ABSTRACT

The Portland (Oregon) Public School Project Career Education (PCE) guide for grades 7-8 opens with an outline of the eight concepts to be implemented into the curriculum and a brief description of the four interwoven and interdependent life role definitions (vocational, leisure, family, and citizen). This is followed by a sample 7-8 implementation format, an activity evaluation form, a list of national and Oregon career clusters, The National Standard Career Education Model, and a sample career exploration activity format. The body of the document provides integrated career exploration activities in art (13 activities), health (27 activities), industrial education (21 activities), language arts (40 activities), mathematics (18 activities), home economics (32 activities), and music (23 activities). For each activity the theme, grade level, curriculum area, elements, life role, career cluster, purpose, objectives, materials resources, and procedures are outlined. The final section contains two cross reference lists of the activities by curriculum area, project components, elements, and life role and a project component section discussing the goals, concepts, and components (resources, field trips, speakers and speakers guide) of Project Career Education. MINIMAL EXPECTATION

Implementation of at least one activity from any curriculum area per teacher, per month.

- A. Activity may be selected from
 - 1. pre-prepared notebook activities
 - 2. individually-designed activities.
- B. Activity will be evaluated using form provided in pocket section.

"OUR GOAL IS NOT TO TEACH DIFFERENT THINGS, BUT TO TEACH DIFFERENTLY."

CONCEPTS

- SELF AWARENESS: 1. The student will come to know himself, learn to understand, accept and respect his uniqueness in terms of his past development and as changes occur as a result of learning, growth, maturation, environment and society.
 - 2. The student will learn the importance of establishing (although tentative) personally relevant goals based upon his self understanding.

EDUCATIONAL ALL RENESS:

1. The student will recognize that learning is a continuous process that occurs boti outside of school as well as in school, and both are a part of their career development.

CARFER

AWARENESS:

The student will develop an understanding of the variety, characteristics, qualifications and changing needs of occupations in the world or work.

ECONOMIC

AWARENESS:

1. The student will understand the relationship between various occupational roles and related personal economics and how these may influence his life roles.

DECISION MAKING:

- The student will become proficient in the process of identifying, gathering and using resource information as a part of the decision making process.
- The student will understand that the decision making process includes responsible action in identifying possible alternatives, selecting the alternative most consistent with his values and goals and in taking the steps necessary to achieve the chosen goal.

BEGINNING COMPETENCY:

The student will develop the technical and general competencies needed to get, hold and succeed in a career area of interest to him.

EMPLOYABILITY SKILLS:

- The student will recognize and understand the advantages and responsibilities associated with working independently as a member of a cooperative team and/or in being supervised or directed.
- 2. The student will develop through his educational experiences (especially in those areas that relate to career preparation). the basic work habits and attitudes regarded as necessary for entry and performance in the occupation and career of his choice.

CONCEPTS (Cont.)

ATTITUDES AND APPRECIATIONS:

- 1. The student will recognize that once a task or job is accepted there are certain responsibilities to himself and others.
- 2. The student will recognize differences in others and will develop tolerance and flexibility in his interpersonal relationships.

LIFE ROLE DEFINITIONS

VOCATIONAL:

Our economic role as a worker; through this role each of us fulfills our responsibilities within a productive society by the development of our individual potential in order to meet the demands of our society.

LEISURE:

How we spend our non-working hours; our hobbies, our avocations; how we pursue and develop our individual interests, including volunteer work in the community.

FAMILY:

Our place within our family unit, whatever that family unit may be; our responsibilities within that family unit including the physical and emotional well-being of ourselves and the other family unit members.

CITIZEN:

Our role in our community; the role we play in our local, state, and national government; our view, committment and the degree of responsibility we take in our environment.

ALL FOUR ROLES ARE INTERWOVEN AND INTERDEPENDENT

7-8 NOTEBOOK IMPLEMENTATION FORMAT (Sample)

Aug. 30, 1973

1:00 - 3:00

- 1. Total faculty (15 min)
 - a. PCE K-10 overview (Building Coordinator)
 - b. Refer to K-10 proposal
- 2. Break into grade level groups (Building Coordinator assign leaders)
 - a. K-6
 - b. 7-10
- 3. 7-8 Sample Format (approx. 1 hour)
 - a. Summer workshop results
 - purpose (activity development for Career Education integration)
 - who involved (list in notebook)
 - b. Activity format (overhead #1)
 - purpose (Career Education emphasis)
 - objectives (measurable student outcomes)
 - short, sample, useable
 - c. Minimal Expectation
 - go over, destion and answer (in notebook)
 - blank forms in notebook for our creative ideas (in back)
 - d. Evaluation form (overhead #2)
 - show and tell
 - located in pocket (Building Coordinator extra forms)
 - e. Hand out notebook give time to pursue question and answer
 - f. Sample demonstration
 - "To Tell the Truth"
 - "Take a Blank To Lunch"
 - g. Individual building needs
 - Building Coordinators handle individually
 - h. First week committment
 - suggest use as "kick-off" for Career Education
 - Career Education Coordinator follow-up
 - i. Building Coordinator is their resource person

ART

The purpose of the following activities is to help students become aware of careers in art. Each activity is designed to provide the student with a problem-solving situation related to a specific art career.

- 1. Careers in Art
- 2. Advertising Artist
- 3. Architectural Toothpicks
- 4. Book Illustrator
- 5. Cartoonist
- 6. Commercial Artist
- 7. Fashion Designer
- 8. Greeting Card Illustrator
- 9. Industrial Designer I
- 10. Industrial Designer II
- 11. Interior Decorator
- 12. Package Designer
- 13. Stage or Set Designer

Additional Activities / cross reference to other sections

Drafting

Purpose:

To acquaint students with the span of jobs available

in the area of art.

Objectives:

Students will investigate and summarize in writing a job description of 6 of 18 careers which are art-related.

Materials:

Careers in Art posters available through LeRoy Wallis'

office.

TOG

Occupational Outlook Handbook

Procedure:

1. Using resource materials listed, and any others the students can locate, have the students prepare summaries of occupational information for 6 or more

jobs related to the field of art.

2. Write a) other qualities besides interest or talent in an art (some aspect) b) analyze and list qualities or abilities which are important in addition to art talent in art related jobs c) job description for work involved for 6 jobs.

Job Reference list from poster series

By Jan Paeth

PCE K-10

June/73

Theme: Advertising Artist "the commercial artist"

Grade Level Curriculum Area Art Elements 1, 2, Life Role Vocational Career Cluster Graphic Arts

Purpose:

Students will become acquainted with the job requirements in the field of the advertising artist.

Objectives:

- Students will research and summarize in writing or in pictures 5 to 10 job requirements and future job outlook for a person interested in the field of advertising art.
- Students will design their own advertisement for a given product.

Materials:

- 1. Oil crayon drawing
 - a) oil crayons
 - b) 12"x18" white drawing paper
- or 2. Wax crayon resist:
 - a) wax crayons
 - b) black tempera or India ink
 - c) paint brushes
 - d) 12"x18" white drawing paper

or 3. Collage

- a) 12"x18" construction paper (any color).
- b) Elmer's Glue or rubber cement
- c) magazine pictures
- 4. DOT
- Occupational Exploration Kit SRA
- Careers in Art posters (available through LeRoy Wallis' office)
- Occupational Outlook Handbook
- 8. Manpower Resource of the State of Oregon 9. art books from school library
- 10. a smock

Film: "Crayon Resist". F. 4-12. 5 min.

Procedure:

example: topic-sports

- 1. display in the classroom several pieces of sports equipment (football, basketball, baseball...)
- 2. students, as advertising arts, will do a crayon drawing (no pencils allowed) or collage illustrating the chosen equipment in action.

(N.B. It should be brought to the attention of 7th and 8th graders that crayons are a valid art media for any age. If enough pressure is applied to wax crayons the resulting colors are vivid and pleasing. Color may also be enhanced if no paper is left showing. In other words, cover the entire page with color.)

Curriculum Area Art

Language Arts

Elements 1. 2. 3. 4. 5

Life Role Vocational

Career Cluster Graphic Arts

Purpose:

Students will become acquainted with the job requirements in the field of a book illustrator.

Objectives:

By means of research students will list on a bulletin board displaying 5 to 10 educational requirements of a book illustrator. Students will also display their own illustrations of a character from a given book or chapter from a book.

Materials:

- 1. white drawing paper
- 2. colored pencils or colored chalk (may be sprayed with an inexpensive hair spray to fix the chalk.) or crayons. (N.B. It should be brought to the attention of 7th and 8th graders that crayons are a valid art media for any age. If enough pressure is applied to wax crayons the resulting colors are vivid and pleasing. Color may also be enhanced if no paper is left showing. In other words, cover the entire page with color.
- 3. a smock
- 4. Occupational Exploration Kit SRA
- 5. Careers in Art posters (available through LeRoy Wallis' office)
- 6. Occupational Outlook Handbook.
 Films: "Crayon" F. 4-9, 15 min.
 "Crayon Resist" F.4-12, 5 min.

Procedure:

- 1. A student or the teacher, will read to the class a short book (primary books are usually good for this type of assignment) or a chapter for a book (i.e. adventure stories, science fiction, etc.) to the class.
- 2. Students will then illustrate and title one character from the book and place that character in the setting verbally described by the author.
- 3. Place on a bulletin board the title of the book, the students' illustrations, and the list of job requirements for a book illustrator.

By C. Cooper

PCE K-10
June/73

Theme: Cartoonist

ļ

Grade Level 7/8
Curriculum Area Art
Elements 1, 2, 3, 4, 5, 7
Life Role Vocational
Career Cluster Graphic Arts

Purpose:

By means of teacher presentation the students will become acquainted with the job requirements of a cartoonist.

Objectiv.s:

- Students will verbally define the term "freelance"
- 2. A small group of students will list on the black board 5 to 10 requirements and the job outlook of a cartoonist
- 3. By means of "scribble pictures" students will draw a unique cartoon personality.

Materials:

- 1. 12"x18" or 18"x24" white drawing paper
- 2. Crayons, chalk or colored pencils
- 3. Careers in Art posters (available through LeRoy Wallis' office) '
- 4. Occupational Outlook Handbook
- 5. Occupational Exploration Kit SRA
- 6. A smock

Film: "Discovering Line" F. 4-12, 17 min. "Line" F. 4-6, 6 min.

Procedure:

Cartooning is basically a precise linear mode of expression. An attempt to try to copy cartoons such as "Peanuts" and have the correct proportations may frustrate a student. Scribble pictures as a means to cartooning "To release children who have become inhibited and feel they cannot draw, try the scribble picture." (Art Aids for Elementary Teaching, p. 61, by Irma Littler Paine, Burgess Publishing Company, Minneapolis, Minn.)

1. given art media listed under mateials students will have 30 seconds to scribble, using large movements, on a piece of 12"x18" white drawing paper.

after viewing and studing the scribbles from many angles choose the dominate shape (i.e. a shape that resembles part or all of an animal, fowl, fish or a human form and disregard unnecessary area.

when choosing these shapes students must not randomly subdivide them (example: a shape such as may not be subdivided - black area is used and white is unused area.

Art 5a

PCE K-10 June/73 Theme: Cartoonist (cont.)

- 4. color areas appropriately so to draw the suggested shape (example: a clown's head) from the remaining shapes.
- 5. in the lower right hand corner title, date and sign the finished product.
- 6. finished products may be displayed in the class-room.

PCE K-10 June/73

Art 5b

Theme: "Commercial Artist" Advertising Art

Grade Level_ Curriculum Area Art Elements 1. 2. 3. 4. 5. Vocational Life Role Carser Cluster Graphic Arts

Purpose:

To acquaint students with the job requirements in the field of the commercial artist.

Objectives:

- Students will research and summarize in writing 5 to 10 job requirements and future job outlook for a person in the field of commercial art.
- 2. Given the international road signs (stop, curve...) students will redesign them.

Materials:

- 1. colored construction paper
- 2. scissors
- 3. rulers
- 4. glue
 5. Oregon driver's manual
- 6. Careers in Art posters (available through LeRoy wallis' office.)

Procedure:

- 1. short discussion about the purpose of international road signs and their related color.
- 2. given the materials listed above students will redesign the basic road signs.

Idea source: Creative and Mental Growth, Macmillan Co.

Flements 1, 2, 3, 4, 5, 7

Life Role Vocational

Career Cluster Graphic Arts

Purpose:

To acquaint students with the career of the fashion

designer.

Objectives:

In a "fashion booklet" students will list 5 to 10 job requirements of the fashion designer. Students will

have a picture display in the "fashion booklet" illustrating fashion for various parts of a given

country.

Materials:

Films: "Exploring Fashion with Seventeen Magazine"

FS 7-12
"The Importance of Clothing Selection" Kit 7-8
"Line and Color in Clothes" 9-12 OT (11 transparencies with overlays)

"Design in Clothes" 7-12 OT (9 transparencies with overlays)

1. Overhead projector

2. Sound film projector

- Construction or white paper for booklet cover and/ or pages (wall paper may almo be used in many interesting ways)
- 4. Scissors

5. glue

6. magazines (letters or words from magazines could also be used for lettering)

7. lettering materials (colored pencils, etc.)

- 8. Careers in Art posters (available through LeRoy Wallis' office)
- 9. V Occupational Outlook Handbook
- 10. 'Occupational Exploration Kit SRA

Procedure:

The fashion world is no longer a female domain.

1. while researching the fashion designer students will collect pictures that representing indoor and/or outdoor fashions for their age

ì

- 1) the desert (or Eastern Oregon)
- 2) the mountains (Mt. Hood in Dec.)
- 3) the sea (Lincoln Beaches)
- 4) warm climates (Portland summer)
 5) cold climates (Portland winter)
- 6) casual clothing and shoes

PCE K-10
June/73

Art 7a

(cont.) Theme: Fashion Design

7) formal clothing and shoes8) list may be extended

2. In an artistic manner students will compile their research and fashion illustration into a booklet.

4

Theme: Greeting Card Illustrator

Grade Level	7/8*						
Curriculum Area	Art :						
Elements	1, 2, 3, 4, 5,						
Life Role	Vocational						
	Leisure						
Career Cluster_	Graphic Arts						

Parpose:

To acquaint students with the possibility of an art career as a greeting card illustrator.

Objective:

- 1. A small group of students will research the qualifications necessary for a greeting card illustrator.
- 2. They will present their findings to the entire class
- 3. The entire class will then design their own greeting cards.

Materials:

- 1. tempera (mix with a couple tablespoons of starch)
- 2. white drawing paper or finger paint paper
- 3. vegetables (for vegetable prints)
- 4. paint brushes
- 5. newspapers
- 6. sharp instruments for carving
- 7. Occupational Exploration Kit, SRA
- 8. "gadgets" (for "gadget" prints)
- 9. Careers in Art posters (available through LeRoy Wallis' office)
- 10. Occupational Outlook Handbook
- 11. art books from school library
- 12. a smock

Procedure:

- 1. wear a smock students
- 2. cover working area with newspaper
- 3. printing tools (alternatives)
 - a) petatoes, carrots, beets, cabbage heads.
 slice into cross sections (sections may be carved
 with a paring knife or other sharp instrument to
 form a stamped image or left in their natural
 state.)
 - b) Gadget printing collect bottlecaps, keys, sponges and other
- "gadgets".
 4. apply tempera by dipping into the paint or use a paint brush.
- stamp onto surface of paper to create freestyle prints or freestyle nature scenes.
- 6. design the cover of the greeting card and set in on newspaper to dry.
- 7. tempera is a water base paint so work area may be cleaned with warm water.

PCE K-10 June/73 By C. Cooper

Theme: Industrial Design I "art and industry"

Grade Level	7/8				
Curriculum Area	Art				
_	I.E.				
Elements	1, 2, 3, 4, 5, 7				
Life Role	Vocational				
Career Cluster	Drafting				

Purpose:

Students will become acquainted with the purpose and job requirements in the field of the industrial designers.

Objectives:

- 1. Students will research and list 5 educational requirements of the industrial designer.
- 2. On the same paper students will list 25 machines ("the refrigerator, the stove, the sink ...") that are designed by the industrial designer
- 3. Of the 25 listed, the student will choose 2 that are the most attractive and functional and explain why.

Materials:

- 1. paper
- 2. ink or pencil
- 3. Careers in Art posters (available through LeRoy Wallis' office)
- 4. Occupational Outlook Handbook
- 5. Occupational Exploration Kit, SRA

Prodedure:

- 1. define the term "machine"
- 2. discussion of the purpose of the industrial designer in terms of an attractive appearance for the machine and its related function.
- 3. in a large group or individually the students will list on paper on the blackboard at least 5 job requirements for an industrial designer.
- 4. given a certain amount of time, at home the student will list 25 machines that are made more attractive because of the industrial designer.
- 5. of the 25 listed the student will choose 2 that he feels are the most attractive and functional and explain why. Example: 1) function referes to 3 equally important relationships:
 - a) "the realationships between design and material"
 - b) "the relationship of design to tools or machines"
 c) "the relationship between design and purpose"
 Creative and Mental Growth, 4 ed. Viktor Lowenfeld and
 - W. Lanbert Brittain, Macmillan Co. p. 345
 (2) in terms of design an attractive machine would
 be an orderly arrangement of a) line, b) shape, c)
 color and d) texture. Careers in Art poster #2

Curriculum Area Art

I.E.

Elements 1, 2, 3,4, 5, 7

Life Role Vocational

Career Cluster Drafting

Purpose:

Students will become acquainted with the job requirements and work involved in the field of the industrial designer.

Objectives:

- 1. Students will research and list 5 educational requirements and 10 areas of work of an industrial designer.
- 2. Students will design machines for the year 2001 AD

Materials:

- 1. graph paper or 12"x18" drawing paper (manila paper is too soft to hold up under multi erasures)
- 2. lead pencils or colored pencils
- 3. erasers
- 4. pictures from the works of Leger (optional)
- 5. Occupational Exploration Kit, SRA
- 6. Occupational Outlook Handbook
- 7. art books from school library
- 8. Careers in Art posters (available from LeRoy Wallis' office)

Procedure:

Problem - design the exterior for a given mode of transportation or the interior of a given room in a home for the year 2001 AD

- a. draw scale plan of design
- b. plan for getting design to production
- 1. completed designs may be displayed in the classroom.
- 2. on the blackboard compile from the students' list of 5 requirements and 10 areas of work a final list.

Theme: Package Designer

Grade Level 7/8
Curriculum Area Art
Elements 1, 2, 3, 4, 5, 7
Life Role Vocational
Career Cluster Graphic Arts
Marketing

Purpose:

Students will become acquainted with the job requirements in the field of a package designer.

Objectives:

By means of research and a bulletin board display students will list 5 to 10 educational requirements of a package designer. Students will complete a new package display for a given product.

Materials:

- 1. colored construction paper
- 2. glue
- 3. scissors
- 4. rulers
- 5. magic markers, crayons
- 6. tempera
- 7. paint brushes
- 8. newspaper
- 9. empty boxes of "know" products (i.e. cereals, scaps, detergents, etc.)
- 10. Occupational Exploration Kit, SRA
- 11. Careers in Art posters (available through LeRoy Wallis' office)
- 12. Occupational Outlook Handbook
- 13. art books from school library

Film: "Color and Pigment in Art" F. 5-9, 14 min. "Crayon" F. 4-9, 15 min.

