## ABSTRACT

This report presents the results of the ninth survey of foreign language entrance and degree requirements in United States colleges and universities that grant a bachelor of arts degree. The survey was conducted in 1974 by the Modern Language Association, and was directed at foreign language department chairmen. Responses were received from 98.8 percent, or 1,285, of the 1,300 departments to which questionnaires were sent. The study offers an innovation in that chairmen were requested to indicate which specific fields at their institutions require a language for a B.A. major. Table I summarizes changes in institutional requirements between the fall of 1970 and the fall of 1974, while table II summarizes the status of entrance and degree requirements at the 1,285 institutions. Table III outlines departmental foreign language requirements for the B.A. major, while the fourth and fifth tables outline foreign language entrance and degree requirements for the B.A. degree for the years 1957, 1966, 1971 and 1975. A directory of the institutions, listed by state, follows the tables. The supplements to the directory provide information concerning changes in foreign language entrance and degree requirements in colleges and universities since 1971. A sample survey questionnaire is also included. (CLK)

## FOREWORD

The present study of foreign language entrance and degree requirements in U.S. colleges is the most recent in a series going back to 1952, the year that marked the beginning of the Modern Language Association's Foreign Language Program. The 1974-75 report documents the continuation of the "downward" trend, first evident in the 1970-71 study, away from the strong language requirements prevalent in the 1950's and 1960's. Though many members of the teaching profession continue to hope that the trend toward "permissiveness" may by now have begun to reverse itself, there is no evidence in the present study to support such expectations, and the percentage of colleges classified in the "upward" categories A and B in Table I is in fact smaller in the 1974-75 survey than it was in 1970-71.

An innovation in the present study was the request, in institutions where there was no all-college requirement, for information about specific departments that require a language for the B.A. major. While the percentage of institutions that have such a provision is worth noting and citing, it is also (predictably) true that of all fields, the major in a foreign language is the one likeliest to require the study of another foreign language.\*

The data for the present report were recorded and compiled by Research Assistant Jeffrey H. Meyerson, who undertook the task of converting the information reported by department chairmen into the concise "code" entry that appears opposite the name of each institution listed in the Directory of Institutions. Though difficult to formulate, the "code" presents no serious obstacle to the user of this report.

The researchers are grateful to Mr. Hans Rütimann, MLA Director of Computer Services, and his staff, for the preparation of specially coded computer cards used to facilitate prompt and accurate responses from the department chairmen. We owe thanks to Mrs. Julia A. Petrov of the U.S. Office of Education for her encouragement, interest, and guidance. Finally, we acknowledge with gratitude the splendid cooperation of the department chairmen and other colleagues who supplied the data upon which the report is based.

Richard I. Brod  
Project Director

\* Some respondents undoubtedly understood this item to refer to a requirement in the language of the B.A. major itself: e.g., a minimum number of credit hours in French as a requirement for a major in French. A "spot check" by telephone, however, suggests that a large majority of respondents (75%) interpreted the question as referring to a requirement in a second foreign language: e.g., a minimum number of credit hours in Spanish (or Italian) as a requirement for a major in French.

SURVEY OF FOREIGN LANGUAGE ENTRANCE  
AND DEGREE REQUIREMENTS FOR CANDIDATES  
FOR THE B.A. DEGREE IN UNITED STATES  
COLLEGES AND UNIVERSITIES, FALL 1974

Summary of Results

The 1974-75 Survey of Foreign Language Entrance and Degree Requirements in B.A.-granting institutions in the United States was the ninth such survey conducted by the Modern Language Association of America. The first survey in the series appeared in 1953; annual revisions followed until 1957, and the survey was conducted again in 1960, 1965, and 1970.<sup>1</sup> Like the 1970 study, the present survey differs from earlier investigations in that it was addressed to foreign language department chairmen rather than to registrars. The 1974 study also offers a significant innovation: going beyond the traditional concern with college-wide language requirements, it requested chairmen to respond to a checklist of majors in arts and sciences by indicating which specific fields at their institutions require a language for the B.A. Major. Of the chairmen teaching at institutions without a college-wide degree requirement in foreign language, more than half indicated that a language was required by at least one major at their institutions.

