TITLE Transfer Manual: How to Transfer to a Four-Year College.  
INSTITUTION Montgomery Coll., Rockville, Md.  
PUB DATE 76  
NOTE 99p.  
EDRS PRICE MF-\$0.83 HC-\$4.67 Plus Postage.  
DESCRIPTORS Community Colleges; Higher Education; \*Junior Colleges; \*Junior College Students; \*Manuals; Resource Guides; Student Financial Aid; \*Transfer Programs; \*Transfer Students

ABSTRACT

This manual is designed to aid Montgomery Community College students who wish to transfer or who are considering transfer to four-year colleges or universities. It provides assistance to students in planning a four-year program through a general discussion of transfer and a detailed presentation of transfer procedures. Study abroad is briefly outlined. Information regarding general and specialized accreditation is provided followed by a list of useful transfer reference books, manuals, and directories. Available types of financial aid are extensively reviewed, including federal grants, state and professional school scholarships, federal and state loan programs, college work-study, and NROTC scholarships. The remainder of the manual provides transfer information and Quick Reference Transfer Fact Sheets for 27 colleges and universities in Maryland, Virginia, and the District of Columbia. Major programs, general education requirements, and admissions procedures for these institutions are listed. (JDS)

## OVERVIEW OF PLANNING A 4-YEAR DEGREE PROGRAM

You should consider the following as examples of a general pattern found in many colleges and universities. (See "How to Transfer" - pages 4, 5 and 6.)

120-128 (approximate) semester hours = a B.A. or B.S. degree: usually divided into several areas of credit ("general education," major, language, electives) as shown below:

- "General Education" or "core" requirements (typical patterns found in three different kinds of 4-year colleges):

	<u>Plan I</u>		<u>Plan II</u>	<u>Plan III</u>
English	6	Sem. hrs.	1. Math - Science	English
History	6	" "		Proficiency
Social Science	6	" "	2. Behavioral and Social	
Science	6-8	" "	Sciences	30-35 hours
Mathematics	3	" "		in transfer
Humanities	3	" "	3. Humanities and Arts	courses
	33-35 (Approx.)		30 hours plus at least	
Physical Ed.	2-4		3-6 hours English	
(not required in some coll.)				

- Major Area (a minor may also be included)  
40-50 (Approx.)

- Foreign Language

12

(This may often be fulfilled in humaniti and/or by prior completion in high school for certain colleges; the language requirement varies greatly from college to college, and catalogs must be consulted.)

- Electives

35-40

Total: 120-128 (Approx.)

## HELPFUL SUGGESTIONS ON PLANNING

- There are many specific exceptions especially in "electives." Therefore, it is imperative that you consult the transfer adviser or your counselor.
- Planning for a 4-year degree program is a logical process. If it seems complicated, this is because colleges today afford a great deal of freedom in developing programs to fit individual needs and aspirations. You may forfeit this flexibility if you do not take an active interest in planning your program with professional assistance here at Montgomery College.

3. One way to get an out-of-state experience (to be sure you really wish to go to college out-of-state) is to attend a summer session at an out-of-state college, perhaps at the end of your freshman year at Montgomery College.
4. Consult catalogs of 4-year colleges to which you may wish to transfer. Do this early at Montgomery College, in your freshman year if possible.
5. Students completing an associate of arts degree in a career program who wish to go on for a 4-year degree should get professional assistance in planning for their 4-year degree.

#### RESPONSIBILITY

We urge each student planning to transfer to obtain a copy of the catalog of the college to which he plans to transfer, and that he study the requirements and suggested courses outlined in that catalog. This information should be discussed with your adviser as you plan your MC program of study before each registration period.

We urge each student to consult the transfer adviser or your counselor before submitting transfer applications.

#### AM I READY TO TRANSFER?

This is probably the most difficult question the student can ask of himself and his academic adviser. A few comments on this question can help you to clarify your thinking in this matter.

Transfer institutions universally recommend that you earn your Associate in Arts degree before you transfer. There are several reasons for this.

1. The state colleges in Maryland have committed themselves to give preference in admission to those who have graduated from a community college in Maryland.
2. Both national and local studies have shown that, statistically, a community or junior college graduate has a better chance of completing his four-year college program than one who transfers without having graduated.
3. Some colleges make scholarships immediately available to community or junior college graduates, but require transfer students without their degree to complete from one semester to one year before applying for a scholarship.

However, there are some highly specialized curricula such as Agriculture, Home Economics, Architecture, four-year Nursing, etc., which may require the student to transfer after only one year at MC in order to take the specialized courses not available here.

Instances of this situation are not common, however, because most college programs are essentially general during the first two years and become specialized in the junior and senior years.

What about your average? While it is true that some colleges will accept transfer students with a bare C average (2.0), the projected chances of such students earning a bachelor's degree are not encouraging. We suggest 2.5 as a firm and realistic transfer average. This recommendation is based on research which indicates that the usual drop in one's average after transfer is about 0.3 to 0.4 but is 0.5 or more for those who transfer to a major state university. Therefore, having an average of 2.5 allows one some margin for any drop in average after transfer and at the same time the probability of maintaining a C average.

#### GENERAL STATEMENTS ON TRANSFER: CREDITS, AVERAGES, AND EMPLOYMENT

1. Transfer of credit is determined by two criteria: A) Did you earn a C or better in the course? D's earned in non-major courses transfer to University of Maryland and Maryland State Colleges if you have completed an A.A. degree or 56 hours (2.0 average). B) Does this course fit into the curriculum you will follow at the transfer institution? (Example: switching from pre-med to business administration at the end of the sophomore year could involve significant loss of credit.)
2. Only credits transfer; averages never do. For example, if you have 60 transferable hours with an MC average of 2.5, you will be awarded 60 hours of advanced standing at the transfer institution, but you will start there with an average of 0.00. Your scholastic standing at the end of your first semester after transfer will depend only upon the average you have earned there.
3. Plan to take fewer hours than usual during your first semester after transfer. Experience, as well as national studies, has shown that there is some "transfer shock" during the first semester at the transfer institution. This is a period of reorientation during which you will have to make adjustments to the new campus, teaching policies, grading systems, developing new friendships, etc. Remember, whether you can stay in college depends a great deal on how well you do during that crucial first semester. Twelve to fourteen (12-14) hours constitute full-time status almost everywhere. Nine (9) hours are currently considered full-time at the University of Maryland.

4. Do not carry too much part-time employment during your first semester. If you work your average may drop and you may not be eligible to return to college after your first semester.
5. Performance of community college transfers at four-year colleges and universities: A) The research indicates that in general transfer students usually do well when they transfer to four-year colleges. B) The record of the students who transferred with junior standing was much better than that of students who transferred with lower class standing, in terms of both persistence and on-time completion of program. C) Most junior college students experienced some drop in grades when they transferred, particularly in their first term. After the first semester transfer shock most students are able to recover and do as well as native students at their same level.

#### HOW TO TRANSFER -- Brief Outline

##### Think About:

1. Selecting a college major - does it help me toward my career goals?  
(See Occupational Outlook Handbook)
2. Selecting a college - geographical and other considerations
  - A. University of Maryland (College Park)
    - Preparation in many professional areas, especially in business, engineering, education, architecture, agriculture, at moderate cost -- also liberal arts and pre-professional (law, medicine, medical technology)
    - Very large campus (34,000 students)
    - Courses within majors that transfer -- available in detail in MC transfer office (Articulated Programs)
  - B. Other State Colleges that are smaller than University of Maryland (College Park)
    - University of Maryland - Baltimore Campus (UMBC)
    - University of Maryland - Eastern Shore (UMES)
    - State Colleges: Bowie, Coppin, Frostburg, Morgan, St. Mary's, Salisbury, Towson, University of Baltimore
  - C. D.C. area public colleges: Federal City College  
George Mason University  
D. C. Teacher's College

- D. D.C. area private universities and colleges: American University, Catholic University, Columbia Union College, Howard University, Georgetown University, George Washington University.
  - E. Out-of-state: public and private (mid-south and mid-west: lowest tuition) - many 4-year college representatives visit MC every year (especially small colleges)
3. Computing college financing (see pages 10 to 15 for financial aid information)

Consult Resources at MC

1. Transfer Reference Books and Manuals (see page 9): such as Lovejoy's College Guide, College Handbook
  - majors
  - campus atmosphere
  - number of transfer students accepted in recent years
  - accreditation
2. Catalogs (Student Services Building at Rockville; Library at Takoma Park)
  - accreditation, transfer requirements, fees, graduation requirements, curricula, courses offered, faculty-student ratio-semester or quarter system
3. Quick Reference Transfer Fact Sheets (on several hundred colleges) in the transfer office of Student Services.
  - most current summary of transfer requirements
  - required grade point averages
  - other transfer policies
4. College View-Deck (Preliminary selection by categories - Student Services)
5. Transfer Adviser or your counselor - make an appointment to discuss:
  - A. "Think About" as outlined previously
  - B. How your career objectives seem to correlate with transfer college choice
  - C. Transferability of courses - your personal communication with Admission Offices or particular departments at transfer college (if necessary)
  - D. Probability of your chances of transfer

