IDENTIFIERS Asia

ABSTRACT

This directory contains information on 39 institutions and 108 projects of research teaching and training in demography in Asia and the Pacific. Eight countries are represented: Australia, Bangladesh, Hong Kong, India, Iran, Japan, New Zealand, and Pakistan. The following information is given for each institution: name, address, person in charge, professional staff, publications, and curricula. Information on research projects includes title, director, aim, area of research, publications, and date of completion. Most of the research projects are concerned with population growth and characteristics, fertility, mortality, migration, interrelations of demographic and other factors, and research methodology. Tables are included which show the scope of the entire survey to which this document is a third supplement. Among these is a list of all institutions surveyed, arranged alphabetically by each of 21 countries, with indicators showing which of the original or supplementary publications contain information about their projects. (AV)

 * Documents acquired by ERIC include many informal unpublished *
 * materials not available from other sources. ERIC makes every effort *
 * to obtain the best copy available. Nevertheless, items of marginal *
 * reproducibility are often encountered and this affects the quality *
 * of the microfiche and hardcopy reproductions ERIC makes available *
 * via the ERIC Document Reproduction Service (EDRS). EDRS is not *
 * responsible for the quality of the original document. Reproductions *
 * supplied by EDRS are the best that can be made from the original. *

July 1975

Dear Sir,

Following the publication of Asian Population Studies Series No. 8, **Research Teaching and Training in Demography - A Directory of Institutions in the ESCAP Region** (United Nations publication E/CN.11/1007), which listed the activities of over 200 institutions in 19 countries, Supplements 1 and 2 of the Directory were compiled and distributed to provide users of the Directory with up-to-date information on institutions engaged in population programmes.

We are now pleased to send you the third and final batch of supplementary information sheets, containing current information on 39 institutions and 108 new projects. Revised data bear the indication "(revised 1975)" and data relating to institutions included for the first time are marked "(added 1975)".

We hope to continue the task of monitoring developments within the population field. If you know of any institution which we have not listed either in the Directory or in the three Supplements, please inform us by completing and returning the questionnaire attached as annex III.

Thank you for your co-operation and support.

Carl M. Frisen
Chief
Population Division
ESCAP

Index B

INSTITUTIONS FOR WHICH SUFFICIENT INFORMATION COULD NOT BE COLLECTED AND THOSE WHICH ARE CURRENTLY NOT INVOLVED IN POPULATION ACTIVITIES

INDIA

Delete the entry: **Marathwada University**, Department of Economics
University of Bombay, School of Social Work, Institute of Social Service, teaches content in population and family planning at both the Bachelor's and Master's levels in Social Work. Emphasis is not on teaching demography *per se* but on its implications for social welfare. Studies done by students in group projects are: (i) Communication of the small family norm in a hospital setting; (ii) A follow-up study of abortions.

PAKISTAN

The **Board of Economic Inquiry**, Lahore, is a research institution conducting surveys of all socio-economic aspects of the country. Population/demographic studies are not regular features of research.

PHILIPPINES

University of the Philippines, Laguna, Department of Agricultural Education.

Add: Publications:

1. G.T. Castillo and J.F. Pua, "Research notes on the contemporary Filipino family: Findings in a Tagalog area," **Philippine Journal of Home Economics**, vol. 4, July-Sept. 1963, No. 3, pp. 4-35.
2. G.T. Castillo, A.M. Wiseblat and F.R. Villareal, "The concepts of nuclear and extended family: An exploration of empirical referents," **International Journal of Comparative Sociology**, vol. 9, No. 1, March 1968, pp. 1-40.
3. G.T. Castillo and S.H. Guerrero, "The Filipino woman: A study in multiple roles," **Journal of Asian and African Studies**, vol. 4, No. 1, Jan. 1969, pp. 18-29.
4. G.T. Castillo, "Some sociological considerations in promoting family planning programs," **Solidarity**, vol. 5, No. 3, March 1970, pp. 12-16.
5. G.T. Castillo, "The women of Ceylon: Some vital statistics," **Journal of Asia Society, N.Y.**, No. 24, Winter 1971/72, pp. 67-100.
6. G.T. Castillo, **Agricultural Innovation and Population Change: A Search for Interaction** (Proceedings of Seminar on Effects of Agricultural Innovation in Asia on Population Trends, R.M. Award Foundation, Manila, Philippines, 6-9 Feb. 1972).
7. G.T. Castillo, "Perspectives on rural out-of-school youth: The undiscovered majority," in Proceedings of Workshop on Manpower and Human Resources sponsored by the NEDA and IEDR, 13-15 Oct. 1973.

Research projects in progress:

1. G.T. Castillo, **The Filipino Woman as Manpower**. (Expected completion 1975).
2. **Micro-Familial Studies in Three Lakeshore Villages**. (With J. Valera and L. Ilan), 1975.
3. G.T. Castillo (Chairman of Organization of Demographic Associates Workshop on **Family and Household Structure**): a report on family and household structure in East and Southeast Asia is being prepared, 1975.

Index C

SUBJECT AREAS OF THE RESEARCH PROJECTS REPORTED 1/

Under each heading are indicated the name of the country having a project in the area concerned, the code number of the institution and, in parentheses, the relevant number of projects.

Supplement 3

POPULATION: SIZE, GROWTH, CHARACTERISTICS

General:

Hong Kong 4
 India 18
 Iran 2-3

Rural:

Bangladesh 9A
 India 43A
 Iran 1A-6
 Japan 10-23(2)-36

Trends and projections:

Australia 2A(2)
 Bangladesh 9A
 India 26C(2)-26D
 Japan 23

Urban-rural distribution, urbanization and urban studies:

Bangladesh 9A
 Hong Kong 3

RESEARCH AND TEACHING INSTITUTION

Australia 2.A*
(added 1975)

Name James Cook University, Department of Geography
Address Douglas Campus, P.O. Box 999, Townsville, 4810, Queensland, Australia
Person in charge OLIVER, J.
Official title Head
First year of research 1967
First year of teaching 1971

Professional staff
MUNRO, R.G. M 1949 Geographer ... English

Research project
Title Population projection studies
Director MUNRO, R. G.
Date of completion May 1975
Aim To effectively project population with accuracy into the future
Area of research Australian urban population
Publication "Temporal autocorrelation as a dimension of population based interaction fields" (MUNRO, R. G.), Discussion Paper Series, vol. 1, March 1974, monograph, pp. 52, 50 copies, in English with summary in English.
 A method is suggested to project population into future periods.

Title Projecting population in urban areas
Director MUNRO, R. G.
Date of completion December 1974
Aim To evaluate different projection methods
Area of research Population projections generally
Publication "Projecting population in urban areas", (Hopley, D) James Cook University of North Queensland, Townsville, monograph, 150 copies, in English with summary in English.
 Projection of population under different modelling assumptions.

Curricula
Language English
Entrance requirement Matriculation
Diploma B.A., B. Ed. or B. Ec.
Course DEMOGRAPHIC PROBLEMS IN SOUTH EAST ASIA, 12 h;
 POPULATION THEORY, 6 h.

RESEARCH AND TEACHING INSTITUTION

Australia 3
(revised 1975)

Name Macquarie University, School of Economic and Financial Studies, Statistics Section
Address North Ryde 2113, Australia
Person in charge POLLARD, A. H.
Official title Professor of Economic Statistics and Director of Actuarial Studies
First year of research 1967
First year of teaching 1967

Professional staff

POLLARD, A. H.	M 1916	Demographer		English
YUSUF, F.	M 1940	Demographer	Elements and topics in demography; demography IIIA and B	Urdu, English
HOSSACK, I.B.	M 1924	Statistician-demographer	Topics in demography	English
POLLARD, G. N.	M 1944	Demographer	Elements and topics in demography	English

Research project

Title Family formation survey of New South Wales
Director POLLARD, A. H. and YUSUF, F.
Date of completion 1975
Area of research New South Wales
Publication "Survey of Family Formation in Australia", (POLLARD, A.H., YUSUF, F., POLLARD, G.N.), Transactions of the Institute of Actuaries of Australia and New Zealand, vol. 23, November 1972, periodical, pp. 113-155 in English. The paper gave methodological details of the Family Formation Survey of New South Wales and some preliminary findings.

Working paper, School of Economic and Financial Studies, Macquarie University, No. 13, August 1974, mimeograph, in English. To present results of analysis of the demographic data collected in the Family Formation Survey of New South Wales.

Working paper, School of Economic and Financial Studies, Macquarie University, No. 14, July 1974, mimeograph, in English. A study of opinions regarding selected aspects of the ideal family cycle - average ideal family sizes, average ideal ages for marriage, average ideal ages to cease childbearing, and average ideal interval between marriage and birth of first child.

"Demographic techniques", (POLLARD, A. H., YUSUF, F., POLLARD, G.N.), Pergamon Press, March 1974, book, in English. Book on demographic techniques containing 12 chapters: 1. Sources of demographic statistics; 2. Some basic demographic measures; 3. The life table; 4. Applications of stationary population models; 5. Mortality; 6. Fertility; 7. Stable populations and population models; 8. Population estimates and projections; 9. Demographic sample surveys; 10. Multiple decrement tables; 11. Testing the accuracy of demographic data; 12. Estimating demographic measures from incomplete data.