The tables and directory of the survey encompass responses received from 1,285 colleges and universities, or 98.8% of the 1,300 B.A.-granting institutions covered by the survey.<sup>2</sup> In a few cases, information omitted from the questionnaire responses was obtained from current (1974 or 1975) editions of institutional catalogues.

Table I (below) shows changes in the status of institutional entrance and degree requirements between fall 1970 and fall 1974 for the 1,169 colleges and universities that responded in both years. The procedure used in the 1974 survey enabled chairmen to respond rapidly to a request for a precise statement of current entrance and degree requirements. The responses were then transcribed by means of a simple code used in the compilation of the institutional directory of the survey, and the coded responses for 1974 were compared with those recorded in 1970. On the basis of this comparison, each institutional response was classified into one of seven categories, labeled A through G. Entrance and degree requirements were treated separately. The seven categories are:

- (A) "requirement established," i.e., in institutions where there had been no requirement in 1965-66;
- (B) "requirement increased" since 1966;
- (C) "requirement abolished" (i.e., totally) since 1966;
- (D) "requirement reduced" (e.g., from four semesters to three, etc.);
- (E) "increase in options" (e.g., an institution that formerly permitted no substitution for the required foreign language sequence has now generalized its requirement and allows students to choose one of a number of alternatives, including foreign languages, to satisfy it);

(F) "requirement maintained" unchanged since 1966; and

(G) "no requirement," either in 1965-66 or 1970-71, hence status unchanged.

Table I shows the number of responses and percentage of the total classified in each category, separately for entrance and degree requirements. Summary figures are given for the combined categories A and B, called "upward change"; C, D, and E, or "downward change"; and F and G, "unchanged."

A comparison between Table I in the 1974-75 report and the corresponding table in the 1970-71 report is instructive. In 1970-71, with respect to degree requirements, 5.0% of the responding colleges were in the "upward change" category, 45.4% in the "downward" category, and 49.6% reported no change. In 1974-75, the figures were 2.1%, 37.0%, and 60.8%, respectively, suggesting that the trend away from language requirements may have begun to lose momentum. However, a closer examination of the figures in the "downward" group--categories C, D, and E--reveals a significant shift. Of the 357 institutions in this group in 1970-71, only 115, or 32.2%, reported total abolition of the degree requirement, and the majority reported either reduction or broadening of options. In the 1974-75 survey, however, 433 institutions were classified into the "downward" group, and of these 256, or 59.1%, fell into category C representing total abolition of the degree requirement in foreign languages.

Table II summarizes the status of entrance and degree requirements at all 1,285 institutions that responded to the 1974-75 survey, juxtaposing the figures with corresponding data from the 1965-66 and 1970-71 surveys. Consistent with the figures in Table I, the data in Table II show a significant decline in the number and percentage of institutions having entrance or degree requirements in foreign languages. Table II is not concerned with quantitative increases or reductions (i.e., changes in the level of proficiency demanded) in the requirements, only with whether or not an institution still has a requirement. Thus, institutions classified in categories D ("reduced") and E ("broadened options") in Table I are not differentiated in Table II from those where the requirement was left unchanged. Only cases of outright elimination of the requirement (category C) are reflected in the differences between the 1971 and 1975 totals of institutions having foreign language entrance and degree requirements, respectively.

Table III presents an analysis of responses from 312 colleges and universities which lack a college-wide language requirement for the B.A. degree, but which reported that a language is required by one or more B.A. majors. A checklist of majors in the humanities, social sciences, and natural sciences is reproduced, with a figure indicating for each field the number of institutions reporting a language requirement. By adding these 312 institutions to the 684 which still report a college-wide degree requirement, it is possible to assert that within these limitations a total of 996 colleges and universities, or 77.5% of the total responding to the survey, have a language requirement for at least one of the academic majors leading to the B.A. degree.

