### ABSTRACT

The guide is one of a series developed in a pilot project to integrate career education concepts with traditional subject matter and topics in elementary grades K-7 and in special education. Developed by teachers in the Radford, Virginia, schools, the units make use of resource persons from outside the school, occupational information, interviewing and reporting techniques, parent and family involvement, hands-on experiences, role playing, and field trips. All units are organized in a column format which provides an introductory motivating activity with related resources and materials. The lessons are based on content questions, which are explored by specific techniques and activities and supported by resource materials in all media. Not all data on materials are complete. For the first grade level, the units are: armed services, the community, the ccean, the family, the farm, a safari (wild animals and the zoo), the school, self-awareness, and a toy shop. (MDW)

Documents acquired by ERIC include many informal unpublished \* materials not available from other sources. ERIC makes every effort \* to obtain the best copy available. nevertheless, items of marginal

\* reproducibility are often encountered and this affects the quality

\* of the microfiche and hardcopy reproductions ERIC makes available

\* via the ERIC Document Reproduction Service (EDRS). EDRS is not \* responsible for the quality of the original document. Reproductions \*

\* supplied by EDRS are the best that can be made from the original. 

### RADFORD CITY SCHOOL'S CAREER EDUCATION PROJECT RADFORD, VIRGINIA 24141

### INTRODUCTION TO ELEMENTARY CAREER EDUCATION UNITS

The Career Education Program of the Radford City Schools is a pilot project of research and development for career education techniques and materials. It is funded through a grant from the Office of Education which extends until December 14, 1974.

The unit approach was utilized to implement career education concepts on the elementary level. A total of 99 career education instructional units have been developed by the Radford These units were designed for use in grades K-? and special education.

The units were developed around specific topics (clothing, weather, etc.) and incorporated the following elements:

- Subject content relationships
- Occupational information 2.
- 3. Resource speakers
- 4. Interviews and reports
- 5. Parent and family involvement
- Hands-on and other sensory experiences
- 7. Role playing and simulation activities
- Career related field trips

The majority of the units contain more activities than would normally be included in a unit, therefore the teacher can select the most appropriate activities for her particular students. The length of time that should be spent on each unit is approximately four to six weeks.

# INTRODUCTION TO: "WHEN JOHNNY COMES MARCHING HOME" - ARMED FORCES

The primary purpose of this unit is to help the children become aware of the various branches of the armed services.

It will stimulate an appreciation for the services and a knowledge of the numerous jobs available and the duties of each.

# BROAD OBJECTIVES:

- To become aware of the branches of the armed services.
- Ņ To develop an understanding of the need for the armed forces.
- Ψ To give the child an opportunity to begin his decision of the branch he prefers.

1. Why do we have armed services?	Motivation to: "When Johnny Comes Marching Home" Teacher asks: Which branch will you take?	CONTENT QUESTIONS
Class discussion pointing out that every nation such as the United States must be able to defend its interests on land and sea, and protect the lives and property of its citizens in other regions. During war and other emergencies, the United States must be ready to send well-trained, disciplined forces to accomplish these goals.	Bulletin board of a tree with uniforms and equipment on separate branches depicting the different branches of armed services.  Class discussion.	TECHNIQUES AND ACTIVITIES
Books.	Pictures. Tree (it could be made 3 dim. by using real tree links).	RESOURCES AND MATERIAL

INTRODUCTION TO: The Family "All In A Family"

This unit follows the self unit and broadens the child's horizons of his world. His thinking is now directed from self to include his family members and the jobs of

community. The child, in this unit, becomes aware of a variety of jobs within his own home, and more specifically the occupations of his parents both in the home and in the each family member, as well as his role as a cooperative member.

First grade subject matter and skills will flow throughout this unit easily.

This family unit preceeds the unit on school.

	BROAD OBJECTIVE:

INTRODUCTION TO:

Self

"iho's That In The Mirror?"

This unit is an introduction or base to many units, it is to focus the child's attention first on the things he knows about or is aware of in his own world, and then to branch out to the world around him.

The objective or purpose is to help this child of "tender" years to become aware of self and of self in relation to others; proceed to the family the next closest unit to him); then continue with school; and finally, to discuss the community.

Hopefully, the child will then possess an adequate understanding and appreciation of his own world and the world around him.

First grade skills and subject areas will correlate well throughout this unit.

To help the child become aware of things that are important to him in his own world. (2)

INTRODUCTION TO:

School "It's In The Bag"

This unit extends the child's knowledge of his world still further. It presents him with information concerning the school staff and their jobs. Also, the child becomes aware of his role and his job in school and in relation to others. He learns to appreciate his role and that of the school helpers.

First grade activities and subject matter will correlate throughout the unit.