Research project

Title Attitude of professionals towards induced abortion
Director KHAN, M. N. and RABBEE, J.A.
Date of completion December 1974
Aim To measure the attitude of professionals (e.g. lawyers, engineers, physicians) towards the introduction of induced abortion as a method of family limitation
Area of research Dacca

Title Factors related to poor participation of low parity couples
Director KHAN, M. N. and RABBEE, J. A.
Date of completion June 1976
Aim To determine the factors related to low participation of couples having a small number of children towards family planning
Area of research Dacca

Title Use effectiveness of various communication media in the field of family planning
Director RABBEE, J. A. and BEGUM, J.
Date of completion December 1975
Aim To assess the effectiveness of various media used for the propagation of family planning
Area of research Dacca

Title KAP survey of trainee school teachers
Director BEGAM, G. A. and RABBEE, J. A.
Aim 1) To ascertain the KAP of school teachers in order to utilize them as informal family planning education agents in the community they live in;
2) To know how far they will be helpful in imparting family life education to the school students.
Area of Research Dacca Education Extension Center

Research project

Title Demographic studies in rural Bangladesh
Director AHMAD, M.
Aim To estimate various rates relating to births, deaths, migration and marital status and their relationship with socio-economic variables.
Area of research Rural Bangladesh
Publication "Age reporting in rural Bangladesh" (BAIRAGI, R. and RAHMAN, A. U.), Rural Demography (journal published by ISRT), vol. I, No. 1, Summer, 1974, periodical, 700 copies, in English. This paper makes a comparative study of error and accuracy in the age data of two local censuses in Bangladesh.
 "Fertility differentials in rural Bangladesh" (SAMAD, A., BAIRAGI, R. and RAHMAN, A. U.), Rural Demography (journal published by ISRT), vol. I, No. 1, Summer, 1974, periodical, 700 copies, in English. This paper uses the census data of Nawabganj, a typical rural area of Bangladesh, and studies the fertility differentials of this population using the child/woman ratio technique.

Title Urban housing demand survey
 Director HOSSAIN, M., MUNIRUZZAMAN, A. N. M., AHMAD, M. and OBAIDULLAH, M.
 Date of completion July 1971
 Aim To study housing problems in general, in order to make comprehensive planning
 Area of research Urban area in Bangladesh
 Publication "Urban housing demand survey in Bangladesh - a research report", (AHMAD, M.), monograph, pp. 96, 200 copies, in English. The problem of housing in the urban areas of Bangladesh has assumed a gigantic magnitude due to the recent rapid urbanization of the country. Industries have grown up as communication has improved. As a result, there has been a considerable rural-to-urban migration. Old towns have expanded and some new ones have arisen. Many new structures have been raised in the urban areas by individual citizens as well as by the Government to accommodate people, offices, business centres and institutions of various kinds. But the efforts made so far for meeting the housing needs have not been comprehensive, organized or co-ordinated. Although the cities have grown in size as well as content, the housing problem has remained as serious as ever, especially for the people in the middle and low income groups. In the modern world, new cities are built and old ones are extended and reconstructed with the help of well thought out plans which are based on scientific investigations on the demand for housing, existing conditions of housing and availability of resources. According to the definition of "urban area" adopted in the 1961 population census, the urban area in Bangladesh consists of 78 towns and townships and the total urban population comes to about 5 per cent of the total population of the country. In order to provide information relevant to housing demand in the urban areas of Bangladesh, a sample survey was conducted during the months of June, July and August in 1970.

Title Attitude of teachers, guardians and students towards population and family life education
 Director AHMAD, M.
 Date of completion February 1971
 Aim Knowledge about population and attitude towards the introduction of courses in the curriculum of the secondary stage of education on population and family life education.
 Area of research Bangladesh
 Publication "Attitude of teachers, guardians and students towards population and family life education - a research report" (AHMAD, M.), monograph, pp. 161, 200 copies. In order to make the coming generation more conscious of the population problems and make family planning a real success, it will not be out of place if such topics as population, population pressure, need for small families, how the child is conceived and the methods used for planning families are included in the curriculum of secondary schools and undergraduate and graduate classes. However, before any action is taken in this respect it will be necessary to know the existing knowledge of the students regarding population problems, the ideas of the teachers and guardians about the introduction of such topics in the schools, and the class level at which these topics may be introduced. It will also be necessary to know the extent of knowledge which may be imparted at various levels. Another allied problem worth studying is the sex preference which leads towards many problems, such as larger families and the deterioration of the psychological health of the family. If a baby of unwanted sex is born, it may be reared as a baby of the wanted sex. This can lead to sex role confusion and further personality problems. Keeping in view the funds available, a sample survey of secondary students, their teachers and guardians has been attempted only in Dacca city, in the industrial area in and around Dacca and in the rural area of Dacca Sadar subdivision, with the hope that a follow-up study will be made after five years.

Title	Demographic research on population projections and target population
Director	HOSSAIN, M.
Date of completion	February 1971
Aim	To analyse projections under different assumptions of mortality and fertility and to establish targets for family planning activities in order to achieve a pre-assigned decline in population growth.
Area of research	Pakistan
Publication	"A population model for developing countries - Proceedings of the Pakistan International Family Planning Conference - Dacca 1969" (HOSSAIN, M.), February 1969, monograph, pp. 8, in English. The population model presented in this article is primarily a projection model which does not make too exacting a demand on basic data requirements and takes into account the inherent uncertainties associated with these data.
Title	Employment survey of graduates
Director	OBAIDULLAH, M.
Date of completion	February 1971
Aim	To study the volume of unemployment and the extent of employment in the specified field for which the student is trained
Area of research	Bangladesh
Publication	"A study of employment survey of graduates - a research report", February 1971, monograph, pp. 116, 200 copies, in English. Two surveys (one on the academic and employment records of graduates passing during the period 1963-1967 and the other on some selected industries (employers) were conducted in order to make a better assessment of the situation of higher education with respect to its contribution to qualified manpower.
Title	Pilot health survey of jute-mill workers of Khulna industrial area
Director	MUNIRUZZAMAN, A. N. M.
Date of completion	December 1966
Aim	To determine the general health of the jute-mill workers and whether working conditions have any significant effect on their health
Area of research	Industrial area of Khulna District in Bangladesh
Publication	"Health survey of jute-mill workers of Khulna industrial area - a research report" (MUNIRUZZAMAN, A. N. M.), monograph, pp. 84, 200 copies, in English. The survey was designed to furnish data for determining the incidence and/or prevalence of certain diseases, so far as this can be detected by interviewing and the above four diagnostic tests, and to study the interrelationships, if any, between the socioeconomic and demographic characteristics and the prevalence or incidence of morbid conditions of the jute-mill workers of Khulna Industrial area.
Curricula	
Language	English
Entrance requirement	Diploma in Statistics
Diploma	M.Stat.
Course	POPULATION MATHEMATICS, 40 h. POPULATION ANALYSIS. 40 h.
Entrance requirement	M.A./M.Sc. in Stat./Math./Economics
Diploma	M.Phil.

RESEARCH AND TEACHING INSTITUTION

Hong Kong 3
(revised 1975)

The following supersedes the information published earlier:

Name	University of Hong Kong, Department of Geography and Geology
Address	Pokfulam Road, Hong Kong
Person in charge	GRANT, C.J.
Official title	Professor
First year of research	1965
First year of teaching	1960

Professional staff

RICHARDS, S.F.	M 1944	Geographer	Economic methods	English
CHIU, T.N.	M 1933	Geographer	Economics of China	Cantonese, English
BRAY, J.M.	F 1943	Geographer	Urban Geography	English
LEUNG, C.K.	M 1938	Geographer	Political Geography	Cantonese, English
SIMPSON, E.S.	M 1927	Geographer	Economic Geography	English

Research projects

Title	Squatter project
Director	DWYER, D.J.
Date of completion	1970
Aim	To collect demographic and socio-economic data
Publication	"Urban squatters — the relevance of the Hong Kong experience" (DWYER), <i>Asian Survey</i> , 10, pp. 607-14, 1970.

Title	Hawker project
Director	McGEE, T.G.
Date of completion	1970
Aim	To collect demographic and socio-economic data
Publication	"Hawker in selected Asian cities: a preliminary investigation" (McGEE), University of Hong Kong, Centre of Asian Studies, 38 pp. 1973.

Title	Urbanization housing project
Director	DRAKAKIS-SMITH, D.W.
Date of completion	1970
Aim	To collect demographic and socio-economic data
Publication	"Housing needs and planning policies for the Asian city — the lesson from Hong Kong" (DRAKAKIS-SMITH), <i>International Journal of Environmental Studies</i> , 1, pp. 115-28, 1971.

