TITLE SRM Manual, Selected Resource Materials: Description and Evaluation.  
INSTITUTION Alberta Dept. of Education, Edmonton. Special Educational Services Branch.  
PUB DATE Oct 74  
NOTE 119p.  
EDRS PRICE MF-\$0.83 HC-\$6.01 Plus Postage.  
DESCRIPTORS Elementary Secondary Education; \*Evaluation; Exceptional Child Education; \*Handicapped Children; \*Instructional Materials; \*Program Descriptions; \*Resource Guides  
IDENTIFIERS \*Alberta

ABSTRACT

provided in the manual is descriptive and evaluative information on 67 instructional materials or programs frequently used with exceptional children in Alberta schools. A flow chart describes the three methods of using the manual: 1) to obtain descriptive and evaluative information of an instruction program in the manual 2) to classify and record evaluations of new instructional materials not in the manual, and 3) to locate suitable resource materials given a student development problem. Sections are given to general categories of resource programs; definitions and classification of general resource program categories and program descriptions; a summary index of programs; a personal social skill development matrix; perceptual cognitive motor skill matrixes; educational content skills matrixes; research findings (an extensive review of the literature found evaluative information on only 24% of the resource material analyzed); a list of the distributors, copyright and approximate cost of selected resource programs; teacher evaluation forms; and references. Most of the information is presented in chart and matrix form. (DB)

\*\*\*\*\*  
\* Documents acquired by ERIC include many informal unpublished \*  
\* materials not available from other sources. ERIC makes every effort \*  
\* to obtain the best copy available. Nevertheless, items of marginal \*  
\* reproducibility are often encountered and this affects the quality \*  
\* of the microfiche and hardcopy reproductions ERIC makes available \*  
\* via the ERIC Document Reproduction Service (EDRS). EDRS is not \*  
\* responsible for the quality of the original document. Reproductions \*  
\* supplied by EDRS are the best that can be made from the original. \*

# SRM MANUAL

## Selected Resource Materials: Description and Evaluation

U.S. DEPARTMENT OF HEALTH,  
EDUCATION & WELFARE  
NATIONAL INSTITUTE OF  
EDUCATION

THIS DOCUMENT HAS BEEN REPRODUCED EXACTLY AS RECEIVED FROM THE PERSON OR ORGANIZATION ORIGINATING IT. POINTS OF VIEW OR OPINIONS STATED DO NOT NECESSARILY REPRESENT OFFICIAL NATIONAL INSTITUTE OF EDUCATION POSITION OR POLICY

## PREFACE

Educational programs in Alberta have been growing at a very rapid pace in the past five years. Teachers of special classes and of regular classes are charged with similar responsibilities - to cater educationally to the particular needs of each and every child who they teach. A host of resource materials are available and some can be very helpful to teachers in carrying out their responsibilities.

The Special Educational Services Branch of the Alberta Department of Education has undertaken the development of this manual of selected resource materials with the hope of providing direct information to school personnel (teachers, counsellors, reading specialists, and psychologists) regarding the nature, effectiveness and practicality of resource materials frequently used in the past few years. A project was set up utilizing the services of Ms. Peggy Camplin and Mr. Garnet Millar to investigate the kinds of resource materials that are most frequently in use in this province and to develop the SRM Manual (Selected Resource Materials Manual).

The SRM Manual represents a first step in the possible development of a evaluative materials access system incorporating data from research journals, experimental programs, teachers and other personnel in the Alberta school system. One incredible observation by the authors of the manual was that in an extensive

review of the literature, they found evaluative information on only 24% of the resource material analyzed. This fact suggests that the manufacturers of most resource materials, apparently, do not conduct pilot studies to determine the effectiveness of their programs prior to publication. The SRM Manual provides the procedures and materials by which teachers can record their evaluations of programs they are currently using.

The resource programs described and evaluated were suggested to the authors by reading specialists, school psychologists, and professors. They have worked in the fields of reading, perception, and educational programming.

Suitable criteria to describe and evaluate instructional programs have not been reported in the literature, however, the authors of this Manual attempted to establish suitable criteria whereby a program can be effectively reviewed. Teachers in the field are requested and urged to provide feedback about the usefulness of the Manual, and to submit their own field tests evaluations. In this manner, the SRM Manual can be revised and more programs can be added to the publication in the future.

The Edmonton Regional Office of Education will soon be publishing and distributing a publication titled Learning Disabilities: A Select Bibliography of Resources which will be most valuable to field personnel as a complement to this publication.

In developing the SRM Manual the authors have integrated materials from many disciplines to provide field personnel with information that is designed to aid teachers in dealing with the total development of each school youngster. Thus the focus on

personal social skill development as well as on perceptual-cognitive motor skills and educational content skills. However, as with most things, the real value of the SRM Manual is the intelligent use of it by field personnel. Its true value lies in improving the quality of the teacher-student interaction. I am confident that this will happen.

*TRMott.*

Mr. Terry R. Mott  
Supervisor  
Guidance and Counselling  
Alberta Department of Education

## ACKNOWLEDGEMENTS

The authors of the SRM Manual are grateful to a number of people who encouraged us and shared their experience with us.

Mr. Terry Mott, Alberta Department of Education, was a constant source of encouragement and counsel during the preparation of the Manual.