## E. Further review of references

6. Visits to MC campuses by admissions representatives of 4-year colleges and universities - especially valuable if you seek a small college

Submit All Required Documents

1. The Admission Application - check with college for deadline and fee
2. Financial Aid Forms - application deadline  
- need statement deadline (PCS or ACT)
3. Housing Application (if needed)
4. Montgomery College Transcript (see our Records Office)
5. High School Transcripts (if needed)
6. Submission of any required test scores (e.g. SAT or ACT)

## DETAILED TRANSFER PROCEDURES

1. Arrange a conference with either the transfer adviser or your counselor. By discussing your plans with these professional staff members who know you best, you should be able to establish the following criteria for selecting a transfer institution.
  - A. career objectives
  - B. tentative major
  - C. regional and professional accreditation
  - D. tuition, room and board expenses
  - E. availability of financial aid
  - F. scholastic standards required for transfer
  - G. geographical location
  - H. size of enrollment
  - I. male, female, co-ed
  - J. public or private (with or without religious affiliation)
2. If it appears that you may meet the qualifications for transfer to specific colleges, you can obtain further information about these institutions in the Transfer Library or Campus Library by referring to both the collection of standard college reference manuals and the several hundred current catalogs which are maintained for your use.
3. After you have decided on the three or four colleges to which you will apply, it is important that you write for application forms. (Admission applications for University of Maryland, Maryland State colleges and D.C. area colleges are available at the MC Transfer Office.) We recommend that you file your application as early as

possible. Some colleges suggest that this be done six months before the time you wish to transfer. This is often crucial for those who seek financial aid or who wish to live on campus. Housing accommodations are assigned either according to the date of original application or of admission. Lack of housing is frequently a reason for rejection for women who do not apply early. If at all possible, it is wise to visit the campus before sending in your tuition or room deposit. Be sure to write for an appointment beforehand if you wish to discuss admissions, financial aid, or transfer of credit while visiting the campus.

4. Once you have selected the colleges to which you will apply, check to see if specific tests are required for admission. If so, arrange to have test scores sent if you have already taken the test, or register to take the test if you have not yet done so.

#### STUDY ABROAD

Superior students with adequate financial resources may wish to consider the possibility of spending some time studying at a foreign university. An increasingly large number of American colleges are sponsoring a year abroad program, which typically takes place during the junior year. Chapman College in California offers a semester world cruise program in what it terms World Campus Afloat.

These two programs offer little difficulty in the matter of accreditation, since they are an integral part of the college's program. More risky, however, is direct matriculation into a foreign university by the student as an individual. Certain foreign universities, e.g., the American College in Switzerland and Schiller University in Germany, may not have its credits recognized by American colleges, while others, e.g., University College of the University of Maryland in Munich, Spain or Tokyo, may present little or no difficulty in the transfer of credit earned. The student interested in study at a foreign university is advised to consult the publications available at the MC Library, such as Whole World Handbook (Six Continents on a Student Budget - Travel - Study - Work), Handbook on International Study for U. S. Nationals, and to contact the foreign student adviser or registrar's office at the American college where he hopes to graduate before matriculating at a foreign university.

You may wish to consult with the educational officer of the Embassy of the specific country in which you tentatively plan to attend college.

## ACCREDITATION

1. Accreditation is a process of recognizing those educational institutions and various professional or specialized programs within those institutions whose performance and integrity entitle them to the confidence of the educational community and the public.
2. General accreditation of institutions is awarded by the six regional associations of schools and colleges which together cover the United States and its possessions. These regional associations accredit, by admission to membership, total institutions only - not parts of them.
3. Specialized accreditation of professional schools and programs is granted by a number of national organizations, each representing a single professional area such as engineering, architecture, law, medicine, or social work. Their emphasis, therefore, is on assuring that the purposes and accomplishments of professional programs meet the needs of society and of the profession. Specialized accreditation is limited to the 37 professional fields whose accrediting agencies are recognized by the Council on Postsecondary Accreditation.
4. Transfer students planning to complete a bachelor's degree in education should be aware of the fact that each state department of education establishes its own requirements for teacher certification. It is therefore advisable to investigate the certification status of the particular program within a college's total teacher education curriculum that you are considering with respect to certification in each of the states in which you would consider employment.
5. The Maryland State Department of Education, Division of Certification and Accreditation, P. O. Box 8717, Baltimore - Washington International Airport, Baltimore, Maryland 21240, can provide you with additional information concerning teacher certification.

## USEFUL TRANSFER REFERENCE BOOKS, MANUALS, AND DIRECTORIES

Available in Transfer Library or in MC Library

1. Individual College Catalogs
2. Lovejoy's Guides: College Guide; Career and Vocational School Guide
3. College View-Deck  
Chronicle Press
4. Guide to Four-Year College Majors  
Chronicle Guidance Publications, Inc.
5. The College Handbook  
College Entrance Exam. Board
6. Comparative Guide to American Colleges  
Cass & Birnbaum (revised annually)
7. Accredited Institutions of Higher Education  
American Council on Education
8. Barron's Handbook of College Transfer Information
9. Earned Degrees Conferred  
U. S. Office of Education
10. Occupational Outlook Handbook  
U. S. Department of Labor
11. The College Blue Books  
CCM Information Corporation
12. Whole World Handbook  
(Six Continents on a Student Budget - Travel - Study - Work)  
Council on International Educational Exchange
13. Handbook on International Study for U. S. Nationals  
Institute of International Education

## FINANCIAL AID PROGRAMS

## WHAT IS FINANCIAL AID?

Financial aid is any grant, scholarship, loan or paid employment offered for the express purpose of helping a student meet educationally related expenses. Such aid is usually provided by or through federal and state agencies, foundations, corporations, and colleges and universities. Grants and scholarships are regarded as "gift" assistance and need not be repaid, although they may carry certain provisions that must be adhered to. Loans are usually offered at low interest rates, and can be repaid over an extended period after the student leaves the institution. Where aid is offered in the form of a job, the student is paid an hourly rate for work actually performed.

The amounts and types of financial aid that a student receives are determined through federal, state, and local guidelines and offered to students in combinations of "packages" designed to fit the applicant's financial need.

GRANTS

## BASIC EDUCATIONAL OPPORTUNITY GRANTS (BEOG)

Basic Grants make funds available to eligible students attending approved colleges, community/junior colleges, vocational schools, technical schools, hospital schools of nursing, and other eligible post-secondary<sup>1</sup> institutions.

To apply for a Basic Grant, the student must complete a form called "Application for Determination of Basic Grant Eligibility." Copies of the application are available from postsecondary educational institutions, high schools, public libraries, Talent Search and Upward Bound projects, or by writing to BEOG, Box 2468, Washington, D. C. 20013.

The completed form should be sent to BEOG, Box 2264, Washington, D.C. 20013. Within 4 weeks, the student will receive a "Student Eligibility report" notifying the student of his eligibility status. This report may be submitted to the school which will calculate the amount of the Basic Grant the student is eligible to receive. The amount of a student's award will be based on the student's eligibility index, the cost of attendance at his school, and a payment schedule issued to all eligible educational institutions by the U. S. Office of Education.

Students may send copies of their notification to more than one school. (Note: Only send original to the college of your final choice. Send xerox copies to all others.)

<sup>1</sup>Postsecondary refers to approved colleges, business, trade and technical schools beyond the high school level.

#### SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)

The SEOG is for students of exceptional financial need who without the grant would be unable to continue their education.

Students are eligible to apply if they are enrolled at least half-time as an undergraduate or vocational student in an educational institution participating in the program. Graduate students are not eligible.

If the student receives an SEOG, it cannot be less than \$200 or more than \$1500 a year. Normally, an SEOG may be received for up to four years. However, the grant may be received for five years when the course of study requires the extra time. The total that may be awarded is \$4000 for a four year course of study or \$5000 for a five year course.

If the student is selected for an SEOG, the educational institution must provide the student with additional financial assistance at least equal to the amount of the grant.

Application is made through the institution in which the student is interested in attending.

#### FEDERAL HEALTH PROFESSIONS SCHOLARSHIP PROGRAM

Health Professions Scholarship Program assists students having exceptional financial need to undertake the course of study required to become a physician, dentist, osteopath, optometrist, pharmacist, podiatrist, or veterinarian.

Funds are allocated to accredited schools of medicine which are located in the U.S.A. and Puerto Rico, and which participate in the student scholarship program. The maximum amount you may receive for an academic year is \$3500, or the amount of your financial need, whichever is the lesser.