Curricula

Language	English
Entrance requirement	Matriculation
Diploma	B.A., B.Soc., M.A., Ph.D.
Courses	HUMAN GEOGRAPHY (1st year), 20h, including: 1. General population characteristics i.e. growth and structure, 2 h; 2. Settlement, urbanization, 2 h; 3. Economic aspects, 2h.

ECONOMIC GEOGRAPHY (2nd year), 40 h, including: 1. Population and economic development, 2 h; 2. Population as human resource, 2 h.

URBAN GEOGRAPHY (2/3 year), 40 h, including: implications of rapid population growth for urbanization, 8 h.

COMPARATIVE REGIONAL GEOGRAPHY OF DEVELOPING AREAS (3rd year), 40 h, including: comparative features, population change and effects, 4 h.

PRACTICAL GEOGRAPHY (1st-3rd year) (compulsory), including: 1. Cartographic and graphic techniques, 10 h; 2. Statistical and survey techniques, 25-40 h.

REGIONAL GEOGRAPHY OF CHINA AND HONG KONG (2nd year) (compulsory) 40 h, including: population change since 1949.

POLITICAL GEOGRAPHY (3rd year), 40 h, including: population distribution and spatial polity.

RESEARCH AND TEACHING INSTITUTION

Hong Kong 4
(revised 1975)

Name University of Hong Kong, Department of Statistics
Address Hong Kong
Person in charge: FAN, S.C.
Official title Senior Lecturer and Head
First year of research 1969
First year of teaching 1962

Professional staff

FAN, S.C.	M 1927	Statistician	Demographic statistics	Chinese,	English
CHIU, W. K.	M 1936	Statistician	n.a.	Cantonese,	Chinese, English
LEUNG, C. K.	M 1942	Statistician	n.a.	Cantonese,	Chinese, English
LI, R. K. C.	M 1947	Statistician	n.a.	Cantonese,	Chinese, English

Research project

Title The population growth of Hong Kong
Director FAN, S.C.
Date of completion 1975
Aim To present an analytical study of the past, present and future population of Hong Kong
Area of research Hong Kong

Curricula

Language English
Entrance requirement Advanced level examination of the University of Hong Kong
Diploma B.Soc.Sc.
Courses DEMOGRAPHIC TECHNIQUE, 20 h: 1. Nature of demography, 2 h; 2. Mortality, 2 h; 3. Fertility, 2 h; 4. Population growth, 2 h; 5. Migration, 2 h; 6. Manpower, 3 h; 7. Life tables, 3 h; 8. Population projections, 4 h.

RESEARCH INSTITUTION

India 10.A*
(added 1975)

Name	Department of Family Planning, Evaluation and Intelligence Division, Ministry of Health and Family Planning, Government of India	
Address	New Delhi, India	
Person in charge	RAO, M. V. S.	
Official title	Director	
Professional staff		
RAO, M. V. S.	M	Telugu, English, Hindi, French
SINGHA, P.	M 1920	Bengali, English, Hindi, Spanish, French
PARTHASARATHY, N.R.	M 1933	Tamil, English, Hindi, Kannada, German
BHATNAGAR, N. K.	M 1929	Hindi, English, Urdu
Research projects		
Title	Sample check of family planning records on acceptors <u>a/</u>	
Director	RAO, M. V. S.	
Aim	i) To check the reliability and accuracy of family planning performance statistics being maintained at the various peripheral levels in the country; ii) To follow up the family planning acceptors to assess their satisfaction or otherwise of the service rendered; iii) To ascertain the regularity of supply and use of conventional contraceptives; iv) To verify the genuineness of cases and their eligibility.	
Area of research	All primary health centres/urban centres are taken up in a phased manner <u>b/</u>	
Title	Religious characteristics of family planning acceptors <u>c/</u>	
Director	RAO, M. V. S.	
Aim of project	To ascertain the extent of participation of various religious communities in the family planning programme at state/national level	
Area of research	The data are collected in respect of all acceptors of sterilisation and IUD from the State Family Planning Bureau and analysed.	
Title	A review of studies on the relationship between infant mortality and the level of fertility in India	
Director	SINGHA, P.	
Date of completion	March 1975	
Aim	To review research activities carried out so far on the relationship between infant mortality and the level of fertility in India	
Area of research	India	
Publication	"A review of studies on relationship between infant mortality and the level of fertility in India" (SINGHA, P.), pp. 36, in English with a summary in English. The review discussed the subject matter under the following major headings: (i) fertility and infant mortality; (ii) infant mortality in relation to the age of mother and parity; (iii) role of maternal health and nutrition in the survival of children; (iv) parity and reproductive wastage; (v) infant mortality in relation to interval between successive births; and (vi) birth weight in relation to fertility. It has been broadly concluded that improved maternal and child health services may reduce maternal and infant deaths which may in turn lead to greater acceptance of small family size norm irrespective of other issues involved in the matter.	

Title	A study on the distribution of conventional contraceptives in Ludhiana District, Punjab <u>d/</u>
Director	SEAL, K. C.
Date of completion	April 1974
Aim of project	To find out: i) response of villagers to conventional contraceptive programme; ii) difficulties experienced in making use of contraceptives and obtaining supplies by potential users.
Area of research	Ludhiana District, Punjab State

Note:

- a/ The sample check is to be continued on an annual basis.
- b/ The findings of the sample check are consolidated at the central level and communicated to the State Family Planning Bureau. As these reports are meant for official use and action, they are not published.
- c/ A study was carried out for 1973-74 and the results brought out. It is proposed to carry out the study annually hereafter to study the trends. The reports are available for official use only. The figures have however been published in the publication "Family Welfare Planning in India - Year Book".
- d/ The survey report was published as it was prepared for official use only.

RESEARCH AND TEACHING INSTITUTION

India 18
(revised 1975)

The following supersedes information published earlier:

Name	Jadavpur University, Department of Economics, Demographic Research Unit
Address	Calcutta-32, India

Research projects

Title Sample registration of births and deaths
Director Registrar General, India
Date of completion Continuous project
Aim To obtain quick and reliable rates of births and deaths at national as well as state level for rural and urban areas.
Area of research Vital statistics
Publications "Report on sample registration of births and deaths in India 1969-1970", (Registrar General, India), 1971, pp. 148, 800 copies, in English. This annual report gives the basic structure of the scheme and the field problems in the implementation of the scheme.

"Sample registration bulletin" (Registrar General, India), January and April 1975, 800 copies, in English. It is a quarterly publication aimed at disseminating information on the working of the Sample Registration Project and the vital rates based thereon. The quarterly bulletin was started in 1967.

"Infant mortality in India" (Registrar General, India), December 1971, pp. 34, 300 copies, in English with a summary in English. Estimates of infant mortality in India have been given for 1968-1969. It provides the estimates of different components of infant mortality.

"Sex composition in India" (Registrar General, India), mimeographed, December 1972, pp. 42, in English with a summary in English. The report discusses the sex ratio at birth and death. The unfavourable sex ratio in the population for females is attributed to the sex differential in mortality.

"Sampling variability of vital rates" (Registrar General, India), mimeographed, May 1972, pp. 30, 550 copies, in English with a summary in English. The report has shown that the sampling variability of vital rates are useful for planning of future surveys.

Title Registration promotion
Director Registrar General
Date of completion Continuous project
Aim To bring about an improvement in the working of the Registration of Births and Deaths Act, 1969
Area of research Vital statistics
Publication "Annual report of Registrar General, India on the working of Registration of Births and Deaths Act 1969 for 1972," (Registrar General, India), pp. 18, 300 copies, in English. This is the second report of the Registrar General, India and provides information on the working of the registration machinery, general

attitude of the public, problems in the effective implementation of the Act, steps taken and progress made towards the general improvement of the registration system during 1972. The first report was for the years 1970-71.

Title Model registration
 Director Registrar General, India
 Date of completion Continuous project
 Aim To provide information on causes of death in rural areas collected through para-medical personnel
 Area of research Causes of death
 Publication "Causes of death 1971 — a survey," (Registrar General, India), Vol. 6, pp. 154, 500 copies, in English with a summary in English. This is the fifth annual report on the working of the model registration survey of causes of death and bring out the salient features of the cause-specific mortality pattern for the various states and for the country as a whole. The previous reports were brought out for the years 1966-67, 1968, 1969 and 1970.

"Paper 2, of 1974 age and life tables (one per cent sample)" (RAGHAVACHARY, S. and NATRAJAN, K. S.), 1974, pp. 16, 450 copies, in English with a summary in English. Gives adjusted population for single year ages and life table functions and methodology for male and female separately at the all-India level.

"Paper 1, of 1974 report on re-survey on economic questions" (CHARI, R. B.), 1974, mimeograph, pp. 79, 400 copies, in English with a summary in English. Composition of economic characteristics of 1961 and 1971 census.

"Population of India 1974, World Population Year Country Monograph" (CHARI, R. B.) pp. 140

Title Ethno-demographic studies on individual scheduled castes and scheduled tribes and also scheduled castes scheduled tribes as a whole and separately.
 Director ROY BURMAN, B. K.
 Date of completion Continuing project
 Aim To devise refined tools for population projections and ascertain demographic trends of the community and population in question
 Area of research Demographic characteristics of the community and population covered in a chapter
 Publications "A note on the socio-medical survey among the totals" (ROY BURMAN, B. K.), Bulletin of the Cultural Research Institute West Bengal (Calcutta), Vol. 3, Nos 3 & 4, 1964.