Procedure:

Situation - Company X has planned an advertising campaign wants a new package design for their product.

- 1. each student will bring in an empty box which he or she plans to redesign.
- 2. place art materials on a table so students may choose their own media
- 3. in redesigning the box students should be conscience of the following:
 - a) color to project the product's image
 - b) individual and well defined design
 - c) neatness of final product

Theme: Stage or Set Designer

Grade Level 7/8

Curriculum Area Art

I.E.

Elements 1, 2, 3, 4, 5, 7

Life Role Vocational

Career Cluster Graphic Arts

Purpose:

Students will become aware of the role of the stage or set designer in television.

Objectives:

- 1. A volunteer group of students will report about stage designers and list 5-10 educational requirments
- 2. After watching their favorite television program students will list and describe 2 to 5 stage or set designs.

Materials:

- 1. pape.
- 2. pen or pencil
- 3. Occupational Outlook Handbook
- 4. Occupational Exploration Kit, SRA
- 5. Careers in Art posters (available through LeRoy Wallis' office)

Procedure:

- 1. a small group of students will give a report about the stage designer's role and requirements using the career education resources.
- 2. over a given period of time students will watch their favorite television program and report on the following:
 - a) name of the program
 - b) type of program (western, science fiction...)
 - c) length of program
 - d) describe 2 to 5 settings that you feel fit the program the best. (example: how settings help project the mood, color, arrangement of props...)

This assignement may be done individually in writing; in small groups after they watched the same program or an entire class discussion after watching the same program.

Theme: What Are My Roles?

Grade Level 7/8
Curriculum Area Health
Elements 1-4
Life Role All
Career Cluster All

Purpose:

To have individual students determine that he fills more than one role and place a value on each of those roles.

Objectives:

From a list of roles compiled by the student, that student will put those roles in priority order and explain to a larger group his reasoning. After experiencing activity discussions, the student will summarize orally or in writing (a) what contributes to value judgments (b) what influence his values as revealed in his priorities.

Materials:

none

Procedure:

- Without prior discussion, ask each student to (a) list who they are e.g. student (b) list should contain more than one role.
- 2. Again, without prior discussion, have the student reflect on his list and give each role title a number with <u>l</u> being the most important to the individual (have them jot down any "why" thoughts as they rank the roles for use later).
- 3. Through discussion (small or large group) have each student relate why they gave number 1 its place and any subsequent thoughts they came up within their priorities.

Also share:

A. Initial reactions to task.

B. Some volunteers to share role list and reasons as alternative to each student.

4. Compile as group a ROLE list.

A. Divide into 4 life role lists.

5. Compile GENERALITIES list of "why" reasons.

- 6. Discuss role of individual values evident in generalities list.
 - A. Examine where values come from (aspects of environment).
 - B. Examine what influences change in values (economic condition, location, peers, education).

Theme: Personal Knowledge

Grade Level 7/8
Curriculum Area Health
Self Understanding
Elements 2,3,4,5,8
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students gain knowledge about their personal preferences, abilities, aptitudes, personality.

Objectives:

Given the attached worksheet each student will rate himself on a scale of O (definitely No) to 5 (definitely Yes) on the listed statements.

Materials:

Personal Knowledge Worksheet, pencil

Procedure:

- 1. Class discussion on why self-knowledge is useful and important should precede this activity. Discussion of rating scale is necessary also.
- 2. Distribute check list and allow students time to complete.
- 3. Follow up discussions could include the following points:
 - A. Individual differences.
 - B. It is not possible to work on everything you might be dissatisfied with at the same time.
 - C. Everybody should be comfortable with himself.
 - D. Points about getting along with people, competition, goals.

below)	. In the blanks
I prefer to take part in activities with others.	
I prefer activities by myself.	
I prefer some activities with others, but more by mysel	Lf.
I usually try to spend my time with others.	
I usually avoid doing things with other people.	
Sometimes I like to do things with others, but usually for companions if I'm by myself.	I don't look
I like all kinds of people.	
I like only a few kinds of people.	
I like lots of people, but have only a few for real from	iends.
I make friends pretty fast.	
I make friends rather slowly.	
I make some friends pretty fast but others rather slo	wly.
I am accepted quickly by new acquaintances.	
I am accepted gradually by new acquintances.	
I am accepted quickly by a few new acquaintances and s	lowly by others.
I am popular with other kids at school.	
I am not popular with other kids at school.	(3)
I am popular with a few kids at school but not popular	with most kids.
I am usually satisfied with my first impression of new	people I meet.
I am sometimes right in my first impression of new peo	ple I meet.
My judgment is better when I am doing things on my own	by myself.
My judgment is better when I am with other kids who he	lp me decide.
I am usually the one to persuade other kids to do some	thing.
I am usually persuaded by other kids to do things; I we they do.	ait to see what
I am active in several groups.	
I am active in just a few groups.	
I am active in no groups.	
I will usually help in group activities whether I like or not.	the activity
I will usually help in group activities only if I like	the activity.
I am often chosen to be a leader in the groups I am in	1•
nen v. 10	
PCE K-10	Health 2a
June/73	

I am seldom chosen to be a leader in the groups I am in.
I am never chosen to be the leader in the groups I am in.
I usually like to be a leader.
I usually don't like to be a leader.
I never want to be a leader.
I could be a leader sometimes if I could just get up the nerve.
I could never be a leader; it just scares me too much.
I usually like to be in the thick of things when doing something in a group.
I usually try to stay off to the side when my group is doing something
I'll usually do what the group is doing only after being told to.
When I have a job to do, I get right at it, without stalling around.
When I have a job to do, I let it go and then mess it up when I finally do it.
I usually do a good job when I do it.
I usually do less with a job or chore than I would really like to.
I get kind of confused in emergencies.
I often think of something I should have said or done after it is too late.
I can usually do the right thing in an emergency.
I like competition; the more the better.
I don't like to compete very much; I'd rather do things that don't require it.
I like to watch football games, basketball, other kids or people in competition.
I don't like to do something unless I know exactly what it is I am supposed to do.
I like it better when I can figure out myself what to do.
I can talk with most people easily.
I can't think of anything to say when around some people.
I have done many things on my own that my parents never knew about.
I usually tell my parents about things I have done.
I like to spend long periods of time by myself, just thinking.
If I didn't have to go to school, I wouldn't go.
I would like to just go to classes that I think will help me.
I would like to live dangerously and try things even if they will probably injure me.

PCE K-10 June/73

Health 2 b

I usually play it safe and avoid situations that might hurt me kind of seriously.	:
I usually plan out carefully things I am going to do.	
I seldom plan things out carefully; I like to take every minute it comes.	8.5
I would pass up a dollar now if I had a good change of two doll a month from now.	are.

Theme: Knowing Me

Grade Level 7/8 (All)
Curriculum Area Health
Elements 1,2
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students develop a sense of "Self" as different from all other persons.

Objectives:

 Students will be able to recognize words, phrases, pictures, signs that describe or depict themselves.

Materials:

Magazines, construction paper, pencil, scissors, glue, tape, one envelope per child.

Procedure:

- l. Cut out one outline of your head. Then make two other heads like the first one.
- 2. Using the magazines, cut out words, phrases, pictures, signs that you feel could be used to describe you.
 Do this alone!
- 3. Glue the words, pictures, etc. on the cut out of your head in any manner that pleases you.
- 4. Put this head away.
- * This activity could be spread out over 2 or 3 days.

Theme: My Friend's View of Me

Grade Level 7/8 (All)
Curriculum Area Health
Elements 1,2
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students develop a sense of "Self" as different from all other persons.

Objectives:

1. Students will be able to recognize words, phrases, pictures, signs, that describe or depict themselves as they think a friend would.

Materials:

Magazines, second head outline, pencil, scissors, glue, tape.

Procedure:

- L. Student will choose one other person to work with during today's session. Do not allow a student to be an isolate.
- 2. Each student is to use words, pictures, phrases, they think their friend would use in describing them. Glue these on the second head outline. This is to be done alone.
- 3. When this is done ask the students to sit near their friend and talk about how accurate they were in guessing how they think their friend saw them. (allow about 5 minutes for each student)
- 4. If you want, further discussion on obtaining accurate information about ourselves from others could follow.

Theme: Character Traits

Grade Level 7/8
Curriculum Area Health
Elements 2,3
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students understand what a character trait is and that all persons place different values on different traits.

Objectives:

Given a sheet of paper and pencil, each student will be able to list 10 character traits that he feels important for each of the following:

a. ideal studentb. ideal parentc. ideal teacher

d. ideal worker in job of his choosing

Material:

Paper, pencil, classroom

Procedure:

Given the following list of character traits, each student will rank these traits on a scale of one to seven, one being most important, seven being least important, by himself.

clean cooperative dependable good sport happy honest

smart

After the above is accomplished and discussed, students will form 5-6 person groups and reach a group concensus as to the ranking of the 7 character traits. The teacher will then write each group's rankings on the board

using the following chart:

		Group 1	Group 2	Group 3	Etc
1.	clean				
2.	cooperative	,			
3.	dependable				
4.	good sport				
5.	happy				
6.	honest			<u></u>	
7.	smart

Theme: How Can You Help Your Rersonality Grow?

Grade Level 7/8
Curriculum Area Health
Elements 2,3
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students become aware of some of the factors involved in personality development and how they can plan for their own personality growth.

Objectives:

- 1. Each student group will be able to illustrate and explain one objective listed on board.
- 2. Each student will be able to explain or discuss 6 out of the 8 objectives listed.

Materials:

Textbook-Human Growth, cassette tape recorder, camera, magazines, newspapers, visual maker kits available through Leroy Wallis' office.

Procedure:

- 1. Divide students into groups of 3 or 4. After studying Chapter 3 in 7th grade text; Chapter 5 in 8th grade text.
- 2. Teacher will write objectives for Chapter three on board (see page 25 in teacher's manual in back of book), chapter 5, page 25 for 8th grade.
- 3. Each student group will choose an objective to illustrate and explain it to the rest of the class.
- 4. Students select or take pictures and write script to explain objective.
- 5. Students select one person to record or recite script to rest of class. Pictures and script should form a unified explanation and/or illustration of the objective chosen.
- 6. Teacher and rest of class will critique each presentation on the basis of clarity, unity, originality, and give each group from 1 to 4 points for their presentation.

Theme: A Job Well Done

Grade Level 7th and up
Curriculum Area Health
Social Studies
Elements 1,2,3,4,5,8
Life Role All
Career Cluster All

Purpose:

To help students understand that all types of work can be enjoyed by someone, and if well done will carry a dignity for the worker.

Objectives:

- 1. Students will understand that all types of work can carry a certain dignity to the individual engaged in
- 2. After filling in the form on "Things for me to think about", and class discussion a student will be able to name 5 occupations that he likes and can find dignity in.

Materials:

List: "Things for me to think about" (class load)
D.O.T., Occupational Outlook Handbook, SRA-O.E.K. Kit,
any career magazines and pamphlets

Procedure:

- 1. Have class discussion on the dignity of all work-dignity implying that work is done carefully and to the best of one's ability.
- 2. Discussion starters: Every type of work has dignity.
 Work is a necessary evil. A chosen work should be one
 that a person likes. Work not done to the best of
 ability doesn't give satisfaction. The quality of
 work done now is an indication of quality of the adult.
- 3. Make a collage in art class showing various types of work.
- 4. Have the class make a bulletin board showing work as valuable to mankind.
- 5. Encourage students to find and share information about jobs that are not familiar to the class. This could be found in the D.O.T., Occupational Outlook Handbook, or current career magazines and pamphlets.
- 6. Have students fill in the following form of things to think about.
 - a. Do I consider all types of work to have some value?
 - How do I feel about jobs which require more hand work than head work?

Theme: Understanding Others

Grade Level
Curriculum Area Health
Self Understanding
Elements 1,2,3,5,8
Life Role All
Career Cluster All

Purpose:

The purpose of this activity is to help students become aware of (a) the importance of understanding others in all life roles, and (b) some of the thinking that hinders understanding others.

Objectives:

- 1. Given the attached ditto sheet, paper and pencil, each student will be able to do the following after reading it and class discussion:
 - a. write a definition of empathy
 - b. list the types of fuzzy thinking and give an example of each with 75% accuracy minimum
 - c. discuss the five basic truths about people and determine how an acceptance of them will help them understand others. (see 15c)

Materials:

ditto: 'The Door to Understanding Others', paper, pencil

Procedure:

- 1. Teacher will distribute ditto sheet and lead class in discussion of information and why understanding others is important.
- 2. Students will be asked to proceed with objectives listed above.
- 3. A follow-up discussion after activity would be desirable. (possible check list statements or identify a type of thinking.)

Idea Jan Paeth
Adapted by Bob Foster
Carolyn Westergren

PCE K-10 June/73 Health 15a Edited 6/74

THE DOOR TO UNDERSTANDING OTHERS

One of the keys that will open the Door to Understanding Others is the Key of Empathy. Empathy is the ability to understand how other people feel, the ability to put yourself in their places and, through words and actions, to be able to show you care.

It is important, however, for you to realize that your ability to empathize is based largely on how you think of others. Your thoughts can either strengthen or weaken your understanding of other people, their behavior, needs, and hopes.

There are various expressions of distorted or fuzzy thinking that can interfere with your developing a good understanding of others. A discussion of these types of distorted thinking will help you to see how empathy can be altered by myths or misinformation, thereby making The Door to Understanding Others difficult to open.

Consider the various types of fuzzy thinking listed below and give examples of how each can promote misunderstanding.

- 1. SCAPEGOATING: making a person or group responsible for an idea or action you do not like. This type of thinking is based on prejudice.
- 2. STEREOTYPING: classifying all members of a race, ethnic or other group, or social class as being alike, whether referring to worth or lack of it. This type of distorted thinking is usually based on knowledge of one or two members of a particular group who have a similar characteristic, and the extension of that characteristic to all members of the same group.
- 3. GENERALIZING: drawing conclusions about people or situations without first obtaining sufficient evidence or knowledge. You will find that this kind of distorted thinking is usually based on a hasty deduction and one not supported by scientific data or fact.
- 4. RATIONALIZING: trying to find a reason to excuse or justify an opinion or an action. Rationalizing usually results from a desire to believe that a negative feeling or action has just causes.
- 5. SHOWING PREJUDICE: using myths or erroneous information to attack an individual or a group. Ignorance and false pride are often the causes of prejudice.

PCE K-10
June/73

Health 15b

6. NAMECALLING: calling other people or groups of people derogatory names. This expression of fuzzy thinking is usually caused by a person's own feelings of inadequacy.

With a good understanding of these actions that are the results of distorted thinking, you should be able to avoid their consequences and develop a real feeling for other people. With this Key of Empathy you will be able to unlock the Door to Understanding Others.

It is also important that you recognize certain basic truths about people, as an understanding of others will never be achieved unless you safeguard human dignity. Discuss these truths and determine how an acceptance of them will help students to open the Door to Understanding Others.

The truths include:

- 1. All people are unique. It has been said that "everyone one meets is in some way superior".
- 2. All people are worthwhile.
- 3. All behavior has a reason.
- 4. People can change.
- 5. People need to participate in the decisions that affect them.

You may question some of these truths. If so, analyze each statement so that you will be well on your way to opening the Door to Understanding Others.

PCE K-10 June/73 He vi th

Theme: My Family

Grade Level 7/8
Curriculum Area Health
Elements 1,2,3,4
Life Role Family
Career Cluster None

Purpose:

To allow the students to have a better understanding of themselves as a member of the family.

Objectives:

- 1. From a given checklist the student will rate himself on a given scale as to his role in the family.
- 2. After rating himself and class discussion, the student will be able to write a rational paragraph on family patterns that will tend to develop better inter-family understanding.

Materials:

A self-rating checklist(class load)

Resource material on family relations --- textbooks,

paperbacks, pamphlets, etc.

60

Procedure:

Students will first rate themselves on the given checklist. Individual reading and class discussion will follow the self-evaluation. Paragraphs will be written on good family patterns that will help to eliminate family misunderstandings. Paragraphs may be read aloud in the class and discussed. Review check list (vocabulary) 16b with group.

Theme: Panel Discussion on Family Relationships

Grade Level	7/8
Curriculum Area	Health
Elements	1,2,3,4
Life Role	Family
Career Cluster_	None

Purpose:

To have both parents and students aware of each others problems.

Objectives:

- . To have the class develop a list of problems common to teenagers.
- 2. To have the class develop a list of problems common to parents.
- 3. From the class-developed lists of problems, students will be able to give possible solutions to at least two of the problems from information gained in a panel discussion between parents and teenagers.

Materials:

Microphones, table and chairs Announcements of panel discussion

Procedure:

Through study and discussion the class will develop check lists of problems common to teenagers and parents. A panel could be set up in the homeroom, or for a PTA group. Points to be covered should be developed in the classroom. After the panel discussion, there should be class time to evaluate as a class group, the important points learned.

PCE K-10 June/73

Theme: Friendship

7/8 Grade Level Curriculum Area Health Self Understanding 1,2,3,4,8 Elements Life Role All None Career Cluster

Purpose:

The purpose of this activity is to help students find out (a) how they rate as a friend and (b) how they might become a better friend.

Objectives:

- 1. Given the checklist below, each student will be able to rate himself on a 1-3 scale on the characteristics of a good friend. One is good, three is poor.
- 2. Each student will be able to write sentences explaining his rating.

Materials: Checklist, pencil, or pen

Procedure:

- 1. Pass out following checklist to each student:
 - a. Open and honest b. Trustworthy

 - c. Always arguing
 - d. Interrupt his ideas
 - e. Insist on your way
 - f. Thoughtful of his rights
 - g. Respectful of his family
 - h. Allow him to make mistakes
 - i. Forgive him easily
- 2. Each student will rate himself indicating his usual conduct with three of his best friends. Use 1 for good, 2 for fair, 3 for poor on the checklist.
- 3. Each student will comment on one area of the checklist where he rated himself good - why he feels he can give himself this rating - and one area of the checklist where he rated himself poor - why.

Health 18

PCE K-10 June/73

Grade Level	7/8
Curriculum Area	Health
Elements	1. 2. 5
Life Role	Vocational
	Citizen
Career Cluster	All

Purpose:

To show students there is a need for authority in health careers, as an example.

Objectives:

- 1. Through observation, students will be able to see the need for cooperation between the worker and the authority.
- 2. Students will become familiar with health occupations and will be able to list ten occupations relating to health.

Materials:

Classroom textbooks, D.O.T., O.E.K. Kit, Health & Growth (Scott Foresman & Co., P. 151-167), Careers - A Directory of Vocational and Technical Training Resources in Oregon, p. 22, Career Choice and Career Preparation (State of Washington Coordinating Council for Occupational Education, p. 243-247), Occupational Outlook Handbook 1972-73 ed. Look for the specific occupation in the Table of Contents, (example: Hospital Administrator, p. 131).