You should contact the Director of Student Financial Aid at the school where you intend to apply for admission or where you are now enrolled. If you qualify, the school will provide you with an application.

#### LAW ENFORCEMENT EDUCATION PROGRAMS (LEEP)

These grants may be provided to qualified applicants for tuition and fees not exceeding \$300 per academic semester for full- or part-time enrollment in a degree or certificate program in areas directly related to law enforcement. Beneficiaries must be full-time employees of a publicly funded law enforcement agency and must agree to remain in the service of the employing agency for a period of two years following completion of a study funded by grant.

#### SCHOLARSHIPS

##### GENERAL STATE SCHOLARSHIPS

Any Maryland high school senior, or graduate of prior years, is

eligible to compete for a General State scholarship. A candidate already attending college who has completed at least one academic year and who is in good academic standing may be awarded a General State scholarship without having to take the qualifying examination.

Each county and each legislative district of Baltimore City is allocated a percentage of the total General Scholarship funds based on the number of Delegates it sends to the Maryland General Assembly.

Awards are made by the State Scholarship Board based upon the student's scores on the College Entrance Examination Board Scholastic Aptitude Test (SAT) and demonstrated financial need. Scores earned on the American College Testing (ACT) examination are acceptable for students who have not taken the SAT.

Each scholarship unit has a value of \$100. No recipient may be granted more than 15 units (\$1500) or less than 2 units (\$200) per year. The stipend may be applied to the costs of tuition, mandatory fees, and/or room and board.

Eligible institutions are those degree-granting institutions of higher education and junior and community colleges within the State of Maryland whose curriculums are approved by the State Department of Education.

Each scholarship recipient is required to: (1) be a legal resident of the county or Baltimore City legislative district from which he expects to receive a scholarship award; (2) have a definite financial need; and, (3) be accepted for admission as a full-time student (minimum 12 semester hours) in one of the eligible institutions.

A student who wishes to be considered for a General State Scholarship must file an application card AND a Parents' Confidential Statement (PCS) with Educational Testing Service, Princeton, New Jersey 08540 NO LATER than December 1 of the year prior to award. Forms may be obtained from any high school or college in the State, or from the State Scholarship Board, 2100 Guilford Ave., Baltimore, Maryland 21218.

#### HOUSE OF DELEGATES SCHOLARSHIPS

Each member of the House of Delegates may appoint two (2) students from his district, selected on any basis, who shall be educated free of charge for tuition at the University of Maryland, any Maryland State College, St. Mary's College of Maryland, or any public community college within the State.

However, at the discretion of the Delegates, these two (2) scholarships may be divided into equal two-year scholarships and four (4) students may be appointed to two-year scholarships, or one student may be given a four-year award and two additional students may receive two-year scholarships. These scholarships may also be used on a part-time basis (minimum 6 semester hours).

Application is made directly to your district State Delegate.

#### SENATORIAL SCHOLARSHIPS

Senatorial scholarships are based on student's scores on the Scholastic Aptitude Tests, or the ACT and the Senator is required to con-

sider financial need. Each State Senator has an annual quota of one hundred forty-five scholarship units (\$100 ea.) which may be awarded to residents of his Senatorial District. Maximum award is \$1500 per year per student. Scholarship candidates who have already completed at least one academic year of college in good standing do not have to take the SAT or the ACT. Application is made in the same manner as for General State Scholarships.

In addition, a Senatorial scholarship candidate must file a "special" Senatorial application with his State Senator. The required forms may be obtained from any high school counselor or college in the State, or from the State Scholarship Board.

#### MEDICAL SCHOLARSHIPS

The State of Maryland has authorized a number of scholarships to the School of Medicine of the University of Maryland for the courses of study leading to the degree of Doctor of Medicine.

These scholarships may be awarded only to persons who: (1) have been residents of Maryland for at least five years preceeding the date of award; (2) have received or will receive in the year of award a bachelor's degree from an accredited college; (3) have been admitted to the School of Medicine of the University of Maryland; (4) have definite financial need; and, (5) give bond that they will engage in the general practice of medicine for three (3) years in an area of need in this State. The area of need shall be determined by the State Department of Health in consultation with the Medical and Chirurgical Faculty of Maryland.

Ten scholarships are awarded each year. Awards are made by the State Scholarship Board. Each scholarship has a value of \$1500 per year and may be held for four years.

Application for a Medical scholarship should be made through the State Scholarship Board or the University of Maryland School of Medicine.

#### PROFESSIONAL SCHOOL SCHOLARSHIPS

Proceeds from a fee for special motor vehicle license plates are to be used for scholarships in the professional schools of medicine, dentistry, law, nursing, and pharmacy.

Any student who has been a resident of this State for three years preceeding the date of award and who has been admitted as a full-time student to one of the specified professional schools may apply for a scholarship.

The number of awards will be determined by the amount of money paid into a special fund for the use of these scholarships. Awards are made by the State Scholarship Board on the basis of the demonstrated financial need of the applicant.

Each scholarship has a value of \$200-\$1000 per year. The money is paid to the eligible institution.

Contingent upon the amount of money paid into the special fund, one-year scholarship renewals may be granted. However, no scholarship recipient may hold an award for more than four academic years.

Eligible institutions are those degree-granting institutions of higher education in this State which have established schools in the specified professional areas.

Application for Professional Scholarships may be obtained from the Professional School of the State Scholarship Board.

#### LOANS

##### NATIONAL DIRECT STUDENT LOAN (NDSL) PROGRAM

The NDSL program is for students who are enrolled at least half-time in a participating postsecondary institution and who need a loan to meet their educational expenses.

They may borrow a total of: (a) \$2,500 if enrolled in a vocational program or if they have completed less than two years of a program leading to a bachelor's degree; (b) \$5,000 if they are an undergraduate student who has already completed 2 years of study toward a bachelor's degree. (This total include: any amount borrowed under NDSL for undergraduate study.)

Repayment begins 9 months after graduation or leaving school for other reasons. The student may be allowed up to 10 years to pay back the loan. During the repayment period 3% interest will be charged on the unpaid balance of the loan principal.

No payments are required for up to three years while serving in the Armed Forces, Peace Corps, or VISTA.

Application is made through the institution the student is interested in attending.

##### MARYLAND HIGHER EDUCATION LOAN CORPORATION (MHELC)

MHELC will assist qualified undergraduate students to borrow up to \$1,500 a year from participating lending institutions. The top on graduate students is \$2,000 per year. MHELC uses the facilities of United Student Aid Funds, Inc., and your hometown lending institution. You must be a Maryland resident and have been accepted for enrollment or be already enrolled in good standing.

Students pay back the loan after they finish school, beginning ten months after graduation. The maximum interest is 7%. If you qualify the Federal Government pays the interim interest while you are in school.

The Federal Government will pay the full interest on eligible loans, during the period (not to exceed three (3) years) when a borrower enters service in the Armed Forces, Peace Corps, or VISTA.

Application forms are available at your school, banks, or MHELC, 2100 Guilford Avenue, Baltimore 21218. These loans may be used to help you attend approved colleges, business, trade and technical schools anywhere in the United States and many institutions in foreign countries.

FEDERAL HEALTH PROFESSIONS  
STUDENT LOAN PROGRAM

This is a long-term, low-interest loan to assist the student having need for financial assistance to undertake the course of study required to become a physician, dentist, osteopath, optometrist, pharmacist, podiatrist, or veterinarian.

Funds are allocated to accredited schools of medicine which are located in the U.S.A. and Puerto Rico, and which participate in the student loan program. The maximum amount you may borrow for an academic year is \$3,500 or the amount of your financial need, whichever is lesser.

Contact the Director of Student Financial Aid at the school where you intend to apply for admission or where you are now enrolled. If you qualify, the school will provide you with an application.

(Students seeking advanced training in their fields are not eligible for assistance under this program.)

LAW ENFORCEMENT EDUCATION PROGRAMS (LEEP)

Qualified full-time students in approved fields may apply for loan assistance up to \$1,800 per academic year. Loans are repaid at the rate of 7% simple interest, commencing six months after termination of full-time study. Upon completion of each year of certified service as an employee of a public law enforcement agency, 25% of the total and interest, may be cancelled. Repayment is cancelled upon death of the borrower.

Interested students should contact the Office of Student Aid at the college of their choice or the Department administering this program at the institution.

EMPLOYMENT

COLLEGE WORK-STUDY (CWS) PROGRAM

CWS provides jobs for students who have great financial need and who must earn a part of their education expenses. Students may apply if they are enrolled at least half-time as a graduate, undergraduate, or vocational student in an approved postsecondary educational institution.

The educational institution which participates in College Work-Study arranges jobs on campus or off campus with a public or private nonprofit agency, such as a hospital. Students normally work an average of 14-16 hours per week.

