IDENTIFIERS *Effective Reading Programs; Right to Read

ABSTRACT

This program, included in "Effective Reading Programs...", serves 184 disadvantaged white and Spanish-speaking children ranging in age from four to seven and having pretest reading scores of at least one grade level below expectancy. Individualized reading instruction and multilevel grouping are the focus of this program, begun in 1970. A diagnostic-prescriptive reading profile is developed for each student, and instruction is based on objectives. Classrooms feature learning and interest centers. Learning packages are organized to teach specific skills and are coded for use by the teacher, aide, or parent or by the child independently. The packets emphasize self-correcting and self-pacing activities and employ a multimedia approach. The materials include linguistics and phonics textbooks, worksheets, workbooks, library books, audiovisual media, and manipulative devices. Intergroup relations are stressed through a bicultural enrichment program, and parent and community involvement is emphasized in a school advisory program, volunteer program, and home visits. (TO)

SECTION II -- Program Screening Information

In this section, all questions are numbered at the right-hand edge; please answer each by marking the letter X in the appropriate box.

Is cognitive improvement in reading and reading-related skills a major focus of your program?

YES NO **

(6)

How long has your program been operating continuously?

- Less than a year
- At least a year but less than two years
- Two years but less than three
- Three years or more
- None of these (If none, indicate why)

(7)

Do you plan to keep your program operating for at least two more years (through the 1974-75 academic year)?

YES NO (If no, indicate why not)

(8)

Are evaluation reports (e.g., baseline test data, re-test data, measures of the program's effect) available?

- None available and none planned **
- None available but initial steps taken
- Available but not published
- Most recent publication prior to 1/1/68
- Most recent publication since 1/1/68

(9)

Evaluation data are available for how long?

- Three years or more
- More than two years, less than three
- More than one year, less than two
- Only one year
- Less than one year
- Not available **

(10)

Are the data evaluating your total program approach available for one or more sites?

More than one site (e.g., more than one school)

Your site only

Not available

(1)

How many participants or individual records are included in the evaluation?

Less than 10

10 to 29

30 to 49

50 to 99

100 to 199

200 to 499

500 or more

** (1)

If you marked any one of these boxes, do not complete this form or send program documents. INSTEAD, please detach the first 3 pages and return them so that your response can be recorded.

What measures have been analyzed to show the success of your program?

Analysis of nationally standardized reading test results

YES

NO

Analysis of locally developed reading test results

Analysis of nationally standardized general ability measures

Analysis of locally developed general ability measures

Analysis of other program success indicators (e.g., observations, affective measures, teacher records, questionnaires)

Other procedures (Please specify)

State Norms

Measures not yet analyzed

Are up-to-date program descriptions available (e.g., staff, participants, schedules and activities)?

YES

NO

(20)

What kind of improvement or gain by program students was found?

The mean test score of the students exceeds a specified norm

YES

NO

(21)

A mean gain over exactly one year is bigger than expected

(22)

A mean gain for less than one year is bigger than expected

(23)

The mean of students in the program exceeds that of comparable students not in the program

(24)

The mean gain of students in the program is greater than for comparable students not in the program

(25)

Some other improvement, not one of these (Please specify)

(26)

Parent attitude

How significant were the statistical results showing the effect of your program?

No tests of significance were made. Only median grade equivalents and quartile shifts used. No significant differences found yet

(27)

The program showed differences significant between the 5 and 10 percent one-tailed (10 to 20 two-tailed) level

The program showed differences significant at better than the 5 percent one-tailed (10 percent two-tailed) level

The program showed differences significant at better than the one percent one-tailed (two percent two-tailed) level

By what amount does the annual per-pupil cost of this program exceed that of the regular district program?

- Less than \$50
- \$50 to \$99
- \$100 to \$199
- \$200 to \$299
- \$300 to \$399
- \$400 to \$499
- \$500 to \$999
- \$1000 or more

<input type="checkbox"/>
<input type="checkbox"/>
<input type="checkbox"/>
<input type="checkbox"/>
<input type="checkbox"/>
<input checked="" type="checkbox"/>
<input type="checkbox"/>
<input type="checkbox"/>

(2)

For what target population of students is your program designed?

