ABSTRACT

This Head Start evaluation system was developed at the request of the California Head Start Directors Association. There was a broad-based input in all phases of its development, from Head Start directors, Head Start staff from all components, and Head Start parents. It was extensively field tested in one of the major California Head Start programs. In all, more than 200 people were involved in formulating items, in the pilot study, and in post evaluation sessions. The system includes evaluation schedules for the following twelve components: Education (bilingual, bicultural, handicapped children, facilities), Health, Social Services, Mental Health, Parent Involvement, Training and Career Development, Nutrition, Volunteers (other than parents), and administration. The format is a 4-point rating scale on which the evaluator reacts to a performance standard indicating: performance exceeds the standard; performance meets the standard; performance is somewhat below the standard and needs improvement; and performance is substantially below the standard and needs immediate improvement. Space is provided for comments and recommendations. (Author/RC)

## Introduction

### HEAD START EVALUATION

### EVALUATING OURSELVES

The Head Start evaluation system, Evaluating Ourselves, was developed at the request of the California Head Start Directors Association. There was a broad-based input in all phases of its development, from Head Start directors, Head Start staff from all components, and Head Start parents. It was extensively field tested in one of the major California Head Start programs. In all, more than 200 people were involved in formulating items, in the pilot study, and in post evaluation sessions.

The system was constructed by Dr. Ella Kube Nomland, Senior Research Analyst in the Head Start Program at the Greater Los Angeles Community Action Agency, and two consultants, Dr. Luelyne Doscher and Ms. Stefan Harvey. Dr. Doscher, of Houston, Texas, is director of a social research and evaluation firm, and is the Psychologist for Cypress-Fairbanks Independent School District. Ms. Harvey, of Washington, D. C., is with the Mexican-American Development Corporation and previously worked on a Federal evaluation system.

The Head Start Evaluation System includes evaluation schedules for the following 12 components:

- Education: General
- Bilingual, bicultural
- Education: Handicapped children
- Facilities
- Health
- Social Services
- Mental Health
- Parent Involvement
- Training and Career Development
- Nutrition
- Volunteers (other than parents)
- Administration.

For most of the components, the items in the evaluation are based on the 1973 Head Start Program Performance Standards. For those components for which no new performance standards were published, items are based on the 1967 Head Start Manual of Policies and Instructions. Other documents consulted included: Head Start Policy Manual-Transmittal Notice, 2-28-73, N-30-333-1 on Services to Handicapped Children, Exceptional Children in Head Start, by Joseph Lapidus, Ed.S., Regional Resource Training Center, Maryland, (no date) 1973; Head Start Policy Manual-Transmittal Notice, 8-21-72, N-30-334-1 on Program Options for Head Start; Memo, 6-6-73, to Head Start Grantees, Region IX, from HEW Regional Office, on April 16, 1973 Head Start Fee Schedule Regulations published in the Federal Register.

We believe this evaluation system to be an important and workable contribution to the evaluation process of our Head Start program. We hope to go on improving it and to that end solicit your comments and suggestions.

## INSTRUCTIONS FOR EVALUATION OF PERFORMANCE

The evaluation format is a 4-point rating scale on which:

- \* means that performance exceeds performance standards,
- 1 means that performance meets performance standards,
- 2 means that performance is somewhat below the performance standards and needs improvement,
- 3 means that performance is substantially below the performance standards and needs immediate improvement.

For each performance standard, we have defined the performance which is substantially below the performance standards and needs immediate improvement; such performance is indicated by (3) in front of the statement describing the performance; and we have defined the performance which meets the performance standard; such performance is indicated by (1) in front of the statement describing the performance.

If your evaluation agrees with the definition of performance which is substantially below the performance standards and needs immediate improvement, circle 3 in the right-hand margin.

If your evaluation agrees with the definition of performance which meets the performance standards, circle 1.

If you judge the performance to be somewhere in-between (1) and (3), circle 2.

If you judge the performance to exceed the performance standards, circle 4.

After each performance standard, we have left a blank line. If you want to comment on the performance - in addition to the rating - please do so on this line.

On the last page, there is space for you to comment on anything that you feel is not covered or that you want to call special attention to.

Under recommendations, please indicate what action should be taken to improve the program.

