived from or are insured by the federal government. Under the National Defense Education Act the loans are made directly by the colleges to qualified students, the money consisting of a tenth part matching funds from the state legislative appropriation and the balance consisting of federal funds. Another federal program available to needy students is the Basic Educational Grant Program. Also, the federal work-study program of the Office of Education provides funds for students who work part-time during the academic year or full-time during the summer months.

In addition to the foregoing, the Commissioner of Higher Education is trustee for a loan fund established by the late Dr. Peter Potter of Butte, which provides loans to needy and deserving graduates of Butte Public High School attending any unit of the Montana University System. The fund is administered under an agreement with the First Metals Bank & Trust Company of Butte and terms of the loans are comparable with those of the Higher Education Act of 1965, as amended.

The 43rd Legislature of Montana passed legislation providing for a Montana work-study program. However, no money was appropriated for the program so it did not become operational during the 1973-74 school year.

The units of the Montana University System have established financial aid offices for the purpose of assisting students and in determining the several types of aid to be offered, either singly or in combination. The colleges subscribe to the Montana Compact for Financial Aid whereby a uniform application form is utilized and an evaluation of students' and parents' resources is accomplished by all within the standards of the College Scholarship Service's appraisal of need.

WESTERN INTERSTATE COMMISSION FOR HIGHER EDUCATION

WICHE is a non-profit agency created by the 13 western states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming. The Commission administers the Western Regional Compact which was accepted by all states in 1953. Each member state contributes \$28,000 to the operation of general activities and \$7,500 to support WICHE's Mental Health Program. Montana is represented on the governing board by three commissioners appointed by the Governor, namely, Dr. F. John Allaire of Great Falls, H. C. Ross, D.V.M. of Kalispell and Lawrence K. Pettit, Commissioner of Higher Education, Helena.

WICHE is composed of five main areas--Division of General Regional Programs, Division of Mental Health and Related Areas, the National Center for Higher Education Management Systems, the Mountain States Regional Medical Program, and the Division of Administration. The majority of the more than 50 individual programs and projects are supported by foundation and public agency funds. These programs cover the fields of nursing, minority education, continuing education in psychiatry and library personnel, corrections, mental health and many activities under the Mountain States Regional Medical Programs. Information on these programs can be secured from the Director of WICHE, P.O. Drawer P, Boulder, Colorado, 80302.

One of the original purposes for establishing WICHE was the Student Exchange Program. Under this program it has been possible for 496 Montana students to receive support in western professional schools without having to pay out-of-state tuition or to receive considerable reduction in tuition at private institutions. In addition, the participating schools give preference in their acceptance of students to those who qualify for WICHE support. Once a student is included in the program, support automatically continues until the completion of his professional schooling, up to a maximum of four years.

Annual support fees are:

Medicine - \$5,000	Physical Therapy - \$1,200 (Plus clinical study)
Dentistry - \$4,000	Occupational Therapy - \$1,200
Veterinary Medicine - \$4,000	Podiatry - \$2,500
Dental Hygiene - \$1,000	Forestry - \$1,500
Optometry - \$1,200	

The demand for WICHE support increases each year. Requests for certification during the past year were as follows: 74 in the field of medicine, 26 in dentistry, 19 in dental hygiene, 14 in physical therapy, 3 in occupational therapy, 52 in veterinary medicine, 14 in optometry and 2 in podiatry. From the total of 204 students certified, 59 were accepted by WICHE schools for the fall quarter, 1974.

Montana is now a receiving state in the fields of forestry and law.

Summary of Montana Students and WICHE Support - 1953 - 1974

	Medicine		Dentistry		Veterinary		Dental Hygiene		Optometry		Occup. & Physical Therapy		TOTAL

TOTAL STUDENTS 496

MINERAL ENGINEERING STUDENT EXCHANGE PROGRAM

Eight institutions in the WICHE region have entered into a Mineral Engineering Student Exchange Program. This program allows a student to enroll in a mineral engineering program at in-state or resident tuition rates in a school in another state if the program is not offered in his home state. Degree programs are available in ceramic engineering, geological engineering, metallurgical engineering, mining engineering, petroleum engineering and mineral dressing engineering. All programs, with the exception of ceramic engineering, are offered at Montana College of Mineral Science and Technology. In addition, western mineral engineering schools use WICHE staff services to conduct a nationwide recruitment effort in order to identify and to attract well-qualified students. The out-of-region component of the Mineral Engineering Program is supported by the mineral industries.