In arranging a job and determining how many hours a week the student may work under this program, the financial aid officer will take into account: (1) the need for financial assistance; (2) class schedule; and (3) the student's health and academic progress. In general, the salary received is at least equal to the current minimum wage.

Application is made through the institution which the student is interested in attending.

### TWO YEAR NROTC SCHOLARSHIP PROGRAM

Available to any student transferring to a four-year institution which has a Navy Reserve Officers Training Corps Program. The Scholarship pays all tuition, cost of textbooks, other fees of an instructional nature plus a subsistence allowance of \$100 per month for the final two years of college.

Eligibility requirements: Must be at least 18 but not older than 25 years of age 30 June of the year graduated and commissioned from NROTC; be a matriculated Sophomore and completed one semester of physics and integral calculus or two semesters of calculus with a C average and be physically qualified.

Special requirements: Must be accepted to an NROTC college; agree to complete one year of calculus and physics before receiving baccalaureate degree; agree to serve four years of active duty as a commissioned Naval officer upon receiving baccalaureate degree.

A student who wishes to be considered for an NROTC Scholarship should make application no later than 15 March of their sophomore year. A list of participating NROTC colleges and universities, and the application forms may be obtained from your transfer and career counselor or the Navy Recruiting District Washington, 6525 Belcrest Road, Room 301 Presidential Building, Hyattsville, Maryland 20782. (301-436-2072).

## THE AMERICAN UNIVERSITY

Undergraduate Degree Requirements

University Requirements: Requirement for all undergraduates: two-course sequence of English Composition and Reading, or Selected Human Problems. Effective Spring, 1976, all students entering College of Arts and Sciences will be required to fulfill Liberal Studies Program: for entering freshmen - three courses; for entering sophomores - two courses; for entering juniors without an A.A. degree - one course; for entering seniors - not required to participate in the program.

Course Hours and Determination of Credits: Undergraduate graduation requirements are a minimum of 32 courses. In transfer evaluation, it is recommended that a course receive four semester hours credit. Students contemplating transfer to the American University should use the following table in equating previously earned semester hours to the course system.

15 semester hours =	4 courses
30 semester hours =	8 courses
45 semester hours =	12 courses
60 semester hours =	16 courses
75 semester hours =	20 courses
90 semester hours =	24 courses
105 semester hours =	28 courses
120 semester hours =	32 courses

Credit hours less than 15 or in excess of a multiple of 15 are converted to partial courses.

Course completed with grades of "D" will be accepted on transfer for any degree transfer student who has maintained at least a 2.0 average (as of the date of evaluation and admission action) and subject to the following conditions: A "D" grade cannot be applied toward a major or major-related course requirement and should only be applied to the general education requirements; or, in normal circumstances, to the satisfaction of English requirements.

Full-time degree students take 4 courses per semester at The American University. You must complete 8 of the last 16 courses at The American University as a degree student.

Physical Education is not required.

School of Nursing Transfer Policy: Students who wish to transfer into the school of nursing are advised to complete the required courses normally taken as prerequisites in order to begin the three-year sequential clinical program in the sophomore year. The Advanced Competency Program is designed to provide advanced placement for students who have

had previous work or educational experience in Nursing. Applicants may include students of diploma programs, Armed Forces Corpsmen and others. Such students are eligible to take the Competency Examination when credit for the first year courses has been established.

Degrees Offered at The American University: A variety of majors are offered in College of Arts and Sciences; School of Business Administration; School of Nursing; College of Continuing Education; College of Public Affairs, including School of Government and Public Administration, School of International Service, Center for Administration of Technology, and Center for the Administration of Justice.

1. No. transfer students accepted during past school year. 1800
2. No. transfer admissions anticipated for this year . . . 1800
3. What is the minimum average required to transfer? . . . 2.0
4. What average do you feel indicates a realistic chance of completing a bachelor's program at your school? . . . 2.5
5. Do holders of A.A. degree receive preference in admission over transfers who do not have this degree? . . . No\*  
\*Students with A.A., A.A.S. or A.S. may transfer 75 sem. hrs., students without may transfer 60 sem. hrs.
6. For purposes of admission, how important is the high school record? . . . Not usually  
required unless student has less than 12 sem. hrs. of college work.
7. Which, if any, entrance exam is required for transfer? . None
8. Application deadline: Fall August 1 ; Spring December 1
9. Maximum number of semester hours transferable . . . . 60 or 75  
See #5 above
10. Is on-campus housing available to transfer men? . . . . Yes  
transfer women? . . . . Yes
11. Are there special requirements for Foreign students? International  
students should communicate directly with the Office of International Admissions, 686-2023.
12. Total annual expense for all students:  
tuition: \$3064 ; fees: about \$90  
commuter budget: about \$3300 ; resident budget: about \$5000
13. Is admissions acceptance prerequisite for financial aid? Yes
14. Deadline for financial aid (e.g. loans, grants, work-study scholarships)? . . . . . Fall & Summer April 1  
Spring November 1
15. What financial aid application form(s) is/are required?  
X The American University; X PCS OR SFS; X BEOG;  
X Cuban loans; X State loans or grants.
16. Grade point average (on 4-point scale) required to be eligible for loans? . . . . . 2.0  
scholarships? . . . . . .3.0 & above  
grants? . . . . . 2.0

## BOWIE STATE COLLEGE

General Education Requirements

<u>AREAS</u>	<u>MIN. SEMESTER HRS.</u>
Communication Skills English Composition (6 s.h.) Speech, Reading	9
Humanities Art, Humanities, Literature, Music, Philosophy, Speech, and Theatre (no more than 3 s.h. in a Foreign Language)	9
Social Science Anthropology, Economics, Geography, History, Political Science, Psychology, and Sociology. (6 hrs. of World or Western Civilization <u>or</u> U.S. History must be included. No more than two courses may be taken in any one Dept. to satisfy the General Education Requirements.)	18
Science and Mathematics Biological and Physical Sciences, and Mathematics Mathematics (3 s.h.) (50.101-102 will <u>not</u> satisfy this requirement for liberal arts majors.) Science (6 s.h.)	9
Physical Education (Exemptions: students over 30, medically ex- cused, and veterans.)	2
	Total: 47

Transfer of Specific Courses:

In general, courses will transfer where the M.C. course is parallel to that listed in the Bowie catalog. Also, courses of a liberal arts nature not listed in Bowie catalog will generally transfer. Department Chairmen have final approval of transfer credits in student's major field, at least half of which must be completed at Bowie.

A community college transfer student who has earned the A.A. or A.S. degree in a transfer curriculum is considered to have satisfied the General Education requirements at Bowie provided there is liberal arts breadth to his/her program. This is true even if certain specific requirements listed above have not been met.

Call or write for a copy of the Bowie State College Transfer Manual, or consult a copy in your Transfer Counselor's Office.

## CAPITOL INSTITUTE OF TECHNOLOGY

Degree ProgramsBachelor of Science

The Capitol Tech. B.S. degree in Electronics Engineering Technology requires 12 full-time quarters of undergraduate study, resulting in a practical working knowledge of electronics and its applications to an ever-expanding career market.

Required Courses and Credits - Bachelor of Science

Electronics: 87 credits

Natural Sciences: 42 credits

Mathematics: 21 credits

Physics: 12 credits (PH 101, PH 102, PH 103, PH 123)

Chemistry: 6 credits (CH 211, CH 221)

Graphics: 3 credits (ME 111)

Humanities and Social Sciences: 27 credits

English: 9 credits (EN 111, EN 121, EN 132)

An additional 18 credits in the humanities and social sciences must be selected by the student to complete this requirement.

Electives: 24 credits

Any course listed in the Capitol Tech. catalog, or officially transferred for nonresidence work, may be used by a student to fill the electives requirement, except the sophomore level courses which apply toward the electronics requirement of the Associate in Arts degree in electronics. At least one of the electives must be in the areas of the natural sciences, the humanities, or the social sciences.

Total: 180 credits (qtr. hrs.)

## FEDERAL CITY COLLEGE

Degrees Offered

Bachelor of Arts - Art, Chemistry, Communication Sciences, Communicative Arts, Community Education, Economics, Elementary Education, English Studies, Foreign Languages, History, Media Technology, Philosophy, Physics, Political Science, Psychology, Social Welfare-Rehabilitation, Sociology and Anthropology, Urban Studies-Social Planning.

Bachelors of Science - Accounting, Biological Science, Business Automated Data Processing, Business Economics and Finance, Business Education, Chemistry, Civil Engineering, Community Planning and Development, Computer Science Management, Early Childhood Education, Electrical Engineering, General Home Economics, Health Education, Management, Marketing, Mathematics, Mechanical Engineering, Nursing, Office Administration, Physical Education, Physics, Procurement and Public Contracting, Recreation Education.