Procedure:

Each student will pair off with another student to roleplay in a chosen health career. One student will be the "boss" and the other one will be the worker. The situation played should follow each role played with the teacher leading the discussion into special observations of authority and worker cooperation. A contest could follow involving the best cooperation in the room for a week.

Theme: Nutrition

Grade Level Curriculum Area Heal th Home Economics 2,3,4,5,6 Health Occupations Elements Life Role Vocational Career Cluster Family

Purpose:

To give students an idea of whether their home meals are

of proper nutritional value.

Objectives:

After students have made charts of their meals for a week, they should be able to observe the nutritional value of each menu and help mom to prepare more nutritional meals.

Materials:

Food charts Health text

Procedure:

After or during the unit on the nutritional value of foods, have each student make a chart of his meals each day for a week. Have him analyze his menus as to nutritional value. Student then makes a set of new menus for a week, taking his original menus and filling in the necessary foods that were lacking for adequate nutrition.

Theme: Field Trip on Nutrition

Grade Level 7/8
Curriculum Area Health
Home Economics
Field Trips

Elements 2,5
Life Role Vocation
Career Cluster Health-Occupations

Purpose:

To acquaint students with careers available in the field of nutrition by means of a field trip to an appropriate place for nutritional career.

Objectives:

- 1. Each student will be able to list five occupations that deal with food and nutrition.
- 2. Each student will be able to list the occupations involved with food and nutrition at the field trips selected, i.e., hospital, cafeteria, convalescent home, etc.

Materials:

Human Growth textbook, D.O.T., Occupational Outlook Hand-book

Procedure:

- 1. After completing the unit on Nutrition in the Health Book (p. 106-138 for 8th, p. 178-202 for 7th grade), have students look up information on careers for dietician, hospital nutritionist, and other careers related to nutrition.
- 2. Have a guest speaker on nutrition come in to speak about the problems involved in his career (IPAR could probably help you with this).
- 3. Arrange a field trip to the hospital kitchen with the specific objective of observing the careers involved in nutrition and getting the food to the patient. A list of other careers could be made as the student takes the field trip.
- 4. Students should take pictures and make tapes of the field trip and report back to the class (for small group) or if the whole class makes the trip, the pictures and tapes could be used as a culminating discussion for the unit.

Theme: Traffic Safety

Grade Level 7/8
Curriculum Area Health
Social Studies
Language Arts
Math
Elements 3:7
Life Role Citizen
Career Cluster Social Studies

D

Purpose:

To acquaint students with some of the problems in deciding traffic safety patterns.

Objectives:

- 1. From the charts and graphs made students will be able to list some of the problems involved in changing traffic patterns.
- 2. Students will learn to collect data and use the data in charts and graphs.
- 3. Students will be able to relate traffic safety patterns to their personal well-being.

Materials:

None

Procedure:

- 1. Class divides into groups of 3 or 4 in a group.
- 2. Each group will take a certain area of the neighborhood and keep a record of cars, trucks, pedestrians, and bicycles that pass each intersection during the peak traffic period.
- 3. Charts and graphs will be made of the whole neighborhood to show the flow pattern of traffic and the danger spots for bicycles. Letters and/or telephone calls can find the number of accidents at any given intersection.
- 4. The class will then try to determine how traffic patterns could be changed to bring about more safety for bicycle traffic, or traffic as a whole.
- 5. The class should discuss the effects on their own lives of these traffic patterns (i.e., getting to school safely and on time; parents being able to get to work safely and on time, mental attitude good as a result of feeling safe, etc.).

Theme: Skeleton

Grade Level 7/8
Curriculum Area Health
Science
Elements 2.7
Life Role All
Career Cluster Health Occupations

Purpose:

To have students become familiar with the skeleton and names of bones as a pre-requisite for careers needing this information.

Objectives:

- 1. After study of the human skeleton students will be able to correctly label at least half of the skeletal bones.
- After a study of pressure points students will be able to demonstrate where the major pressure points are.
- 3. After class chart of careers using this information, student should be able to list two occupations where this information is used.

Materials:

Acetate drawing of the skeleton

Procedure:

- After unit on study of the human skeleton, also first aid for pressure points, the teacher makes an acetate sheet for the overhead projector of the human skeleton.
- 2. Project the image on the chalk board and have students take turns writing the names of bones, correctly spelled, on the chalkboard.
- Students could also show where the pressure points are located. (This may also be used as a contest.)
- 4. Have students make a class list or chart, showing occupations where this technical knowledge may be used.

Elements 1,3,5,7
Life Role Vocational
Career Cluster Health

Purpose:

The purpose of this activity is to help students become aware of some of the vocations that have contibuted in some direct way to solving the problem of health through the ages.

Objectives:

- Leach student, using various recource material, will be able to list at least 20 vocations that have contributed directly to man's solving the problem of health
- 2. Students will develop skills in using various resource
- 3. Students will be able to tell how 10 of the 20 occupations listed has contributed to solving the problem of health.

Materials:

D.O.T., Occupational Outlook Handbook, Social Studies texts, Science texts, encyclopedias, etc.

Procedure:

- 1. Through discussion, students will realize that man has not always enjoyed such a high standard of health. Various problems that man has had, and still has to some extent, though the ages should come up.
- 2. Ask students to find and list at least 20 occupations that have helped man solve health problems. Obvious ones are doctor, pharmacist. Capable students should be able to find little-known jobs, while others can do the more obvious.
- 3. After making their list, students will write how ten of the listed occupations made their contributions. This can be in a sentence or two for each.

INDUSTRIAL EDUCATION

INDUSTRIAL EDUCATION ACTIVITIES

You are receiving the total Industrial Ed. packet of Career Ed. emphasis activities.

These activities are not prioratized as to when they are to be used because of the diverse methods of teaching by individual teachers in Portland. For instance, if a teacher uses the sailboat unit for the 7th grade then most of these activities would fall in the 8th grade. Also, if a school provides Industrial Ed. for 6th grade students the plastics and model car units would be used best in the 6th grade program.

These activies are not prioratized because of varying time allotments for Industrial Ed. in different schools. The time for the activities very from one year to one period (approximately 80 min.). A list of approximate time lines is given on page 2.

Some activities can be done jointly with the Home Ec. department but must be corralated with the Home Ec. schedule.

John Harris Paul Stuart LeRoy Hessart

Additional Activities

Cross Reference to other sections

Theme: The Contest

(Can be adaptated to other areas by modifying rules to fit given

teaching situations)

Grade Level	6-7-8
Curriculum Area	Ind. Education
_	Home Economics
-	Math
<u> </u>	Physical Education
Elements	All
Life Role	All
Career Cluster	All

Purpose:

The purpose of the activity is to facilitate student responsibility for his own behavior, management of class time and use of shop equipment.

Objectives:

Comment --This activity is measurable by the instructor's observation of the students increased awareness of shop safety, courtesy to the instructor and fellow classmates, their safety record and (least important) the score.

- 1. The student's behavior in the shop will be largely directed by safety-conscious activities.
- 2. The student will become aware of courtesy to superiors and his fellow workers.
- The student will become aware that the world of work involves teamwork.
- 4. The students will have had an experience to be foreman, responsible for the conduct of others in cleaning up the shop.

Materials:

None

Procedure:

1. Start each section coming into shop with 200 points. Preferably 8th grade sections in one contest and 7th grade sections in one contest and 7th grade sections into another contest.

Example:

Grade 8		Grade 7	
Mrs. Jones	200	Mr. Dukes	200
Mr. Smith	200	Miss Black	200
Mr. Brown	200	Mr. Smart	200

PCE K-10 June/73 Ind. Ed. la

The Contest (continued)

- 2. On first day of shop, describe the contest to each section.
 - a. Each group starts with 200 points.
 - b. 7th grade classes will not compete with 8th grade classes.
 - c. After the rules of the shop have been explained or a tool has been demonstrated, one or more points will be deducted for each violation of the rule or misuse of the tool.
 - d. The final contest will end the last week in January and the one 8th grade and the one 7th grade section with the highest score will be treated to a milk shake for each boy in the section (An alternative is to bring ice cream freezers and make homemade ice cream).
 - e. A second contest will run from February until the last week of school.
 - f. One class may win both times.
 - g. The home room teacher also receives a milk shake.
 - h. There is to be no fighting or physical punishment to those who lose points.

CONTEST RULES

An explanation of "Why" we have the rule should follow the giving of each rule.

		Loss of points
ı.	Students must not change score (TEACHER CHARTS POINTS)	2
2.	No stealing (3 reasons why things disappear)	5
	a. Actual stealing	
	b. Hiding another student's project	
	c. Taking an item by mistake	•
3.	Unacceptable language	2
4.	Misuse of tools	1
5•	Not putting tools away properly	1
6.	Not cleaning up properly (1 point fine for each job	
	improperly done)	1
7.	Late clean up (1 point for each minute late)	1
	Failure to line up when clean up job is done.	1

PCE K-10 June/73 Ind. Ed. 1 b

Procedure for clean up:

	Put project away (1 minute) Put tools away (1 minute) Do assigned clean up job (5 minutes)	1 1 1
	Get in line and stay there unless the foreman assigns you another job	1
	Do as the foreman directs in shop	2
9.	No running in shop.	1
10.	Get permission before leaving shop.	1 1 1
11.	Check in with instructor if tardy.	1
12.	No practical jokes.	1-5
13.	Too much noise.	1
14.	Interrupting instructor while he is helping another	1
ם כ	student, reading, writing, or otherwise busy. Students should not enter storage or lumber rooms without	
15.	permission.	1
16.	Students entering shop at the beginning of the period	
	should go to assigned work station and sit until	
	directions are given by the instructor (l point for each student out of place).	1
17.	Do not handle other students projects or other things in	
	the shop not related to the students own project without	
	permission.	1~5
18.	Do not use power tools without operator's permit.	ļ
19.	Stay out of safety zones while power tools are in operation	1 1
	Wear goggles while operating power tools.	1
21.	Fix long hair so that it will not become a safety	1
22	hazard.	<u>.</u>
22.	<u> </u>	ı
	safety.	<u> </u>

Funding

Usually I pay for the milkshakes or ice cream. I feel it worth the expense because it cuts down my discipline problems 80%. The burden of blame for misconduct is placed on the student instead of the instructor. However, there are other ways of funding:

- 1. Ask principal for money
- 2. Manufacture and sell a project

24. Place stools on work benches at the end of the period.

By L. Hesgard

PCE K-10 June/73

23. Wasting time.

1

Theme: Plastics Unit (These activities are designed for a students initial experience in the Industrial Education Dept.)

> Grade Level 6-7 (Boys/Girls Curriculum Area Ind. Education Elements 1,2,7 Life Role Vocational Leisure Career Cluster Construction

Purpose:

To introduce the student to the shop program: To acquaint the students with simple inexpensive hand: tools which can be used to work with plastics and wood: To acquaint the student with solid plastics materials and its place in our world of construction and leisure activities.

- Objectives: 1. Given a piece of plastic and paper the student will learn to design a functional and attractive letter
 - 2. The student will learn how to use specific introductory tools such as the Coping saw, file, vice and abrasive materials.
 - 3. The student will become proficient in the use of a buffer.

Materials:

- l piece of 1/8" plastic 1½"x 9" for each student paper for design planning
- 1 piece 3/4" plywood 3" x 6" for each student for V blocks
- 1 C clamp or vice for each student
- 1 Coping saw for each student
- l half round file for each student
- 1 sheet 90 grit and one sheet 200 grit abrasive paper for each 4 students
- 2 buffers and tripoli component for each 10 students

Procedure:

June/73

"Teacher Instruction"

- Show film "The World of Shape" FS-R,K-1 'Plastics: Industrial Processes and Products" 7-12
- 2. Discuss with students the characteristics of plastics Example: brittle, chips easy, can be formed by heat treatment, can be cut and sanded with woodworking tools. etc.)
- 3. Discuss the specific design of a letter opener.
 - a. Avoid thin spots which might break easily.
 - b. Develop a sharp point and blade which will enter and cut an envelop easily.
 - c. Design a handle which looks pleasing and is comfortable to hold.

PCE K-10 Ind. Ed. 3 a

Plastics Unit (continued)

- 4. Give students 3" x 6" plywood, clamp to desk with C clamp or clamp in vice and demonstrate use of Coping saw to make a V in one end of block.
- 5. Draw designs on paper until a satisfactory design has been found.
- 6. Transfer design to plastic.
- 7. Using V block demonstrate how to use the Coping saw in cutting out letter opener.
- Finger gage blade line on both sides of blade and file to a sharp edge.
- Use 90 grit and 200 grit abrasive to sand all rough surfaces.
- 10. Demonstrate use of buffer in polishing sanded surfaces.

"Student Activity"

Beginning with procedure 4 the students will be given time after each demonstration to work on that demonstration. The timing of demonstrations, will be dictated by the fastest students in the class.

PREREQUISITE ACTIVITY #1

Purpose: The purpose of this unit is to further acquaint students

with solid plastics in industry: specifically, heat form-

ing, lamination and drilling.

Objectives: 1. Given plastic material the student will learn to use

the following tools in the shop:

a. Drill Press

b. Jig saw

c. Strip heater

d. Oven (Home Ec. Dept.)

2. As each tool is demonstrated its importance in industry

Vice for drill press

and safety features will be emphasized.

Given the appropriate plastic each student will construct projects involving the above mentioned

Power Disc & Belt Sander

Materials Drill Press

> Jig saw Plastic

Strip heater Laminating cement

Buffer Jig Molds

Forming Oven

1. Demonstrate each tool above giving special attention Procedure: to its use and importance in industry.

2. Stress safety procedures involved in working with each tool.

Each student will construct projects involving the use of each tool or activity.

PCE K-10 June/73

Ind. Ed. 3 b Edited 6/74

Plastics Unit (continued)

- 4. Suggested projects:
 - a. Letter opener with twisted handle
 - b. Letter opener, clear plastic laminated with colored plastic cement
 - c. Salt and pepper shakers
 - d. Candy dish, formed by heating in oven
 - e. Cake server
- The instructor should select a project appropriate to the class level and work it through the various steps and processes one stop ahead of the students. Example:
 - 1. Project design
 - 2. Material cost: planning
 - 3. Pattern transfer
 - 4. Cutting with jigsaw 5. Power sand trinming

 - 6. Drilling
 - 7. Filing and abrasive preparation
 - 8. Chemical or buff finishing
 - 9. Heat forming and shaping
- 6. Related Information:
 - a. Safety factors at all points
 - b. Related career aspects should be included i.e.

Product designers #: Product planners Production workers Marketing Sales

By Leroy Hesgard

PCE K-10 June/73

Ind. Ed. 3 c Edited 6/74

Theme: Model Car Construction

Grade Level 6-7-8	
Curriculum Area	Ind. Education
Elements	All
Life Role	All
Career Cluster	Marketing
	Construction

Purpose:

The purpose of this unit is to (a) develop in the student an elementary understanding of automotive design, (b) become familiar with simple woodwork tools and finishing processes, (c) to develop an appreciation of the importance of fine detail work and accuracy in workmanship.

Objectives:

- 1. Given a block of sugar pine 3"x2"x9", pencil and paper, the student will develop a pleasing and functional design for a model car.
- 2. The student, using basic hand tools, will carve out a model car.
- 3. Using brush or simple spray techniques will apply a finish to the car.
- 4. The activity will culminate in championship races held in the gym with all 6-8 students invited to come.
- 5. The students will be instructed in conduct appropriate for contestants and spectaters at all sporting events.

Materials:

.

Race track using 1 sheet %" plywood 4'x10' raised 30" from the floor at the starting gate. It will be divided into 3 lanes, 16" wide with a 3/4" x %" divider between each lane and have a starting gate so that all 3 cars can start at the same time. Three layers of butcher paper may be used at the lower end for a smooth take-off onto the gym floor.

- l scale to weigh cars (limit 1 lb.)
- l chalk board to tally scores
- l piece sugar pine 3"x2"x9" for each student
- 1 back saw for each 3 students
- 1 %" chisel for each 2 students
- 1 4" chisel for each 5 students
- 1 set carving tools for each 10 students
- 1 sheet 90 grit abrasive paper for each 2 students
- 1 " 120 " " " " " " "
- 1 " 220 " " " " " " "
- 1 try square for each 5 students
- l length piano wire to fit wheels for each 4 students
- 2 sets wheels for each student (preferable 1½" #63½ wheels. (wire and wheels can be purchased at Aero Sports on 120th and Division, Portland. Order 6 weeks in advance.).

ERIC

PCE K-10 June/73

Model Car Construction (continued)

brushes, paint and paint thinner (spray paint must be furnished by students if they wish it).

Procedure:

- 1. Give each student a block of sugar pine 3"x2"x9" and a piece of butcher paper.
- 2. Lay the block (2"x9" side) on the paper and trace around the block. Do this several times.
- 3. Discuss design techniques.
 - a. pleasing to look at
 - b. functional (example fenders so low that wheels stick through fender)
 - c. .effects of wind on car
 - d. importance of cars ability to travel in a straight line
- 4. a. Draw design (silhouette) in each space until you have a pleasing and functional design.
 - b. It is preferable to have several sample cars for students to look at as many students cannot come up with an original design.
- 5. Put a 1%" #18 nail (substitute for an axel) through the wheel and place a wheel on the block at desired l locations (front and rear) with nail pressed tight against block and (with pencil slanted towards center of wheel) trace around the wheel and mark axel location at the nail.
- 6. With a try square tilted up, so as not to dull the tooth on the saw, put the handle of the square tight against the side of the block and cut two cuts one at each axel mark. The key to a successful race lies in this step. If the axel cuts are not parallel the car will not go straight. Cut 1/8" deep into the bottom of the block.
- 7. With try square draw lines ½" apart across the top of the block.

- 8. With a back saw cut down lines to silhouette of car.
- 9. With chisel cut away the wood above the silhouette line.
- 10. Finger gauge lines on top and sides for fenders and ornamental lines.
- 11. Cut away material around fenders and ornamental lines with chisel and carving tools.
- 12. Turn block over and carve out wheel wells or bore with auger bit.
- 13. Sand car with abrasive paper-fill unwanted holes with plastic wood and sand again.
- 14. Paint with one coat undercoat and 2 or 3 coats enamel or if student prefers he can purchase a spray can and spray it.

PCE <-10 June/73 Ind. Ed. 4-b Edited 6/74

Model Car Construction (continued)

- 15. Cut axels (piano Wire) put on wheels and 2 washers between wheels (pop rivets with the nail removed make excellent washers.)
- 16. Mash each end of axel in large metal bench vice.
- 17. Glue axele into saw cuts on bottom of car and let dry 24 hours.

Model Car Race Rules

- 1. Hold races in shop (speed races) to determine the top 6 cars in each class.
- 2. arrange with principal, P.E. instructor and staff for an appropriate time to hold the races in the gym and invite all 5th and 6th grade classes to come.
- 3. Discuss with total group proper conduct for spectators and participants (no booing, etc.)