"Demographic dimensions of youth problems" in (GANGRADE, K. D. ed.), **Inter-generational conflict**, 1969.

"Ecological implication of growth of rural and urban population," paper presented at Seminar on Ecological Implication of Rural and Urban Population Growth, ECAFE, Bangkok, August 1971.

"Social aspects of family planning" (JAGANNADHAN), **Family Planning Policy and Administration**, 1972.

"Tribal demography in India" (SINGH, K. S.), **Tribal Situation in India**, Transaction of the Institute of Advanced Study, Simla, Vol. 13, 1972.

“Demographic and socio-economic profiles of the hill areas of North East India, Census of India, 1961”, Vol. 1, 1973.

“An evaluation of demographic data on Taiwan (China)” (JADHAV, C.G.), paper submitted to Demographic Training & Research Centre, Bombay, 1969.

“Evaluation of Indian census data 1901 — 1961 and life table construction 1951 — 60” Seminar paper submitted to Demographic Training and Research Centre, Bombay, 1969.

Title Intensive survey of 225 towns and resurvey of 77 villages
Director ROY BURMAN, B. K.
Date of completion 1978
Aim To arrive at devising refined tools for population projection
Area of research Social demography and micro-demography as parts of the study
Publication “A survey of research in sociology and social anthropology” (ROY BURMAN, B. K.), Vol. I, Indian Council of Social Sciences Research, New Delhi.

Title Population projections
Director RAGHAVACHARY, S.
Date of completion December 1976
Aim To project the future population for planning purposes
Publication “Revised population projections” (RAGHAVACHARY, S.), pp. 160, 500 copies, in English with a summary in English.

Title 1971 census atlas
Director ROY BURMAN, B. K.
Date of completion 1976
Area of research Evaluation of demographic data in relation to ecological and physical settings.

Title Fertility survey
Director CHARI, R.B.
Date of completion December 1975
Aim To study the present and past fertility pattern and socio-economic differential in fertility on the basis of data collected through Sample Registration Scheme
Area of research Fertility

Title Census evaluation study with the help of SRS data
Director RAGHAVACHARY, S.
Date of completion December 1975
Aim To evaluate the accuracy as well as omission of census age data for the infantile ages.

Title Post enumeration check
Director RAGHAVACHARY, S.
Date of completion 1975
Aim The objectives of the Post-Enumeration check were: a) measurement of error in the census count called “coverage error” and b) measurement of error in responses called “content error”.
Publication “Preliminary results of post-enumeration check” (RAGHAVACHARY, S.), pp. 15, 400 copies, in English with a summary in English.

Title A study in demographic features of tribes of Mysore State Vanyajati (Delhi)
Director KOPPAD, K.B.

Title Census Atlas of India 1961
Director SENGUPTA, P.
Date of completion 1970
Aim Depiction of some important demographic aspects and other socio-economic data to study and evaluate demographic pattern
Area of research Evaluation of census data on physio-geographic lines
Publication "Economic regionalisation, problems and approaches" (SENGUPTA, P. and SDASYAK, G.), Publication Civil Lines, Delhi, monographed, pp. 234, 2000 copies, in English.
 "Census centenary atlas" (ROY BURMAN, B.K.), 1975, pp. 197, 1500 copies, in English.

Title Analysis of "F" series table relating to currently married women and the related births during the last year as collected in the 1971 Census
Director NATRAJAN, K.S.
Aim To prepare a monograph on fertility level of India.

RESEARCH INSTITUTION

India 26. D*
(added 1975)

Name Operations Research Group
Address Baroda 390 007, India
Person in charge SARMA, D. V. N.
Official title Director
First year of research 1968

Professional staff

SARMA, D. V. N.	1928	Statistician/demographer	Telugu,	English,	Hindi
BHAVSAR, R. C.	1929	Statistician/demographer	Gujarati,	English,	Hindi
GHOSH, B.	1943	Statistician/demographer	Bengali,	English,	Hindi
KHAN, M. E.	1945	Demographer	Urdu,	English,	Hindi
KHATU, K. K.	1936	Human ecologist	Marathi,	English,	Hindi, Polish
BASU, D. N.	1941	Economic-demographer	Bengali,	English	
BANERJI, S. N.	1934	Social-scientist	Bengali,	English,	Hindi, Gujarati

Research projects

Title Population: India 2000 AD
Director SARMA, D. V. N.
Date of completion January 1975
Aim Project on population as part of a study on a long-range perspective for India
Area of research India
Publications "Population projections for India 1971-2000 AD" (SARMA, D. V. N.), January 1975, mimeographed, pp. 80, 100 copies. Presents projections of population by age and sex based on alternative assumptions on fertility and mortality trends after making due adjustment for population missed by the Censuses.

"Demand for and supply of labour" (SARMA, D. V. N. and BASU, D. N.), January 1975, mimeographed, pp. 50, 100 copies, in English. Presents an analysis of the labour situation especially to estimate the possible gaps in labour supply and demand under alternative scenarios of economic and population growth.

Title Mass vasectomy campaign approach in Gujarat: an evaluation
Director GHOSH, B.
Date of completion October 1974
Aim Evaluation of mass vasectomy campaign approach and its impact
Area of research Gujarat
Publications "First phase report," Operations Research Group, May 1973, pp. 40, in English. An attempt has been made to study and evaluate the workers' performance, the programmatic variables and environmental factors, the role of local leadership and the interaction of programme efforts with the incentive scheme.

"An analysis of the differential rates of vasectomy programme achievements in various primary health centres", Operations Research Group, September 1973, mimeographed, pp. 27, 50 copies, in English. This paper presents an analysis of the differential rates of vasectomy programme achievements in various primary health centres during the Mass Vasectomy Campaigns in Gujarat State in 1971-72 and 1972-73 and demonstrates that by special programmes it is possible to induce couples to adopt family planning despite the fact that they are rural, illiterate and poor.

"An evaluation of the mass vasectomy campaign approach through a study of the acceptors," Operations Research Group, mimeographed, pp 48, 50 copies, in English. This report presents an assessment of the mass campaign approach through analysis of the characteristics of acceptors, care of the acceptors in and out of the clinic, motivation, impact on birth rate etc.

"Issues in the mass vasectomy camp approach: the Gujarat experience," Operations Research Group, 95 copies, in English. This publication presents a collection of technical papers analysing a number of relevant issues connected with the Gujarat mass vasectomy campaigns

"Mass vasectomy camp approach in Gujarat" (GHOSH, B.), October 1975, 51 copies, in English. This report provides a summation of the campaign strategy, evaluates the contribution of the campaign approach in raising the level of practice of family planning, raises and discusses important issues pertinent to campaign strategy, compares survey findings with experiences elsewhere as far as practicable and indicates a strategy for the future.

Title Survey of family planning practices in India
Director SARMA, D. V. N. and BHAVSAR, R. C.
Date of completion October 1973
Aim Assessment of knowledge attitude and practice of family planning and their correlates. India including Jammu and Kashmir and off shore islands
Area of research "Family planning survey (summary tables)," Operations Research Group,
Publications August 1971, mimeographed, pp. 25, 50 copies, in English. Presents indices of reliability of survey results, usership by methods, by socio-economic characteristics etc., and a special analysis for condom.

"An analysis of family planning practices in India — the first all-India survey report," Operations Research Group, May 1972, mimeographed, pp. 170, in English. Presents extensive analysis on a comprehensive number of dimensions. A wide range of inter-related factors are simultaneously studied.

"Family planning practices in India — the first all-India survey report," Operations Research Group, August 1973, book pp. 186, 1000 copies. The report presents comprehensive analysis of the effects of socio-economic and demographic characteristics, exposure to mass media etc., approval and practice of family planning.

Title Slums in seven cities of Gujarat
Director KHATU, K. K.
Date of completion July 1973
Aim Estimation of the socio-demographic and economic characteristics of the slum population and assessment of the environmental problems due to slum formation
Area of research Gujarat
Publication "Slums in seven cities of Gujarat" (KHATU, K. K.), January 1974, pp. 200, 4 copies, in English. Presents a consolidated picture of the gravity of the slum problem in Gujarat through an analysis of the socio-demographic and economic characteristics of the inhabitants and the associated environmental problems and recommends a strategy for solution of the slum problem.

Title Survey of pattern of unemployment
Director SARMA, D. V. N.
Date of completion January 1972
Aim To estimate incidence of unemployment in India and study the pattern of unemployment
Area of research India
Publication "Pattern of unemployment survey findings," Operations Research Group, January 1972, mimeographed, pp. 66, 50 copies, in English. Presents employment status by age, sex, family income and educational level.

