ABSTRACT

The guide is one of a series developed in a pilot project to integrate career education concepts with traditional subject matter and topics in elementary grades K-7 and in special education. Developed by teachers in the Radford, Virginia, schools, the units make use of resource persons from outside the school, occupational information, interviewing and reporting techniques, parent and family involvement, hands-on experiences, role playing, and field trips. All units are organized in a column format which provides an introductory motivating activity with related resources and materials. The lessons are based on content questions, which are explored by specific techniques and activities and supported by resource materials in all media. Not all data on materials are complete. For the third grade level, the units are: aerospace, dentistry, the hospital emergency room, the town, postal services, the radio station, the recreation department, school management, weather, and the zoo. (MDW)

* Documents acquired by ERIC include many informal unpublished *
* materials not available from other sources. ERIC makes every effort *
* to obtain the best copy available. nevertheless, items of marginal *
* reproducibility are often encountered and this affects the quality *
* of the microfiche and hardcopy reproductions ERIC makes available *
* via the ERIC Document Reproduction Service (EDRS). EDRS is not *
* responsible for the quality of the original document. Reproductions *
* supplied by EDRS are the best that can be made from the original. *

RADFORD CITY SCHOOL'S CAREER EDUCATION PROJECT
RADFORD, VIRGINIA 24141

INTRODUCTION TO ELEMENTARY CAREER EDUCATION UNITS

The Career Education Program of the Radford City Schools is a pilot project of research and development for career education techniques and materials. It is funded through a grant from the Office of Education which extends until December 14, 1974.

The unit approach was utilized to implement career education concepts on the elementary level. A total of 99 career education instructional units have been developed by the Radford teachers. These units were designed for use in grades K-7 and special education.

The units were developed around specific topics (clothing, weather, etc.) and incorporated the following elements:

1. Subject content relationships
2. Occupational information
3. Resource speakers
4. Interviews and reports
5. Parent and family involvement
6. Hands-on and other sensory experiences
7. Role playing and simulation activities
8. Career related field trips

The majority of the units contain more activities than would normally be included in a unit, therefore the teacher can select the most appropriate activities for her particular students. The length of time that should be spent on each unit is approximately four to six weeks.

RADFORD, VIRGINIA 24141
PHONE: 1-703-639-6673

INTRODUCTION:

Most all children have at one time or another heard a radio program of some form. Their interest is keen enough and they are witty enough to develop their own classroom radio program. It is hoped that through this unit the class will learn about the operation and functions of a radio station as well as the job opportunities which are available to them.

BROAD OBJECTIVES:

1. To help the child see himself in relation to the radio station.
2. To help the child learn about the various qualifications and special requirements that are needed to hold a position in this industry.
3. To help the child discover the various occupations available through the radio station.
4. To help the child realize the financial set up of the radio station.
5. To help children learn how they would apply for or seek employment in this area.
6. To help children gain an appreciation and wholesome attitude toward the radio station.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
MOTIVATING ACTIVITY 1. What is a radio station? 2. Why do we have radio stations? 3. Does Radford have a radio station? Where is it?	<p>Listen to a radio program or broadcast in the classroom. Discuss what have just heard - where it came from.</p> <p>Make a bulletin board using title of unit and sound waves moving toward an ear.</p> <p>Put up a poster board or piece of tag board titled "New Words". Add any new words met in this unit - use them as spelling words or learn them as sight vocabulary.</p>	<p>Radford Hall, Nuttall.</p>

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL																				
4. How do we actually hear the radio programs? What is involved? (bring in sound & sound waves)	<p>Use transparencies. Teacher prepare showing sound waves.</p> <p>Read story from reading book.</p> <p>Filmstrip.</p> <p>Books.</p>	<p>Rinf. Around the World.</p> <p>F-S47 <u>An Introduction to Sound.</u></p> <p>Geralton, James. <u>The Story of Sound.</u></p> <p>Irving, Robert. <u>Sound & Ultrasonics.</u></p> <p>O'Neill, Mary L. <u>What Is That Sound?</u></p> <p>Sootin, Harry. <u>Science Experiments with Sound.</u></p> <p>Wolff, Janet, and Owett, Janet. <u>Let's Imagine Sounds.</u></p> <p>National Teachers Association "Sound Energy in Waves."</p> <p>"Sound." The Golden Book Encyclopedia. Childcraft.</p>																				
Set up a filmstrip learning center. The children can work in small groups and view and discuss these filmstrips.	<p>Sights and Sounds of America with record</p> <table> <tbody> <tr> <td>F-A33</td> <td>F-A38</td> <td>F-A43</td> <td>F-A48</td> </tr> <tr> <td>F-A34</td> <td>F-A39</td> <td>F-A44</td> <td>F-A49</td> </tr> <tr> <td>F-A35</td> <td>F-A40</td> <td>F-A45</td> <td>F-A50</td> </tr> <tr> <td>F-A36</td> <td>F-A41</td> <td>F-A46</td> <td></td> </tr> <tr> <td>F-A37</td> <td>F-A42</td> <td>F-A47</td> <td></td> </tr> </tbody> </table>	F-A33	F-A38	F-A43	F-A48	F-A34	F-A39	F-A44	F-A49	F-A35	F-A40	F-A45	F-A50	F-A36	F-A41	F-A46		F-A37	F-A42	F-A47

