(Fallsington)

ABSTRACT

The statistical data generated by the Pennsbury, Pennsylvania school district's assessment of the needs and resources of the community are presented here. The study itself consisted of two phases: (1) an Opinion Inventory to find out how a random sampling of community and school staff felt about the ideas of community education, and (2) questionnaires to ascertain which programs, activities, and courses most interested a sampling of the community; how many might participate in each one; and what human resources might be available to help implement these programs. (Author/BW)

SCOPE OF INTEREST NOTICE

The ERIC Facility has assigned this document for processing to:

50

In our judgement, this document is also of interest to the clearing houses noted to the right, Indexing should reflect their special points of view.

MEAN CLUSTERS

In order to provide further discrimination, mean clusters were developed by computing the Quartile Deviation on a scale using the lowest community mean rounded to one place and the highest community mean rounded to one place. The lowest community mean is 2.6 and the highest is 4.4. The largest number of items fell at the 3.5 mean with nine items having this mean. Twenty-one (21) community means fell above the 3.5 mean and nineteen (19) fell below.

 $\rm Q_1$ fell within the 3.3 means and Q3 fell within the 3.7 means. A high cluster was determined to be those means that fell within the 3.75 and 4.4 community means. A medium cluster included those that fell within the 3.4 and 3.7 community means, and a low cluster included those means that fell within the 2.6 and 3.3 community means.

	Frequency Distribution f	No. of Items
4.4	1	
4.3	$\overline{1}$	
4.2		
4.1	•	
4.0	1	
3.9		
3.8	4	•••
3:75	5	12.
3.7	7	ı
3.6	2	
3.5	9	•
3.4	6,	24
3.3	4	13
3.2	2	
3.1	1	
3.0	2	
2.9	1	
2.8	1	•
2.7	1	
2.6	1	

However, there are differences between the community means and the school means. Therefore, medium-high, low-medium, and mixed clusters were developed to identify those items which have distinct mean rank differences. The medium-high and the low-medium clusters have a mean rank difference of 9 to 14 between the school and community means. The mixed clusters include items whose means have a rank difference of 15 or more between the community and school means.

MEAN CLUSTERS

The Mean Clusters are:

A. High Ranking

Nine items fell into this category with a range of 3.76 - 4.39 Community Means and 3.65 - 4.57 School Staff Mean with a difference of 5 or less be-bween Community and School Staff item rank order.

B. Medium Ranking

Sixteen items fell into this category with a range of 3.35 - 3.74 Community Mean and 3.20 - 3.65 School Staff Mean with a difference of 9 or less between Community and School Staff Item rank order.

C. Low Ranking

Thirteen items fell into this category with a range of 2.56 - 3.34 Community Mean and 2.36 - 2.99 School Staff Mean with a difference of 8 or less between Community and School Staff item rank order.

D. Medium - High Ranking

Three items fell into this cluster with a range of 3.48 - 4.13 of Community and School Staff Mean and with a difference of 12 - 14 between Community and School Staff item rank order.

E. Low - Medium

Two items fell into this cluster with a range of 3.32 - 3.65 Community and School Staff Mean and with a difference of 11 - 12 between Community and School Staff item rank order.

F. Mixed Ranking

Six items fell into this cluster with a range of 3.12 - 3.81 Community and School Staff Means and with a difference of 16 - 25 between Community and School Staff item rank order.

A. HIGH RANKING

- 1. Nine items
- 2. Fall within 3.76 4.39 Community Means and 3.65 4.57 School Staff Means
- 3. Difference of 5 or less in rank order between Community Means and School Staff Means

FREE INPUT CARDS

The free input cards were used at all Needs and Goals Sessions, and at many of the coffees, door-to-door samplings and organizational samplings. Sets of three color-coded cards were used to solicit the free input.

Demographic information asked included township or borough residence by local governments, sex, age and children's type of school.

Free input cards were used for two main reasons: One, to provide opportunities for community participants to speak their minds -- and discover what participants perceive as major concerns and interests as well as what is being done to their satisfaction.

This process also gave participants a chance to clear the air before completing the rather large and more controlled opinionnaire.

Participants were asked to write what they think are the positive and the negative characteristics of our schools and of our community, and to suggest solutions to these negative aspects.

Some cards were only partially completed. Those who had no children in school at the present time found it difficult to comment about our schools or school district. Others indicated they did not know enough or had not really given much thought to their schools or community.

PROCESSING CARD DATA - Q SORT METHOD. A first batch (113) of cards was examined by a task force member who categorized and tallied the various comments. Next, two other members each examined and tallied a different batch, using the categories developed in the first step. Categories were added, dropped and/or refined.