WORKMANSHIP

4. Invite 3 teachers to judge for workmanship.

SPEED RACE

5. The distance will be the length of the track plus 4 feet.

DISTANCE RACE

7. Let cars go down track and coast as far as possible and measure the distance.

PIRZES

- 8. Suggested prizes:
 - a. trophy
 - b. model kits
 - c. ribbons

Theme: Finding the Job

Grade Level 8th
Curriculum Area Industrial Ed.
Field Trip/HE/L.A. /S /S
Elements 1,3,4,5,6
Life Role Vocational
Cereer Cluster All

Purpose:

To help students realize the importance of doing research before applying for a job and to give the students real life experience in applying for a job.

Objectives: 1.

- 1. Given a variety of sample application forms, students will compile a list of 10 common items of information requested on the form.
- 2. Given the name of a certain company, the student will find out all he can about the Industry involving the company, and the individual company requirements.
- 3. Given the application form from the chosen company, the student will fill out the application form and participate in a simulated interview with the shop instructor acting as the personnel director of the given company.

Materials:

one application form from several companies and these duplicated, one for each student. one class load of duplicated application forms from the chosen company to be used for the activity. one pen per student. Reference material.

- a. The World of Work Kit Lesson taps. (Call LeRoy Wallis' office Area II).
- b. Occupational Outlook Handbook.
- c. SRA Kit 'Occupational Exploration K.K."
- d. Dictionary of Occupational titles.
- e. Book "Jobs in your Future" Scholastic Book Services, New York, by Mariam Lee.
- f. "Apply Here Cartoon" R-17

PCE K-10
June/73

Ind. Ed. 6.

Finding the Job (continued)

Procedure:

- 1. Collect application forms from several companies.
- 2. Discuss the application forms with the class and list 10 similarities.
- 3. Discuss with the class "job getting" skills:
 - a. Grooming for the interview.
 - b. Know about the industry, company and individual job before applying.
 - c. Attitudes of an applicant (example: optimistic, cheerful).
 - d. Study applications form carefully before filling out.
 - e. Questions to ask and not to ask.
- 4. Keep one application form from a particular company separate for this activity and duplicate one copy for each student.
- 5. Have students fill out this application form with pen and bring it to a simulated interview, with the instructor serving as the personnel director.
- 6. Only one student in each class can be hired for the particular job.
- 7. If possible, provide some kind of reward for the student who "gets the job". (example: \$2.00 in free material to be used for a shop project.)
- 8. Optional reward; If you use the "contest activities" have the winning student from each class come in for a second interview and award 5 points to the class score of the student who is finally hired for the job.

Theme: How to Keep a Job

Ref. Book "Jobs in Your Future"

Scholastic Book Services

New York

Grade Level	8th
Curriculum Area	Ind. Ed./H.E./
_	L.A./S.S.
Elements	All
Life Role	Vocational
	Family
	Citizenship

Purpose:

To acquaint students with personal traits necessary to hold a job.

Objectives: 1.

- Given a very dirty shop following the work period, the students will work as a team in cleaning up the shop using the guidelines developer during class discussion.
- 2. Given a particular clean up job the student will complete the job satisfactorily in terms of predetermined requirements.
- 3. Given the opportunity to be the shop forman, the student will oversee the clean up activities, including directing students to do extra jobs for any student absent.

Materials:

one dirty shop

clean-up tools: brooms, counter brushes and dust pan

Procedure:

- 1. Construct adjustable clean-up chart so that each student has an assigned job for a given time. It can be rotated so that each student will have been responsible for each job at one time during the year.
- 2. During the first week of school discuss the importance of finding and holding a job in the near future.
- During this discussion relate this "How to keep a Job" to the period of time in shop designated for clean up. Emphasize the following items of time in shop designated for clean up. Emphasize the
 - a. Look right for the job. (clothing, hairdo, cleanliness, etc.)
 - b. Be on time, coming and going. Cheating on time is costly to the owner. In the shop stop work immediately when clean-up is called, put tools and projects away, do your assigned job and line up. Be willing to do an extra job if the foreman asks you to.

Ind. Ed. 8 a

How to Keep a Job (continued)

- c. If you can't come to work; call the boss and tell him. In the shop if you must leave early for a doctors appointment or to show a film tell the foreman as well as the shop instructor.
- d. Do the work that has to be done. Learn to do a good job, whether it is a pleasant job or not.
- e. When you are on the job, work on the job.
 Horsing around can be dangerous and wasting
 time is expensive.
- f. Be polite to everyone. Learn to get along with people. Control your temper. Cooperate with your fellow workman.
- g. Do what you are asked to do. The forman may ask you to do an extra job. Don't argue about it. In industry you may have the opportunity to learn something new.
- h. Get to be good at your job. In the shop you should be able to do your job better and faster after two weeks of experience. In industry the boss, when looking for someone to promote to a higher position will look for a workman who is most efficient.
- i. Be able to take instructions: Don't think you know more than your boss. Usually there is more than one way to do a job. The boss usually knows which way is best for this situation so do it his way.
- j. Be able to take criticism. The forman may not be satisfied with your work so accept his criticism. First, he is responsible for quality of the product. (In this case a clean shop) and second, he wants you to succeed on the job.

By Leroy Hesgard

Ind. Ed. 8b

Theme: The Machine Operators Permit

Grade Level 7/8
Curriculum Area Ind. Ed.
Elements 2,4,7
Life Role Vocational
Leisure
Career Cluster All

Purpose:

The purpose of this activity is to have students become proficient in the use of a particular power tool.

Objective:

Following a demonstration of how to use the tool, memorization of the parts of the tool, and operation of the tool the student will receive a "machine operator's permit" which gives him permission to operate the tool for the remainder of his tenure in shop.

Materials:

shop power tools
"Machine Operator's Permits" (obtained from School Dis. #1.)

Procedure:

- 1. Demonstrate how to use the machine.
- 2. Have the student memorize the parts of the machine.
- 3. Observe the first time the student uses the machine.
- 4. Give the student his card and sign the date and appropriate machine.
- 5. Have the student read the safety pledge on the permit and sign it.
- 6. If a permit is not in his pocket or locker, he cannot use the machine.
- 7. If a permit is lost, have the student do step #2 over again. And (if approved impose a financial cost to replace the card, and relate this to a lost drivers license).

Theme: How Does a Business Start and Operate?

 Grade Level
 7/8

 Curriculum Area
 Ind. Ed./ L.A./ H.E./S.S. Field

 Elements
 All

 Career Cluster
 All

Purpose:

To develop with students in understanding of how a small business is organized: to have students organize a business, operate and make a profit or loss: to provide an experience where students realize their role in product production.

Objectives: 1.

- Given a survey form, the students will take a survey of need.
- 2. From a community resource, students will learn and list the requirements—purpose of setting up a small business.
- 3. By personal experience, learn selling techniques--- shares---product.
- 4. Give student experience in purchasing materials and figure cost and profit or loss.

Materials:

survey sheets, share cards, receipt books, deposit slips, bankcheckbook, production materials, films, speakers.

Procedure:

- Develop outline for survey, collect data, organize students: Managers, Treasurer, Secretaries, Salesman, Production Workers.
- 2. Sell shares, bank money, buy material, start production, sell products, figure profit, pay shareholders.

ACTIVITIES:

- Candle-making, Pilgrim dolls and Santa Claus dolls
- b. Plastic projects
- c. Leather projects
- d. Wood projects

Theme: Assembly Line Production

Grade Level 7/8
Curriculum Area Ind. Ed./ H.E.
S.S./ Field Trips
Elements All
Life Role Vocational

Purpose:

Provide opportunity for students to become aware of the duties and the responsibilities of mass production.

Objectives:

Students will by hands on experience identify his own abilities and desires in terms of the job task range. The student will experience the reasons and results of mass production by being an active part of a mass produced project.

patterns and jigs, pine wood, nails, hammers, vises, power jig saws, sand paper, machine sanders, finishing materials (example: lacquer, varnish, oil, wax, paint).

Procedure:

Materials:

1. Each student will draw simple (teacher sample) plan of project- figure cost of project, cut material to fit jigs, sand each part, drill holes with power drill press, sand and assemble, finish project.

By Paul Stewart

PCE K-10 June/73 Ind Ed.12

Theme: Measurement Unit

Grade Level . Ind. Ed./Math/ Curriculum Area H.E./ S.S.

Purpose:

To strengthen present student skills in measurement and create awareness of domestic and international measurement: to have each student become familiar with measurement skills through individual and classroom experience, and to have students realize that measurement is interrelated to all life roles.

Objectives: After students use work sheets for identification and use of unit measurement (English and Metric). Each student will be able to identify and apply basic units of measure by making assigned projects. Students will be able to use graph paper for designs, patterns, maps, pictures, reduce and enlarge assigned projects.

Materials:

work sheets, books (Learning about Measurement), tests (Sanyle included) models (rulers, protractors, calipers, etc.) projects, (to be made), tools (tapes, ruler, yard stick, dividers, balances, stop watch, thermometer, scales), graph paper.

Procedure:

- 1. Students estimate unit measure with objects in room, then use tools and make actual measurements.
- 2. Students collect measurement instruments for display.
- 3. Students make floor plan of room using metric measurement.
- 4. Have students collect, observe, and compare unit cost on consumer goods.
- 5. Pretest-Post Tests
- 6. Each student is assigned a hand tool wood shelf which must be designed and made.

Theme: Field Trip Observation "ABC" Game

Grade Level 4-8
Curriculum Area All- Field Trip
Elements 2,3,4,5,7
Life Role Vocational

Purpose:

To classify and record career related observations on a field

trip or within the school

Objectives:

When on a particular field trip (either in school or out) a student will be able to search out particular jobs and identify a product, tool and trait related to

that job.

Materials:

1 ABC summary sheet per student or team

pencils

writing board

Procedures: 1.

- Demonstrate observation skills on a school job by filling out part of ABC sheet. e.g. S-Secretary, R-Reports and T-Typewriter; or one could go straight across with the letters by Job - Secretary, productschedules, tools-stencil and trait-efficiency.
- 2. Distribute ABC Inventory Sheets, pencils and writing board.
- 3. Set geographical as well as time limits for study.
- 4. Discuss the students findings; e.g. What was the most unusual thing you found?
- 5. Post data sheets in room so students may have an opportunity to compare them.
- 6. Remind the students to record only what they see, not what they think should be there.

GRAND TOTAL

Theme: Job Investigation Game

Grade Level 5-6-7
Curriculum Area All/Resouces
Elements All
Life Role Vocational
Career Cluster All

Purpose:

The purpose of this activity is to (a) acquaint students with jobs, and job characteristics, (b) explore how to find out information by asking explanatory questions, (c) learn that certain types of jobs have similar characteristics and activities, (d) to learn that there is dignity in all types of jobs, not just glamor jobs.

Objectives: 1.

- 1. Given a particular job title, a student will be able to ask pointed questions to gain information about that job.
- 2. Given a list of jobs students will be able to group them by similar characteristics (clusters)
- 3. Given a particular job for comparison, one a so called glamour job (nurse), and the other a none glamorized job. The students (through class discussion) will come to realize the importance of the person in any particular job.

Materials:

l card (3x5) for each student masking or scotch tape

Procedure:

(For a class of 30 students)

- 1. Choose 6 clusters and type 5 different jobs (one job on each card) on five 3x5 cards from each cluster.
- 2. Explain all the purposes of the game to the students.
- 3. Tape a piece of paper with a job on it on each students' back.
- 4. Each student must learn his or her job by asking questions in the following manner:
 - a. Questions must be answerable by either a yes or no.
 - b. Students can ask only 3 questions of each person and then move on to another student and ask 3 more questions.
 - c. Continue until you identify your job.
- 5. When you learn your job remove it from your back and tape it to your front-write it on the chalkboard- be seated.
- 6. Now ask them to group themselves into groups according to jobs which have similar activities, or related skills.
- 7. Ask each group why they grouped together and discuss the similarities.

PCE K-10 June/73 Ind. Ed. 16 a

Job Investigation Game (continued)

8. Choose two jobs (nurse, sales clerk) and ask which is most important. Point out the fact that the most important thing is the person in the occupation.

Comment:

One talented Surgeon in a Portland Hospital made the statement, "I could be gone for a week and things would go on as usual, but just let the man who empties the waste baskets stop his work and he would be missed within a day".

Theme: Time Is Money

Grade Level 7/8

Curriculum Area All'

Elements 1,2,3,4,6,8

Life Role All

Carper Cluster All'

Purpose:

The purpose of the activity demonstrates that employee's personal values and habits are important to employers and employees and teach students that mis hief and practical jokes are very costly to industry, to real ze that this type of conduct is reflected in raised prices of consumer goods, too much of this activity can cause business failure.

(Comment: Each year some students will hide another student's project or part of a project causing considerable loss of time.)

Objectives:

1. Given a set of conditions involving a missing part, the student will be able to compute the time loss and convert it into financial loss.

Material: None

Procedure:

Ÿ

Condition: A student's project (or part of project) is missing.

- 1. The teacher and student search for the project for a given time (example 30 flinutes).
- 2. The whole class is shut down and all students search for the missing project (example 30 minutes) until it is found.
- 3. With the whole class compute the time and money loss.

Owner 30 minutes x \$20.00 per hour = \$10.00 Forman 30 minutes x \$10.00 per hour = 5.00 15 students at \$6.00 per hour = \$90.00 x 1/2 hr = 45.00 Total Loss \$60.00

4. Discuss with the class what this loss can mean, to a small business in terms of (a) increased cost of product (b) affects on the families of the workers who lose their jobs.

FUN SHORT

Theme: Take a Blank to Lunch

Grade Level	7/8
Curriculum Area	Language Arts
_	Self Understanding
Elements	5
Life Role	Vocational
Career Cluster	All

Purpose:

For students (through humor) to relate ideas between various

occupations and word carricatures of those occupations.

Objectives:

Students will list a dozen occupations and invent a word

carricature for each.

Materials:

pencil and paper

Procedure:

1. Introduce lesson by giving students a few examples of

your own:

a) Take a banker to lunch and give him the check.
b) Take a librarian to lunch and check her out.

2. Ask students to list occupations and carricatures of

them--at least one dozen.

(Option) Students might work together in pairs or small

groups on this project.

Idea by Don Wright, KGW Radio Adapted by Pat Walhood

PCE K-10
June/73

Theme: Paint Your Wagon

Grade Level 7/8

Curriculum Area Language Arts

Self Understanding

Elements 1, 2, 8

Life Role Vocational

Career Cluster All

Purpose:

To discover positive aspects of a particular job by writing or telling about job in a "Tom Sawyer" manner. In other words, you want to make the job sound so good that they would pay you to let them do it.

Objectives:

- 1. Students will construct a list of twenty-five interesting jobs.
- 2. Students will delineate five positive aspects about one of the jobs in the student list.

Materials:

chapter from Tom Sawyer, "Tom Paints the Fence."

Procedure:

- 1. Teacher reads story from Tom Sawyer about how Tom persuades friends to do his job. Then talk about the job, discuss positive appects of job: feeling of accomplishment, creativity, power, personal relationships, etc. 10 minutes.
- 2. Teacher constructs list of 25 interesting student job suggestions on board. 5 minutes.
- 3. Students individually write why they think one job would be so interesting or full of positive aspects that people would provide do job. 20 minutes.
- 4. Share writings orally. 10 minutes.

PCE K-10 June/73

Theme: 1984

Grade Level 7/8

Curriculum Area Language Arts
Self Understanding

Elements All

Life Role All

Career Cluster All

Purpose:

To consider what will be needed by people and what jobs people will be doing in the year 1984.

Objectives:

- . In small groups students will compile a list of at least 5 items necessary for survival in the year 1984.
- 2. Using their list, students will speculate and write down who will produce these items.

Materials:

paper, pencil, 1984 (reference book for teachers,

author Orwell).

Procedure:

Working in small groups students will compile a list of items necessary for survival in the year 1984. They will then consider who will produce these items? (What jobs will be needed?) and share their data together as a

total group.

June/73

Theme: My Family

Grade Level 7/8
Curriculum Area Language Arts
Elements 2
Life Role Family,
Self-awareness
Career Cluster None

Purpose:

To show that family members work together and share goals for today and the future.

Objectives:

- 1. Through small group discussion, students will list at least 5 goals of their family (providing food, education, values, etc.).
- 2. Students will design and construct a mobile or large mural to illustrate the family goals of each group.

Materials:

Procedure:

magazines, paint, butcher paper, coat hangers, construction paper

The entire class will discuss the concept of goals. (What goals do I have as a student? etc.). In small groups students will then list at least 5 goals of a family and illustrate them by preparing a mobile or a mural.

By Marilyn Fellers

PCE K-10 June/73

Theme: Adults Roles

Grade Level 7/8

Curriculum Area Language Arts

Resources

Elements 5

Life Role Vocational

Career Cluster All

Purpose:

To increase students' understanding of parents' occupational role and develop skill in obtaining information from the yellow pages of the telephone directory.

Objectives:

Given a Portland Telephone Directory, a student will from the yellow pages, develop a list of 6 business or locations in the Portland area that have jobs that his/her parent (or another adult they choose) now hold.

Materials:

Telephone directories (yellow pages), per 5 students, if possible. (Available by calling Pacific N.W. Bell)

Procedure:

- Students will select an adult they know (either parent or another adult they know) and list that adult's occupational title.
- 2. Using the yellow pages of the telephone directory, ask students to list 6 businesses or locations in the Portland area where people hold the same job as the one they listed.

Theme: Parents Work Roles

Grade Level	7/8
Curriculum Area	Language Arts
	Resources
Elements	1, 5, 8
Life Role	Vocational
Career Cluster	All

Purpose:

The purpose of this lesson is to develop in students an understanding of their parent(s) role as a worker.

Objectives:

- 1. Given the classified ad section of a newspaper, each student will list at least 2 occupations that have similar skills as required in the job(s) held by their parents.
- 2. Given a paper and pencil a student will list their parent(s): (a) job title; (b) cluster of occupations the job falls in; (c) educational training required for entry into their parent(s) occupation...with 100% accuracy.

Materials:

pencil, paper Classified ads

Oregon Cluster Guides

Procedure:

- 1. Discuss skills that are common to different occupations such as typing skills needed for secretarial jobs, bookkeeper, newspaper reporter.
- 2. Review or introduce the concept of clusters.
- 3. Review the meaning of "entry level requirements."
- 4. Assign lesson dealing with classified ads.
- 5. Assign lesson dealing with parent(s) jobs.

IA 1.6

Theme: Survival

Grade Level 7/8
Curriculum Area, Language Arts
Self Understanding
Elements 1, 3, 6
Life Role All
Career Cluster None

Purpose:

Students will realize by means of small group discussion that survival is dependent upon working and working as a member of a group.

Objectives:

- 1. Given paper and pencil, small groups of students will consider the 10 people listed on the board and write answers to the 6 questions found in procedure.
- 2. Based on data gathered from the 6 questions, the total class will report and evaluate their conclusions.

Materials: pa

paper and pencil

Procedure:

The students will imagine there has been a plane crash an the following people have survived on an island.