Professor David A. Baine, Educational Psychology, University of Alberta, is sincerely thanked for his academic assistance and insightful comments throughout the preparation and writing of the manual. In particular, Dr. Baine was helpful in the development of the classifying system for the three student skill development areas. This classification system allows for a concise method of program, description, administration, and evaluation. It is a comprehensive method for teachers to obtain information on the selected programs and to extract the essence from other resource programs. The authors consider this a major contribution to the success of this manual.

The instructive advice of Dr. Gerry M. Kysela, Chairman of Special Education at the University of Alberta, is appreciated.

Counsellor Educators at the University of Alberta - Dr. John G. Paterson and Dr. Don D. Sawatzky, are thanked for their suggestions regarding the project.

The personnel at the Learning Centres in Red Deer and Grande Prairie was most helpful in acquainting the authors with available

resource materials in the province of Alberta

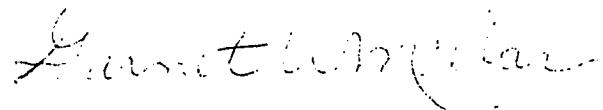

Particularly helpful during the preparation of reading materials were Mr. Verne Lowry, Supervisor of Reading, Edmonton Public School Board; Mrs. Margaret Stephenson and Mrs. Marion Black, Language Arts Consultants with the Edmonton Public School System; and Mrs. Audrey Irvine of L.Y. Cairns School in Edmonton.

Dr. John Brosseau, Pupil Personnel Director, Edmonton Separate School System, and Mr. Clement King, Lecturer in Special Education, University of Alberta, are thanked for taking time from a busy schedule, and sharing their helpful suggestions with us.

We sincerely thank Dr. W.R. Duke, Alberta Department of Education, for provided the necessary funds for this project through the Research and Planning Directorate.

Peggy Camplin

## CHAPTER 1

### INTRODUCTION

This chapter deals with the three methods of using the SRM Manual. Graphically, a flow chart simplifies the three methods.