Title Andhra Pradesh Nirodh fortnight follow-up survey
Director BHAVSAR, R. C. and RAO, N. B.
Date of completion October 1971
Aim Evaluation of the potential of fortnight approach in creating awareness and knowledge about Nirodh among the eligible couples in the state.
Area of research Andhra Pradesh
Publication "Andhra Pradesh Nirodh fortnight follow-up survey," Operations Research Group, pp. 56, 5 copies, in English. Presents an evaluation of the fortnight approach through an analysis of knowledge gain, related characteristics and survey of opinion leaders.

RESEARCH AND TEACHING INSTITUTION

India 28
(revised 1975)

The following supersedes the information published earlier:

Name	Punjab University, Department of Geography
Address	Chandigarh-14, India
Person in charge	GOSAL, Gurdev Singh
Official title	Professor and Head of the Department
First year of research	1956
First year of teaching	1965

Professional staff

GOSAL, Gurdev Singh	M 1927	Geographer	Population geography	Punjabi, Hindi, English, French, German, Urdu
KRISHAN, Gopal	M 1940	Geographer	Population geography	Hindi, Punjabi, English
CHANDRA, Romesh Chander	M 1940	Geographer	Population geography	Hindi, Punjabi, English

Research projects

Title	Patterns of Internal Migration in India
Director	GOSAL, Gurdev Singh
Date of completion	July 1972
Aim	(i) To determine the trend in the magnitude of internal migration in India, (ii) To identify areas of in-migration and out-migration, (iii) To analyse factors associated with in-or out-migration
Area of research	Population geography
Publication	"Patterns of internal migration in India" (GOSAL and KRISHNAN), in <i>People on the Move</i> (PROTHERO and KOSINSKI, ed.), Methuen & Co. Ltd. London, 1974, in English. The paper focuses on the threefold enquiry of (i) magnitude of internal migration in India, (ii) patterns of rural-rural, rural-urban, urban-urban, and urban-rural migration and (iii) areas of in-migration, out-migration, and little/balanced in- and out-migration.

"Population growth in India, 1961-71: a spatial perspective" (GOSAL), *Asian Profile*, April 1974, pp. 193-212, in English. With a continuing decline in the death rate but not the birth rate, population growth in India experienced further acceleration, giving rise to a 24.8 per cent increase during 1961-1971. Because of the heavy population base, the absolute increase in numbers (109 million) was staggering. If this trend continues, it will neutralize much of the gains of economic development. Within the country, there are significant areal disparities in population growth. Many of the densely populated tracts, with predominantly subsistence farm economy, abundant landless labour, lack of industrialization and continuing out-migration, have emerged as areas of slow growth of population. It appears as though, under the existing economy, technology and levels of living, they have approached some kind of a saturation level. By contrast, rapid growth of population is characteristic of areas that are thinly or only moderately populated and where considerable in-migration has been taking place in response to industrial, mining or agricultural developmental activities.

Title Population geography of the scheduled castes of India
 Director GOSAL, Gurdev Singh
 Date of completion December 1975
 Aim To make a spatial analysis of the characteristics of the scheduled caste population in India
 Area of research Population geography
 Publication "Distribution and relative concentration of scheduled caste population in India" (GOSAL and MUKERJI), in "Economic and Socio-Cultural Dimensions of Regionalization - An Indo-USSR Collaborative Study", Census of India, 1971 Census Centenary Monograph No. 7, 1972, pp. 473-83, in English. The discussion brings out strong correspondence between the scheduled castes and the general population in their distributional aspects. Another conclusion that emerges is the complementarity in the patterns of distribution of the scheduled caste persons on the one hand and the scheduled tribes/Christians on the other. The traditional activities associated with these castes may be traced back to their connection with the cattle which were so basic in the primitive subsistence, agricultural economy of India. With the development of manufacturing industries based on leather and cotton in modern India, many of these castes have left their traditional jobs, at least partially, and found employment in agriculture. Although 94 per cent of the scheduled caste people live in the countryside, urbanization and industrialization have induced their movement from their rural hearths, particularly in areas where industries which can make use of their traditional skills have developed.

Curricula

Language English

Entrance requirement B.A.

Diploma M.A.

Course POPULATION GEOGRAPHY, 128 h (academic-year course): 1. The substance and limits of Population Geography; historical development of Population Geography as a field of specialization; 2. Sources of population data; problems of mapping population data; 3. Spatial analysis of the following attributes of the world's population: (a) Numbers, distribution and density; (b) Vital rates: birth and death rates; (c) Migration: internal and international; (d) Growth; (e) Sex and age composition; (f) Literacy; (g) Residence (rural and urban); (h) Occupational structure; 4. The balance of people and resources; population-resource regions; 5. Population problems and policies of India, Japan, China, USSR; USA, Brazil and Ghana.

TEACHING INSTITUTION

India 29
(revised 1975)

The following supersedes information published earlier:

Name Patna University, Department of Sociology
Address Patna-5, Bihar, India
Person in charge AHMAD, Z.

Research project

Title Employment and fertility: a study of working women in Fars province
Director MEHRYAR, A.H.
Date of completion November 1974
Area of research Southern Fars province, Iran

Title An evaluative study of family planning communication and extension programmes in Fars province
Director MEHRYAR, A.H.
Date of completion February 1975
Area of research Southern Fars province, Iran

Title Interrelations between migration, urbanization and fertility in Fars province
Director HEMMASI, M.
Date of completion February 1975
Area of research Fars province, Iran

Title A study of health, fertility, and population change in a sample of villages in Mamasani
Director MEHRYAR, A.H.
Date of completion November 1974
Area of research Fars province, Iran
Publication A monograph is in preparation

Title A follow-up study aimed at elucidating patterns of continuation and drop-out and social and personal characteristics associated with each pattern
Director MEHRYAR, A.H.
Date of completion February 1975
Area of research Fars province, Iran

RESEARCH INSTITUTION

Iran 2
(revised 1975)

Name Statistical Center of Iran, Population Division
Address Iran Novin Avenue, Tehran, Iran
Person in charge MAROUFI-BOZORGI, Nasser
Official title Director
First year of research 1965

Professional staff

MAROUFI-BOZORGI, Nasser	M	1938	Demographer	n.a.	Persian, English

Research projects

Title Effect of socio-economic changes on fertility
Director PAYMAN, H.
Date of completion 1973
Aim To study the effect of socio-economic changes on fertility
Area of research Kazeroon
Publication "A preliminary report of socio-economic changes on fertility in the rural area of Kazeroon district" (EFTEKHAR, H., JALALI, G.H., and PEYMAN, A.), No. 1894, July 1974, monograph, 500 copies, in Persian. The aims of the study are: (i) to examine the birth, death, and fertility rate of the area; (ii) to investigate the probable changes which have occurred in these factors during the two studies (the first study was conducted by the Institute of Social Studies and Research and School of Public Health Research in 1963); (iii) to study the effect of socio-economic changes on fertility.

Title KAP studies among school teachers
Director JALALI, G.H.
Date of completion May 1973
Aim To study KAP among school teachers
Area of research Gilan province
Publication "A KAP study among the school teachers (in Gilan province): Report No. 3, (MOHSENI, M. and KAYVAN, E.), School of Public Health, Tehran University,

No. 1911, June 1974, monograph, pp. 73, 500 copies, in Persian. To study KAP among school teachers in Gilan province, a sample of 937 teachers (primary and secondary school teachers) was selected. The result indicates that the teachers were not aware of the demographic situation of the country, but they were aware of the family planning programmes and the available contraceptive methods. The tables included give data on different aspects of the study. The questionees believe that abortion should be practised under certain conditions.

| Title | Demographic survey |
| Director | FARAHMANDIAN, A. |
| Date of completion | November 1974 |
| Aim | To study health conditions and their relation to demographic characteristics |
| Area of research | Khozestan province |

Title Demographic survey
Director HEDAYAT, S.
Date of completion April 1975
Aim To study health conditions and their relation to demographic characteristics
Area of research Bandar Abbas

Title Demographic survey
Director MOHSENI, M.
Date of completion Late 1975
Aim To study medical and health care concepts among rural areas of Iran
Area of research Rural communities of Iran

Title Menstrual regulation
Director SORODI-MOGHADAM, S.
Date of completion October 1974
Aim To study menstrual regulation
Area of research Tehran

Title Suction abortion complications
Director SORODI-MOGHADAM, S.
Date of completion October 1974
Aim To study complications associated with suction abortion with plastic cannula and metal cannula
Area of research Tehran

Page 193 of the 1st edition

Title Birth control hormones and their relation to haemoglobin and iron capacity
Add:
Publication "Examination of some haematologic and biochemical indices in women taking hormonal contraceptives or using intra-uterine devices" (MAJD, A., JALALI, G.H. and MONTAZAMI, K.), Iranian Journal of Public Health, vol. 2, No. 1973, pp. 6-13, in English.

Title Study of the dynamics of interrelationships between socio-economic status and fertility and follow-up of women's fertility
Add:
Publication "A study of relationships between fertility and socio-economic status of women in five villages in Fars" (PAYMAN, H. and EFTEKHAR, H.), Pahlavi Medical Journal, vol. 2, October 1972.