CONTENT QUESTIONS

TECHNIQUES AND ACTIVITIES

RESOURCES AND MATERIAL

5. What jobs are found at the radio station?

Experiments involving sound waves.

Class discussion.
Use comic books.

Use cassettes.

C281 Poreye and Communication and Media Careers.
CE-CT-A53 Broadcast Technician:
CE-CT-A53 Radio - TV Announcer.

6. Are all the people responsible for a broadcast at the station? Where are they?

Class discussion.

7. What are the duties of the various people involved? What requirements are needed to hold each position? Is any special training or talents required?

Review cassettes.
Resource person.
Filmstrip.

CE-11 Speaking & Writing.

Class discussion.

Make tape recordings of the class members reading various types of material to show the importance of a clear distinct voice when preparing a selection for a broadcast.

Tape recorder - cassette tape

Energy in Waves. National Teachers Association.
Science Experiments with Sounds. Sootin, Harry.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
<p>8. What happens if a radio broadcaster gets sick?</p> <p>9. How are radio stations financed?</p>	<p>Class discussion. Resource person can discuss. Interview - a group of children can do this as a project and present it to the class.</p> <p>Role play this situation.</p> <p>Class discussion.</p> <p>Pretend to try to sell ads to finance a special radio program - just how would you go about it?</p>	
CULMINATING ACTIVITY	<p>Make a microphone - set up a radio station - prepare a broadcast complete with commercials, news reports, music, etc.</p> <p>Can present news to the class in this fashion.</p>

INTRODUCTION TO: AEROSPACE - BLAST OFF!

Many third graders are interested in space and space travel. Although the jobs in this area are decreasing, it seems that a unit of study in this area is acceptable since the children express a desire to learn the subject matter. It seems that the children should know about any field where jobs are diminishing as well as flourishing in order to have a realistic picture of the "World of Work".

OBJECTIVES:

1. To help each child realize his position or relationship to space.
2. To help each child learn about the jobs and opportunities available in the area of aerospace.
3. To help each child gain knowledge about the requirements and qualifications in this area.
4. To help child learn about the cost of the space program and why the figures seem large.
5. To give the child guidance so that he understands that if he chooses a career in this area that he will be competing with many others and that at present job opportunities are small.
6. To help the children learn how they go about applying for the jobs in this area.

CONTENT QUESTIONS

TECHNIQUES AND ACTIVITIES

RESOURCES AND MATERIAL

MOTIVATING ACTIVITY

Make a bulletin board about space.
Put circles of different sizes on
the bulletin board, then put
question marks on each circle.
The circles represent the differ-
ent planets. Title the bulletin
board "What Are These"?

Make a display of books about
space and space travel. Plan
these as free reading materials.

You Will Go To The Moon.

Mae Freeman.
Space Travel. Jeanne Bendick.
Man & Space. Arthur Clarke.
By Space Ship To The Moon.

Mae Freeman.
Space Flight & How It Works.
William Gottlieb.
Men Behind the Astronauts.

Wayne Hyde.
A Book of Astronauts For You.
Leonard Kessler.

You and Space Travel.
John B. Lewellyn.
Space Travel. Ley Willy.
True Book of Space.
Illa Podendorf.

Put up pictures about space
program - pictures available
from Kodak

Sandy has in her room.

CONTENT QUESTIONS

TECHNIQUES AND ACTIVITIES

RESOURCES AND MATERIAL

4. What are the different planets? Which one is the smallest? the largest? Which one is closest to the sun? farthest away?