- 1. A hungry motherless baby
- 2. A heavy adult man, about 40 years old
- 3. A calm poised 17 year old male, teenager
- 4. A helpless old woman
- 5. A frightened 14 year old girl
- 6. A motherless 3 year old boy
- 7. A strong adult man
- 8. A 25 year old woman
- 9. An aggressive 15 year old boy
- 10. A crippled young woman

Through small group discussion and interaction, the following questions should be considered:

- 1. Which individuals will make the first efforts to communicate and what will it be about?
- 2. How are the people apt to group themselves in order to help and take care of each other?
- 3. Is there anyone in the group who might not find anyone to communicate with? What might they eventually do?
- 4. Which people will be concerned with the survival of the whole group? What individuals will be concerned with only themselves? Why?
- 5. Which person will become a leader? Why?
- 6. What jobs will need to be done within the first week to insure the survival of the group?

Theme: Finding Classified Advertisements

Grade Level 7/8

Curriculum Area Language Arts
Resources

Elements 1, 5, 7, 8

Life Role Vocational

Career Cluster All

Purpose:

To give students further experiences in locating classified newspaper advertisements relating to occupations and in relating concepts such as entry level requirements, and people, data, things to the jobs involved.

Objectives:

- Students will locate advertisements for all of jobs listed and paste them on their paper.
- Students will list entry level requirements for each advertisement and will determine whether each deals primarily with people. data or things.

Materials:

Newspaper classified sections

paper and pencil

scissors Elmer's glue

List of classified advertisements to locate

Procedure:

- l. Put list on the black board of advertisements you wish students to locate. *Suggestions-list about 8 from Help Wanted Section and 2 from Jobs Wanted Section. Also list 1. Entry level requirements 2. People, data, things.
- 2. Have each student locate the advertisements listed on the board, cut them out and paste them on a sheet of paper, leaving room to write information about each.
- 3. For each advertisement have students list the entry level requirements (experience, skills, educational background) and whether or not the job deals primarily with people, data or things.

Theme: Telephone

Grade Level 7/8

Curriculum Area Language Arts

Resources

Elements 3.7

Life Role All

Career Cluster All

Purpose:

Because the telephone is an important instrument of instant communication used daily in the business world, students will learn (a) that there is a wealth of information that may be gathered by its use, (b) how to use the telephone as an information-gathering device.

Objectives: 1.

- 1. Given a real or simulated situation, students will make a real or role-played phone call for the purpose of gathering (career) information.
- 2. Role-played phone calls will be evaluated (by the class or teacher) using the following criteria:
 - a) Did the student introduce himself properly?
 - b) Did the student request the information in a clear and understandable manner?
 - c) Did the student ask appropriate questions to clarify information?
- 3. Students will report the results of actual phone calls to the teacher verbally or in writing.

Materials: Telephone, telephone directory (Kit available from Pacific N.W. Bell)

Procedure:

- In a class discussion, find out how students have used the telephone in the past to gain information. (bus schedules, entertainment time schedules, prices, etc.)
- 2. Develop the discussion into other ways telephone may be used for information gathering, such as arranging for career speakers or career field trips. Include how to contact the <u>right</u> person to talk to.
- 3. Discuss and give examples of how to introduce yourself, how to ask questions in a clear manner, how to ask questions that will clarify information.
- 4. Arrange with a student to do a role-played phone call in front of the class. Role-play different types of situations including ones where the receptionist is not positive. Follow up the role-played phone call with a class critique and discussion.

PCE K-10
June/73

UNIT TYPE

ACTIVITIES

LANGUAGE ARTS

Packet Introduction

All four of these activities, 1. 3 people, 2. 3 places, 3. 3 things, and 4. resume' should be accomplished at the first of 7th grade, and the resume' repeated at the end of the 8th grade. Resumes and all activities in this packet are to be kept in students file folder.

The reason behind this packet is that too often students see no important experiences in their history to bolster or verify their accomplishments. It seems that students begin to recreate the wheel every day, and that days are too short to accomplish anything important: Therefore, "My accomplishments are not important, therefore, I'm not important."

What we want as teachers, is to insure that students will recognize the importance of their experiences by recording them so that the record may in turn shape their way of looking at the day so that each day will be encouraging to the student.

PCE K-10

Theme: Self-Understanding 2. Recognizing Influences/Places

Grade Level 7/8

Curriculum Area Language Arts

Self Understanding

Elements 2

Life Role All

Career Cluster None

Purpose:

To recognize and cite locations that are influential to student so that they may a) be there more often, or b) avoid the place entirely.

Objectives:

- 1. Students will list three locations that have been most important in their lives.
- 2. Students will identify one feeling that each location evokes in them.

Materials:

pencil, paper, and pictures.

Procedure:

- 1. Relate this activity to previous experience with persons. During a discussion, ask students to give a few examples of places that have influenced them and identify feelings those places evoked.
- 2. Have each student list the 3 locations he thinks have been most important in his life. Have him identify at least one feeling he associates with each location.

Purpose: /

To recognize what things are important to students; why they want to keep them or work hard toward getting them.

Objectives:

- 1. Students will list 3 objects valuable to them
- 2. Students will state whether they own them or are working hard toward getting them.
- 3. Students will identify the reasons why each object is important.

Materials:

pencil and paper

Procedure:

Through discussion:

- 1. Recall and discuss experiences with people and places
- 2. Ask a few students to give examples of things that are important to them.
- 3. Ask students to list 3 objects that are valuable to them, whether they own them or are working toward getting them.
- 4. Finally, have students identify the reasons why objects are important to them.

a Personal Resume

Grade Level	7/8
Curriculum Area	Language Arts
•	Self Understanding
	File Folder
Elements	2
Life Role	All
Career Cluster	None

Purpose:

Students will examine their own interests and assets and will be able to verbalize and write down experiences. Emphasis will be placed on the importance of current experiences and their relationship to the future.

Objectives:

Students will be able to list one personal experience under each of the following entries: 1. interests, 2. travel, 3. education, 4. work experience and 5. hobbies.

Materials:

pencil and paper

Procedure:

- Discuss experiences you have had together as a class, so that every one will have something to write about.
- 2. Have students write their personal resume. listing as much as they can in each category.
- 3. Talk about things individuals and the group can do so that the next time they write these down they will have even more experiences to relate.

Curriculum Area Lang. Arts.

Self-Awareness Unit - Life Story

This unit is designed as a year-long Lang. Arts project. The Magazine picture books may be begun at the beginning of the year and continued throughout the year.

The written autobiography could be done at the end of the school year, using the picture scrapbook as a primary resource.

Of course, any part of the unit can be used by itself or adapted by you creative souls in the classroom.

PCE K-10 June/73 Lang. Arts. 3.6

Theme: Self-Understanding -- This is Your Life

Grade Level Curriculum Area Language Arts Self Understanding Elements Life Role All Career Cluster None

Purpose:

To encourage student to reflect on past experience.

To encourage student to depict growth and change through

life highlight selection.

Objectives: Given magazine picture of their choice, each student will depict a minimum of 12 highlights (variations

listed below) in his/her life.

Materials:

Lots of old magazines - the more variety the better (you

might have each student bring 5-10).

Elmer's glue

paper

Procedure:

- 1. Choose a theme for the highlights in their lives you want students to think about (see attached list of suggested options).
- 2. Let student look through magazines and select pictures. paste them on sheets, label them.
- 3. An optional activity might be to design a cover for the book.

Idea from Leroy Hesgard Adapted by Pat Walhood

PCE K-10 June/73

LA 3.7

Theme: Self-Understanding -- This is Your Life

Suggested Topic Options

Highlights of Your Life Your summers Your Christmases Your school experiences Your most painful memories Your most pleasant memories Your family You and your favorite toys You and your favorite place Your vacations - trips you've taken You and your pets Houses you've lived in (what you did there) Doing things with your friends Arguments with your family Happiest moments with your family You and your favorite foods You and your favorite books, television shows, movies Things you hate Things you love Your dreams for the futurefamily school possessions job trips

Suggested Topic Options - Time Frame

- 1. A life history a project of several days duration where students deal with a number of topics like chapters.
- 2. A long-range project where students design a cover for their book, and then work on a chapter or section at intervals throughout the year.
- 3. A one-time short project where students work on only one brief aspect of their past. (See above list of possible subjects).

Theme: Study of the Newspaper

Grade Level	7/8	
Curriculum Area	Resources	
	Language Arts	
Elements	All	
Life Role	All	
Career Cluster	All	

Purpose:

To familiarize students at the beginning of seventh grade with the newspaper, the information it contains, where to find it. and its relationship to the 4 life roles.

- Objectives: 1. 'Given individual copies of the newspaper (daily for 1 or 2 weeks) and the attached unit outline, students will compile a notebook containing the various parts of the newspaper and will list answers to given questions for each section. To be acceptable, students notebooks will include all items listed in the outline and answers to at least 80% of the questions in the outline.
 - Through class discussion as the students proceed with the outline, students will make wall charts or B.B. relating life role applications to newspaper

Materials:

newspapers, unit outlines, paper, paste, paint and/or felt pens

Procedure:

- 1. Introduce unit by going over the outline with the group and set due date goal.
- 2. Provide materials and plenty of class time.
- 3. Serve as a resource person to the class as they work on their notebooks. Encourage pupils to look for articles, editorials, etc. which are of interest to them.
- 4. Collect notebooks.
- 5. Have students make charts or a bulletin board presentation showing which sections of the newspaper relate primarily to what life role.

1.	Date	due	

- 2. Assemble all work in folder
 - a. Choose an original title for the study
 - b. Use title on cover in an attractive manner
 - c. Design an appropriate cover if you wish
 - (1) Use color
 - (2) Use good design, pictures, or outline
 - d. Form to be followed:
 - (1) Have a title page
 - (2) Prepare a table of contents
 - (a) Follow it
 - (b) Number each page

NEWSPAPER

Part I. News Items

- A. National News
 - 1. Cut out a complete news item with the headline; and put it in your notebook.
 - 2. Write the words from the article that you do not know.
 - 3. Read the article and answer these questions on it.
 - a. Who
 - b. What
 - c. When
 - d. Where
 - E. Why

B. Local News

- 1. Cut out a local news item and put it in your notebook.
- 2. Summarize this article in your own words, making sure you use the five W's.
- C. State News

Put a state news item in your notebook.

Part II. Sections

- A. Index
 - 1. Put index of the paper in your notebook.
 - 2. Tell on what page and in what section these are found:

TV schedule

Obituaries

Radio

Weather report

Sports

Theater

PCE K-10
June/73

IA 3.9a

Part	III.	Weather

- A. Put the weather report from the front page in your notebook.
- B. Locate the detailed national weather report and put it in your notebook.
- C. Answer the following:
 - 1. What and where was the highest temperature?
 - 2. What and where was the lowest temperature?
 - 3. What is the prediction for tomorrow's weather?

Part IV. Society

A. Society section: Find and label three different types of news articles found in the Society Section (Be sure these pertain to social activities).

Part V. Sports

- A. Sports
 - 1. List the various sports mentioned in the sports section.
 - 2. Put a sports news article in your notebook and answer the following:
 - a. Game played_____
 - b. Name of teams
 - c. Where played
 - d. Score
 - 3. Write the name of a sports writer from your paper.

Part VI. Entertainment

- A. Radio
 - 1. Put a radio schedule in your notebook.
 - 2. How many radio stations are listed?
 - 3. In what section did you find the radio stations listed?
- B. Television
 - 1. Put a T.V. schedule in your notebook.
 - 2. On what page of the paper and in what section will you find the Television information?
 - 3. List two programs you've <u>never</u> watched, their channels and time.
- C. Theater
 - 1. On what page and in what section will you find the theaters listed?
 - 2. What information is given about the theaters?
 - Put a theater ad in your notebook.
- D. Comic Strips
 - 1. On what page and in what section will you find the comic strips?
 - 2. Put your favorite comic strip in your notebook.

PCE K-10
June/73

LA 3.9b

Part VII. Classified Section

- A. Put the following types of ads in your notebook:
 - 1. For Sale
 - 2. For Rent
 - 3. Jobs available
 - 4. Employment wanted
 - 5. Lost and Found
- B. What other types of ads do you find in this section?
- C. At the beginning of the classified section you will find special types of notices. These are not ads. What are some of these? Put one in your notebook.

Part VIII. Obituaries

- A. What is an obituary?
- B. What information does it give?

Part IX. Advertisements

Businesses advertise so people will buy their products or services.

Products are things that are made in factories.

Services are things that businesses do for people (T.V. repairing) barbering, dry cleaning).

- A. Put an advertisement in your notebook that advertises a product.
- B. Put an advertisement in your notebook that advertises a service.

Part X. Editorials

- A. Put an editorial in your notebook and comment on the viewpoint of the editorial. For example is it:
 - 1. Entertainment
 - 2. Interpretation
 - 3. Crusade
 - 4. Argument and persuasion
 - 5. Stimulating thought
- B. What is a letter to the editor? Where will you find one in the paper?
- C. Read a letter to the editor. What is it about?

Part XI. Columns

- A. Put a local or syndicated column from the paper in your notebook.
- B. Answer the following questions:
 - 1. What is the name of the columnist?
 - 2. What is the opinion expressed in the column?
 - 3. Do you agree or disagree with the opinion of the columnist?

PCE K-10
June/73

LA 3.9c

Part XII. Photographs

- A. Put a photograph in your notebook.
- B. Answer the following questions:
 - Does the photograph tell something worth knowing?
 Does it portray only fact? Is there any opinion?

 - 3. Does it provide information or understanding that could not be said as well in words?

Part XIII. Political Cartoon

- A. Put a political cartoon from the paper in your notebook.
- Answer the following questions:
 - 1. What do the various symbols stand for?
 - 2. What opinions does it suggest?
 - 3. Are the opinions fair; do you agree with them?

FIELD TRIP

ACTIVITIES / COMMUNICATION

SKILLS

Theme: Observation Skills

Grade Level	7/8
Curriculum Ārea	Language Arts
	Social Studies
	Field Trip
Elements	5
Life Role	Vocational
Career Cluster	All

Purpose:

To show students that one job is dependent on another

in their neighborhoods.

Objectives:

1. As a result of a walk, students will list 10 jobs

they observe.

2. Through small group discussion, students will write

answers to the questions found in procedure.

Materials:

paper, pencil neighborhood

Procedure:

Take the class on a walk through the neighborhood and have them list all the jobs they observe. Teachers should help point out that people have different and special skills and work at the jobs they do best.

Back in the classroom, have the students work in small groups and answer the following questions about each job observed:

- 1. Are these people producers of goods or do they offer a service?
- 2. How are the producers dependent on the others for goods and services they need?

Elements	1,4,6
Life Role	Citizen
	Vocational
Career Cluster_	Mechanical
	Metals
	Electrical
	Construction

Purpose:

To acquaint the students to the concepts of hourly pay, 8 hour work day, 40 hour work week and to gain skill in calculating a weekly wage given an hourly rate and number of hours worked in a week.

Objectives:

The students will:

- 1. By writing one sentence for each, define the terms
 (a) hourly rate, (b) 8 hour day, (c) 40 hour week.
- 2. Given an hourly rate of _____, solve for a regular 8 hour day and 40 hour week.

 3. Using journal of _____, solve for a regular grant for a reg
- 3. Using journeyman rate, solve for a regular 8 hour day and 40 hour week, for any 4 jobs listed on the Apprentice Information Worksheet.

Materials:

Apprentice Information Worksheet (classload)
Paper and pencil

Procedure:

- 1. Reproduce the apprentice information worksheet.
- 2. Discuss terms relating to compensation.
- 3. Give an hourly rate from which students calculate daily and weekly pay.
- 4. Find hourly rates on worksheet. Guide students to solve for daily and weekly rates.
- 5. Test students for vocabulary knowledge.
- 6. Information can be placed in their Career Education folder.

^{*} Any applicant meeting the above qualifications for any of the above trades should apply at the Apprenticeship Information Center, 1030 N.E. Couch Street, Portland, Oregon

Theme: Measuring and Estimating (Treasure hunt)

Grade Level	7- 8
Curriculum Area_	Math
	Ind. Ed.
Elements	2,7
Life Role	Citizen
	Vocational
Career Cluster	Forest Products
\	Drafting
	Elec.
	Constru.
	Agri.

Purpose:

To provide students with an opportunity to find distances and estimates of distances as an introduction to job roles; i.e. carpentry, surveying, etc.

Objectives:

- 1. From finding the length of his pace, a student will be able to get an approximation of distance.
- 2. Given a distance, the student will estimate distance to within 3%.
- 3. Students will be able to verbally tell one job role where estimation and measuring is used.

Materials:

Some type of linear measure

Procedure:

- 1. Measure off a distance of 100 feet or yards. Have students pace this distance 5 times. Find the average pace for the given distance. Divide the number of paces into the distance to get the average step. (Round off to the nearest tenth.)
- 2. Work out a "test" on any type of problem or series of problems. The answer to each will give the distance in feet to go in a certain direction. From a given starting point, problem (1) gives feet to go South, (2) feet to go East, etc.
- 3. A tongue depressor with a message on it may be inserted in/under the grass. The one who finds this takes it in for an extra "A" or other prize.
- 4. Job role application will be brought out through class discussion.

Example:

S.E. corner of building

(1) 568 (2) 24
342 <u>x35</u>
+565 ans.
ans. less 1200 ft. to go S. -175

to go W. Difficulty of problems to fit the students.

Math 4

Theme: Gross Pay vs. Take Home Pay (Net Pay)

Grade Level 7-8
Curriculum Area Math
Elements 1.5.6.7.8
Life Role Citizen
Family
Vocational
Career Cluster All

Purpose:

To build awareness of tax deductions made on the gross pay received by a worker, and to gain skill in adding and subtracting decimal numbers.

Objectives:

The student will:

- 1. By writing one sentence for each, define the terms (a) GROSS PAY (b) DEDUCTIONS (c) NET PAY.
- 2. Identify Federal Income Tax, State Income Tax and Social Security Tax as deductions (subtractions) made from Gross Pay.
- 3. Given the sample problem (GROSS PAY \$80.00

Federal Income Tax \$16.00 State Income Tax \$5.60 Social Security \$4.84)

Solve for the (a) total TAX DEDUCTIONS, (b) NET or TAKE HOME PAY.

- 4. Solve for take home pay (net) given 6 problems.
- 5. Given 6 check stub blanks, correctly arrange quantities given and calculated in objective 4.

Materials:

Paper and pencil

Check stub reproductions

Procedure:

Xerox ditto 2 check stubs on one sheet. Discuss purpose of payroll record, items found on check stub. Have students fill in name, social security number, etc. Discuss terms of Objective 1. Guide students through sample problem. Students will solve for six problems given. Test for vocabulary knowledge.

Theme: Journeyman and Apprentice Pay Rates

Grade Level	
Curriculum Area	. Math
_	Ind. Education
Elements	1,5,6,7,8
Life Role	Citizen
	Vocational
Career Cluster_	Const.
	Elec.
	Metal
	Mechanical

Purpose:

To acquaint the students to the terms Apprentice and Journeyman. To compare the pay rates of journeyman and apprentice workers in the same field and to gain skill in solving problems using percentage (P = RB, $Percentage = Rate \times Base$).

Objectives:

The students will:

- 1. Explain the meaning of apprentice and journeyman by writing one short paragraph.
- 2. Identify all the journeyman rates, and the apprentice percentage of journeyman rates from the Apprentice Information Worksheets.
- Solve for any 12 apprentice rates listed on the worksheet.