- | | YES | NO | |
|--|-------------------------------------|--------------------------|-----|
| Unselected cross section | <input type="checkbox"/> | <input type="checkbox"/> | (2) |
| Mentally retarded | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Bilingual | <input checked="" type="checkbox"/> | <input type="checkbox"/> | (3) |
| Disadvantaged | <input checked="" type="checkbox"/> | <input type="checkbox"/> | (3) |
| Physically handicapped (deaf, blind, etc.) | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Institutionalized | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Other groups (Please specify below) | <input type="checkbox"/> | <input type="checkbox"/> | (3) |

Are 20 percent or more of your program students in any of the following categories?

- | | YES | NO | |
|-----------------------------------|-------------------------------------|--------------------------|-----|
| American Eskimo, Aleut, or Indian | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Black | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Oriental or Asian | <input type="checkbox"/> | <input type="checkbox"/> | (3) |
| Spanish-speaking | <input checked="" type="checkbox"/> | <input type="checkbox"/> | (3) |
| White | <input checked="" type="checkbox"/> | <input type="checkbox"/> | (3) |
| All others | <input type="checkbox"/> | <input type="checkbox"/> | (3) |

In which area do the majority of the program students live?

- Rural and small town of less than 10,000
- Small city of 10,000-199,000
- Small city suburbs
- Inner area in large city of 200,000 or more
- Residential area in large city
- Suburbs of a large city

(4)

What is the average family income level of students in the program?

- Low income (under \$6,000)
- Middle income (\$6,000-\$15,000)
- High income (above \$15,000)

(43)

Are specific diagnostic techniques or instruments used to:

- Determine each student's level of reading readiness or skill (e.g., his reading grade level)? YES NO (44)
- (If yes, please specify)
Metropolitan Reading Readiness Test
Assessment of Program Objectives
Pupil Profile of Basic Skills Assessment
- Determine each student's strengths, weaknesses, and difficulties in language and reading skills (e.g., difficulty with decoding)? YES NO (45)
- (If yes, please specify)
Sullivan Diagnostic Assessment Language Dominance Index
Pupil Profile of Basic Skills Assessment Quick Assessment

(44)

(45)

In this program, how many hours per week are scheduled for the subject Language Arts?

- Assessment of Program Objectives
- Less than 2 hours
- 2 hours to 3 hours 59 minutes
- 4 hours to 5 hours 59 minutes
- 6 hours to 7 hours 59 minutes
- 8 hours to 9 hours 59 minutes
- 10 hours to 11 hours 59 minutes
- 12 hours or more

(46)

What summary statistics were used in the analysis of program data?

	YES	NO	
Means or medians	<input checked="" type="checkbox"/>	<input type="checkbox"/>	(47)
Standard deviations or variances	<input type="checkbox"/>	<input type="checkbox"/>	(48)
Covariances or correlation coefficients	<input checked="" type="checkbox"/>	<input type="checkbox"/>	(49)
Frequency counts, percentages, or proportions	<input checked="" type="checkbox"/>	<input type="checkbox"/>	(50)
Significance tests	<input checked="" type="checkbox"/>	<input type="checkbox"/>	(51)
Methods not mentioned above (Please specify)	<input type="checkbox"/>	<input type="checkbox"/>	(52)

How large was the estimated program effect on achievement (i.e., the average gain of students in the program over and above the gain expected in a comparison group)?
(If more than one estimation, give the higher figure only.)

One-tenth of a standard deviation unit	<input type="checkbox"/>	(53)
One-fifth of a standard deviation unit	<input type="checkbox"/>	
One-quarter of a standard deviation unit	<input type="checkbox"/>	
One-third of a standard deviation unit	<input type="checkbox"/>	
One-half of a standard deviation unit	<input type="checkbox"/>	
Better than a half SD	<input type="checkbox"/>	
Gain cannot be given this way Median Grade Equivalents	<input checked="" type="checkbox"/>	

Which of these factors were taken into explicit account in the analyses of BOTH program AND comparison data?

	YES	NO	
Age	<input type="checkbox"/>	<input type="checkbox"/>	(54)
Sex	<input type="checkbox"/>	<input type="checkbox"/>	(55)
Grade level	<input checked="" type="checkbox"/>	<input type="checkbox"/>	(56)
Ethnic proportions in group	<input type="checkbox"/>	<input type="checkbox"/>	(57)

What was the reliability coefficient of the test used to measure reading achievement for this program?

Between .6 and .69

(58)

Between .7 and .79

Between .8 and .89

.9 and over

Given by publishers for standardization group only as over .8

Not yet determined

No such test was used

What percentage of annual attrition or loss of students from the program was allowed for, to correct for bias in statistical analysis (e.g., by eliminating from consideration persons who start the program but do not finish)?