Finally, three other task force members standardized these categories to be known as cluster areas and listed every comment made on all the cards under the established cluster areas. The Task Force Coordinator further analyzed the data and tallied the comments into sub-clusters within the broader cluster areas.

SOLUTIONS TO SCHOOL PROBLEMS

CLUSTER AREAS WITH SUB-CLUSTERS	NO. OF COMMENTS SUB-CLUSTERS	NO. OF COMMENTS CLUSTER AREA
CURRICULUM Improve basics, writing, English Better reading program - bring joy into program Other - many specific statements Self-defense should be taught Biology for 9th non-honors Stress morality when teaching Put prayer back into the schools - 4 Guidelines and same tests given in all class Allow more electives especially Jr. and Sr. Schools Teach Enrironmental control More current events Expand remedial reading, vo-tech. training, ed. and special ed.	90 srooms High	90
Consumer courses DISCIPLINE - BEHAVIOR Punish children when it is needed More discipline - enforce (no specific ideas) Stricter dress code More supervision on playgrounds, cafeterias, lavatories, halls Other - keep kids from wandering - less free to stop vandalism, better drug program - 6 Teach good citizenship - respect - 2 Install security guards, security system, pool obtain marked cars - observe; teachers should the example Redefine privilege and "right" using lunchrounding bus, using library and books	83 Dlice - 4 ld set	83
AFTER-SCHOOL ACTIVITIES Use schools to benefit the families of the comm Family activities, more for kids - keep them off the streets Would give neighbors in district a chance to know each other better Social events to get people to meet people a want to become involved Cultural programs Not so much red tape for groups to use build	and lings	53
Have planned activities for children of all age after school hours on volunteer basis Especially girls Extra opportunity for able students Science, nature clubs, dance clubs, classic films at nominal charge	es 8	

- 44 -

AFTER-SCHOOL ACTIVITIES - continued	•	
Other - for preschoolers - 4		
Improve summer programs - 2		
Group acitivities - local as		
well as trips at discount prices		
Advertise better - 2		
Use volunteers - to help run programs - 5	15	
	53	
TEACHERS		54
Hire better teachers	13	
Give merit raises	2	
More teachers (especially special ed)	6	
Do away with tenure - get rid of poor teachers	7	
Other - comments reflect concern that teachers	26	
should be more dedicated and have better		
relationships with students		
	54	
SIZE AND STRUCTURE		45
Smaller classes	13	
Go back to 6-3-3 or K-5, 6-7, 9-12	4	
Close classrooms	2	
Make two high schools	14	
Make two districts	2	
Other - don't build large schools in future	10	
K-6 in one building, stop moving children		
all over district	45	
	43	
CONSTRUCTOR TOUCH TOUCH TOUCH		33
COMMUNICATIONS - INVOLVEMENT	33	33
Improve it! Let people be aware of school use	J J	
Have more parent conferences		
Better liaison with community and parents		
Let people know all about programs (all		
programs)		
Improve understanding between School		
Board and Community		
Get more involved with the community		
Use volunteers - 6		
After visiting schools, parents should be		
shocked into action!		
Better relations - agency cooperation		
Get Community Education - 3		
Koffee Klatch		
CO-CURRICULAR		19
More non-athletic activities, plays, clubs	5	
More teams - have more teams within school	3	
Less team sports - concentrate on physical		
development and carry-over sports	5 <u>6</u> 19	
More opportunities for everyone		
	<u>6</u>	

SPECIALIZED NEEDS OF CHILDREN AND YOUTH		14
Have educational programs on LD for school	5	
personnel and community (quire it for		
school personnel)		
Other:		
Programs for gifted, mentally and physically	9	
handicapped regarding occupation, more super-		
vision and organization from administration		
LD program, more therapists for reading, speech.		•
		
	14	
DICTNO		10
BUSING Have parents contribute to summer bus service		10
Centralize special classes or have teachers		
commute more rather than bus students.		
Better training for bus drivers (handling		
students)		
No door stop busing - bus from central points		
Mini-bus service for after-school activities		
Let more walk		
Put in sidewalks		
	10	
		•
GUIDANCE		6
More indepth counselling		
Counselors better informed for dealing with		
children after high school not going to		
college	6	
ADMINISTRATION	. -	5
Reduce, stop image-making, get more competent	5	
OTHER		31
Upgrade Wm.Penn to level of Pennwood and Bair,		J.
especially library		
Volunteers from community should help out with progr	ramq	
Install sidewalks	Lumb	
Better assembly programs		
Ban student cars at school		
Change boundary lines - provide a better income mix		
Separate PTO from student activities (money)?		
Hold new PTO/PTA elections (same people - a click)		
Have crossing guards for all grades		
Better school lunches		
Pave and mark area for student parking -		
provide off-street parking	31
