ABSTRACT

To help teachers and administrators evaluate and improve their reading programs, standards of excellence are presented for seven program components: administration and organization, student assessment, instruction and management, instructional materials, evaluation, staff and staff development, and community involvement. Procedures are suggested for reaching each of the standards, and the person or group with primary responsibility for carrying out these procedures is given. (Author/AA)

The Standards of Excellence for Reading Programs in Iowa Schools has been prepared by the Iowa Right to Read Advisory Council for use by local school districts working toward the improvement of their reading programs. It draws on the experience of teachers and administrators at all levels of education and is written for educators who are asking the following questions:

1. "Is our reading program as good as it can be?"
2. "How can we develop the reading program best suited for our students?"

To answer these questions, this book has been developed around seven components perceived as necessary for an effective program. These components are, 1) administration and organization, 2) student assessment, 3) instruction and management, 4) instructional materials, 5) evaluation, 6) staff and staff development, and 7) community involvement. Standards of Excellence, which are the indicators of an effective program, are listed within each component. Procedures are suggested for reaching each of the standards, and the person or group with the primary responsibility for carrying out these procedures is given.

No one book can be a complete guide, but this one is designed to be helpful in a number of ways:

- It suggests procedures for developing your reading program.
- It serves as a checklist--reminder on important aspects of the procedures which you might have forgotten.
- It provides a way to organize your thinking and planning about specific activities.
- It provides you with strategies and procedures which have been used successfully by others.

Members of the Standards of Excellence Sub-committee were Sister Mary Edward Dolan, Grace Leinen, Tom Miller, Wanda Morgan, Doris Roettger, and Earl Willits.