Was 15 percent or more

(59)

between 10 and 14.9 percent

Was between 5 and 9.9 percent

Was between 0 and 4.9 percent

No allowance was made for losses

No losses occurred

How similar were the pre- and post-tests used to determine gain in reading skills?

Were identical

(60)

Were parallel forms of a single test

Were consecutive forms from the same source

Were similar in form, but from different sources

Only one test has been applied

Tests were not of reading skills

No tests were applied

SECTION III -- Brief Descriptive Information

In what year did the program begin operation? 1970-1971
(Year)

(61)

How many program participants and classes (groups) are there in your program?
If this is a school-based program, indicate enrollment by class and grade level.

(62)

<u>Grade or Other Level</u>	<u>Number of Participants</u>	<u>Number of Classes or Groups</u>
<u>Preschool</u>	<u>45</u>	<u>3</u>
<u>Multi-Age 4,5,6</u>	<u>28</u>	<u>1</u>
<u>Multi-Age 5,6,7</u>	<u>29</u>	<u>1</u>
<u>Multi-Age 6,7</u>	<u>27</u>	<u>1</u>
<u>Kindergarten</u>	<u>28</u>	<u>1</u>
<u>Second Grade</u>	<u>27</u>	<u>1</u>

Please list the major instructional strategies used to help clients improve their reading-related skills. Briefly describe, if necessary.

(63)

Individualized Diagnostic Prescriptive Procedures.

Individual and small group instruction based on objectives - emphasizing self-assessment and self-pacing activities.

Use of Learning Packages (coded for use by 1. teacher, 2. aide, 3. parent, 4. child independently) to teach specific skills.

Multi-Media community-oriented, bilingual library and Learning Center

Are there any major program features (e.g., parent involvement) which are not included in your list of instructional strategies above and are not included in your list of key program objectives in the chart at the end of this questionnaire? If so, please list up to three (3) of these major program features. Briefly describe, if necessary.

(64)

1. Parent involvement through school advisory committee, volunteer program and home visits.

2. Intergroup relations - bicultural enrichment program.

Please list up to five (5) kinds of materials and/or equipment which are absolutely indispensable for your program, noting their availability as "commercial," "district," "teacher-prepared," "student-prepared," or other appropriate comment. (65)

<u>Most Essential Items of Materials and/or Equipment</u>	<u>Quantity for 30 Students</u>	<u>Availability</u>
<u>District Developed Learning Packets</u>	<u>1 set</u>	<u>yes</u>
<u>District Developed Quick Assessments for Reading Labs</u>	<u>1 kit</u>	<u>yes</u>
<u>District Developed Objectives and Criterion Assessments</u>	<u>1 book</u>	<u>yes</u>
<u>Systems 80, EFI, Typewriters, Adding Machines</u>	<u>1 of each</u>	<u>Commercial</u>
<u>Listening Posts and other Media</u>	<u>1</u>	<u>Commercial</u>

Where are program activities physically located? If any special features were provided to suit these facilities to the program, briefly note. (56)

<u>Location of Program Activities</u>	<u>Special Features</u>
<u>Individual Classrooms</u>	<u>Listening Posts. T.V. receivers for reception of District developed telelessons</u>
<u>Comprehensive Learning Centers</u>	<u>Special wiring of carrels for implementation of Multi-Media systems. School inventory provides list of resource program materials available</u>

What is the total cost of instructional materials for a class of 30? (67)

\$ 970.00 for a class of 30, to the nearest dollar

To the nearest dollar, roughly what portion of the funds currently required to maintain the program come from the following sources? Please specify the exact source for each category, e.g., Title III. (68)

<u>\$ 2500</u>	<u>Federal</u>	<u>Title I, ESEA</u>
<u>\$ 33076</u>	<u>State</u>	<u>SB 1302, ECE, SB 1331, AB 2284</u>
<u>\$ 27615</u>	<u>Local</u>	<u>Anaheim City School District</u>
<u>\$</u>	<u>Private</u>	<u>Not Applicable</u>

What is the average, annual per-pupil cost for the district's regular school program (i.e., cost per pupil for students outside the special reading program described herein)? (69)

\$752.06, per-pupil cost for regular program

Staff Category	# Req'd. for 24 Students	Portion of Time	Special Professional Qualifications for Program	Special Role Performed in Program	Program Requires Inservice Training? If so: For How Many Hours

Does your DISTRICT have stated educational goals? Yes SCHOOL? Yes

OBJECTIVES

State reading program goals and objectives; include both affective and cognitive. TITLE I PROPOSAL

1. Overall three year objectives are to move Washington School Reading scores towards normal distribution pattern.
2. In 1972-73 in Reading to make 1.1 months gain for each month in the program.
3. To develop independent work habits and self-direction.
4. To improve students self-esteem.
5. To improve parent-student attitude towards school.
6. To improve teacher ability to use Reading materials effectively.

