ABSTRACT

The instructor's guide is part of a series designed to help project directors in the management of Alcohol Safety Action Projects (ASAP) through management workshops. Workshops will discuss certain phases of the ASAP including National Highway Traffic Safety Administration (NHTSA) organizational and supportive efforts, countermeasures, administration, and evaluation projects. A checklist for conducting the workshop is provided in the form of suggestions for activities before, during, and after the workshop. Five units for workshop training suggest teaching units concerned with the following areas: NHTSA countermeasures programs, countermeasures, administrative support, evaluation, and workshop summary. Each unit provides outlined information on the type of presentation, time allotted, training aids needed, references, objective, and suggested instructor aids. A summary of responses from 25 participants in a previous ASAP workshop is included. (EC)

SUGGESTED CONTENT

Section I — Plan for the Workshop

Research has shown that excessive drinking is a causal factor in at least half of all fatal accidents. While this relationship between excessive use of alcohol and driving is well documented, there has been relatively little research on the effectiveness of countermeasures to combat the problem. The alcohol safety countermeasures program of the National Highway Traffic Safety Administration focuses on the use of specific countermeasures and the evaluation of their effectiveness in community action projects.

During the course of the workshop certain phases of the Alcohol Safety Action Program will be dealt with. These would include the NHTSA organizational and supportive efforts, countermeasures used, administrative considerations and the evaluation of the projects. Although there is a considerable body of background knowledge needed by ASAP leaders to thoroughly understand and to be able to explain the countermeasure program, there is also a lack of specific answers concerning which countermeasures in which specific combinations would be effective. The workshop should, therefore, emphasize the exchange of ideas and thoughts on the projects so as to tap the resources of varied management experiences and know-how, which the participants have gained in their projects, and which they bring to the workshop.

The format of the workshop will encourage discussion led by several different workshop members who have pertinent experience and knowledge in subject areas, particularly current developments in these areas. It is recommended that instructors for the workshop be individuals who are actually responsible for, or actively involved as general supervisors or managers of, particular aspects of the ASAP program. In addition to serving usefully as an instructor resource, they will also learn a great deal more about the program while serving in this capacity. It has also been found that, although this type of instructor may be lacking in teaching fundamentals, they more than make up for this lack by the

knowledge and practical experience of the alcohol safety action program which they introduce into the workshop proceedings. Acceptance of the instructor by the group is certainly enhanced when the attendees are aware that the instructor has done the things that he is talking about.

Attendees should be required to read the *Handbook for Project Directors, Alcohol Safety Action Projects*, and the *ASAP Evaluation Manual*, prior to the workshop.

Section II – Administrative Instructions

The development and conduct of a management workshop for alcohol safety action project leaders requires planning and forethought. It is, therefore, essential that an individual be specifically detailed to handle the many details which need to be accomplished before, during, and after the workshop.

The individual assigned to develop and conduct a workshop would need to develop some type of checklist to adequately monitor the details, depending of course upon the scope, size, time constraints, and other factors related to the workshop. The checklist used might include such items as:

Before the Workshop

- Determine time and place for workshop
- Notify workshop leaders and attendees
- Secure biographical information about workshop leaders and attendees
- Insure sufficient time for notification
- Assign topics and information desired from workshop leaders
- Prepare handouts when needed, having extra copies available
- Obtain outline of leaders' presentations
- Determine leaders' needs for training aids and equipment
- Insure arrangements made for leaders to include financial matters
- Provide attendees with all information known about workshop:
 - Schedules
 - Room accommodations
 - Meal arrangements
 - Costs
 - Travel arrangements
 - Location
 - Times and places for sessions
 - Limitations on dependents
 - Any other conditions

Obtain name tags and table signs for attendees
Determine costs for workshop session accommodations
Secure services needed for workshop:

Accommodations

Refreshments

Microphones, projector, viewgraph, screen

Table and room arrangements appropriate to session projectors

Training aids—film, handouts, slides, blackboard

Communication, extension cords, etc.

Operators of equipment

Clerical assistance, typewriter

Staff assistance for arrangements

Prepare registration card

Secure workshop clerical assistance

Insure training aids set up ahead of time for session

Insure availability of copy reproduction capability

Have extra supplies available—paper, pencils, paper clips, stapler, etc.

Provide lists of workshop participants, positions held, and his community

Prepare workshop evaluation and critique forms

Make arrangements to record sessions

Prepare information brochure for attendees to include schedule, paper, pencils,
information materials

During the Workshop

Supervise clerical staff in preparation of registration cards, greeting and hand out of
information brochures.

Set up tables and arrange rooms for sessions.

Make arrangements for notification of telephone calls received.

Arrange master of ceremonies for program.

Maintain reasonable complicity with time schedule.

Provide means of notifying attendees of changes in program.

Post room schedules conspicuously.

Coordinate all schedule matters with hotel staff.

Meet and greet leaders arriving for day or single sessions.

Prepare copies of materials as required by workshop leaders.

Insure that training aids and equipment are available when needed.

Assist hotel staff in providing most desirable room temperature.

Insure coffee is provided for coffee breaks on a timely basis.

Advise hotel staff of any schedule changes affecting meal or coffee break times.

Record all sessions unless "off the record."

Provide clerical assistance to type and prepare materials needed by workshop leaders.

Distribute new materials as available.

Insure evaluation and critique forms completed by attendees.

Make available transportation information and schedules.

After the Workshop

Collect and secure equipment and materials

Check with hotel staff on any problems before departure.

Prepare summary of workshop evaluation critique.

Assemble proceedings of workshop and distribute to attendees.

Prepare and send letters of appreciation to workshop leaders.

Arrange for payments of fees required for workshop services—hotel, consultants, other costs.

Maintain contact with hotel staff until all workshop matters are resolved.

 - 1-9 System Approach and Detailed Plan

Unit 2 - Countermeasures

- A. Training Objective: Attendee must know the essential characteristics of specific countermeasures in the Alcohol Safety Action Project.
- B. Instructional Unit Groupings
 - 2-1 Law Enforcement Countermeasures
 - 2-2 Judicial and Legislative Countermeasures
 - 2-3 Public Education Countermeasures
 - 2-4 Rehabilitation Countermeasures
 - 2-5 Licensing and Registration Countermeasures

Unit 3 - Administrative Support

- A. Training Objective: Attendee must know and be able to apply NHTSA administrative, contracting and fiscal management procedures in the ASAP.
- B. Instructional Unit Groupings
 - 3-1 Contract Technical Manager (CTM)
 - 3-2 Contract Administration
 - 3-3 Financial Administration

Unit 4 - Evaluation

- A. Training Objective: Attendee must know evaluative criteria and NHTSA evaluative data requirements.
- B. Instructional Unit Groupings
 - 4-1 Evaluation Aspects of the Detailed Plan
 - 4-2 Action and Evaluation
 - 4-3 Roadside and Household Surveys

Unit 5 - Workshop Summary

- A. Training Objective: Attendee must know the goals and objectives of the ASAP program.
- B. Instructional Unit Groupings
 - 5-1 Evaluation and Critique
 - 5-2 Workshop Summary

Section IV -- Workshop Outlines - Instructional Unit Groupings

An outline is shown for each instructional unit grouping of the five workshop training units. The outline contains the subject of the unit, time allotted, the type of presentation, training aids to be used, references, objective and instructor aid provided.

The subject, speaker, and page number of the *Proceedings of Management Workshop for Alcohol Safety Action Project Leaders* is cited under Instructor Aids for each instructional unit grouping of the instructor guides. These will be found in Section V - Workshop Materials.