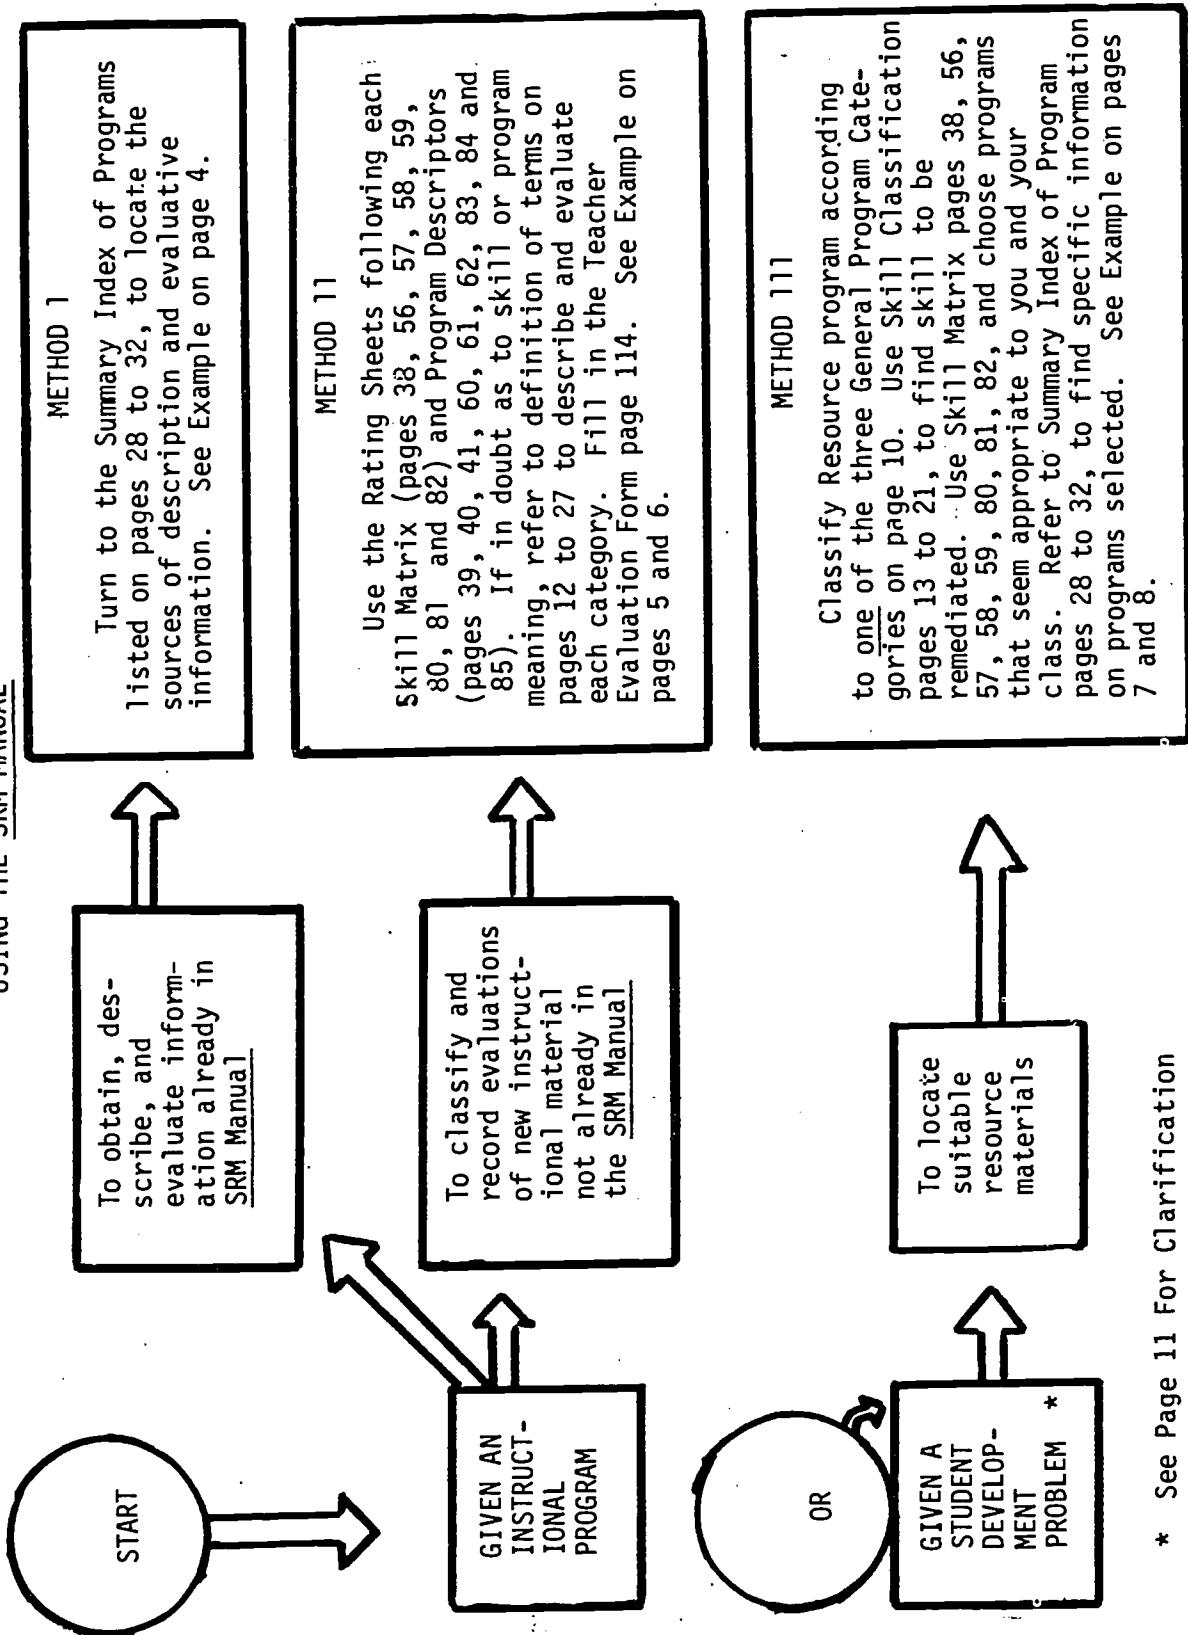

CHAPTER I  
INTRODUCTION-  
SELECTED RESOURCE MATERIALS MANUAL

There are three methods for using the Selected Resource Materials (SRM) Manual. To obtain a description and evaluation of a given program, use Method I. Given a specific student development problem, the procedures for Method III will direct the teacher to suitable resource materials. Method II provides the means by which field personnel can classify and record their evaluation of new instructive materials not already in the manual. It is most important that the teacher reads the pages of definitions to understand the classification and coding systems.

The classification model used allows for revision, updating, and computerization of the resource program information.

A FLOW CHART SHOWING THE THREE METHODS OF

USING THE SRM MANUAL

\* See Page 11 For Clarification

## B. METHOD 1 - SPECIFIC PROGRAM SELECTION

PURPOSE: To obtain descriptive and evaluative information about a program listed in the Manual.

STEP 1: Refer to the Summary Index of Programs (Pages 28 to 32), where all the programs are alphabetically listed.

STEP 2: Locate the title of your program.

STEP 3: Looking across the grid, the numbers refer to pages where specific information about the program can be found. For example, the SRA Focus on Self Development Program is alphabetically listed in the Summary Index of Programs (Page 32). To locate information about the General Category and Program Descriptors (Population, Description, Administration, Research, and Distributor and Cost), the numbers on the grid refer to the pages where the specific information can be found. The relevant information on the SRA - Focus on Self Development can be found on pages 34, 35, 36, 37, 87, 96.

Another example is the Cuisenaire Program listed alphabetically on the Summary Index of Programs, page 29. Information about its Skill Classification and Program Descriptors are found on pages 68, 73, 76, 79, 90, 101.

## B. METHOD II - TEACHER EVALUATION OF A PROGRAM

PURPOSE: To obtain descriptive and evaluative information about a program not in the Manual that the teacher has field tested.

STEP 1: Classify the program according to one of the three General Categories on page 10.

- A. Personnel Social Skill Development Program
- B. Educational Content Program
- C. Perceptual Cognitive Motor Program

Use definitions on pages 12 to 27 for terms needing clarification.

STEP 2: Use the blank rating sheets following each Skill Matrix, to determine the skills in your program.

STEP 3: Fill in the blank rating sheets following each program description, example; Population (page 60), Description (page 61), Administration (page 62) and Research (page 93).

STEP 4: Complete and return Teacher Evaluation Form, page 103.

For example, if a teacher were to describe and evaluate a program entitled "The Remediation of Learning Disabilities, A Psychoeducational Resource Program", the following steps would be followed.