EVALUATION

List major evaluative instruments and/or procedures used to assess degree of achievement for these objectives.

- Kdgn. Metropolitan Reading Readiness Form B
- First Cooperative Primary 12A
- Second Cooperative Primary 23A
- McDaniel Inferred Self-Concept Scale

SCHOOL READING PROGRAM DESCRIPTION

Page 3

District Anaheim City School

School George Washington

List and describe the materials and methods used in the reading program including software and hardware.

BASIC TEACHING APPROACHES & TECHNIQUES

There is a 5 to 1 pupil to adult ratio in the Reading Lab. and classroom. Student decreased dependency on the teacher through use of programmed instructional materials. Use of volunteer tutors and parents is on a one to one basis. Individual diagnosis and prescriptions provide specific needed skills. Each student is made aware of his needs and strengths and is encouraged to set his own pace and move independently through the prescribed program.

MATERIALS AND EQUIPMENT

Sullivan Series, Systems 80, Electronic Futures Inc., word cards. SRA, Learning Systems Inc., cassettes, State texts (with workbooks and ditto masters), Open Court program materials, filmstrips, 16 mm. projector, listening posts, electric typewriter with headsets.

LIBRARY PROGRAM DESCRIPTION (personnel, equipment, space, materials)

The Anaheim City School District in cooperation with the City of Anaheim is in the process of developing a Bilingual - Bicultural Library Community Center at Washington School to be staffed by para-professionals. Included will be materials for both children and adults and plans are to maintain evening and weekend hours.

SCHOOL READING PROGRAM DESCRIPTION

District Anaheim City School

School George Washington

Describe Diagnostic-Prescriptive Components of the Instructional Reading Program.

A Prescriptive Profile Card is prepared for every child based on the needs assessment and standardized pre-test information. The Metropolitan Reading Readiness Test Form B, Murphy Durrell and the Cooperative Primary Forms 12A and 23A are given to each child to provide this information.

The Quick Assessment device is used in the Reading Lab. to determine specific reading prescription which is then entered on the profile card. A Reading skills inventory supplements publisher's assessment devices to provide on-going needs information.

SCHOOL READING PROGRAM DESCRIPTION

District Anaheim City SchoolSchool George Washington**DESCRIBE THE TEACHER ROLE AND RESPONSIBILITIES IN IMPLEMENTING THE READING PROGRAM:****For responsibility to learner--assessing pupil strengths and weaknesses and planning instruction.**

Setting specific objectives for each child
Administering pre-tests (Title I) and other assessment devices
Planning program to meet individual needs

For selection of techniques and materials.

Teacher makes the decision as to the appropriate program, techniques and materials that will best meet needs of individual children.

For parent involvement--participation.

Teacher encourages, seeks and provides in-service help to parents who will work in the classroom with children.

For reporting to parents.

Planned and scheduled parent conferences (at least 4 per year). Home visitations are made and parents are given a choice between a report card or a conference.

Describe the staffing pattern of the personnel involved in the reading program, including paraprofessional, classified and volunteer people.

Teachers	6	Comprehensive Learning Center Teacher	1
Instructional Aides	7	Counselor	1/2
Parent Volunteers	15	Nurse	1/2
Secretary	1	Community Aide	1/2

Attach job descriptions of personnel involved in the reading program.

SCHOOL READING PROGRAM DESCRIPTION

District Anaheim City School

School George Washington

NEEDS ASSESSMENT or Baseline Data which determined the Objectives. (See page 2)
(Students needs, test data, parent survey, etc.)

A target area for Title I project has been established and includes the Washington School attendance area. Baseline data is also provided by comprehensive standardized test administration supplemented by specific skills assessment and publishers' placement tests.

CURRENT PROGRAM:

Beginning date

CHANGES SINCE INITIATION:

1972-73 - The Open Court Reading Program has been implemented at the 1st grade level.