Materials:

Apprentice Information Worksheet (classload) see Math 3 Pencil and paper

Procedure:

- 1. Reproduce the apprentice information worksheets.
 Pass out to each student. Discuss the (a) Journeyman rate, (b) Percentage, (c) Apprenticeship term information.
- 2. Discuss idea of the training period (term) and related pay.
- 3. Guide students to solve for apprentice rate.
 Machinist-\$5.12 x 55% = \$5.12 x .55 = \$2.816 = \$2.82
- 4. Solve for any 12.

	Metals
	Construction
	Electrical

Purpose:

To acquaint the students to the concept of overtime hours

(in excess of 8 hour day, 40 hour week) and to gain

skill in calculating overtime rates.

Objectives:

The student will:

1. Identify two situations in which a worker has

qualified for overtime pay rate.

2. Given the Apprentice Information Worksheet, solve for any ten overtime pay rates. (1.5 x rate).

Materials:

Apprentice Information Worksheet - see Math 3

Pencil and paper

Procedure:

June/73

- 1. Reproduce Apprentice Information Sheets.
- 2. Discuss the term overtime (1.5 x) rates.
- 3. Guide the students solve for an overtime rate from worksheet. Example: Journeyman Painter \$6.38 x 1.5 = \$9.57

4. Students choose any 10 from worksheet.

5. Ask students to identify two situations in which a worker qualifies for overtime pay.

Theme: Math outside of School (Story Problems)

Grade Level	7-8
Curriculum Area	Math
Elements	1,2,4,6,8
Life Role	Family
	Citizen
Career Cluster	All

Purpose:

. To provide an opportunity for students to relate math

to the world they live in.

Objectives:

The students can create and exchange ideas by producing

10 "real life" problems.

Materials:

Paper

Pencil

Procedure:

- 1. Students are to make up problems that are relevent to their lives, bring to class with the answers, and be ready to prove.
- 2. Each writes his problems on board and checks others' answers.

Example:

PCE K-10 June/73

- 1. Matt Matrix had 72¢. He wanted to buy a box of candy that cost \$1.00. How much more does he need?
- 2. We watch T.V. seven hours a day. How many days will it take to watch 379 hours of T.V.?
- 3. Mom was making cookies in the kitchen. The recipe called for 1½ lbs. of sugar and 3 1/3 lbs. of flour plus 1 2/3 lbs. of water. How much did the dough weigh?

By Jan Paeth

Math 8

Theme: Sets and Their Members

Curriculum Area Math
Elements 1.5
Life Role Vocational
Career Cluster All

Purpose:

To unite the concept of sets with the world of work.

Objectives:

Given a list of 15 occupations, students will divide

theme into:

- (a) cluster sets
- (b) intersection sets
- (c) possible empty set

Materials:

Occupational Outlook Handbook

Procedure:

- 1. Have students make 3 sets with 10-20 members from clusters and related fields. Pupils are to make intersection sets from those occupations that appear or could appear in all Cluster Sets (statisticians).
- 2. Students are to try to make one or more disjoint sets. (Whose intersection is the empty set?)
- 3. Can they make up a set whose union would include all cluster sets?

By Art Tyer

Math 9

180

Theme: Shopping Spree

Grade Level	7-8
Curriculum Area	Math
_	н. Е.
	Resources
Elements	1,3,6
Life Role	Family
	Citizen
Career Cluster_	All

Purpose:

The learner will understand the relationship of math to situations.

Objectives:

Given some examples the pupil will be able to differentiate and compare advertisements to find best buys by correctly indentifying 8 out of 10 "best buys" on test.

Materials:

Student and teacher to bring to class the Day Section of the Oregonian on Monday, Wednesday, or Thursday.

Procedure:

- Teacher clip and post on board adds of section a. for use by those who don't have paper b. to use to verify items students test.
- 2. Have students work in pairs and find three or more examples of two stores advertising the same product (not necessarily same brand). List the product, the store and sale price at store.
- 3. From their findings select problems which don't compare simply pound to pound but amount and price différences. (Sample below) Further discussion unit pricing, size, economy, best buy always.

Individuals work sample, put on board.

Discuss how they got answer and problems of shopping.

a. Impulse buying

- b. Other factors quality, brand name
- c. Ceiling prices, fair trade laws

Sample Problems:

Meat pies - AG - 4 for 89¢ ı. Safeway - 5 for 88¢

What is the cost of one at each store?

- 2. Biscuits AG Two 9\frac{1}{2} oz. Tubes for 45¢ Safeway - One 8 oz. tube for 10¢ Which buy is better? Why? (Show work)
- 3. Artichokes AG 19¢ each Sentry - 4 for \$1.00

Which store has best buy?

4. Soup - Thriftway - Seven $10\frac{1}{2}$ oz. cans for \$1.00 AG - Five $10\frac{1}{11}$ oz. cans for 69¢

What is cost on one can of soup at each store?

PCE K-10 June/73

Theme: Metric Measures .

Grade Level 7-8
Curriculum Area Math
Resources
Elements 2.5.7
Life Role Citizen
Vocational
Career Cluster All

Purpose:

To get the student to comprehend and equate our units of measuring to the metric system.

Objectives:

Given a list of 10 items from the paper, the student will utilize a table and transform all ten to metric units, and list 5 occupations that need an understanding of metric measurement.

Materials:

Newspaper or store advertisements Text with metric table Occupational Outlook Handbook D.O.T.

Procedure:

- The students are to find 20 items and change the English units to metric.
- 2. Students are to make a measuring cup with both English and metric units marked on it. (Beakers and felt pen may be used or English measuring cup and add metric units.)
- 3. Why does a "gallon" of gas cost more in Canada than in the U.S.? (Liter is more than a quart.)
- 4. Students are to list 10 or more jobs that need an understanding of the metric system and justify the listing of each.

By Art Tyer

PCE K-10 June/73

Theme: Math Related Careers

Grade Level 8
Curriculum Area Math
Elements 2,4,7
Life Role Vocational
Career Cluster All

Purpose:

To help the student plan for High School Math courses and see the importance of basic arithmetic computational skills.

Objectives:

The student shall be able to list the courses and basic mathematical concepts necessary for his tentative career.

Materials:

Occupational Outlook Handbook

D.O.T.

List of mathematical concepts (percent notations, inverses, exponential notation, decimals, formulas, etc.)

Procedure:

On the board (or ditto) place the following heading:
"Lots of Math" "Quite a Lot of Math" "Arithmetic"
(Architect) (Accountant) (Athlete)

- 1. Have the students list at least 20 occupations for each and identify which ones they are considering.
- 2. Have students list basic computational skills necessary for his tentative career.
- 3. Have students list mathematical ideas they should understand: i.e. open sentences and solutions, reading charts and tables, scientific notation, basic principles of operations, etc.

ERIC

Theme: Math Field Trip (Positive or Negative)

Grade Level	7- 8	
Curriculum Area	Math .	
	P.E.	
_	Field Trips	
Elements	2,5	
Life Role	Leisure	
	Vocational	
Career Cluster	Graphic Arts	
	Drafting	

Purpose:

To relate math, and sports to the world of work.

Objectives:

Given in structions, the student will graph the + and - quantities* on a number line which will correspond to the outline of a football field.

Materials:

Tape recorder

Outline maps of football field (or graph paper)

Paper and pencil

(Microphone may aid the Sports Reporter)

Procedure:

- 1. Students will attend a football game. He is to keep a record of at least one quarter of play (on paper or tape recorder)*.
- 2. He is to present his report to class as a TV Sports Reporter.
- 3. He is to write a report using positive and negative numbers.

Example:

Grant received the ball on the 19-yard line. They made 5 yards on an off-tackle (+5) and lost 3 yards (-3) on a fumble. On third down, they completed a forward pass for (+13) yards which gave them a first down on the 34 (+15), etc.

By Art Tyer

PCE K-10 June/73

Theme: Empirical Probability

Grade Level 7-8

Curriculum Area Math

Resources

Elements 3.5

Life Role Vocational

Leisure

Career Cluster Social Services

Purpose:

To define jobs that relate this branch of math to the world of work.

Objectives:

Given a research problem in probability, the student will present a reasonable conclusion with statistical banking and list at least 5 jobs that would need this type of information.

Materials:

Occupational Outlook Handbook and/or D.O.T. Coffee can with hole cut in the plastic lid a little larger than the marbles

Different colored marbles (10 red, 3 blue, 5 white)
Note: Any random sample may be used: colors of flowers
in neighborhood; number of cars crossing intersection (in 3-5 min.) at various times of day.

Procedure:

- 1. Place marbles in can, put on lid. (Students can work in teams or individually.)
- 2. The can is turned over and one marble is permitted to fall out, the color is recorded, red-I, etc. (Students do not know how many of each color there are). The marble is to be returned to can each time.
- 3. After 50-100 tries, the students work up a table of probability and come to a conclusion (blue=3/18 or 1/6).

Discussion:

PCE K-10

June/73

Which is more nearly accurate, the 50 times or those the higher number of samples? Or was there any correlation? Which jobs might require this type of information?

By Art Tyer

The Hetric System

Grade Level	7/8
Curriculum Area	Math
	Social Studies
Elements	2,5,7
Life Role	Vocational
Career Cluster_	A3.1

Purpose:

To relate the metric system to the real world.

Objectives:

Given a piece of tagboard 1" x 12", the student will construct a ruler by dividing the tagboard into units, using the width of their thumb, length or width of a paper clip, diameter of a coin, length of an eraser, etc. to establish the unit. The student will measure his table width with this ruler and gather similar data for the table width using rulers devised by other students.

Each student is given another piece of tagboard of standard length which is then divided into ten parts and then each of these divisions is divided into ten parts. Students measure the tables again using this decimal system and compare data.

Materials:

2 pieces of tagboard pencil and paper

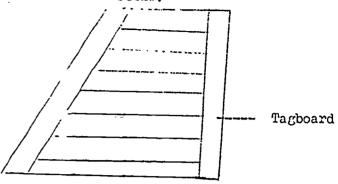

Procedure:

- 1. Construct unit of your own design.
- 2. Students will explain that measures do not agree because the rulers use different units.
- Students will research the origin of different commonly used units. (Ford Motor Company will supply posters.)
- 4. Students will construct a ruler based on the decimal system. (see drawing for a method of dividing the ruler into thenths).
- 5. Students will measure their desk widths etc., record in decimals and compare data.
- 6. Students will use the metric units (centimeters, etc.) on their foot rulers to measure objects.
- 7. Students will discuss the advantages of the metric system over the English system and the situation the U.S. finds itself in regards trade with the rest of the world.
- 8. Student will list and discuss 10 occupations requiring measurements of high precision.

9. Student will list uses of the metric system that are in use now on the American scene.

(Take ruler or other object, such as ruled peper) with units larger than what will be established on the tagboard. Draw parallel lines to establish units on tagboard.

 Elements
 1,6

 Life Role
 All

 Career Cluster
 All

Purpose:

To make the student aware of the frequency to which man is affected by the advertising career. To build students' skill of graphically indicating the results of data gathering.

Objectives:

Student will:

- 1. List the number of commercials during a 10 minute period, given any commercial radio broadcast.
- 2. Record the number of commercials during the 10 minute interval by constructing a bar graph.
- 3. Compile similar data from 4 other 10 minute periods, and record the information on a bar graph.

Material:

Radio or TV, pencil, paper, graph paper

Procedure:

Discuss various advertisements or favorite commercials (radio, tv, etc.). Briefly discuss advertising careers. Listen to a 10 minute radio broadcast and instruct the students to list commercials by name of product or service. After survey is taken, guide students to construct a bar graph (vertical axis=# of commercials, horizontal axis, ten minute intervals). Instruct students to compile similar data using 4 other 10 minute periods in next 24 hours.

Theme: Child Care Services

Grade Level 7/8

Curriculum Area Home Ec.

Elements 1. 2. 3. 5. 7. 8

Life Role Vocational

Family

Career Cluster Social Services

Purpose:

To develop in students the aptitude, interest, skill and training necessary to operate a day care center.

To develop in students a knowledge that with the increase of population most jobs will be in the service area. Child care opportunities will be in demand.

Objectives:

Students would be able through a chart they filled in to compare and contrast the needs of day care center students to those of other ages.

Students would experience the actual care reeding and entertainment of young people.

Students would role-play situations that posed problems in child care and resource people, instructor and group would help with solutions.

Materials:

Procedure:

Have a resource person - certified day care center personnel - discuss qualifications and education needed for this type of occupation. All students would observe kindergarten classes and each week two or three girls would work as teacher aides.

Day care center students would be brought to the home economics lab for a meal and play period.

Students would keep a chart on the emotional, physical, mental and social needs of the children.

By Betty Beadle

PCE K-10 June/73

Theme: Clothing Workmanship Quality

Grade Level	7/0	
Curriculum Arca	Home Economies	
Elements	2,6,7,8	
Life Role	Vocational	
	Family	
Carcer Cluster	Marketing	

Purpose:

To develop in students an understanding what quality workmanship in clothing is for both home consumption use and knowledge for grooming and salesmanship.

Objectives: 1.

- Given paper and pencil have students make two lists.
 One would be for good quality workmanship clues/the second would be for poor quality workmanship clues.
- 2. Students would pool their lists and develop a list of quality workmanship items.
- 3. Students would bring to class an item of clothing (theirs or from a friend or family member) of good quality workmanship and explain and defend the workmanship.
- 4. Students would write a paragraph on how this knowledge could help them in selling different types of clothing such as jeans, hunting clothes, toddler clothes, party dresses, etc.
- 5. It would be desirable for the students to learn the parts of a sewing machine, their function and safety measures in handling sewing equipment.

Materials:

Instructor brings 8 to 10 items to class for examination. A few items should have workmanship from poor to mediocre. Have several items of excellent quality for comparison. This may be expanded for use from clothing of one member of the family for a certain occasion to all members for all occasions.

Procedure:

Display articles. Examine for (1) straight even machine stitching of an appropriate length for the fabric. (2) Seam edges finished to prevent raveling. (3) Ample seam allowances and hem with stitches not visible on the right side. (4) Plaids, stripes, and large designs are matched at seam lines. (5) Points of strain are reinforced. (6) Linings and interlinings are used when necessary to give proper shape to garment and help prolong its wear. (7) Buttonholes are well finished and free from ravelings. Bound if necessary, and (8) Zipper lie flat, work easily and are neatly inserted.

Purpose:

To help student understand the advantages and disadvantages

of an assembly-line job.

Objectives: Given an opportunity to participate in an assembly-line type operation, each student will be able to list 5 advantages and disadvantages in this kind of employment-with emphasis on the

individual.

Materials:

Sewing machines and thread

Irons and boards

Fabric

Job Assignments Instructions

Procedure:

Students are divided into groups of six. Tasks designated according to charts. (Teacher select 1st assignment -- then if one student proves toogslow, have "advancement" procedures similar to job advancement.)

Dept. A - Place Mats and Napkins-to be made for gifts or as a Sales Project (another activity.)

Job #1 - Cut quilted fabric into rounded corner rectangles approximately 10x16.

Job #2 - Cut 2" bias strips from plain fabric.

Job #3 - Stitch bias strips into approx. 60" long strips.

Job #4 - Press strips into 4-fold bias facings.

Job #5 - Stitch bias facings around edges of placemats.

Job #6 - Block and press.

Dept. B - Napkins

Job #1 - Cut or tear 10" squares.

Job #2 - Block and press.

Job #3 - Stitch around all 4 sides - one inch from the edge.

Job #4 & 5 - Fringe edges to stitching. Two students

necessary to keep up.

Job #6 - Block, press and fold.

Class discussion following should include: 1. Would I like to do one small job all day, every day? 2. Would it be a challenge? 3. Would I feel part of a total group? 4. Could I keep up with the others? Etc.

Theme: Home Economics Field Trip

Grade Level	7/3	
Curriculum Arca	Home Reonomies	
	Field Trips	
Elements	1,2,5,7,8	
Life Role	Vocation	
Career Cluster	All	

Purpose:

To formulate information on malc and female employees with people, data, and things.

To gather that training is needed for employment either in school or industry trained.

To identify the knowledge that certain interests, skills and aptitudes are needed and applicable in industry because of the many different types of jobs.

Objectives: Given a graph, a student will be able to demonstrate an ability to:

- Identify the job clusters observed
- Identify jobs available for both men and women
- 3. Identify jobs that require special training, no training, college training
- Students will divide into groups and compare the special interests aptitudes, skills and training necessary for ccrtain types of jobs.
- 5. The class will chart out conclusions about job preparations, job clusters and types of positions available for certain amounts of preparation. For instance, chart out 5 to 10 occupations for unskilled, semi-skilled and skilled employees.

Materials:

Tape recorder, camera, note pad and pencil, transportation, graph, D.O.T., Occupational Outlook Handbook. Career Clusters and associated occupations - see resources.

Procedure:

Class discussion on employment relating to people, data, and things.

Suited for small groups.

Class discussion on training necessary.

Pre-planning - have students through observation, questioning and/or interviewing on field trip gather information, identify career roles and describe conditions in which classroom teaching in career education compares and contrasts to industry. Class will use D.O.T., Occupational Outlook Handbook, and resource sheet on career clusters and associated occupations to study types of occupations seen on field trips.

Edited 6/74

Theme: Comparative Buying - Consumer Education

Grade Level	7/8
Curriculum Area	Home Economics
	Foods
Elements	3,6
Life Role	Family
	Vocation
Career Cluster	Food Service

Purpose:

To develop in students an ability to compare, contrast, discriminate and decide which food products would be the best choice to buy.

- Objectives: 1. Given 3 or 4 food products in various states and in combination with other ingredients, each student would graph his or her choices as to nutritional value (as much as they are able to determine it at this point) cost, eye appeal, taste, color, testure, odor or any other factor that would influence their choices.
 - 2. After rating their choices on a list with what they considered the most important factors coming first, comparing and . discussing the lists in class, the student would write a paragraph on his values in relation to food choices.
 - 3. Have students list factors that might influence future trends in food service employment.

Materials:

Peas - fresh, canned, frozen, freeze dried, frozen with other ingredients.

Juices - fresh, canned, frozen concentrated.

Baked goods (bread) - freshly baked, partially frozen and baked,

frozen and baked.

Meats - fresh, canned, dried, frozen, freeze dried, and frozen

with other foods.

Etc.

Procedure:

- 1. Class instruction on nutrition
- 2. Class discussion reasons for eating, metabolism, growth, energy, social and emotional
- Instruction on meal planning as to color, taste, texture, temperature, proportion, etc.

This might be an interesting activity to have at the beginning and end of a foods unit.

PCE K-10 June/73

Theme: Following Directions - Foods Lesson

Grade Level	7/8
Curriculum Area	Home Economics
Elements	1,2,7,8
Life Role	All
Career Cluster	All

Purpose:

/ .

To develop in students an understanding that they must be able to read and follow directions to obtain employment, maintain employment and succeed in employment.