In Table IV the entrance requirement data in Table II are broken down on a state-by-state, region-by-region basis, with comparative figures from three previous surveys; Table V presents the same set of data for the B.A. degree requirement. For each state, the number of institutions reporting a college-wide requirement is given, together with a figure showing what percentage of the total number of

B.A.-granting institutions in the state fall into this category. It is instructive to compare the regional percentages with the national figures. Thus, Table IV shows that the New England and Mideast regions are well above the national average in the percentage of institutions having a college-wide entrance requirement in foreign languages, the Far West region is about the same as the national average, and all other regions fall below it. In the case of the degree requirements, Table V provides figures showing New England, Mideast, Plains, Rocky Mountains, and Far West to be below the national average, while Great Lakes, Southeast, and Southwest are above average. Formerly the most conservative of the regions with respect to the degree requirement, the Southeast has yielded this distinction to the Southwest: taken as a whole, the Southeast "retention rate" dropped from 90% in 1970-71 to 63% in 1974-75; the Southwest region dropped from 84% to 72%, still 19 percentage points above the national average for the B.A. degree requirement.

The largest section of the report consists of the directory of all responding colleges and universities (listed alphabetically, by state), showing, in "coded" form, each institution's entrance and degree requirements in foreign languages. A set of supplements to the directory provides lists of institutions that have added, dropped, or decreased, respectively, their entrance or degree requirements since the last previous survey of 1970-71.

#### Notes

<sup>1</sup>See PMLA 48, 4, Part 2 (Sept. 1953), 40-55, and corresponding issues 1954-57; results of the 1957 and 1960 surveys are summarized in the 1966 report: Glen D. Willbern, "Foreign Language Entrance and Degree Requirements in Colleges that Grant the B.A. Degree: Fall 1966," Foreign Language Annals 1, 1 (Oct. 1967), 49-70. The 1970-71 survey report was published as a monograph by the MLA in 1972 and was summarized in an article by Richard I. Brod, "The Foreign Language Requirement--A Report on the 1970-71 MLA Survey," ADFL Bulletin 3, 1 (Sept. 1971), 55-58.

<sup>2</sup>The master list of institutions was derived from the most recent available (1973-74) edition of the Education Directory: Higher Education, published by the National Center for Education Statistics of the Education Division, U.S. Department of Health, Education, and Welfare.

DIRECTORY KEY

Notations *before* the semicolon refer to *entrance* requirements

Notations *after* the semicolon refer to *degree* requirements

— means that the school has no FL requirement

- |     |                                      |    |         |
|-----|--------------------------------------|----|---------|
| FL  | Foreign Language                     | F  | French  |
| MFL | Modern Foreign Language              | G  | German  |
| CL  | Classical Language                   | It | Italian |
| Lat | Latin                                | R  | Russian |
| Gk  | Greek                                | S  | Spanish |
| N   | a new language begun in / or college |    |         |

s semester hours

q quarter hours

Hs means that the degree requirement may be satisfied wholly or in part by high-school credits

Pl means that placement tests are used to check FL preparation at entrance for assignment to appropriate level in college

Pr means a satisfactory score on a proficiency test

min minimum, used to designate the amount of credit that must be earned in college regardless of the number of units completed in high school

+ A plus sign immediately after the semicolon precedes the amount of credit that must be earned by a student desiring to satisfy his degree requirement in the same language used for entrance

CEEB The College Entrance Examination Board Achievement Test or College Placement Examination in an FL. A number following this designation denotes the minimum score required by the college on one of these tests

EXAMPLES

I. —; 14sHs means:

- a. There is no entrance requirement.
- b. The degree requirement is 14 semester hours, which may be reduced by high-school credits.

II. 2u; +6s/N14s means:

- a. The FL entrance requirement is two high-school units.

b. In addition to the units presented for entrance, the student must take 6 semester hours of his high-school language in college, or take 14 semester hours of a new language.