EVALUATION OF EDUCATION

at \_\_\_\_\_  
Agency

A. OBJECTIVES

1. PROVIDE CHILDREN WITH A LEARNING ENVIRONMENT AND THE VARIOUS EXPERIENCES WHICH WILL HELP THEM DEVELOP SOCIALLY, INTELLECTUALLY, PHYSICALLY, AND EMOTIONALLY IN A MANNER APPROPRIATE TO THEIR AGE AND STAGE OF DEVELOPMENT TOWARD THE OVERALL GOAL OF SOCIAL COMPETENCE.
2. INTEGRATE THE EDUCATIONAL ASPECTS OF THE VARIOUS HEAD START COMPONENTS IN THE DAILY PROGRAM OF ACTIVITIES.
3. INVOLVE PARENTS IN EDUCATIONAL ACTIVITIES OF THE PROGRAM TO ENHANCE THEIR ROLE AS THE PRINCIPAL INFLUENCE ON THE CHILD'S EDUCATION AND DEVELOPMENT.
4. ASSIST PARENTS TO INCREASE KNOWLEDGE, UNDERSTANDING, SKILLS, AND EXPERIENCE IN CHILD GROWTH AND DEVELOPMENT.
5. IDENTIFY AND REINFORCE EXPERIENCE WHICH OCCURS IN THE HOME THAT PARENTS CAN UTILIZE AS EDUCATIONAL ACTIVITIES FOR THEIR CHILDREN.

B. PERFORMANCE

I. EDUCATION: GENERAL

#1 CLASSROOM PROGRAM GOALS: SPECIFIC AND WRITTEN

(1) There is a \_\_\_\_\_ (3) There is no \_\_\_\_\_

written statement of clearly stated, specific program goals, including all goals outlined by OCD (Performance Standards; Education).

\* Exceeds  
1 Meets  
2 Needs  
3 immediate action

#2 CLASSROOM ACTIVITIES AND FACILITIES: Dramatic Play

(1) There is a \_\_\_\_\_ (3) There is no \_\_\_\_\_

clearly defined place and adequate time for free dramatic play, with dolls, doll-size equipment and clothes. (These include materials for variety of community and home activities, in a variety of settings (farm-city), for all races, sexes, ages, family roles, i.e., lunch pails, typewriters, toy money, cash registers, community workers hats, etc. Equipment is in good repair. Clothes are clean and mended and easy to put on and take off.)

\* 1 2 3

#3 CLASSROOM ACTIVITIES AND FACILITIES: Block play

(1) There is a \_\_\_\_\_ (3) There is no \_\_\_\_\_

special area cleared (or clearable) for free block play and a wide variety of block equipment. (The area can be set up to be out of the path of the other children. It is large

\* 1 2 3

enough for building. The blocks are of all sizes and shapes (square, cylinder, triangle, floor boards, roofboards). There are accessories (toy people, animals, cars, trains, linoleum squares). Blocks and toys are easy to reach, stored neatly, have smooth surfaces. There are block shelves.

#4 CLASSROOM ACTIVITIES AND FACILITIES: Manipulative Play

(1) There is a (3) There is no \* 1 2 3

special area and adequate time allowed, either outside or inside, for practice in use and control of muscles. (For smaller muscle (finger, hand) and eye-hand play, there are blocks, clay, finger-paint, paper, crayons, stringing beads hammer-nail sets, hard and easy puzzles. For larger muscle play, there are balance beams, hollow blocks, jungle gym, woodwork. All equipment is in good condition.)

#5 CLASSROOM ACTIVITIES: Manipulative Play

(1) There is adequate. (3) There is no \* 1 2 3

time given to games that teach use and control of muscles such as finger-plays, and hopping, jumping, skipping.

#6 CLASSROOM ACTIVITIES AND FACILITIES: Books and Language Activity

(1) There is a (3) There is no \* 1 2 3

special area for children to use books and for other language activities. (The book area is relatively quiet and comfortable. Books are in good repair, attractively set out, and about a variety of subject at Head Start level. There is a wide variety of materials to stimulate language development (puppets, flannel boards, tape-recorder, pictures, photographs)

#7 CLASSROOM ACTIVITIES: Communication

(1) There is constant. (3) There is little or no \* 1 2 3

systematic encouragement to increase language development communication between children and between children and adults at all times, including lunch. (Telephone play, acting out daily experiences.)

#8 CLASSROOM ACTIVITIES AND FACILITIES: Woodworking

(1) There is (3) There is no \* 1 2 3

equipment and evidence of use of equipment, for woodworking. (This includes all standard tools, child-size; and materials, such as scrapwood, old wheels, spools, jar lids, wire, large-head nails. The woodwork space outside or inside is large enough, and out of traffic. There is enough storage space for the materials. Woodworking activities are well supervised.)

- #9 CLASSROOM ACTIVITIES AND FACILITIES: Science Activity \* 1 2 3  
 (1) There is evidence of science activity and planning to arouse curiosity and participation. (Materials that use the different senses: for feeling and touching -- clay, water, objects, fabrics; for smelling; for tasting; for comparing; for observing nature and the environment -- magnifying glass, see-thru seed containers, mirrors, pulleys, old clocks).
