ABSTRACT

The first University of Minnesota Work-In was conducted in 1971 in the belief that specially prepared and appealing materials would motivate students to study foreign languages longer. The preparation of culturally authentic materials was seen as a process of definition of objectives, selection of interesting activities and evaluation of learning provided. This format is followed by all University of Minnesota materials, in order to motivate students to study foreign languages as functional languages. The materials offered in this catalogue are not commercial, letter-perfect products, but were prepared by teachers for their own use and should be helpful to other teachers. Units are listed by language (French, Spanish and German), alphabetically according to the name of the unit. Following the title is an indication of the level with which the unit would work best, and a brief description, of the unit itself. Many contain tapescripts, but no slides or tapes are available, except in a few cases where indicated. Prices are noted, and an order blank is included. (CHK)

 * Documents acquired by ERIC include many informal unpublished *
 * materials not available from other sources. ERIC makes every effort *
 * to obtain the best copy available. Nevertheless, items of marginal *
 * reproducibility are often encountered and this affects the quality *
 * of the microfiche and hardcopy reproductions ERIC makes available *
 * via the ERIC Document Reproduction Service (EDRS). EDRS is not *
 * responsible for the quality of the original document. Reproductions *
 * supplied by EDRS are the best that can be made from the original. *

THE "WORK-IN" PROGRAMS:

The first University of Minnesota Work-In was conducted by Dr. Emma Birkmaier in 1971. She believed that students could be motivated to continue foreign-language study for a longer period of time if materials could be prepared that would be especially exciting and which would appeal to some of the special needs of teen-agers. The Work-In idea continued in another Minnesota-based program directed by Dr. Dale Lange in 1972. In 1973 the programs moved to Europe, where it was believed that through informal contact with the culture teachers could not only improve their own language skills and cultural understandings, but also experiment with new approaches to the teaching of culture in their own classrooms.

The preparation of culturally-authentic materials was seen as a process of definition of objectives, selection of interesting activities, and evaluation of learning provided. This is a basic format followed by all of the University of Minnesota materials. Some of the materials that resulted can be used in any kind of classroom from the traditionally-scheduled to the "personalized" program in which a student learns the language through the vehicle of his personal interests. The present catalogue of units is

presented in the hope that foreign languages can become functional languages, and that students can become excited language learners so that more will be motivated to continue for longer periods of language study.

PROCESS UPPERMOST

Persons who purchase and use the materials from this catalogue should realize that they are not purchasing commercial, letter-perfect materials. Rather, it was felt that these materials might be made available for teachers to use as models in preparing their own materials. While native-language consultants were used in every case, there are errors, and participants often typed their own materials. Your indulgence is therefore solicited as you examine and use these units in your classes.

The authors of the units would also be most interested in hearing your reactions to the materials they have prepared, and your suggestions for their improvement. We therefore hope you will take the moment it would take to fill in the questionnaire which you will receive with each unit and mail it back to us. In that manner units prepared in the future can reflect your suggestions so that they will be even more usable.

USING THE CATALOGUE

Units are listed by language, alphabetically according to the name of the unit. Following the title is an indication of the level which the author felt would work best with the unit, and

a brief description of the unit itself. Many units contain tape-
scripts, but no tapes or slides are available. In a few cases,
unit authors have indicated their willingness to reproduce slides
separately upon personal request; such units are indicated.

ORDERING UNITS:

We hope that you will order a copy of a unit rather than copies
for an entire class. Please use the order blank which appears at
the end of this catalogue. Orders must be accompanied by remittance
by check, money order, or school purchase order.

I. FRENCH

From 1973 to 1975 the French Work-Ins have been conducted in cooperation with the Centre de Linguistique Appliquée at Besançon, France. Participants have worked with a consultant from Besançon in ensuring the authenticity and accuracy of their materials, as much as possible. Each program had participants from all over the country; most were secondary teachers, although some college teachers were included.

- F-100 A la poste: combien? Barbara Goetz. The unit is intended for second-year students. It helps students master the French P.T.T. letter windows, select correct amounts of postage for letters, post cards, and aérogrammes, and figure out costs. All in French. 23 pages. \$3.25
- F-101 Allons au Festival d'Avignon. Patricia Deckas. For beginning classes (in English). The general goal of this unit is to give the beginning student some practical knowledge about arranging a three-day stay in Avignon. He will study the Syndicat d'Initiative, choose hotels from a list given and find it on a map; choose restaurants and cafés from lists; choosing his favorite "spectacles", including a pétanque tournament; map a walking tour; and plan expenses involved in his three-day stay. Culminates in role-playing activities. 22 pages. \$3.25