III. —; 15qHsPl/PrCEEB560 means:

- a. There is no entrance requirement.
- b. The degree requirement may be satisfied by either
  - i) 15 quarter hours of a language taken in college, which may be reduced for students with FL background in high school by means of a placement test,
  - or ii) a score of 560 on a CEEB Achievement Test or College Placement Examination in a foreign language.

IV. 2u; +6s+Pr means:

- a. The FL entrance requirement is two high-school units.
- b. Six additional semester hours must be taken in college in the same language. A satisfactory score on a proficiency examination is also necessary to fulfill the degree requirement.

V. 3u/2u+2u; — means:

- a. Incoming students must have completed three high-school units in one language, or two units in each of two languages.
- b. There is no degree requirement.

VI. MFL2u+CEEB, MFL; 12sHs means:

- a. The FL entrance requirement is two high-school units of a modern language in addition to a satisfactory score on a CEEB Achievement Test in the same language (the College Placement Examination is administered only by colleges).
- b. The degree requirement is 12 semester hours of a modern language, which may be reduced for students with sufficient training in high school.

## FALL 1974 SURVEY OF FOREIGN LANGUAGE ENTRANCE AND DEGREE REQUIREMENTS FOR CANDIDATES FOR THE B.A. DEGREE IN UNITED STATES COLLEGES AND UNIVERSITIES

U.S. Office of Education Contract No. 0-74-2125

Dear Foreign Language Chairman:

The Modern Language Association (MLA), under contract with the U.S. Office of Education, is continuing its series of studies of entrance and degree requirements in foreign languages at all colleges and universities in the United States granting the *B.A. degree*. The published results of this 1974 survey will include analyses of the national picture in foreign language requirements, a study of trends since 1953, and a state-by-state directory of institutions and their current requirements. Since the directory is likely to be widely used by guidance counselors, school administrators, and other concerned individuals and agencies, we urge you to ensure the accuracy of the entry for your institution by returning the survey form as quickly as possible.

A new feature in this year's survey is the request for information about foreign language requirements for specific B.A. *majors*, supplementing the data on general *all-college* requirements. This additional information will help create a clearer picture of the role played by foreign language study in college curricula. A summary of the major requirements for each institution, where applicable, will appear under the name of the institution in the survey directory.

Progress reports on the survey will appear during the spring of 1975 in various MLA publications, and a final report will be printed in the September 1975 issue of the *Bulletin* of the Association of Departments of Foreign Languages (ADFL).

### INSTRUCTIONS

The enclosed cards contain computer-printed statements describing the entrance and degree requirements at your institution as they were recorded, in abbreviated form, in the directory of the MLA's 1970-71 survey. Please examine the 1970-71 statements, and then complete Part I and, if applicable, Part II of the questionnaire.

In responding to Items C and D under Part I, please give sufficient detail so that a new description of your institution's requirements can be prepared for the 1974-75 directory. If you find it easier to write on the cards themselves, please do so, but be sure to enclose this sheet with them in the return envelope.

QUESTIONNAIRE

PART I

Please check the appropriate box(es) and fill in reply as applicable.

- A.  The printed statement of our *entrance* requirement is still accurate for 1974-75.
- B.  The printed statement of our *B.A. degree* requirement is still accurate for 1974-75.
- C.  The *entrance* requirement in foreign languages has changed; the current requirement is:

---

---

---

- D.  The *B.A. degree* requirement in foreign languages has changed; the current requirement is:

---

---

---

PART II

If your institution does *not* have a general *all-college* foreign language requirement for the B.A. degree, but certain departments have a language requirement for the B.A. *major*, please indicate this by *checking* in the list below the names of the departments which have such a requirement. (You are not asked to describe these requirements; however, you may add comments in the space provided.)

If your institution has a limited all-college requirement, and certain departments have a *more demanding* requirement for the B.A. major, you may use the check list to indicate the departments that have such requirements, adding comments or explanation in the space provided if necessary.
