ABSTRACT

The intent of this teaching module is to present structural word analysis information to participants so they can be effective teachers of reading. The module attempts to prepare participants to develop and uti'ize teacher-prepared materials dealing with structural analysis. Upon completion of this module, participants should be able to (a) syllabicate a given list of words, (b) properly accent a given list of words, (c) identify the prefixes and suffixes in a given list of words, (d) state and apply a syllabic generalization, and (e) state and apply an accent generalization. Participants complete a preassessment test, choose tasks from a list of alternatives, and conclude the module with a postassessment test. (PB)

INTRODUCTIONAL TO STRUCTURAL ANALYSIS

RATIONALE

Successful word attack is dependent not only on the ability to analyze a word phonetically, but also on the application of techniques of structural analysis. Structural analysis entails the decoding of a word through its elemental components. A word offers forth clues to pronunciation and meaning through its syllabic structure, the placement of accents, and the addition of prefixes and suffixes to the root. The intent of this module is to present structural analysis information to the teacher so that he can be a more effective teacher of reading.

Another objective of this unit is to prepare the teacher of reading to develop and utilize teacher-prepared materials as they relate to the teaching and practice of structural analysis. The elementary school student finds that the use of an entertaining, game-type format more readily lends information to learning.

OBJECTIVES

Given a series of learning activities on structural analysis, the participant will be able to:

- syllabicate a given list of words
- properly accent a given list of words
- identify the prefixes and suffixes in a given list of words
- state and apply a syllabic generalization
- state and apply an accent generalization.

PRE-ASSESSMENT

To assess your prior mastery of the terminal objectives of this unit of work, complete the following exercise.

Directions: Answer the following questions according to the directions noted in each.

- I. Look at the following nonsense words, and do the following:
 - A. Separate the words into syllables.
 - B. Place the proper accent marks.
 - C. Underline all prefixes.
 - D. Circle all suffixes.

- I. Required: A and either B, C, or D:
 - Prepare twenty teacher-constructed, structural analysis activity cards.

Directions: These should be designed to function at the grade level in which the participant teaches. are some suggested models for activity cards; however, participants should feel free to devise original activities with your instructor's approval of format.

- Sample Activity Card #1
 - Read the sentences below.
 - The farmer tied the horse.
 - 2.)
 - The farmer untied the horse.
 The helper loaded the truck with vegetables.
 - The helper unloaded the truck.
 - Use the same prefix in the blank spaces in the sentences that follow. Write the definition of the new word in the spaces provided after each sentence.

2.)	He <u>hitched</u> the horse to the post. He the horse.	
3.) 4.)	The boy <u>tied</u> his shoelaces. His shoelaces were	

- 2. Sample Activity Card #2
 - The list of words below can be defined by understanding the prefix, suffix and root in each. Use the prefix, suffix, and root charts to determine the meaning, and write the meanings in the spaces provided.