1972-73 School Year - Plans are underway for implementation around December 1, 1972 of a Multi-Age Program (to include a class for four, five and six-year-olds) which will be based on the State Guidelines for Early Childhood Education and make it possible for children to be grouped according to skills without the constraints of grade placement structure. An intensive language development program (using the Peabody Language Program) will be implemented according to need but focussed specifically on non-english and four and five-year-olds. The Open Court Reading Program will continue at a six-year-old level and be introduced at the five year level. Reinforcement and remediation on an individual need basis will continue to operate in the Comprehensive Learning Center.

SCHOOL READING PROGRAM DESCRIPTION

District Anaheim City SchoolSchool George Washington

Describe the amount of time for student participation in the instructional reading program. Include information regarding student scheduling techniques.

Students spend a minimum of 1 hour of classroom time daily on reading and reading connected activities. In addition to this approximately 30 minutes per day is spent in the Reading Lab. working on individually prescribed programs designed to meet diagnosed reading skill needs.

SCHOOL READING PROGRAM DESCRIPTION

District Anaheim City School

School George Washington

Describe how reading skills acquired by the student as a result of his specific reading instruction are applied, reinforced, or expanded in other areas of the curriculum.

Reading skills are used to develop new hobbies and interests, as well as provide background for Social Studies, Science and multi-cultural awareness. Through development of skills in the selection of appropriate reading materials, the child can broaden his range of experiences in areas where interest was initially awakened through the reading program.

The child is encouraged to explore reading materials independently and bring this interest into the home where other family members can share.

Extensive reading also creates awareness in pre-vocational areas and leads with encouragement to further exploration.

Field trips are also used to broaden the child's experiential world, develop new interests, and extend his reading experiences into his non-school life.

ANAHEIM CITY SCHOOL DISTRICT

CLASS TITLE: Community Aide - Title I

REPORTS TO: Assistant Superintendent for Education-Administration

BASIC FUNCTIONS:

Under general supervision, the Title I Community Aide will assist in the operation of the Washington Community Library and will work in all phases of the Title I Program, and will work closely with the principals, teachers, nurses, parents, staff members and community agencies to implement goals and objectives of the total program.

TYPICAL RESPONSIBILITIES:

1. Works out of the library at Washington School.
2. Assists in the operation of the Washington Community Library as a community liaison person.
3. Acts as a liaison between the school program and Anaheim Public Library personnel.
4. Uses the library as an information center for community members, making available such information as location of English classes, how to obtain citizenship, available government services and various other general assistance activities.
5. Acts as liaison between the school program and the community.
6. Assists the Title I Nurse in parent communication, follow-through activities, and home visitations.
7. Establishes and maintains cooperative relations with others.
8. Performs other related duties as required.

ANAHEIM CITY SCHOOL DISTRICT
JOB DEFINITION FOR HOME-SCHOOL COUNSELOR

BASIC FUNCTIONS

The Home-School Counselor works under the supervision of assigned building Principals and under the direction of the Assistant Superintendent, Education-Administration. He works as a member of the total instructional staff and as a resource person for the parents, principal and teachers in the areas of child growth and development counseling and guidance. He shall work directly with children and their parents to improve school-home relationship and help provide for each child a more successful school experience. He provides guidance and counseling to all Title I children to help them attain the maximum benefit from their educational program.

TYPICAL RESPONSIBILITIES

1. Communicates effectively with all segments of the community (including the Spanish-speaking groups).
2. Counsels and assists pupils individually and in groups in relation to school achievement and behavior.
3. Counsels and consults with parents individually and in groups concerning pupils' achievement and adjustment.
4. Counsels and consults with teachers and other members of the school staff.
5. Maintains a liaison relationship between the school, the community and community services.
6. Gathers, organizes and interprets data about students to teachers and parents.
7. Helps to identify children with special problems. Refers and consults with psychological staff regarding remedial services for these children.
8. Aids in the administration and interpretation of tests.
9. Participates in evaluation of guidance services, special programs and group testing.
10. Provides the school staff with information about current guidance practices and related research.
11. Gathers, organizes and interprets data for Title I Projects at the request of the Assistant Superintendent, Education-Administration.