Use overhead projector and construction paper and make the different constellations - use pins to make the holes so that when the paper is placed over the screen the light can shine through the holes - tell about the different constellations.

Cut out stars from white or yellow construction paper and paste on a dark piece of paper to make the constellations at night in the sky - use for a bulletin board.

Refer to Science book.

Label the different circles on the bulletin board (from the beginning of the unit) to show the planets in relation to the sun.

Concepts in Science.

Make up a song about the planets.

Write stories about which planet you would like to visit and why.

Start a vocabulary chart listing all new words encountered so far.

CONTINUED

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
5. What do we know about each planet?	<p>Class discussion after reading in science book.</p> <p>Oral reports - individual or group.</p> <p>Set up a learning center about the planets. Have stories or short sketches about each of the planets and worksheets or questions to accompany the stories. Let the child read about the planet and then answer questions. There should also be answer sheets so that the child can check his answers.</p> <p>Have a short skit with different children assuming the role of the different planets. In the skit they can reveal information about their planet.</p> <p>Make paper mache replicas of the planets and the sun. Hang them around the room.</p> <p>Filmstrips.</p>	<p><u>Concepts in Science.</u></p> <p>Balloons, paper mache mix, string, tempera paint, brushes</p> <p>F-S58 <u>The Sun and Its Planets.</u> F-S59 <u>The Earth in Space.</u></p> <p>Review transparencies used earlier.</p>

RADFORD, VIRGINIA 24141
PHONE: 1-703-639-6673

INTRODUCTION: Children are inherently interested in living things in their environment. Zoo animals, being unusual, hold a fascination for this age child and this subject affords many opportunities for the study and appreciation of the management of large and small zoos. The children will become aware of the varied occupations involved in this area.

BROAD OBJECTIVES:

1. To give the children an awareness of when, how, and why zoos began.
2. To give the children an understanding of the main classifications of animals.
3. To develop an understanding of the people needed to maintain a zoo.
4. The children will become aware of the importance of presenting information both orally and in written form.
5. The student will recognize the necessity for mastery of the basic skills needed for all jobs covered in this study.
6. The children will begin to understand the economics involved in maintaining our zoos.
7. To guide the children in the understanding of the difference between fact and fiction.
8. The children will begin to use resource information.
9. The children will begin to understand the importance of cooperation and sense of responsibility among the many workers necessary to maintain a zoo.
10. To help the children understand the scientific and educational importance of zoos.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
1. How many have visited a zoo?	Class discussions. List the names of zoos children have visited, pointing out different types.	
2. Why do we have so many different types of zoos?	Oral reports by children who have visited zoos recently.	
3. Where and when was the first zoo?	Historical facts will be given by the teacher in the form of handout material and maps, supplemented by group discussion.	The "World Book Encyclopedia, 1970 Edition, pages 502.. 504
4. What are the occupations and job requirements of the people who operate a zoo?	Collect material for a booklet which will be added to throughout this unit and completed, if desired, as a culminating activity.	
5. How can we obtain correct information about zoos?	Write letters to various zoos requesting information and materials (using correct form).	
	Looking up information in reference books, and making written reports.	
	Cassettes: CE-CT-A20 - "Robert and His Father Visit The Zoo" CE-CT-A107 - "I Want To Be A Zoo-Keeper"	
	Viewing cassettes, filmstrips (and films listed in film catalog).	

CONTENT QUESTIONS

RADFORD, VIRGINIA 24141
PHONE: 1-703-639-5673

THE RECREATION DEPARTMENT - "THINGS GO BETTER WHEN WE WORK TOGETHER".

Since most third grade students show an interest in all areas of recreation and enjoy competition with their peers, it seems appropriate to implement a unit on the Recreation Department. Because many are already involved in the recreation programs, it will be familiar to them and for those who are not involved it will stimulate them. We feel that the children need to become aware of the interest that the community contributes to the Recreation Department. The unit will attempt to cover the various occupations and activities associated with the Radford Recreation Department.

BROAD OBJECTIVES:

1. The children will become aware of themselves as participants in the activities offered by the recreation department.
2. The children will need to become aware of all the jobs and the requirements involved in the management of a successful recreation program.
3. To help children realize that these facilities are mainly financed by taxes paid by their parents.
4. To give children guidance in decision making.
5. To emphasize the basic skills required and the importance of this as related to the recreation department.
6. To help each child realize how he must apply for a job in this area.
7. To help children realize that many people donate their time to these programs.
8. To help children recognize the need for good sportsmanship.