- F-102 Bonnes vacances! Mary Mazza. Intermediate--end of second semester. The student learns about clothing and equipment needed for skiing as well as movements and positions used in skiing. Copiously illustrated, with exercises. 39 pages. \$5.50
- F-103 Bretagne. Carol Leitner. Beginning junior high; also ideal for FLES classes. The student becomes familiar with Brittany; he will read and understand a simple story about life on a small farm in Brittany. Includes construction of a fishing boat and clothespin dolls in costume. 25 pages. \$3.25
- F-104 C'est aux P.T.T. qu'il faut aller pour télégraphier! ou ma première aventure chez la fleuriste.... Pamela J. Albert. Intermediate college or very advanced high-school classes. This unit helps the student learn to send a telegram from France to the U.S.; the second section deals with sending flowers by wire. Students may work either individually or in groups in the unit, primarily a reading lesson; he writes a telegram as well. 18 pages. \$3.25
- F-105 Comment bosser en France, or The Innocents Abroad. Chris Dukinfield. This unit, primarily in English, is directed toward the high-school student who might be interested in studying in France. The student plans activities, and works with a budget until he understands the monetary system; he also becomes aware of aspects of "culture shock" he might encounter in France. 41 pages. \$5.50
- F-106 Comment faire un croque-monsieur? Linda Crawford. End of first year or second-year classes. The student learns in this mini-unit how to make an authentic French sandwich and to describe how to make it. It can be used by individuals or groups. Includes tapescript. 12 pages. \$2.00
- F-107 Comment prendre l'autobus à Besançon? Linda Crawford. Intermediate. The student will gain knowledge about how the bus system in a medium-sized city in France operates; he will plan itineraries and schedules and, if he uses slides (available separately from the author), he will get the flavor of actually taking the bus ride. For use by individuals or groups. Includes tapescript. 23 pages. \$3.25
- F-108 Comment téléphoner à Besançon? Linda Crawford. Beginning; in English, the unit is also suitable for exploratory language or culture courses. Through directed reading, the student successfully handles unedited French realia (a phone directory). Students learn to ask specific questions to focus on and acquire information, seeking phone numbers and following directions for completing a phone call. The unit can be used individually or in a small group. Slides may be ordered

directly from the author. Includes tapescript. 32 pages.
\$4.50

- F-109 Comment voyager de Z à X, or You Can't Get There from Here. Chris Dukinfield. Beginning, during first semester of French study. The student learns to recognize a limited number of words dealing with bus travel in France, to read a bus timetable, to translate "official" time into "conversational" time, and to write up a bus ticket from charts and other data, acting as a ticket agent. Many illustrations! 24 pages. \$3.25
- F-110 Franc--ly speaking.... Patricia Barry. Beginning French classes, first semester. Because the unit is in English, it is suitable for "culture classes" or exploratory language classes as well. The student will work with the French monetary system; he will purchase goods in a department store from a given sum of money, translate values into American currency, figure change, etc. 30 pages. \$4.50
- F-111 Jeanne d'Arc. Doris J. Simons. This unit, entirely in English, can be used at any level for motivational purposes. Its goal are to acquaint the student with the story of Jeanne d'Arc in a historical context and to give him some basic facts about the geography of northern France. He will complete map exercises and other exercises designed to help him properly sequence events in the life of Saint Joan. 44 pages. \$5.50
- F-112 Je suis un grand colis en France et je vais aux Etats-Unis--- mais---comment? Patricia Barry. Intended for the second semester of beginning classes, the goal of this unit is to help students understand the process of mailing packages from France. The student will work with conversion to kilograms and centimeters, as well as learn basic dialogues necessary to send a package. 21 pages. \$3.25
- F-113 Jouons aux boules. Patricia Deckas. Beginning. A motivational mini-lesson in which students learn to play the game while reading an illustrated text and solving scoring problems. Culminates in actual games using real or makeshift (croquet balls) equipment. Completely in English except for boules vocabulary, which students learn while playing. 22 pages. \$3.25

- F-114 La vie dans un château-fort. Magnolia Williams. Intended for the first year of junior high school, the general goal of this unit is to introduce students to some aspects of life in France during the Middle Ages. He studies parts of the château-fort, the roles of some of the personages of the time, including servants. Many illustrations. 46 pages. \$6.50
- F-115 Le bébé en France. David Westenskow. Second-year college; could be used by very advanced high-school students. This unit introduces the student to selected aspects of child care in France--food, Government programs, vehicles for babies. Three separate reading sections, with vocabulary and skill-building exercises. 21 pages. \$3.25
- F-116 Le Château de Moncley. Sara Boichot. Suitable for all levels, the text is in English. The unit consists of two basic sections: (1) a slide program exploring an inhabited 18th-century château near Besançon, for which slides are available directly from the author; (2) "Un petit dictionnaire de l'Héraldique," in which the student learns about family coats of arms and design his own. The purpose of the unit is to lead the student to an awareness of history as it is experienced on a personal level by a château's inhabitants. The unit is designed to be used either by individuals or by an entire class. 31 pages. \$4.50
- F-117 L'écriture française. Judy Albani. Beginning level. The goal of this simple English unit is to introduce students to the French writing style and to allow them opportunity to practice using French number and manuscript systems.