Bachelor of Science in Education - Home Economics Education

Bachelor of Music Education

Requirements for Degrees

Federal City College confers the Associate or the Baccalaureate degree upon those students who:

- Complete 30 semester hours in residence,
- Complete the appropriate college-wide requirements listed below.
- Complete the requirements of a specific degree program as listed.
- Maintain a 2.00 cumulative grade-point average.

College-Wide Requirements

The Associate degree requires a minimum of 60 semester hours which include:

- Mathematics - NM 100 or demonstrated proficiency at the level of NM 100.
- Humanities - one course.
- Natural Science - one course.
- Social Science - one course
- English - HE 101 and HE 102.

Bachelors degree requires a minimum of 120 semester hours which include:

One course in Mathematics numbered NM 108 (Introduction to Elementary Mathematical Concepts) or higher. The Mathematics Department recommends NM 130 - Problem Solving and Mathematical Reasoning - as the primary course to satisfy the college-wide requirements.

Six semester hours of Freshman English

Three Humanities courses or six semester hours in Humanities.

Three Natural Science courses or eight semester hours in Natural Science.

Three Social Science courses or eight semester hours in Social Science. (All Social Science courses numbered 200 or above require Social Science A and Social Science B as prerequisites.)

Health & Phys. Ed.	Theater

Requirements for B.A. or B.S.

Completion of both semesters of freshman English - Completion of the general studies program - Satisfactory completion of a major - Accumulation of a minimum of 120 hrs. of credit - It is necessary that a student have a minimum of four (4) semesters of a foreign language for the B.A. degree.

1. Courses offered by the department in which the student is granted a major may not be used to satisfy the General Studies requirement. A student selecting any course on the General Studies Program course list must satisfy any stated prerequisites before enrolling in that course.

The General Studies Program consists of the completion of at least twelve semester courses selected from the following four groups of courses. At least two must be taken in each of the following groups, and no more than five courses in a single department may be applied to the General Studies requirement. Courses for each Frostburg Group may be selected from courses listed below. MC Honors courses will be considered on an individual basis as to the appropriateness of their inclusion in one of the four Frostburg Groups. (Note: Two semesters of Freshman English are required and are not included in the twelve semester courses required to meet the General Studies Program requirements.)

## FROSTBURG Group I

Art History	
The Black Man in American Literature	
World Literature	
British Literature	
Oriental Literature	
Music Literature	
Philosophy	Ethics

GEORGETOWN UNIVERSITY

Undergraduate Programs

College of Arts and Sciences: American Studies, Classics, Economics, English, Fine Arts, Government, History, Modern Language, Philosophy, Sociology, Theology, Interdisciplinary Studies, Biology, Chemistry, Math, Physics, Psychology and Pre-Medicine.

School of Foreign Service: Multidisciplinary curriculum and major concentrations in History and Diplomacy, International Politics, International Economics, Comparative and Regional Studies and Humanities in International Affairs.

School of Nursing: Four-year nursing program preparing students not only for traditional nursing, but for innovative health care delivery.

School of Languages and Linguistics: Majors in: Arabic, Chinese, French, German, Linguistics, Italian, Japanese, Portuguese, Russian, Spanish. Also Secondary School Teacher Preparation Program.

Certificate Programs: Translation, Interpretation.

School of Business Administration: Accounting, Finance, Foreign Management, Marketing, Public Administration and Quantitative Analysis.

General Education Requirements, Arts and Sciences - A.B. Degree

AREA	HOURS REQUIRED
Literature	6
Math/Science (any 2-semester combination)	6
Social Science (must be a full year sequence)	6
Modern Language (requirement depends on major dept.)	6
Philosophy	6
Theology	6

General Requirements for the B.S. Degree are the same as for A.B. Degree. Major requirements are additional and transfer of credits must be reviewed separately.

Credit toward Georgetown degrees will be given for work done in other accredited institutions subject to following limitations:

1. Credit for required courses if course is similar to one required at GU.
2. Credit for electives if the course is similar to the other courses offered at Georgetown.
3. Grades earned must be one level ("C") above minimum passing level. Passing grades on a Pass/Fail system are acceptable.
4. Maximum number of transferable credits: one-half of the total required for GU degree. Students should plan on spending at least two years in residency at GU earning degree.
5. An evaluation of courses accepted for transfer will be sent with the notification of acceptance.

scholarships? . . . . . strongest students  
grants? . . . . . awarded first.

## GEORGE WASHINGTON UNIVERSITY

Undergraduate Degree Programs and Requirements

Over 65 undergraduate majors are offered. Self-designed and double majors are available. Transfers with 36 or less hours of superior work may apply for the 90-hour Honors Degree Program. A maximum of 30 hours of credit by examination may be awarded. Up to 21 hours of credit may be awarded based on work experience while in residence at G.W. 120 semester hours are required for graduation in most programs other than 90-hour degree. There is a 30 hour residence requirement, 21 hours of which must be in major field. Students may take 12-18 hours (4-6 courses) during a semester for same tuition cost.

General and specific graduation requirements may be found in 1976-77 general catalog as follows:

Allied Health Programs (676-3725): in School of Medicine and Health Sciences catalog.

Arts and Sciences (676-6040): p. 72 for general (6 hrs. of English composition in freshman year is only specific course requirement), and pp. 211-511 listed alphabetically are specific departmental requirements; p. 81 Pre-Med: in College of General Studies Catalog: Geodetic and Cartographic Sciences, Oceanography, Computer Science (Statistics) and Speech Communications and Broadcasting.

Business and Accounting (676-7027): pp. 138-152.

Education (676-6160): pp. 81-83 for general, pp. 110-128 for specific and professional, including Human Kinetics and Leisure Studies (formerly Phys. Ed.).

Engineering (676-6080): in Engineering and Applied Science catalog.  
Public, International Urban Affairs and Chinese Studies (676-6240): pp. 83-85 general, pp. 453-454 specific.

Procedures and Terms

A high school transcript is necessary if less than 30 hours of transferable credit appear on your Montgomery College transcript at time of application. A Conditional Admission may be granted to student with unofficial grade receipts if official transcripts are not available at the time of registration. When official transcripts have arrived from all previous institutions attended, a Statement of Advanced Standing is issued listing number of hours and areas into which credit has transferred. Admitted students may request a Balance Sheet from the Registrar's Office which lists specific courses required for graduation. Registered students may petition dean of their school for credits not awarded by Admissions Office.

Orientation

An orientation program is conducted by Student Activities Office (676-6555) at beginning of each semester and an undergraduate student is assigned to each incoming student to answer questions and guide him through some of the red tape. Students are also assigned an academic adviser by the dean of school into which he is admitted.

Financial Aid

All transfer students are eligible upon admission and regardless of the number of hours of previous work for federally funded loan and work-study programs. Transfers having completed 60 transferable hours of work with a "B" or 3.00 average are eligible upon admission for University scholarship funds. Transfers with fewer hours must first complete 15 hours of work in residence before being eligible for scholarship funds. These rules also apply to foreign students seeking financial aid though visa regulations may mitigate against some of these benefits. Questions should be referred to Student Financial Aid (676-6620).

Advanced Standing and Transfer of Credit

In addition to courses taken for credit at other accredited institutions, a maximum of 30 hours of credit may be awarded based on examination. Tests normally used for these purposes are Advanced Placement Examinations, GWU Departmental Examinations, and the CLEP general and subject exams. There are procedures concerning transfer of this credit. For specific information you should call (676-6040) and ask to speak with a counselor.

Transfer of credit is usually a simple procedure in which few credits are "lost" if you are coming from a pre-transfer program into corresponding department at G.W. Completion of A.A. or A.S. degree will not automatically transfer 60 hours of credit as each course is considered separately. There is no restriction on the number of hours which may be transferred into G.W., though all transferred courses may not satisfy graduation requirements for a specific major. (For example 30 hours of art will not assist an engineering student.) A grade of "C" or "pass" is necessary to transfer credit.

There are procedures concerning the acceptability of courses for transfer into G.W. These are dictated by the school into which student is admitted. M.C. courses generally fall into four groups:

1. Generally, any courses from these departments will transfer:  
AN, AR, AS, BI, CA, CH, EC, EN, FR, GE, GL, GR, HP, HS, MA, ME, MU, PC, PH, PL, PS, PY, RU, SD, SN, SO, SS, VT 241-248, XC.
2. Generally, courses from the following departments will not transfer:  
DA, DT, ES, ET, FM, FS, HE, HM, ML, NU, PE (Courses will transfer into the School of Education), RC, RD, RP, RS, RT, SF, ST, TY.
3. Generally, courses from following departments are considered "professional credit" and will transfer without restriction only into the corresponding department at G.W. Otherwise, G.W. allows a maximum of 12 hours of professional credit toward a degree in a non-corresponding school or department. The exception is transfer of credit into the School of Government and Business Administration which will not allow transfer of AC, BA, or MG courses which correlate with upper division (junior-senior level) courses at G.W.: AC, BA, CS, ED, EE, MG, VT 105-235.
4. Courses from following departments must be considered individually before credit will be assigned: CJ, MH.