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
<p>1. How many of you have played any kind of ball or went to the playground this past summer?</p> <p>2. Where are the playground areas?</p> <p>3. Where is the recreation department located? Why is it placed there? (in center of Radford)</p> <p>4. What are the different things or services offered by the department?</p>	<p>Class discussion.</p> <p>Draw a picture. Write a poem or story about summer activities to be used on bulletin board.</p> <p>Field trip to different playground areas. Filmstrip on importance of good manners. Draw map of town locating different areas.</p> <p>Class discussion.</p> <p>Discussion - bringing in the library filmstrip.</p> <p>Field trip allow children to obtain a library card and check out books.</p>	<p>CE-A59 <u>Library Workers</u> - Cassette CE-CM-A2.</p> <p>CF-A152 <u>The Library and the Librarian</u> CF-A278 <u>A Visit to the Library</u></p> <p>CE-CT-A118 <u>Getting to Know the Library</u></p> <p>CE-CM-A13 <u>I Want to Be A Librarian (book bag)</u></p>

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
	<p>Make some type of reading chart or bulletin board to motivate children to read books.</p> <p>Make a miniature library within classroom.</p> <p>Make a display in library of any books that relate to this subject.</p>	
5. Who are the people involved in making our recreation department successful?	<p>Make chart listing various jobs, names and duties - language - capitalization and last names.</p> <p>Resource persons from recreation program and library.</p>	
	<p>Filmstrip</p> <p>Interviews for different duties.</p>	<p>CF-A155 Recreation, Park, & Playground Workers</p>

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
6. How would you apply for one of these positions? What are the job requirements?	Discussion dress, manners, applying for job. Filmstrips	CF-L3 The Job Interview CF-A37 <u>The ABC's of Getting and Keeping A Job ..</u> Cassette CF-CT-M7 CF-A38 Preparing For The Job You Want
7. How is the recreation program supported financially?	Cassette	CE-CT-A43 Dress For Interview
8. Who are the paid workers? What about those who aren't paid? Who or older brother or sister could come and referee a ball game.	Interview parents or someone in recreation department. Class discussion.	Bring in a volunteer parent or recreation department. Perhaps parent or older brother or sister could come and referee a ball game.
9. What is good sportsmanship?	Filmstrip Make a chart listing things they feel makes a good sport. Bobcat visit class and talk about good sportsmanship.	Role-play good sport and poor sport.

CULMINATING OUT SOLUTIONS

CULMINATING ACTIVITY

RESOURCES AND MATERIAL

Plan a class ballgame - make a microphone - select someone to assume duties of re-creation director and broadcast the game, play by play.

Teach song "Take Me Out to the Ballgame".

Have a sports day - boys could wear any uniforms and girls could wear anything that they have. Make displays of trophies or awards. Bring in baseball and football cards and make a display.

Make banners and decorate the room.

Mrs. Conrad has words.

INTRODUCTION TO: Let's Go To Town

1

This unit covers the different occupations that may be encountered on a simple trip to town. This unit was developed with the hope of making the class members more aware of Radford City and the many occupations that they may meet everyday. This unit provides for various forms of creative expression and it is hoped that from this unit the personality of the child can be shown.

MOTIVATING ACTIVITIES

Make a car out of box - will be used for role-playing.

Using opaque projector blow up pictures of mother and two children (make poster board size people and cut them out) introduce them and tell children that they are going to follow the mother and children to town. On the way cover the different occupations - could put them on bulletin board.

Could also make puppets to represent the three.

Give the family members names.
Poem - read and discuss.

Poem:
"Saturday Shoppin'" -
Childcraft Vol. 1

Book - read and discuss.

Book:
Little Auto - Lois Lenski

- BROAD OBJECTIVE: (1) To help class members become more aware of Radford City and the many occupations that are encountered everyday.
(2) To develop an awareness of the duties involved in each job.

2

CONTENT QUESTIONS TECHNIQUES AND ACTIVITIES RESOURCES AND MATERIAL

1. Where are we going today?

- Make a list of different places you want to take the family. As you go to each place list the occupations that were found there. Guide the children so that such occupations as these will be covered:
1. filling station attendant
2. store clerk
3. policeman
4. garage mechanic
5. jeweler
6. bank teller
7. food store employees
a. meat clerk
b. check-out clerk
c. stock-clerk

Filmstrip - view and discuss.