TYPICAL RESPONSIBILITIES (continued)

- 12. Helps the principal to organize and carry out an effective guidance program in the school.**
- 13. Works with psychological staff, nurses and other specialists to determine the special needs of children and to help communicate and plan for meeting these needs.**
- 14. Attends County, State and National professional meetings and participates in conferences in allied disciplines.**
- 15. Performs other related duties as may be designated by his assigned Principal or the Assistant Superintendent, Education-Administration.**

ANAHEIM CITY SCHOOL DISTRICT

13. Performs other related duties as required.

ANAHEIM CITY SCHOOL DISTRICT

JOB DEFINITION FOR TEACHERS

BASIC FUNCTIONS

The teacher works as a member of the instructional staff under the direction of his assigned Principal. The duties and functions of the teacher are directed toward a diagnostic and prescriptive approach to instruction. The identification of each pupil's instructional levels and formulation of realistic and obtainable objectives are the primary responsibilities of the teacher utilizing the advice and aid of the building Principal. The teacher is responsible for the progress of each pupil under his direction. The teacher's instructional program is keyed to the content of What We Teach and the levels of instruction in District Goals and Objectives.

TYPICAL RESPONSIBILITIES

1. Identifies and adjusts instructional objectives in terms of student need using District goals and objectives as guidelines.
2. Prepares and executes plans for effective teaching.
3. Evaluates pupil progress in relation to instructional objectives using available resources.
4. Maintains classroom control conducive to a suitable learning environment.
5. Performs other professional and public relations oriented duties normally expected of teachers such as:
 - (a) Parent-Teacher conferences.
 - (b) Conferences with administrators and other teachers regarding students.
 - (c) District committees, as assigned by the Superintendent or his designated representative.
 - (d) Back-to-school night programs.
 - (e) Selected PTA activities.
 - (f) Sponsorship and supervision of student activities.
 - (g) Teacher inservice programs.
 - (h) Open houses.
 - (i) Faculty meetings.
 - (j) Other meetings and functions related to the instructional program as may be designated by the Superintendent or his representative.

WASHINGTON SCHOOLObjectives

The major objective of this project is to develop a model for bringing the four year old child into the regular school system by inclusion in a multi-level prekindergarten, kindergarten and grade 1 classroom, to implement individualized instruction/learning and continuous progress.

Four year old children participating in a vertically grouped early childhood program should achieve significant growth in learning readiness, language recognition and response, conceptual development, perceptual skill, mathematics achievement, attitude and social maturity. The benefits derived by older children serving as models for younger children will also be observed and evaluated.

Additional program objectives are to:

- bring about institutional change and provide a higher degree of individualized instruction through the requirement of multi-age grouping.
- explore methods appropriate to individualization of instruction.
- evaluate effective programs of early childhood education.
- develop adequate in-service meetings to train personnel (administrators, teachers, para professionals) to work effectively in multi-age groupings.
- initiate innovative programming by emphasizing programs providing varied experiences and environment and flexibility of choice.
- involve parents in planning, operation and evaluation of the project.
- develop in the target population those social and interpersonal relationships which act as mediators in the learning process.

Program Description and Procedures

This program proposes to establish multi-age groupings of children in regular classrooms as a vehicle to encourage and require a more individual instructional approach to the participants.

The hypotheses of the program are as follows:

1. Beginning four-year-olds, after three years in the program, will exceed other first graders in control classes on standardized reading and mathematics tests.
2. Five and six-year-olds will have more positive attitudes toward school and will have made greater social growth than their counterparts in control kindergarten and first grade classes.
3. Four and five-year-olds will show measured growth in reading and mathematics.
4. The multi-age classroom will increase their abilities to individualize instruction.

The chief reason for choosing a multiage format for the program was to help children and adults break out of the constraints of grade level thinking. We know that each child is a unique individual, but we have not traditionally organized our schools in keeping with this knowledge. Even our graded textbook adoptions deny individual differences. In the multiage classroom instruction by necessity becomes more individualized, children are treated as individuals and allowed to learn as individuals.

Main Activities

1. Include preschoolers in multiage classes consisting of 4-5-6 year olds together for instruction.
2. Explore strategies and materials in attempting to create a climate for individuality.
3. Use adult volunteers in the program to give more individual attention to pupils.
4. Encourage crossage tutoring, building on student strengths.
5. Hold teacher and parent conferences (individual and groups) regarding progress of children.

LOW ENROLLMENT

1. Enrollments at Washington have dropped - well below district averages at most grade levels. Average class size in the district is about 27. At Washington, with the adult-pupil ratio about 9 to 0, there are possibilities for a variety of groupings.
2. FEWER TITLE I CHILDREN gives us more flexibility as far as staffing and planning for individual needs. Also makes possible - as it has in the past - the trying out of new concepts and ideas here, with Washington acting as a kind of pilot area - and programs that are successful here can be expanded to other schools in the district.
3. DISTRICT PLANNING for Washington has been 2 pronged -
First, there has been an effort to provide a good primary setting - an environment appropriate to the education of young children. The addition of pre-school classes and the transferring of 3rd grade have both been moves in that direction.