Undergraduate Majors

Accounting	International Affairs
American Civilization	Journalism
American Literature	Judaic Studies
Anthropology	Latin
Applied Mathematics	Latin American Studies
Applied Statistics	Law Enforcement
Art History	Mathematical Statistics
Biology	Mathematics
Botany	Mechanical Engineering (computer-oriented & energy resources & power options)

## HOWARD UNIVERSITY

General Education Requirements for the Baccalaureate Degree

1. Acceptance is based on examination of the total record of the applicant.
2. All credentials from foreign applicants must be on file in the Office of Admissions prior to March 1 for admission in the fall semester, or August 1 for admission in the spring semester.
3. Additional Requirements of the Schools:

College of Fine Arts

- Art - Art Portfolios
- Drama - 2 letters of recommendation
- Music - Music audition or tape

College of Nursing

- One year of Chemistry and Physics

School of Engineering

- A strong background in Mathematics

College of Pharmacy & Pharmacal Sciences

- A strong background in Mathematics and the Sciences

School of Communications

- A strong background in English and Mathematics

School of Allied Health Sciences

- Strong background in the Physical and Biological Sciences and a commitment of service to mankind.

Required Courses - College of Liberal Arts

Students are expected to complete before the beginning of the junior year the following requirements or accepted equivalents:

General Education - 30 hrs. total

- Divisional Studies A, B, C and D - 6 hours from each area.\*
- Four additional courses in Divisional Studies depending on the major.

English - 6 hours total

- English Composition 002 and 003

Speech 101 - 3 hours

- \* Students majoring in a department of the Humanities Division must take Divisional Studies C and D. Students majoring in a Department of the Social Sciences Division must take Divisional A and D. Students majoring in a Department of the Natural Sciences must take Divisional Studies A and C.

Foreign Language\* - 14 hrs.

\* The foreign language requirement for native speakers of English may be met by any of the following:

1. Score of 560 or higher on CEEB language test.
2. Satisfactory score on a placement test administered by Howard University.
3. Continuing of language begun in high school, with placement to be determined on the basis of score on the CEEB or Howard Placement Test.

\* Students whose native language is not English and who are proficient in both that language and English may satisfy this requirement by completing successfully English 008-142.

Philosophy - 3 hrs.

Physical Education - 4 hrs.

Science	Urban Planning and Policy
Science Education	Analysis
Sociology	Urban Secondary Education
Social Welfare	Urban Studies

Academic Innovations

Cooperative Education Program: Cooperative Education embraces the actual integration of work experience with formal classroom instruction. "Academic Study" and "Work-Study" are carried out on an alternating basis. Students spend the first semester on the job, selected in accordance with their interests, and the second semester at the College in regular academic studies. Through this program, the student not only gains an early start on his career, but is afforded some financial security by the job.

Pre-Professional Courses: Many students plan to enter a professional school after they receive their undergraduate degree. Morgan offers a program of studies that is sufficiently flexible to provide pre-professional preparation for numerous occupations which require an undergraduate foundation. The pre-professional areas offered include medicine, dentistry, pharmacy, medical technology, engineering, law, and social work.

Urban Studies: The Urban Studies program, for which an undergraduate degree may be earned, is committed to the study of the problems of the urban community. The major comprises 94 hours of urban-oriented courses along with 90 hours of new course offerings. It has a core of 45 semester hours which enables the student to specialize in one of five areas: Community Organization, Fiscal Management, Urban Development, Urban Delivery, and Statistical Analysis.

Recreation Education: Concurrent with the core program of physical education, a recreation education concentration.

## SALISBURY STATE COLLEGE

General Education Requirements

All programs leading to bachelor's degree include a minimum of 45 semester hours in General Education courses distributed as follows:

Group I - 15 hours

- A. English 101-102  
3 additional hours in Literature from Departments of English or Modern Languages (Spanish 320 or 321, French 320 or 321.)
- B. Art, Music, Communication Arts, Philosophy, and Modern Languages (excluding 101, 102, 111). 6 hours from at least two departments.

Group II - 15 hours

- A. World Civilization
- B. Economics, Human Geography (excluding Physical Geography), History, Political Science, Psychology, Sociology. 9 hours selected from at least two of the departments.

Group III - 12 hours

At least 6 hours from two different natural sciences and remainder from courses in Natural Sciences, Mathematics and/or Physical Geography.

Group IV - 3 hours

Physical Education: three activity courses.

Students who come to Salisbury State College having earned the A.A. Degree in college parallel/transfer program will be exempt from general education requirements at Salisbury.

Academic Majors

Biology	Liberal Studies: <u>with</u>	Medical Tech.
Business Administration	<u>concentrations in</u>	Nursing
Chemistry	Earth Sciences	Physical Ed.
Communications Arts	European Studies	Physical Science
Economics	Latin American Studies	Psychology
Elementary Education	Philosophy	Social Science
English	Political Sciences	Social Work
French	Urban & Rural Studies	Sociology
Geography	American Studies	Spanish
History	Mathematics	

Salisbury State College offers extensive course work in Art and Music, both programs leading to state certification. While we are not authorized to provide a major in Art and Music, students who elect to take the extensive suggested program do in fact accumulate a total of credits far exceeding many majors.

## SHENANDOAH COLLEGE &amp; CONSERVATORY OF MUSIC

Four-Year Programs

Current degree offerings include Bachelor of Science in Social and Behavioral Science, in Natural Sciences, in General Studies, and in Management, along with the Bachelor of Arts in Humanities.

In general, the student is required to complete two 18-hour concentrations for the baccalaureate degree, plus the general requirements, as noted under each degree description.

Eighteen-hour concentrations will be offered only in the following areas initially:

Social and Behavioral Science

Psychology-Education  
Recreation Therapy  
History

Natural Sciences

Biology  
Chemistry  
Mathematics

Humanities

English  
Philosophy-Religion  
Music  
Theatre

Management

Students planning to go on to graduate school should study several university catalogues to determine what requirements need to be met over and above the degree requirements of Shenandoah College and Conservatory of Music. These university requirements should be discussed by the student with his adviser.

General Requirements

6 hours of English (English 101-102)  
3 hours of Philosophy-Religion  
2 hours Physical Education to be selected from activities courses rather than theoretical courses.

Degree ProgramsBachelor of Music

Education, Therapy, Church Music, Applied Music, Composition, Theatre.

Associate of Science

Nursing, Respiratory Therapy, Medical Laboratory Technician, Piano Technology.

## UNIVERSITY OF MARYLAND - BALTIMORE COUNTY (UMBC)

Admissions Requirement for Community College Transfer Students

Those students who plan to enter UMBC as transfers from a two-year community college must present a minimum of 56 completed credits with a minimum overall average of 2.0 or A.A. degree at the time of admission.

APPLICANTS WHOSE COMMUNITY COLLEGE EXPERIENCE IS CONCURRENT WITH THE SENIOR YEAR IN HIGH SCHOOL AND THOSE WHO HAVE ATTEMPTED LESS THAN 9 SEMESTER HOURS ARE EXEMPTED FROM THE 56 CREDIT REQUIREMENTS AND WILL BE EVALUATED ON THEIR HIGH SCHOOL RECORD.

Exceptions can be made only when the student cannot pursue at a two-year college further course work which is relevant to his degree program. Applicants seeking such an exception must submit a written appeal.

It should be emphasized that the number of credits completed is the important number and not the credits transferable.

Further details may be obtained from the Transfer Counselor at MC or by contacting Mr. Del Langdon, Coordinator of Transfer Admissions at UMBC, (301-455-2291).