Title An evaluation of the follow-up method in a family planning research programme

Add:

Publication "An evaluation of follow-up method in family planning research programme in Khaje-Nouri Clinic" (JALALI, G.H. AZARI, S. and MAJD, A.), Tehran, 1970, mimeograph, in English.

Curricula

Language

Persian

Entrance

M.D., M. Social Science

requirement

Diploma

M. P.H.

Courses 1/

I. Core subjects 2/

BIostatistics, 2 h per week lectures and 4 h per week laboratory.
Principles of Epidemiology, 2 h per week lectures and 1 h per week seminar.

Epidemiology and Pathobiology, 2 h per week lectures and 4 h per week laboratory.

Principles of P.H. Administration, 2 h per week lectures and 2 h per week seminar.

Environmental Health, 2 h per week lectures and 3 h per week visit.

Human Ecology: 1. Principles of P.H. Nutrition, 1 h per week lecture; 2. Sociology, 1 h per week lecture; 3. Demography, 1 h per week lecture.

II. Special subjects 3/

Physiology of Reproduction and Birth Control, 2 h per week lectures (and demonstration).

Epidemiology of Population and Community and Family Planning: 1. Evaluation of epidemiology from epidemics to population dynamics, 1 h per week lecture; 2. Social, psychological and economic consideration in population programme and family planning, 1 h per week lecture.

Analytical Demography, 2 h per week lectures.

Personnel Training Methods in Family Planning, 1 h per week lecture and 1 h per week practical.

Education, Communication and Motivation, 1 h per week lecture and 2 h practical.

PROGRAMME DEVELOPMENT, ORGANIZATION AND ADMINISTRATION,
1 h per week lecture and discussion.
EVALUATION AND RESEARCH METHODS, 1 h per week lecture and 2 h per
week laboratory.

III. Elective subjects 4/

NUTRITIONAL DEFICIENCIES AND DISEASES, 1 h per week lecture.
PUBLIC HEALTH EDUCATION, 2 h per week lectures.
MENTAL HEALTH, 2 h per week lectures.
PRINCIPLES OF M.C.H., 2 h per week lectures.
HISTORY OF PUBLIC HEALTH AND MEDICINE, 1 h per week lecture.
HUMAN GENETICS, 1 h per week lecture.

-
- 1/ One academic year must be spent full-time in the school. Students must successfully complete a minimum total of 33 units of required and elective courses and three months' summer field work.
 - 2/ Courses required for all candidates for the M.P.H. degree, including those majoring in Population Dynamics and Family Planning.
 - 3/ Courses required for students majoring in Population Dynamics and Family Planning.
 - 4/ Candidates for the M.P.H. degree who are majoring in Population Dynamics and Family Planning choose 4 units from among the following courses.

RESEARCH INSTITUTION

Iran 7*
(added 1975)

Name Ministry of Health, General Department of Population and Statistical Surveys ^{1/}
Address Ministry of Health, Tehran, Iran
Person in charge MERAT, K.
Official title General Director

Professional staff

MERAT, K.	M	1929		Persian, French, English
OLFAT, M.	M	1929		Persian, English
SAXENA,	M	1929	Demographer	Indian, English, French
FAGHIHI, M.	M	1937	Demographer	Persian, English
POYAN, N.	M	1938		Persian, English
KASHTKARI, A.	M	1940		Persian, English
BAGHRIAN, M.	M	1924	Statistician	Persian

Research project

Title Population study in the centre of Karaj (a city near Tehran)
Director MERAT, K.
Date of completion September 1974
Aim To collect data on the size and characteristics of population and the household.

This survey was made by statistical technicians in two phases. (i) a census of demographic and health characteristics was carried out in 178 villages with 63,000 people, and (ii) information on vital events and diseases was registered and recorded in the course of monthly visits. The investigators referred to the houses of the area and carried out an interview with the head of the household and made necessary observations. In the course of this survey the pertinent questionnaires were processed by computer. The surveyed area comprised 9,464 inhabitants.

Area of research Karaj
Publication "The results of demographic studies in Karaj" (MERAT, K., FAGHIHI, M.), Ministry of Health, No. 50, November 1974, monograph, pp. 20, in Persian. It presents the purpose of economical study of population with its relation to health, nutrition, education, social welfare, occupation, dwelling, type of the family, population changes and the question of migration in the city of Karaj

Title Demographic survey in Shahriar area
Director OLFAT, M.
Date of completion July 1973
Aim To measure the demographic and health indicators for the purpose of comparing them with indicators obtained ten years ago

Area of research Shahriar area (near Tehran)
Publication "The results of the Shahriar survey" (POYAN, N.), General Department of Population and Statistical Surveys, No. 20, September 1973, monograph, pp. 20, in Persian. Covers morbidity, natality, mortality, and fertility rates of 178 villages of the area.

Note ^{1/} Due to the reorganization of the Ministry of Health, the Bureaux of Population Affairs and Health Statistics were integrated in March 1974 under the name "General Department of Population and Statistical Surveys."

RESEARCH AND TEACHING INSTITUTION

Japan 10
(revised 1975)

The following supersedes the information published earlier:

Name	Hiroshima University, Statistics Section, Department of General Education
Address	1-1, Senda-machi, Hiroshima-shi, Japan, 730
First year of research	1949
Professional staff	
OKAMOTO, M.	M 1928 Statistician Information and behaviour sciences Japanese, English, French, Russian, German
MARUYAMA, K.	M 1937 Anthropologist— Area studies Japanese, English
MURAKAMI, M.	M 1935 Geographer Area studies Japanese, English
Research project	
Title	A study on Korean immigrants to western Japan and the re-integration process into their home villages
Director	NOGUCHI, Takashi
Date of completion	March 1975
Aim	To clarify cultural continuity and change in the migratory process between Korea and Japan
Area of research	Hiroshima, Japan, and Gyeongsang Namdo, Korea
Publication	"A preliminary report on the study on Korean immigrants to western Japan and the re-integration process into their home village," Japanese-Korean Co-operative Research Project Team, monograph, 64 pp. 300 copies, in Japanese. 1) Aims and methods of research 2) Village structure and acculturation: 3) Medical study of acculturation process for the Korean immigrants.
Title	Rural settlements in monsoon Asia
Director	YONEKURA, Jiro
Date of completion	1973
Aim	To study the characteristics of villages and to probe the way of modernization and economic development
Area of research	Rural India
Publication	"Recent changes in settlements in India" (YONEKURA (ed.) and others), Kokon Shoin, Tokyo, May 1973, 505 pp., in Japanese with summary in English.
Title	Stochastic model of the conditional birth-control rules
Director	OKAMOTO, Masanori
Aim	To make a stochastic model on the conditional stopping rules of further birth depending on the number of males or females previously obtained in each family
Curricula	
Language	Japanese
Entrance requirement	Entrance examination (matriculation level)
Course	APPLIED STATISTICS (compulsory), including 1/ Life table, 2 h; 2. Census analysis, 6 h. SOUTHEAST ASIAN ETHNOLOGY, 60 h; Demography, 4 h (optional). ASIAN GEOGRAPHY, 60 h; Demography, 10 h (optional).

Note

1/ Part of a four-year course.

Title The sixth fertility survey (conducted in fiscal 1972)
 Date of completion March 1976
 Aim To study fertility behaviour and family planning practice among Japanese married couples
 Area of research Nation-wide
 Publications "Report of the sixth fertility survey in 1972 (No. 1)" (SHINOZAKI, N. and five other staff members), Survey Report Series, March 1973, 476, monograph, 300 copies, in Japanese.
 "Report of the sixth fertility survey in 1972 (No. 2): method of survey and reliability of returns" (AOKI, H. and IKENOUE, M.), **The Journal of Population Problems**, No. 127, July 1973, pp. 1-10, periodical, 1,000 copies, in Japanese with a summary in English.
 "Report of the sixth fertility survey in 1972 (No. 3): differential fertility by working status of wives", (WATANABE, Y.), **The Journal of Population Problems**, No. 127, July 1973, pp. 11-19, periodical, 1,000 copies, in Japanese with a summary in English.
 "Report of the sixth fertility survey in 1972 (No. 4): number of children ever-born alive", (AOKI, H.), **Annual Reports of the Institute of Population Problems**, No. 18, December 1973, pp. 19-22, periodical, 1,000 copies, in Japanese with a summary in English.
 "Report of the sixth fertility survey in 1972 (No. 5): places of residence of the surveyed married couples" (IKENOUE, M.), **Annual Reports of the Institute of Population Problems**, No. 18, December 1973, pp. 23-24, periodical, 1,000 copies, in Japanese with a summary in English.
 "Report of the sixth fertility survey in 1972 (No. 6): recent trends of fertility of farmers" (TAKAHASHI, S.), **Annual Reports of the Institute of Population Problems**, No. 18, December 1973, pp. 25-29, periodical, 1,000 copies, in Japanese with a summary in English.

