This annotated bibliography cites print and video resources available on folklore which can be used with elementary students. The bibliography is coordinated with and can be used to supplement the content of the Holt Database System program, grades three through six, and the National Center of Study (NCSOS) curriculum, grades five and six. In choosing film literature for inclusion, the teacher's manuals for the Holt and NCSOS programs were carefully perused and any pertinent subjects noted. Short stories, books, filmstrips, and records are cited for use with the Holt components of Inquiring about Cities; Inquiring about Cultures; Inquiring about American History; and Inquiring about Technology. There is a section which cites folk literature available in the state of Pennsylvania. The pertinent material found in the Holt NCSOS deals with the Eskimo (1961, 1971).

Documents acquired by ERIC are made available in microfiche and microfilm. ERIC does not guarantee the accuracy of the information contained in these documents. ERIC is not responsible for the quality of the original document. Reproductions supplied by ERIC are the best that can be made from the original.