General Distribution Requirements

Each student must familiarize himself with three of following four broad areas of learning: Fine Arts and Humanities, Foreign and Classical Languages, Social Sciences, and Sciences and Mathematics, as follows:

1. A student may fulfill requirements in Fine Arts and Humanities, Social Sciences, and Sciences and Mathematics either by taking at least three courses in each area, two of which must be in one discipline, the third of which must be in a second discipline; or in any other way which an area deems suitable and which has the approval of the UMBC Senate and Vice Chancellor for Academic Affairs.
2. A student may fulfill requirements in Foreign Languages either by pursuing study of a foreign or classical language through second year level, unless exempted by examination; or in any other way which foreign language area deems suitable and which has the approval of UMBC Senate and Vice Chancellor for Academic Affairs.
3. General areas of distribution are:

Fine Arts & Humanities

American Studies	Linguistics	World Literature
Archaeology	Music	Literature Courses in
Art	Philosophy	Foreign and Classical
Dance	Screen Arts	Languages
English	Theatre	

Social Sciences

Anthropology	Geography	Psychology
Archaeology	History	Sociology
Economics	Political Science	Social Work

Mathematics & Sciences

Biology	Physics
Chemistry	Mathematics

Foreign & Classical Languages

French	Spanish	Greek
Latin		German

16. Grade point average (on 4-point scale) required to be eligible for loans? . . . . . Academic  
 scholarships? . . . . . good  
 grants? . . . . . standing

## UNIVERSITY OF MARYLAND - COLLEGE PARK

Policies on Transfer, Financial Aid and Housing

Transfer Student Admission: MARYLAND RESIDENTS WHO ATTEND MARYLAND PUBLIC COMMUNITY COLLEGES WILL BE ADMITTED AFTER THEY HAVE RECEIVED THE ASSOCIATE OF ARTS DEGREE OR COMPLETED 56 CREDIT HOURS WITH A "C" AVERAGE.

In order to be admitted to the University of Maryland, College Park Campus, as an exception to the two-year rule, the applicant must receive a letter from the transfer adviser at Montgomery College recommending that the University waive the two-year requirement in his/her case.

The University will use the average stated on the transcript by the sending institutions. In cases where there are more than one previous institution, the average of all institutions attended will be cumulative.

Students are advised to keep informed of any other changes in transfer policy at the University of Maryland in the immediate future. These policies are being constantly reviewed, and students should periodically consult the transfer adviser at Montgomery College for changes.

Nonresident applicants: The number of out-of-state students who can be admitted is limited. The typical transfer student presents better-than-average credentials in his previous college-level work.

Any foreign student seeking transfer to the University should contact the International Education Services Office concerning admission requirements, verification of English proficiency and verification of financial support. Please contact: Mr. Dennis Floyd, Adviser for Undergraduate Foreign Student Admissions, North Administration Bldg., University of Maryland, College Park, Md. 20742 (301) 454-3043.

Transfer Credit: Advanced standing is assigned to transfer students from accredited institutions prior to registration. Academic courses carrying a grade of "D" or higher usually are transferable from Maryland public institutions provided they are applicable to the curriculum into which the student is transferring. "D" grades transfer for those transferring from a Maryland community college provided the student has earned the A.A. degree or 56 hours with a 2.0 average or when special permission is obtained prior to completion of these qualifications and the student has a 2.0 average. "D" grades in a major course are acceptable only if the "D" grades are acceptable for a native student.

"Credit earned at any public institution shall be transferable to any other public institution as long as that credit was designed specifically for a college or university-parallel program, and providing its acceptance is consistent with the policies of the receiving institution governing students following the same program. Transfer of credits from terminal (career) programs shall be evaluated by the receiving institution on a course-by-course basis. Credits applied towards a specific major and minor shall be determined by the receiving institution in these cases." -- MCHE Student Transfer Policies, Dec. 1972.

Special Problem: Transfer foreign language credit is usually acceptable in meeting college requirements. Prospective students should consult the University catalog to determine the specific requirements of various departments and curricula.

Regulations Concerning grading and Retention: A full-time student who has transferred to the University 45 hours or more is placed on probation if:

1. He fails to obtain 18 quality points and a grade point average of 1.95 in his first semester.
2. He fails to obtain 24 quality points and a cumulative grade point average of 1.95 in any following semester.

NOTE: Students who have transferred less than 45 credit hours need only earn the necessary quality points each semester until they attain 45 hours.

A student who has been on academic probation for two consecutive semesters or four total semesters will be academically dismissed.

General University Requirements: These requirements consist of 30 semester hours of credit distributed among the three areas listed below. At least 6 hours must be taken in each area. At least 9 of the 30 hours must be taken at the 300 level or above. None of the 30 hours may be counted toward published departmental, college or divisional requirements for a degree.

- Area A. 6-12 hours elected in Divisions of Life Sciences and Agriculture; Mathematical, Physical and Engineering Sciences.
- Area B. 6-12 hours in Divisions of Behavioral and Social Sciences; Human and Community Resources.
- Area C. 6-12 hours in Division of Arts and Humanities. Unless the student has been exempted from English Composition, at least one course in this subject will be required. (See below.)

NOTE: In meeting the above requirements, students may choose from among any undergraduate courses for which they are qualified. Students are urged to consult with academic advisers for guidance in determining which courses in each area best fit individual needs and interests. Courses of study which are listed under a college come under the jurisdiction of the College Dean. Courses of study which are listed under a division come under the jurisdiction of the Division Provost.

Demonstration of Competency in English Composition: Unless student has been exempted from English composition, at least one course in this subject will be required. Exemption is granted if student earns a score of 600 or better on Scholastic Aptitude Test. Exemption is granted, and credit given, for a score of 3, 4, 5 on English Advance Placement Test, or by satisfactory completion of a similar course at another institution.

Students taking a course to satisfy this requirement may apply the credits towards the 30-hour General University Requirement but may not count these credits toward the satisfaction of the minimum 6 hour requirement in any of the three designated areas. Credit for such a course may be in addition to the 12 hour maximum in any area.

Courses of Study

Speech (Dramatic Arts, Radio- Television-Film, Speech Communication)	

Items printed in parentheses indicate an area of concentration within a degree program.

<sup>1</sup> Indicates a pre-professional program. The College Park Campus does not offer degrees in these areas. The campus does, however, offer specific course advisement that will prepare the student for a possible transfer to another branch of the University of Maryland or other institutions that do offer degrees in these areas. **ADMISSION TO A PRE-PROFESSIONAL PROGRAM ON THE COLLEGE PARK CAMPUS DOES NOT GUARANTEE ADMISSION TO ANOTHER BRANCH OF THE UNIVERSITY OR ANOTHER INSTITUTION.** Students who have already earned more than 30 semester hours at another college-level institution should contact an academic counselor for the pre-professional programs at College Park before filing an application for the College Park Campus. Please address correspondence to the pre-professional program to which you are applying, University of Maryland, College Park, Maryland 20742.

<sup>2</sup> Students who wish to pursue this pre-professional program are requested to select both a pre-professional program and a course of study listed on this sheet (for example, pre-law students may wish to select a course of study in government and politics).

<sup>3</sup> This program requires that students complete an approved associate degree program in Fire Science. Freshman and sophomore courses in Fire Science are NOT available at the College Park Campus. Contact Prof. Harry E. Hickey, College of Engineering, for additional information.

Transfer of Courses from Montgomery College to the University of Maryland at College Park: If a student wishes to know which of his courses transfer to the University of Maryland, College Park, he is advised to consult the articulated transfer or career program guides in the M. Transfer Office. The articulated programs list by major the Montgomery College and course number for the course which will best transfer to Maryland in a given major. If the student follows the articulated transfer or career program he is guaranteed transfer with no loss of credit. The student may, of course, have to meet additional departmental requirements when he or she begins attending the University of Maryland.

### College Level Examination Program (CLEP)

University of Maryland, College Park, permits the departments to make the decision concerning the subject written examinations. Most departments have accepted the recommended scores, but one requires a higher score.

The details are as follows:

American History (Only with essay question)	6
Introduction to Sociology	6
Introduction to Calculus	6
College Algebra - Trigonometry	3
General Chemistry (Score of 51)	6
American Government	3
Biology	6
Introductory Economics	6
Geology	6
Trigonometry (No credit, but meets general education requirements)	3
College Algebra (No credit, but meets general education requirements)	3
General Psychology	3

Undergraduate students may earn by examination no more than one-half the credits required for the degree program at Maryland.

### Housing

Because of limited spaces in the residence halls, neither admission to the University, nor submission of a housing application, insures or implies housing for any student. For on-campus housing information contact the Assignment Section, Office of Resident Life, North Administration Building, 454-2711.

Questions concerning off-campus housing should be directed to: Off-Campus Housing Office, Room 1211, Student Union Building, 454-3645.

Although generally membership is a requirement for living in a Greek House, sometimes fraternities and sororities do make available housing to others when space is available. (However, these spaces are usually quite limited.) Information can be obtained from: Office of Greek Life, Room 1211G, Student Union, 454-2736.

If housing is of interest to you, we encourage you to investigate all of the housing options available to students.

### Financial Aid

It is only fair to advise that funds are quite limited for transfer students. An exception is made for Maryland community college students making the normal transition to the University. When admitted, transfer students should inform this office of such action and request an application for financial aid.

## UNIVERSITY OF MARYLAND - EASTERN SHORE (U.M.E.S.)

At the present time a transfer student must have a 3.0 average to be admitted to U.M.E.S. International students must have an average of 3.0.

Degree Requirements

Academic requirements for graduation are a minimum of 120 semester hour exclusive of AFROTC and Physical Education.