More detailed information on this exchange program is available by writing directly to Montana College of Mineral Science and Technology, Butte, Montana 59701.

COMMUNITY COLLEGE STUDENT EXCHANGE PROGRAM

WICHE also participates in a Community College Student Exchange Program for the states of Montana, Idaho and Wyoming. This exchange program allows a student to pay in-state tuition rates in a state other than his own by attending the college nearest him home or by enrolling in a special course of study designated as regional curricula at the institution he attends. Montana's three community colleges, Miles Community College, Dawson College and Flathead Valley Community College, participate in this program. Further information can be secured from the participating schools.

BEST COPY AVAILABLE

W.A.M.I.

The University of Washington Medical School in 1971, with the assistance of federal grants, developed the WAMI program to provide for greater enrollment of medical students from Washington, Alaska, Montana and Idaho. This program differs from the WICHE program in that the students take the first year of their basic science requirements at a participating university in their home state and return to the University of Washington for the balance of the curriculum. However, during the last two years, the students receive part of their clinical education from a private physician in a non-metropolitan community. This training provides educational experiences to the student in family medicine, pediatrics, internal medicine, obstetrics and gynecology and also provides additional health manpower often needed in small communities.

During the 1973-74 school year 10 Montana students began their schooling under this program at Montana State University. Support fees are the same as for a regular WICHE student.

MINNESOTA RURAL DENTISTRY PROGRAM

The 1971 Legislature passed legislation which authorized the State of Montana to negotiate and enter into agreements with states outside the WICHE Compact to provide for the placement of Montana students in various programs of higher learning.

The University of Minnesota Dental School requested participation in such a program and accordingly eight Montana students were accepted into the University of Minnesota Rural Dentistry Program for the 1974-75 school year. The 1974 Legislature appropriated funds to support the program. This particular program places emphasis on returning dentists to the rural communities of Montana. Support fees are the same as for the WICHE program.

CONSOLIDATED ENROLLMENT REPORT

Montana University System, Private Colleges and Community Colleges

The following reports, compiled from the Registrar's Reports, present enrollment data for all institutions of higher education in Montana:

- Report A: Total Full-Time and Part-Time Enrollment
- Report A, Part 2: Net Class Distribution
- Report B: New Students transferred from Other Universities or Colleges and Schools
- Report E: Geographic Distribution of Students
- Report F: Non-Resident Students
- Special Report #1: Summary Report of Resident and Non-Resident Students in the Montana University System
- Special Report #2: Total Enrollment and FTE, Montana University System
- Special Report #3: FTE Students by Level of Instruction, Montana University System
- Special Report #4: FTE at Private and Community Colleges

The Format of these reports is comparable with the reports submitted to this office by the Registrars and follows the Registrar's Manual published in 1968 and adopted by the unit Registrars. Definitions applicable to these reports are reprinted below from the Registrar's Manual - Appendix A.

Total Enrollment: The number of individuals enrolled during a given school year and each academic period of that year.

Part-Time Student: For reporting purposes a part-time student in Montana is one taking less than 12 undergraduate credit hours or 9 graduate credit hours.

Full-Time Student: For reporting purposes a full-time student in Montana is one taking 12 or more undergraduate credits hours or 9 graduate credit hours.

First-Time Beginning Freshman: One who, in the current semester, term, quarter, or session, entered higher education for the first time.

Full-Time Equivalent (FTE): In Montana, 15 student credit hours for undergraduates and 12 student credit hours for graduates is considered the full-time equivalent.

Non-Resident Student: For purposes of this report, the home address of the student determines his residence categorization.