Filmstrip:
Series #8990 L.10
Going Downtown
Encyclopaedia Britannica

Let the children list the different people and jobs that they meet in the course of a day-each child make his individual list. Do it at the beginning of the unit and again at the end. Make a bulletin board using study prints.

Study prints:
SVE Urban Life Picture-Story
Se: SP-127 Neighborhood Friends and Helpers.

CULMINATING ACTIVITY:

9

CULMINATING ACTIVITIES

Select a family and take it on an entire trip to town using same places imaginary family went.

Children can make up riddles describing different occupations and people. Read them to class letting class members guess who is being described. Illustrations may accompany the riddle. Bulletin board may then be made.

Children could also draw a picture representing their favorite occupation covered in the unit and write a small paragraph telling about the occupation and why it is their favorite occupation.

One of the last things that can be done to review the unit is a teacher-prepared tape. On the tape the teacher describes the different occupations, one at a time. The student is to listen to the tape and then write down the answer. After the entire exercise has been presented he can then check his paper by listening to the answers which are given on the same tape. This can be done individually or in small groups. It is possible to use some of the riddles that the children have written.

Learn to spell the different occupational names that are covered in the unit.

RESOURCES AND MATERIAL

Material needed:
Drawing paper

Material needed:
Tape
Tape recorder
Head phones

CULMINATING ACTIVITIES

RESOURCES AND MATERIAL

For physical education divide the class into small groups with each group representing a different occupation. Have one person be it. Form a straight line with rest of class members. "It" calls out a occupation and all the people representing that occupation run to a boundary line marked off somewhere behind "it". Could also form 2 lines, one on each side of "it," and have class run to the opposite side when their occupation is called (have some wth the same occupation on different sides).

Children could pantomime different occupations and have the class members guess the occupations. The class might be divided into teams and keep score seeing which team can guess the most occupations. Filmstrip might give them some ideas.

Draw a mural depicting all the places that the children went to and all the occupations that were covered.
Filmstrip-view and discuss.
Film-relate the number of occupations discussed which may also render home services.

INTRODUCTION TO: Postal Services
"From Me To You"

1

Letter writing is included in the third grade curriculum and what better way to introduce it than through our postal services. By role playing the child can see the importance of legible handwriting and why the address must be complete. This brings the area of postal services closer to them. It is hoped that through this unit the child will become more aware of the various job opportunities found within the postal services.

MOTIVATING ACTIVITIES

Teacher write a letter to class, mail it, and have it delivered to classroom. In the letter explain the new unit of study. Also, put the letter on a sheet of chart paper or poster board to make a bulletin board. Can make an envelope and attach it to bulletin board. Can use opaque projector to show and read the small letter to the class.

RESOURCES AND MATERIAL

Label bulletin board "From Me To You". Teacher will write a letter to the class on a large sheet of paper. Put it on the bulletin board and label the different parts.

BROAD OBJECTIVE: To help children see the relationship of the postal services to their lives.

2

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
1. Do you ever receive any mail? 2. How do we get our mail?	Book-read to the class. Discussion Class discussion-let children present their ideas and thoughts. Film-view and discuss.	Book: <u>Any Mail For Me?</u>
	Draw pictures to represent their ideas of how we receive our mail.	Film: <u>Helpers Who Come To Our House</u> 11 mins. col/bw 1956 P. Rao. Material needed: Drawing paper

BROAD OBJECTIVE: To help children improve letter writing skills.

3

4

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
1. When you write a letter, what things must you include?	Class discussion-bring in the different things that are included in all letters (heading, greeting, etc.). Make a chart by putting a letter on paper and labeling different parts. Can use letter written to class. Make a transparency-write a letter and as a class label the letter parts.	Material needed: Chart paper
2. Are all letters the same? Would you write the same type of letter to a friend as you would to a businessman?	Discuss types of letters-friendly letters, business letters-reading examples of each. Write letters-class activity. Display letters-on bulletin board.	Material needed: Acetate sheet for transparency. Felt tip pen for writing on transparency.
3. After you write a letter, what do you put it in (envelope)? Why do you use it? What do you put on the outside of the envelope?	As a class activity make a large envelope and address it correctly. Let children address envelopes to go with the letters they have written.	Resource persons - to tell about the form of a business letter and why students might need to use one (job application, etc.) and how different jobs require business letters written. Could use business majors if a college is nearby. Lan". book

BROAD OBJECTIVE: To acquaint children with the various types of letters
(ex.: air mail, special delivery) and the costs involved
in mailing different types of letters.