Title Comprehensive survey on the structure and changes of regional populations in Japan
 Director HAYASHI S.
 Date of completion March 1976
 Aim To study interrelations between demographic changes and people's lives in selected areas
 Area of research 13 prefectures in Japan

Title Population projections by sex and age for all Japan based on the 1970 census
 Director HAMA H.
 Date of completion December 1975
 Aim Same as the title
 Area of research Japan

Title Survey on relationships between changes in the population distribution and regional economics
 Director KURODA T.
 Date of completion December 1972
 Aim To study impacts of economic development on population distribution and impacts of changing population distribution on economic development in selected areas

- Area of research** Eight prefectures in Japan
- Publication** "Analysis of persons who have or had lived in metropolitan areas, from the demographic viewpoint - by special tabulation of results of survey on relationships between population mobility and social-economic factors" (OKAZAKI, Y. and SUDA, T.), *The Journal of Population Problems*, No. 115, July 1970, pp. 47-56.
- "Transformation of labour force migration" (KURODA, T.), *The Journal of Population Problems*, No. 122, April 1972, pp. 35-49.
- "Statistical analysis of recent internal migration" (OKAZAKI, Y. and SUDA, T.), *The Journal of Population Problems*, No. 124, October 1972, pp. 50-62.
- "Report of survey on relationships between changes in the population distribution and regional economics (eight separate reports for eight prefectures), Staff of the Division of Migration Research, Institute of Population Problems, Survey Report Series, July to December 1972, 80pp. each, monograph, Japanese.
- "An analysis of migration in the Hiroshima urban area in Japan" (ITOH, T.), *Annual Reports of the Institute of Population Problems*, No. 16, December 1971, pp. 36-41.
- "An analysis of migration in the Hiroshima urban area in Japan (2)" (ITOH, T.), *Annual Reports of the Institute of Population Problems*, No. 17, December 1972, pp. 31-35.
- "An analysis of "the Form of Migration": survey on the Hiroshima prefecture in 1970" (SHIMIZU, H.), *Annual Reports of the Institute of Population Problems*, No. 17, December 1972, pp. 36-39.
- "Task and labourers' mobility and migration" (SHIBATA, H.), *The Journal of Population Problems*, No. 125, January 1973, pp. 25-40.
- "Interregional estimation of births occurring in female census cohorts taking account of migration: methodology and application" (ITOH, T.), *The Journal of Population Problems*, No. 126, April 1973, pp. 31-41.
- Title** Standardized vital rates and stable populations for Japan: 1965-1970
- Director** YAMAGUCHI K.
- Area of research** To compute standardized vital rates, reproduction rates, intrinsic vital and stable age distribution for Japan.
- Area of research** All Japan
- Publication** "Population reproductivity for all Japan in 1965-1970" (YAMAGUCHI, K. and KANEKO, T.), *Research Series*, No. 203, October 1973, 43 pp, monograph, 1,000 copies, in Japanese.
- "Standardized vital rates by prefectures: 1970" (YAMAGUCHI, K. and TAKAHASHI, S.), *Research Series*, No. 201, October 1973, 49 pp, monograph, in Japanese.
- "Recent trends in regional distribution of natural increase in Japan" (YAMAGUCHI, K. and KANEKO, T.), *Annual Reports of the Institute of Population Problems*, No. 18, December 1973, pp. 47-52.

<p>Title Director Date of completion Area of research Publication</p>	<p>Preparation of annual abridged life tables for all Japan KANeko, T. Continuing Japan "The 22nd abridged life tables, April 1, 1968 - March 31, 1969" (KANeko, T.), Research Series, No. 194, July 1970, 26 pp, monograph, 1,000 copies, in Japanese with a summary in English. "The 23rd abridged life tables, April 1, 1969 - March 31, 1970 - (KANeko, T.), Research Series, No. 196, September 1971, 27 pp, monograph, 1,000 copies, in Japanese with a summary in English. "The 24th abridged life tables, April 1, 1970 - March 31, 1971" (KANeko, Take- haru), Research Series, No. 198, March 1972, 26 pp, monograph, 1,000 copies, in Japanese with a summary in English. "The 25th abridged life tables, April 1, 1971 - March 31, 1972" (KANeko, Take- haru), Research Series, No. 199, February 1973, 26 pp, monograph, 1,000 copies, in Japanese with a summary in English. "Abridged working life table for Japanese males: 1970" (KANeko, Takeharu), The Journal of Population Problems, No. 127, July 1973, pp. 35-48.</p>

RESEARCH INSTITUTION

Japan 31
(revised 1975)

The following supersedes the information published earlier:

Name	Tohoku University, Faculty of Economics				
Address	Kawauchi, Sendai-shi, Miyagi-ken, Japan				
Person in charge	HAGA, Hanjiro				
Official title	Dean and Professor of the Faculty				
First year of research	1949				
Professional staff					
KURIYAMA, T.	M	1941	Statistician	Economic statistics	Japanese, English
Research project	Unchanged				

RESEARCH INSTITUTION

Japan 36
(revised 1975)

The following supersedes the information published earlier:

Name University of Tokyo, Faculty of Medicine, Department of Public Health
Address 7-3-1, Hongo Bunkyo-ku, Tokyo 113, Japan
Person in charge KATSUNUMA, Haruo
Official title Professor and Head of the Department
First year of research 1960

Professional staff

KATSUNUMA, H.	M	1916	M.D.	n.a.	Japanese, English, German, French
MATSUMOTO, N.	M	1900	M.D.	n.a.	Japanese, English, German, French

Research projects

Title The Congenital effects of environmental pollution
Director KATSUNUMA, H.
Date of completion 1976
Aim To add new information to knowledge of congenital effects caused by environmental pollution.
Area of research Japan

Title Population problems in Japan
Aim To describe the population dynamics relating to the changing value system in the Japanese community
Publication "Population problems in Japan" (KATSUNUMA, KOIZUMI, TANAKA), April 1975, monograph, in Japanese, (in press).

Title Impact of rapid industrialization and urbanization on health indicators of rural population
Director KATSUNUMA, H.
Date of completion December 1968
Aim To compare annual changes of various health indicators in rural districts, with special reference to population increase
Area of research Demography and biostatistics
Publication "Age-corrected proportional mortality indicator (PMI) as a comprehensive health indicator" (KATSUNUMA & KOIZUMI), *Bulletin of the World Health Organization*, vol. 39, pp. 986-991, in English. The age-corrected PMI is presented and shown to be a practical and correct indicator of health levels for the purpose of comparison of rural populations.

RESEARCH AND TEACHING INSTITUTION

New Zealand 6. A*
(added 1975)

Name Department of Sociology, University of Waikato
Address Hamilton, New Zealand
Professional staff
O'NEILL, J. M 1944 Demographer English, French, German, Norwegian
Research projects
Title Fertility in New Zealand
Director O'NEILL, J.
Date of completion December 1976
Aim Contribution to the World Fertility Survey
Area of research New Zealand

Title Family growth study among ever-married women aged 15-44
Director Joint project of the Department of Health, New Zealand Family Planning Association and Victoria University of Wellington
Date of completion The survey will be conducted in July 1975 and results will be available in early 1976

Aim (i) To gain information on contraceptive knowledge and usage, child spacing and related motivation; (ii) to act as a feasibility pretext and training project for New Zealand's possible participation in the World Fertility Survey.
Area of research Lower Hutt City, New Zealand

Curricula
Language English
Entrance requirement Matriculation
Diploma B.A.
Courses DEMOGRAPHY METHODS, 52 h.
HISTORICAL DEMOGRAPHY, 52 h.

RESEARCH AND TEACHING INSTITUTION

Pakistan 1. A*
(added 1975)

Name Census Organization
Address 16-Almarkaz Building, Islamabad, Pakistan
Person in charge LATIF, A.
Official title Census Commissioner and Ex-Officio Joint Secretary
First year of research 1975
First year of teaching 1974

Professional staff

MIRZA, G. M.	M	1928	Demographer/statistician	Punjabi, English, Urdu
GILL, A. S.	M	1930	Demographer/statistician	Punjabi, English, Urdu
ILYAS, M.	M	1931	Computer programmer	Punjabi, English, Urdu
KHADIM, M. A.	M	1933	Demographer/statistician	Punjabi, English, Urdu
HUSSAIN, S.S.	M	1942	Demographer/statistician	Punjabi, English, Urdu
SYED, A.A.	M	1935	Demographer/statistician	Urdu, English

Research project

Title Differential current fertility in Pakistan
Director MIRZA, G. M.
Date of completion September 1976
Aim To explore current differential fertility within Pakistan by major social, economic and demographic variables from sample data obtained in 1973 on 300,000 households
Area of research Provincial and national level

Curricula ^{1/}

Diploma M.A. in Statistics, Demographic, Sociology, Economics
Courses CENSUS ANALYSIS, 4 weeks
 POPULATION PROJECTIONS, 4 weeks

Note ^{1/} The teaching function at Census Organization is not established on a regular basis yet. At present, periodic courses are offered as a result of a Ford Foundation grant which has made available the services of a demographic consultant from abroad for a two-year period.

