ABSTRACT

Career guidance techniques in this package focus on the competency area of lifestyle. The package is one of eight, each covering one of the following career guidance competencies that were identified and validated as needed by teachers to assist in the career development of their students: Valuing, decisionmaking, lifestyle, community resources, working relationships, occupational information, parental involvement, and tests. The teacher competency for this package involves the use of activities designed to enable learners to discover the interactions and relationships among life roles, personal lifestyle, and occupational choices. The 11 sample activities presented are titled: "Lifestyle Profile," "Collage of Individual," "Coat of Arms," "Lifestyle Influences," "Introductory Lifestyle Identification," "Lifestyle Matrix," "Lifestyle Planning," "Changes in Lifestyle," "Pairing Lifestyles and Occupation," "Adapting to a New Lifestyle," and "Life Roles and Stereotyped Roles." The following information is provided for each activity: Goals, materials required, physical setting, procedure, suggestions, grade level, group size, and time required. (TA)

* Documents acquired by ERIC include many informal unpublished *

CAREER GUIDANCE TECHNIQUES
FOR
CLASSROOM TEACHERS

- VALUING
- DECISION-MAKING
- LIFE-STYLE
- COMMUNITY RESOURCES
- WORKING RELATIONSHIPS
- OCCUPATIONAL INFORMATION
- PARENTAL INVOLVEMENT
- TESTS

This package of career guidance techniques focuses on one of eight basic career guidance competencies that were identified and validated as needed by teachers as they assist in the career development of their students. A total of eight packages are available--one in each of the above eight competency areas.

The sample activities presented here and those which you will add will enable students to obtain a better understanding of themselves, gather information which will help them determine more clearly where they might go with their life and improve their career decision-making skills. In short, each competency provides additional dimensions to the students' every-changing, every-growing career development.

You, the teacher, are the key to this dynamic process. Through your expert help, knowledge and skill--through guidance in your classroom--students can:

- come to know themselves and their capabilities
- gain control and improve their confidence
- improve their career decision-making
- gain a perspective of things learned and done and things to learn and do
- determine the resources they need to achieve multiple goals

The additions you make to the system, blended with the basics provided in these competencies, will provide for needed student growth.

INTRODUCTION.

TEACHER COMPETENCY: Enable learners to discover the interactions and relationships among life roles, personal life-style and occupational choices.

Life-style consists of all the things making up the way an individual prefers to live. These may include your attitudes, values, interests, goals, environment, family, education, etc. It is important to realize that there have been many factors influencing the development of your life-style and that in turn, life-style effects your life roles and career choices. Not all life-styles are compatible with the demands and restrictions that are inherent in many occupations. The more clearly you identify your personal style of life and are able to understand its interaction with your life roles and career choices, the more wisely you can choose an occupation that will be enjoyable and compatible.

GROUP SIZE: Class

TIME REQUIRED: 1 period

PROCESS:

1. Give each class member a profile sheet. Ask them to follow the directions on the sheet.
2. After all have completed it, ask for volunteers to relate their responses. Encourage students to participate but do not insist as they may be a very personal thing with some.

1. After the five #1's, list the most significant words that describe you (self-concept), i.e., honesty, loving).
2. In the #2 circles, list the 5 most important roles you portray in life (i.e., student, church member).
3. In the #3 circles, list 5 things most important to you, your values (i.e., popularity, wealth).
4. In the #4 circles, list your 5 most valued physical possession (i.e., motor bike).

TIME REQUIRED: 1-2 periods

PROCESS:

1. Find and cut out pictures from magazines, as follows:
 - 2 pictures of how you would like to be
 - 2 pictures of how you see yourself
 - 2 pictures of how others see you
 - 1 picture of a career you would like to choose
 - 1 picture of what you will never be
 - 1 picture of something you hate
 - 1 picture of something you fear
 - 1 picture of what you will be doing in 15 years
 - 1 picture of an animal you most resemble.
2. Paste these pictures on poster paper and give the collage a title.
3. During the following class period have students display their posters and have the class guess which pictures depict the various aspects of that person.
Then each student can explain his own.

DESCRIPTIVE ACTIVITY TITLE: Coat of Arms.

GOALS: Identify factors that make up a way of life and relate them to career choice, role at home, work, school, social activities.

MATERIALS REQUIRED

"Coat of Arms" handout

PHYSICAL SETTING

PROCESS:

1. Give each person a copy of "Coat-of-Arms" (handout page 2 of 2). Direct them to fill in the spaces as indicated.
2. If time permits, students can discuss their project in small groups or explain orally to class.

TIME REQUIRED: 1 period

PROCESS:

1. Each student develops a list of "satisfactions" (no order or category). You may use the following to start people thinking. Revise or add to it as you choose, and put it on a transparency for discussion.

Riding a bike	Being recognized for a good job
Netting a trout	Helping others
Playing with my dog	Explaining a difficult concept
Reading aloud to my children	Being a leader
A fireplace on a rainy night	Reading
	Hot buttered popcorn
	Making a new friend
2. Students talk with parents or friends for additions to their list.
3. Consider it again the next morning and at other times, but keep at it.
4. Categorize the items into "physical," "emotional," "values" or whatever.
5. Draw conclusions: enjoy the outdoors; prefer action; sedentary and spectator; etc
6. Select any priorities that seem obvious.
7. Compare or consider the conclusions with occupations you have been considering.

The exercise adds one more input of self-knowledge into choosing a career or position. It can be adapted to Competency #1 in helping to clarify personal interests, abilities and values.

8. Discuss those elements in light of the person's preferred life-style.

PROCESS:

1. Distribute the "career list" of 27 careers (sheet A) to each student and instruct them to choose three preferred careers and rank order them.
2. When completed, distribute the Forced Choice Life-style Attributes page (sheet B) and instruct them to circle their preferred choice from each pair.
3. Instruct students to (1) transfer each of their life-style attributes choices across the top of the blank Life-style Matrix (sheet C), and (2) list their three preferred careers down the left column of the matrix.
4. Distribute the Life-style Matrix (sheet D). Instruct students to compare the actual life-style characteristics on this sheet with those choices he made from the forced choice list (sheet B). If the attributes match, leave the end block empty. If they conflict, place a "C" in the box to designate a conflict between the career and your preferred attributes.
5. Proceed to trace across the other two chosen careers and compare attributes, again placing a "C" in the end block to denote conflicts.

Discussion: Discuss the extent of conflicts individuals found. Why the conflict?
Would you change attributes or career choice?
