DESCRIPTORS Career Choice; *Career Education; Career Exploration; Career Planning; *Elementary Education; *Occupational Information; *Reference Books; *Resource Materials

ABSTRACT

The resource booklet contains information on 130 different careers written for elementary students at a third grade reading level. The order of arrangement is by the 15 USOE occupational clusters. One illustrated page is devoted to each career, and each includes a brief job description; a list of the skills, aptitudes, and preferences required by the work; and a list of the steps an elementary pupil can take to prepare himself for the career. The booklet is the fifth volume of the final report of a regional inservice career education institute for selected Pennsylvania educators and was developed by the institute. (AJ)

 * Documents acquired by ERIC include many informal unpublished *
 * materials not available from other sources. ERIC makes every effort *
 * to obtain the best copy available. Nevertheless, items of marginal *
 * reproducibility are often encountered and this affects the quality *
 * of the microfiche and hardcopy reproductions ERIC makes available *
 * via the ERIC Document Reproduction Service (EDRS). EDRS is not *
 * responsible for the quality of the original document. Reproductions *
 * supplied by EDRS are the best that can be made from the original. *