STEP 1: Reading the definitions of General Program Categories, it would be classified under the Perceptual Cognitive Motor Program.

STEP 2: The blank sheet entitled Perceptual Cognitive Motor Skill Matrix would be completed.

STEP 3: Each descriptor, example; Population (page 60), Description (page 61), Administration (page 62) and Research (page 93),

would be completed for "The Remediation of Learning Disabilities, A Psychoeducational Resource Program."

STEP 4: The Teacher Evaluation Form (page 103), would be completed regarding the program and sent to the Alberta Department of Education.

✓✓✓

### C. METHOD III - SPECIFIC SKILLS TO PROGRAM SELECTION

PURPOSE: If you have no specific program in mind, then a program suitable to teach specific skills can be found by following these steps:

STEP I: Using the General Categories (Page 10), you should classify the student skill(s) to be remediated under one of three General Categories:

- I. Personal Social Skill Development
- II. Perceptual Cognitive Motor Skills
- III. Educational Content Skills

STEP 2: Use Skill Classification pages to find the skill(s) to be remediated. For example, if you choose the General Category of Educational Content Skills in Step I, you may decide to select Reading as the skill classification.

STEP 3: Having chosen the skill area (reading in the example), turn to the Reading Skills Matrix (Page 64). Choose a skill area within programs that seem of interest to you and that will suit the needs of your pupils. In the example of reading as the skill classification, choose a few reading programs that seem appropriate for your group of pupils or class.

STEP 4: Refer to the Summary Index of Programs (Page 29), where these programs are listed alphabetically. The page numbers for the Skill Matrices and Program Descriptors (Population, Description, Administration, Research, Distributor and Cost) will be listed. In the example, reading programs named Cracking the Code (Page 29), and the reading program called Distar-Reading I, II, III, (Page 30)

would be located in the Summary Index of Programs (page 29 - 30). Specific information on the two programs could be referred to by using the page numbers listed opposite the programs. (Cracking the Code, pages 65, 71, 75, 78, 91, 100; and Distar-Reading 1, 11, 111, pages 64, 70, 74, 77, 90, 99).

## CHAPTER 11

### GENERAL CATEGORIES OF RESOURCE PROGRAMS

This chapter categorizes the resource programs into three broad areas. A model is presented for the classification of selected resource programs.

## CHAPTER 11

### GENERAL CATEGORIES OF RESOURCE PROGRAMS

#### 1. Personal Social Development Programs

- A. Awareness of Self and Others
- B. Understanding and Acceptance of Feelings
- C. Positive Self Concept
- D. Personal Competence of Skill
- E. Understanding Values
- F. Acceptance of Personal Responsibility
- G. Social Interaction
- H. Problem Solving

