STATEMENT OF PURPOSE

PLANNING FOR MORAL/CITIZENSHIP EDUCATION is based on three assumptions: the need for and interest in moral/citizenship education are increasingly expressed in many segments of our society; the field is rich with diverse activities, theories, research, and promising directions to explore; a national coordinating effort is necessary to draw together this diversity and establish common ground and guidelines for future work across the field. To this end, the initial objectives of the planning program include: coordinating activities, sharing knowledge, identifying issues, convening informational planning conferences, examining managerial techniques, analyzing programmatic approaches, and preparing planning recommendations. An Advisory Group and Resource Panel will assist in shaping the planning program.