4

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
<ol style="list-style-type: none">1. Is all mail classified the same?2. Why do we use stamps?3. Do all stamps cost the same amount?4. What is a zip code? 	Write stories on mail delivery. Flannel board cut-outs on mail services.	

CULMINATING ACTIVITY

RESOURCES AND MATERIAL

Construct a post office and a street mail box.

Materials needed:
Refrigerator box
Smaller box

Assign different roles to different class members, (ex., postmaster) and since the children have already constructed individual mail boxes, they can write letters and put them in their mail box or in the street mail box to be picked up by the mailman. The mail will then be taken to post office, sorted and eventually delivered. Reading session can then be held. The children are to use the forms for letter-writing and correct addressing of envelopes that they previously learned. They may use stamps on their letters which they previously designed.

Have rail delivery everyday with a different person as the mailman once a week. Rows become streets and the mailman sorts and delivers the mail.

Include discussion of the following quotations: Neither snow nor rain nor heat nor gloom of night, stays these couriers from the swift completion of their appointed rounds.

INTRODUCTION TO: SCHOOL MANAGEMENT "SCHOOL DAYS"

Because young children today seemingly take so many things for granted, it would be enlightening to them to gain an understanding of the numerous jobs necessary for a school to operate efficiently.

BROAD OBJECTIVES:

1. To acquaint the children with the various jobs necessary for the efficient operation of the school.
2. To help the child become aware of his part in the total school program.
3. To familiarize the child with the skills needed for each job.
4. To give the child a basic understanding of how schools are financed.
5. To guide the child in the realization that he does by his own actions, help or hinder the effectiveness of the school.
6. To help the child understand the process by which one would obtain employment.
7. To give the child an appreciation of the importance of the cooperative efforts of each person involved in the total school program.

INTRODUCTION TO: The Hospital Emergency Room

1

The unit on "The Hospital Emergency Room" was designed for a third grade class with the objective of developing an awareness of the jobs available in this area and of the duties of the people who perform these jobs. It is hoped that from this unit the children will realize how the emergency room and rescue squad relates to them.

MOTIVATING ACTIVITIES

Bulletin board - begin and develop as unit develops-let children contribute pictures as unit progresses.

A display of books or stories which relate to the unit.

RESOURCES AND MATERIALS

Can include on bulletin board pictures taken from disaster day-taken by News Journal.

Books :

- A Drop of Blood
- At the Pet Hospital
- About Miss Sue, The Nurse
- About Doctor John
- The First Book of Hospitals
- Let's Find Out About the Clinic
- Doctor's Tools
- Penny The Medicine Maker
- The First Book of Nurses
- The Emergency Book
- Mom! I Broke My Arm
- My Daddy is an Ambulance Driver
- My Mother is a Practical Nurse
- Greene, Doctors and Nurses, What Do They Do?, Harper, 1963.

Have children relay what they feel in an emergency.

This can be done by drawing a picture depicting an emergency followed by a discussion developing a definition of an emergency.

BROAD OBJECTIVE: To help children realize the importance of the emergency room in relation to them and the rest of the hospital.

2

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
1. What is an emergency room?	Class discussion.	
2. Why would we need one? Have you ever been to one?	Class discussion. Make list on chart paper. Class members can make a booklet keeping these lists in their booklet. Form a committee, too.	Chart paper. Notebook paper. Construction paper for covers (or manila paper), staples, stapler.
3. Why does a hospital need an emergency room?	Story-read and discuss.	Story: <u>Mom! I Broke My Arm</u>

BROAD OBJECTIVE: To acquaint children with various persons working in the emergency room and the area associated with the emergency room. 3

CONTENT QUESTIONS TECHNIQUES AND ACTIVITIES RESOURCES AND MATERIAL

1. If you go to an emergency room, who would you find there?
Study prints-add to bulletin board. Discuss various ones-teacher lending children in discussion-find doctors, nurses, aides, orderlys.
Read teacher written stories about these various people-do as a whole class. Draw pictures of what you think these people would look like on job.
Film-view and discuss.
2. Who else is related or concerned with the emergency room?
Picture-story study prints. Can be done and mimeographed, giving out individual copies, put on a sheet and shown on opaque, or put on large sheet of chart paper.
Teacher-directed discussion-receptionist, x-ray technician, lab technicians.
Film:
75504-Nurse
10 min. CO/BW El. Rad.

BROAD OBJECTIVE: To acquaint the children with the various jobs or duties of those involved in the emergency room.