#### 11. Perceptual Cognitive-Motor Programs

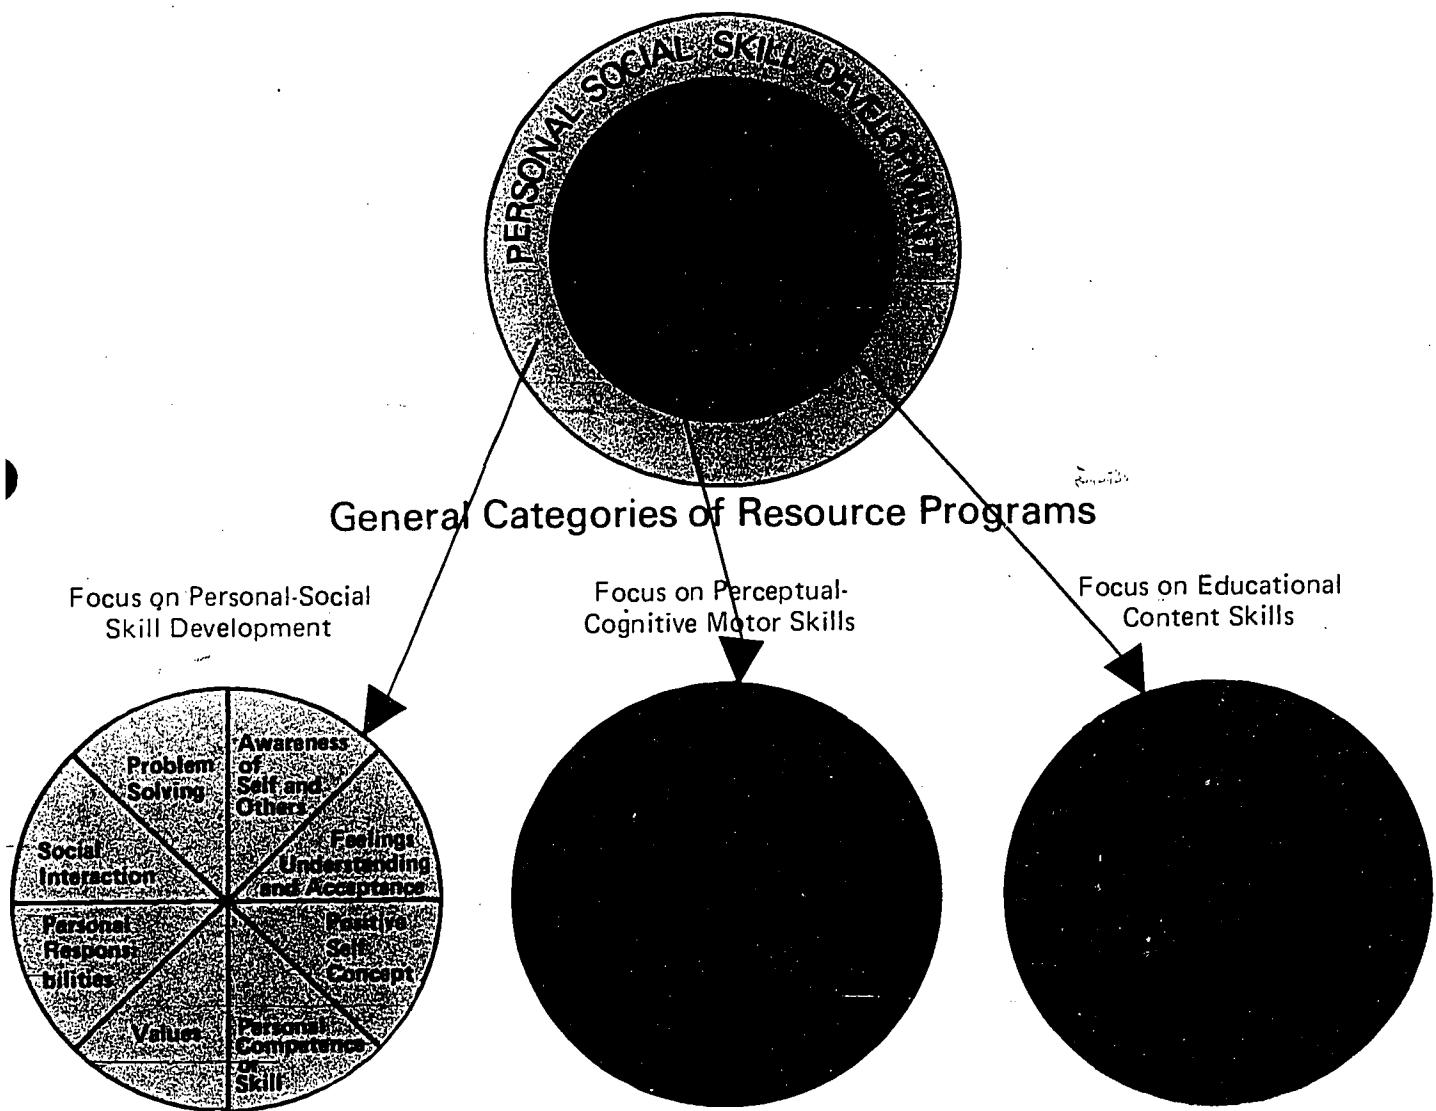

- A. Visual Skills
- B. Auditory Skills
- C. Motor Skills
- D. Verbal Skills

#### 111. Educational Content Programs

- A. Reading Skills
- B. Language Skills
- C. Arithmetic Skills

## A MODEL FOR CLASSIFICATION OF SELECTED RESOURCE MATERIALS

### General Categories for Student Development

### CHAPTER III

#### DEFINITIONS AND CLASSIFICATION OF GENERAL CATEGORIES FOR STUDENT DEVELOPMENT AND PROGRAM DESCRIPTORS

This chapter deals with definitions that are important to understand the skills, descriptions and evaluation of the selected resource programs

CHAPTER III  
DEFINITIONS AND CLASSIFICATION OF GENERAL CATEGORIES  
FOR STUDENT DEVELOPMENT AND PROGRAM DESCRIPTORS

PART I: Personal Social Skills

- A. Awareness of self and others.
- B. Understanding and acceptance of feelings.
- C. Positive self concept.
- D. Personal competence or skill.
- E. Understanding values.
- F. Acceptance of personal responsibility.
- G. Social interaction .
- H. Problem solving.

PART II: Definitions and Classification of Perceptual Cognitive Motor Skills.

A. VISUAL SKILLS

1. Visual Discrimination is the ability to perceive similarities and difference between objects, numbers, letter, or words that are visually presented. It is primarily a sensory process.

2. Visual Perception is the ability to recognize, identify and interpret visually presented material. It is primarily a sensory-cognitive process.

3. Perceptual Constancy is the ability to perceive the permanence (lastingness) and stability (samesness) of objects that are transformed in ways that do not change their identity. For example, the letter "a" may be transformed into upper case "A" or into different type style "a"s.

4. Visual Memory is the ability to remember a visually presented material for short or long periods of time.

5. Spatial Awareness is the ability to identify spatial order and spatial relationships of bodies with respect to position, direction, distance, and form.

6. Eye-Hand Coordination is the ability to relate manual responses to visual stimuli in appropriate manners; for example, hand movements are manifested and guided by visual observations as in tracing or writing activities.

7. Visual Figure Ground is the ability to organize visual perception into what is most relevant (figure) and least relevant (ground).

8. Visualization is the ability to mentally "picture" situations, events, or things when presented verbally.

9. Visual Closure is the ability to "fill in" missing parts of what is seen so that an object is perceived as complete.

10. Visual Sequencing is the ability to sequentially arrange objects, pictures, letters, or words in the same manner as a previously presented example.

#### B. AUDITORY SKILLS

1. Auditory Discrimination is the ability to perceive similarities and differences between two or more sounds. It is primarily a sensory process.

2. Auditory Perception is the ability to recognize, identify and interpret sounds. It is primarily a sensory-cognitive process.

