ABSTRACT

Presented are duplications of the responses given by ANCHOR (Answering the Needs of Children with Handicaps through Organized Recreation) (Hempstead, New York) as part of a project to collect, share, and compile information about, and techniques in the operation of 18 community action models for recreation services to the disabled. Model programs are categorized as consumer, client competency, recreation and leisure services, parks and recreation, rehabilitation, and voluntary health agency models. Reported are program services in the following areas: the population served (handicapped children from 6-21 years old); primary activities (music, arts and crafts, bowling, swimming, dance, physical education, drama, special events, and field trips); primary facilities used (town parks, schools, commercial bowling alleys, town swimming pool, and points of interest); staffing (23 group leaders, 30 group aides, five substitutes, and approximately 15 specialists); total budget (approximately \$250,000); and values and goals achieved through the program (to provide a recreation program for handicapped children with emphasis on socialization and interaction). A copy of the completed survey form is also provided. (SBH)

Dear Colleague:

The project, "National Institute on Models for Community Based Recreation for Handicapped Children and Youth," is entering its second year. During the first year, a survey and identification of existing programs was undertaken, as well as the convening of the National Institute at the University of Iowa.

The National Institute, held July 7-9, endeavored to collect, share, and compile information about, and techniques in, the operation of the most feasible and effective methods of community action models for recreation service to the disabled.

As an outgrowth of these efforts, training materials are being developed and plans are being made for the replication of the National Institute in all regions of the United States.

A number of successful models were identified and have transmitted data to the project staff with permission for us to distribute the information.

Enclosed are duplications of the responses from eighteen of the identified models. Additional training materials will be distributed based upon completion of response forms.

Sincerely,

John A. Nesbitt, Project Director

I. Program Overview

The respondent reports their service in the following areas:

- Who served, how many people served and the geography or political area served
- Primary activities provided
- Primary facilities used
- Staffing (number and titles)
- Total budget and primary sources of support
- Values and goals achieved through your program

The town of Hempstead offers the ANCHOR (Answering the Needs of Children with Handicaps through Organized Recreation) program to town residents from the ages of 6-21, although a portion of the participants are over 21. We have served over 1400 children.

Activities include music, arts and crafts, bowling, swimming, dance, physical education, drama, special events and field trips.

Our use is confined to a town park for our six week summer day camp, two BOCES schools, commercial bowling alleys, a town swimming pool, other town parks and points of interest in the metropolitan area.

Staff consists of three Center Directors, approximately 23 group leaders, 30 group aides, five substitutes and approximately 15 specialists. Group aides and specialists also act as bus counselors.

Tax revenues support the program, and the total budget is approximately \$250,000, excluding recreation staff, rentals, fund expenditures, etc. that we don't account for.

Overall, our program is geared to provide recreation for handicapped youngsters. In addition to providing an outlet for these youngsters and a break for the parents, we are interested in socialization and interaction.

II. Number of Handicapped Served

Statements	Agree	←————→			Disagree
	5	4	3	2	1
1. Recreation programs for the handicapped should be considered <u>basic</u> to a total recreation program.	(5)	4	3	2	1
2. Evaluation procedures of a recreation program should include input in the process handicapped representations.	5	4	(3)	2	1
3. Recreation programs for the handicapped require professionally trained staff personnel.	5	(4)	3	2	1
4. Our recreation agency recognizes a need for a statewide Therapeutic Recreation Specialist for consultation with community recreation agencies.	5	4	(3)	2	1
5. The handicapped citizenry of a community have the <u>right</u> to consistent availability of recreation and leisure services.	(5)	4	3	2	1
6. Recreation programs for the handicapped are more costly than "normal" recreation program activities.	(5)	4	3	2	1
7. Insurance is a "barrier" to the initiation of recreation programming for the handicapped.	5	4	(3)	2	1
8. It is important that recreation and park professionals take action to remove architectural barriers from their present facilities and require future facilities to be barrier-free.	(5)	4	3	2	1
9. There exist some direct values to having consumer input thru handicapped people in recreation planning and design.	(5)	4	3	2	1
10. At this time, there are no <u>specific</u> federally funded programs for the provision of actual recreation services to the handicapped.	(5)	4	3	2	1

11. In many instances, existing municipal recreation and park personnel can adequately conduct and supervise recreation programs for the handicapped.	5	4	3	2	①
12. Recreation programs for the handicapped are best provided in a segregated manner--that is separate activities and facilities for the handicapped.	5	4	3	②	1
13. Recreation has the potential to promote positive change--that is it has the potential to be "therapeutic."	5	④	3	2	1
14. At the present time, local, state and federal funding assistance is sufficient to meet handicapped programming needs.	5	4	3	2	①
15. When designing recreation programs for the handicapped, integrated programs are best--those that combine handicapped and non-handicapped participation.	5	4	③	2	1
16. The involvement of municipal recreation agencies to research activity is important.	5	4	3	②	1
17. The present city government recognizes fully the importance of recreation and leisure fulfillment for its citizens and the community at large.	5	4	3	②	1
18. Recreation programs for the handicapped should be considered <u>supplemental</u> to the total recreation program.	5	4	3	2	①
19. Activity programs for the handicapped often require expenditure outlays for special recreational equipment.	5	④	3	2	1
20. Overcoming mis-perceptions and attitude barriers is often needed when initiating a recreation program for the handicapped.	⑤	4	3	2	1