To acquaint children with the types of tools or materials used by these people.

4

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
1. What are the specific jobs of each person involved in the hospital emergency room?	Stories-read and discuss-work in committees-read books, then report to class about book telling about the jobs involved. Individual work-stories written which describe various jobs (done in form of booklet). Write down name of job-answers for each description are put on an answer sheet-SRA reading type of thing-stories are written by teacher-put on index cards. Filmstrips-view and discuss.	About Miss Sue, The Nurse About Doctor John The First Book of Nurses My Mother is a Practical Nurse Doctors and Nurses, What Do They Do? Eye Gate 107A-The Neighborhood Doctor My Mother Has a Job W400C The Nurse
2. What types of tools or instruments do they use in their various jobs or duties?	Discussion Stories-read and discuss.	Stories: Doctors' Tools The First Book of Hospitals My Mother is a Practical Nurse Make a chart showing or listing various jobs and the tools used. Make a chart of vocabulary terms. Chart paper

5

CONTENT QUESTIONS	TECHNIQUES AND ACTIVITIES	RESOURCES AND MATERIAL
	<p>Plan a field trip to the emergency room, interviewing the people and taking pictures.</p> <p>Plan a discussion after the trip.</p> <p>Write creative stories about a visit to hospital. Stories can be illustrated.</p> <p>Display stories and illustrations on bulletin board.</p> <p>Paint a mural showing hospital emergency room and people at work.</p>	<p>Contact Kitty Campbell for field trip. Camera and film.</p> <p>Roll paper, paints.</p>

BROAD OBJECTIVE: To acquaint children with persons other than the hospital staff who also provide emergency treatment (in particular - rescue squad, ambulance service) and how they relate to us.

CONTENT QUESTIONS

TECHNIQUES AND ACTIVITIES

RESOURCES AND MATERIAL

1. What other persons, in their job, give emergency type treatment? Discussion-rescue squad, ambulance service.
2. Are their services available to us? Class discussion-lead into fact that often the rescue squad men give first aid before reaching emergency room at hospital.
3. How did these people get their job? Resource person come in and discuss his job, duties, requirements, qualifications.
4. How are they related to Radford Community Hospital's emergency room? View some of the things used by these men and how they operate.

Story-read and discuss.

My Daddy is an Ambulance Driver

Construct a hospital emergency room assigning the various roles to different members of the class. Also construct an ambulance and also assign these parts to class members. Make a stretcher.

Refrigerator boxes. Materials needed for emergency room:

- gauze bandages
- stethoscope
- tongue depressor
- pretend, candy pills
- individual oxygen masks
- thermometer & splints
- x-rays & hypo. needle

CULMINATING ACTIVITY:

7

CULMINATING ACTIVITY

RESOURCES AND MATERIAL

Role play an emergency situation that calls for both ambulance service and use of emergency room--call emergency number.

By use of teacher prepared tapes, the children can learn first aid procedures such as simple bandages. These can be done for individual or small group use. May also demonstrate before class.

Cassette cartridge.
Tape recorder.
Listening unit--head phones.
Several triangular bandages.

Resource person tell about first aid.

Students should be able to list 3 things a nurse, doctor, aide attendant does and tools they use.

List 1 thing x-ray technician and lab technician do and why they are important.

Use words you are concerned with as spelling list for the week.

UNIT TITLE: THE WEATHER

"RAIN OR SHINE"

APPROXIMATE GRADE LEVEL: GRADE 3

PROJECT SITE: RADFORD CITY SCHOOLS

PROJECT DIRECTOR: DR. JAMES E. RUTROUGH, SUPERINTENDENT

PROJECT COORDINATOR: RANDY WRIGHT

THE CAREER EDUCATION PROGRAM
THE RADFORD CITY SCHOOLS
1612 WADSWORTH STREET
RADFORD, VIRGINIA 24141
PHONE: 1-703-639-6673

The primary grades provide an excellent opportunity to introduce the topic of weather and the jobs available in this area. The children are interested in weather and now is the time to build on this curiosity. It is hoped that from this unit the children will become aware of weather conditions, weather changes, weather instruments, and how they are used. It is also hoped that the children will gain an insight into how weather conditions affect their way of life.

