 DESCRIPTORS Contracts; Disadvantaged Groups; Equalization Aid; Facilities; Financial Support; Grants; *Higher Education; Minority Groups; Post Secondary Education; *Private Colleges; Professional Education; *State Aid; Student Loan Programs; *Surveys; *Tables (Data)

ABSTRACT

This document is a tabular survey of programs in operation or approved for state support of private higher education in the 50 states. The table is arranged by state and covers: (1) contracts; (2) direct institutional aid; (3) disadvantaged/minorities; (4) facilities assistance/authorities; (5) medical/dental/nursing; (6) student aid; and (7) others. Listed under each of the seven types of programs is information on the funding, restrictions and/or distribution of each program. (Author/KE)

HIGHER EDUCATION IN THE STATES

Published by the Education Commission of the States

Volume 5, Number 1

1975

pages 1-24

In This Issue:

This issue of *Higher Education in the States* contains the fourth annual tabular survey of programs in operation or approved for state support of private higher education in the 50 states. The table begins on page 2.

THE STATES AND PRIVATE HIGHER EDUCATION

Richard M. Millard
Director, Higher Education Services, ECS

State aid to private higher education in this country is not new and in fact goes back to the beginnings of higher education in the colonies. The then colony and later commonwealth of Massachusetts contributed colonial funds to the funding of Harvard College and continued to support it with public funds until well into the 19th century. Public concern today for helping to insure the dual public and private systems of higher education is being expressed primarily through the states, not through the federal government. The aggregate state response, while it may or may not be adequate, has been and is impressive.

According to the Center for Research and Development in Higher Education at the University of California, Berkeley, state aid to the private sector on the basis of amount per student has increased five times over the last ten years and 190 per cent in the last five years. Within the current year, in figures not reflected in the Berkeley study, the amount has increased considerably. Currently 41 states, an increase of two over January 1974, have authorized programs to make funds available to the private sector either directly or indirectly in a number of different ways (editor's note: a new state scholarship program has been authorized but not funded in Idaho; information on the program was received too late for this issue) -- such as student aid, contracts, direct institutional aid, medical/dental/nursing education, etc.

One does have to keep in mind, however, that the states' response is an aggregate response and the situation varies considerably from state to state. It is important to keep in mind that no two states are alike or have identical programs. They vary in history, ethnic mix, economic resources, governmental structure, traditions and perspectives in relation to each other and the national scene. They vary in size of the private sector from states like Massachusetts, where until relatively recently more than half of the enrolled students were in private institutions, to Wyoming with no private institutions at all. The extent to which private higher education constitutes an important resource, the extent to which the condition of private institutions presents a challenge, even the extent to which reinforcement of private higher education financially constitutes a major or minor budgetary issue varies considerably from state to state.

There is not and there should not be a single problem or a single answer in the area of state aid to private higher education. There are literally 50 problems and 50 sets of answers, and each one not only has to be, but should be considered separately.

Published periodically by the Higher Education Services Department, Education Commission of the States, 1860 Lincoln Street, Suite 300, Denver, Colorado 80203.

STATE SUPPORT OF PRIVATE HIGHER EDUCATION: PROGRAMS IN OPERATION OR APPROVED IN THE 50 STATES AS OF JANUARY 1975

STATE	1- CONTRACTS	2- DIRECT INSTITUTIONAL AID	3- DISADVANTAGED/ MINORITIES	4- FACILITIES ASSISTANCE/ AUTHORITIES	5- MEDICAL/ DENTAL/ NURSING	6- STUDENT ASSISTANCE	7- OTHER
ALABAMA	None	(a) Two-year appropriations. Funding: 1973-75, Tuskegee, \$11 million/yr.; Walker, Jr., \$200,000/yr.; Marion, \$200,000/yr. Restrictions: None	None	(a) Direct grants (Col. 2) could be used for facilities.	None	None	None
ALASKA	None	(a) See Column 5 (medical)	None	None	(a) Support of baccalaureate program in nursing in Alaska Methodist University. Funding: 1974-75, \$187,500.	(a) Scholarship loans; for use at accredited in-state or out-of-state institutions. Funding: 1974-75, \$3,322,000. (Distribution: Amount based on need; limit \$2,500 a year for undergraduates, \$5,000 a year for graduates. Restrictions: Limited to 2-year Alaskan residents; forgivable per cent rate dependent on residence and employment in state after graduation; 10 per cent forgiven for 2 years, up to 40 per cent for 5 years	None
ARIZONA	None	None	None	None	None	(b) Grants to students attending Alaskan private institutions. Funding: 1974-75, \$900,000. Distribution: Provides tuition and fees difference between public and private institutions, maximum \$1.00 per year.	None