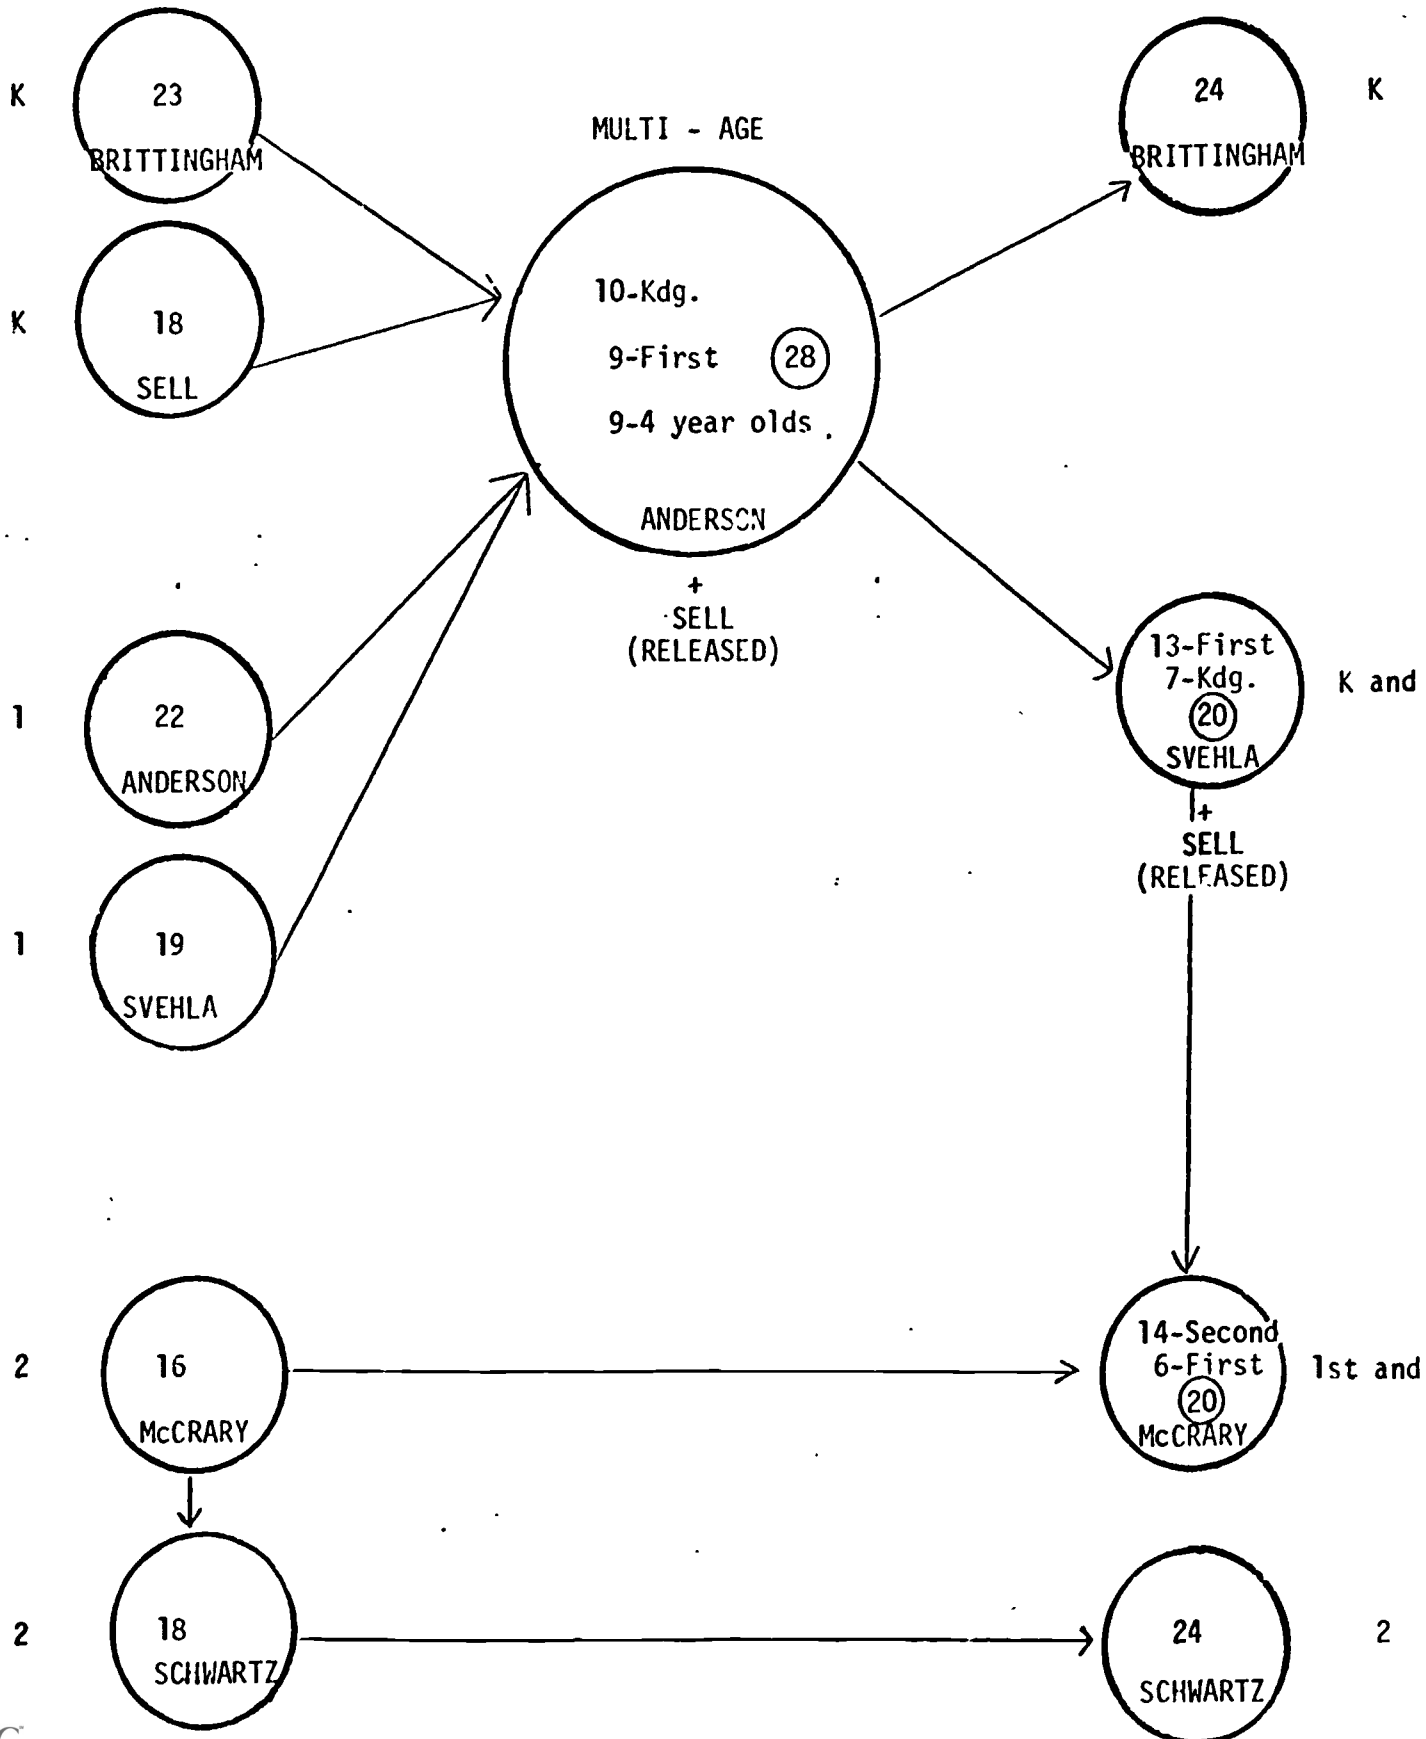

Secondly, thought has been given to moving towards the State Guidelines for Early Childhood Education - (copies of which are here) and this plan envisions an eventual 4-8 year old ungraded primary program.
4. One way of beginning to implement this long range planning is with a multi-age grouping - a grouping in one class of 3 different age groups - in this case 4, 5, and 6 year olds. This would be the beginning of a move toward the ungraded certain basic skills at their own pace and groupings are according to skills rather than age.
5. Because of the enrollment factors it may be possible to release a teacher to assist where needed - here it would probably be in kindergarten and in the multi-age class. (See chart for one possible arrangement.)

Several steps to take -

- a. select teacher
- b. select students
- c. inservice teacher
- d. starting date
- e. parent meeting
- f. evaluation design
- g. materials