RESEARCH AND TEACHING INSTITUTION

Pakistan 1. B*
(added 1975)

Name Gomal University, Department of Statistics
Address D. I. Khan, N.W.F.P., Pakistan
Person in charge SHAH, M. Rafiq
Official title Chairman

Professional staff

SHAH, R.	M	1942	Demographer	Demographic techniques	Pashto, English, Urdu
ANWAR, M.	M	1944	Statistician	Mathematical statistics	Pashto, English, Urdu
KHAN, B.	M	1951	Statistician	Design of experiments	Saraiki, English, Urdu, Punjabi
SARWAR, M.	M	1947	Statistician	Psychometric methods	Pashto, English, Urdu
KHAN, T.	M	1947	Statistician	Mathematical statistics	Saraiki, English, Urdu
TUFAIL, M.	M	1951	Statistician	Mathematical statistics	Punjabi, English, Urdu
ISLAM, Q.	M	...	Statistician	Design of experiments	Urdu, English
HAYAT, M.	M	...	Statistician	Mathematical statistics	Punjabi, English, Urdu
NAWAZ, G.	M	...	Statistician	Demography	Saraiki, English, Urdu
SHAH, I.	M	...	Statistician	Probability theory	Saraiki, English, Urdu

Curricula

Language English
Entrance requirement B.A./B.Sc.
Diploma M.Sc.
Course

1. Demographic Techniques: science of demography-Definition of demography - Concept of demographic data - Evaluation of demographic data - Sources of demographic data - Vital registration procedures - Method of estimation special survey approach - Reliability of demographic data - Classification and detection of errors - Method of adjustment of defective data - Rates and ratios;
 2. Mortality measures: Basic demographic measures of death - Classification of death rates - Detailed study of standardization of death rate - Equivalent average death rate measurement of differential mortality;
 3. Fertility and reproductivity measures: Demographic measures of birth - Description of various birth rates - Standardized birth rates - Fertility rates - Gross and net reproduction rates - Measurement of differential fertility - Cohort analysis;
 4. Some other measures: Morbidity, marriage, divorce, still birth and maternal mortality rates - Death rates - Vital index - Sex rates;
- Life table: Anatomy of life table - Partial aspect of life table - Construction of abridged and simple life tables - Application of life table functions; Population projections: Post and intercensal estimates - Estimation of population characteristics - Projection techniques - Projection of growth curves and component projections - Prospects in areas of high and low fertility - Probable consequences of future population growth interpolation, entrapolation and other projection techniques - Relationship between fertility and infant mortality, fertility and maternal mortality and fertility and general level of mortality.

RESEARCH INSTITUTION

Pakistan 2.A*
(added 1975)

Name Regional Development Project for North West Frontier Province (NWFP)
Address 8-A, Park Road, University Town, Peshawar, Pakistan
Person in charge QUTUB, S.A.
Official title Director

Professional staff

QUTUB, S.A.	M 1949	Geographer		Urdu, English
ASHRAF, A.	M 1943	Economist	Economic planning	Pashto, English, Urdu, Persian
KHATTAK, S.	M 1942	Economist	Social planning	Pashto, English, Urdu, Arabic

Research project

Title Situation study of the needs of mothers and children
Director QUTUB, S.A.
Date of completion December 1975
Aim To evaluate by sample survey the present geographical coverage of education, health and other social welfare services in the province
Area of research North West Frontier Province

Title Migration from and within NWFP
Director QUTUB, S.A.
Date of completion September 1975
Aim To quantitatively measure the direction and the volume of migration from and within NWFP and evaluate the reasons thereof to assist subsequently in social planning
Area of research Primarily NWFP, but effects on urban centres throughout Pakistan taken into account.

RESEARCH AND TEACHING INSTITUTION

Pakistan 6
(revised 1975)

Name Social Sciences Research Centre
Address New University Campus, CPOL 484, Lahore, Pakistan
Person in charge HUSSAIN, Mazhar
Official title Director

Professional staff

HUSSAIN, M.	M 1929	Statistician	Research methods, statistics	Punjabi, English, Urdu, Persian
SAEED, S.	F 1935	Sociologist	Sociology	Punjabi, English, Urdu
SATTAR, A.	F 1937	Economist		Punjabi, English, Urdu
HUSSAIN, S.	M 1950	Economist		Punjabi, English, Urdu
JAVED, S.	M 1945	Mathematician		Punjabi, English, Urdu
CHAUDHARY, A.R.	M 1941	Economist		Punjabi, English, Urdu
RAFIQ, M.	M 1938	Sociologist		Punjabi, English, Urdu
NAEEM, J.	F 1935	Demographer		Punjabi, English, Urdu

Research projects

Title Employment potentialities of highly-qualified persons in natural sciences and mathematics in West Pakistan

Director HUSSAIN, M.

Date of completion May 1971

Aim (i) To see the nature of present employment patterns; (ii) determine emoluments and other amenities available to the incumbents in their job; (iii) to make interdisciplinary comparison of the type of jobs that the graduates of natural sciences and mathematics are holding; (iv) to determine job satisfaction, and (v) to ascertain the differential of economic and social status on sex and on place of residence.

Area of research Pakistan

Title Cross sectional comparative study of the aged in West Pakistan

Director HUSSAIN, M.

Date of completion April 1972

Aim (i) To describe the role of the aged in urbanizing societies; (ii) to describe national policies and measures with respect to problems of the aged.

Area of research Pakistan

Title Before and after mass media experiment - impact of two alternative motivational campaigns on knowledge, attitudes and practice of family planning (Parts I and II)

Director HUSSAIN, M. and RAFIQ, M.

Date of completion August 1972

Aim (i) To find out the effect of different methods of mass media communication for imparting knowledge of family planning among the masses; (ii) to study the knowledge, opinion and practice of all fertile couples of Gikhpue village before the low-tone motivational campaign and; (iii) to assess the change in knowledge, opinion and practice of some fertile couples after the low-tone motivational campaign through a clinic.

Area of research Tehsil Chunian

Publication To be published by the Pakistan Family Planning Association

Title Before and after mass media communication experiment - the effect of the low-tone motivation campaign on opinion and practice of family planning (Parts I and II)

Director HUSSAIN, M. and SAEED, S.

Date of completion November 1972

Aim (i) To study the knowledge, opinion and practice of all fertile couples of Cikhpur village before the low-tone motivational campaign; (ii) to assess the change in knowledge, opinion and practice of some fertile couples after low-tone motivational campaign through a clinic; (iii) to find out the effect of different methods of mass media communication for imparting knowledge of family planning among the masses.

Area of research Gidhpru village in Tehsil Ghuniah District, Lahore

Title Population migration study in the Lahore metropolitan region - a sample survey of Sialkot city

Director NAZLI, A.

Date of completion August 1973

Aim (i) To estimate the resident population of the city as on 30 June 1972 and classify it according to specific characteristics, such as age, sex, income and occupation; (ii) to estimate immigrants and net-migrants for the city of Sialkot (excluding the cantonment area) by place of residence during the last one year, i.e. from 1 July 1971 to 30 June 1972. This will cover: a. the number of persons who migrated to or out of the town, classified again according to demographic and socio-economic characteristics such as age, sex, income and occupation; b. reasons of migration.

Area of research Sialkot city

Curricula

Language English

Entrance requirement M.A. in one of the Social Sciences, Statistics or Mathematics

Diploma Post-graduate Diploma in Demography

Courses TECHNICAL DEMOGRAPHY (compulsory), 6 h.
SUBSTANTIVE DEMOGRAPHY (compulsory), 6 h.
RESEARCH METHODS (compulsory),
STATISTICS (compulsory), 50 h.
MATHEMATICS (compulsory), 50 h.
SOCIOLOGY (compulsory), 50 h.
ECONOMICS (compulsory).

RESEARCH AND TEACHING INSTITUTION

Pakistan 12.A*
(added 1975)

Name Punjab University, Department of Sociology
Address New Campus, Lahore, Pakistan
Person in charge NAEEM, Muhammad

Professional staff

NAEEM, M.	M 1941 Sociologist	Urdu, English
SAIF, M.I.	M 1948 Sociologist	Urdu, English

Research project

Title Attitude of educated youth towards the idea of family planning
Director NAEEM, M.
Date of completion August 1975
Aim To find out: (i) the awareness about population problems among educated youth (post-graduate students of three universities); (ii) the extent of willingness to educate the masses about family planning.

Area of research Three universities, viz. Punjab and Agriculture (Punjab province) and Peshawar (N.W.F.P.)

Curricula

Entrance requirement B.A./B.Sc.
Diploma M.A.
Courses SOCIOLOGY OF POPULATION, 3 h/week: Basic concepts; Population of Pakistan; Population theory; Technique of analysis e.g. rate, life table, etc.

Annex I

Our surveys have so far identified 193 institutions or government agencies with 271 departments in 21 ESCAP countries (see list in annex II) and 1106 projects have also been listed. The following tables give a more complete breakdown.

Table 1

**NUMBER OF INSTITUTIONS LISTED IN ASIAN POPULATION STUDIES SERIES NO. 8, RESEARCH,