MOTIVATING ACTIVITIES	RESOURCES AND MATERIAL
Bulletin board title: What's It Like Today? On bulletin board have a section for a calendar. In order to mark the date let children put up a symbol each day to represent the various weather conditions. As the unit progresses add things to bulletin board which relate to weather.	Material Needed: Poster board for calendar
What is it like outside today? Bring in a weather report from a newspaper or if it is possible to find out the time that the weather forecast will be presented on radio listen to weather report.	Materials: Newspaper Radio
Film-view and discuss	Whatever the Weather Educational Horizons, 1959 10 min. sound, color, an introduction to wind, rain, snow. Radford College-No. 24205
Riddle-What is it molds the life of man? What makes some black and other tan? What makes the Zulu live in trees? And Congo natives dress in leaves? While others go in furs and freeze? Poem-Whether it's cold, or whether it hot, We will have weather, whether or not.	Filmstrip: (F-S13) <u>Our Weather</u> -in the library
Filmstrip-view and discuss	

BROAD OBJECTIVE: To increase within the children an awareness of weather conditions and weather changes as well as weather terminology.

PROJECT DIRECTOR: DR. JAMES E. RUTROUGH, SUPERINTENDENT

PROJECT COORDINATOR: RANDY WRIGHT

THE CAREER EDUCATION PROGRAM
THE RADFORD CITY SCHOOLS
1612 WADEWORTH STREET
RADFORD, VIRGINIA 24141
PHONE: 1-723-639-6673

INTRODUCTION:

Most children in this age group have some understanding of the work done by dentists. A study of this unit will further familiarize the child with the duties of the dentists and other careers related to dentistry. Hopefully the children will, to some extent overcome their fear of the dentist. How teeth develop and how to care for them will also be included in this unit.

BROAD OBJECTIVES:

1. To give the child an understanding of how the dentist helps him as an individual and to help him overcome his fears of the dentist.
2. To help the child become aware of the careers involved in dentistry and the educational requirements.
3. To give the child some understanding of the demand for dental services.
4. To help the child develop good health habits.
5. To give the child a basic understanding of tooth development.
6. To help the child realize that the responsibility for having sound teeth is largely his.

CONTENTS OF UNIT 4

MATERIALS AND ACTIVITIES

WISDOM TEETH AND MOUTH CARE

1. How many have been to a dentist's office?

Show filmstrips and use cassette.

Book: The Big Red Trunk Dentist.

2. What people do you see in the office?

Listener to story and class discussion.

Dentist, M.D., Miami.

3. What tools does the dentist use?

Read book and show actual tools if possible and discuss & hear uses.

Books:
Schloot, G. Your Wonderful Teeth. Scribner, 1954.
Showers, Paul. How Many Teeth. Crowell, 1962.
Byrd, Nelson, Moore. Health, Book 3, pp. 58-60.

4. How many teeth have you lost?

Sketch dental tools and use for bulletin board.

Lapp, Carolyn Turner,
Dentists Tell, Turner, 1961.

- Invite a parent who works in a dentist's office to talk to the group.

Parent.

5. When do babies get their first teeth?

Class discussion about their own teeth.

Books:
Schloot, G. Your Wonderful Teeth. Scribner, 1954.

6. Why is it important to take care of your temporary teeth?

Showers, Paul. How Many Teeth. Crowell, 1962.
Byrd, Nelson, Moore. Health, Book 3, pp. 58-60.

CONTENT QUESTIONS

TECHNIQUES AND ACTIVITIES

RESOURCES AND MATERIAL

7. When and how do you brush your teeth?

8. What else can I do to help me have good teeth?

9. Why is it important to see your dentist twice a year?

Class discussion and demonstration.

Plan menus and make food charts showing a balanced diet. Prepare a bulletin board showing the four basic food groups. Colanders or posters may be used.

Read and discuss page 60 - Health.

Throughout this unit have each child keep a toothbrushing chart.

Write a paragraph or story about a visit to your dentist. (true or make-believe.)

Use charts, articles from the Bureau of Dental Health, 21 East High Street, Cleveland, Ohio, (The following pictures may be obtained from this address.)
Illustrations on tooth brushing.

Discuss with children what they do

break the chain of the disease. Encourage them to eat more fruits, switch from white to whole grain breads, the low fat diet, exercise, the properly cleaned, elementary school dentist, etc.

Use Chart 4, "Food & Health"

Model of teeth (Radford College Curriculum Lab.)

CULMINATING ACTIVITY

Divide the class into small groups and set up a make-believe dentist office. Children will ~~use~~ play receptionist, dentist, dental assistant, dental hygienist, dental laboratory technician and patients.