\*General Education Requirements are distributed as follows:

English ENG 101, ENG 102, Fundamentals of Speech	9 Credits
History Western Civilization	6 Credits
Mathematics	3 Credits
Sciences Biology 1 Science & a Physics Science	7 Credits
Social Sciences and Economics	6 Credits
Fine Arts and Humanities	3 Credits
*Foreign Languages	6 Credits
Health Education	2 Credits
Physical Education	2 Credits

\* Exceptions are explained in respective Departmental offerings.

## UNIVERSITY OF MARYLAND - UNIVERSITY COLLEGE

Program

UMUC is the continuing education unit of the University of Maryland, providing opportunities for adults to complete their education on a part-time basis through evening and weekend study. It offers the Bachelor of Arts and Bachelor of Science degrees. The concentrations available include Business and Management, Computer Science, Economics, English, Foreign Languages, Geography, History, Government and Politics, Journalism, Law Enforcement, Mathematics, Microbiology, Philosophy, Psychology, Radio/Television, Sociology, Social Work and Urban Studies. Courses taken through UC are transferable to other colleges of the University of Maryland if they are applicable to the new curriculum. Courses are offered at College Park, Baltimore and Off-Campus centers throughout the state.

Admissions Procedures

Applications for admission may be obtained in advance of registration, but should not be mailed or carried to any University College Office prior to registration by those who will be participating in registration in person at the times indicated in the schedule. Exceptions are: applicants needing admission clearance in advance of registration including college transfers, persons with foreign education backgrounds (who are not sure that they meet the admissions requirement) and applicants for Financial Aid. Admission decisions will be made and sent to the applicant by letter or by the pink copy of the Admissions Application form. In most instances decisions will be made immediately.

Admissions PolicyAdults

Qualified adult (those over 21, members of the military or veterans eligible for VA benefits) students may transfer to UMUC if they certify on the application that they meet ALL of the following standards:

1. Graduate of accredited high school or completion of the GED test with a minimum standard score of 45 on each part of the examination or an average standard score of 50 with no score below 40 on any of the five parts.
2. A cumulative "C" (2.0) or better average for all college level work attempted.
3. Students with less than a cumulative "C" average or who were not in good standing at last institution may enroll after a period of two full semesters or three quarters has passed. Those dismissed or on probation for disciplinary reasons, may register on a temporary basis until their status has been clarified and approved by the Office of the Dean.

Transcripts are not required until qualified adult students have completed 15 s.h. of UMUC course work.

#### Non-Adults

Qualified non-adults (civilians under 21 years of age) will be permitted to register on a temporary basis and must immediately request that their official academic records be submitted to the UMUC Office of Admissions and Registrations. Admissions qualifications for non-adults are generally the same as required for admission to other campuses of the University.

#### Transfer Credits

UMUC may accept up to a maximum of 60 semester hours from a regionally accredited community college subject to the following restrictions:

1. The student cannot already have achieved junior standing at the University of Maryland.
2. The course must be applicable to the student's curriculum.
3. MA 10, 11, 12; CJ201, 202 do not accept transfer. See the Articulated Career Program Guide for additional clarification regarding transfer of technical credits.

#### Student Aid and Housing

1. Housing is not available for UMUC students.
2. Financial aid programs are available to students who register for at least 6 credits per semester. Students may apply for federal financial aid programs: Basic Educational Opportunity Grant, National Direct Student Loan, Supplemental Educational Opportunity Grant, College Work-Study (employment), and State Higher Education Loans. Call: 454-5876

#### General Education Requirements (in semester hours):

Communications (6), Humanities (9), Social Science (9), Mathematics and/or Science (6), and Foreign Language -- For B.A. degree only --

#### Advisement

Students are encouraged to seek academic advice from UMUC advisers. Advisers are available from 8:30 a.m. to 7:30 p.m. and Saturday mornings. For evening appointments, 454-2314; for daytime appointments, 454-4044

## WASHINGTON COLLEGE

Distribution Requirements for B.A./B.S.

Twelve semester courses should be selected from at least three of categories of study listed below. No more than four such courses may be offered from a single category. Three or four may be taken in the same department only if adviser finds enough difference in content and methodology to make this justifiable in light of the distribution aims.

- I. Social Science  
Economics, Education, History, Political Science, Psychology, Sociology
- II. Natural Sciences  
Biology, Chemistry, Physics
- III. Humanities  
Drama, Literature (English, in a foreign language, or in translation), Music, Philosophy
- IV. Formal Studies  
Mathematics & Computer Science (Including Psychology 309 - permission of Psychology Dept. required for admission to this course). Any two one-semester courses.  
Modern Language  
Music (for students with some previous training in music.)  
Philosophy 108 (in combination with any course in Computer Science, Mathematics, or with Psychology 309 - permission of Psychology Department required for admission to this course.)

Note: Except for the case of Logic (Phil. 108), which may be combined with a course in mathematics, statistics or computer science, our usual procedure is that adequate introduction to a discipline requires either a one-year sequence or else a semester long introduction followed by a further course in same department. Exceptions are possible only by written appeal with reasons to the Panel of Advisers.

There are no language and physical education requirements. 128 hours or 32 courses are needed for graduation.

Major Degree Programs

American Studies	Humanities
Art	International Studies
Biology	Mathematics
Chemistry	Music
Drama	Philosophy
Economics	Physics
English	Political Science
French	Psychology
German	Sociology
History	Spanish

A major consists of minimum of 8 courses beyond the introductory course. Self-styled interdisciplinary majors are allowed with committee approval.

WASHINGTON TECHNICAL INSTITUTE

General Requirements for Baccalaureate Degree

Agriculture and Natural Resources:

High School graduate or equivalent; 18 years or older.

Technical Teacher Training:

1. Graduation from a community or junior college in a technical area of industrial arts or vocational education or completion of two years of credit at a four-year college in one of these areas.
2. Three years of full-time work experience in a technical area of industrial arts or vocational education.
3. High school graduate or equivalent.

Note:

Admission priority is given to U.S. citizens who are residents of the District of Columbia, next to any U.S. citizen, and lastly to citizens of foreign countries.

Transfer of Courses

We accept as transfer credit from accredited colleges any course equivalent to a course offered by Washington Technical Institute provided the grade is C or better.

Also, a student may receive credit by examination for any course offered at Washington Technical Institute by successfully demonstrating that he/she has attained the objectives of the course.

eligible for loans? . . . . . Usually  
scholarships? . . . . . 2.0  
grants? . . . . . \_\_\_\_\_

## WESTERN MARYLAND COLLEGE

Basic Liberal Arts Subjects

The following basic subject requirements must be satisfied for the Bachelor of Arts Degree.

These requirements are divided into three types as listed below:

- A. Introduction to Liberal Arts - 3 s.h.  
Courses which fulfill this requirement are listed in the Courses of Instruction section of the catalogue under Interdisciplinary Studies.
- B. Distribution requirements - 33 s.h.  
Distribution requirements may not be satisfied or reduced by examination. No course may be used to satisfy more than one requirement.

The 33 hours are to be distributed as follows:

6 hours from Group I - Biology, Chemistry, General Science, Physics, Astronomy, Computer Science, Logic, Mathematics, Statistics  
(At least 3 of these hours must be in a laboratory science.)

6 hours from Group II - Economics, Political Science, Psychology, Sociology

6 hours from Group III - Comparative literature, Modern Languages, Non-Western Studies  
(Modern Language 107, 108 may not be used to fulfill this requirement.)

12 hours from Group IV - English (American and British Literature), History, Philosophy, Religion  
(Courses must be chosen from at least two of the four areas listed.)

3 hours from Group V - Specified courses in Art, Dramatic Art, Music (The 3 hours may be chosen from Art 109, 113, 114, 115; Dramatic Art 119, 124; Music 109. Students majoring in one of these three departments may fulfill this requirement by the satisfactory completion of the introductory courses in the major.)

- C. Proficiency requirements - 0-12 s.h.  
Proficiency requirements may be satisfied or reduced by examination.

English Composition - 0-3 s.h.

Foreign Language - 0-6 s.h.

Physical Education Activity - 0-3 s.h.

Major ProgramsBachelor of Arts

American Studies	Mathematics
Art	Music
Biology	Music Education
Business Administration/ Economics	Philosophy and Religion
Chemistry	Physical Education
Comparative Literature	Physics
Dramatic Art	Political Science
Economics	Psychobiology
English	Psychology
French	Sociology
German	Spanish
History	Student Designed Major
	Theatre English

No more than 48 semester hours in any one department may be counted toward the required 120 semester hours for graduation.

For a "basic" major, departments may specify certain courses as "required courses," both within the major department and in supplementary courses. This total may not exceed 44 semester hours. A student must complete at least 30 semester hours with "C" grade or better within these specified courses, at least 18 of which must be taken at WMC.