3. Auditory Figure-Ground is the ability to organize auditory perception into what is most relevant (Figure) and least relevant (ground).

4. Auditory Memory is the ability to remember sound for short or long periods of time.

5. Auditory Comprehension is the ability to associate what is heard with past experiences.

6. Auditory Sequencing is the ability to sequentially arrange what is heard in the same manner as a previously presented example.

7. Critical Listening is the ability to analyze what is heard in its "core" or essential meaning.

### C. MOTOR SKILLS

1. Coordination is the ability to simultaneously move several muscles or muscle groups. This category includes both large muscle movement (gross motor) and small muscle coordination (fine motor).

2. Agility is the ability to make rapid movements of the entire body in different directions in response to unexpected situation; change of direction, make sudden stops and rapid starts.

3. Strength is the ability to exert force by part of the body or the whole body.

4. Flexibility is the ability to move joints of the body in easy and graceful bending and twisting movements.

5. Speed is the ability to achieve a quick tempo during a movement sequence.

6. Balance is the ability to make compensatory movements to maintain equilibrium to static or dynamic activities, example the ability to remain erect while standing or hopping on one foot.

7. Laterality is the awareness of a difference between left and right.

8. Directionality is the awareness of the up-down axis, left and right, and of up and down, front and rear concepts.

9. Body Awareness is the ability to identify his body parts and to be aware of their function or use.

#### D. VERBAL EXPRESSION SKILLS

1. Vocabulary Development is the ability of the child to learn and use new words to express his thoughts.

2. Accurate Speech Production is the ability of the child to speak clearly to communicate his ideas.

3. Reasoning is the ability of the child to think through a situation before responding.

4. Word Fluency is the ability of the child to use words easily in his verbal expression.

5. Memory is the ability to recall past experience and knowledge, and relate it meaningfully to the present situation.

6. Quantitative Expression is the ability of the child to use numbers orally.

7. Part-Whole Relationship is the ability of the child to understand the parts of an object and their function.

## PART III: Educational Content Skills

### A. READING

#### 1. Basic Approach

- a. phonic - an instructional approach which emphasizes the learning of sound-symbol correspondence and the rules that govern them. There is little emphasis on other word analysis clues such as structure, context and pictures or on oral language.
- b. linguistic - an instructional approach which emphasizes the learning of regular spelling patterns of words (example - fan, tan, man), through the use of words whose meaning are supposedly within the child's range of language and vocabulary. Most linguistic readers center attention on word clues alone, excluding pictorial clues.
- c. sight-word - an instructional approach which emphasizes the recognition of whole words without the use of phonic or structural clues (look-say method).
- d. Eclectic - a combination of different approaches.
- e. other - includes instructional approaches using pictorial symbols, language experience, etc.

#### 2. Reading Skills

##### A. Vocabulary

- a. word recognition
- b. word meaning
- c. dictionary skills

B. Word Attack Skills

- i) phonic analysis - includes skills involving: consonants (initial, medial, final, single or double), vowels (short, long, irregular combinations), blends, digraphs.
- ii) structural analysis - includes skills involving: plurals, possessives, roots, prefixes, affixes, verb endings, comparatives, superlatives, compound words, contractions and syllable patterns.

C. Comprehension

- i) main idea - theme of the story.
- ii) details - dates, names, events, places.
- iii) evaluation - is the ability to draw inferences about the moods and feelings in the story, as well as draw conclusions about, and predict outcomes in the story.

D. Oral Reading

3. Study Skills

- a. skimming
- b. organization - note taking
- c. summarizing

4. Content

- a. Canadian
- b. American

B. LANGUAGE SKILLS

1. Spelling

29

2. Oral Communication

- a. listening
- b. speaking
- c. dramatics

3. Written Communication

- a. creative writing - stories, poetry.
- b. practical composition - letters and reports.

4. Grammar

- a. punctuation and capitalization
- b. parts of speech
- c. tenses
- d. sentence concepts - structures and types of sentences and paragraphs.

5. Handwriting Skills - printing skills and penmanship

C. ARITHMETIC SKILLS

1. Pre-Operational Concepts

- a. sets - matching or one-to-one correspondence
- b. ordering - understanding the concept of "one or more".
- c. grouping - sorting or classifying
- d. equivalence - equality
- e. comparison - more than, less than
- f. counting -
  - 1. rote counting - counting only from memory.
  - 2. rational counting - counting with an understanding of numbers.

**2. Number Concepts**

- a. reading numbers
- b. writing numbers
- c. place value
- d. fractions
- e. decimals

**3. Operations**

- a. addition
- b. subtraction
- c. multiplication
- d. division
- e. carrying
- f. borrowing

**4. Problem Solving**

**5. Measurement**

- a. linear
- b. perimeter
- c. area
- d. volume
- e. weight
- f. time
- g. money

**6. Geometry**

**7. Graphs**

## PROGRAM DESCRIPTORS

### PART IV: Population of Program

#### A. GRADE LEVEL

1. Pre-School - includes age range of 3-4 years.
2. Kindergarten - includes age range of 4-5 years.
3. Primary - includes age range of 6-8 years.
4. Intermediate - includes age range of 9-11 years.
5. Upper Elementary - includes age range of 10-12 years.
6. Secondary - includes age range over 14 years.