Objectives:

- 1. Given a certain set of directions that do not follow logically step by step, the student is able to read and rearrange the directions in the correct order for desired results--100%.
- 2. All students will make cream puffs following directions as carefully as possible except for one group. This group will produce products with as many variations as possible, in following directions.
- 3. Results are graphed by each student for correct and incorrect procedures. Explanations for the incorrect procedures which produced incorrect products are sought and analyzed.

Materials:

Set of directions incorrectly dittoed as to order of procedure or directions on cards that are mixed up. Home economics recipe ingredients, utensil, range.

Procedure:

- 1. Class instruction on terms of vocabulary.
- 2. Class instruction on the purpose of following directions.
- 3. Instructor demonstrates and explains as he or she proceeds with the correct set of directions to make the desired product. The reasons for the procedures are explained.
- 4. Incorrectly arranged steps are given out to each student on dittoed sheets or cards. In this instance, a cream puff recipe is used. Students rearrange correctly.
- 5. Suited for small groups.

Theme: Sanitation - Food Handling

Grade Level 7/8

Curriculum Area Home Economics

Elements 7.8

Life Role All

Career Cluster Food Service

Health Occupation

Purpose:

To develop in students an understanding of the necessity for conditions that prevent and prohibit the growth of pathogenic bacteria and why it is so important in food handling occupations.

Objectives: 1.

- 1. Given the petri dishes with bacteria, the students count the number of cultures found growing.
- 2. To help the students understand bacteria is everywhere and harmful bacteria is hard to prevent and control.
- 3. Have the student realize hair cannot be sanitized.

Materials:

Petri dishes with agar. Autoclave or method of keeping temperature a certain degree.

Procedure:

Students wash hands with soap, rinse and dry several times. Then they press finger tips on agar in sterlized petri dishes. Dishes are covered and the bacteria cultures develop after so many hours held at a certain temperature. The more the students cleaned or scrubbed on their fingers, the more bacteria they brought to the surface.

Theme: Food Label Reading

Grade Level	7/8
Curriculum Area	Home Economics
	Foods
_	Math
Elements	6
Life Role	Family
Career Cluster	Food Service

Purpose:

To develop an understanding of the difference in quantity, grade, and value to be learned by reading a label.

Objectives:

Given two sample labels, student shall be able to --

1. Compute price per ounce of content and compare.

2. By means of a graph, compare prices with "sense"

selection.

Materials:

6 to 8 labels for small group of students--real or copies

Pen and paper

Procedure:

In previous class discussion and study, students shall be aware of nutritional values of various foods and their importance to health. Students should know mathematical process necessary to figure price per ounce. By taste trial, students could become aware of variation in flavor; and by general appearance -- color, shape, etc., they could also visualize the superiority of a higher grade product.

Theme: 'What's For Lunch?"

	Grade Level_	8
	Curriculum Area	Home Economics
	Elements	Vocation
		Family
d	Life Role	5,6,7
41	Career Cluster	Food Services

Purpose:

To help students appreciate and evaluate school lunches:

- 1. Appetite appeal
- 2. Work in preparation
- 3. Nutritional value
- 4. Jobs involved

Objectives:

Given an opportunity to spend a morning in the school cafeteria (2 or 3 at a time) students should be able to contrast and compare preparation of school lunches with preparation of lunches at home, variety of foods served, and decide with written reasons, the values of each; as to

- 1. preparation time
- 2. food value 4 basic groups
- 3. cost
- 4. appetite appeal
- 5. jobs involved

Materials:

Basic Foods Chart

Pencil and paper

Procedure:

- In previous class discussion, students should learn--or review -- the 4 Basic Food Groups and their importance.
- 2. Students should keep account of increased amount of preparation time added with each additional food on the menu.
- 3. Students should discuss and compare facts that each food of different color, texture, taste, heat and general appearance, adds to appetite appeal. Also food costs and budget influences food selection for balanced memus.

Purpose:

To help students realize courtesy and consideration of others is always important.

- Objectives: 1. Students will role-play correct and incorrect behavior involved in Supermarket shopping.
 - 2. They will be able to chart good and bad behavioral patterns in shoppers.

Materials:

Shopping cart

Assortment of groceries (optional)

Procedure:

Have attached lists of "Do's and Don'ts" typed on 3 x 5 cards.

Students draw one of "hat and role-play appropriate action.

By Janey Tinker

PCE K-10 June/73

SUPERMARKET

HOW TO BE ABSOLUTELY HATEFUL IN 10 EASY STEPS

- 1. On a busy shopping day, take up two spaces in the parking lot.
- 2. Even if you can shop at any time of day or any day of the week--wait until 5:00 P.M. to do your week's shopping. Business people returning from work don't mind waiting till you're through.
- 3. Let the children race all over the store.
- 4. If you meet friends and decide to chat, don't move to one side. Stand in the middle of the aisle.
- 5. If you're in front of a shelf or showcase, don't let anyone else look too. After all, you got there first.
- 6. Leave your cart in the middle of the aisle and run off to get something you need. Someone else will move your cart out of the way.
- 7. Never get on the end of a check-out line--always push ahead of someone. If you're aggressive enough it might work.
- S. Forget to have something weighed and hold up the whole check-out line while you go back to get this done.
- 9. When you reach the cashier, don't pull your empty cart to its proper place. Let the customer in back of you do it.
- 10. Be a cartnapper. Shopping carts only cost \$30 apiece, minimum, and they'll never miss it.

PCE K-10
June/73

HE 14 a

SUPERMARKET

HOW TO BE A LIVING DOLL IN 10 EASY STEPS

- 1. Be careful. Push carts with care. If you accidentally bump your cart into someone, stop and apologize sincerely.
- 2. Be gentle. Avoid unnecessary handling of fresh fruits and vegetables.
- 3. Be neat. If you knock something off a shelf, pick it up and put it back. If you accidentally break something, call a clerk so he can clean it up.
- 4. Be orderly. If you change your mind about buying something, return the item to its proper shelf.
- 5. Be organized. Complete all your shopping before entering the check-out line. Asking someone else to push your cart forward while you pick up forgotten items is not cricket.
- 6. <u>Be smart</u>. Learn the rules of the "express line". Usually it's the number of items not the number of pieces that count. In most stores six loaves of bread and eight cans of soup are two items.
- 7. Be cooperative. Place merchandise on the counter so the cashier can see prices. Keep "two for" items together.
- 8. Be ethical. Don't ask the store to redeem "cents off" coupons for items not a part of your purchases.
- 9. Be business-like. Have your money ready so you don't delay the check out line while you get a check cashed.
- 10. Be kind. If you take a cart to your car to the parking lot, wheel it back to the area designated for empty carts. Never take a cart off the store premises.

PCE K-10 June/73 не 14 b

Grooming Theme:

> Grade Level Curriculum Area Home Economics Health 1,2,8 Elements Life Role All Career Cluster All

Purpose:

To have the student understand that certain rules of grooming hold up through the test of time.

- Objectives: 1. Given paper and pencil have each student list 5 things they consider are necessary for good grooming, and acceptable or favorable appearance to them from their observation.
 - 2. Given all the group ideas have each student make a list of things they as a group feel are the necessary things to do for good grooming.
 - 3. Formulate a code.

Materials:

Note pad

Units on grooming

Texts Pencil

Resource material

Procedure:

Discussion of good grooming habits and practices. Have each student observe 10 people over a two week period that fall into a category of what they would consider "well groomed". Write down on a small pad what makes each of these people stand out.

By Betty Beadle

PCE K-10 June/73

Theme: Good Grooming

Grade Level 7/8

Curriculum Area Home Economics

Health

Elements All

Life Role All

Career Cluster All

Purpose:

To develop in students an understanding of what factors and the use of which constitute good grooming. To develop an understanding of why good grooming is necessary to the world of work as well as the other life roles.

Objectives: 1.

- 1. Given paper and pencil the student would analyze and graph their body silhouette and determine design lines best suited to their figure.
- 2. Given fabric of different hues, tints and shades, students would record colors best suited to their own complexions and hair coloring. By looking into mirrors facial outlines would be traced. Placement of eyes, nose and mouth would also be drawn out.
- 3. A clothing wardrobe would be recorded for play, school and special occasions.
- 4. Three examples of hair styles and three examples of clothing for recreation, work and special occasions would be turned in to the instructor.
- 5. Personal grooming problems, if a student wished to reveal them, could be presented to the class for discussion.
- 6. Generalizations and concepts may be charted by the class as elements of good grooming.

Materials:

Resource people Teaching aids Texts Magazines Films, film strips

Procedure

- 1. Have a cosmotologist as a resource person visit the class, demonstrate shampooing, hair cutting and setting on a student. Have a question and answer period on hair and skin care.
- 2. Have an instructor for airline stewardesses visit the class and discuss the importance of grooming, how to walk correctly, sit, pointers on good grooming, diet, etc.
- 3. Have a buyer, designer or competent sales person visit the class and with examples explain silhouettes, design lines, color, texture, appropriateness, etc.
- 4. Have a P.D. instructor explain the exercises needed for certain body problems and correct posture.
- 5. Have a home economist discuss diet and diet problems.
- 6. Films on cleanliness, beauty aids, diet, posture, etc. will be shown.

Theme: Decision Making

Grade Level 7/8

Curriculum Area Home Economics

Elements 2,3,4,5

Life Role All

Career Cluster All

Purpose:

To develop in students the steps in decision making.

Objective:

- 1. Given a problem, paper and pencil students will state within 5-10 minutes what choice they would make.
- 2. Given these answers students will tabulate on paper with pencil the responses and alternatives, what influenced or prompted these alternatives, what would the results be from taking certain alternatives, following through and making decisions? Steps in decision making should be enumerated for the students.

Material:

Furniture and fixtures in a room, a certain

A certain amount of money

Trend folders

Transportation costs

Home furnishing magazines, catalogues, etc.

Procedure:

Two teen girls in a family of 5 have this problem to solve. The parents who discuss financial matters with the girls and their brother state they have a certain amount of money that can be used by the girls to buy furniture more suitable to teenagers, repaint the room and add new bedspreads, etc. However, the girls have been wanting to spend several weeks visiting with a cousin on a large cattle ranch which is not too far from the World's Exposition. They have been planning several years to take this trip yet they would enjoy having their large bedroom redone since they will be home close to 3 more years.

Theme: Self Understanding

Grade Level	7/8
Curriculum Area	Home Economics
	Self Understanding
Elements	1,2,3,4,5,8
Life Roles	All
Career Cluster	All

Purpose:

To begin to develop in students an understanding of self.

Objectives: 1.

- L. Given a self awareness form each student would honestly evaluate herself or himself to the best of their ability.
- 2. Given the What's In Your Future Form each student will try to project himself or herself from where they are today to where he or she thinks they may be after high school graduation, with one or two years training after high school, or with a college degree.
- 3. Given these forms to fill out and concentrate on a student will begin to realize he or she may or will have considerable influence on their future.

Materials:

Use form "Who Am I?"

Use form "What's In Your Future?"

Textbook reading on heredity and environmental influences in

general on an individual.

Exploratory field trips to various industries.

Procedure:

Students will do assigned reading in regard to an individuals inheritance of certain physical attributes, mental capabilities and acceptance of what they cannot change. They read and discuss how environments affect their concept of self. The forms Who Am I and What's In Your Future are filled out. The Who Am I is a private exercise but the What's In the Future exercise may be used to draw generalizations and concepts about work, marriage and male and female roles. Why do students see themselves as they do? Are they aware of the practical elements of adult life?

By Betty Beadle

PCE K-10 June/73

WHO AM I?

Directions: Number 1, 2, and 3 will be used to determine how you measure up. THIS WILL NOT BE GRADED OR EVEN COLLECTED. Just look into the mirror and answer #1 if very good, #2 if good, or #3 if fair. How let's find out your strong and weak points.

1.	Physical stamina
2.	Strength
3•	Manual skills in general
-	
Part B:	NFIFTAL CHARACTERISTICS
1.	Concentration
2.	Persistance
3•	Memory for faces
4.	Memory for general facts
5•	Memory for numbers
6.	Memory for visual things
7.	Imagination or creativity
8.	Logic or reasoning powers
•	
Part C:	VALUES, FEELINGS, PERSONALITY
1.	Would you go into a job just because your family wanted you to? (yes - no)
2.	Would you go into a job just

because your parents wanted

it, you deep down wanted it too, thereby satisfying all?

Is prestige important to you?

Is money important to you? (yes - no)

(yes

(yes

no)

no)

Part A: PHYSICAL CHARACTERISTICS

- 5. Do you have patience? (yes no)

- 8. Do you get along with your own age group? (yes no)
- 9. Do you relate with older people well? (yes no)
- 10. Do you like young children? (yes no)
- 11. Do you value honesty? (yes no)
- 12. Do you think you answered all of the above honestly? (yes no)

Below is some space. Make a short notation of your strong points and your weak points.

idake a general statement about
 yourself here.

PCE K-10
June/73

WHAT'S IN YOUR FUTURE?

Think of five jobs related to your interests and talents that you could work at:

While you are in high school

1.

2.

3.

1.

Right after high school with a high school diploma
1.
2.
3.
4.
5.

With one or two years' training after high school

1.

2.

3.

4.

With a college degree

1.
2.
3.
k.
5.

PSE K-10 June/73

Theme: "Is It Worth It?"

Grade Level	8
Curriculum Area	Home Economics
Elements	1,2,3
Life Role	All
Career Cluster	All

Purpose:

Help students recognize that there is more to a job than the

pay check.

Objectives: Given a brief biographical sketch of a worker, the student will

be able to answer the 5 listed questions which do not pertain

to the actual job but to worker self satisfaction.

Materials: Brief biographical sketch

List of 5 questions

Pen or pencil

Procedure: Pre-class discussion should explain and emphasize importance of five human needs in the world of work.

- 1. Need for master
- 2. Need for belonging
- 3. Need for approval by others
- 4. Need for status
- 5. Need to give service

When given a brief biographical sketch, students should be able to answer "How?" this individual is fulfilling the "5 needs" in his/her life role.

Example: Beverly Brown is a 28 year old Home Economics teacher. She is married and has two small children. She returned to teaching 2 years ago because her husband wanted to return to school part-time to prepare for a better job. She likes her job, her students, her co-workers and her school.

Meme: Tirst Reactions Count!

Grade Level	7/8
Curriculum Area	Home Economics
	Self-Understanding
Elements	1,2,3
Life Role	Vocational
Career Cluster	All

Purpose: To help student become aware of their own likes and dislikes.

Objectives: Students will complete reaction chart attached for self evaluation.

Materials: Chart

Pen and pencil

Procedure: Teacher selects pictures of jobs in any cluster.

Example: For a Homemakers Assistant.

They are asked to assume they are the person pictured and

have just been asked to do the job.

What was the first reaction?

How would you feel about this type work?

By Janey Tinker

PCE K-10 June/73

First Reactions Count! (continued)

Students are shown pictures of workers doing a number of jobs that might be included in Homemakers Assistant (or?). They are to assume that they are the person shown and have been asked by their employer to do that job. The student is to record his/her first reaction.

Students are to place their reaction in the first column to the right of the number which corresponds to the number of the picture of the job shown. Then he/she will check other appropriate responses.

	,				
First Reaction	Know how	Do not know how	.Do willingly & will enjoy	Do willingly but won't enjoy	Will not do

Theme: Four Speakers - Hotel Employment

Grade Level 8

Curriculum Area Home Economics

Speakers

Elements 1,2,4,5,7

Life Role Vocational

Career Cluster Social Service

Purpose:

Develop in students an awareness of job differences due to education through the example of jobs related to hotel employment.

Objectives:

Given the opportunity to hear 3 speakers in a variety of jobs in any given hotel/motel complex, a student can list jobs available and education required for each.

Materials:

Speakers

Note taking equipment

Film or slides

Procedure:

1. Three speakers presented

2. One in hotel management - college trained

One desk clerk - high school plus business college
 One maid - high school, maybe with "on job" training
 Students should become aware of type of jobs done,
 advancement possibilities (money), and variety of
 experiences possible, <u>basically</u> because of education.

By Janey Tinker

PCE K-10 . June/73

Theme: Transportation

8 and up Grade Level Home Economics Curriculum Area Field Trips 3,6 Elements Vocational Life Role Leisure Family Career Cluster All

Purpose:

To become acquainted with methods of transportation necessary

to get to and from a job location.

Objectives: Given an address, a student can show how to travel from home

or school to reach it by any of three listed transportation

procedures.

Materials:

City map

Bus dispatches, phone number for bus schedule and routes

Each student is given an address of some place of business (prospective employer) and will show how to reach it by the most direct route, to have a job interview at a certain time, using.....

a. own car--show route on map

b. bus -- names of routes, transfer points, and time

c. ride part way -- how to proceed from there

Theme: "Safety First -- and Second, Too!"

Grade Level 7/8
Curriculum Area Home Economics
Elements 1,2
Life Role Family
Career Cluster Social Services

Purpose: To make student more aware of safety hazards in the home.

Objectives: After teacher has deliberately set up 20 safety hazards in

the Home Economics room, student should be able to identify

90% of them.

Materials: Safety hazards

Pencil and paper

Procedure: After several periods of class study, reports and discussion

on Safety - at home, on the job, as a baby sitter, etc., the teacher should set up examples of safety hazards. The students

should be able to locate at least 90% of these.

Examples:

a. iron flat on board

b. iron left plugged in

c. grease on floor

d. grease on stove near burner

e. hot pad on burner

f. pan handle over edge of stove

g. radio or mixer cord over stove burner

h. sign on Fire Extinguisher "Out of Order"

i. pan with extending handle in oven

j. too many plugs in one electric plug-in (3 way plugs use)

k. open pan of ? boiling on stove

1. poisonous cleaning solutions kept in food cupboard

m. prescriptions, medicine on spice shelf

n. sharp knives in sink for washing

o. penny in fuse box

p. teacher shoes untied

q. inflammable apron

r. slippery rug on floor

s. toy on floor

t. teacher work at stove wearing floppy sleeves

By Janey Tinker

PCE K-10 June/73

Safety First (continued)

Purpose: To make students more aware of safety hazards in the home.

Objectives: 1. Students will select a 3x5 card which has safety hazard on it.

2. Student will select a partner, if necessary, and role play the hazard, the results, and how to cope.

Materials: 3x5 cards -- activity listed

Procedure: (After previous activity)

1. Each student will be given a 3x5 card and will write on it a safety hazard. These will be "thrown in a hat."

2. Each student will select a card and alone, or with a partner, role play the results -- and/or how to prevent the accident.

These should be hazards not easily demonstrated in previous activity.

Example:

- use of proper utensils -- hammer to pound -- not knife -- or serew driver, not knife
- 2. toaster cords in good repair
- 3. use no metal to fix stuck toaster (fork or spoon)
- 4. watch hot grease on stove
- 5. watch hot sugar on stove
- 6. don't put water on burning grease
- 7. what happens on a highly waxed floor
- 8. scatter rugs without rubber backing

Many others brought out in previous class discussion.

Self-Understanding

Elements 1,2,3,8

Life Role All

Career Cluster All

Purpose:

To help student realize their individual potential as an

employee.

Objectives:

Given a set of questions, students will answer them to the

best of their ability, and see how they rate themselves as

potential suployees.