#### B. STUDENT CATEGORIES \*

- a. Average - children who are considered normal in terms of intellectual, emotional and physical functioning and development.
- b. Educable Mentally Retarded (EMR) - children who are considered to significantly below normal in intellectual functioning, (I.Q.  $50-75\pm 5$ ), but have potentialities for minimum academic achievement, independent adjustment to the community and minimal occupational adequacy.

\* These Student Categories were taken from the Guidelines For the Payment of Special Education Teaching Position Grants from Dr. E. J. M. Church, Director, Special Educational Services Branch, Alberta Education, August, 1973.

c. Learning Disabled - children who are characterized by 3 common traits:

1. they have average or above average intelligence
2. they have apparently adequate sensory development in terms of hearing and vision.
3. they exhibit a significant discrepancy between their apparent potentiality and their school achievement.

d. Trainable Mentally Retarded (TMR) - are significantly below normal in intellectual functioning (I.Q. 25-50±5), but who are capable of self-care, adjustment to the home and neighborhood, and economic usefulness within a supervised situation.

e. Disadvantaged - children who, because of an impoverished cultural and/or home environment, develop problems in learning and/or behavior.

f. Other - this category includes: non-English speaking children, deaf, blind, and physically handicapped.

#### PART V: Program Description

##### A. MATERIALS (abbreviations for charts given)

1. Workbooks or Sheets (Wk. bks. Shts.)
2. Cards (cds.)
3. Manipulables - (e.g. blocks, puzzles, balls, etc.)
4. Cassettes, Tapes, Records (cas., tps., rcds.)
5. Filmstrips (flm. stps.)
6. Teacher's Manual (tchs. manual)
7. Books or readers (bks. or rdrs.)

8. Reuseable
9. Related Materials Available (rltd. mat. aval.)

#### B. PROGRAMMED

Programmed instruction concerns the step-by-step presentations of instruction following each unit for which the learner is required to respond to demonstrate his understanding of the material. He is provided with feedback as to the correctness of his response and in accordance with his accuracy, he proceeds to the next step or reviews the preceding material. Such a program permits self-paced learning.

#### C. TYPE OF PROGRAM

1. Instructional Program - a set of materials designed to teach a specific concept.
2. Transfer-Base - indirect approach of teaching certain skills which are expected to transfer to academic and/or other peripheral skills not directly instructed, eg. the improvement from problem solving exercises in the Duso program is expected to transfer to effective problem solving in daily life.
3. Direct Teaching - direct correction of problems not dependent upon transfer from other areas, eg. arithmetic computations or problems.

#### D. FEEDBACK SYSTEM

Information is given about the appropriateness of a response so that failures or errors can be eliminated and correct responses maintained.

1. Immediate Feedback - teacher observes each student response or student is immediately able to see if his response is correct or incorrect.

2. Delayed Feedback - teacher doesn't observe each response or student must wait to ascertain the accuracy of his responses.

N.B. Program must have a formal structured mechanism for feedback in order to be evaluated in feedback category.

#### E. TESTING

1. Criterion-Referenced - evaluates a student's mastery of each instructional objective in an instructional sequence of explicit educational objectives stated in behavioral terms. The individual's achievement is related to his progress along the instructional sequence rather than being compared to a norm-referenced group.

2. Normative Testing - a standardized testing approach where an individual's score is interpreted in relation to the scores obtained by a selected norm group.

3. Mastery Test - measures successful completion of an instructional sequence in behavioral terms.

4. Diagnostic Test - designed to pinpoint specific areas of strengths and weaknesses, among the subparts of some larger skill or subject area.

5. Placement Test - measures achievement along an instructional sequence indicating where instruction should begin and what skills the individual possesses. (Same as entry level).

6. Test Reliability - refers to the extent to which the test yields consistent results upon testing and retesting. Consistency of scores obtained by the same person when retested with the identical or equivalent test is known as reliability. The attitude and/or physical health (tummy ache) are factors to consider in reliability.

If, for example, a child receives an I.Q. score of 115 on Monday, and an I.Q. score of 75 when retested with the same test on Friday, it is obvious that the test is not reliable, or that the child is not reliable

CODING LEGEND

1. Acceptable
  2. Marginal
  3. Unacceptable
7. Test Validity - refers to the degree to which a test actually measures what it is being used to measure, when compared with accepted criteria. If, for example, the Frostig Developmental Test of Visual Perception (DTVP) to predict early elementary school academic performance (particularly reading) of a child, success in reading would be the accepted criterion. A high degree of relationship between the Frostig DTVP and success in reading would indicate high validity in the Frostig DTVP for reading success in the early grades of elementary school.

CODING LEGEND

1. Acceptable
2. Marginal
3. Unacceptable

PART VI: Program Administration

A. SIZE

1. Individual
2. Group

B. PERSONNEL

1. Self-instructed (programmed) - the student requires no outside help in progressing through the program, and can follow instructions on his own.

2. Teacher-instructed - the student requires teacher help and direction in order to follow the program.

C. TRAINING REQUIRED

1. Read teacher's manual
2. Workshop desirable
3. University course work desirable
4. Paraprofessional can administer program

D. INSTRUCTIONAL OBJECTIVES

Instructional objectives are statements of what the student will be able to do at the end of an instructional unit.

1. In behavioral terms - skills will be expressed in observable, measurable behavior.
2. In perceptual-cognitive terms - inferred central processes as opposed to observable behaviors.
3. Not stated in program.