Materials:

List of questions

Pen or pencil

Procedure:

 In pre-discussion, about attached questions, students will contrast and compare attitudes and abilities an

employer might expect of an employee.

2. Students should consider how they might feel about

hiring themselves.

By Janey Tinker

PCE K-10

Theme: Group Singing and the Leisure Life Role I

Grade Level	5-6-7-8
Curriculum Area	Music
_	Health
Elements	1,4,5
Life Role	Family
	Leisure
Career Cluster	Music
	Social Services

Purpose:

To become aware of favorite songs known by the family and realize the importance of group singing in fulfill-ment of leisure time.

Objectives:

- Given paper and pencil, the students will list songs they think are known by their parents.
- 2. From their own experiences, they will list where these songs will be sung in relation to the leisure life roles.

Materials:

paper and pencil

Procedure:

- 1. After discussing the topic "Leisure Time", the students will list songs they think are known by their parents.
- 2. Then they will list the types of activities they are involved in during leisure.time with the family (picnic, vacation, family gatherings).
- 3. From the second list, the class decides where group singing could be a part of that leisure time.
- 4. Assign the students to ask parents how many songs they know on the first list. Then have parents add some songs they would like their children to know.

Theme: Group Singing II

Grade Level	5-6-7-8
Curriculum Area	Music
_	Health
Elements	1,4,5
Life Role	Family
	Leisure
Career Cluster	Music
	Social Services

Purpose:

To have students know 10 songs that are known by their

parents in order to build better communications.

Objectives:

1. Given instruction in vocal music, the students will

be able to sing 10 songs known by their parents.

Materials:

music for the songs

chalkboard and chalk

Procedure:

PCE K-10 June/73

- 1. Students come back and bring a list of songs their parents would like them to learn.
- 2. List the songs on the board and decide which are requested the most.
- 3. The teacher teaches the song.

Theme: Music Affects the Leisure and Family Life Roles

Grade Level 6-7-8
Curriculum Area Music
Elements 4
Life Role Leisure
Career Cluster Social Services

Purpose:

To realize how music affects our daily life, and is an

interwoven part of it.

Objectives:

 Through small group discussions students will compile a list of 5 styles of music, places they hear music and the moods they create.

Materials:

chalkboard, chalk paper and pencil

Procedure:

- 1. Ask the class how many different places they hear music. As they state different places, the teacher lists them on the board.
- Now list all the different types of music we hear at these places. (fold, rock, mood music and so on.)
- 3. Have the students break into groups according to how many places they listed. Select a group leader. Give each group 5 minutes to discuss their type of place, type of music, kind of mood it creates, the relationship between the music and activity involved, itc.

Is it important? Could you do without? If so, how would it change? (These questions may be written on the board.)

- 4. The group leader reports the discussion of his or her group and the rest of the class may comment on their decisions.
- 5. Final Question What did they learn about music today?

By Bunny Hatch

Theme: Field Trip to the Music Store

Grade Level	6-7-8
Curriculum Area	Music/Field Trip
Elements_	1,2,5,6,7,8
Life Role	Vocational
Career Cluster_	Social Services
<u></u>	Secretarial
	Marketing

Purpose:

To become aware of many aspects of musical products. (Playing, buying, selling, repairing, etc.).

Objectives: 1.

- 1. The student will be able to identify many different instruments and differentiate between the various qualities of certain instruments.
- 2. After visiting the music store, the students will write a paper about 1 of the jobs needed in a music store.

Materials:

Transportation
Paper and pencil

Music store visit pre-arranged

Procedure:

- 1. Arrange to have a class go on a field trip to the music store. (Day Music Co.).
- 2. Prepare the students beforehand, and also talk with the manager of the store about the information we would like.
 - a. What types of jobs do the people in the store have?
 - b. Do they have to have any music training?
 - c. How many different instruments do they carry, and what are the purposes of the people buying them?
 - d. What are the differences in prices and qualities?
 - e. Do they have a repair shop? (and so on)
- 3. When the students come back to school have a discussion about the trip and what they learned.
- 4. Assign the students to write a short paper about <u>one</u> of the employees of the music store they were the most impressed with. The paper should include the title
- o of the job, the qualifications, the type of work they do daily, the pay (if found out), and a general comment from the student about his or her experience in learning about the job.

Purpose:

To realize the number and types of music stores in Portland along with the variety of jobs available.

Objectives:

- The students will be able to locate sections of the city of Portland, given a map.
- 2. The students will be able to use the classified index of the Telephone Directory.

Materials:

Telephone Book
Paper and pencil
Map of the city
Chalk and chalkboard

Procedure:

- 1. Assign the class (for homework) to list all the music stores in the classified index of the telephone directory, located within the area of Portland in which they live. (N.E., S.W.)
- Explain the dividing lines of the city on the map and show what area certain land marks are located. The list should include the address and type of music store (sells instruments, sheet music, gives lessons and so on)
- 3. The next day, list the stores on the board. The students will discuss the need for a large or small number of music stores, and the need for the different types, if they are different.
- The students will choose 3 stores closest to their school.

Theme: "Concentration"

Grade Level 4-8
Curriculum Area Music Lang. Arts
Elements 5
Life Role Vocational
Career Cluster All

Purpose:

To know a skill associated with a music career through the game "Concentration" (could be adapted to any career or cluster)

Objective:

Given a teacher-prepared "Concentration" chart, the students will match occupational skills with a designated music career.

Material:

24 numbered tagboard cards 1' square. (the square in the center of the chart is marked "free" -see ex.1 p.2)
5'x5' "Concentration" chart

A strong piece of cardboard for mounting the chart on a bulletin board

Procedure:

- 1. Make a 5'x5' "Concentration" chart out of tagboard. It should be marked off with 25 l' squares with the center square marked "free" (see example 1) Make 24 l' square cards numbered 1-24 (ex.2). Put a straight pin at the top of each square on the board (ex.3) Then the cards fit over the squares on the board, numbering left to right.
- 2. Choose a game monitor to remove the numbered cards and keep score on the chalkboard.
- 3. Decide on team captains. Divide the class into 2 teams.
- Underneath the numbered card there will be either a card describing a career, relating directly or indirectly to music, or a description of the skill needed to perform a music related job. He will score a point for relating the skill with the career. If he missed the second team will have the opportunity to gain the opposing team's point. The team with the most points is the winning team. (Just like "Concentration" on TV)

Curriculum Area Music, Art
Elements 1,2
Life Role Vocational, Leisure
Career Cluster Social Services

Purpose:

To become aware of a variety of jobs related to music. To use creative talents to construct and arrange a musical collage.

Objectives:

1. Students will construct a collage of music occupations from pictures they select from magazines.

Materials:

tag board

glue --scissors

pictures out of magazines brought by students

Procedure:

- 1. Explain how a collage is made, and how it shows a conglomeration of a given subject.
- 2. Have them select a topic they can concentrate on such as:
 - a. Jobs related to music
 - b. Singers
 - c. Performing Groups
 - d. Instrumentalists
 - e. Conductors, dancers, etc.
- 3. Have them bring pictures from magazines of people or things related to music.
- 4. Have them arrange their pictures on peg board and decide how they will be cut and designed.
- 5. Glue them on, and put them up in music room or classroom for inspiration. (They may be given a theme or title).
- 6. After posted, each student will tell about his collage.
 - a. What topic
 - b. Range of what's included
 - c. Something unusual
 - d. Special problems

By Julie Nakoff Bunnie Hatch

PCE K-10 June/73

Theme: Who AmI?

 Grade Level
 5-6-7-8

 Curriculum Area
 Music

 Elements
 1

 Life Role
 Vocational

 Leisure

 Career Cluster
 Social Services

Purpose:

To learn about famous people who's backgrounds and

occupations are related to music

Objectives:

1. Given a picture of a famous person, the students will identify and write one report on that person

relating to a career in music.

Materials:

pictures of famous people (i.e. Stravinsky, Bacharach, Carlos Montoya, Carpenters, etc.)

construction paper for bulletin board

paper and pencil

Procedure:

- Every week, the teacher posts a picture of an important or famous person on the bulletin board.
- 2. Under the picture, put three questions:
 - a. Who am I?
 - b. What do I do?
 - c. How did I become famous?
- 3. If the person is discovered, then one student will look up a report on this person, give it to the class and put it up by the picture on the board.
- 4. If the person is unknown, then the teacher could play 20 questions with the students until they guess the occupations. The teacher may have to tell them the name of the person. Then one student looks up a report about that person.

Theme: Job Awareness in Music I

Grade Level 6-7-8

Curriculum Area Language Arts

Music

Elements 1,5

Life Role Vocational

Career Cluster Social Services

Purpose:

To become aware of jobs related directly and indirectly

to music.

Objectives:

1. Given paper and pencil, students will list jobs

related directly, or indirectly to music, corresponding to the letters of the alphabet.

Materials:

paper and pencil

Procedure:

PCE K-10
June/73

1. Divide the class into small groups.

 Each group will make a list of those jobs which correspond with the alphabet letters and are directly or indirectly related to music (e.g.

A --Actress).

3. After groups have filled in as much as they can, go around the room and obtain feedback from the

groups.

4. After the students have filled in as much as possible, have the groups select a job and discuss its relation to the characteristic and tools.

By Julie Nakoff Bunny Hatch

PCE K-10 June/73

Theme: Occupations Related to Musical Productions

Grade Level 5-6-7-8
Curriculum Area Music
Elements 1,3,5,6,8
Life Role Vocational
Career Cluster All

Purpose:

To discover the wide variety of jobs involved in putting on a program where music is an important part.

Objectives:

- 1. Given a topic on musical productions, the students will be able to list 10 jobs related to the production.
- 2. Students will be able to rate the importance of a specific job on a scale of 1-10, and discuss why the rating was given.

Materials:

paper and pencil chalkboard and chalk

Procedure:

- 1. Decide on a type of musical production (perhaps one you are studying). Some examples are Operas, Musical Plays, Variety Shows, etc.
- 2. Break up the class into small groups of 3-4. Tell them the topic and give them 10 minutes to discuss the type of program and list 10 jobs involved in that production.
- 3. Then each group leader goes to the board and writes the jobs.
- 4. The teacher, with the class, goes through and erases the duplications so that one of each job is listed.
- 5. Discuss how these jobs are related to the musical production. If they can be put into clusters, group them accordingly.
- 6. Finally, ask the student if there are any jobs that the production could do without. What if the money supply was short and they had to cut down on staff? Who would be cut and why?

GOALS, COMPONENTS AND CONCEPTS FOR PROJECT CAREER EDUCATION K-10

Attached you will find the project goals, and components and concepts that will be implemented during the 1973-74 school year. The goals, components and concepts were originally developed as an exploration guide by teachers from project schools in June 1972. This is the revised and expanded K-10 project guide developed in June 1973 by building coordinators from project site schools.

If this office can be of further assistance, we will be pleased to honor your request.

Tom Parr Project Coordinator

PROJECT CAREER EDUCATION K-10

Project Career Education K-10 is based on the overall Area II program goal for Career Education which proposes that:

Every child shall, upon completion of his public school education, possess sufficient knowledge of many occupational fields, including knowledge of entry requirements, to be able to make an informed selection of an occupational field and shall have developed competencies that enable him to enter into employment or an advanced training program in that field.

PCE K-10 is further divided into CAREER AWARENESS and CAREER EXPLORATION.

CAREER AWARENESS

Every learner, upon completion of the kindergarten through grade six portion of his public school education, will have developed an awareness of the world of work including:

- A. knowledge of a variety of occupations and their related tools and duties,
- B. knowledge of contribution and interdependence of work done by members of society,
- C. relationship of subject matter to the world of work,
- D. and an awareness of self as related to the life roles of family, citizen, leisure, and vocation.

Goals for Career Awareness grades K-6 that support the overall Area II Goal should be of sufficient scope and depth to enable each student to:

- A. explore and assess personal attitudes, aptitudes, attributes and interests.
- B. examine the concepts of work and work roles and the many occupational possibilities.
- C. develop attitudes, knowledge and skills needed for effective employment.
- D. develop self awareness as related to the life roles.

By the completion of grade 6, students will have attained the Area II goals and sub-goals through their involvement in career awareness activities developed in the PCE K-10 Curriculum Activity Guide, Idea Book, People In Products and Services, and teacher developed career awareness activities.

(Career Awareness continued)

RESOURCES

GOAL: Career Education resources will be used by PCE K-10 schools.

CONCEPTS: Many resources are available in the area of career awareness

for use by K-6 teachers.

OBJECTIVES: Every child upon completion of grade six will have become

aware of jobs relating to people and things through the use of resources such as printed materials, audio-visuals,

and career education activities in the classroom.

RESOURCES: PCE K-10 Career Activity Guide

People in Products and Services Guide

Idea Book

1973 Audio-Visual Film Catalog

Ryan, C.W., Career Education Programs, Volume I, K-6

FIELD TRIPS

GOAL: Field trips with an emphasis on Career Awareness will be

taken by students at each grade level.

CONCEPTS: 1. Field trips are an important means of enabling students to have exposure to people in real life work situations.

2. Field trips may be taken by a small group or a large

group.

OBJECTIVES:

Through field trip experiences, the student will:

- a. observe the occupational diversity within the industry or business visited.
- b. observe and be able to identify jobs relating to people or things within the world of work.
- c. observe and be able to identify the health, safety, and grooming standards required by a variety of occupations.
- d. observe the dignity of work within a variety of occupational and economic roles.

(Career Awareness continued)

SPEAKERS

GOAL:

Speakers with a career emphasis will be used as a means for career awareness at each grade level.

CONCEPTS:

- 1. Speakers are a valuable resource in a career awareness program. Through an effective speaker program, students have the opportunity to interact directly with persons in various avenues of work.
- 2. Specific speakers should be used in individual classrooms to further explore interest shown by students.

OBJECTIVES:

By the end of the sixth grade students will:

- 1. become aware of jobs relating to people and things.
- 2. become aware of the health, safety, and grooming requirements of the world of work.
- 3. students will acknowledge that every human being, in every economic role, has human dignity and the right to the respect of himself and others.

K-6 SPEAKER'S GUIDE

- Indicate the company you work for, its purpose and how many jobs there are in the company.
 - a. Number of different jobs
 - b. Number employed in each job title
 - c. Kinds of work preformed
- 2. Employment Requirements
 - a. What are the educational and training requirements?
 - b. How long does it take to learn to do this kind of work?
 - c. How old must one be to get a job of this kind?
 - d. What are the physical requirements for the job?
- 3. Working conditions
 - a. Is it indoor or outdoor work?
 - b. Is the work seasonal?
 - c. What hours do you work?
 - d. What are the weekly or monthly earnings?
 - e. Is there any special clothing or equipment you wear?
 - f. How much vacation time?
- 4. Employer Employee Expectations
 - a. Dress and appearance
 - b. Responsibility and authority
 - c. Attitude and mutual respect
 - d. Interpersonal relationship

CAREER EXPLORATION

Project Career Exploration 7-10 is based upon the Area II Goal of Portland Public Schools which states:

Every learner shall, upon completion of the grade 7 through 10 portion of his public school education, have explored, through hands-on experiences, many jobs found in broad families of occupations to enable the learner to make an informed, though tentative, choice of a cluster based skill training program in which to participate beginning at grade 11.

- I. Goals for Career Exploration grades 7 through 10 that support the overall Area II Goal should be of sufficient scope and depth to enable each student to:
 - A. gather for his own use as much information about himself as possible -- his needs, goals, abilities, values, interests, attitudes, beliefs, and traditions.
 - B. learn to use resource materials and personnel for in-depth study of occupations.
 - C. evaluate himself as a future employee -- what factors about him might affect his getting, holding, and succeeding in a job.
 - D. recognize the inter-relationship of the life roles: vocational, leisure, family, and citizenship.
 - E. acknowledge that every human being, in every vocational role, has human dignity and the right to the respect of himself and others.
 - F. apply and extend the basic skills of reading, computation, composition, spelling, speaking and listening.

THE OUTCOMES LISTED BELOW ARE THE MINIMAL EXPECTANCIES FOR EACH GRADE LEVEL.

II. By the end of grade 7:

- A. Given a list of 15 job clusters and related occupations, students will be able to match the two with 60.7 accuracy.
- B. Given the list of 15 jobs, studenth will place those jobs according to the data, people, things classificiations with 80% accuracy.

(Career Exploration continued)

- C. The students will choose and research, independently or in groups, one area of career interest and write a report to be included in the student's file folder.
- D. The student will have at least one individually student planned on-site job observation using a written summary/check list to be included in the student's file folder.
- E. The student will identify, locate, and use information in three career education resources.
- F. The student will use the Job-O survey as a means of identifying individual areas of interest and their related occupations.
- G. Each student will demonstrate the safe use of common household handtools such as the hammer, pliers, screwdrivers, adjustable wrench, saw, can opener, and broom.
- H. The student will establish an individual file for maintaining career data throughout his school career.
- I. The student will have group guidance and personal counselling by a professional staff member to assist in educational planning and course selection, where available, for grade 8.
- J. The student will have applied for and received a Social Security card, and have recorded the number in his file folder.

III. By the end of grade 8:

- A. Using the self-rating sheet, the student will develop a profile of himself to determine his relationships to jobs that focus on data, people, things. The profile will be in the file folder.
- B. Using the USTES Interest Check List survey results, the student will research at least two areas of occupational interest and add these reports to his file folder.
- The student will have participated in at least one individually planned field trip to observe occupations of personal interest in the community using and filing in his folder the report form.
- D. The student will be able to list three of the major industries of greatest employment availability in Oregon. (Tool source: Manpower Resource of the State of Oregon 1972.)
 - E. The student will demonstrate ability to find specific occupational information in the <u>Occupational Outlook Handbook</u> for a given job title.

(Career Exploration continued)

- F. The student will list two health and safety practices and two grooming requirements for a given occupation. (Purpose: to have the student be aware of the decision making process as related to his personal life style and the world of work.)
- G. The student will have had group guidance and personal counselling by professional staff members to assist in educational planning and course selection for grade 9.

IV. By the end of grade 9 each student will:

- A. Demonstrate verbally or in writing his understanding of the relationship of a job to family, citizenship, and leisure time.
- B. Explore, through a variety of media, at least two businesses representing industries, to become aware of job opportunities.
- C. List at least ten of the Oregon clusters and at least five occupations which relate to each cluster.
- D. Locate and relate employment trends and projections to at least one occupation of his choice.
- E. Hear a minimum of five speakers from the community and record his reactions in his file folder.
- F. Identify and record in file folder a maximum of three tentative cluster choices based on instruction, experience, and guidance.
- G. Apply for and receive a work permit.

V. By the end of grade 10 each student will:

- A. Have had an opportunity to take and have interpreted to him an interest survey and an aptitude test. (Tool source: GATB and USTES Interest Check List.)
- B. Have used the CIS as a source of interest information.
- C. Have a minimum of eight hours of hands-on experience in a cluster of his choosing and will document this in his file folder.
- D. Consider the available career clusters and make a tentative cluster choice utilizing knowledge of himself -- his strengths and weaknesses, needs, values, abilities, and skills.
- E. Have on file a satisfactorily written resume including all information identified as important by a job placement specialist.