PART VII: Research Findings

A. Transferability - degree to which improvement resulting from the use of a program will transfer to other areas of performance, e.g. skills learned in Frostig Figure - ground exercises might transfer to performance in reading, language and arithmetic.

B. Efficacy - the effectiveness of a program in achieving its stated objectives.

C. Rating of Research Findings -

1. Acceptable- program measures and improves what it says it does.

2. Marginal - research provides limited support for program.
3. Unacceptable - research does not support the intent of the program.
4. No evaluative data available.

## CHAPTER IV

### SUMMARY INDEX OF PROGRAMS

This chapter lists alphabetically all the programs that have been described and evaluated in the SRM Manual. The numbers opposite each program refer to pages where specific information can be found.

(Looking across the grid, the numbers refer to pages where specific information about the program can be found.)

**CHAPTER IV SUMMARY INDEX OF PROGRAMS**  
(Numbers refer to page numbers)

| PROGRAMS   | SKILL MATRICES |        |       |        |         |          | PROGRAM DESCRIPTORS |          |         |             |          |          |
|--|----------------|--------|-------|--------|---------|----------|---------------------|----------|---------|-------------|----------|----------|
|  | Auditory       | Visual | Motor | Verbal | Reading | Language | Arithmeti-          | Personal | Popula- | Description | Adminis- | Re-      |
|  |                |        |       |        |         | c        | & Social            | tion     |         | stration    | search   | Distrib. |

**CHAPTER V**

**PERSONAL SOCIAL SKILLS DEVELOPMENT**  
**AND DESCRIPTION**

This chapter provides information on the classification of the skills and description of selected personal social skill development programs. The sheets with only the personal social skill matrix and program description at the end of this chapter are for teacher us in evaluating a program.

CHAPTER V

PERSONAL SOCIAL SKILLS DEVELOPMENT AND DESCRIPTION

| PROGRAM  | PERSONAL SOCIAL SKILL DEVELOPMENT MATRIX |                                      |                       |                              |                      |                                       |

## CHAPTER VI

### PERCEPTUAL COGNITIVE MOTOR SKILLS AND DESCRIPTION

This chapter provides information on the classification of the skills and description of the selected perceptual cognitive motor programs. The sheets with only the perceptual cognitive motor skill matrix and program description at the end of this chapter are for teacher use in evaluating a program.

III PERCEPTUAL COGNITIVE      MOTOR SKILL MATRICES

## CHAPTER VII

### EDUCATIONAL CONTENT SKILLS AND DESCRIPTION

This chapter provides information on the classification of skills and description of selected educational content programs. The sheets with only the educational content skill matrix and program description at the end of this chapter are for teacher use in evaluating a program.

## CHAPTER VIII

### RESEARCH FINDINGS

This chapter provides evaluative information on the programs described in the SPM Manual. Specific studies cited for some of the programs can be found in Chapter XI - References. Also, a list of sources used in evaluating some of the programs is included.

## CHAPTER IX

### DISTRIBUTOR, COPYRIGHT AND APPROXIMATE COST OF SELECTED RESOURCE PROGRAMS

This chapter provides information on the Canadian Distributor of the program, where possible the copyright date, and approximate cost. The programs are classified under the three Readings of General Categories.

Part I: Personal Social Skill Development Programs

Part II: Perceptual Cognitive Motor Programs

Part III: Educational Content Skill Programs

## CHAPTER X

### TEACHER EVALUATION FORM

This Teacher Evaluation Form is intended to be used by teachers who have field tested a specific program. Users of programs not found in this manual are requested and urged to complete the form and return it to the address indicated on the Form.

CHAPTER X  
TEACHER EVALUATION FORM

To help in keeping an accurate and up-to-date catalogue of instructional materials please complete this check list evaluation. After you have used and evaluated new materials other than those already listed in the catalogue. Please send completed evaluation sheet to Mr. Terry Mott, Supervisor of Guidance and Counselling, Executive Building, 109 Street and Jasper Avenue, Edmonton, Alberta.

Title of Material(s) \_\_\_\_\_

Form or Level \_\_\_\_\_ Copyright date \_\_\_\_\_

Publisher \_\_\_\_\_ Address \_\_\_\_\_

Basis of Evaluation

Indicate  if you, a regular \_\_\_, special class \_\_ or remedial \_\_ teacher or reading specialist \_\_ or psychologist \_\_ or group \_\_ instruction with (indicate number) \_\_ average \_\_, mentally retarded \_\_, gifted \_\_, learning disabled \_\_ or other (indicate) \_\_\_\_\_ children of ages \_\_ to \_\_ and grades \_\_ to \_\_ for a period of \_\_ months using a control group yes \_\_ no \_\_.

Results Of Evaluation: 1. Population

The program is suitable for individual \_\_\_ and group \_\_\_ instruction of size (indicate number) \_\_\_ of typical \_\_\_, mentally retarded \_\_\_, gifted \_\_\_, learning disabled \_\_\_, disadvantaged \_\_\_, in teaching perceptual-cognitive skills \_\_\_, reading \_\_\_, language \_\_\_, arithmetic \_\_\_, personal-social skills \_\_\_.

Program Description

Program Administration

The administration procedures are \_\_\_ are not \_\_\_ easily understood.

## CHAPTER XI

### REFERENCES

This chapter lists alphabetically all the studies that were used in evaluating some of the programs. Of the programs reviewed, only 24% had evaluative information.
